

Flagged for repair - Set 3

43 questions held back from set 3

1. Rajesh purchased a mobile phone and a refrigerator for Rs. 12000 and Rs. 10000 respectively. She sold the refrigerator at a loss of 12 per cent and mobile phone at a profit of 8 per cent. What is her overall loss/profit?
- (a) Loss of Rs
 - (b) Profit of Rs. 2160
 - (c) Loss of Rs
 - (d) Profit of Rs. 2060
 - (e) None of these

FLAGGED - two or more options are identical after cleaning

2. The average age of mother, father and son was 42 yrs. at the time of the marriage of the son. After one year an infant was born in the family and after 6 yrs of marriage the average age of the family is 36 years. What was the age of the bride at the time of marriage. @cetexamgroup
- (a) 25 yrs
 - (b) 23 yrs
 - (c) 22 yrs
 - (d) 24 yrs
 - (e) None of these
13. 10 years ago the average age of all the 25 teachers of the Girls college was 45 years. 4 years ago, the principal has retired from her post at the age of 60 year. So after one year a new principal whose age was 54 years recruited from outside. The present average age of all the teachers is, if principal is also considered as a teacher: 18 17 1 25 years 2 years 2 3 years

DIRECTIONS (Q. 3-4)

Aman and Chirag decided to meet each other at point B. Aman started from point A at 11 : 00 a.m. and at the same time Chirag started from point C. They move towards each other to meet at point B. Chirag take 1 hour more to reach point B relative to Aman. Speed of Chirag is 20% more than speed of Aman and distance 1 covered by Aman 33 3 % less than distance covered by Chirag.

3. At what time Chirag will reach at point B?
- (a) 2 : 30 P.M
 - (b) 3 : 00 P.M
 - (c) 3 : 30 P.M
 - (d) 4 : 00 P.M
 - (e) 4 : 30 P.M
- FLAGGED** - a stacked fraction collapsed into loose digits
4. Aman would slow his speed by how much percent so that time taken by Aman and Chirag is same? (2marks)
- (a) 10%
 - (b) 25%
 - (c) 15%
 - (d) 20%
 - (e) None of these

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 5)

Answer these questions based on the information given below. PQ is a tunnel. A dog sits at a distance of $\frac{5}{11}$ of PQ from P. The train's whistle coming from any end of the tunnel would make the dog run. If a train approaches P and the dog runs towards P, the train would hit the dog at P. If the dog runs towards Q instead, it would hit the dog at Q.

5. If the speed of the train mentioned in the directions is 561 kmph and A policeman was travelling at a speed 8 which is $76\frac{17}{100}\%$ more than the speed of the dog. The policeman crossed a thief travelling at 60 kmph in the opposite direction. He had to travel for another 6 minutes before he could find a gap in the median where he could take a U turn and start chasing the thief. After they crossed each other how long would the policeman take to catch the thief? (in minute)
- (a) 30
 - (b) 36
 - (c) 42
 - (d) 45
 - (e) none of these

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 6-9)

; These questions are based on the information given below. A 72 km tunnel connects two cities P and Q. There are two gutters in the tunnel. Gutter 1 is the nearest gutter to P. The distance between gutter 1 and P is $16\frac{3}{4}\%$ less than the distance between gutter 2 and Q.

6. One day, a hospital in P received information that an accident had occurred at gutter 2. An ambulance started from P at 60 km/hr and 10 minutes later it crossed gutter 1. It doubled its speed after that. A publishing house For More Study Material 15 travelled to gutter 2 and returned back at that speed. If it takes a total of 2 minutes to take the patient into and out of the ambulance, what is the total time taken by the ambulance to shift the patient to the hospital?
- (a) 65 minutes
 - (b) 67 minutes
 - (c) 68 minutes
 - (d) 69 minutes
 - (e) None of these
7. If the distance of the tunnel increased by $66\frac{3}{4}\%$ and a cyclist starts from P to Q at 9 a.m. with a speed of 40 kmph while another cyclist starts from Q to P at a speed of 40 kmph at 10 a.m. After one hour, the first cyclist halts for 15 minutes at a place before it continues the journey while the second cyclist does not halt anywhere. At what time do the two cyclist meet?
- (a) 11:00 a.m
 - (b) 11 : 15 a.m
 - (c) 11 : 7 : 30 a.m
 - (d) 11 : 12 : 30 a.m
 - (e) None of these

