

IBPS PO Mains 2025

35 questions

41. In the given question five sentences are given in which one is not coherent with others. Choose the incoherent statement as your answer.

- (a) As cities expand into previously undeveloped land, the natural habitats of many animal species are rapidly disappearing.
 - (b) Noise pollution from traffic and construction disrupts the mating calls and migration patterns of birds.
 - (c) Urban planning initiatives now often include green corridors to help animals safely traverse city environments.
 - (d) The popularity of minimalist architecture has increased significantly in urban apartment design.
 - (e) Some species, like raccoons and pigeons, have adapted to urban environments and even thrive in densely populated areas.
-

42. In the given question five sentences are given in which one is not coherent with others. Choose the incoherent statement as your answer.

- (a) Eating fruits and vegetables provides your body with essential vitamins and minerals.
 - (b) The heart pumps blood through arteries and veins to all parts of the body.
 - (c) Whole grains are a good source of fiber and help with digestion.
 - (d) Drinking water instead of sugary drinks can help prevent weight gain.
 - (e) Too much processed food can increase the risk of health problems like diabetes.
-

43. A paragraph is given below, followed by five alternatives. Select the one that most accurately conveys the same idea and context as the original. An empty plate is more than a sign of hunger. It reflects inequality, waste, and the failure to make food security a collective priority.

- (a) The image of an empty plate embodies not only human deprivation but the collective moral failure of societies that tolerate hunger amid abundance and structural inefficiency.
 - (b) The sight of an empty plate simply mirrors individual hardship and bears no connection to wider issues of inequality, policy negligence, or moral accountability.
 - (c) The notion of an empty plate has lost significance as improved welfare policies and efficient food systems have largely eliminated hunger and malnutrition nationwide.
 - (d) The symbol of an empty plate now represents personal dietary choice rather than any social or administrative neglect related to food security and equitable distribution.
 - (e) The meaning of an empty plate has changed with time, signifying temporary scarcity rather than enduring inequality or the state's indifference toward systemic hunger.
-

44. A paragraph is given below, followed by five alternatives. Select the one that most accurately conveys the same idea and context as the original. Recent studies reveal that exposure to microscopic air pollutants does not merely affect the lungs. These tiny particles penetrate the bloodstream, elevating the risk of heart attacks and strokes.

- (a) Recent evidence suggests that airborne particles strengthen immunity and reduce the overall incidence of heart-related diseases among urban residents.
 - (b) Microscopic particles remain confined to the respiratory tract, causing only mild and temporary irritation without any long-term cardiac consequences.
 - (c) Air pollution primarily damages the nervous system, with negligible impact on vascular or coronary functioning in the general population.
 - (d) Fine particulate pollutants enter the circulatory system and contribute significantly to cardiovascular complications, proving that air quality is directly linked to heart health.
 - (e) Particulate matter affects only outdoor workers, leaving the cardiovascular health of indoor populations largely unharmed by polluted air.
-

45. Rearrange the following sentences to form a meaningful paragraph. (A) It helps in storing water for future use. (B) Rainwater harvesting is a simple conservation method. (C) This collected water can be used for daily needs. (D) This method is especially useful in drought-prone areas.

- (a) BACD
- (b) DABC
- (c) ABDC
- (d) CBDA
- (e) No rearrangement required

Read the following passage and answer the given questions. For most Africans, air travel remains a fairytown fantasy—enchanted in theory, but unreachable in practice. Despite the continent's growing population of over 1.4 billion, less than 2% of Africans fly regularly. A mix of protectionist policies, poor infrastructure, and high costs has made air travel a luxury enjoyed by only the elite few. Intra-African flights are among the most expensive globally. A round-trip ticket between Lagos and Nairobi—two key African cities—can exceed \$2000, often more than the cost of flying to Europe. This exorbitant pricing begets from excessive fuel surcharges, airport taxes, and a chronic lack of competition. Many African governments have long banned foreign airlines from operating domestic or inter-country routes. While intended to protect national carriers, this fortress mentality has produced the opposite effect: weak airlines, limited connectivity, and high fares. This inward-looking approach has had bizarre consequences. It is not uncommon for African passengers to transit through Paris, Istanbul, or Dubai just to reach a neighboring country. The system is illogical and inefficient. While the Yamoussoukro Decision (1999) and its successor, the Single African Air Transport Market (SAATM), aimed to reform the sector, implementation has been sluggish. Only a handful of countries have put these liberalization policies into action. The lack of reform causes stagnation. Without open skies, real competition cannot emerge. Without competition, prices remain high. And without affordable air travel, continental trade and integration suffer. In contrast, facilitates not only the movement of people but the flow of goods, ideas, and economic growth. African aviation never truly got off the ground. To change this, leaders must prioritize regional cooperation, deregulation, and accessibility over isolation and control. Unless bold reforms are enacted, African skies will remain grounded in fantasy—a fairytown spectacle that benefits the few while excluding the many.

