IBPS PO Mains 2017

30 questions

6. In the following question, three statements numbered I, II and III are given. Read all the statements and determine the cause and effect relationship between them. I. In urban areas, the poor bear the brunt of environmental effects such as water or air pollution. II. The rapid urban development has outpaced the development of environmental infrastructure in many large cities. III. Just for the own sake of profit, builders in urban areas are indulge in construction work without tendering about the environment and urban poor, who mostly dies from chronical diseases.

- (a) Statement II is the cause, I and III are its effects.
- (b) Statement I is the cause, I and III are its effects.
- (c) Statement III is the cause, I and II are its effects.
- (d) Statement III is the cause and II is its effects while statement I is an effect of some independent cause.
- (e) None of these

7. Statement: Prime Minister Narendra Modi launched three mega flagship schemes aimed at transforming Urban India, including the much talked about Smart Cities proposal, with a whopping Rs.4 lakh crore kitty having been lined up for the projects. He also unveiled logo of the housing mission, which has his personal touch in the finalization of its design. Speaking at the event, Modi said, "the decision to make cities smart will be taken not by governments but by the people of the city, the local administration. Let there be competition between cities in development so that smart cities come up." Which of the following will be an effect of the initiative taken by the government?

- (a) Ensuring water supply to each household, sewer connections, sanitation and solid waste management in rural and urban governance would be the focus under the scheme.
- (b) Quality of life will improve in rural and urban areas.
- (c) Provision of roads and public transportation beside implementation of reforms in urban governance would be the focus under the scheme.
- (d) Millions of jobs will be created and scarcity of houses will be removed in urban and rural areas.
- (e) All of the above.

In the following questions, the symbols #, &, @, *, \$, % and © are used with the following meanings as illustrated below. Study the following information and answer the given questions: P#Q - P is the son of Q. P@Q - Q is the child of P. P©Q - P is the parent of Q. P\$Q - P is elder than Q. P*Q- P is the husband of Q. P&Q- Q is the daughter-in-law of P. P%Q- P is the wife of Q.

8. If A@B*D&G%E\$F#D then how is F related to A?

- (a) Grandfather
- (b) Grandson
- (c) Daughter
- (d) Wife
- (e) None of these

9. If H*M©O\$N#M, the age of N is 20 years and age of H, is 40 years then what is the probable age of O?

- (a) 17 years
- (b) 15 years
- (c) 23 years
- (d) 45 years
- (e) 12 years

10. The difficulty with the proposed high-speed train line is that a used plane can be bought for one-third the price of the train line, and the plane, which is just as fast, can fly anywhere. The train would be a fixed linear system, and we live in a world that is spreading out in all directions and in which consumers choose the free-wheel systems (cars, buses, aircraft), which do not have fixed routes. Thus a sufficient market for the train will not exist. Which of the following, if true, most severely weakens the argument presented above?

- (a) Cars, buses, and planes require the efforts of drivers and pilots to guide them, whereas the train will be guided mechanically.
- (b) Cars and buses are not nearly as fast as the high-speed train will be.

- (c) Planes are not a free-wheel system because they can fly only between airports, which are less convenient for consumers than the high-speed train's stations would be.
- (d) The high-speed train line cannot use currently underutilized train stations in large cities.
- (e) For long trips, most people prefer to fly rather than to take ground-level transportation.

In the following questions, the symbols #, &, @ and \$ are used with the following meanings as illustrated below. Study the following information and answer the given questions: Note: The directions which are given indicates exact directions. P#Q - Q is in the south direction of P. P@Q - Q is in the north direction of P P&Q - Q is in the east direction of P at distance of either 12m or 6m P\$Q - Q is in the west direction of P at distance of either 15m or 3m. P#&Q - Q or P is in the southeast direction of P or Q. P@&Q - P or Q is in the northeast direction of Q or P.

11. If A&B#&C\$D&E@F are related to each other such that F is placed exactly between A and B on line AB. Similarly D and A are vertically inline then what is the possible shortest distance between F and B when DE (length of segment DE) < DC/2 and EC < 10m?

- (a) 12m
- (b) 5 m
- (c) 4 m
- (d) 6m
- (e) None of these

12. If A&B#&C\$D&E@F are related to each other such that D@&B then what is the probable direction of A with respect to F?

- (a) North-west
- (b) West
- (c) South-west
- (d) east
- (e) Can't be determined

13. K#&T\$M#&S&K&Z are related to each other such that K is in north of M then what is the probable direction of Z with respect to M?

- (a) North-east
- (b) West
- (c) South-west
- (d) east
- (e) Can't be determined

14. K#&T\$M#&S&K&Z are related to each other such that K is in north of M . M and K are inline vertically when MT>SK then what is the distance between S and Z When KZ=12 m?

