

IBPS RRB Prelims 2024

73 questions

Study the following information carefully and answer the questions given below: Eight persons sit in two rows that are parallel to each other where the persons A, B, C and D sit in Row- 1 and face north while the persons P, Q, R and S sit in Row-2 and face south. Row-2 is in north of row-1. All the information is not necessarily in the same order. C doesn't sit at any of the extreme ends. R sits second to the right of S. The one who faces S sits second to the right of D. A sits immediately to the right of D. Q doesn't sit opposite to B. | - A, B, C D -1 P, Q, R S -2 -2, -1 C R, S S , D A, D Q, B

1. What is the position of B with respect to the person who sits opposite to Q?

- (a) Second to the left
- (b) Third to the right
- (c) Immediate right
- (d) Second to the right
- (e) Immediate left

2. How many persons sit between the one who faces B and the one who sits immediately to the left of R?

- (a) None
- (b) Two
- (c) One
- (d) Either One or Two
- (e) Either One or None

3. Four of the following five are alike in a certain way and hence form a group. Who among the following does not belong to that group?

- (a) R
- (b) S
- (c) D
- (d) P
- (e) B

4. Who among the following persons sits third to the right of P?

- (a) The one who sits opposite to B/ B
- (b) The one who sits opposite to C/ C
- (c) Q
- (d) The one who sits opposite to D/ D
- (e) None of these

5. If R is related to A and in the same way S is related to B, then who among the following is related to C?

- (a) P
- (b) Q
- (c) None of these
- (d) A
- (e) D

In each of the question below, some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follow from the given statements, disregarding commonly known facts. Give answer

6. Statements: All Karate are Boxing. No Judo are Wrestling. Only a few Boxing are Wrestling. Conclusions: I. Some Karate can be Judo. II. All Boxing can be Judo. : , , , : I. , II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Both conclusion I and II follow/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Either conclusion I or II follows/ I II
-

7. Statements: A few Parrots are Birds. Only a few Birds are Peacock. Some Ostrich are not Peacock. Conclusions: I. All Birds are Peacock. II. Some Birds are not Peacock. : , , , : I. , II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Both conclusion I and II follow/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Either conclusion I or II follows/ I II
-

8. Statements: No Houses are White. Only a few Brown are Houses. Some Bricks are Brown. Conclusions: I. All Brown can be White. II. Some Bricks are Houses is a possibility. : , , , : I. , II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Both conclusion I and II follow/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Either conclusion I or II follows/ I II
-

9. Statements: Only a few Bold is Italic. Some Underline are Straight. Each Italic is Underline. Conclusions: I. Some Bold are Underline is a possibility. II. No Straight are Italic. : , | , , : I. II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Both conclusion I and II follow/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Either conclusion I or II follows/ I II
-

10. If in the given word "CHAMPION" we replace all the consonants with immediately preceding letter and all the vowels with immediately succeeding letter, then find how many vowels are there in the new arrangement? "CHAMPION" , ?

- (a) Three
 - (b) Four
 - (c) One
 - (d) Two
 - (e) None
-

Study the following information carefully and answer the questions given below: A certain number of persons sit in a row and face north. R sits second the right of E and fourth from an extreme end. The number of persons sit between U and E is the same as the number of persons sit between Y and R. Five persons sit between Y and E. Z sits seventh to the left of Y. G sits fifth to the left of Y. Two persons sit between Y and M who sits second from one of the ends. | R, E U E , Y R Y E Z, Y G, Y Y M M

11. What is the position of U with respect to M?

- (a) Immediate left
- (b) Fourth to the left
- (c) Fifth to the left
- (d) Fifth to the right
- (e) Fourth to the right

12. How many persons sit in the row?

- (a) 20
- (b) 18
- (c) 13
- (d) 14
- (e) 12

13. Who among the following sits second to the right of person who sits fifth to the left of U?

- (a) Z
- (b) E
- (c) G
- (d) R
- (e) None of these

Study the following alphanumeric symbol series carefully and answer the questions given below: | F 5 * E ^ 2 D U # Z R S & 8 9 @ J M 1 \$ L O 3 X 7 % Q

14. Which among the following letter is 3rd to the right of the 12th element from the left end in the given series?

- (a) M
- (b) J
- (c) L
- (d) O
- (e) X

15. How many symbols are there between the third number from the right end and the second number from the left end?

- (a) Four
- (b) Two
- (c) One
- (d) Three
- (e) Five

16. How many numbers are immediately preceded by a letter and immediately followed by a symbol?

- (a) One
- (b) Two
- (c) Three

- (d) Four
 - (e) None
-

17. If all the symbols and consonants are dropped from the above given series then which element is 7th from the right end?

