

Banking Question Bank - Set 6

407 questions with verified answer keys

DIRECTIONS (Q. 1-4)

Study the graph given below and answer the questions that follow. The table shows the no. of students from different schools in a contest. The graph shows the no. of students who cleared round 1 and round 2. Note : Only those who clear round 1 participate in round 2.

No. of students from different schools in a contest	
A	400
B	500
C	300
D	250
E	450
F	600

1. What is the ratio of number of students from school A and C together who were rejected in round 2 to the number of students from school B and F together who were rejected in round 1 ?

- (a) 3 : 8
- (b) 2 : 5
- (c) 7 : 8
- (d) 3 : 7
- (e) None of these

Answer (c) 7 : 8

2. The number of students rejected in round 2 from all the schools together is what percent of the number of students rejected in round 1 from all the schools together ?

- (a) 75%
- (b) 50%
- (c) 20%
- (d) 25%
- (e) None of these

Answer (c) 20%

3. The ratio of girls to boys from school E who got rejected in round 2 is 2 : 3 and that from school C is 1 : 4. Then find the ratio of number of girls from both these schools who got rejected in round 2 to that of boys from the same school ?
- (a) 7 : 10
 (b) 3 : 8
 (c) 3 : 7
 (d) 7 : 8
 (e) None of these

Answer (b) 3 : 8

4. If 20% of the students from school C, D and E together, who cleared round 1, failed to attend round 2, then find the number of students from these schools, who got rejected in round 2 ?
- (a) 40
 (b) 60
 (c) 50
 (d) 30
 (e) None of these

Answer (a) 40

DIRECTIONS (Q. 5-7)

The following data shows the working hours for three employees in week days to complete a task. The working hours also indicates the time taken by them to complete the same task alone. Read the following questions and answer carefully. A B C 9 8 7 6 5 4 3 2 1 0 Monday Tuesday Wednesday Thursday Friday Saturday

5. What is the difference between average of working hours of A on Monday and Saturday together and average of working hours B on Friday and Saturday together?
- (a) 0
 (b) 1
 (c) 0.5
 (d) 2
 (e) $2.5 \times 8 + 4 \times 2 = 6 \quad 5 + 7 \quad B : 2 = 6$ Difference = 0

Answer (e) $2.5 \times 8 + 4 \times 2 = 6 \quad 5 + 7 \quad B : 2 = 6$ Difference = 0

6. Working hours on Friday by A, B and C are the time taken by them to complete a work alone. How much time will they take to complete thrice the same work working together? 2
- (a) 6 13 days
 (b) 4
 (d) 4 days
 (e) 4 Time taken to complete thrice the work =
 (c) $18 : 18 : 7 \quad 8 \quad 8 \quad 13 \text{ days} \quad 13 \text{ days} \quad 3 \quad 13 \text{ days} \quad 20 \times 3 \quad 8 \quad 13 = 4 \quad 13 \text{ days}$

Answer (e) 4 Time taken to complete thrice the work =

7. What is the ratio of total work hour of A and C together throughout the week to that of B throughout the week ?
- (a) 7 : 5
 (b) 5 : 2
 (c) 31 : 13
 (d) 37 : 15
 (e) 74 : 33 So, required ratio = 74 : 33

Answer (a) 7 : 5

DIRECTIONS (Q. 8-10)

Study the data given below and answer the following questions. The pie charts shown below shows the distance covered by a boat moving upstream and downstream on different days of a week. And the table shows the speed of stream in km/hr. on different days of a week. Total distance covered upstream = 4800 km

Day	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Upstream %	10%	12%	10%	16%	14%	20%	10%

And the table shows the speed of stream in km/hr. on different days of a week.

Day	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Speed of stream (km/hr)	15	18	12	16	14	20	10

8. If the time taken by boat to travel upstream on Wednesday is times than the time taken to travel downstream on Monday and the speed of boat in still water on Monday is 15 kmph then find the speed of boat in still water on Wednesday? (speed of boat in still water is different for different days)

- (a) 52 kmph
- (b) 62 kmph
- (d) 48 kmph
- (e) 46 kmph
- (c) 42 kmph

Answer (b) 62 kmph

9. If the time taken by boat to travel upstream on Monday is 27 5 hrs. more than the time taken by it to travel downstream on the same day, then find the speed of boat in still water on Monday ?

- (a) 25 kmph
- (b) 18 kmph
- (c) 20 kmph
- (d) 15 kmph
- (e) 10 kmph

Answer (d) 15 kmph

10. If the time taken by boat to travel upstream on Friday is 30 hours more than the time taken by it to travel downstream on Wednesday and the speed of boat in still water on Friday is 17 kmph, then find the upstream speed of boat on Wednesday? (speed of boat in still water is different on different days)

- (a) 27 kmph
- (b) 22 kmph
- (c) 20 kmph
- (d) 25 kmph
- (e) 10 kmph

Answer (c) 20 kmph

-
11. What is the final output of the third statement of the given input?

- (a) #rx%
- (b) #tv%
- (c) #xr%
- (d) #vt%
- (e) None of these

Answer (a) #rx%

12. Find the code for the phrase 'SMART WORK EASY' using the given conditions?

- (a) 463@4 57&# @46!
- (b) 66@9# 4&92 \$@46
- (c) 83!!3 72!6 943!
- (d) 7242! #54@ 83!%
- (e) None of these

Answer (b) 66@9# 4&92 \$@46

13. What will be the possible word for the code '5&44!46!4# \$8\$926' with respect to the given conditions?
- (a) CONTINUOUS ACTIVE
 - (b) SUBSTITUTE OBJECT
 - (c) PERMANENT COURSE
 - (d) CONSISTANT ENERGY
 - (e) Cannot be determined
- Answer (d) CONSISTANT ENERGY**
14. Find the word which best suits to the code '8863&2&28' using the given conditions.
- (a) PSYCOLOGY
 - (b) PHENOMINA
 - (c) ENLIGHTED
 - (d) SYNERGIZE
 - (e) Cannot be determined
- Answer (c) ENLIGHTED**
15. What will be the code for the word 'ADVENTURE' with respect to the given conditions?
- (a) \$58\$46#9@
 - (b) @28\$46#9\$
 - (c) @58\$46#9\$
 - (d) \$28*46*9@
 - (e) None of the above
- REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM
ANSWER INPUT & OUTPUT
- Answer (d) \$28*46*9@**
16. If P@J*U, then how J is related to M and how many female members are there in this family?
K%G\$L, U&M, U@T%L@V
- (a) Son-in-law and Five
 - (b) Father-in-law and Six
 - (c) Brother-in-law and Five
 - (d) Son-in-law and Six
 - (e) Father-in-law and Four
- Answer (d) Son-in-law and Six**
17. If all the unknown genders are female, then which of the following statement(s) is/are true?
- (a) J+Q
 - (b) D\$∞M@R
 - (c) Z@∞J+K
 - (d) Both a and c
 - (e) Both b and c
- Answer (d) Both a and c**
18. If M%∞D#∞F, then how is F related to P?
- (a) Niece's husband
 - (b) Nephew's son-in-law
 - (c) Nephew's daughter-in-law
 - (d) Sister's grand-daughter
 - (e) Either b or c
- REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM
ANSWER INPUT-OUTPUT
- Answer (b) Nephew's son-in-law**

19. I $x^2 - 3x - 18 = 0$ Required Options Are as Below II $y^2 + 11y + 18 = 0$

- (a) 1,2,3 103 I $4x + 7y = 26$
- (b) 2,3,1 II $8x + 14y = 12$
- (c) 3,5,1
- (d) 3,4,5
- (e) 1,5,2 II $y^2 + 9.5y + 15 = 0$ Q. Which of the following Quadratic Equation

Answer (e) 1,5,2 II $y^2 + 9.5y + 15 = 0$ Q. Which of the following Quadratic Equation

20. If the total cars sold by the company A and B in the year 2017 is increased by 20 % and 25 % respectively while comparing with the previous year, then find difference between the total number of cars sold by the company A to that of B in the year 2017?

- (a) 420
- (b) 360
- (c) 280
- (d) 540
- (e) None of these

Answer (b) 360

DIRECTIONS (Q. 21)

In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

21. I. $35x^2 - 34x - 21 = 0$

II. $63y^2 + 55y + 12 = 0$

- (a) if $x \leq y$
- (b) if $x < y$
- (c) if $x > y$
- (d) if $x \geq y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (c) if $x > y$

DIRECTIONS (Q. 22-26)

Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-third of the distance between car E and the car behind it. Distance between G and A is half of the distance between G and D. Distance between car C and D is a multiple of 3 but less than 28m. C is 25 meters ahead of G. B is to the left of G. The moving car on road Y is moving towards B. Car F is to the North-East of car D. E is moving in a direction opposite to G and C. Car D is not anywhere behind car G. Only three cars are there on road Y. F is not behind car G. Distance between G and D is more than 20. No Car is moving towards F.

22. Which of the following car is facing/moving towards West direction?

- (a) A
- (b) C
- (c) F
- (d) Cannot be determined
- (e) None of these

Answer (e) None of these

23. What is the shortest distance between car F and A?

- (a) More than 65 meters
- (b) 65 meters
- (c) 57 meters
- (d) 55 meters
- (e) 45 meters

Answer (a) More than 65 meters

24. Which of the following car is to the left of F?

- (a) E
- (b) B
- (c) Both B and E
- (d) Cannot be determined
- (e) None of these

Answer (d) Cannot be determined

25. What is the direction of car E with respect to A?

- (a) North East
- (b) North West
- (c) South West
- (d) South East
- (e) None of these

Answer (a) North East

26. What is the distance between car A and D?

- (a) 60 meters
- (b) 75 meters
- (c) 33 meters
- (d) 55 meters
- (e) None of these

Answer (a) 60 meters

DIRECTIONS (Q. 27-30)

Study the following information carefully and answer the given questions. Seven people A, B, C, D, E, F, G participated in a race which is of a certain duration, also each of them got different ranks. The track is a linear one and is of 100m. The one who got first rank run complete 100m but rest all run different distance but less than 100m in that time. C ran 10 m more than G. Both A and B run less distance than D. One of the person covers 85m distance. The one who got II rank is only 5m behind the border line. C covers less distance than F. The difference between the distance covered by C and D is 5m. None of the given person runs 90m and nobody covers less distance than 75m. The difference between the distance covered by C and G is same as the difference between the distance covered by F and A. F runs less distance than E. The difference between the sum of the distance covered by A and D and sum of the distance covered by E and F is 23. B covers 3m less distance than G.

27. Who among the following got III rank?

- (a) D
- (b) C
- (c) F
- (d) Cannot be determined
- (e) None of these

Answer (b) C

28. What is the sum of the distance covered by A and B?

- (a) 190 m
- (b) 165 m
- (c) 164 m
- (d) 155 m
- (e) None of these

Answer (c) 164 m

29. What is the difference between the distance covered by D and E?

- (a) 15 m
- (b) 16 m
- (c) 14 m
- (d) 13 m
- (e) None of these

Answer (d) 13 m

30. How much distance covered by G?

- (a) 92m
- (b) 79m
- (c) 95m
- (d) 82m
- (e) None of these

Answer (d) 82m

DIRECTIONS (Q. 31-34)

Study the following information carefully to answer the given questions. Eight football players R, Q, P, O, N, M, S and T have different annual earnings viz. one million, three million and ten million. Out of these, two are females. They all live in a building having eighteen floors with top floor being numbered as 18th, second top floor is number 10th and bottom-most being numbered as 1st. Only one player lives on each floor. It is given that top floor and tenth floor is occupied by two of these players, one by each player. Each of the given eight players likes the following boxers viz. A, B, C, U and V. Two of them like A, two like U, two like B and one likes C and one likes V. Q earns three millions and likes U, and her friend N likes A and earns ten millions. O, M and N live on consecutive floors. The one who earns three millions and likes A lives on topmost floor. S lives below the one of the man who earns three millions. None of the players lives between T and S. M likes U, and earns the same amount of money as S earns, who likes B. No two players liking same boxers earn the same amount of money. O lives above M who lives below N. O likes B and earns one million while h

31. R likes which of the following boxers?

- (a) A
- (b) V
- (c) C
- (d) Can't be determined
- (e) None of these

Answer (d) Can't be determined

32. Who among the following earns three millions?

- (a) O
- (b) M
- (c) S
- (d) Q
- (e) R

Answer (d) Q

33. Which of the following is correctly matched?

- (a) P – one million – B
- (b) Q – ten millions– U
- (c) S –three millions – A
- (d) M –ten millions– U
- (e) None of these

Answer (d) M –ten millions– U

34. Who amongst the given eight players stays between Q and P?

- (a) M
- (b) Q
- (c) S
- (d) None of these
- (e) No one

Answer (e) No one

DIRECTIONS (Q. 35-39)

Read the following information carefully and answer the questions. In a family 12 members i.e. A, B, C, D, E, F, G, H, I, K, L and J are from 4 different rooms, only 3 members live in each room. Rooms are numbered as 14, 15, 16, 11. Each room is painted with different colours Red, Green, Blue, Yellow (not necessarily in same order). Each room is situated in different apartments i.e. Parsavanath, Pragati, Antariksh and Ansal (not necessarily in same order). A and G are from same room and their room is an odd numbered room. J's room colour is Green. B's and K's room colour is red. E and D, are from different rooms but they are from even numbered room. Yellow and blue are colours of even numbered room. B neither share the room with E nor with D. H is from odd numbered room. F and C are not from same room. C is from blue coloured room. Room number 14 colour is not yellow. C's room in Pragati apartment. 11 numbered room is in Antariksh apartment but it is not red coloured room. D and L share same room in Ansal apartment. A publishing house 11

35. What is the number of B's room and name of B's apartment?

- (a) 15, Pragati
- (b) 16, Ansal
- (c) 15, Ansal
- (d) 15, Parsavanath
- (e) None of these

Answer (d) 15, Parsavanath

36. What is the colour of the room which is situated in Parsavanath apartment?

- (a) Blue
- (b) Yellow
- (c) Red
- (d) Green
- (e) None of these

Answer (c) Red

37. Which of the following is a colour of room number 11?

- (a) Red
- (b) Green
- (c) Blue
- (d) Yellow
- (e) None of these

Answer (b) Green

38. What is the number of E's room?

- (a) 11
- (b) 16
- (c) 14
- (d) 15
- (e) None of these

Answer (c) 14

39. Which of the following combination is not true?

- (a) A- Green-Antariksh
- (b) E- Blue-Pragati
- (c) C- Blue-Ansal
- (d) F-Yellow-Ansal
- (e) J- Green- Antariksh

Answer (c) C- Blue-Ansal

DIRECTIONS (Q. 40-44)

Study the following information carefully and answer the question given below- There are seven boxes i.e. A, B, C, D, E, F and G which are kept one above the other but not necessarily in the same order. They all contains different topic books i.e. Puzzle, Machine Input (MI), English, Logical, Math's, Computer, and Ranking but not necessarily in the same order. All the box contains different number of books. The total number of books in all the boxes is 192. No two boxes have same number of books. Three boxes are kept between box F having odd number of books which is a perfect cube and the box which contains computer book. Box C having 21 books kept immediately below the box having 34 books in it. Only one box is kept between box A which contains Logical books and the box having Computer books. Box G has 1 book less than box D. Box containing Machine A publishing house 12

40. How many boxes are kept above the box B?

- (a) One
- (b) Four
- (c) More than four
- (d) Three
- (e) None

Answer (e) None

41. Which of the following box is kept at the bottom?

- (a) C – Ranking
- (b) E – Computer
- (c) G – Math's
- (d) B – Puzzle
- (e) None of these

Answer (a) C – Ranking

42. How many books does box A contains in it?

- (a) 32
- (b) 36
- (c) 25
- (d) 21
- (e) None of these

Answer (b) 36

43. Box F contains which of the following book?

- (a) Math's
- (b) Reasoning
- (c) Machine Input
- (d) Computer
- (e) None of these

Answer (c) Machine Input

44. How many books does Box G contains?

- (a) 21
- (b) 29
- (c) 30
- (d) 27
- (e) None of these

Answer (b) 29

DIRECTIONS (Q. 45-49)

Study the following information carefully and answer the question given below- There are seven boxes i.e. A, B, C, D, E, F and G which are kept one above the other. The boxes are of different colour i.e. Blue, white, Red, Black, Green, Pink and Yellow but not necessarily in the same order. The boxes contains different number of same items i.e. 16, 25, 9, 19, 10, 28, 32 but not necessarily in the same order. The box are of different sizes. The total size of all the boxes is 80 sq. cm. A publishing house 13

45. Which of the following box is white in colour?

- (a) Box A
- (b) Box D
- (c) Box B
- (d) Box F
- (e) None of these

Answer (c) Box B

46. What is the total size of Box C, B and D?

- (a) 32 Sq.cm
- (b) 31 Sq.cm
- (c) 36 Sq.cm
- (d) 34 Sq.cm
- (e) None of these

Answer (a) 32 Sq.cm

47. Which of the following box is kept at the top?

- (a) Box B
- (b) Box F
- (c) Box E
- (d) Box G
- (e) None of these

Answer (b) Box F

48. How many items does box B contains?

- (a) 16
- (b) 9
- (c) 28
- (d) 25
- (e) None of these

Answer (d) 25

49. Which of the following combination of 'Box-colour-no. of items' is correct?

- (a) B- White- 25
- (b) A- Pink- 28
- (c) D- Green- 10
- (d) F- Blue- 16
- (e) All are correct

Answer (e) All are correct

DIRECTIONS (Q. 50-53)

Study the following information carefully and answer the question given below. Six persons A, B, C, P, Q, R attend a seminar on three different months of the same year on different dates i.e. 15th and 22nd. Months are January, April and August. Each person attends only one seminar on each day. B attends the seminar on 15th of the month, but not attends in the month which has 30 days. Two persons attend seminar between B and B' son. B's father attend seminar in January. Two persons attends seminar between B's wife and P, who is in the third generation of the family. B's wife attends seminar before B's son-in-law. P is the daughter of A. Q attends seminar on 15th of the month. Two persons attend seminar between R and B's son-in- law. R has only one son.

