DIRECTIONS (Q. 55)

Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand. Unlike traditional casinos, which rely on physical establishments, online betting platforms leverage advanced digital algorithms, artificial intelligence, and blockchain technology to ensure seamless transactions and enhanced security. The immediacy of placing wagers from mobile applications, coupled with the gamification of betting interfaces, has rendered the experience far more engaging than conventional casino gambling. Furthermore, the integration of live-streaming services within spo

55. Based on the passage, how has the U.S. decision to legalize online betting impacted global gambling trends?
- (a) It has primarily benefited U.S. sports leagues, while the global gambling industry remains unaffected due to differing regulatory structures
 - (b) The passage suggests that U.S. legalization has caused a worldwide increase in problem gambling, overwhelming responsible gambling initiatives
 - (c) The ripple effect of this decision has influenced European markets by increasing sports engagement and enhancing revenue streams for clubs and leagues
 - (d) The passage implies that U.S. legalization has had minimal influence outside its borders, as most online gambling companies operate independently of U.S. laws
 - (e) The global sports industry has opposed this change, fearing that the rise of online betting could reduce traditional in-person viewership

56. The speed of stream is $\frac{1}{6}$ of downstream speed of the boat and the boat covers 120 km upstream in five hours. If the boat covers D-3 km downstream and D+30 (at speed of boat in still water) in 5.5 hours, then find the value of D?
- (a) 55
 - (b) 75
 - (c) 80
 - (d) 60
 - (e) 45

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 57)

Study the following information carefully and answer the questions given below: Seven persons i.e., A, B, C, D, E, F and G but not necessarily in the same order are living in a seven-floor building such that the ground floor is numbered as 1, just above it is floor 2, then the topmost floor is numbered as 7. Each person likes different colors i.e., Green, Red, Violet, Purple, Black, Pink and White but not necessarily in the same order. G lives on even number floor but three floors above the one who likes Black. There are as many persons live above the one who likes Purple as below the one who likes Black. C lives two floors above the one who likes white who lives on odd numbered floor. C does not like Black. B lives two floors above the one who likes Violet. The one who likes green lives just above the one who likes Pink. More than three persons live between E and F who lives just above D.

57. Which of the following statements is true?
- I. G does not live on prime numbered floor
 - II. A lives above the one who likes red
 - III. At least two floors gap between G and F
- (a) Only III
 - (b) Both I and II
 - (c) Only I
 - (d) Both II and III
 - (e) None is true
- Solutions S1. Ans.(a) Sol. The sentence discusses a sudden announcement of layoffs and how employees felt the decision had already been made in advance. "Abrupt" means sudden and

unexpected, often in a way that seems rude or shocking, which correctly describes the nature of the announcement. The second blank requires a word that suggests the decision was already made, and "predetermined" means decided or fixed in advance, not influenced by later events or decisions, making it the most logical choice. Meanings of all options: • Abrupt – sudden and unexpected, often in a way that fe

DIRECTIONS (Q. 58-59)

Read the passage given below and answer the following questions. Dr. Johnson walked into the break room and saw Dr. Smith sitting at the table, reading a medical journal. She grabbed a cup of coffee and joined him. "Hey there, how's your day going?" she asked. Dr. Smith looked up from his journal and sighed. "It's been pretty hectic. I've had a lot of patients today with serious medical conditions. It's always tough to deliver bad news to them." "I know what you mean," Dr. Johnson said. "I had a patient today who was recently diagnosed with cancer. It's hard to see them going through such a difficult time." Dr. Smith nodded in agreement. "But that's why we do what we do. We have to be strong for our patients and help them through their challenges. It's a tough job, but it's also incredibly rewarding." The two doctors finished their coffee and headed back to their patients, ready to face whatever challenges the day might bring. As they walked down the hall, Dr. Johnson continued the conversation. "You know, I was thinking about the new treatment option for cancer that was discussed in that journal you were reading. Have you tried it with any of your patients?" Dr. Smith nodded. "Yes

58. What did Dr. Smith say about his day when Dr. Johnson asked him how it was going?

- (a) Dr. Smith replied that his day was going well as he was able to diagnose and treat many patients effectively
- (b) Dr. Smith said that his day was average, but he had some interesting cases that challenged his medical knowledge
- (c) Dr. Smith replied that his day was pretty hectic as he had a lot of patients with serious medical conditions, and it was tough delivering bad news to them
- (d) Dr. Smith said that his day was dull and uneventful, and he was hoping for some more exciting cases in the future
- (e) Both