- (a) 9
 - (b) E
 - (c) 8
 - (d) 2
 - (e) U
-

18. How many alphabets are there between (according to English Alphabetical Order) of the letter which is 4th from the right end and the letter which is 6th from the left end?

- (a) Six
 - (b) Seven
 - (c) Eight
 - (d) Four
 - (e) Five
-

19. In the number '27486935', how many pairs of digits have the same number between them (both forward and backward direction) in the number series? '27486935' , () ?

- (a) Four
 - (b) Three
 - (c) One
 - (d) Two
 - (e) More than four
-

Study the following information carefully and answer the questions given below: Point X is 8m north of Point Y which is 4m west of Point Z. Point Z is 7m north of Point F. Point B is 6m north of Point A which is 5m east of Point F. Point E is 8m south of Point G which is 9m west of Point B. | X, Y 8 Y, Z 4 Z, F 7 B, A 6 A, F 5 E, G 8 G, B 9

20. What is the total distance from Point X to Point F?

- (a) 21m/21
 - (b) 19m/19
 - (c) 15m/15
 - (d) 13m/13
 - (e) 14m/14
-

21. What is the shortest distance between Point E and Point F?

- (a) 3m/3
 - (b) 20m/20
 - (c) $\frac{\sqrt{13}m}{\sqrt{13}}$
 - (d) $\frac{\sqrt{20}m}{\sqrt{20}}$
 - (e) Can't be determined
-

22. In which direction is Point Y with respect to Point B?

- (a) South-west
- (b) North-west

- (c) South-east
- (d) North-east
- (e) North

Study the following information carefully and answer the questions given below: Seven persons—H, I, J, K, L, M, and N—appeared in the exam in different months—January, March, April, July, September, October, and November of the same year, but not necessarily in the same order. K appeared in the month which has 31 days. K was neither the first nor the last to appear. Only two persons appeared between K and L who appeared immediately after M. The number of persons appeared before M is one less than the number of persons who appeared after N. H appeared immediately after I who appeared before J. | - H, I, J, K, L, M N - , , , , , K 31 K K L L, M M , N H, I I, J

23. How many persons appeared after M?

- (a) Two
- (b) Three
- (c) One
- (d) Five
- (e) None

24. In which of the following months did J appear?

- (a) March
- (b) September
- (c) July
- (d) October
- (e) November

25. Which among the following statement(s) is/are true? I. N appeared in an even-numbered month. II. I appeared before L. III. An even number of persons appeared before K. - / / ? I. N II. I, L III. K

- (a) Both I and II/ I II
- (b) Only II/ II
- (c) Only III/ III
- (d) Both II and III/ II III
- (e) All I, II, and III/ I, II III

26. Who among the following persons appeared in October?

- (a) The one who appeared immediately after N/ N
- (b) The one who appeared two months after K/ K
- (c) J
- (d) M
- (e) None of these

27. How many persons appeared between K and I?

- (a) None
- (b) Four
- (c) Three
- (d) Two
- (e) One

Following questions are based on the five words given below. Study the following words and answer the following questions: : TAN DCE LOG SPY BAT

28. How many letters are there between the first letter of the first word from the right end and the last letter of the first word from the left end (According to the English alphabet)?

- (a) Eight
 - (b) Ten
 - (c) Nine
 - (d) Eleven
 - (e) More than Eleven
-

29. If in each of the given words, each vowel is changed to its next letter and each consonant is changed to its previous letter according to the English alphabetical series, then in how many words, thus formed, at least one vowel will appear?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

30. If all the letters of each word are arranged in reverse alphabetical order from left end, then how many meaningful words can be formed?