50. How many persons attend seminar between Q's wife and B's wife?

- (a) Three
- (b) Two
- (c) Four
- (d) One
- (e) None of these

Answer (b) Two

51. Who attends seminar on 22nd April?

- (a) A's daughter
- (b) R
- (c) B
- (d) Q's brother-in-law
- (e) None of these

Answer (d) Q's brother-in-law

52. R attends seminar on which of the following date?

- (a) 15th April
- (b) 15th January
- (c) 22nd August
- (d) None of these
- (e) 22nd January

Answer (e) 22nd January

53. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?

- (a) B
- (b) C
- (c) A
- (d) Q
- (e) R

Answer (c) A

DIRECTIONS (Q. 54-58)

Study the following information carefully and answer the question below- Seven persons A, B, C, D, E, F, G are going to participate in seven different races all of which are of different milestones viz. 200, 350, 500, 800, 1000, 1200 and 1500. Each of them got different ranks in their respective races as 1st, 2nd, 3rd...and so on till 7th. Also each of them participated in the race in different years viz. 1995, 1998, 2000, 2002, 2007, 2010, 2011. The one who got 1st rank participated in 1200m race. C participated 2 years after A. D got 4th rank. The milestone of F's race was 4 times of the milestone of the who participated in race in 2011. The one who participated first got 3rd rank. There is a difference of one year between B and G's participation year. F got the lowest rank. Only two person got lower rank than G. A's milestone of race is twice of the one whose rank is just lower than him. The one who got 6th rank participated in odd numbered year. The one whose rank is just higher than G participated in an odd numbered year. The one whose rank is last participated after the one whose rank is first.

54. Who among the following participated in 1995?

- (a) B
- (b) G
- (c) A
- (d) D
- (e) E

Answer (e) E

55. Who among the following got 6th rank?

- (a) B
- (b) G
- (c) A
- (d) D
- (e) E

Answer (a) B

56. What is the milestone of C?

- (a) 350m
- (b) 1500m
- (c) 1000m
- (d) 1200m
- (e) 500m

Answer (d) 1200m

57. Who among the following participated second in the race?

- (a) B
- (b) G
- (c) A
- (d) D
- (e) E

Answer (c) A

58. What will be the difference between the milestones of the one who got 3rd rank and the one who got 6th rank?

- (a) 300m
- (b) 700m
- (c) 1000m
- (d) 200m
- (e) None of these

Answer (a) 300m

DIRECTIONS (Q. 59-63)

Study the following information carefully to answer the given questions. In Chennai, seven persons namely K, L, M, N, O, P and Q are living in an apartment of a seven storey building. They are living on separate different floors. The ground floor of the building is numbered 1, the floor above it 2 and so on until the topmost floor is numbered 7. Each person is of different age. Also Each person likes different cars – BMW, Audi, Acura, Bugatti, Buick, Desire and Safari, but not necessarily in the same order. The person who likes Bugatti lives on floor numbered four. The one who lives immediately above the one who likes Desire Car is 28 years old. P is 33 years old. K does not live on the lowermost floor. K lives on any odd numbered floor below the one who likes Bugatti. Only two persons live between K and the person who likes Safari. Only one person lives between L and P. The difference between the ages of O and Q is 2 years. P lives on an even numbered floor and does not like Bugatti. Only three persons live between the persons who like BMW and Acura respectively. M is 9 years older than K. The person who likes BMW lives on any floor above the L's floor. The person who likes BMW do

59. How many persons live between the floors on which Q and the one who is 31 years old lives?

- (a) Three
- (b) Two
- (c) Four
- (d) Five
- (e) No one

Answer (c) Four

60. Which of the following statements is/are true according to the given information?

- (a) O lives on floor numbered 5 and he does not like Bugatti
- (b) K likes Buick and he does not live on floor numbered
- (c) M likes Audi and he lives on the topmost floor
- (d) Only two persons live between the floors of O and P
- (e) All the statements are true

Answer (e) All the statements are true

61. Who among the following lives on the floor immediately above the floor of the one who is 28 years old?

- (a) L
- (b) P
- (c) Q
- (d) M
- (e) No one

Answer (a) L

62. Who among the following lives exactly between the floors on which Q and L live?

- (a) P
- (b) O
- (c) N
- (d) M
- (e) No one

Answer (b) O

63. Who among the following like Acura?

- (a) K
- (b) M
- (c) L
- (d) N
- (e) No one

Answer (d) N

DIRECTIONS (Q. 64-68)

Study the following information carefully and answer the question given below: Eight persons A, B, C, D, E, F, G, H work in different departments of a company viz. Sales, IT, HR. Not more than three persons work in a single department. Also each of them like different colours viz. Purple, Yellow, White, Red, Orange, Pink, Green, Black. C likes green color and work in HR department. B works in the same department with only one who likes Purple color. Neither D nor E work in the same department as B. F likes Orange color. Both A and H work in the same department. The one who works in HR department like White color. Neither A nor D works in HR department. The one who works in IT department like Pink color. The one who works in the same department as G does not like Pink colour. H does not like Pink color. B neither likes Red nor Black color. H does not like Red color. D does not like Pink color. A publishing house 18

64. G works in which of the following department?

- (a) IT
- (b) HR
- (c) Sales
- (d) Either
- (e) None of these

Answer (c) Sales

65. Who among the following like Black color?

- (a) H
- (b) E
- (c) D
- (d) B
- (e) None of these

Answer (a) H

66. Who among the following works in HR department?

- (a) H
- (b) A
- (c) F
- (d) B
- (e) None of these

Answer (c) F

67. In which of the following department does exactly two persons are working?

- (a) IT
- (b) HR
- (c) Sales
- (d) Either
- (e) None of these

Answer (c) Sales

68. Who among the following likes Red color?

- (a) H
- (b) A
- (c) D
- (d) B
- (e) None of these

Answer (c) D

DIRECTIONS (Q. 69-73)

Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. D is not the immediate neighbour of A. H is the immediate neighbour of D. D sits second to the right of B. E sits second to the right of F, who sits second to the left of H. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direction. C sits second to the left of D. E faces H. After some time, each of them started leaving the table one by one as one finished his dinner. F finished first and left the table and walked in the same direction he is facing to reach point M which is two meters away from his initial position. After F, E got up from the table, turned 180 degrees and walked four meters A publishing house 19

69. What is the shortest distance between point P and point S?

- (a) 12 meters
- (b) 13 meters
- (c) 14 meters
- (d) More than 16 meters
- (e) None of these

Answer (c) 14 meters

70. What is the shortest distance between A and F' initial position when they all are sitting around the circular table?

- (a) 3 meters
- (b) 5 meters
- (c) 7 meters
- (d) Cannot be determined
- (e) None of these

Answer (e) None of these

71. In which direction is point L with respect to the E's Initial position at the time of dinner?

- (a) South
- (b) Southwest
- (c) Northwest
- (d) West
- (e) None of these

Answer (b) Southwest

72. Who among the following is sitting third to the left of C at the instant when they all are sitting around the circular table?

- (a) A
- (b) E
- (c) B
- (d) F
- (e) D

Answer (d) F

73. Who among the following is sitting farthest from point M at the instant when they all were sitting around the circular table?

- (a) A
- (b) B
- (c) C
- (d) D
- (e) None of these

Answer (a) A

DIRECTIONS (Q. 74-77)

Read the following information carefully and answer the questions given below: Eight persons L, M, N, O, P, Q, R, S are working on an eight storey building where ground floor is numbered as 1 and top floor is numbered as 8. Each person works on a different floor and also ordered different snacks from the restaurant viz. Aloo tikki, Masala Vada, Noodles, Pizza, Pakoda, Pav bhaji, Sweet corn, Samosa. They also drink different varieties of drink from CCD machine viz. Tea, Coffee, Lemon Tea, and Soup. 3 persons drink tea, 2 persons drink coffee and soup each and 1 person drinks Lemon tea. There are three floors in between the one who ordered Masala Vada and Q and both of them work on an odd numbered floor. L works immediate above O. S drinks Tea. The one who ordered Pakoda also drinks Soup. Both the persons, who drinks Coffee, works on two consecutive floors. N ordered Sweet corn and lives below the one who ordered Samosa. P drinks neither Tea nor Coffee and works on any floor below Q. The one who works on lowermost floor ordered Pav Bhaji. Only the persons who work on even number floor drinks Tea. The one who works on 4th floor ordered Pizza but did not drink Tea. Neither O nor L orde

74. Who among the following ordered Noodles?

- (a) L
- (b) S
- (c) P
- (d) R
- (e) Q

Answer (b) S

75. Which of the following drink is taken with Aloo Tikki?

- (a) Lemon Tea
- (b) Tea
- (c) Either Coffee or Lemon Tea
- (d) Soup
- (e) Data inadequate

Answer (b) Tea

76. On which of the following floor does O work?

- (a) 7th
- (b) 4th
- (c) 3rd
- (d) 5th
- (e) 2nd

Answer (d) 5th

77. How many persons lives between the one who ordered Pakoda and the one who ordered Sweet corn?

- (a) Five
- (b) Six
- (c) Two
- (d) Three
- (e) None

Answer (e) None

DIRECTIONS (Q. 78-81)

Study the following information carefully and answer the question below- Six persons A, B, C, D, E and G who all belongs to a family having three generation and all are sitting around two inscribed squares table such that all the persons sit at the three corners of each outer and the inner squares. Some of them face inside and some of them Face outside. F is the daughter of G. Brother-in-law of G sits second to the right of B and both faces opposite direction. B is the son-in-law of D and does not sits in the same square with his daughter. E is the daughter of D, and is not married to B. There is only one vacant seat in each square. The vacant seats are not in front of each other. No one sits on the immediate right of B. Daughter of B sits on the immediate left of G, who faces E. E does not sit in the same square table with F. D is not the immediate neighbour of G. Parent of E does not sit in the same square with his son- in-law. B has no brother. F and A face same direction. F does not face vacant seat. E and F faces same direction. B and F does not face each other. A is married to E.

78. How many persons faces inside?

- (a) One
- (b) Three
- (c) Two
- (d) Four
- (e) Can't be determine

Answer (e) Can't be determine

79. How is G is related to D?

- (a) Son-in-law
- (b) Son
- (c) Daughter-in-law
- (d) Daughter
- (e) None of these

Answer (d) Daughter

80. Which among the following pair sits in the same square?

- (a) B, D
- (b) A, F
- (c) F, E
- (d) None of these
- (e) G, D

Answer (e) G, D

81. Who among the following are the immediate neighbours of the vacant seat?

- (a) D, E
- (b) F, D
- (c) A, E
- (d) E, F
- (e) G, D

Answer (e) G, D

DIRECTIONS (Q. 82-86)

Study the following information carefully and answer the questions below: Ten ASEAN countries members (Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Vietnam) and its six FTA partners (Australia, New Zealand (NZ), India, China, Japan and Korea) are living on different floors in a ten-storey hotel such that 6 of the floors are doubly occupied. None of the two FTA's or ASEAN members live on same floor. Also, they are sitting around a circular table facing the centre in the following manner as only all the ASEAN members are sitting around the outer circular table. A publishing house 23

82. On which of the following floors does the representative of Singapore lives?

- (a) 4th
- (b) 2nd
- (c) 3rd
- (d) 7th
- (e) None of these

Answer (c) 3rd

83. Who among the following sits 3rd to the right of the one who is from Brunei?

- (a) Vietnam
- (b) Laos
- (c) Cambodia
- (d) Singapore
- (e) none of these

Answer (b) Laos

84. Who among the following is the host country?

- (a) Australia
- (b) Japan
- (c) Cambodia
- (d) Singapore
- (e) None of these

Answer (b) Japan

85. Four of the five are alike in a certain way, who among the following does not belongs to this group?

- (a) Australia
- (b) Japan
- (c) Myanmar
- (d) India
- (e) Brunei

Answer (c) Myanmar

86. Which of the following represents the incorrect combination of persons living on the same floor?

- (a) Australia -Indonesia
- (b) Japan-Thailand
- (c) Myanmar- New Zealand
- (d) India-Malaysia
- (e) Vietnam-Korea

Answer (c) Myanmar- New Zealand

87. What is the direction of point U with respect to point X? Statement I: Point R is 7 m to the North of point Q. Point P is 8 m to the West of point Q. Point R is 6 m to the West of point U. Statement II: Point B is 9 m to the North of point A. Point P is 5 m to the North of point Z. Point Z is 4 m to the West of point A. Statement III: Point C is 7 m to the East of point A. Point X is 2 m to the East of point F. Point F is 3 m to the North of point C.

- (a) Both I and III
- (b) Both II and III

- (c) All I, II and III
- (d) II and either I or III
- (e) Even I, II and III together are also not sufficient

Answer (a) Both I and III

88. What does the code 'bp' stand for in the given code language? Statement I: In the language, 'black white red' is coded as 'df dc or' and 'green blue grey' is coded as 'st hn wo' Statement II: In the language, 'blue pink brown' is coded as 'er bp hn' and 'pink blue white' is coded as 'hn or bp' Statement III: In the language, 'green violet orange' is coded as 'pa wo kl' and 'yellow pink brown' is coded as 'bp bi er'

- (a) Both II and III
- (b) I and either II or III
- (c) II and either I or III
- (d) Both I and III
- (e) All I, II and III Explanation (The Approach):

Answer (d) Both I and III

DIRECTIONS (Q. 89)

Each of the questions below consists of three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

89. Five persons P, Q, R, S and T are standing in a row facing north in increasing order of their heights from left to right. That means the shortest one stands at the leftmost end while the tallest one stands at the rightmost end. Who among the following is the fourth tallest?

- I. Q and S are shorter than R. S height is 172 cm. Only two persons are standing to the right of S.
- II. Q's height is 178 cm. T is not an immediate neighbour of R. III. Q is an immediate neighbour of T and S. More than two persons are standing to the left of P.