46. What best expresses the author's opinion about African aviation?

- (a) African nations should continue protecting national carriers through restrictive policies.
- (b) The aviation sector should focus only on domestic connectivity.
- (c) African leaders must embrace open skies and deregulation for real progress.
- (d) The aviation industry in Africa is thriving and affordable for most citizens.
- (e) The best way to improve aviation is to ban all foreign involvement.

47. Which of the following words highlighted in the passage is contextually incorrect?

- (a) facilitates
- (b) begets
- (c) connectivity
- (d) unreachable
- (e) All are correct

48. Which of the following is TRUE according to the passage? (A) A return flight between Lagos and Nairobi usually costs less than \$500. (B) Intra-African flights are often cheaper than flights to Europe. (C) A round-trip ticket between two African cities can exceed \$2000.

- (a) Only A
- (b) Both B and C
- (c) Only B
- (d) Only C
- (e) All A, B, C

49. What does the phrase "got off the ground" mean?

- (a) To gain attention before quickly fading away
 - (b) To fail to launch due to lack of resources
 - (c) To achieve long-term success after a temporary failure
 - (d) To remain stuck at the planning stage indefinitely
 - (e) To begin or launch successfully after preparation
-

50. Which of the following statements is/are CORRECT according to the passage? (I) The Yamoussoukro Decision was intended to open African airspace. (II) SAATM has been implemented successfully across all African nations. (III) Intra-African connectivity remains limited due to high costs.

- (a) Only (I)
 - (b) Both (I) and (III)
 - (c) Only (II)
 - (d) All (I), (II), and (III)
 - (e) Both (II) and (III)
-

51. Which of the following is the most likely reason for the phrase “fairytown fantasy” to describe African aviation?

- (a) African aviation is filled with fictional airline branding and marketing.
 - (b) The aviation industry in Africa is controlled entirely by foreign companies.
 - (c) Most African airports operate only luxury flights for tourists.
 - (d) African countries refuse to participate in any form of regional aviation pacts.
 - (e) Air travel seems glamorous and promising but is inaccessible for most.
-

52. What does the author mean by “fortress mentality”?

- (a) A collaborative mindset where African nations build protective trade alliances
 - (b) An isolationist policy stance where countries protect their markets by avoiding external competition
 - (c) A financial model focused on fortifying airport infrastructure through regional investments
 - (d) A regulatory framework designed to expand African aviation into foreign markets
 - (e) A defensive strategy used by airlines to prevent cyberattacks and data breaches
-

53. Based on the passage, which of the following best describes the relationship between competition and affordability in African aviation?

- (a) Increased competition has led to unfair pricing and overcapacity.
 - (b) Competition is unrelated to ticket pricing in African aviation.
 - (c) A lack of competition keeps prices artificially low to protect consumers.
 - (d) Limited competition contributes to higher fares and poor connectivity.
 - (e) Foreign competition would reduce airline quality and safety.
-

54. Which of the following statement(s) is/are true? (I) Fewer than 2% of Africans travel by air regularly. (II) Flights between African cities are often cheaper than flights to Europe. (III) Some African travelers must transit through non-African cities to reach nearby countries.

- (a) Only (I)
 - (b) Both (I) and (III)
 - (c) Only (II)
 - (d) All (I), (II), and (III)
 - (e) None of the above
-

55. According to the passage, what is the primary consequence of restricting foreign airlines from operating intra-African routes?

