

IBPS PO Prelims 2022

88 questions

Read the following passage carefully and answer the questions given below it. Certain words have been given in bold to help you locate them, while answering some of the questions. The Fed has raised its benchmark interest rate again by a whopping 0.75%. The Reserve Bank of India has also been forced to raise interest rates further but also take other steps. These decisions in the Monetary Policy Committee (MPC) meeting are based on what the members of the MPC see as the likely course of the economy in the months ahead. But, the trajectory of the world economy, and its likely impact on the Indian economy, is imponderable. So, Indian policymakers would face two crucial problems. First, the main uncertainty is due to Russia's war on Ukraine and the resultant economic sanctions on Russia, as well as the zero-COVID-19 policy in China that repeatedly implements lockdowns leading to global supply bottlenecks. Second, policy has to base itself on data. If it is deficient, it introduces additional uncertainty, making projections for the future difficult and causing policies to fail. This will _____ the problem that results from the global uncertainty. Since early 2020, the SARS-COV-2 virus has caused global uncertainty. Waves of COVID-19 have curtailed human activity with a consequent loss of production. Different countries have implemented lockdowns of varying severity leading to supply bottlenecks. In a globalised interdependent world, production was hit resulting in price rise (inflation) and loss of real incomes. This has resulted in decline in demand and, in a vicious cycle, a further slowing down of the economy. Predicting these declines has been difficult because forecasting when another wave would strike and how much disruption would occur has been difficult. As prices have risen globally and economies slowed down, many countries have faced stagflation. The uncertainty due to the novel coronavirus has declined in spite of waves of attack persisting because the impact of new virus mutants of the virus is milder and there is also immunity due to vaccination. Countries are not implementing lockdowns so vigorously now, in turn reducing adverse economic impact. However, China is an exception with its zero-COVID policy. It has been implementing strict lockdowns in the last six months, even when only a few cases of the disease have been detected. Since China is now the manufacturing hub of the world, any disruption impacts supply globally and causes bottlenecks to persist. There is another issue now. Monkeypox virus has suddenly emerged and spread rapidly in the last few months to more than 80 countries where it is not endemic. The World Health Organization seems to be confident that this threat can be dealt with more easily than COVID-19. Yet, there is heightened concern and uncertainty.

1. Which of the following international event(s) affect(s) the decision-making of Indian policymakers?

- (a) Sanction imposed on Russia as a result of its invasion of Ukraine.
- (b) Frequently imposed lockdowns as the result of the zero-COVID 19 policy of China
- (c) Economic crisis in Sri Lanka which has disrupted the supply chain
- (d) Both

2. Which of the following options doesn't mention the impact of Covid-19 as given in the passage?

- (a) Supply gets impacted by the imposed lockdowns
- (b) Inflation in price rate while reduction in real income
- (c) Decline in production followed by a reduction in human activities
- (d) Shortage of medical staff as well as medical infrastructure
- (e) None of these

3. Why has anticipating a decline in demand been difficult since early 2020?

- (a) due to the absence of a dedicated government organization for the analysis of demand pattern
- (b) because of the transformation in people's preferences and trends they followed
- (c) because of the unpredictable nature of Covid-19 waves and the disruptions happen due to them
- (d) because of unavailability of data and unreliable sources of information
- (e) None of these

4. According to the passage, a country face stagflation when.....

- (a) there is full employment but high purchasing power
- (b) there is low prices with low demand in the economy
- (c) there is high prices with high demand but low supply
- (d) there is high prices with slow economic growth
- (e) None of these

5. Which is/are the reason(s) for the negligible impact of new variants of COVID-19 on demand?

- (a) People now have higher immunity after getting the jab
 - (b) New variants of Covid-19 are not as deadly as the earlier ones were
 - (c) Digitalization has eased the accessibility of goods and services
 - (d) Only
-

6. What makes China a key part of the global supply chain?

- (a) China being the manufacturing hub of the world, its rigid Covid 19 policies paralyses the global supply chain.
 - (b) Being the only country that has an abundance of Covid-19 vaccines
 - (c) China's geographical location makes it rich in natural resources
 - (d) All of these
 - (e) Only
-

7. Which of the following statements is/are True with reference to the information given in the passage? (i) Countries are mitigating adverse economic impacts by easing lockdown restrictions. (ii) Unavailability or scarcity of data may result in the failure of policies (iii) WHO is assuring the world that Monkeypox is not as fatal as COVID-19 was.