- (a) Statement (I) and Statement (II) together are sufficient
- (b) Statement (II) and Statement (III) together are sufficient
- (c) Statement (I) and Statement (III) together are sufficient
- (d) All the statement (I), statement (II) and statement (III) together are sufficient
- (e) Either two of the given statements are sufficient

Answer (c) Statement (I) and Statement (III) together are sufficient

DIRECTIONS (Q. 90-92)

Study the following information carefully and answer the given questions: In alphabetical series A-Z each letter except vowels is assigned a different number from 1-5 (for ex- B is coded as 1, C-2.....G-5)and again those numbers get repeated(for ex- H-1, J-2.....so on). Also each vowel is assigned a different symbol viz. #, \$, %, @, &. In coded language- "Solar Power Energy" is coded as – 5&4@4 2&3#4 #1#455 "Need to Change" is coded as – 1##3 1& 21@15# "Less Economic Revenue" is coded as – 4#55 #2&1&5\$2 4#2#1%# Besides the above example, following operations are to be applied for coding the words given in the questions below. (i) If both first and last letter of a word is consonant then the codes of both the consonant are interchanged. (ii) If first letter of a word is vowel and last letter is consonant then both are to be coded as *. (If the word does not satisfy the conditions given above then the letters of that word are to be coded as per the directions given above)

90. What can be the code of 'Nuclear Bomb'?

- (a) 4%24#@1 15&1
- (b) 4%42#@1 1&51
- (c) 4%24#@1 1&51
- (d) 4%24@#1 1&51
- (e) None of these

Answer (c) 4%24#@1 1&51

91. What can be the code of 'War and Peace'?

- (a) 3@4 *1* 2#@2#
- (b) 4@3 *1* 2#@2#
- (c) 4@3 @13 2#@2#
- (d) 4@3 *1* 2#2@#
- (e) None of these

Answer (b) 4@3 *1* 2#@2#

92. What can be the code of 'Own life'?

- (a) &3* 4\$4#
- (b) *3* 44\$#
- (c) &33 4\$4#
- (d) *3* 4\$4#
- (e) None of these

Answer (d) *3* 4\$4#

DIRECTIONS (Q. 93)

Study the following information carefully to answer the given questions. In a certain code language:- "mount serious challenge has ended" is written as ' nu re ch is de'. "inform wants credible alternative has " is written as ' di lt wu is fu'. "Has Serious Challenge Credible" is written as 're ch is di'. "Credible alternative mount inform" is written as ' nu lt di fu'.

93. What is the code for 'alternative'?

- (a) fu
- (b) di
- (c) lt
- (d) re
- (e) Either

Answer (e) Either

94. Which of the following could be the code for "annual turnover"?

- (a) FM6 HU10
- (b) FM6 HF10
- (c) KP13 LN13
- (d) KP13 NL13
- (e) None of these

Answer (b) FM6 HF10

95. Which of the following could be the code for "Dairy Milk"?

- (a) EZ10 DR10
- (b) EZ20 DR9
- (c) EZ10 DR17
- (d) CL10 DR7
- (e) EZ20 DR7

Answer (e) EZ20 DR7

DIRECTIONS (Q. 96-98)

Study the following information carefully to answer the given questions. In a certain code language: - "tell tale heart" is written as 'V5M V5F I5U' "raven black cat" is written as 'S5O C1L D1U' "premature burial" is written as 'Q21F F7M' "pit and pendulum" is written as 'Q9U B1E F9N'

96. In the given coding language, which of the following will be the code for "raven and cats"?

- (a) S5O B1E D1U
- (b) Q9U B1E D1U
- (c) C1L B1E D1U
- (d) S5O Z5T B1E
- (e) None of these

Answer (d) S5O Z5T B1E

97. In the given coding language, which of the following will be the code for "dark cave"?

- (a) D5R V5F
- (b) D6N Z5L
- (c) Z5L V5F
- (d) Z4L V4L
- (e) None of these

Answer (c) Z5L V5F

98. Which of the following words could be coded as "T15E O9U"?

- (a) Death Magnetic
- (b) Sword Fish
- (c) Dark Knight
- (d) Sword Night
- (e) Last Knight

Answer (d) Sword Night

DIRECTIONS (Q. 99-103)

These questions are based on the following informations. In a certain code: 'severe cash crunch again' is coded as 'M*Z S@X V#H S#X'. 'Finance Ministry has emphasis' is coded as 'B\$N H&S H\$V V@U'. 'Reserve Bank India has claimed' is coded as 'Z*R V@I H&S W@X P@Y'.

99. What will be the code for 'Emphasis'?

- (a) V@U
- (b) H&S
- (c) B\$N
- (d) H\$V
- (e) None of these

Answer (d) H\$V

100. What will be the code for 'Bankers'?

- (a) Y@H
- (b) Y&B
- (c) H@Y
- (d) B\$Y
- (e) M35 C12

Answer (c) H@Y

101. Which of the following will be the code for 'Renews'?

- (a) H#I
- (b) H&I
- (c) I#H
- (d) I\$O
- (e) None of these

Answer (a) H#I

102. Which of the following can be coded as 'L*A'?

- (a) Jaxes
- (b) Zumbo
- (c) Judge
- (d) April
- (e) None of these

Answer (b) Zumbo

103. What could be the code for 'Court has judges'?

- (a) G*X H\$\$ Q#H
- (b) G*X H\$\$ H#Q
- (c) G@X H\$\$ H#Q
- (d) G*X H\$\$ H@Q
- (e) G*X H&S H#Q

Answer (e) G*X H&S H#Q

DIRECTIONS (Q. 104-108)

Study the following information and answer the given questions: In alphabetical series each consonant is assigned a different number from 1-7 (for ex- B is coded as 1, C-2.....J-7) and again those numbers get repeated (for ex- K-1, L-2.....so on). Besides the above information, following operations are to be applied for coding the words given in the questions below. Each letter of the given questions will be coded as per the given conditions: I. Vowels appearing before 'M' in the Alphabetical series will be coded as '**'. II. Vowels appearing after 'M' in the alphabetical series will be coded as '\$\$'. III. Number immediately preceded by vowel will be coded as '#1'. IV. Number immediately followed by vowel will be coded as '@#'.

104. What will possibly be the code for 'NORMAL'?

- (a) '#1\$\$@##2**@#
- (b) '#1\$\$@##1**@#
- (c) '#3\$\$@##1**@#
- (d) '#1\$#@##1**@#
- (e) None of these

Answer (b) '#1\$\$@##1@#**

105. What will possibly be the code for 'EMBARKS'?

- (a) **@##1**@#12
- (b) **@##1**@#31
- (c) **@##1**@#41
- (d) **@##1**@#11
- (e) None of these

Answer (d) **@##1@#11**

106. What will possibly be the code for 'SMITTLE'?

- (a) 1#1**@#2#1**
- (b) 1#1**@#2#11*
- (c) 1#1**@#2#1*1
- (d) 2#1**@#2#1**
- (e) None of these

Answer (a) 1#1@#2#1****

107. What will possibly be the code of 'ANNUAL'?

- (a) **@##1\$\$**@#
- (b) *1@##1\$\$**@#
- (c) **##@1\$\$**@#
- (d) *2@##1\$\$**@#
- (e) None of these

Answer (a) **@##1\$\$@#**

108. What is the code for 'PROM'?

- (a) 5#1\$\$@#
- (b) 2#1\$\$@#
- (c) 4#1\$\$@#
- (d) 6#1\$\$@#
- (e) None of these

Answer (a) 5#1\$\$@#

DIRECTIONS (Q. 109-113)

Study the information and answer the following questions: In a certain code language "Seemed peer attend" is coded as "18BV 20BZ 19CW". "Arrive Assessing file" is coded as "22BZ 19DZ 12RV" "Double systems possible" is coded as "19BY 21LY 25CV".

109. What is the code for 'support'?

- (a) 22DL
- (b) 21CL
- (c) 21BL
- (d) 22BL
- (e) None of these

Answer (c) 21BL

110. What is the code for 'asking'?

- (a) 19ZH
- (b) 20ZH
- (c) 21XH
- (d) 19HX
- (e) 19HZ

Answer (e) 19HZ

111. What is the code for 'Announced'?

- (a) 21CZ
- (b) 21ZC
- (c) 23BZ
- (d) 22CZ
- (e) None of these

Answer (a) 21CZ

112. What is the code for 'Less'?

- (a) 20BZ
- (b) 19BV
- (c) 21CV
- (d) 19BZ
- (e) None of these

Answer (b) 19BV

113. What is the code for 'peer loom'?

- (a) 15CO 18BC
- (b) 15BO 18BV
- (c) 15BO 18CV
- (d) 18CO 15BV
- (e) None of these

Answer (b) 15BO 18BV

DIRECTIONS (Q. 114)

Study the following information carefully and answer the questions given below. Six persons i.e. A, B, C, D, E and F are sitting in a open ground such that they are at certain distance with their immediate neighbours. F sits 4m northeast direction to B. B is in the east of E, who is 4m in the east of person A. C is 4m in the north of E. The distance between B and E is same as the distance between D and A. D is 3m south of A.

114. What is the shortest distance between B and A?

- (a) 6m
- (b) 7m
- (c) 4m
- (d) 3m
- (e) None of these

Answer (b) 7m

DIRECTIONS (Q. 115-117)

Study the following information carefully and answer the questions given below: A man was initially walking along the diagonal of a rectangular playground such that the longer side was in horizontal axis and the shorter on the vertical axis. He walked only along the perimeter of the rectangle, diagonal or along the median of the rectangle. He started from the midpoint of the ground towards southwest and walked 6.5km, then took a turn and walked for 6km along the perimeter and 2.5 km along the median to reach the 11 A publishing house

115. In which direction is he finally walking?

- (a) North
- (b) South
- (c) Northeast
- (d) Southeast
- (e) None of these

Answer (a) North

116. What is the total length of the shorter side of the rectangle?

- (a) 10km
- (b) 4km
- (c) 8km
- (d) 5km
- (e) None of these

Answer (d) 5km

117. In which direction is A is in with respect to its starting position?

- (a) Southeast
- (b) South
- (c) Northeast
- (d) Southwest
- (e) None of these

Answer (c) Northeast

DIRECTIONS (Q. 118-119)

Study the following information carefully and answer the question given below- Point F is to the north of E. Point A is to the west of B. Point B is to the south of point C. Point F is to the north east of point C which is in-line with point E. Point D is exactly in between point C and E. Point J is to the north of point D. Point K is 5m away from point J and is exactly horizontally in line with point J. Point B is 8m in the south of Point K. The distance between point F and E is 4m.

118. If the distance between point K and F is 8m and both points are inline, then what will the shortest distance between point J and E?

- (a) 6 m
- (b) 5 m
- (c) 7 m
- (d) 8 m
- (e) None of these

Answer (b) 5 m

119. Point F is in which direction from point A?

- (a) North East
- (b) North West
- (c) South West
- (d) South East
- (e) None of these

Answer (a) North East

DIRECTIONS (Q. 120-122)

Study the following information carefully and answer the question below- Point A is 5km in north of point B. Point B is 6km in west point C. Point C is exactly between point E and F. Point E is horizontally inline with point A. Point F is as far as from point D (horizontally inline) as Point A from point E. Point D is vertically not inline with point B.

120. If point G is 6km east of point E then point G is how far and in which direction from point D?

- (a) 6km, North
- (b) 5km, North-east
- (c) 10km, North
- (d) 14km, South
- (e) None of these

Answer (c) 10km, North

121. Point A is in which direction from point F?

- (a) North
- (b) South
- (c) northwest
- (d) Southeast
- (e) None of these

Answer (c) northwest

122. How far is point E from point B?

- (a) 6 km
- (b) $\sqrt{87}$ km
- (c) $\sqrt{61}$ km
- (d) 8 km
- (e) None of these

Answer (c) $\sqrt{61}$ km

DIRECTIONS (Q. 123-125)

Read the following information carefully and answer the questions that follows: Six persons i.e. A, B, D, E, G and H are standing in a ground at seven different points. (i) B is standing 3m to the west of A. (ii) E is standing 7m west of person D who is standing 3m east of G. (iii) H is standing 4m south of D. (iv) A is standing in 5m south east direction of point E.

123. What is the shortest distance between G and H?

- (a) 4m
- (b) 5m
- (c) 2m
- (d) 3m
- (e) Cannot be determined

Answer (b) 5m

124. How many persons are standing in the south west direction of G if E is perpendicular to B?

- (a) Three
- (b) More than three
- (c) Two
- (d) None of these
- (e) Cannot be determined

Answer (c) Two

125. How many Persons are standing to the west of G?

- (a) None
- (b) Two
- (c) Four
- (d) Three
- (e) None of these

Answer (e) None of these

DIRECTIONS (Q. 126-127)

Read the following information carefully to answer the questions that follow. The questions are based on following coding formats: P1Q means – P is in North of Q P2Q – P is in South of Q P3Q – P is in East of Q P4Q – P is in West of Q @ means – Either 2 or 7 m # – Either 5 or 10 m & – Either 8 or 13 m Conditions given are as: I. A @1 B II. A &3 D III. F #3 E IV. G @4 F V. E #1 D

126. What could be the shortest distance between E and B considering the smallest among the given two-possible distances?

- (a) $\sqrt{113}$
- (b) $\sqrt{111}$
- (c) $\sqrt{115}$
- (d) $\sqrt{117}$
- (e) none of these

Answer (a) $\sqrt{113}$

127. In which direction is point G with respect to D?

- (a) south west
- (b) north west
- (c) north
- (d) north east
- (e) can't be determined

Answer (e) can't be determined

DIRECTIONS (Q. 128-129)

Following questions are based on the information given below. Ajay start driving from his house to his friend Jeet's house. He start driving in the west direction from his house by a car. After going 15m he takes a right turn from point N and continue driving for 20m and reaches the point 14 A publishing house

128. Find the shortest distance between jeet's house and point O?

- (a) 35m
- (b) 30m
- (c) 25m
- (d) $10\sqrt{13}$
- (e) None of these

Answer (c) 25m

129. Jeet's house is in which direction from Ajay's house?

- (a) North
- (b) North East
- (c) North West
- (d) South West
- (e) South

Answer (b) North East

DIRECTIONS (Q. 130-132)

These questions are based on the information given below: Eight persons A, B, C, D, E, F, G and H are standing in such a way that C is 20 m apart from B towards West, B is 30 m South with respect to A. A is 40 m towards West with respect to E. D is 50 m towards South with respect to E. F is 15 m apart from G towards North. H is 20 m towards East with respect to G. F is 40 m towards West with respect to D.

130. In which direction is B standing with respect to F?

- (a) North-West
- (b) North
- (c) North-East
- (d) Cannot be determined
- (e) None of these

Answer (b) North

131. If one more person I is standing towards South-West with respect to D, then in which direction is H, standing with respect to I?

- (a) South-West
- (b) North-East
- (c) North-West
- (d) Cannot be determined
- (e) None of these

Answer (d) Cannot be determined

132. What is the direction of C with respect to H?

- (a) North-West
- (b) North
- (c) West
- (d) Cannot be determined
- (e) None of these

Answer (a) North-West

133. Mohan starts walking in the west direction and walks for 8 km, then he takes a right turn and walks for 5 km again he takes a right turn and walks for 2.5 km and at last he takes a right turn walks for 5 km, then in which direction and at what distance is Mohan from his initial position?

- (a) 5 km west
- (b) 5.5 km East
- (c) 5 Km East
- (d) None of these
- (e) 5.5 km west

Answer (e) 5.5 km west

DIRECTIONS (Q. 134-135)

Two friends Silva and Jones started walking from two different points. Silva, who started from point A moved along a circular track and after walking 11km he reached point B, from where he turned left and walked 5km to reach point C after which he stopped. Jones started from point F and after walking 5km, he reached point E. From point E he turned 45 degree towards his left and walked $\sqrt{8}$ km to reach point D. After reaching point D, he turned 45 degrees in clockwise direction. Then, he moved ahead 5km to reach point C which is towards the west of point D. Point B, C and D are in straight line.

