

ibps_po_2020_mains_unknown_shift_14a55cbe

IBPS PO Mains 2020

69 questions

Each of the questions below consists of a question and two statements numbered I, and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and answer the following questions. (a) If the data in statement I alone are sufficient (b) If the data in statement II alone are sufficient (c) If the data either in statement I alone or statement II alone are sufficient to answer (d) If the data given in both I and II together are not sufficient (e) If the data in both the statements I and II together are necessary to answer

18. Eight boxes P, Q, R, S, T, U, V and W are arranged one above the other but not necessarily in the same order. Which of the following box is placed just below the box U? Statements I: More than three boxes are placed between S and T, which is placed below the box S. Box Q and S are placed adjacent to each other. Two boxes are placed between U and Q. Only one box is placed between P and T. Statements II: One box is placed between Q and R. Two boxes are placed between P and Q. One box is placed between T and R. Box P does not adjacent to box T. Box U is placed exactly in between the boxes P and the box which is placed just above the box R.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer

19. Eight members A, B, M, N, O, P, Q and R are living in the family. In which only two married couples. How is N related to P? Statements I: A is the sister-in-law of P, who is the mother-in-law Q. R is the parent of A, who is unmarried. B is the father of N. Q is not the wife of N. N, who is married is not sibling of A. Statements II: A is married to B. N is the father of O. A is the father of M. M is the sibling of N.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer

20. In a certain code language. How is ?Utility? coded in the given code language? Statements I: ?man power required? is coded as ?N12 E23 G15? and ?power sector source? is coded as ?N12 D21 Q17? and ?man utility source? is coded as ?E23 L14 Q17? and ?global sector required? is coded as ?T34 D21 G15? Statements II: ?Indian capital income? is coded as ?W21 B14 S31? and ?source of capital? is coded as ?Q17 M29 B14? and ?income utility source? is coded as ?S31 L14 Q17? and ?capital income surplus? is coded as ?B14 S31 F18?`

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer

25. Google is trying to turn its search engine into an employment engine. Job hunters will be able to go to Google and see help-wanted listings that its search engine collects across the internet. The results will aim to streamline such listings by eliminating duplicate jobs posted on different sites. Google will also show employer ratings from current and former workers, as well as typical commute times to job locations. (I) Now a days Google market is not good that?s why Google launched new service. (II) Google is no more interested in providing other services to its consumer, now Google is focused only on turning its search engine into an employment engine. (III) Google?s search engine results will aim to well- organized employment listings by removing duplicate jobs. (IV) Google is not interested to show any kind of ratings in its new employment search engine. Which of the following can be deduced from the given passage?

- (a) Only II and IV
- (b) Only I and III
- (c) Only II and III
- (d) Only III
- (e) None of these

30. In expression F&G, B&A%C&D&E*F@H, the Point A is in which direction of Point G?

- (a) West
 - (b) North-West
 - (c) East
 - (d) North-East
 - (e) South
-

33. Statement-Highlighting his achievements in present in rooting out corruption, Prime Minister Narendra Modi said that there has been "not even one taint or blot" on his government in these past three years. Which of the following abrogates the above statement? (I) Technology has brought about transparency and is being used to achieve great heights across sectors in India in Modi governance. (II) In several parameters, the country is moving at a rapid pace under PM Modi's government. Noting that infrastructure is essential for sustainable development. The increase in aspiration of the common people is the greatest cause of this fast track development of the country. (III) The billion Indians in India are still below poverty line and they are also finding the way to get rid of biggest problem of India which is corruption. (IV) India is now receiving record number of foreign direct investment and all credit agencies and multilateral fora are giving a positive rating about India.

- (a) Only II
 - (b) Only III and IV
 - (c) Only III
 - (d) Only IV
 - (e) Only I and III
-

34. Statement- ?In a big relief to liquor companies which are holding their stocks worth more than Rs. 200 crore in Bihar, the Supreme Court on Monday granted them two months more time to transport liquor out of the state and directed them to dispose off their stocks by July 31. ? I. Beverages Companies, contended that it was possible even to destroy the existing stocks by the end of this month. II. The apex court had earlier fixed a deadline of May 31 for the companies to dispose off their stocks. III. Seeking more time for transporting the stocks out of state, the confederation said in its petition that delay in disposing off stocks was beyond its control as clearances were required from various agencies. Which of the following can be the Presupposition of the given statement?