- (a) Only (i)
 - (b) Both (i) & (iii)
 - (c) Only (iii)
 - (d) All are true
 - (e) Both (ii) & (iii)
-

8. Which of the following can be used to fill the blank given in the passage in order to make a grammatically correct and contextually meaningful sentence?

- (a) shimmer
 - (b) compound
 - (c) console
 - (d) prospect
 - (e) None of these
-

9. Which of the following is a synonym of 'Forecasting' given in the passage?

- (a) prophesying
 - (b) dubious
 - (c) renounce
 - (d) amplify
 - (e) None of these
-

There are certain words missing in the passage given below. The options given contain an answer that will fit in those given blanks. Choose the correct word to be used to make the sentence coherent and grammatically correct.

10. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) ruffled
- (b) concerted
- (c) established
- (d) intervened
- (e) carouse

11. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) convenience
- (b) predictability
- (c) obedience
- (d) commitment
- (e) foundation

12. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) ripped
- (b) predicted
- (c) confided
- (d) defiled
- (e) adopted

13. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) tragedy
- (b) intricacy
- (c) chaos
- (d) propitious
- (e) dilemma

14. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) crux
- (b) reverie
- (c) tutelage
- (d) redolent
- (e) eponymous

15. Climate change is one of the cardinal new securities challenges in the 21st-century world; thus, its mitigation as well as adaptation requires _____ (10) efforts from the international community comprising nation states. Nations across the world showed their strong _____ (11) to address the issue of climate change through the Paris Agreement of 2015 for the post-2020 period. It has been a well-framed international legal framework under the United Nations Framework Convention on Climate Change (UNFCCC) . The Paris Agreement _____ (12) a bottom-up structure known as the Nationally Determined Contributions (NDCs) to address the _____ (13) of climate change. The NDCs are, thus, the _____ (14) of the Paris Agreement and for the achievement of long- term climate goals. They embody efforts by each party to reduce national emissions and adapt to the impacts of climate change. Further, the agreement aimed to balance _____ (15) climate emission sources and sinks. In particular, Article 5 of the agreement highlights the role of forests in combatting climate change.

- (a) cryogenic
- (b) pathogenic
- (c) neurogenic
- (d) anthropogenic
- (e) transgenic

Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The number of that part is the answer. If there is 'No error', the answer is 'e'. (Ignore errors of punctuation, if any.)

16. Both Rose as well as (A) / Jack are going to (B) / start their startups (C) / in recent months (D) / No Error (E)

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

17. The reason he is (A) / not talking to anyone (B) / is because he is (C) / emotionally disturbed today (D) / No Error (E)

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

18. Simla and their surrounding (A) / areas experienced the (B) / heaviest snowfall of (C) / the season last night (D) / No Error (E)

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

19. No sooner did I see (A) / my younger brother's low (B) / grades then I started (C) / worrying about his future (D) / No Error (E)

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

20. The world needs to (A) / get together at this (B) / crucially hour to defuse the (C) / tensions between Russia and Ukraine (D) / No Error (E)

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Which of the phrase/ word from the options (A) , (B) , (C) and (D) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? If the sentence is correct as it is, mark i.e., "No replacement required" as the answer.

21. Sustainable source of water is an importance determinant in the success of safe water schemes.

- (a) is an important determined in
- (b) is an important determinant in

- (c) is an importance determiner with
 - (d) is important determinants in
 - (e) No replacement required
-

22. Increasing economic prosperity would significantly increase India's energy appetite furthering import dependence.

- (a) would significantly increases India's
 - (b) would significantly increase Indian's
 - (c) would significantly increase India's
 - (d) would significant increase India's
 - (e) No replacement required
-

23. The Russian energy company has announced that it has completely suspended gas supplies to Poland.

- (a) it have completely suspended gas
 - (b) it has complete suspended gas
 - (c) it has completely suspend gas
 - (d) it has completely suspends gas
 - (e) No replacement required
-

24. The next ruler is rather going to effectively kill the peace or save it.

- (a) if going to effectively
 - (b) rather going to effective
 - (c) whether going to effectively
 - (d) either going to effectively
 - (e) No replacement required
-

In each of the questions given below four words are given in bold. These four words may or may not be in their correct position. The sentence is then followed by options with the correct combination of words that should interchange with each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that replace each other. If the sentence is correct as it is then select option (E) as your choice.