134. In which direction was Silva facing at instant he travelled three-fourth of his total journey?

- (a) East
- (b) West
- (c) North East
- (d) South East
- (e) Cannot be determined

Answer (a) East

135. If Silva keeps on walking ahead from point C and reached point G after walking 12 km, Point F is to the north of point G then what is the shortest distance between point F and G?

- (a) 7km
- (b) 4km
- (c) 2km
- (d) More than 7km
- (e) None of these

Answer (c) 2km

DIRECTIONS (Q. 136)

In every question two rows are given and to find out the resultant of a particular row you need to follow the following steps: - Step 1: If an odd number is followed by a perfect square then the resultant will be the subtraction of the square number from the odd number. Step 2: If an even number is followed by an odd (prime) number then the resultant will be the addition of both the numbers. Step 3: If an even number is followed by an even number then the resultant will be the difference of both the numbers. Step 4: If an odd number is followed by another odd number then the resultant will be the addition of both the numbers. Step 5: If an even number is followed by an odd (non-prime) number except (1) then the resultant will be the subtraction of the odd number from the even number. Step 6: If an odd number is followed by an even number then the resultant comes by multiplying the numbers. 6.

136. If Q is the resultant of second row, then find the difference of the resultant of two rows. 9 8 Q 12 9 4

- (a) 68
- (b) 72
- (c) 73
- (d) 71
- (e) None of these

Answer (b) 72

DIRECTIONS (Q. 137-141)

In every question two rows are given and to find out the resultant of a particular row you need to follow the following steps: - Note: (All the resultant value consider as a positive integer) Step 1: If an odd number is followed by an even number then the resultant will be the subtraction of both the numbers. Step 2: If an even number is followed by a perfect cube then the resultant will be the sum of the numbers. 4 A publishing house

137. Find the resultant sum of two rows? 8 27 2 15 7 3

- (a) 18
- (b) 25
- (c) 35
- (d) 38
- (e) None of the above

Answer (d) 38

138. Find the resultant of second row if D is the resultant of first row. 9 7 2 13 D 3

- (a) 5
- (b) 7
- (c) 9
- (d) 3
- (e) 6

Answer (e) 6

139. If the resultants value of second rows is 7, then find the value of L? 24 27 12 12 3 L

- (a) 12
- (b) 16
- (c) 15
- (d) 9
- (e) None of the above

Answer (b) 16

140. Find the multiplication of the resultant value of first and second row. 4 8 8 27 6 7

- (a) 441
- (b) 156
- (c) 625
- (d) 400
- (e) 280 5

Answer (e) 280 5

141. If Z is the resultant of second row, then find the sum of the resultant of two rows. Z 15 36 6 512 100

- (a) 633
- (b) 518
- (c) 618
- (d) 597
- (e) 1215

Answer (e) 1215

DIRECTIONS (Q. 142-146)

Study the following alphanumeric series carefully and answer the questions given below: 12AIFR 42 WBOL 63EOCN 15TVMR 75GYTR

142. How many meaningful words can be formed from the letters of the words which are attached with the numbers in which At least one digit is even digit in the given alphanumeric series?

- (a) one
- (b) two
- (c) three
- (d) four
- (e) More than four

Answer (b) two

143. The words are arranged according to the descending order of the numbers which are attached to them from left to right, then how many alphabets are between the letters of second letter from the left end and seventh letter from the right end?

- (a) one
- (b) two
- (c) three
- (d) four
- (e) More than five

Answer (b) two

144. The letters which are attached with the numbers in which at least one is odd digit are arranged according to the ascending orders of their numbers from left to right and then all letters of the words together are arranged in the alphabetical order, then which of the following is the 9th letter from the right end?

- (a) M
- (b) O
- (c) N
- (d) R
- (e) None of these

Answer (c) N

145. How many meaningful words can be formed from the letters of the words which are attached with the numbers in which both the digits are even digit in the given alphanumeric series?

- (a) Three
- (b) Two
- (c) Four
- (d) One
- (e) None of these

Answer (b) Two

146. How many meaningful words can be formed from the letters of the words which are attached with the numbers in which both the digit are odd digit in the given alphanumeric series??

- (a) Three
- (b) Two
- (c) Four
- (d) None
- (e) None of these

Answer (d) None

DIRECTIONS (Q. 147-151)

In every question two rows are given and to find out the resultant of a particular row you need to follow the following steps: - Condition I: If an odd number is followed by a perfect square then the resultant will be the multiplication of both the numbers. Condition II: If an even number is followed by an odd (prime) number then the resultant will be the division of both the numbers. Condition III: If an even number is followed by an even number then the resultant will be the difference of both the numbers. Condition IV: If an odd number is followed by another odd number then the resultant will be the addition of both the numbers. Condition V: If an even number is followed by an odd (non-prime) then the resultant will be the subtraction of both the numbers. Note: Resultant value is always considered as positive integer. And Greater number is dividing by the smaller number.

147. 12 8 8 7 16 5 Find the sum of two rows?

- (a) 135
- (b) 133.4
- (c) 134.5
- (d) 134.4
- (e) None of these

Answer (e) None of these

148. Find the value of the multiplication of both row's resultant value than addition of 1. 12 27 5 1 3 23

- (a) 116
- (b) 120
- (c) 114
- (d) 113
- (e) None of these

Answer (a) 116

149. If the multiplication of the resultants of two rows is 84. Then find the value of X? 12 9 4 4 X 9

- (a) 4
- (b) 9
- (c) 3
- (d) 5
- (e) None of these

Answer (e) None of these

150. Find the division of the sum of the resultant of first and second row. 30 5 2 17 11 12

- (a) 4
- (b) 2
- (c) 8
- (d) 6
- (e) None of these

Answer (a) 4

151. If X is the resultant of the first and second digit of the second row, then find the sum of the resultant of two rows. 24 9 X 7 9 3

- (a) 142
- (b) 144
- (c) 154
- (d) 152
- (e) None of these

Answer (b) 144

DIRECTIONS (Q. 152-156)

There are two rows given and to find out the resultant of a particular row we need to follow the following steps: -
Step 1: If an even number is followed by an odd number then the resultant will be the addition of both the numbers. Step 2: If an odd number is followed by a perfect square then the resultant will be the difference of that square number and the odd number. Step 3: If an odd number is followed by another odd number (but not a perfect square) then the resultant will be the addition of both the numbers. Step 4: If an odd number is followed by an even number (but not a perfect square) then the resultant comes by multiplying the numbers. Step 5: If an even number is followed by another even number then the resultant will be the division of first number by the second number. 8 A publishing house

152. Find the sum of two rows 8 4 1 11 6 7

- (a) 78
- (b) 52
- (c) 64
- (d) 76
- (e) None of the above

Answer (d) 76

153. If the sum of the resultants of two rows is 46. Then find the value of X. 9 2 7 24 4 X

- (a) 16
- (b) 27
- (c) 8
- (d) 15
- (e) None of the above

Answer (d) 15

154. Find the difference between the resultant of first and second row. 13 3 7 4 11 12

- (a) 117
- (b) 126
- (c) 157
- (d) 96
- (e) None of the above

Answer (c) 157

155. Find the multiplication of the resultant of first and second row. 21 19 8 16 13 9

- (a) 110
- (b) 85
- (c) 100
- (d) 120
- (e) None of the above

Answer (c) 100

156. If the multiplication of the resultant of first and second row is 39, then find the value of 'X'. 7 5 4 6 2
X

- (a) 11
- (b) 15
- (c) 16
- (d) 12
- (e) None of the above

Answer (c) 16

157. Point P is in which direction with respect to point V? Statement I: Point P is 4m to the west of point Q. Point R is 8m to the south of point Q. Point U is 7m to the east of point T. Statement II: Point R is 5m to the west of point S. Point T is 3m to the north of point S. Point U is 8m to the north of point V.

- (a) Only Statement I alone is sufficient to answer the questions
- (b) Only Statement II alone is sufficient to answer the questions
- (c) Either statement I or statement II is sufficient to answer the questions
- (d) Neither statement I nor statement II is sufficient to answer the questions
- (e) Both statements I and statement II together are necessary to answer the questions

Answer (e) Both statements I and statement II together are necessary to answer the questions

158. What is the code for "Vision Contact" in the given code language? Statement I: In a code language, "Wants come contact harmful" is coded as "pk rd af jh", "Vision are contact beautiful" is coded as "af pr zm dc", "specs awesome vision ultra" is coded as "ld as pr dq". Statement II: In a code language, "Doctor says contact useful" is coded as "af ct mt lq", "Vision must contact yourself" is coded as "af pr ab zl", "Care your vision must" is coded as "wa ab pr qb".

- (a) Only Statement I alone is sufficient to answer the questions
- (b) Only Statement II alone is sufficient to answer the questions
- (c) Either statement I or statement II is sufficient to answer the questions REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM
- (d) Neither statement I nor statement II is sufficient to answer the questions
- (e) Both statements I and statement II together are necessary to answer the questions

Answer (a) Only Statement I alone is sufficient to answer the questions

159. Kumar started his daily routine, he spends 2 hours for walking, 1 hour for exercise, 30 minutes for fresh up, 15 minutes for breakfast and he reached the office at 9:00. If he takes 40 minutes for travelling to the office, then when did he start the daily routine?

- (a) 8:00
- (b) 7:00
- (c) 6:00
- (d) 5:00
- (e) Cannot be determined REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

Answer (a) 8:00

160. A bus can travel 180km in 3 hours. If the bus started at £\$< and it has taken 15 minutes break in every hour, then when did the bus reach the destination which is 300km from the starting point?
- (a) &%>
 - (b) ©\$>
 - (c) £#<
 - (d) @\$>
 - (e) Cannot be determined

Answer (c) £#<

DIRECTIONS (Q. 161-163)

In the following questions, the symbols @, # and \$ are used with the following meanings as illustrated below. Study the following information and answer the given questions. In each of the questions given below statements are followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. P@Q - All P is Q. P\$Q - Only a few Q is P. P#Q - No Q is P.

161. Statements: Thread \$ Summer; Ranges @ Thread; Ranges \$ Numbers; Numbers @ Hills
Conclusions:
I. Summer @ Numbers
II. Hills # Thread III. Ranges \$ Hills
- (a) Only I follow
 - (b) Only III follows
 - (c) Either I or II follows
 - (d) Both I and III follows
 - (e) Both I and II follows

Answer (b) Only III follows

162. Statements: Duck \$ Club; Verst # Duck; Verst @ Pizza
Conclusions:
I. Pizza @ Duck
II. Pizza \$ Club III. Duck # Pizza
- (a) Only I follow
 - (b) Only II follows
 - (c) Both II and III follows
 - (d) None follows
 - (e) Both I and II follows

Answer (d) None follows

163. Statements: Chase \$ Top; Chase @ Road; Angel # Road; String # Angel
Conclusions:
I. Angel # Chase
II. String \$ Angel III. Road # Top
- (a) Both I and III follows
 - (b) Only II follows
 - (c) Both II and III follows
 - (d) Only I follow
 - (e) Both I and II follows

Answer (d) Only I follow

DIRECTIONS (Q. 164-166)

Study the following information carefully and answer the questions given below: Nine persons live on different floors in a thirteen-story building. The bottommost floor is numbered as 1 and so on till the topmost floor is numbered as 13. Four floors are vacant. A lives on the prime-numbered floor above floor 5. Four floors gap between A and G. One floor gap between G and H. H lives above G. Five floors gap between H and C. C lives below H. D lives on an even-numbered floor. Number of floors above D is same as the number of floors between J and B. E lives on an even-numbered floor just above B. No vacant floor between C and B. F lives two floors above D.

164. Who live just below and just above J respectively?

- (a) D, H
- (b) A, G
- (c) G, H
- (d) F, A
- (e) B, G

Answer (c) G, H

165. How many persons live above E?

- (a) Four
- (b) Five
- (c) Three
- (d) Six
- (e) More than six

Answer (d) Six

166. If F and G interchanged their position then how many persons live between F and H?

- (a) Two
- (b) One
- (c) Three
- (d) None
- (e) Four

Answer (b) One

167. Which of the following may be cause/effect in respect to amendments in Public Premises act? (I) New ministers and parliamentarians will get accommodation on right time. (II) Hunger strike is called by India against corruption leader Anna Hazare. (III) A RTI was filed by Congress MP 2 years ago who had not got Govt. Bungalow for 5 months after becoming MP.

- (a) I is cause and II is effect
- (b) I and II is effect
- (c) I is cause and III is effect
- (d) III is cause and I is effect
- (e) None of these

Answer (d) III is cause and I is effect

DIRECTIONS (Q. 168-172)

A word arrangement machine when given an input line of words rearranges them following a particular rule in each step. The example of input and its rearrangement is given below: Input: Gold Plus Era Rain Hat Ask Row Bank Bay Join Step I: Gold Plus Era Rain aks abkn Hat Row Bay Join Step II: PlusEra Rain aks aby dglo abkn Hat Row Join Step III: Plus Rain aks aby aer ijno dglo abkn Hat Row Step IV: Rain aks aby aer aht lpsu ijno dglo abkn Row Step V: aks aby aer aht orw ainr lpsu ijno dglo abkn Step V is the last step of the given example. Illustrate the above input arrangement and obtain the steps for the asked input given below: Input: Ten Only Car Must Land Yen Away Next End Ink

168. What is the position of 'acr' in step IV from left end?

- (a) 5
- (b) 4
- (c) 3
- (d) 2
- (e) 1

Answer (d) 2

169. How many words are in between 'Yen' and 'den' in step II?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) More than four

Answer (b) Two

170. Which of the following word is fourth from right end in step V?

- (a) mstu
- (b) adln
- (c) entx
- (d) Yen
- (e) aawy

Answer (c) entx

171. Which of the following word is third to the left of 'Next' in step III?

- (a) mstu
- (b) den
- (c) ikn
- (d) adln
- (e) aawy

Answer (d) adln

172. How many words are starts with vowel in step IV?

- (a) Two
- (b) Three
- (c) Four
- (d) Six
- (e) Seven

Answer (e) Seven

173. If in the given word 'DANGEROUS', if all the vowels replaced by its just next letter and all the consonants replaced by its just previous letter then remove all the repeated letter. After that how many letters between 6th letter from the left and 4th letter from the right according to the alphabetical order?

- (a) 7
- (b) 4
- (c) 2
- (d) 1
- (e) 3

Answer (b) 4

174. District Magistrate of City X gave hard hitting remarks at meeting with all the Pradhan "One village in district is spreading violence in the region". The growing forces of violence pose a fundamental challenge. We will not tolerate violence in city. Strict action will be taken for the culprits. Which of the following statement can be inferred from above sentence? (I) Law and order of India is not under control. (II) The district which is indicated by DM will take strong action against violence. (III) DM of city X is too much concern about violent activity and cannot tolerate it.

- (a) Only I
- (b) Only III
- (c) II and III
- (d) Only I and III
- (e) None of these

Answer (b) Only III

DIRECTIONS (Q. 175-177)

Each of the questions below, consist a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the statements and give answer.

175. Six boxes are placed one above the other. How many boxes are placed below B?

- I. E is placed three boxes above D. B is placed just above F. One box is placed between D and C.
- II. Three boxes are placed between A and E. C is placed just below A. Two boxes are placed between C and F. B is placed above D.

- (a) Only I is sufficient
- (b) Both I and II together are sufficient
- (c) Either I or II is sufficient
- (d) Only II is sufficient
- (e) Both I and II, even together are not sufficient

Answer (d) Only II is sufficient

176. Six persons have different weights to each other. Who among all is 2nd heaviest?

- I. B is heavier than A but lighter than C. Only two persons are lighter than A. D is heavier than F but lighter than E. B is heavier than E.
- II. Only two persons are heavier than C. D is lighter than C but heavier than A. F is lighter than C and B who is not the heaviest. F is heavier than D but lighter than E.