- (a) One
 - (b) None
 - (c) Two
 - (d) Three
 - (e) None of these
-

31. If all words are arranged in alphabetical order from left to right, then which of the following word is second from the left end?

- (a) LOG
 - (b) BAT
 - (c) SPY
 - (d) DCE
 - (e) None of these
-

32. If we form a four-letter meaningful word by using the third, fifth, sixth and eleventh letter from the left end of the word 'DETERIORATE', then which of the following will be the second letter of the meaningful word thus formed. If more than one such word is formed mark Z as your answer. If no meaningful word is formed, mark X as your answer? 'DETERIORATE' , , , - ? , Z , X

- (a) R
 - (b) I
 - (c) T
 - (d) X
 - (e) Z
-

Study the following information carefully and answer the questions given below: Six persons – A, B, C, D, E and F live in a three-storey building such that the bottom-most floor is numbered as 1, the floor immediately above it is numbered as 2, and the top-most floor is numbered as 3. Each floor has two flats – Flat X and Flat Y, where Flat X is to the west of Flat Y. Flat Y of floor 2 is immediately above Flat Y of floor 1 and Flat Y of floor 3 is immediately above Flat Y of floor 2, and so on. Similarly for Flat X. D lives on an odd-numbered floor. E lives immediately above D but in a different named flat. As many floors are above D as below F. D and F live in different named flat. A lives just north-west of C. | – A, B, C, D, E F 1, 2 3 X Y, X, Y 2 Y, 1 Y 3 Y 2 Y X D E, D D, F D F - A, C

33. Which of the following combinations is true?

- (a) C - Floor 2, Flat X/ C - 2, X
- (b) A - Floor 1, Flat Y/ A - 1, Y
- (c) F - Floor 2, Flat Y/ F - 2, Y
- (d) E - Floor 3, Flat Y/ E - 3, Y
- (e) D - Floor 1, Flat X/ D - 1, X

34. Which of the following pair of persons live in the same named flat?

- (a) A, C
- (b) D, F
- (c) B, E
- (d) C, E
- (e) F, A

35. Who among the following lives two floors below B's flat?

- (a) A
- (b) F
- (c) Either A or F/ A F
- (d) C
- (e) E

36. Which of the following statement is true?

- (a) A and C live in the same named flat/ A C
- (b) No one lives to the east of F/ F
- (c) As many floors are above A as below C/ A, C
- (d) E lives on the topmost floor/ E
- (e) None is true

37. Four of the following five are alike in a certain way and thus form a group. Who among the following does not belong to the group?

- (a) F
- (b) C
- (c) A
- (d) D
- (e) B

In these questions, relationship between different elements is shown in the statements. These statements are followed by two conclusions. Give answer

38. Statements: $J \leq K < L = M > N \geq O$ Conclusions: I. $K < N$ II. $J < M : J \leq K < L = M > N \geq O : I. K < N$ II. $J < M$

- (a) If only conclusion I is true/ I

- (b) If only conclusion II is true/ II
 - (c) If either conclusion I or II is true/ I II
 - (d) If neither conclusion I nor II is true/ I II
 - (e) If both conclusions I and II are true/ I II
-

39. Statements: $P = Q \leq R < S = T \geq U$ Conclusions: I. $Q < T$ II. $S \geq U$: $P = Q \leq R < S = T \geq U$: I. $Q < T$ II. $S \geq U$

- (a) If only conclusion I is true/ I
 - (b) If only conclusion II is true/ II
 - (c) If either conclusion I or II is true/ I II
 - (d) If neither conclusion I nor II is true/ I II
 - (e) If both conclusions I and II are true/ I II
-

40. Statements: $X \geq Y < Z = A \leq B = C$ Conclusions: I. $X < A$ II. $X \geq B$: $X \geq Y < Z = A \leq B = C$: I. $X < A$ II. $X \geq B$

- (a) If only conclusion I is true/ I
 - (b) If only conclusion II is true/ II
 - (c) If either conclusion I or II is true/ I II
 - (d) If neither conclusion I nor II is true/ I II
 - (e) If both conclusions I and II are true/ I II
-

41. The perimeter of a square is half of the perimeter of a rectangle. If side of square is 16 cm and breadth of rectangle is 20 cm, then find the length of the rectangle (in cm)?