25. The recent serious (A) of the RBI to raise the repo rate by 40 basis points is a recognition (B) of the action (C) situation with respect to inflation (D) in our country

- (a) (A) – (C)
 - (b) (C) – (D)
 - (c) (B) – (D)
 - (d) (A) - (D)
 - (e) No interchange required
-

26. The consumption (A) of junk foods that are high in calories (B) , sugar, fat and salt lead to the early onset of adolescents (C) among obesity (D) .

- (a) (A) – (C)
 - (b) (C) – (D)
 - (c) (B) – (D)
 - (d) (A) - (D)
 - (e) No interchange required
-

In each of the questions given below, a sentence has been divided into FIVE parts. Rearrange the parts of the sentence to make a grammatically correct and contextually meaningful statement.

27. (A) is built on a set of received (B) to the basic precepts of (C) justice and fairness (D) axioms that are inherent (E) India's criminal justice system

- (a) ABCDE
 - (b) DBCAE
 - (c) CDEBA
 - (d) EADBC
 - (e) BCDEA
-

28. (A) in the World Trade Organization has (B) the issue of public stockholding of food (C) one of the cardinal demands of India (D) to protect India's food security (E) been to find a permanent solution to

- (a) CAEBD
 - (b) DBCAE
 - (c) CDEBA
 - (d) DABEC
 - (e) BCDEA
-

29. (A) in independent India (B) youngest person to (C) and the first to be born (D) Droupadi Murmu is also the (E) be elected as the President

- (a) ABCDE
 - (b) DBECA
 - (c) CAEBD
 - (d) DABEC
 - (e) BCDEA
-

30. (A) colonial times when the Indian (B) British pound rather than to gold (C) currency hierarchy goes back to (D) which it earned through exports. (E) rupee was virtually linked to the

- (a) ABCDE
 - (b) CAEBD
 - (c) CDEBA
 - (d) DABEC
 - (e) BCDEA
-

Read the bar graph carefully and answer the following questions. The bar graph shows number of patients get hospitalized and percentage of patients recovered from covid19 from different states in November 2021.

31. Find the difference between number of non-recovered patient from the state UP and Telangana together to the number of recovered patients in Delhi and MP together.

- (a) 6150
 - (b) 4040
 - (c) 3030
 - (d) 2020
 - (e) 1010
-

32. What is the ratio of sum of 40% of non- recovered patient from Bihar and number of hospitalized patients from Delhi to the hospitalized patients from Telangana?

- (a) 125:33
- (b) 99:125
- (c) 23:25
- (d) 34:31

(e) 123:127

33. In Maharashtra, number of hospitalized patients is sum of hospitalized patients in Telangana and Bihar. If the number of recovered patients is only 25% then find the recovered patient in Maharashtra is approximately what percent of hospitalized patients in UP.

- (a) 45%
 - (b) 39%
 - (c) 36%
 - (d) 33%
 - (e) 55%
-

35. Due to the celebration of Durga puja in state West Bengal the covid19 rises tremendously. The patients hospitalized in the state is three times more than hospitalized patients in UP. Due to the sudden rise of cases 20% people died and of the remaining people only 75% of pateint get the beds. Find the number of patients who did not get the beds.

- (a) 1000
 - (b) 700
 - (c) 4000
 - (d) 8200
 - (e) 7200
-

Read the following table carefully and answer the questions given below. The following table shows the number of employees working in 5 different companies and ratio of number of employees working from home and working from office.

36. What is the average of number of employees working from home in company A, C and E together?

- (a) 350
 - (b) 420
 - (c) 260
 - (d) 120
 - (e) 580
-

37. Number of employees working from office in company B is what % of number of employees working from office in company C?

- (a) 75%
 - (b) 100%
 - (c) 150%
 - (d) 225%
 - (e) 50%
-

38. Find the ratio of number of employees working from home in company A and company C together to number of employees working from office in company E and company B together?