- (a) It improves safety and increases national employment in aviation.
- (b) It fosters rapid development of domestic infrastructure.
- (c) It encourages more domestic passengers to fly at affordable rates.
- (d) It weakens competition, increases prices, and limits connectivity.
- (e) It helps national carriers establish global partnerships.

Choose the most appropriate replacement for each highlighted phrase in the passage so that the paragraph becomes both contextually suitable and grammatically correct. Artificial intelligence has transformed how students learn by expanding course catalogs online (A), reliable help at their fingertips. With AI chat assistants and course platforms, clarities long resolved (B) for the next class are resolved in minutes. Explanations, examples, and step-by-step solutions arrive on demand, so learners are no longer dependent on classroom lectures to keep moving forward. This immediacy reduces anxiety, sustains momentum, and turns confusion into curiosity. AI also personalizes study. Adaptive systems diagnose weak areas, recommend targeted practice, and adjust difficulty in real time. Vocabulary drills, grammar checks, and writing feedback become continuous, specific, and data-driven. In the traditional classroom (C), AI creates timed quizzes, analyses mistakes, and suggests revision plans aligned to the syllabus. Visual summaries, flashcards, and audio notes capture transforming information (D) and busy schedules. Beyond speed and personalization, AI expands access. Students in remote areas can consult high-quality tutors anytime; translations and text-to-speech remove language and reading barriers. Collaboration tools help peers co-create notes and track progress transparently. Of course, smart use matters. Therefore, every app dictates, (E) compare multiple explanations, and practice solving without prompts. Used thoughtfully, AI becomes a study partner that accelerates understanding, builds confidence, and gives every learner the freedom to learn—anytime, anywhere. every day.

56. Which of the following should replace the highlighted phrase (A)?

- (a) with round-the-clock tools in use
- (b) by putting instant
- (c) in the new digital climate
- (d) No replacement required
- (e) alongside evolving classroom policies

57. Which of the following should replace the highlighted phrase (B)?

- (a) schedules that used to slip
- (b) messages that often delayed replies
- (c) doubts that once waited
- (d) forms that remained pending
- (e) No replacement required

58. Which of the following should replace the highlighted phrase (C)?

- (a) For exam preparation
- (b) No replacement required
- (c) During leisure entertainment
- (d) At the end of vacations
- (e) Beyond the scope of tests

59. Which of the following should replace the highlighted phrase (D)?

- (a) remain central to the classroom lecture delivery
- (b) No replacement required
- (c) hold perfect retention forever
- (d) generate teacher guidance entirely

(e) support different learning styles

60. Which of the following should replace the highlighted phrase (E)?

- (a) Learners must depend on hints
 - (b) One should copy model answers
 - (c) Teachers will complete all tasks
 - (d) Students should verify sources
 - (e) No replacement required
-

61. In the question below, few sentences have been given. Find out which of the following sentence is incorrect. (A) The regulator issued clarifications that were awaited by lenders across multiple product categories for months. (B) He suggested that the fees is waived to accommodate unexpected documentation errors in certain applications. (C) Between you and me, the mock results reflect careless reading rather than difficult passages overall. (D) Despite the rain warnings, attendance remained strong and proctors reported smooth conduct overall across centres.

- (a) Only (B)
 - (b) Both (B) and (D)
 - (c) Only (A)
 - (d) Both (B) and (C)
 - (e) (A), (B), and (D)
-

62. In the question below, few sentences have been given. Find out which of the following sentence is incorrect. (A) Walking through the archive, the labels guided researchers toward previously misfiled securities disclosures yesterday effectively. (B) The compliance team reviewed contracts, verified calculations, and logged deviations within the centralized tracker yesterday. (C) She appears to have forgotten to submit reimbursement proofs before accounts closed yesterday for reconciliation. (D) No sooner had the briefing ended then questions erupted regarding vendor eligibility criteria for onboarding.