- (a) 40
 - (b) 36
 - (c) 32
 - (d) 44
 - (e) 48
-

42. A shopkeeper sold an article for Rs 3000 after allowing a discount of 20%. If shopkeeper made a profit of 20%, then find the difference between marked price and cost price of the article (in Rs)? 20% 3000 20% , ()

- (a) 1250
 - (b) 750
 - (c) 1500
 - (d) 1000
 - (e) 1750
-

43. The average weight of a group of 30 people is 72.5 kg. Two people having total weight of 181 kg left the group and three new people having total weight of 393 kg joined the group. Find the resultant average weight of the group (in kg)? 30 72.5 181 393 () ?

- (a) 79
 - (b) 73
 - (c) 77
 - (d) 81
 - (e) 83
-

44. The still water speed of a boat is 10 km/hr and the boat covers 39 km downstream in three hours. Find the total time taken by the boat to cover 26 km downstream and 14 km upstream (in hours)? 10/39 26 14 ()?

- (a) 5
- (b) 4

- (c) 3
 - (d) 6
 - (e) 7
-

45. Ram and Rahul invested Rs 4500 & Rs 1800 in a business. After six months, Ram left the business. Find the profit share ratio of Ram to Rahul at the end of the year? 4500 1800 , ?

- (a) 3 : 4
 - (b) 4 : 3
 - (c) 5 : 3
 - (d) 5 : 4
 - (e) 6 : 5
-

46. The length of train A is 150 meters and it cross a 250 meters long platform in 16 seconds. If speed of train B is 40% more than that of train A, then find the speed of train B (in meters/seconds)? A 150 250 16 B A 40% , B (/) ?

- (a) 56
 - (b) 42
 - (c) 21
 - (d) 35
 - (e) 28
-

47. A man spends 25% of his income on house rent. From the remaining income, he spends 80% on food and grocery. If his saving is Rs 6000, then find the amount spent on house rent (in Rs)? 25% , 80% 6000 , () ?

- (a) 16000
 - (b) 12000
 - (c) 8000
 - (d) 10000
 - (e) 15000
-

48. A contains mixture of two milk and water in the ratio 5 : 3 respectively. If 8 liters of the mixture is taken out and replaced with water, then milk and water becomes equal in resultant mixture. Find the initial quantity of mixture?

- (a) 40 L
 - (b) 30 L
 - (c) 35 L
 - (d) 24 L
 - (e) 48 L
-

49. Abhi takes loan of Rs. 25000 and repays an amount of Rs. 31,000 at the end of 2 years. What is the rate of simple interest at which he repays the loan? 25000 2 31,000 ?

- (a) 10%
 - (b) 12%
 - (c) 13%
 - (d) 11%
 - (e) 12.5%
-

50. Ram and Shyam together can do a work in 16 days. Shyam takes twice time as Ram takes to do the same work. In how many days Shyam alone can complete that work?

- (a) 16 days / 16
- (b) 32 days / 32

- (c) 24 days / 24
 - (d) 40 days / 40
 - (e) 48 days / 48
-

Find the wrong number in the given number series

51. 8, 16, 38, 78, 158, 318, 638

- (a) 8
 - (b) 78
 - (c) 638
 - (d) 16
 - (e) 158
-

52. 224, 225, 233, 260, 324, 447, 665

- (a) 447
 - (b) 225
 - (c) 665
 - (d) 324
 - (e) 260
-

53. 48, 64, 87, 111, 138, 168, 201

- (a) 48
 - (b) 87
 - (c) 111
 - (d) 201
 - (e) 64
-

54. 5, 10, 20, 35, 55, 78, 110

- (a) 5
 - (b) 10
 - (c) 78
 - (d) 110
 - (e) 35
-

55. 147, 120, 103, 84, 67, 52, 39

- (a) 120
 - (b) 147
 - (c) 103
 - (d) 84
 - (e) 52
-

The bar graph given below shows number of laptops sold by a shop in five different years. Read the data carefully and answer the questions.