- (a) 11:7
 - (b) 5:6
 - (c) 7:4
 - (d) 4:7
 - (e) 6:5
-

39. Ratio of male and female in company E is 5:4 and ratio of male and female working from home in that company only is 7:8, then find the number of females who working from office.
- (a) 90
 - (b) 120
 - (c) 140
 - (d) 180
 - (e) 210
-
40. Find the difference between number of employees in company D and C together to number of employees in company A and E together.
- (a) 110
 - (b) 85
 - (c) 135
 - (d) 150
 - (e) 175
-
41. A train leaves station A at 9:00 AM. The train reaches station B at 10:30 PM. If the distance between station A and station B is 486 km, then find the speed of the train (in meter per sec) ?
- (a) 10
 - (b) 12
 - (c) 15
 - (d) 8
 - (e) 18
-
42. Amar and Sameer started a partnership with investment of Rs.21000 and Rs.25000 respectively. After 6 months, Sameer withdraws 20% and Tarun joined the business with Rs.30000. If at the end of 1.5 years, profit share of Sameer is Rs.1300, then find the total profit?
- (a) Rs.3140
 - (b) Rs.4280
 - (c) Rs.3760
 - (d) Rs.3910
 - (e) Rs.4760
-
43. A machine can produce 12 bolts in a second. In such speed of production, it takes 15 minutes to complete a job. If another machine, having speed of production 50% more than first machine, then find the time taken to complete 8 same types of job?
- (a) 40 min
 - (b) 1 hour 10 min
 - (c) 1 hour
 - (d) 1 hour 20 min
 - (e) 50 min
-
44. A seller sold 120 articles. The marked price of each article is Rs.80 and he offers a discount of 10% on each article. If he made total profit of Rs.840, then find the cost price of each article?
- (a) Rs.75
 - (b) Rs.65
 - (c) Rs.60
 - (d) Rs.66

(e) Rs.70

45. A boat covers 160 km from point A to point B and then return to point A in 15 hours. If the speed of stream increased by 8 kmph, then boat takes 4 hours to reach point B from A. Find the speed of boat in still water?

- (a) 24 kmph
 - (b) 12 kmph
 - (c) 18 kmph
 - (d) 15 kmph
 - (e) 20 kmph
-

47. Monthly income of Kunal is 25% more than Shubham. Kunal spends 25% of his income on house rent, 25% of remaining on food and rest he saves. If difference between monthly savings of Kunal and monthly income of Shubham is Rs.1900, then find monthly income of Kunal?

- (a) Rs.6400
 - (b) Rs.9000
 - (c) Rs.12000
 - (d) Rs.8000
 - (e) Rs.10000
-

48. In a solution of sugar syrup and water, quantity of sugar syrup is 30% more than quantity of water. If 20% of quantity of solution is taken out and 11.5-liter water is added into the mixture, then the ratio of water and sugar syrup becomes 15: 8. Find the initial quantity of water?

- (a) 9 liters
 - (b) 10 liters
 - (c) 11 liters
 - (d) 12 liters
 - (e) 13 liters
-

49. The length of rectangle is 16% more than its breadth. If perimeter of square, whose side is equal to length of rectangle is 8 cm more than perimeter of rectangle, then find the area of rectangle?

- (a) 625 cm²
 - (b) 575 cm²
 - (c) 750 cm²
 - (d) 600 cm²
 - (e) 725 cm²
-

50. A man invests Rs. $(P + 2000)$ on simple interest at 20% per annum for 4 years. If he invests Rs. $(2P-4000)$ in same scheme for the same time, then the interest earned would be Rs.8000 more. Find the value of P?

- (a) Rs.16000
 - (b) Rs.18000
 - (c) Rs.20000
 - (d) Rs.12000
 - (e) Rs.12500
-

58. The average weight of a class of 28 students is 22 kg. If the teacher's weight is also included the average weight increases by 2 kg. Furthermore, if the average weight of the teacher's family having a wife and a daughter is 52 kg and the daughter's weight is 40% less than her mother's weight. then find the weight of teacher's wife?

- (a) 40 kg
- (b) 47.5 kg

- (c) 55 kg
 - (d) 52.5 kg
 - (e) 60 kg
-

59. A man leaves Rs.23200 to be divided among 2 sons, 3 daughters, & 2 nephews. If each daughter receives 3 times as much as each nephew, and each son receives 3 times as much as each daughter, how much does each son receive?

- (a) Rs.7200
 - (b) Rs.4400
 - (c) Rs.5400
 - (d) Rs.6000
 - (e) Rs.6500
-

60. The total cost of painting a rectangular wall at Rs.188.5 per square ft. is Rs.7540. the length of the wall is 3 ft. more than the breadth of the wall, then breadth of wall is what percent of length of wall?

- (a) 60%
 - (b) 32.5%
 - (c) 25%
 - (d) 62.5%
 - (e) 50%
-

What should come in the place of question (?) mark in following number series.