- (a) Only I is sufficient
- (b) Both I and II together are sufficient
- (c) Either I or II is sufficient
- (d) Only II is sufficient
- (e) Both I and II, even together are not sufficient

Answer (c) Either I or II is sufficient

- 177.** Six persons visit a city in different months i.e., January, February, March, April, May and June. Who among all visits in March?
- I. M visits in the month having 30 days. Two persons visit between M and B. The number of persons visit before B is same as the number of persons visit after G.
- II. Two persons visit between D and N. N visits on one of the months after D. G visits just before N. E visits three months before G but not in February.
- (a) Only I is sufficient
 (b) Both I and II together are sufficient
 (c) Either I or II is sufficient
 (d) Only II is sufficient
 (e) Both I and II, even together are not sufficient
- Answer (b) Both I and II together are sufficient**

DIRECTIONS (Q. 178-182)

Study the following information carefully and answer the questions given below: Four persons A, B, C and D walk to their home from junction in different directions. A goes 7m in the north to reach at point P. He turns his right and goes 11m to reach at point R. Now he turns his left and goes 14m to reach at point S. After that he turns his right and goes 20m to reach at point Q. Finally, he takes his right and goes 18m to reach his home. B goes 9m north to reach at point M. Now he takes his left and goes 26m to reach at point T. After that he takes two consecutive right and goes 9m and 15m to reach at point O and point N respectively. Finally, he takes his left and goes 8m to reach his home. D goes 18m south to reach at point E. Now he takes his right and goes 13m to reach at point G. He takes his left and goes 14m to reach at point I. Now he takes two consecutive right and goes 6m and 17m to reach at point H and point F respectively. Finally, he goes 12m west to reach his home. C goes 9m east to reach at point U. Now he takes his right and walks 27m to reach at point X. After that he takes his left turn and goes 15m to reach at point W. Now he takes his left and goes 11m to reach

- 178.** Who ends up farthest from the starting junction?
- (a) A
 (b) B
 (c) C
 (d) D
 (e) Cannot be determined
- Answer (d) D**
- 179.** Four of the following five are alike in a certain way and hence form a group. Which of the following does not belong to that group?
- (a) O-U
 (b) E-X
 (c) G-F
 (d) M-V
 (e) G-W
- Answer (c) G-F**

- 180.** Which of the following statement is not true?
- I. Total distance from point U to point V is 53m
 II. A's home is in north-west of C's home and south-east of B's home
 III. Point G is not in south-west of point R
- (a) Both I and II
 (b) Only I
 (c) Only III
 (d) Both II and III
 (e) Only II
- Answer (c) Only III**

181. The total distance from point E to point F is same as the total distance from point ____ and point ____.
- (a) S and P
 - (b) M and N
 - (c) U and W
 - (d) G and D
 - (e) C and U

Answer (b) M and N

182. How far is A from his starting point?

- (a) Less than 50m
- (b) Exactly 55m
- (c) Between 55m and 65m
- (d) More than 65m
- (e) Cannot be determined

Answer (d) More than 65m

DIRECTIONS (Q. 183-187)

Read the given information carefully and answer the questions based on it: Eight persons of a family sit in a row facing north. All are related to each other. There are equal number of females and males in the family. D sits third from an end of the row. C sits second to the left of D. Three persons sit between C and E's spouse. E's spouse is the immediate neighbor of E. L's son sits third to the left of L. Less than two persons sit to the right of L. F sits fourth to the left of F's brother. C's brother sits second to the right of F. G sits second to the right of H's wife. A's mother sits third to the right of A. A's sister and A sit adjacent to each other. One person sits between A's sister and H's daughter. D is neither H's wife nor sister of H.

183. How many persons sit between H and A's niece?

- (a) Two
- (b) One
- (c) Three
- (d) Four
- (e) None of these

Answer (b) One

184. What is the position of D's nephew from the left end of the series?

- (a) Fourth
- (b) Third
- (c) First
- (d) Fifth
- (e) Sixth

Answer (b) Third

185. Who among the following is grandmother of G?

- (a) H's brother-in-law
- (b) C's aunt
- (c) The one who sits just left of H
- (d) F's sister
- (e) The one who sits at the right end

Answer (e) The one who sits at the right end

186. Four of the following five are alike in a certain manner and related to a group, who among the following is not related to the group?

- (a) C
- (b) L
- (c) D
- (d) F
- (e) H

Answer (e) H

187. Which of the following is true?

- I. A is female
 - II. L is spouse of F's father
 - III. C sits just right of G
- (a) Only III is true
 - (b) Only II and III are true
 - (c) Only II is true
 - (d) Only I and II are true
 - (e) All I, II and III are true

Answer (b) Only II and III are true

188. The Internet Cafes are incurring heavy loss these days as people prefer to use Internet in their mobiles PCs and Laptops. Which of the following statements can be an effective course of action?

- (a) The Internet Cafe should be converted into coffee cafe
- (b) The Internet should be closed and new project should be started there
- (c) More funds should be invested on the Internet Cafe
- (d) None of these
- (e) Internet Cafe should be banned

Answer (d) None of these

189. In the number '684359271', if all the digits are arranged in descending order, after then, the digits which remain at same place are removed, now find the difference between the sum of odd digits and sum of even digits in the new number thus formed?

- (a) 5
- (b) 7
- (c) 6
- (d) 8
- (e) 4

Answer (b) 7

DIRECTIONS (Q. 190-194)

In the given questions, a group of letters is given followed by some combinations of numbers and symbols. You have to find out the correct combinations for the group of letters based on the conditions given below: Notes: The alphabets are numbered as 1 to 5 but vowels and the alphabets just before vowel are not numbered here. After numbering till 5, again next five letters are numbered as 1 to 5 and so on. Vowels are coded as #, @, %, &, \$ from U to A respectively. Rest letters are numbered as the highest single digit prime number. Conditions: 1. If both first and last alphabets of the word are either consonant or vowel, then the alphabets which are just next to the vowel (within the word) are coded with the code of Z (except the last vowel). 2. If there are more than two vowels present in the word, then their codes will be written in the alphabetical order of vowels against their places (vowels are considered present in word only). Codes of remaining letters will be written after the subtraction of their given codes from 7 as per the note. 3. If condition 1 and condition 2, both are applied together in the given order, then the code of remaining letter will be written as per note.

190. Find the code for 'IMPETUS'.

- (a) &43%0#5
- (b) &34%7#2
- (c) %43&0#5
- (d) %34#7&2
- (e) &43#0%5

Answer (a) &43%0#5

191. Find the code for 'ZENITH'.

- (a) 2&7%72
- (b) 5%7%27
- (c) 2&2%27
- (d) 2&2%77
- (e) 5%2%27

Answer (c) 2&2%27

192. Find the code for 'INTERPOLE'.

- (a) %77&14@2&
- (b) &20&23%2@
- (c) &24%23@2&
- (d) &27&24@7%
- (e) @72%&274@

Answer (b) &20&23%2@

193. Which of the following codes will fill the blank in '_\$22@_1' which is the code of 'DAGLOCK', respectively?

- (a) 0, 5
- (b) 7, 5
- (c) 0, 6
- (d) 7, 0
- (e) 7, 2

Answer (e) 7, 2

194. Which of the following word is coded as '\$2'?

- (a) SLIDE
- (b) LEAVE
- (c) EQUAL
- (d) MOUNT
- (e) QUITE

Answer (c) EQUAL

195. Read the given information carefully and answer the questions based on it: Six persons go to market in different days of a week stating from Monday to Saturday. Three persons go between A and C. A goes on one of the days before C. E goes just after A. The number of persons go before E is same as the number of persons go after B. D goes after F. How many persons go before B?

- (a) One
- (b) Two
- (c) More than three
- (d) Three
- (e) None

Answer (d) Three

DIRECTIONS (Q. 196-197)

In each question below is given a passage followed by several inferences. You have to examine each inference separately in the context of the passage and decide upon its degree of truth or falsity. Mark your answer as: India needs higher investment in the port sector and still lags far behind international ports in container traffic, though there has been considerable growth in this segment over the past few years. There is a need to continually benchmark Indian ports against the best ports worldwide and continue to engage in policy efforts so as to attain prices per container of port services which are the lowest in the world. The average turn-around time for ships docking at most of the ports in India has been falling for the past three years. However, pre-berthing time has been marginally increasing over the years.

196. The best port in the world is located in the United States of America.

- (a) If the inference is 'definitely true' i.e., it directly follows from the facts given in the passage;
- (b) If the inference is 'probably true' though not definitely true in the light of the facts given;
- (c) If you think the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false;
- (d) If you think the inference is 'definitely false' i.e., it contradicts the given facts
- (e) If you think the inference is 'probably false' though not definitely false in the light of facts given;

Answer (c) If you think the data are inadequate i.e., from the facts given you cannot say whether the

197. Indian ports have not been graded so far on the international standard.

- (a) If the inference is 'definitely true' i.e., it directly follows from the facts given in the passage;
- (b) If the inference is 'probably true' though not definitely true in the light of the facts given;
- (c) If you think the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false;
- (d) If you think the inference is 'definitely false' i.e., it contradicts the given facts
- (e) If you think the inference is 'probably false' though not definitely false in the light of facts given;

Answer (b) If the inference is 'probably true' though not definitely true in the light of the facts g

DIRECTIONS (Q. 198-200)

Study the following information and answer the related questions: In a certain code language, P@Q means P is husband of Q P#Q means P is mother of Q P^Q means P is father of Q P&Q means P is wife of Q P%Q means P is brother of Q P\$Q means P is daughter of Q P+Q means P is son of Q

198. 'D@C\$E; S&E^Y#X; J@Y', which of the following is true, if the given expression is true?

- I. C is son of E
- II. J is father of X III. S is mother of Y IV. Y is brother of C
- (a) Only I and III are true
- (b) Only II, III and IV are true
- (c) Only I and IV are true
- (d) Only II and III are true
- (e) Only II and IV are true

Answer (d) Only II and III are true

199. 'Z\$W^N+A; G@R#H&N', in the given expression, how W is related to H?

- (a) Father-in-law
- (b) Brother
- (c) Uncle
- (d) Brother-in-law
- (e) Father

Answer (a) Father-in-law

200. Which will in place of '?' which will satisfy the relation that B is niece of Q? F@U#B&M; L%V^U; Q?V

- (a) %
- (b) Either \$ or +
- (c) \$
- (d) ^
- (e) &

Answer (b) Either \$ or +

DIRECTIONS (Q. 201-207)

In the following passage there are blanks, each of which has been denoted by letters. For each blank each, four words are suggested. Following the words, five options are given. Choose the most appropriate set of words from the options that fits the blank appropriately. Global warming is increasing, an _____(A)_____ phenomenon catalyzed by the _____(B)_____ accumulation of greenhouse gases in Earth's atmosphere. This insidious _____(C)_____ precipitates a plethora of _____(D)_____ effects, paramount among them the exacerbation of climate change. The intricate interplay between anthropogenic activities and natural processes has engendered a scenario where the stability of global climate systems is under unprecedented threat. At the heart of this _____(E)_____ predicament lies the combustion of fossil fuels, a practice that has become the linchpin of modern civilization. The _____(F)_____ release of carbon dioxide, methane, and other greenhouse gases has engendered a thickening of the atmospheric blanket, trapping heat and precipitating a global temperature uptick. This thermic augmentation is not merely a statistic; it is a _____(G)_____.

201. Which of the following words will fit in the given blank A? (I) Incontrovertible (II) Indecisive (III) Indubitable (IV) moot

- (a) Both (II) and (IV)
- (b) Only (III)
- (c) Both (I) and (III)
- (d) Only (I)
- (e) Both (I) and (II)

Answer (c) Both (I) and (III)

202. Which of the following words will fit in the given blank B? (I) Pliant (II) Spineless (III) Relentless (IV) Pertinacious

- (a) Both (II) and (III)
- (b) Only (II)
- (c) Both (I) and (III)
- (d) Only (IV)
- (e) Both (III) and (IV)

Answer (e) Both (III) and (IV)

- 203.** Which of the following words will fit in the given blank C? (I) Diminution (II) Escalation (III) Accretion (IV) Constriction
- (a) Both (II) and (IV)
 - (b) Only (IV)
 - (c) Both (I) and (III)
 - (d) Both (II) and (III)
 - (e) Both (I) and (IV)
- Answer (d) Both (II) and (III)**
- 204.** Which of the following words will fit in the given blank D? (I) Anodyne (II) Benignant (III) Deleterious (IV) Innocuous
- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (II)
 - (d) Only (IV)
 - (e) Both (I) and (IV)
- Answer (b) Only (III)**
- 205.** Which of the following words will fit in the given blank E? (I) Dire (II) Apocalyptic (III) Propitious (IV) Blithesome
- (a) Both (I) and (II)
 - (b) Only (II)
 - (c) Both (I) and (IV)
 - (d) Only (III)
 - (e) Both (III) and (IV)
- Answer (a) Both (I) and (II)**
- 206.** Which of the following words will fit in the given blank F? (I) Ancillary (II) Disparate (III) Diacritical (IV) Divisional
- (a) Both (II) and (III)
 - (b) Only (II)
 - (c) Both (I) and (IV)
 - (d) Only (I)
 - (e) Both (III) and (IV)
- Answer (d) Only (I)**
- 207.** Which of the following words will fit in the given blank G? (I) Scion (II) Harbinger (III) Contraindication (IV) Prelude
- (a) Both (II) and (IV)
 - (b) Only (III)
 - (c) Both (I) and (II)
 - (d) Only (IV)
 - (e) Both (I) and (III)
- Answer (a) Both (II) and (IV)**
-

DIRECTIONS (Q. 208-214)

Read the following passage and answer the given questions based on it. In a world dominated by digital advancements, Rohan, a seasoned software engineer with thirty years of experience, decided to embark on a transformative journey. Eager to contribute to his family's legacy, he embarked on an agricultural journey alongside his brother. Together, they chose to cultivate millets, a crop that thrived in the village's climate and offered resistance to pests, aligning perfectly with their aspirations for sustainable farming. The village's reliance on age-old farming tools and techniques posed a challenge for maximizing millet production. Recognizing the potential for modern technology to enhance agricultural efficiency, Rohan applied his engineering expertise to introduce innovative farming practices. His efforts were met with remarkable success, leading to a significant improvement in millet yields. Rohan's achievements extended beyond his own fields. He became a catalyst for change, sharing his newfound agricultural knowledge with fellow villagers. His initiative to incorporate technology in farming sparked a collective advancement in agricultural practices within the community. Unde

208. Which of the following statement is CORRECT?

- (a) Rohan initiated his agricultural venture with assistance from his father
- (b) The choice to cultivate millets was driven by their higher market prices for farmers
- (c) Millets exhibit resistance to pests
- (d) Engaging in millet cultivation resulted in significant financial losses for the village's farmers
- (e) None of the above statements are correct

Answer (c) Millets exhibit resistance to pests

209. Which of the following statement(s) is/ are CORRECT based on the passage? (I) Millets were chosen for their high market price and profitability. (II) Rohan applied his engineering expertise to overcome the challenges posed by traditional farming methods. (III) The introduction of innovative farming practices had no significant effect on the community's agricultural practices.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (II)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

Answer (c) Only (II)

210. Which statement(s) does NOT align with the details in the passage? (I) Rohan's decision to cultivate millets was primarily due to their ease of cultivation and low maintenance. (II) The significant improvement in millet yields was attributed to Rohan's engineering expertise and the adoption of innovative farming practices. (III) Rohan's venture into agriculture had little impact on the economic challenges faced by farmers in the village.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

Answer (d) Both (I) and (III)

211. Which of the following statement(s) is/ are CORRECT based on the passage? (I) Rohan relied on traditional wisdom to enhance agricultural practices in his village. (II) Direct sales facilitated by Rohan's agro-based company significantly cut down the exploitation by intermediaries. (III) Rohan's transition to agriculture was inspired by a desire to contribute to his family's legacy.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

Answer (d) Both (II) and (III)