FLAGGED - option text still carries the next question

59. What did the two doctors feel grateful for with regard to their profession?

- (a) Dr. Johnson was sad while parting ways but was grateful for the support he received from his colleagues, which helped him to face the challenges of his profession
- (b) The two doctors felt grateful for the opportunity to work in a field that was constantly evolving and advancing, providing new treatment options and hope for their patients
- (c) Dr. Johnson and Dr. Smith were grateful for the financial rewards that came with their profession, which allowed them to live comfortable and fulfilling lives
- (d) Both
- (e) All of these

DIRECTIONS (Q. 61)

The line chart given below shows the number of people (males + females) visited five different Pubs in 2010 and in 2015. 1

61. In 2010, the ratio of males to females visited pub A is 3:2. If 33 3% of the total males and 1/4 of total females went by their private vehicle, then find the number of people went by public vehicles.

- (a) 35
- (b) 20
- (c) 30
- (d) 36
- (e) 24

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 62-64)

The following questions are accompanied by two statements (i) and (ii). You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

62. What profit is earned by selling a bike for Rs 50000. i. The ratio of selling price and cost price is 2:1. ii. The profit percentage by selling a bike is equal to 25%.

- (a) Statement I alone is sufficient to answer the question but statement II alone is not sufficient to answer the question
- (b) Statement II alone is sufficient to answer the question but statement I alone is not sufficient to answer the question
- (c) Both the statements taken together are necessary to answer the question, but neither of the statements alone is sufficient to answer the question
- (d) Either statement I or statement II by itself is sufficient to answer the question
- (e) Statements I and II taken together are not sufficient to answer the question

FLAGGED - option text still carries the next question

63. The average age of A, B and C is 32 years, what will the age of A after three years. i. The ratio between present age of A to that of C is 11 : 12, while age of B is 9 years less than C. ii. The ratio between present age of A to that of B is 11 : 9 , while ratio between present age of B to that of C is 9 : 12.

- (a) Statement I alone is sufficient to answer the question but statement II alone is not sufficient to answer the question
- (b) Statement II alone is sufficient to answer the question but statement I alone is not sufficient to answer the question
- (c) Both the statements taken together are necessary to answer the question, but neither of the statements alone is sufficient to answer the question
- (d) Either statement I or statement II by itself is sufficient to answer the question
- (e) Statements I and II taken together are not sufficient to answer the question

FLAGGED - option text still carries the next question

64. In how many days Arun alone completes the work. i. Arun and Amit can complete a piece of work in 9 days.
 II. Akanksha and Arun can complete a piece of work in 3 days.
- (a) Statement I alone is sufficient to answer the question but statement II alone is not sufficient to answer the question
 (b) Statement II alone is sufficient to answer the question but statement I alone is not sufficient to answer the question
 (c) Both the statements taken together are necessary to answer the question, but neither of the statements alone is sufficient to answer the question
 (d) Either statement I or statement II by itself is sufficient to answer the question
 (e) Statements I and II taken together are not sufficient to answer the question

FLAGGED - option text still carries the next question

DIRECTIONS (Q. 65)

The pie chart given below shows the percentage distribution of number of people (Male+ Female) visited a zoo on five different days of a week. Note: (i) portion occupied on Friday = 90° . (ii) Total number of people visited the zoo on five different days is 1000.

65. The ratio of males who visited zoo on Monday to the females who visited on Sunday is 7:9 respectively. The sum of males visited zoo on Monday and females visited zoo on Sunday is
- (a) Cannot be determined
 (b) None of these
 (c) 300
 (d) 150
 (e) 240

FLAGGED - asks about a graph/table that has no usable image

66. If it is possible to make a five-letter meaningful word with the second, fourth, sixth, ninth and eleventh letters of the word "ORIGINATIVE", then how many meaningful words can be formed?
- (a) One
 (b) Two
 (c) Three
 (d) Four
 (e) None
- Solutions S1. Ans.(c) Sol. Among the given options, only statement (c) is correct. While the rest of the statements are incoherent based on the information provided in the given passage. Option (c) is based on the information given in the third line of the first paragraph, where Dr. Smith replied to Dr. Johnson's question about how his day was going. S2. Ans.(c) Sol. Among the given options, only statement (c) is correct. While the rest of the statements are incoherent based on the information provided in the given passage. Refer to the third line of the second paragraph which states that

FLAGGED - option text still carries the next question

67. A family consists of eight members with three generations. who among the following person is the uncle of M? Statement I: G is the mother of P, who is the only son of L. G has only two children. R is the wife of P. T is the sister-in-law of R, who doesn't have any siblings. M is the niece of T, who is an unmarried person in the family. Statement II: R is the daughter-in-law of G, who is the grandmother of M. M is the son of U, who doesn't have any siblings. X is the brother-in-law of U. G has only one son. X is not the brother of R.
- (a) If the data given in statement I alone is sufficient to answer the question
 (b) If the data given in statement II alone is sufficient to answer the question
 (c) If the data given in either statement I alone or statement II alone is sufficient to answer the question.
 (d) If the data given in both statement I and statement II together are necessary to answer the question
 (e) If the data given in both statements I and II together are not sufficient to answer the question