- (a) Only (D)
 - (b) Both (A) and (D)
 - (c) Only (C)
 - (d) Both (B) and (C)
 - (e) (A), (B), and (D)
-

63. In the question below, few sentences have been given. Find out which of the following sentence is incorrect. (A) The chair recommended that the minutes be circulated before voting on the amended resolution today. (B) The applicants complied with documentary requirements specified in paragraph six of the guidance for onboarding. (C) Our procedures differ than the regulator's notices because internal risk thresholds are updated quarterly internally. (D) Investigators found that several controls had failed before the alerting system was finally recalibrated internally.

- (a) Only (B)
 - (b) Both (B) and (D)
 - (c) Only (C)
 - (d) Both (B) and (C)
 - (e) (A), (B), and (D)
-

64. In the question below, few sentences have been given. Find out which of the following sentence is incorrect. (A) He is one of those reviewers who insist on primary evidence before approving reimbursement claims. (B) The manager, who was instructed to expedite the process, submitted the forms yesterday without delay. (C) Twenty percent of the application are incomplete, according to the latest verification dashboard this morning. (D) Had the documents been uploaded earlier, the refund would have processed without additional correspondence today.

- (a) Only (D)

- (b) Both (B) and (C)
- (c) Only (A)
- (d) Both (C) and (D)
- (e) (A), (B), and (D)

65. In the question below, two columns of phrases are provided—Column I and Column II. Choose the pair that, when joined with the given connector, forms a grammatically correct and contextually meaningful sentence. Column I Column II A. The hall fell silent, D. ___ she would wake up before sunrise. B. The instructions were printed clearly, E. ___ even the last row could read them. C. Ravi revised the rules again, F. ___ everyone could hear the speaker without strain.

- (a) B-F (so)
- (b) C-E (therefore)
- (c) A-F (so that)
- (d) B-D (within); A-F (for)
- (e) B-E (but)

66. In the question below, two columns of phrases are provided—Column I and Column II. Choose the pair that, when joined with the given connector, forms a grammatically correct and contextually meaningful sentence. Column I Column II A. The bell rang twice, D. ___ the test would begin in five minutes. B. Neha carried a spare pen, E. ___ visitors could read it before entering. C. The notice was posted at the entrance, F. ___ her pen stopped working midway.

- (a) A-D (in which)
- (b) C-E (so that); B-F (in case)
- (c) A-F (as a result)
- (d) B-D (hence); A-F (for)
- (e) B-E (lest)

67. In Column I, the highlighted parts may be grammatically incorrect. Column II lists possible replacements. Choose the option that gives the correct combination so that the sentences become grammatically correct. Column I Column II A. Neither the rate nor the fees was discussed in detail. D. is little B. There is few evidence to support the revised projection. E. were discussed C. Unless the fields are complete, the system will not proceed. F. are not complete

- (a) A- no replacement required
- (b) A-E
- (c) A-E ; B-D
- (d) B-D
- (e) C-F

68. In Column I, the highlighted parts may be grammatically incorrect. Column II lists possible replacements. Choose the option that gives the correct combination so that the sentences become grammatically correct. Column I Column II A. She often spend without checking the balance. D. rarely spends B. She not only did submit the claim, she also attached receipts. E. The token had been C. Had the token been issued earlier, the queue would have moved faster. F. Not only did she

- (a) A-D
- (b) B-F; A-D
- (c) A-E; B-D
- (d) B-D
- (e) C- No replacement required

In the following question, a paragraph is given with few blanks.

69. Choose the word from the given options that will fill all the blanks and make the paragraph grammatically correct and contextually meaningful. _____ the bell rang, the committee came to order and asked Riya to _____ the proceedings. What looked like a _____ discrepancy in the figures soon turned serious, and the chair granted only a _____ for each member to speak.

- (a) record
 - (b) tiny
 - (c) time
 - (d) minute
 - (e) hour
-

70. Choose the word from the given options that will fill all the blanks and make the paragraph grammatically correct and contextually meaningful. At daybreak, the _____ was soft across the courtyard, and the usher asked us to _____ the candles; with _____ luggage we climbed the stairs, and the walls, painted a _____ blue, calmed the room.