212. How did Rohan's agro-based company impact the farming community?

- (a) By providing advanced agricultural tools and resources that directly contributed to increased millet production
- (b) Through facilitating educational workshops on innovative farming techniques, leading to widespread adoption among villagers
- (c) By enabling sales channels between farmers and markets, thereby ensuring fairer prices for their produce
- (d) Through the introduction of pest-resistant millet varieties, specifically engineered to thrive in the village's climate
- (e) By cutting out intermediaries, which resulted in a substantial increase in the farmers' profits

Answer (e) By cutting out intermediaries, which resulted in a substantial increase in the farmers' profits

213. Based on the passage, why did Rohan choose millets as the crop for his agricultural venture?

- (a) Millets were the most profitable crop in the market at the time
- (b) He had extensive prior experience in cultivating millets
- (c) Millets thrived in the village's climate and offered resistance to pests
- (d) The local government provided subsidies for millet cultivation
- (e) Millets required less water compared to other crops, making them ideal for the village's dry climate

Answer (c) Millets thrived in the village's climate and offered resistance to pests

214. What was the primary challenge Rohan faced when he began his agricultural venture in the village?

- (a) A lack of interest from the village community in adopting new farming methods
- (b) The village's reliance on age-old farming tools and techniques that limited farming practices
- (c) Difficulty in finding a suitable crop that could thrive in the local climate
- (d) Resistance from local middlemen who were threatened by his innovative approaches
- (e) The high cost of importing modern agricultural technology to the village

Answer (b) The village's reliance on age-old farming tools and techniques that limited farming practices

DIRECTIONS (Q. 215-221)

Read the following passage and answer the given questions. Germany's economic vigor is surmised to have attenuated by 0.3% in the annum 2023, aligning with autumnal prognostications. An erosion in purchasing power egregiously impinged upon private consumer expenditures. Escalated expenditures pertinent to construction and borrowing, compounded by a paucity of labor and pronounced energy costs, have effectively hamstrung investments in the construction ambit and industries characterized by prodigious energy consumption. Indices reflecting economic sentiment have remained in a state of torpor, with certain gauges in January descending to their lowest ebb since the COVID-19 pandemic's advent, signaling an economic expansion that is, at best, tepid in the initial half of 2024. The trajectory of investment growth is poised to continue its lag behind pre-pandemic standards, beleaguered by a dismal investor outlook at the year's outset. Labor shortages steadfastly remain a formidable barrier to economic activities, effectively squaring the circle in terms of reconciling growth aspirations with the reality of workforce constraints. The prospect of a trade-led revitalization appears tenuous

215. What factors are primarily responsible for the projected attenuation of Germany's economic growth in 2023? (I) A reduction in consumer purchasing power due to economic conditions. (II) Increased costs associated with construction and borrowing activities. (III) Persistent labor shortages and elevated energy prices impacting industrial and construction investments.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

Answer (e) All (I), (II), and (III)

216. What is the forecast for Germany's real GDP growth for the years 2024 and 2025?

- (a) An increase to 0.8% in 2024 and 1.2% in 2025, showing an optimistic revision from previous forecasts
- (b) A decrease to 0.3% in 2024 from the Autumn Forecast's prediction of 0.8%, with a steady outlook of 1.2% for 2025
- (c) A constant growth rate of 1.2% for both 2024 and 2025, matching previous forecasts exactly
- (d) An unexpected surge to 2.8% in 2024, significantly higher than the Autumn Forecast, and a slight decrease to 2.4% in 2025
- (e) A stabilization at 0.3% for 2024 and a decline to 1.2% in 2025, contrary to more optimistic earlier predictions

Answer (b) A decrease to 0.3% in 2024 from the Autumn Forecast's prediction of 0.8%, with a steady outlook

217. How is the inflationary trend over 2024 and 2025 expected to be driven, according to the passage?

- (a) Primarily by the manufacturing sector, due to increased production costs
- (b) By a significant increase in energy prices, contributing to higher overall inflation rates
- (c) Predominantly by the services sector, with wage growth expected to maintain inflation at elevated levels
- (d) Through decreased consumer spending, leading to lower demand and thus lower inflation
- (e) By the agricultural sector, due to fluctuations in global commodity prices

Answer (c) Predominantly by the services sector, with wage growth expected to maintain inflation at elevated levels

218. Evaluate the accuracy of these statements in light of the passage: (I) Real GDP growth for 2024 has been revised downwards from the Autumn Forecast. (II) HICP inflation is expected to remain constant at around 6% through 2024 and 2025. (III) Energy price increments are forecasted to be a major driver of inflation in the coming years.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

Answer (a) Only (I)

219. Which of the following statements is INCORRECT based on the passage? (I) Labor market robustness and increased real wages are expected to support private consumption. (II) Exports and imports are projected to grow at differing rates, potentially disrupting trade balance. (III) Fiscal austerity measures are likely to negatively influence near-term economic growth.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (II)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

Answer (c) Only (II)

220. What does the following sentence mean in the context of the passage? "More austere fiscal policies are poised to cast a pall over the near-term growth outlook."

- (a) Stricter budgetary measures are expected to improve economic growth prospects shortly
- (b) The implementation of more rigid fiscal policies is likely to brighten the economic outlook in the near future
- (c) Tighter government spending and taxation policies are anticipated to dampen economic growth in the short term
- (d) Increased public investment and spending, as part of austere policies, will enhance the economic growth outlook
- (e) Fiscal austerity measures will have no significant impact on the economic growth forecasts

Answer (c) Tighter government spending and taxation policies are anticipated to dampen economic growth

221. What does the phrase “squaring the circle” mean?

- (a) Finding a simple solution to a complex problem
- (b) Making significant progress in a short amount of time
- (c) Achieving something that is seemingly impossible or very difficult
- (d) Balancing economic growth with environmental sustainability
- (e) Increasing productivity without additional resources

Answer (c) Achieving something that is seemingly impossible or very difficult

222. On a chilly afternoon, Ratul was toiling away in his office when a cold breeze wafted through the open window, prompting him to close it to maintain a cozy environment. Despite feeling somewhat lethargic that day, his spirits were unexpectedly lifted by a sudden phone call. The caller delivered the exhilarating news that Ratul had been shortlisted for the best performance award for his outstanding work on a recent project. Overwhelmed with happiness, Ratul found himself at a loss for words, unable to articulate the immense joy and surprise he felt at this unexpected recognition. What the following word can most suitably express the feeling of Ratul?

- (a) Ecstatic
- (b) Despondent
- (c) Bewildered
- (d) Insouciant
- (e) Apathetic

Answer (a) Ecstatic

223. In the following question, three sentences are given, each containing a highlighted word. Among the provided alternatives, select the word that serves as the most suitable antonym for the highlighted words.

- (a) To pacify the crying child, her mother gently rocked her in her arms, humming a soft lullaby
- (b) The lavish buffet spread was more than enough to satiate the guests' hunger, leaving them content and full
- (c) After a long hike on a hot summer day, the icy cold water from the mountain stream quenched their thirst perfectly
- (d) blandish
- (e) console

Answer (c) After a long hike on a hot summer day, the icy cold water from the mountain stream quenche

DIRECTIONS (Q. 224-226)

In each question, one word is given in bold and correspondence to that, three sentences are given each containing that word. Choose the option depicts the sentence(s) that have/ has the correct usage of the word.

224. RIGHT (I) Despite the intricate calculations, he decided to right his thesis on the quantum theory's implications on temporal paradoxes. (II) She exercised her right to vote, believing in the importance of contributing to the democratic process. (III) He turned right at the corner, following the directions to reach the new bookstore downtown.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (I) and (II)
- (e) Both (II) and (III)

Answer (e) Both (II) and (III)

225. QUERY (I) Upon encountering an error in the report, she sent a query to the IT department seeking clarification and assistance. (II) After reviewing the database, he formulated a complex SQL query to extract the specific information needed for the upcoming project presentation. (III) She submitted a query to the customer service team, hoping for a quick resolution to her issue with the online order.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) All are correct
- (e) Both (I) and (III)

Answer (d) All are correct

226. RELIANT (I) As technology advances, society becomes increasingly reliant on digital tools for daily tasks and communication. (II) He was reliant to believe that the weather would improve, despite the forecast predicting rain all week. (III) The remote village, reliant on solar panels for electricity, showcased the potential of sustainable energy in off-grid communities.

- (a) Only (I)
- (b) Both (I) and (III)
- (c) Only (III)
- (d) All are correct
- (e) Only (II)

Answer (b) Both (I) and (III)

DIRECTIONS (Q. 227-228)

In the questions given below, a sentence is given where the word has been emboldened. Below the sentence three words are given. Following the words, five options are given. Select the best alternatives for the bold word from the given options.

227. Given the dark clouds gathering in the sky, it's likely that we'll see rain before the afternoon is over.
(I) scarcely (II) probably (III) conceivably

- (a) Only (I)
- (b) Both (II) and (III)
- (c) Only (III)
- (d) Both (I) and (III)
- (e) Both (I) and (II)

Answer (b) Both (II) and (III)

228. He enjoyed the movie, though he had already read the book and knew the ending. (I) however (II) hence (III) nevertheless

- (a) Only (I)
- (b) Both (II) and (III)
- (c) Only (III)
- (d) Both (I) and (III)
- (e) Both (I) and (II)

Answer (d) Both (I) and (III)

DIRECTIONS (Q. 229-232)

In the following questions, four sentences are provided and you are required to evaluate the grammatical correctness of each statement and select the corresponding option that accurately represents your evaluation.

- 229.** (I) Despite the heavy rain, the event proceeded as planned, and many attendees appreciated the dedication shown. (II) Everyone in the classroom were eagerly waiting for the announcement that the school year was finally over. (III) The committee decided that the proposal, while innovative, did not align with the organization's current priorities. (IV) Having lost the game, the team's spirits were low, but its coach's encouraging words lifted there mood significantly.

- (a) Only (I) is correct
- (b) Both (III) and (IV) are incorrect
- (c) Both (II) and (IV) are incorrect
- (d) Both (I) and (IV) are correct
- (e) All (I), (II), (III) and (IV) are correct

Answer (c) Both (II) and (IV) are incorrect

- 230.** (I) As the deadline approaches, the team worked tirelessly to ensure the project's completion on time, despite facing numerous challenges. (II) The recent study reveals that, despite common belief, eating chocolate in moderation can have benefits for heart health. (III) Each of the participants have their own unique perspective, which they will share during the discussion panel next week. (IV) The novel's intricate plot, combined with the author's attention to detail, makes it a compelling read for enthusiasts of the genre.

- (a) Only (I) is incorrect
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct
- (d) Both (I) and (III) are correct
- (e) All (I), (II), (III) and (IV) are correct

Answer (c) Both (II) and (IV) are correct

- 231.** (I) In an effort to reduce waste, the city council announced that it will be implementing a new recycling program next month. (II) The teacher, along with her students, are planning a field trip to the museum to enhance their understanding of history. (III) Not only does the new policy aim to increase efficiency, but it also seeks to improve the overall customer experience. (IV) Despite his initial reservations, he found that the course offered valuable insights over the subject, exceeding his expectations.

- (a) Only (III) is incorrect
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct
- (d) Both (I) and (III) are correct
- (e) All (I), (II), (III) and (IV) are correct

Answer (d) Both (I) and (III) are correct

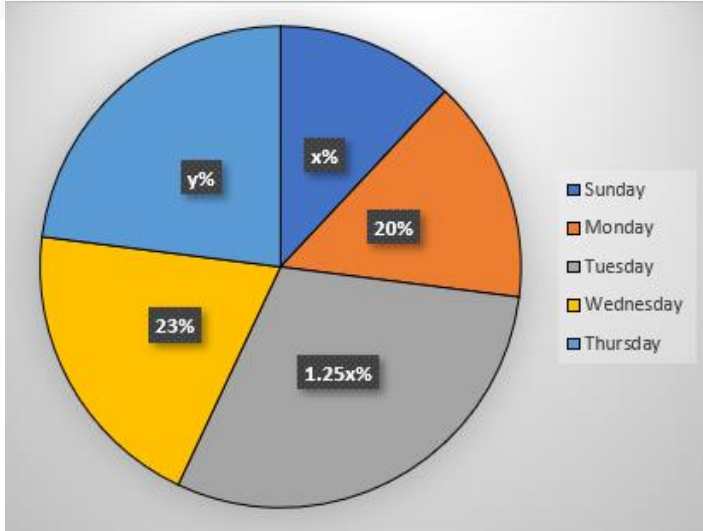

- 232.** (I) The research team was surprised to find that their results contradicted previous studies, leading them to further investigate the anomaly. (II) Among the many challenges faced by the committee was finding a consensus on the proposed budget, which proved to be more difficult than anticipated. (III) The number of participants attending the conference exceed the organizers' expectations, which necessitated additional preparations. (IV) Following the seminar, feedback from attendees were overwhelmingly positive, indicating the event's success in meeting its objectives.

- (a) Both (III) and (IV) are incorrect
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct
- (d) Both (I) and (III) are correct
- (e) All (I), (II), (III) and (IV) are correct

Answer (a) Both (III) and (IV) are incorrect

DIRECTIONS (Q. 233-237)

The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

233. On Monday, the ratio of males to females visiting the mall was 2:3. If the number of females visiting the mall increased by 25% and the total number of people visiting on Monday remained the same, then the number of males after females is increased are what percentage of total people visited the mall on Tuesday.

- (a) 32.5%
- (b) 16.67%
- (c) 8.33%
- (d) 33.33%
- (e) 65%

Answer (d) 33.33%

234. On Wednesday, 30 people watch movie and remaining went to food court in the mall. If females went to food court is equal to total people went to the movie and total male went to food court is 12 more than that of total male went to the movie, then find the ratio of total females went to movie on Wednesday to total people went to mall on Thursday.

- (a) 3:1
- (b) 1:3
- (c) 2:7
- (d) 7:9
- (e) 1:12

Answer (e) 1:12

235. Total males visited to mall on Sunday and Thursday are same and ratio of females visited on Sunday to Thursday is Find sum total males in both the given days.

- (a) 36
- (b) 39
- (c) 60
- (d) 80
- (e) 84

Answer (e) 84

236. Ratio of the total people visited to mall on Saturday to on Monday and Tuesday together is 1:2 and males visited on Saturday is 25% more than that total people visited to mall on Sunday. The females visited mall on Saturday is what percentage of the total people visited the mall in all given days.

- (a) 3.6%
- (b) 1.8%
- (c) 2.5%
- (d) 7.5%
- (e) 6.5%

Answer (c) 2.5%

237. Find the difference between maximum and minimum number of people visited to the mall in the given days.

- (a) 72
- (b) 18
- (c) 20
- (d) 30
- (e) 65

Answer (a) 72

238. Solve the given two equation (I) and equation (II) and from the roots of these equation find which of the new equation formed. (I): $x^2 - 10x + 21 = 0$ (II): $y^2 - 24y + 144 = 0$ For making equation one root is taking from (I) and other root taken from (II)

- (a) $z^2 - 19z + 84 = 0$
- (b) $z^2 - 19z + 36 = 0$
- (c) $z^2 - 13z + 36 = 0$
- (d) $z^2 - 19z + 30 = 0$
- (e) $z^2 - 15z + 84 = 0$

Answer (a) $z^2 - 19z + 84 = 0$

DIRECTIONS (Q. 239-240)

Solve the quadratic equation given below and answer the question based on these equations. (I) $2x^2 - Px + 10 = 0$ (II) $4y^2 - Ry + 15 = 0$ Note: (i) Roots of the equation (I) are (A) and (B) whose sum is 4.5 (ii) Roots of the equation (II) are C and D. Smallest root (C) of the equation (II) is $\frac{1}{2}$ of the smallest root (A) of the equation (I)

239. Find the sum of the B and D.

- (a) 6.75
- (b) 7.75
- (c) 6.25
- (d) 4.25
- (e) 8.25

Answer (c) 6.25

240. Which of the following statement/s is/are correct. (I) $A + 1.75 = D$ (II) $B + 1.25 = D$ (III) $D - C = B + 0.25$

- (a) Both (I) and (II)
- (b) Only (I)
- (c) Only (III)
- (d) All (I), (II) & (III)
- (e) None of these

Answer (d) All (I), (II) & (III)

DIRECTIONS (Q. 241-242)

One number is wrong, and one number is missing in the given number series. Solve the number series and answer the questions given below. (I) 0.5, 5, 60, 480, 2880, 11520, P

241. Find the wrong number of the series.

- (a) 5
- (b) 60
- (c) 480
- (d) 2880
- (e) 0.5

Answer (a) 5

242. If the wrong number of the series is A, then find which of the statement/s is/are correct. (I) $P - 2880 = 4032A$ (II) P is completely divisible by A (III) $P > 4320A$

- (a) Both (I) and (II)
- (b) Only (I)
- (c) Only (III)
- (d) All (I), (II) & (III)
- (e) None of these

Answer (d) All (I), (II) & (III)

243. Anvi and Vaishnav started a business with the investment of Rs. 4800 and Rs. P respectively. After 6 months and 4 days Anvi left the business and Vaishnav invested Rs. 300 more. After 2 months and 3 days from the time at which Anvi left, Madhu joined the business by invested half of the amount invested by Vaishnav. If the annual profit is Rs. 1600 and the share of Madhu is Rs. 200. Find the approximate value of P.