- (a) 24m
- (b) 18m
- (c) 15m
- (d) Either

15. K#&T\$M#&S&K&Z are related to each other such that K is in north of M . M and K are inline vertically when MT>SK then what is the sum of SK and MT?

- (a) 27m
- (b) 21m
- (c) 15m
- (d) Either

Read the instruction carefully and give answer. Six persons A, B, C, X, Y and Z are sitting in two parallel rows viz. row-1 and row-2. A, B and C are sitting in row-1, while X, Y and Z are sitting in another row. Some of them are facing north and some of them are facing south. X faces north. The one who sits opposite to X sits second to the right of C. B faces south and sits opposite to the one, who sits to the immediate right of Y. Y sits second right of X. A faces opposite direction of C. Y sits immediate right of Z.

16. How many persons faces north direction?

- (a) Three
- (b) Five

- (c) Two
 - (d) One
 - (e) None of these
-

17. Who among the following sits second right of A?

- (a) C
 - (b) X
 - (c) Y
 - (d) B
 - (e) None of these
-

18. Statement A. City X has recently banned the sale of a drug XYZ, citing its misuse by youths for other activities. Statement B. City Y has recently lifted its ban on the sale of the drug XYZ, after a sharp rise in the number of cases of Glaucoma. Which of the following can be inferred from the above statements?

- (a) Drug XYZ is only used in the treatment of Glaucoma.
 - (b) The number of Glaucoma patients in city X is going to increase in the future.
 - (c) Drug XYZ is also used by the sports persons to enhance their athletic performance.
 - (d) Drug XYZ can be used in the treatment of Glaucoma.
 - (e) None of these
-

24. In an attempt to check its increasing pollution, Litter City has introduced a levy of Rs. 100 on every private car entering the city. The administration argues that the imposition of this levy, in addition of the existing toll at the entrance of the city, will switch people from using their cars to using the public transport. Which of the following, if true, provides the best evidence that the city administration's argument is flawed?

- (a) The city administration is already facing the ire of taxi drivers whose demand for a rate hike was turned down by the administration.
 - (b) A recent survey has shown that people living in Litter city have fewer cars than those in the neighboring clean city.
 - (c) Hardly 10% of the regular bus passengers own their own cars.
 - (d) The recent hike in the toll for cars already makes it more expensive for people to take a private car into the city than travel in a public transport.
 - (e) Both
-

Read the following information answer the given questions. The agitated guardians of grade IX students of a high-profile public school of North Carolina protested against the newly introduced audio-visual aid of teaching methodology. According to them, it is of benefit to a handful of students only, and majority of students will not be getting any help because of this technology. These questions are based on the information given above and the sentences given below labeled as I, II, III, IV and V. I. Change is a gradual process and it takes some time for people to adjust to it. II. Guardians are happy with the new teaching methodology, i.e. via the use of audio-visual techniques. III. It is not the responsibility of the school to take care of the weaker students. IV. This modern technology of teaching should be scrapped as soon as possible. V. Guardians are unhappy with the new teaching methodology.

25. Which of the following statements above could be a possible conclusion from the above passage?

- (a) Only I
 - (b) Only II
 - (c) Only IV
 - (d) Both IV and II
 - (e) Only V
-

26. Which of the following could be a possible statement that should be used by the school management to defend themselves?

- (a) Both II and V
 - (b) Only III
 - (c) Only I
 - (d) Only V
 - (e) Both IV and III
-

Study the following information and answer the given questions: In alphabetical series A-Z each letter except vowels is assigned a different number from 1-8 (for ex- B is coded as 1, C-2???..K-8)and again those numbers get repeated(for ex- L-1, M-2???..so on). Also each vowel is assigned a different symbol viz. #, \$, %, @, &. In coded language- ?She is girl? is coded as - 76% #7 5#61 ?What did you like? is coded as - 26\$8 3#3 4@& 1#8% ?It is famous? is coded as - #8 #7 4\$2@&7 (i) If both first and last letter of a word is vowel then the codes of both the vowels are interchanged. (ii) If first letter of a word is vowel and last letter is consonant then both are to be coded as *. (If the word does not satisfy the conditions given above then the letters of that word are to be coded as per the given code)

27. What can be the code of ?Nothing perfect??

- (a) 3@86#53 4%64%28
- (b) 3@68#35 4%64%28
- (c) 3@86#35 4%64%38
- (d) 3@86#35 4%64%28
- (e) None of these

28. What can be the code of ?Exam was easy??

- (a) *3\$* 2\$7 *\$7*
- (b) *3\$* 2\$7 %\$74
- (c) %3\$2 2\$7 *\$7*
- (d) *3\$* 2\$7 \$74%
- (e) None of these

29. What can be the code of ?Create style??

- (a) 2#6\$8% 7841% (b) 26%\$8% 7814% (c) 26%\$8% 7841% (d) 26%\$6% 7841% (e) None of these

30. What can be the code of ?Strength of god??

- (a) 768%3586 4@ 5@3
- (b) 786%3586 ** 5@3
- (c) 786%3586 @* 5@3
- (d) 786%3856 4@ 5@3
- (e) None of these

Read the questions carefully and answer the following questions. More than 10 persons were sitting in a circular row facing the centre. B is 3rd to the left of C. Two person are sitting between D and B. A sits immediate right of E. One person is sitting between C and E. Less than two person are sitting between D and A. A does not sit second to the right of B.