FLAGGED - a stacked fraction collapsed into loose digits

8. The distance between places A and B is 999 km. An express train leaves place A at 6 am and runs at a speed of 55.5 km/h. The train stops on the way for 1 h 20 min. It reaches B at?
- (b) 12 : 00 pm
 - (c) 6 : 00 pm
 - (a) 1 : 20 am
 - (d) 11 : 00 pm
 - (e) None of these

FLAGGED - a stacked fraction collapsed into loose digits

9. A train covers a distance between station A and station B in 45 min. If the speed of the train is reduced by 5 km/h, then the same distance is covered in 48 min. The distance between stations A and B is?
- (a) 60 km
 - (b) 64 km
 - (c) 80 km
 - (d) 55 km
 - (e) None of these

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 10-11)

Ramesh and Suresh decided to meet at a common point at the same time in the river. Ramesh had to travel 42 km upstream in the river and Suresh had to travel 35% less distance downstream than that of Ramesh to meet at a common point. They both sets off in their respective boats at the same time and speed of Ramesh's boat is 20 km/hr more than the speed of Suresh boat. It is given that Suresh covers 280 km upstream in 35 hours.

10. Find the speed of stream of river?
- (a) 6 km/hr
 - (b) 8 km/hr
 - (c) 5 km/hr
 - (d) 10 km/hr
 - (e) 4 km/hr
11. After meeting, if they decided to return to their original places but Ramesh travelled for 19 km and Suresh travelled for 16 km, then what is the sum of time taken by both in covering these distances?
- (a) 150 min
 - (b) 120 min
 - (c) 180 min
 - (d) 90 min
 - (e) 60 min

FLAGGED - a stacked fraction collapsed into loose digits

12. A river is flowing at a speed of 5 km/h in a particular direction. A man, who can swim at a speed of 20 km/h in still water, starts swimming along the direction of flow of the river from point A and reaches another point B which is at a distance of 30 km from the starting point A. On reaching point B, the man turns back and starts swimming against the direction of flow of the river and stops after reaching point A. The total time taken by the man to complete his journey is
- (a) 2 h 30 min
 - (b) 3 h 12 min
 - (c) 3 h 30 min
 - (d) 3 h 45 min
 - (e) None of these can cover D km in upstream in time which is equal to new speed of current. Find D?
- (Note: speed of boat in still water is multiple of 5)

FLAGGED - option text still carries the next question

DIRECTIONS (Q. 13-14)

Ramesh and Suresh decided to meet at a common point at the same time in the river. Ramesh had to travel 42 km upstream in the river and Suresh had to travel 35% less distance downstream than that of Ramesh to meet at a common point. They both sets off in their respective boats at the same time and speed of Ramesh's boat is 20 km/hr more than the speed of Suresh boat. It is given that Suresh covers 280 km upstream in 35 hours.