FLAGGED - option text still carries the next question; refers to an arrangement/set that was never extracted

68. Seven persons – P, Q, R, S, T, U and V are reading books on seven different days from Monday to Sunday of the same week. Who reads the book immediately before P? Statement I: Only four persons read between S and P. T reads two days after P. The number of persons read before T is one less than the number of persons read after V. U reads on one of the days after V. Statement II: U reads on one of the days after Friday. Only one person reads between U and T. As many persons read between T and V as between Q and T. P reads immediately before V.
- If the data given in statement I alone is sufficient to answer the question
 - If the data given in statement II alone is sufficient to answer the question
 - If the data given in either statement I alone or statement II alone is sufficient to answer the question
 - If the data given in both statement I and statement II together are necessary to answer the question
 - If the data given in both statements I and II together are not sufficient to answer the question.

DIRECTIONS (Q. 69-76)

Read the following passage and answer the given questions. India's electric vehicle (EV) industry is undergoing a profound transformation. Once marred by scepticism, financial constraints, and infrastructural shortcomings, the sector is now accelerating toward a cleaner, technology-driven future. The most notable momentum is observed in the electric two-wheeler (E2W) segment, where sales have reached a significant 18 million units. This surge is fuelled by a combination of factors: evolving consumer preferences, cost-efficiency, and concerted policy interventions aimed at mainstreaming e-mobility. The industry's initial journey was fraught with economic setbacks. High battery costs, limited product availability, and nascent infrastructure impeded early adoption. Traditional automotive giants exercised caution, while start-ups and new entrants struggled with scalability and profitability. However, technological breakthroughs, particularly in battery design, have ushered in a phase of renewed optimism. Enhanced energy density, reduction in dependency on expensive raw materials such as cobalt, and advances in battery recycling have significantly curtailed production costs. 19 www.bank

69. Which of the following statements can be logically inferred from the passage? (I) The Indian government's infrastructural and fiscal policies are not only supporting existing EV manufacturers but are also influencing traditional automobile companies to shift strategies. (II) Technological innovations have not only made EVs cheaper to produce but have also contributed to features that align with changing consumer demands. (III) The growth of electric vehicles in India has primarily been driven by rural demand and local manufacturing incentives.
- Only (I)
 - Both (I) and (II)
 - Only (III)
 - Both (I) and (III)
 - All (I), (II), and (III)

70. Identify the statement(s) that is/are factually and contextually CORRECT based on the passage. (I) The EV industry in India initially faced setbacks due to cautious investment by established companies and the high cost of batteries. (II) Artificial intelligence in EVs has been used primarily to enhance battery lifespan and reduce energy consumption during idle periods. (III) Government policies like FAME-II and EMPS 2024 have been instrumental in overcoming consumer hesitation about switching to electric mobility.
- Only (I)
 - Both (I) and (III)
 - Only (II)
 - Both (II) and (III)
 - All (I), (II), and (III)

71. Which of the following statement(s) present an incorrect interpretation of the ideas conveyed in the passage? (I) The integration of artificial intelligence in electric vehicles caters primarily to the operational needs of logistics and fleet companies rather than individual consumers. (II) The decline in dependency on materials like cobalt has completely eliminated supply chain issues in EV manufacturing. (III) The Indian EV market's rapid growth is largely a result of rural consumers adopting two- and three- wheelers for agricultural use.

- (a) Only (I)
- (b) Both (I) and (III)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Only (II)

72. Identify the statement(s) that correctly infer the nature of challenges faced by India's EV sector according to the passage. (I) The EV industry continues to be hindered primarily by a lack of technological advancement in vehicle software and battery chemistry. (II) Although much of the ecosystem has matured, rural infrastructure gaps and grid limitations remain significant barriers to full-scale adoption. (III) High initial costs of EVs and lack of market competition remain the biggest reasons for low consumer interest in electric vehicles.