31. How many persons are sitting in the circular arrangement?

- (a) 14
- (b) 11
- (c) 12
- (d) 13
- (e) None of these

32. What is the position C with respect to A?

- (a) Third to the left
- (b) Third to the right
- (c) Fourth to the left
- (d) Fifth to the right
- (e) None of these

33. How many persons are sitting between B and A in anti-clockwise direction?

- (a) 3
- (b) 4
- (c) 5
- (d) 6
- (e) 7

Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and; (a) if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question. (b) if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question. (c) if the data either in statement I alone or in statement II alone are sufficient to answer the question. (d) if the data even in both statements I and II together are not sufficient to answer the question. (e) if the data in both statements I and II together are necessary to answer the question.

34. Five friends Q, R, S, T, V are married on different dates 12, 19, 21, 28, 31 but not necessarily in the same order of the month of January and September on the same year. T is married on which of the following date? (I) Both T and Q are not married on even date of the month. T is married before Q. Two persons are married in between T and V. (II) No body is married after R. S is married on a date in between T and Q. S is married on an even date. More than three persons are married in the same month.

- (a) if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- (b) if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- (c) if the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) if the data even in both statements I and II together are not sufficient to answer the question.
- (e) if the data in both statements I and II together are necessary to answer the question.

35. Six boxes A, B, C, D, E, F of different colours are placed one above another. Also, each box has different number of toffees. No box has same number of toffees. Only two boxes are placed in between B and Green box. No box is placed above B. Box D is placed immediately above Blue box. Only Red box is placed in between Green box and A. Only one box is placed between Red and Blue box. Only one box is placed in between D and E. Only one box is placed between Orange box and C. Box C is not of Red colour. How many number of toffees does Blue box have? (I) Box E has more number of toffees than 8 while box C has more number of toffees than 20. Box D has 21 toffees. The box which has lowest and 2nd lowest number of toffees has 10 and 12 toffees respectively. Box A, C, D and F has odd number of toffees. (II) A has more number of toffees than B but not more than D. The difference in the number of toffees in box F and E is 7. The box which has highest number of toffees has 8 more toffees than box F. Total number of toffees in box B and A is 31.

- (a) if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- (b) if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- (c) if the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) if the data even in both statements I and II together are not sufficient to answer the question.
- (e) if the data in both statements I and II together are necessary to answer the question.

41. The US President has downsized his country's nuclear arsenal, helped to negotiate a deal to halt Iran's nuclear-weapons programme and led a global initiative to secure radioactive materials. But his legacy on nuclear issues remains uncertain, as the progress in securing nuclear materials has been slow. Which of the following is an assumption of the speaker?

- (a) There could be a break in the president's initiative at securing radioactive materials.
- (b) One's lasting fame depends on the velocity with which one's initiatives are carried out.
- (c) The deteriorating progress will eventually lead to the failure of the initiative.
- (d) The US can never convince a country to give up its nuclear initiatives.
- (e) None of these

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. Input- njes glfu 53 18 31 44 wird dect Step I: yktf 106 njes glfu 18 31 44 dect Step II: plgu 88 yktf 106 glfu 18 31 dect Step III: inhw 62 plgu 88 yktf 106 18 dect Step IV: fgev 36 inhw 62 plgu 88 yktf 106 Answer the following questions based on the following input: - Input- olpu htqs 21 73 48 9 xcek bdgv

42. What will be the resultant if fifth number from the left end of step I is added to fifth number from right end of step III?

- (a) 153

- (b) 106
 - (c) 117
 - (d) 98
 - (e) None of these
-

43. What will be the third step of the given input?

- (a) Step III-42 jvsu qnrw 96 zegm 146 9 bdgv
 - (b) Step III- jvsu 42 qnrw 96 zegm 146 bdgv 9
 - (c) Step III- jvsu 42 qnrw zegm 96 146 9 bdgv
 - (d) Step III- jvsu 42 qnrw 96 zegm 146 9 bdgv
 - (e) None of these
-

44. Which of the following word/number will be fourth to the left of sixth from the left end in step II?

- (a) 96
 - (b) 146
 - (c) zegm
 - (d) bdgv
 - (e) None of these
-

45. What will be the twice of the difference of sixth number from the left end of step I and fifth number from right end of step IV?

- (a) 14
 - (b) 12
 - (c) 28
 - (d) 44
 - (e) None of these
-