13. A boat can cover 28 km downstream in 42 min. ratio of speed of boat in still water to speed of stream is 7 : 3. Find difference between time taken by boat to cover 60 km downstream & 40 km upstream.
- (a) 2.25 hr
 - (b) 1 hr
 - (c) 1.5 hr
 - (d) 0.4 hr
 - (e) 0.9 hr

FLAGGED - a stacked fraction collapsed into loose digits

14. Speed of a boat in still water is 12 kmph and speed of stream is 'x' kmph. If in traveling 270 km upstream 2 boat takes 66 3% more time than traveling 270 km downstream, then find the value of 'x'.
- (a) 2 kmph
 - (b) 4 kmph
 - (c) 1 kmph
 - (d) 3 kmph
 - (e) 6 kmph

FLAGGED - a stacked fraction collapsed into loose digits

15. In the given figure, $OP = PQ = 14$ cm and semicircles are drawn on OP , PQ and OQ as diameters. Then, the perimeter of the shaded area is: Q O P
- (a) 88 cm
 - (b) 176 cm
 - (c) 264 cm
 - (d) 352 cm
 - (e) None of these

FLAGGED - asks about a graph/table that has no usable image

16. In the given figure, circle P has diameter 2 m and circle Q has diameter 1 m. Find the area of the shaded region? P Q 3 3 3
- (a) 4π
 - (b) 7π
 - (c) 5π
 - (d) 4π
 - (e) None of these

FLAGGED - asks about a graph/table that has no usable image

17. In the given figure, QRST is a square. If the area of each circle is 2π , then find the area of square QRST? Q R T S
- (a) $\sqrt{4\pi^2}$
 - (b) $\sqrt{4\pi}$
 - (c) 32
 - (d) 16
 - (e) None of these

FLAGGED - asks about a graph/table that has no usable image

18. In the given figure, if O is the centre of the circle, then find the value of y? $\angle POQ = 51^\circ$

- (a) 78°
- (b) 77°
- (c) 76°
- (d) 75°
- (e) None of these

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 19)

Solve the given quadratic equations and mark the correct option based on your answer—

19. (i) $x^2 + 5x = 5(2x + 3x)$ (ii) $3y^2 + 2y = 2(y + 6)$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$ or no relation can be established between x and y

FLAGGED - an equation lost its exponent and no longer matches the key

DIRECTIONS (Q. 20-24)

Given below pie chart shows percentage distribution of total orders of ice cream purchased by five different shops and table shows percentage of orders of ice cream sold by these five shops. Read the data carefully and answer the questions. Total orders of ice cream purchased by all shops together = 400

Shops	Percentage of order of ice cream sold out of total order purchased
A	60%
B	75%
C	80%
D	95%
E	90%

20. Total unsold order of ice cream by shop E is what percent more than total unsold order of ice cream by shop D?

- (a) 30%
- (b) 50%
- (c) 40%
- (d) 20%
- (e) 60%

FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image

21. Out of total order of ice cream sold by shop B, 25% are chocolate, 15% are vanilla and rest are strawberry. If $\frac{1}{3}$ of total order of chocolate and $\frac{3}{4}$ of total order of vanilla were sold, then find the total orders of strawberry purchased by B?

- (a) 19
- (b) 27
- (c) 29
- (d) 23
- (e) 21

FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image

22. Find average number of unsold orders of ice cream for A, B & E?

- (a) 14
- (b) 12
- (c) 16
- (d) 18
- (e) 22

FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image

23. If total orders of ice cream purchased by shop X is 25% more than that of B and total unsold orders of ice cream by shop X is equal to difference between total unsold orders of ice cream by shop C & D, then find total sold orders of ice cream by shop X?
- (a) 76
 - (b) 78
 - (c) 72
 - (d) 70
 - (e) 64

FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image

24. Find the central angle for total orders of ice cream purchased by C?
- (a) 96°
 - (b) 102°
 - (c) 112°
 - (d) 108°
 - (e) 126°

FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image

DIRECTIONS (Q. 25-27)

Given below table shows number of seats available in five different buses and percentage of seats booked in these buses out of total available seats. Read the data carefully and answer the questions. Percentage of Total seats Buses seats booked, out available of total available seats A 20 60% B 24 75% C 15 60% D NA 80% E NA 62.5% Note – Total seats available in any bus = Booked seats + Vacant seats (ii) Total seats available in bus D & E together is 65. (ii) Total vacant seats in all five buses are 40.