- (a) Only (I)
- (b) Both (I) and (III)
- (c) Only (II)
- (d) Both (II) and (III)
- (e) Only (III)

73. Which of the following statement(s) reflect an incorrect or skewed interpretation of the role of government policies in India's EV transition, based on the passage? (I) The Indian government's initiatives are mainly focused on subsidising vehicle buyers and offer minimal support for infrastructure development or battery recycling. (II) Policies like EMPS 2024 are aimed at shifting consumer behaviour through digital education and awareness campaigns rather than providing any material infrastructure. (III) FAME-II and Battery-as-a-Service are part of an integrated policy framework aimed at increasing EV adoption through financial, infrastructural, and operational support.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) Only (II) 21

77. In each of the questions, two words are omitted, which are replaced by blanks. Choose the best combination of the words that can fit into the given blank in the same order so to make a grammatically and logically correct statement. Although the diplomatic overtures appeared conciliatory on the surface, they barely managed to _____ the deep-seated mistrust between the two nations, making the entire engagement seem more like a performative gesture than a genuine attempt to _____ longstanding hostilities.

- (a) mask, perpetuate
- (b) address, rekindle
- (c) mitigate, dismantle
- (d) conceal, ignite
- (e) fabricate, intensify

DIRECTIONS (Q. 78-79)

Read the following passage and answer the given questions. The traditional interview process often relies on the candidate's ability to describe their prior experiences, qualifications, past work duties, and skillsets — an approach that creates a larger barrier to recruitment and selection for most non-native speakers. Managers should consider whether candidates should be tested on their ability to talk or write about their skills, or on their ability to demonstrate these skills in practice. To this end, rather than testing oral or written communication aptitude, companies can adopt innovative ways to test practical and technical on-the-job skills, in which candidates are asked to perform a task and are _____ on their proficiency in execution rather than language fluency. For example, specific skills assessments such as coding tasks in IT, computational challenges in finance, or portfolio reviews in creative professions or construction would allow candidates to demonstrate their potential contribution to the role. Additionally, some employers work with bilingual managers and assigned mentors who can support refugees in their work transition when needed. Others rely on tec

78. Which of the following best summarizes the central argument presented in the passage?

- (a) Traditional interviews are universally effective in assessing a candidate's communication and job performance skills, especially for native speakers
- (b) The interview process should continue to prioritize oral and written communication to maintain professional standards across industries
- (c) Recruitment strategies must evolve to emphasize candidates' practical demonstration of skills over their verbal articulation, especially to support non-native speakers and promote inclusivity
- (d) All organizations must adopt a single standardized skill assessment model that eliminates interviews altogether to ensure fairness in selection
- (e) Language proficiency tests should be made more rigorous in interviews to ensure only well-spoken professionals are recruited

FLAGGED - option text still carries the next question

79. What assumption does the author make about the relationship between language skills and job performance?
- (a) High language proficiency always results in high job productivity, particularly in technical roles
 - (b) Language skills are irrelevant in all professional fields and should not be a consideration in recruitment
 - (c) Fluency in communication may not accurately reflect a candidate's job capabilities, and overemphasis on it can limit access for capable non-native speakers
 - (d) Multilingual individuals automatically outperform monolingual individuals due to broader vocabulary and cultural awareness
 - (e) Employees with poor communication skills will struggle regardless of their technical competency

FLAGGED - option text still carries the next question

80. Two roots of equation $x^2 - Px + 84 = 0$ is 'a' and 'b', and $a-b = 5$. Quantity I: Value of $2P$ Quantity II: Value of $b^2 - a + 1$

- (a)
- (b)
- (c)
- (d)
- (e)

DIRECTIONS (Q. 81)

There are two series I and II given below, and both series follows the same pattern. Find the missing terms of series II and answer the following questions.

81. Find the 50% of $Q + R$? Q

- (a) 80
- (b) 75
- (c) 60
- (d) 107
- (e) 100

FLAGGED - stem is too short to be a question; asked in Hindi; no English half to keep

82. Statement: In a recent national policy announcement, the government mandated that all private companies with over 100 employees must ensure at least 30% female representation in their leadership roles by 2027. This move is expected to reduce the gender gap in corporate governance. However, some critics argue that without structural support like affordable childcare and safe transportation, achieving this target may be difficult. Based on the above statement, which of the following can be inferred?

- I. The government is taking measures to promote gender equality in corporate leadership.
- II. Private companies are not currently required to ensure any female representation.
- III. Supporting infrastructure is crucial for the success of gender-related policy goals.

- (a) Only I is correct
- (b) Only III is correct
- (c) Both I and III are correct
- (d) Both II and III are correct
- (e) All I, II, and III are correct

FLAGGED - refers to an arrangement/set that was never extracted

DIRECTIONS (Q. 83)

Read the given information carefully and answer the questions based on it:

83. What is the difference between the money deposited by Y and K? Y

- (a) Rupees
- (b) Rupees
- (c) Rupees
- (d) Rupees
- (e) None of these

FLAGGED - two or more options are identical after cleaning