- (a) light
 - (b) hope
 - (c) heavy
 - (d) sight
 - (e) mist
-

71. Choose the word from the given options that will fill all the blanks and make the paragraph grammatically correct and contextually meaningful. At the quarterly review, the operations head proposed to _____ the warehouses with fast-moving items before the festive rush; the audit flagged expired _____ lying unsold; the service lead warned against giving _____ replies to complaints; and the surge in the company's _____ cheered employees.

- (a) stock
 - (b) supply
 - (c) standard
 - (d) share
 - (e) stuff
-

72. Choose the word from the given options that will fill all the blanks and make the paragraph grammatically correct and contextually meaningful. During the annual meet, the secretary was asked to _____ every decision accurately; finance reported a _____ profit on the new line; HR checked the attendance _____ before releasing bonuses; and legal cautioned that any breach would stay on an employee's _____.

- (a) count
 - (b) file
 - (c) register
 - (d) log
 - (e) record
-

Read the following passage carefully and answer the questions given below them. Video games have evolved into a multifaceted medium that offers both recreation and intellectual stimulation for students. When used judiciously, they can yield numerous cognitive and pedagogical benefits. Educational and strategy-based games enhance critical thinking, problem-solving aptitude, and spatial awareness, while also fostering collaborative and communicative skills through multiplayer formats. Furthermore, gaming can serve as a therapeutic escape, helping students alleviate stress and rejuvenate their minds after intense academic exertion. Studies even suggest that certain action-oriented games bolster reflexes, hand-eye coordination, and attentional focus, contributing to both mental agility and adaptive learning. Despite these advantages, excessive indulgence in video games can have detrimental repercussions. Prolonged exposure often leads to addictive tendencies, causing students to neglect academic responsibilities and social interactions. Extended screen time may trigger visual fatigue, musculoskeletal strain, and disrupted circadian rhythms. Moreover, recurrent engagement with violent or aggressive content can desensitize young minds, fostering irritability and diminishing empathic sensitivity. Academic performance may deteriorate as students become engrossed in virtual worlds, and their overreliance on digital engagement can precipitate social alienation and emotional stagnation. In essence, video games represent a powerful yet ambivalent influence—capable of enriching the intellect when approached with moderation but equally capable of impairing growth when pursued obsessively. The key lies in equilibrium and discernment, ensuring that gaming remains a source of enrichment rather than erosion.

73. Which of the following can most reasonably be inferred from the passage about students who engage in video gaming?

- (a) Their physical well-being generally improves with extended hours of immersive gameplay.
 - (b) Their capacity for empathy and interpersonal understanding tends to strengthen with exposure to violent game content.
 - (c) Their ability to manage time effectively is largely unaffected by prolonged engagement in digital environments.
 - (d) Their academic motivation remains stable even when gaming becomes excessive and repetitive.
 - (e) Their cognitive growth may be positively influenced when gameplay is balanced with academic and social activities.
-

74. Which of the following inferences can most plausibly be drawn from the passage concerning the adverse ramifications of excessive video-gaming behavior among students? (I) Prolonged immersion in virtual domains may engender affective desensitization and a diminution of empathic responsiveness. (II) Sustained exposure to screens is liable to induce physiological strain, including ocular exhaustion and postural discomfort. (III) Individuals who devote inordinate time to gaming typically offset scholastic disengagement through heightened interpersonal participation.

- (a) Only (I)
 - (b) Only (II)
 - (c) Both (I) and (II)
 - (d) Both (II) and (III)
 - (e) All (I), (II), and (III)
-

75. According to the passage, all of the following are identified as constructive outcomes of video gaming when practiced in moderation EXCEPT:

- (a) The augmentation of analytical acuity and visuospatial intelligence through cognitively demanding gameplay.
 - (b) The reinforcement of cooperative aptitude and interpersonal articulation fostered by collaborative gaming formats.
 - (c) The refinement of psychomotor responsiveness and sustained attentional control through dynamic, action-based interaction.
 - (d) The amplification of empathic receptivity and affective discernment resulting from recurrent exposure to violent digital scenarios.
 - (e) The mitigation of psychological strain and restoration of cognitive vitality following rigorous academic endeavor.
-