25. If total vacant seats in bus C is 60% less than that of in bus E, then find number of vacant seats in D?
- (a) 6
 - (b) 5
 - (c) 4
 - (d) 7
 - (e) 3

FLAGGED - a stacked fraction collapsed into loose digits

26. Find ratio of total vacant seats in bus B to total booked seats in bus A?
- (a) 1 : 3
 - (b) 1 : 2
 - (c) 2 : 3
 - (d) 3 : 4
 - (e) 1 : 1

FLAGGED - a stacked fraction collapsed into loose digits

27. Vacant seats in bus C are what percent less than vacant seats in bus A?
- (a) 15%
 - (b) 20%
 - (c) 30%
 - (d) 25%
 - (e) 36%

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 28)

The following questions are accompanied by three statements (A) or (I), (B) or (II), and (C) or (III). You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

28. What is the cost price of an article? A. After allowing a discount of 15% on marked price the shopkeeper charges Rs 1020 for it. B. If he had not allowed any discount, he would have had a profit of 47 17 % . C. If he had allowed only 10% discount on marked price, he would have had 32 17 % profit.

- (a) Any two of them
- (b) Only A and B together
- (c) Only B and C together
- (d) A and either B or C
- (e) Only A

FLAGGED - a stacked fraction collapsed into loose digits

29. What is the staff strength of Company 'X'? A. Male and female employees are in the ratio of 2 : 3 respectively. B. Of the officer employees 80% are males. C. Total number of officers is 132.

- (a) A and C only
 - (b) B and either C or A only
 - (c) All A, B and C
 - (d) Any two of the three
 - (e) Question cannot be answered even with the information in all the three statements
- Directions (10-12): The following questions accompanied by three statements A, B and C. You have to determine which statement(s) is/are necessary/sufficient to answer the question

FLAGGED - option text still carries the next question

30. Find area of a rectangle. A. Length and breadth of the rectangle are in the ratio of 4 : 3. B. Sum of the lengths of diagonals of the rectangle is 50 m. C. Area of a square is 1225 m², whose perimeter is twice the perimeter of the rectangle.

- (a) Only A and B together
 - (b) Only A and C together
 - (c) All the three together
 - (d) Any two of the three together
 - (e) Either A and B together or A and C together
- Directions (16-18): The following questions accompanied by three statements A, B and C. You have to determine which statement(s) is/are necessary/sufficient to answer the question

FLAGGED - option text still carries the next question

31. What is the cost price of an article? A. Selling price of 6 articles is equal to the cost price of 7 such articles. B. If the shopkeeper had allowed a discount of Rs.40 on the original selling price, he would have had 10% profit. C. If he had sold the article at 14 7 % less than the original selling price, he would have had no profit or loss.

- (a) Only A and B together
 - (b) All the three together are not sufficient
 - (c) Either A and B together or B and C together
 - (d) Only B and C together
 - (e) Any two of three together
- Directions (19-20): The following questions are accompanied by three statements A, B and C. You have to determine which statement(s) is/are necessary/sufficient are to answer the question

FLAGGED - a stacked fraction collapsed into loose digits; option text still carries the next question

DIRECTIONS (Q. 32)

Each of these questions is followed by information in Statements I, II and III. You have to study the questions and statements and decide which of the statements is/are necessary to answer the questions.

32. What is the two-digit number?

- I. Number obtained by interchanging the digit is more than the original number by 9.
II. Sum of the digits is 7. III. Difference between the digits is 1.