56. Find the ratio of total laptops sold in 2014 to total laptops sold in 2010 and 2011 together? 2014 2010 2011

- (a) 1 : 3
- (b) 1 : 2
- (c) 2 : 5

- (d) 2 : 3
- (e) 3 : 23

59. If selling price of each laptop sold in 2010 is Rs 400 and each laptop sold at loss of 20%, then find total cost price of all laptops sold in 2010? 2010 400 20% , 2010 ?

- (a) 125000 Rs / 125000
- (b) 80000 Rs / 80000
- (c) 100000 Rs / 100000
- (d) 150000 Rs / 150000
- (e) 200000 Rs / 200000

60. Find total number of laptops sold in 2011 and 2013 together? 2011 2013

- (a) 530
- (b) 510
- (c) 550
- (d) 570
- (e) 490

The table given below shows number of people participated in three exercise activities Yoga, Cycling and Zumba in a gym in three different days of a week. Read the table carefully and answer the questions given below.

61. On Sunday, total number of people participated in Yoga are 52% less than total number of people participated in Yoga and Cycling together in Monday. Find the number of people participated in Yoga in Sunday?

- (a) 332
- (b) 322
- (c) 302
- (d) 312
- (e) 292

62. The average number of people participated in Zumba on all three days is how many more or less than total people participated in Cycling in Tuesday?

- (a) 33
- (b) 29
- (c) 49
- (d) 37
- (e) 39

63. Out of total people participated in Yoga in Wednesday, the ratio of male to female 3 : 2. If total female participated in Cycling in Wednesday are 35 less than that of female participated in Yoga in same day, then find male participated in Cycling in Wednesday?

- (a) 104
- (b) 84
- (c) 114
- (d) 108
- (e) 94

64. Find the ratio of total people participated in Zumba in Tuesday to total people participated in Yoga in Tuesday and Wednesday together?

- (a) 63 : 151
 - (b) 63 : 121
 - (c) 21 : 4
 - (d) 21 : 47
 - (e) 27 : 14
-

65. Find the difference between total people participated in Zumba in Wednesday and total people participated in Yoga in Monday?

- (a) 77
 - (b) 73
 - (c) 61
 - (d) 71
 - (e) 81
-

What will come in the place of question (?) mark in following questions. (?) ?

66. $\{(400\% \text{ of } ? + 15 \times 12) - 140\} = 60$ $\{(? \ 400\% + 15 \times 12) - 140\} = 60$

- (a) 5
 - (b) 4
 - (c) 6
 - (d) 3
 - (e) 7
-

69. $840 = 25\% \text{ of } 2560 + 12.5\% \text{ of } ?$ $840 = 2560 \ 25\% + ? \ 12.5\%$

- (a) 1600
 - (b) 1400
 - (c) 1200
 - (d) 1300
 - (e) 1500
-

70. $24 + 20\% \text{ of } 45\% \text{ of } 200 = ?$ $24 + 200 \ 45\% \ 20\% = ?$

- (a) 64
 - (b) 72
 - (c) 42
 - (d) 58
 - (e) 48
-

73. $55 \times 44 + 17.5\% \text{ of } 1600 = ?$ $55 \times 44 + 1600 \ 17.5\% = ?$

- (a) 2100
 - (b) 2400
 - (c) 2700
 - (d) 2200
 - (e) 2500
-

75. $29^2 + 13 \times 3 = ? \times 10$

- (a) 66
- (b) 77
- (c) 88

(d) 55

(e) 11

76. $? \times (8^2 + 26) = 60^2$

(a) 36

(b) 60

(c) 80

(d) 40

(e) 20

77. $? \% \text{ of } 800 + 8^3 = 1024$ $800 ? \% + 8^3 = 1024$

(a) 60

(b) 64

(c) 84

(d) 72

(e) 80

78. $281 + ? = 32\% \text{ of } 1700$ $281 + ? = 1700 \times 32\%$

(a) 265

(b) 267

(c) 261

(d) 263

(e) 259

79. $(11)^2 + (23)^2 + ? = 800$

(a) 125

(b) 100

(c) 150

(d) 50

(e) 175

80. $25\% \text{ of } 124 + 35\% \text{ of } 60 = ?$ $124 \times 25\% + 60 \times 35\% = ?$

(a) 52

(b) 57

(c) 62

(d) 67

(e) 72