61. 21, ?, 129, 237, 381, 561

- (a) 55
 - (b) 53
 - (c) 59
 - (d) 57
 - (e) 61
-

62. 12, 13.6, 16.8, 21.6, ?, 36

- (a) 28
 - (b) 24
 - (c) 22
 - (d) 20
 - (e) 30
-

63. 116, 342, 512, 634, ?, 766

- (a) 712
 - (b) 716
 - (c) 710
 - (d) 708
 - (e) 718
-

64. 16, ?, 512, 1024, 1024, 512

- (a) 124
- (b) 122
- (c) 128

- (d) 120
 - (e) 118
-

65. 4, 9, 28, 113, 566, ?

- (a) 3395
 - (b) 3391
 - (c) 3389
 - (d) 3399
 - (e) 3397
-

Study the information given below and answer the following questions: Eight person A, B, C, D, F, G, H and K were born on eight different years viz. 1971, 1975, 1982, 1988, 1994, 1999, 2003, 2006 but not necessarily in the same order. Age (in years) of all the persons is calculated according to the base year 2021. B is either second youngest or second oldest person among all. Age difference between B and H is 4 years. Three persons were born between H and D. The number of persons were born between D and B is same as the number of persons were born after A. Age difference between K and A is same as the age difference between G and A. K is older to G. C was born in an even numbered year.

69. What is the age of C?

- (a) 39 years
 - (b) 27 years
 - (c) 15 years
 - (d) 33 years
 - (e) None of these
-

70. Who among the following is just older to B?

- (a) K
 - (b) A
 - (c) H
 - (d) G
 - (e) None of these
-

71. K was born in which among the following year?

- (a) 1975
 - (b) 1982
 - (c) 1994
 - (d) 1988
 - (e) None of these
-

72. What is the age difference between C and K?

- (a) 13 years
 - (b) 12 years
 - (c) 18 years
 - (d) 24 years
 - (e) None of these
-

73. How many persons are younger to G?

- (a) One

- (b) Four
- (c) Two
- (d) Five
- (e) Three

74. If in the given number '97247563286', 1 is added to each of the even digits and 2 is subtracted from each of the odd digits, then the digits are arranged in ascending order from right to left end, find the fourth digit from the left end in the number thus formed?

- (a) 9
- (b) 3
- (c) 1
- (d) 7
- (e) None of these

In each of the questions below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

75. Statements: Only a few black is white. Some white are grey. Only grey is blue. Conclusions: I. Some blue can be white. II. All white can never be black.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

76. Statements: No car is bus. Only a few cycle is bus. Some train is not cycle. Conclusions: I. Some cycle is not bus. II. All train can never be cycle.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

77. Statements: Only a few English is Hindi. Some economics is not Hindi. No economics is history. Conclusions: I. Some Hindi is not History. II. Some Hindi is History.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

Study the given information and answer the questions below: Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not necessarily in the same order. Three boxes are placed between G and A. F is placed two places below G. One box is placed between A and B. C is placed below A but not immediate below. Same number of boxes are placed below and above C and E respectively.

78. How many boxes are placed below D?

- (a) Three

- (b) Four
 - (c) Five
 - (d) One
 - (e) None of these
-

79. How many boxes are placed between E and C?

- (a) Two
 - (b) Three
 - (c) One
 - (d) Four
 - (e) None of these
-

80. Which among the following box is placed just above C?

- (a) E
 - (b) D
 - (c) G
 - (d) F
 - (e) None of these
-

81. The number of boxes placed between D and F is same as the number of boxes placed below ____.

- (a) C
 - (b) E
 - (c) B
 - (d) G
 - (e) None of these
-

82. If all the boxes are arranged according to alphabetical order from bottom to top, then which among the following box/boxes is/are will remain same on its position?

- (a) Both D and F
 - (b) Only D
 - (c) Only F
 - (d) Both C and D
 - (e) No box will remain same on its position
-

Study the following information carefully and answer the questions given below: Richard starts walking from point A and walked 6m towards south and reached at point B and after reaching at point B he takes a left turn and reached at point C after walking 6m. From there he again takes a left turn and walked 2m to reach at point D and now he takes a right turn and walked 5m to reach at point E. From there he takes a left turn and walked 4m to reach at point F. At the end he takes a left turn and after walking 3m he reaches at point G.