- (a) I and III
(b) I and II
(c) II and III
(d) II and either I or III

(e) Any two of I, II and III
Direction (14): Follow the given instructions. Each item has a question followed by two statements. Statement I alone Statement II alone the statements but not with the help of either statement itself of both the statements. statements

FLAGGED - option text still carries the next question

33. Who among the following person stands immediately below Elena?

- (a) Fazil with respect to the final arrangement?
(b) The one who stands on the same step with I. Indhu and Elena stands at the different Pravin staircase
(c) The one who stands on the same step with II. Tejas stands on one of the steps above Sophia Pravin
(d) Balan III. Omar stands below Ruby
(e) Ruby

FLAGGED - refers to an arrangement/set that was never extracted

34. Who among the following person was born

- (a) Eight persons-A, B, C, D, E, F, G, and H are
(b) The one who born immediately before Q sitting on the circular table facing inside. They
(c) U are born on two different dates either 8 or 17 of
(d) T four different months- January, April, June, and
(e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

DIRECTIONS (Q. 35)

Answer the questions based

35. How many floors are there in the building? a) Flat A, floor 2

- (a) 9
(b) Flat B, floor
(c) Flat A, floor
(d) Flat B, floor
(e) None of these

FLAGGED - two or more options are identical after cleaning

36. Which key is used to delete characters to the left of the cursor?

- (a) Tab
(b) Page Down
(c) Delete
(d) Backspace
(e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

37. ENIAC belongs to which computer generation?

- (a) Second
- (b) First
- (c) Third
- (d) Fourth
- (e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

38. What is the smallest and largest font size available in Font Size tool on formatting toolbar?

- (a) 8 and
- (b) 8 and
- (c) 12 and
- (d) 10 and
- (e) None of these

FLAGGED - two or more options are identical after cleaning

39. The minimum number of rows and columns in MS Word document is

- (a) 1 and
- (b) 2 and
- (c) 2 and
- (d) 3 and
- (e) None of these

FLAGGED - two or more options are identical after cleaning

40. If you want to convert a symbol or several lines of text into an AutoCorrect entry, you should:

- (a) Insert the symbol or type the text in a Word document first. Then, select the text or symbol and go to the AutoCorrect dialog box
- (b) Click the Tools menu and choose AutoCorrect Options. Then, click the Insert menu and choose Symbol (or click the Format menu and choose Paragraph) to add the symbol or paragraph to AutoCorrect
- (c) AutoCorrect can only accommodate one line of text. It is not possible to convert a symbol or multiple lines of text into an AutoCorrect entry
- (d) Insert the symbol or type the text in a Word document first. Then, select the text or symbol and click the Edit menu followed by Paste Special. Select New AutoCorrect Entry and then click OK
- (e) None of the above

FLAGGED - option text still carries the next question

41. What is the shortcut key to move one word to the left in MS Word?

- (a) Tab + Left Arrow
- (b) Alt + Left Arrow
- (c) Shift + Left Arrow
- (d) Ctrl + Left Arrow
- (e) None of the above REPORT THE ERROR IN CAPSULE at banking@

FLAGGED - refers to an arrangement/set that was never extracted

42. When you save a Microsoft Access project, what file format do you use?

- (a) adp
- (b) Xml
- (c) mbd
- (d) All of the above

(e) None of the above Solutions: S1. Ans.(d) S15.Ans.(b) S2. Ans.(c) Sol. A database management system (DBMS) is system software for creating and managing databases. A DBMS makes it possible for end users to create, read, update and delete data in a database. S16.Ans.(c) Sol. In second generation, magnetic cores were used as primary memory and magnetic tape and magnetic disks as secondary storage devices. S3. Ans.(a) S17. Ans. (a) S18. Ans.(c) S4. Ans.(b) S19. Ans.(c) S5. Ans.(d) Sol. PROM or programmable ROM (programmable read-only memory) is a computer memory chip that can be programmed once aft

FLAGGED - option text still carries the next question

43. What is the shortcut key to move one word to the left in MS Word?

- (a) Tab + Left Arrow
- (b) Alt + Left Arrow
- (c) Shift + Left Arrow
- (d) Ctrl + Left Arrow
- (e) None of the above

FLAGGED - refers to an arrangement/set that was never extracted