- (a) Rs. 15300
- (b) Rs. 16000
- (c) Rs. 70000
- (d) Rs. 75000
- (e) Rs. 65000

Answer (a) Rs. 15300

244. A boat covers 1.5S km downstream in 15 hours. A boy covered S km in 5 hours and the speed of the boy is 11 km/hr more than the speed of boat in still water. If the speed of stream is 3 km/hr, then find the value of S.

- (a) 80
- (b) 70
- (c) 60
- (d) 90
- (e) 50

Answer (a) 80

245. If and $B + C = 12$, Also $14 \geq A > B > 9$ and $10 \geq B > C > 1$. (Note: A, B and C are the integers) Quantity (I) Value of $A + 5$ Quantity (II) Value of $2C + B$

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (a) Quantity I > Quantity II

246. A person invested Rs. P in a scheme that offers 19.8% interest, which is compounded annually for two years and two days. If the amount received from this scheme is reinvested at the same rate for the same period of time in the same scheme, then he will receive Rs. 792 as interest. Find the approximate value of P.

- (a) 2500
- (b) 1250
- (c) 1450
- (d) 1320
- (e) 1000

Answer (b) 1250

247. A train crossed a poll in t seconds and the train crossed a platform in (t + 12) seconds. If the sum of length of platform and the train 540 meters. If the length of train is 300 meters, then find the distance covered by the train in (t - 6) seconds.

- (a) 280 meters
- (b) 240 meters
- (c) 250 meters
- (d) 160 meters
- (e) 180 meters

Answer (e) 180 meters

248. X and Y are two numbers, and $XY = 40$. If we add one to numbers X and Y each, then both numbers form a single digit. Find the product of X and Y after adding one to both numbers. (Both X and Y are integers.)

- (a) 54
- (b) 64
- (c) 42
- (d) 49
- (e) None of these

Answer (a) 54

DIRECTIONS (Q. 249)

Find the pattern of the series and answer the questions given below. Series I. a, d, c, 669, 833, 1017, 1221 Series II. b, b+18, 336, 354, 372, 390 Series III. 456, 472, 408, 552, z

249. Which of the following statement/s is/are incorrect.

- (a) d is a prime number
- (b) a and z both are an odd number
- (c) c is divided by 7, then the quotient is $\frac{1}{4}$ of b
- (d) Only
- (e) Both

Answer (a) d is a prime number

DIRECTIONS (Q. 250-251)

Find the approximate value of question mark (?) in the following questions.

250. $1259.909 \div 12.106 \div 6.979 + 37.8982 - 29.9023 = ?$

- (a) 28
- (b) 11
- (c) 19
- (d) 15
- (e) 23

Answer (e) 23

251. ? $\times (44.01\% \text{ of } 750.01 + 110.01) = 87.99\% \text{ of } 2499.98$

- (a) 1
- (b) 11
- (c) 3
- (d) 5
- (e) 8

Answer (d) 5

DIRECTIONS (Q. 252-256)

Read the information and answer the following questions. There are four products A, B, C & D. 1. Each B and D was marked up by 50% above its cost price. 2. The ratio of marked price of B to C is 6:7 and selling price of A is half of the marked price of B. The sum of the marked price of C and D is Rs 810. 3. D sold at 10% discount and rest of the products sold at a discount of 15%.

252. If total profit percent earned after selling product B is M%, then find the value of M.

- (a) 27.5
- (b) 14.5
- (c) 14.8
- (d) 24.7
- (e) 30.75

Answer (a) 27.5

253. If product A is sold at a profit of 53% and difference between cost price and marked price is Rs 80, then find the selling price of product B (in Rs).

- (a) 244.1
- (b) 242.3
- (c) 245
- (d) 260.1
- (e) 300.1

Answer (d) 260.1

254. The sum of marked price of products B and C is Rs 1326 and cost price of product C is Rs142 more than that of product B, then find the cost price of product C is how much more or less than that of product D (In Rs).

- (a) 441
- (b) 423
- (c) 450
- (d) 486
- (e) 300

Answer (d) 486

255. If the sum of marked price of product D and cost price of product B is Rs 733.5, then find the selling price of product D is approximately what percentage that of product A.

- (a) 144%
- (b) 842%
- (c) 735%
- (d) 727%
- (e) 743%

Answer (e) 743%

- 256.** If sum of the discount percentages given on products A and D is equal to the total profit percentage of product C, then find the marked-up percentage (approx.) of product C.
- (a) 39%
 - (b) 22%
 - (c) 65%
 - (d) 47%
 - (e) 30%

Answer (d) 47%

- 257.** An article is marked up by Rs 1225 above its cost price which is 'x'. It sold at a discount of 0.27x and the profit earned by the shopkeeper is 8%. Quantity I: Find the value of Rs (x - 2500). Quantity II: If cost price of the article is increase by 14.28% and sell at a profit of 25%, then find the profit (in Rs).
- (a) Quantity I > Quantity II
 - (b) Quantity I < Quantity II
 - (c) Quantity I $\geq$ Quantity II
 - (d) Quantity I $\leq$ Quantity II
 - (e) Quantity I = Quantity II or no relation

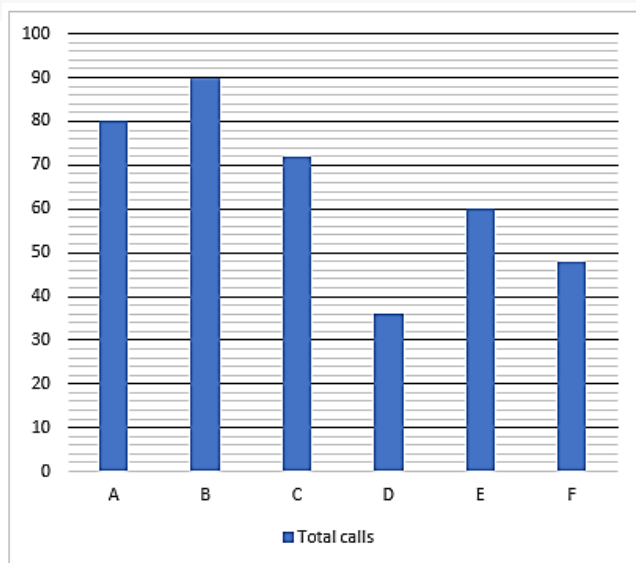

Answer (e) Quantity I = Quantity II or no relation

- 258.** Find the pattern of the given series and answer the question given below.
- (a) 119
 - (b) 98
 - (c) 124
 - (d) 105
 - (e) 101

Answer (e) 101

DIRECTIONS (Q. 259-263)

Bar graph given below shows the number of total inbound calls (domestic and international) and outbound calls (domestic and international) made by six people (A, B, C, D, E, and F). The table shows the ratio of Inbound and Outbound calls made by these people. Read the information and answer the following questions.

People	Inbound: outbound
A	3:5
B	_____
C	7:5
D	1:3
E	3:2
F	2:a

259. For B, outbound domestic calls is 0.75 times than that of inbound and outbound international calls are $\frac{5}{6}$ that of inbound. If the ratio of total outbound call to inbound calls is 4:5, then find the total international calls.

- (a) 55
- (b) 50
- (c) 35
- (d) 40
- (e) 45

Answer (a) 55

260. If the difference between inbound and outbound calls made by F is 16, then find the value of a.

- (a) 4
- (b) 2
- (c) 5
- (d) 1
- (e) 3

Answer (d) 1

261. If the outbound calls by B is 20% more than that of C, then the inbound calls by B is what percentage of total calls made by E.

- (a) 85%
- (b) 90%
- (c) 75%
- (d) 50%
- (e) 55%

Answer (b) 90%

262. If total inbound domestic calls by C and D is equal to outbound calls by E and total international calls made by C and D is 44, then find the total domestic outbound calls made them.

- (a) 55
- (b) 50
- (c) 35
- (d) 40
- (e) 20

Answer (d) 40

263. If number of inbound international and outbound international calls made by A is square of a positive integer, then find the difference between minimum number of domestic call (inbound and outbound) made by A. (Note: inbound international and outbound international calls made by A are not equal)

- (a) 4
- (b) 2
- (c) 5
- (d) 1
- (e) 3

Answer (a) 4

DIRECTIONS (Q. 264-267)

The table shows the number of articles (A, B, C & D) sold, cost price of each article, mark up percentage and total discount given. Read the information and answer the following questions. Note- (i) Selling price of article A is one third of the selling price of article C. (ii) Selling price of article B is double than the selling price of article D.

264. If the marked price of total article A is Rs 3000 and 60% of article are not sold then find the total number of article A (sold + unsold). (Note: x is a multiple of 5 and less than 30)

- (a) 250
- (b) 150
- (c) 135
- (d) 240
- (e) 220

Answer (a) 250

265. Discount given on each article C is Rs15 less than the cost price of each article D. Find the total articles B and C sold.

- (a) 550
- (b) 500
- (c) 350
- (d) 400
- (e) 200

Answer (e) 200

266. If the discount given on each article B is Rs 15, then find the marked price of each article B is what percentage of total discount given on article A.

- (a) 4%
- (b) 2%
- (c) 9%
- (d) 1%
- (e) 3%

Answer (c) 9%

267. Find the ratio between the total discount given on article D to discount given on each article A.

- (a) 300:1
- (b) 1:300
- (c) 200:7
- (d) 7:900
- (e) 11:102

Answer (a) 300:1

268. A and B spent 40% of their monthly salary each and saved the rest of the salary. A saved Rs. 6000 and out of the total expenditure, A and B spent 20% and 30% on food and invested the remaining amount in SIP. If the monthly amount invested in the SIP by B is Rs. 1980 more than that of A, then find the difference in the salary of A and B (in Rs).

- (a) 7000
- (b) 8200
- (c) 8400
- (d) 8500
- (e) 7500

Answer (d) 8500

269. A bag contains certain number of pebbles of three different colors (Red, Blue and Green). Number of Red pebbles are 5 and the number of blue pebbles is 6. If the probability of picking a pebble from the bag and pebble comes out to be of green color is $\frac{7}{18}$. Find the probability of picking two pebbles and one pebbles comes out to be of Blue and other is of Red.

- (a) $\frac{3}{5}$
- (b) $\frac{10}{51}$
- (c) $\frac{11}{51}$
- (d) $\frac{9}{53}$
- (e) $\frac{10}{53}$

Answer (b) $\frac{10}{51}$

270. Total surface area of the cuboid is 76 cm^2 . Quantity (I): Ratio of the length and the height of the cuboid is 5: 2 and the breadth is double of the height. Find the cost of painting the floor of the cuboid at the cost of Rs. $20/\text{cm}^2$. Quantity (II): Perimeter of the equilateral triangle formed on the floor of the cuboid is 12 cm. Find the cost of painting triangular part at the cost of Rs $30/\text{cm}^2$.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (a) Quantity I > Quantity II

271. The vessel contains 60 liters of a mixture that contains 80% milk and the rest is water. Firstly, 20 liters of mixture are replaced by water, and then, 15 liters of mixture are removed from the resultant mixture. If x liters of water are added to the remaining mixture, then the ratio of milk to water becomes equal in the final mixture. Find the value of x .

- (a) 3
- (b) 4
- (c) 5
- (d) 6
- (e) 2

Answer (a) 3

272. Ratio of time taken to cover P km in downstream to the time taken to cover P km in upstream is 5:12 and the ratio of speed of boat in downstream to boat in still water is 8: 5. If the difference between the time taken by the boat to travel $(P-6)$ km in upstream to that in downstream is 6 hr., then find the distance covered by the boat in still water in 5 hours?

- (a) 32.5 km
- (b) 31.5 km
- (c) 47.5 km
- (d) 37.5 km
- (e) 27.5 km

Answer (d) 37.5 km

273. The average earning of a group of eight persons is Rs 25 per day. The difference between the person having highest earning and lowest earning in the group is Rs 45. If person having highest and lowest earning are excluded, then the average earning of the group decreased by Rs 2.5. Find the average earning of the group when the three persons whose sum of earnings are equal to the person having highest earning left the group?

- (a) Rs 29
- (b) Rs 28.5
- (c) Rs 30
- (d) Rs 29.5
- (e) Rs 30.5

Answer (a) Rs 29

274. 15 boy and 12 girls together can complete a work in 'a' days while 5 boys and 22 girls can complete the same work in 'c' days. Ratio of efficiency of a boy to a girl is 2: 5. Find the possible value/s of $a + c$ where a and c are positive integers. (I) 18 (II) 8 (III) 28 (IV) 14 (V) 21

- (a) Both I and II follows
- (b) I, II and III follows
- (c) II, III and IV follows
- (d) I, III and V follows
- (e) III, IV and V follows

Answer (e) III, IV and V follows

275. X and Y are two numbers, and $XY =$

- (a) 54
- (b) 64
- (c) 42
- (d) 49
- (e) None of these

Answer (a) 54

- 276.** A bag contains certain number of pebbles of three different colors (Red, Blue and Green). Number of Red pebbles are 5 and the number of blue pebbles is
- (a) $3/5$
 - (b) $10/51$
 - (c) $11/51$
 - (d) $9/53$
 - (e) $10/53$

Answer (b) $10/51$

- 277.** Total surface area of the cuboid is 76 cm

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (a) Quantity I > Quantity II

- 278.** The average earning of a group of eight persons is Rs 25 per day. The difference between the person having highest earning and lowest earning in the group is Rs

- (a) Rs 29
- (b) Rs 28.5
- (c) Rs 30
- (d) Rs 29.5
- (e) Rs 30.5

Answer (a) Rs 29

DIRECTIONS (Q. 279)

There are 3 bags and 4 chocolates. All these chocolates are to be distributed into these bags where any bag can contain any number of chocolates. 3

- 279.** In how many ways all these chocolates can be distributed if all chocolates are identical but all bags are different?

- (a) 17
- (b) 81
- (c) 15
- (d) 16
- (e) 20 Sol. Required number of ways (

Answer (d) 16

- 280.** The area of a rectangular football field is 24200 square meter. It is half broad as it is long. What is the approx. minimum distance a man will cover if he wishes to go from one corner to the opposite one?

- (a) 257 m
- (b) 276 m
- (c) 246 m
- (d) 287 m
- (e) None of these

Answer (b) 276 m

281. A car company makes car with the expectations that it will earn a profit of 40% by selling at its marked price. But in the process of delivering it to the showroom, 14% of the cars were completely destroyed and hence could not be sold. 16% of car were slightly got scratched and hence could be sold at 75% of the cost price and remaining were sold at marked price. What is the profit percentage in the whole procedure?