83. Point D is in which direction with respect to point G?

- (a) South east
 - (b) South west
 - (c) North
 - (d) North east
 - (e) North west
-

84. What is the shortest distance between the point B and point D?

- (a) 40m
 - (b) $2\sqrt{11}$ m
 - (c) $2\sqrt{10}$ m
 - (d) None of these
 - (e) 41m
-

85. What is the shortest path between point A and point G?

- (a) 8m
 - (b) 9m
 - (c) 10m
 - (d) None of these
 - (e) 4m
-

Study the following information and answer the questions below: Eight persons D, E, F, G, H, K, P and L sit around a square table but not necessarily in the same order. Four persons sit at four corners and rest four persons sit at middle of each side of the table. Four persons face inside and four face outside the table. P sits third to the left of K. Three persons sit between H and P. H does not sit at any corner of the table. Two persons sit between P and E. E faces D. G and L sits just right of each other. G does not face outside. Immediate neighbours of D face the same direction as L. D and H face the same direction.

86. Who among the following sits opposite to F?

- (a) G
 - (b) L
 - (c) K
 - (d) Either G or K
 - (e) None of these
-

87. What is the position of L with respect to P?

- (a) Third to the right
 - (b) Immediate right
 - (c) Second to the left
 - (d) Second to the right
 - (e) None of these
-

88. Who among the following sits immediate right of the one who sits second to the right of K?

- (a) H
 - (b) L
 - (c) E
 - (d) D
 - (e) None of these
-

89. If E and F interchanges their position, then who among the following sits adjacent to E?

- (a) G
 - (b) H
 - (c) L
 - (d) D
 - (e) P
-

90. Four among the following five are same in a certain manner and form a group, who among the following does not belong to the group?

- (a) P
- (b) F
- (c) L
- (d) K
- (e) G

Study the following information and answer the questions below: Seven persons P, Q, R, S, T, U and V work on different designations (but not necessarily in the same order) viz. Trainee, Executive, Team Leader, Manager, MD, CEO and CFO in a company. The order of seniority is same as given- Trainee is the junior most and CFO is the senior most designation. R is senior to MD. There are two persons work between R and V. T is senior to Executive and junior to MD. P is junior to R. P is senior to trainee. More than three persons work between P and Q. S is just senior to Q.

91. Who among the following works as CEO?

- (a) S
- (b) R
- (c) P
- (d) U
- (e) None of these

92. U works on which among the following designation?

- (a) CFO
- (b) MD
- (c) Executive
- (d) CEO
- (e) None of these

93. How many persons are junior to S?

- (a) Four
- (b) Three
- (c) Two
- (d) One
- (e) None of these

94. Who among the following is just senior to V?

- (a) T
- (b) Either T or R
- (c) The person who is just junior to P
- (d) Q
- (e) R

Study the given information carefully to answer the questions below: In a certain code language 'Meeting Check Circle Star' is coded as 'slk dgv cni bnm' 'Circle Yellow Coffee Star' is coded as 'slk poz trf bnm' 'Meeting Coffee Line Star' is coded as 'dgv poz kda bnm' 'Board Star Yellow' is coded as 'bnm trf lfh'

95. What is the code for 'Line' in the given code language?

- (a) dgv
- (b) bnm

- (c) poz
 - (d) kda
 - (e) None of these
-

96. The code 'slk' stands for which among the following words?

- (a) Coffee
 - (b) Yellow
 - (c) Circle
 - (d) Star
 - (e) None of these
-

97. What will be the code for 'Board Meeting' according to the given code language?

- (a) lfh bnm
 - (b) lfh dgv
 - (c) dgv poz
 - (d) trf bnm
 - (e) Can't be determined
-

98. Which among the following words are coded as 'cni poz' in the given code language?

- (a) Meeting Line
 - (b) Check Coffee
 - (c) Check star
 - (d) Coffee Board
 - (e) None of these
-

Study the given series carefully and answer the following questions: H F 3 A L 2 3 I B 6 R E 8 2 R 3 T M 6 B I C 9 4 D U 3 4 T 7 4

99. How many vowel/vowels are there in the series which are immediately followed by a number?

- (a) Two
 - (b) Three
 - (c) Four
 - (d) One
 - (e) None of these
-

100. How many numbers are there in the series which are immediately preceded and followed by a letter?

- (a) None
 - (b) One
 - (c) Two
 - (d) Three
 - (e) None of these
-