- (a) 25%
- (b) 10%
- (c) 12%
- (d) 15%
- (e) 18% Sol. Let the number of car be 100 and cost of each car Rs

Answer (e) 18% Sol. Let the number of car be 100 and cost of each car Rs

282. Anamika wants to purchase a laptop. The shopkeepers told her to pay 30% tax if she asked for the bill. Anamika managed to get a discount of 5% on the actual sale price (without tax) of the laptop and paid to the shopkeeper Rs. 16150. In doing so, she managed to avoid to pay the 30% tax. What is the amount of discount that she received on the selling price (inclusive of tax)?

- (a) Rs 5495
- (b) Rs. 5850
- (c) Rs. 5950
- (d) Rs. 5685
- (e) Rs. 5975 Sol. SP (

Answer (b) Rs. 5850

283. The ratio of area of a square and area of a rectangle is 8:15. If the length of the rectangle is 6 metre more than its breadth and the perimeter of the rectangle is 132 metres then find the area of the square.

- (a) 256 m²)
- (b) 164 m²)
- (c) 100 m²)
- (d) 144 m²)
- (e) 576 m²)

Answer (b) 164 m²)

284. Compound interest on a certain sum of money for 2 years is Rs. 2580 while the simple interest on the same sum for same time period is Rs. 2400. Find the rate of interest. 2

- (a) 12%
- (b) 15%
- (c) 20%
- (d) 25%
- (e) None of these Sol. Simple interest for 1 year)1

Answer (c) 20%

285. In mixture X, the ratio of the milk to water is 4:7. If the 40 litres of mixture Y that contains milk to water in the ratio of 2:3 mixed with mixture X, the ratio of the milk to water in mixture X becomes 3:5, find the initial quantity of the mixture X.

- (a) 55 litres
- (b) 66 litres
- (c) 40 litres
- (d) 44 litres
- (e) 88 litres

Answer (d) 44 litres

286. Chetan distributed Rs. 8520 among his four workers, A, B, C, and D in the ratio 3:4:2:3, respectively. Find the difference between amount received by B and C.

- (a) Rs. 1740
- (b) Rs. 1680
- (c) Rs. 1420
- (d) Rs. 1620
- (e) Rs. 1780 Sol. Required difference)

Answer (a) Rs. 1740

287. A shopkeeper marked an article 80% above its cost price and sold it at 20% discount. If selling price of article is Rs. 3456, then find the cost price of the article.

- (a) Rs. 2350
- (b) Rs. 2500
- (c) Rs. 2800 Sol
- (d) Rs. 1200
- (e) Rs. 2400 Marked price of article)

Answer (e) Rs. 2400 Marked price of article)

288. Monthly income of Amrita is Rs. 5200 and she saves 35% of her monthly income. If her monthly expenditure is increased by 20% and monthly savings are decreased by Rs. 364 then find the decrease in his monthly income.

- (a) Rs. 312
- (b) Rs. 324
- (c) Rs. 322
- (d) Rs. 302
- (e) None of these

Answer (d) Rs. 302

289. Sum of four consecutive even numbers is 49 more than sum of three consecutive odd numbers and the sum of lowest odd and lowest even number is 23. Find the largest even number?

- (a) 28
- (b) 36
- (c) 18
- (d) 32
- (e) 22 1500 Questions E -Book for

Answer (c) 18

Answer (a) 924

DIRECTIONS (Q. 297-361)

In each question two equations I and II are given. Solve both and determine the relationship between x and y.

297. I. $x^2 - 3x + 6 = 0$

II. $3y^2 + 13y + 12 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

298. I. $5x^2 + 3x - 14 = 0$

II. $10y^2 - 3y - 27 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

299. I. $x^2 + 5x + 6 = 0$

II. $y^2 + 3y + 2 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

300. I. $2x^2 + 3x + 1 = 0$

II. $12y^2 + 7y + 1 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

301. I. $2x^2 + 23x + 63 = 0$

II. $4y^2 + 19y + 21 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

302. I. $4x^2 - 29x + 45 = 0$

II. $3y^2 - 19y + 28 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

303. I. $2x^2 - 13x + 21 = 0$

II. $5y^2 - 22y + 21 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x \geq y$

304. I. $12x^2 + 11x - 56 = 0$

II. $4y^2 - 15y + 14 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

305. I. $7x - 3y = 13$

II. $5x + 4y = 40$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

306. I. $\sqrt{1225} \cdot x + \sqrt{4900} = 0$

II. $(81)^{1/4} \cdot y + (343)^{1/3} = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

307. I. $18/x^2 + 6/x - 12/x^2 = 8/x^2$

II. $y^3 + 9.68 + 5.64 = 16.95$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

308. I. $15/\sqrt{x} - 9/\sqrt{x} = (x)^{1/2}$

II. $y^{10} - (36)^5 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

309. I. $7x^2 + 16x - 15 = 0$

II. $y^2 - 6y - 7 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

310. I. $x^2 + 5x + 6 = 0$

II. $y^2 + 7y + 12 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x \geq y$

311. I. $x^2 + 20 = 9x$

II. $y^2 + 42 = 13y$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

312. I. $12x + 3y = 14$

II. $4x + 2y = 16$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

313. I. $x^2 + 4x + 4 = 0$

II. $y^2 - 8y + 16 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

314. I. $x^2 - 19x + 84 = 0$

II. $y^2 - 25y + 156 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

315. I. $x^3 - 468 = 1729$

II. $y^2 - 1733 + 1564 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x \geq y$

316. I. $9/\sqrt{x} + 19/\sqrt{x} = \sqrt{x}$

II. $y^5 - (2 \times 14)^{(11/2)}/\sqrt{y} = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

317. I. $\sqrt{784} \cdot x + 1234 = 1486$

II. $\sqrt{1089} \cdot y + 2081 = 2345$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

318. I. $12/\sqrt{x} - 23/\sqrt{x} = 5\sqrt{x}$

II. $\sqrt{y}/12 - 5\sqrt{y}/12 = 1/\sqrt{y}$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

319. I. $6x^2 - 49x + 99 = 0$

II. $5y^2 + 17y + 14 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

320. I. $x = (1331)^{1/3}$

II. $2y^2 - 17y + 36 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

321. I. $6x^2 + 29x + 35 = 0$

II. $3y^2 + 19y + 30 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

322. I. $x^2 - 5x + 6 = 0$

II. $2y^2 - 15y + 27 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

323. I. $2x^2 + x - 1 = 0$

II. $2y^2 - 3y + 1 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

324. I. $8x + 7y = 135$

II. $5x + 6y = 99$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

325. I. $x^2 = 64$

II. $2y^2 + 25y + 72 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

326. I. $7x + 3y = 26$

II. $2x + 17y = -41$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

327. I. $3x^2 + 5x - 2 = 0$

II. $2y^2 - 7y + 5 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

328. I. $5x^2 + 2x - 3 = 0$

II. $2y^2 + 7y + 6 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

329. I. $x^2 + 5x - 6 = 0$

II. $2y^2 - 11y + 15 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x < y$

330. I. $7x = 4y + 85$

II. $y = \text{cbrt}17576$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

331. I. $x^2 - 25 = 0$

II. $4y^2 = 24y - 35$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

332. I. $4x^2 - 43x + 105 = 0$

II. $7y^2 - 29y + 30 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

333. I. $x^2 + 13x + 40 = 0$

II. $y^2 + 7y + 10 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

334. I. $x = \sqrt[3]{2197}$

II. $2y^2 - 54y + 364 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

335. I. $13x - 8y + 81 = 0$

II. $15x - 5y + 65 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

336. I. $x = \sqrt{172}$

II. $y^2 - 29y + 210 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

337. I. $676x^2 - 1 = 0$

II. $y = 1/\sqrt[3]{13824}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

338. I. $2x^2 + 5x - 33 = 0$

II. $y^2 - y - 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

339. I. $x^2 + 12x + 36 = 0$

II. $y^2 + 15y + 56 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

340. I. $2x^2 - 3x - 35 = 0$

II. $y^2 - 7y + 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

341. I. $12x^2 - 47x + 40 = 0$

II. $4y^2 + 3y - 10 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

342. I. $x = \sqrt{256}/\sqrt{576}$

II. $3y^2 + y - 2 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

343. I. $8x^2 - 49x + 45 = 0$

II. $8y^2 - y - 9 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

344. I. $42x - 17y = -67$

II. $7x - 12y = -26$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

345. I. $2.3x - 20.01 = 0$

II. $2.9y - x = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

346. I. $x^2 - 26x + 168 = 0$

II. $y^2 - 25y + 156 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

347. I. $2x^2 + 13x - 7 = 0$

II. $2y^2 - 5y + 3 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

348. I. $x^2 + 12x + 32 = 0$

II. $2y^2 + 15y + 27 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

349. I. $x^2 - 82x + 781 = 0$

II. $y^2 = 5041$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

350. I. $3x^2 - 7x - 20 = 0$

II. $y^2 - 8y + 16 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

351. I. $9x^2 - 114x + 361 = 0$

II. $y^2 = 36$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

352. I. $9x^2 - 29x + 22 = 0$

II. $y^2 - 7y + 12 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

353. I. $3x^2 - 4x - 32 = 0$

II. $2y^2 - 17y + 36 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

354. I. $x^2 + 14x + 49 = 0$

II. $y^2 + 9y = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

355. I. $35x^2 - 53x + 20 = 0$

II. $56y^2 - 97y + 42 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

356. I. $x = \text{cbrt}4913$

II. $13y + 3x = 246$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

357. I. $x^2 - 3481 = 0$

II. $3y^2 = \text{cbrt}216000$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

358. I. $20x^2 - 67x + 56 = 0$

II. $56y^2 - 67y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

359. I. $x^2 = 14641$

II. $y = \sqrt{14641}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

360. I. $x^2 + 42 = 13x$

II. $y = \sqrt[4]{1296}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

361. I. $15x^2 - 46x + 35 = 0$

II. $4y^2 - 15y + 14 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

DIRECTIONS (Q. 362-367)

In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

362. I. $7x + 6y + 4z = 122$

II. $4x + 5y + 3z = 88$ III. $9x + 2y + z = 78$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (a) $x < y = z$

363. I. $7x + 6y = 110$

II. $4x + 3y = 59$ III. $x + z = 15$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (c) $x < y > z$

364. I. $x = \sqrt{((36)^{1/2} \times (1296)^{1/4})}$

II. $2y + 3z = 33$ III. $6y + 5z = 71$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (e) $x = y = z$, or none of the above holds

365. I. $8x + 7y = 135$

II. $5x + 6y = 99$ III. $9y + 8z = 121$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (d) $x = y > z$

366. I. $(x + y)^3 = 1331$

II. $x - y + z = 0$ III. $xy = 28$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (e) $x = y = z$, or none of the above holds

367. I. $x + 3y + 4z = 96$

II. $2x + 8z = 80$ III. $2x + 6y = 120$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

Answer (c) $x < y > z$

DIRECTIONS (Q. 368-407)

In each question two equations I and II are given. Solve both and determine the relationship between x and y.

368. I. $3x/(3x+7) - (3x+7)/(3x) = 14$

II. $y/(18y-5) - (18y-5)/y = 2$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

369. I. $x/(x+7) + (x+7)/x = 12$

II. $y/(y+8) + (y+8)/y = 16$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

370. I. $x/(x-11) + (x-11)/x = 7$

II. $4y/(4y-13) + (4y-13)/(4y) = 9$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

371. I. $99x^2 + 149x + 56 = 0$

II. $156y^2 + 287y + 132 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

372. I. $77x^2 + 58x + 8 = 0$

II. $42y^2 + 59y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

373. I. $63x^2 + 172x + 117 = 0$

II. $30y^2 + 162y + 216 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

374. I. $36x^4 + 369x^2 + 900 = 0$
II. $144y^4 + 337y^2 + 144 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

375. I. $18x^2 - 13\sqrt{7} \cdot x + 14 = 0$
II. $32y^2 - 19\sqrt{6} \cdot y + 9 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

376. I. $x^2 - 82x + 781 = 0$
II. $y^2 - 5041 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

377. I. $36x^2 + 47\sqrt{7} \cdot x + 105 = 0$
II. $35y^2 + 20\sqrt{3} \cdot y + 63\sqrt{2} \cdot y + 36\sqrt{6} = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

378. I. $91x^2 + 298x + 187 = 0$
II. $247y^2 + 216y - 391 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

379. I. $81x^2 - 9x - 2 = 0$
II. $56y^2 - 13y - 3 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

380. I. $391x^2 + 1344x + 1073 = 0$

II. $437y^2 + 1074y + 589 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

381. I. $3216x^2 + 3859x + 481 = 0$

II. $8132y^2 - 4839y + 978 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

382. I. $x = \text{cbrt}357911$

II. $y = \sqrt{5041}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

383. I. $3x^2 + 15x + 18 = 0$

II. $2y^2 + 15y + 27 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

384. I. $2x^2 - (4 + \sqrt{13})x + 2\sqrt{13} = 0$

II. $10y^2 - (18 + 5\sqrt{13})y + 9\sqrt{13} = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

385. I. $821x^2 - 757x^2 = 256$

II. $\sqrt{196} \cdot y^3 - 12y^3 = 16$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (d) $x \leq y$

386. I. $13x - 21 = 200 - 4x$

II. $y = \sqrt[3]{2197}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

387. I. $(x + y)^2 = 3136$

II. $y + 2513 = 2569$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

388. I. $x^2 = 49$

II. $y^2 + 15y + 56 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

389. I. $(441)^{1/2} \cdot x^2 - 111 = (15)^2$

II. $\sqrt{121} \cdot y^2 + (6)^3 = 260$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

390. I. $15x^2 - 41x + 14 = 0$

II. $2y^2 - 13y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

391. I. $x^2 - 8\sqrt{3} \cdot x + 45 = 0$

II. $y^2 - \sqrt{2} \cdot y - 24 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

392. I. $x - 7\sqrt{2x} + 24 = 0$

II. $y - 5\sqrt{2y} + 12 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$

393. I. $63x - 94\sqrt{x} + 35 = 0$

II. $32y - 52\sqrt{y} + 21 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

394. I. $x^2 - 7\sqrt{3}\cdot x + 35\sqrt{15} = 5\sqrt{5}\cdot x$

II. $y^2 - 5\sqrt{5}\cdot y + 30 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

395. I. $\sqrt{25}\cdot x + \sqrt{16}\cdot y = 41$

II. $\sqrt{16}\cdot x - \sqrt{25}\cdot y = 40$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

396. I. $\sqrt{x} - (18)^{(15/2)}/x^2 = 0$

II. $\sqrt{y} = (19)^{(9/2)}/y$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

397. I. $63x - 194\sqrt{x} + 143 = 0$

II. $99y - 255\sqrt{y} + 150 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

398. I. $x - 7\sqrt{(3x)} + 36 = 0$
 II. $y - 12\sqrt{(2y)} + 70 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

399. I. $x^2 - 7\sqrt{7} \cdot x + 84 = 0$
 II. $y^2 - 5\sqrt{5} \cdot y + 30 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

400. I. $x^2 - 2x - 15 = 0$
 II. $y^2 + 5y + 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

401. I. $x^2 - 25 = 0$
 II. $y^2 - 9y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

402. I. $7x + 3y = 77$
 II. $2x + 5y = (2601)^{1/2}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

403. I. $(289)^{1/2} \cdot x - \sqrt{324} = 203$
 II. $(484)^{1/2} \cdot y - \sqrt{225} = 183$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

404. I. $679x^2 - 168x^2 = 3066$

II. $\sqrt{144} \cdot y^3 - 9y^3 = 1536$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (c) $x < y$

405. I. $3x + 4y = (1681)^{1/2}$

II. $3x + 2y = (961)^{1/2}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (a) $x > y$

406. I. $3x^2 - (6 + \sqrt{17})x + 2\sqrt{17} = 0$

II. $5y^2 - (15 - \sqrt{17})y - 3\sqrt{17} = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (e) $x = y$, or the relationship cannot be established

407. I. $x^2 - 16x + 63 = 0$

II. $y^2 - 2y - 35 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

Answer (b) $x \geq y$