- (a) Only I
 - (b) Only II and III
 - (c) Only I and III
 - (d) All of the above
 - (e) None of the above
-

35. Statement-The government has made quoting of Aadhaar mandatory for opening of bank accounts as well as for any financial transaction of 50,000 and above. (I) The government in its Budget 2017 has already mandated seeding of Aadhaar number with Permanent Account Number (PAN) to avoid individuals using multiple PANs to evade taxes. (II) Aadhaar is more secure and reliable than PAN for bank account transactions. (III) Aadhaar number is issued by the Unique Identification Authority of India (UIDAI). Which of the following statement can be concluded from the given statement?

- (a) All except II
 - (b) Both II and III
 - (c) Only I
 - (d) Only I and II
 - (e) None of the above
-

44. Which of the following can be hypothesized from the above passage?

- (a) Only II
 - (b) Only I and III
 - (c) Only I and II
 - (d) All of these
 - (e) None of these
-

45. Which of the followings is not in the line with the passage? (I) Kalanick's resignation came under the pressure of
(no options)

Read the data given below carefully and answer the questions. Note - There is not any halt or stoppage from the station A to D. A train running between four stations i.e. A, B, C & D on Monday and Tuesday. The average speed of train on Monday during whole journey is 50 kmph and average speed of train on Tuesday during whole journey is 62.5 kmph. On Monday train takes one hour less to cover distance between A and B as compare to that of on Tuesday. Train takes equal time to cover distance between B to C on both the given days, while train takes three hours more to cover distance between C and D as compare to that of on Tuesday. The distance between A and B is 40% less than that of between C and D. The distance between B and C is 50% more than that of between A and B.

46. Find the total time taken by train to cover distance from A to D on Tuesday?

- (a) 6 hours
- (b) 8 hours
- (c) 10 hours
- (d) 4 hours
- (e) 12 hours

47. Find the difference between the distance from station A to B and from station C to D?

- (a) 60 km
- (b) 20 km
- (c) 80 km
- (d) 40 km
- (e) Can't determined

48. On Monday speed of train between stations B to C is 50% more than speed of train between C to D and time taken to cover distance between B to C is 2 hours less than that of time taken between C and D. Find the speed of train between C to D on Monday?

- (a) 20 kmph
- (b) 60 kmph
- (c) 30 kmph
- (d) 50 kmph
- (e) 40 kmph

49. Scheme A offers R% p.a. rate of interest on compound annually. Find the value of R. Statement I ? If interest received on Rs. 5 ? on simple ? 4 % p.a. is half of when Rs. P invested in scheme A for 2 years. Statement II ? Rs. X is invested in scheme A for two years and it amounted Rs. 3600. If Rs. interest for 11 years at the rate of 25 ? is invested at rate of (R ? 10) % on CI annually for two years, then it amounted Rs. 1936. Statement III- When Rs. Q invested in scheme A for two years and three years, then difference between interests is Rs. 1152.

- (a) Statement (I) alone is sufficient answer the question
- (b) Statement (II) alone is sufficient to answer the question
- (c) All the three statements taken together are necessary to answer the question
- (d) Either statement (I) alone or statement (II) and (III) together sufficient to answer the question.
- (e) Either statement (I) alone or statement (II) alone is sufficient to answer the question.

Read the data given below carefully and answer the questions. There are two schools A & B in a town. Total number of girls in school B are 30 more than twice of total number of girls in school A. Total number of boys in school B are equal to total number of students (boys + girls) in school A.

50. If in school A total number of boys and girls are ?X? and ?Y? respectively, then the difference between total boys in both schools and total girls in both schools will be represented as (Total boys in both schools together are more than that of total girls):

- (a) $2X ? 2Y - 30$
- (b) $3X ? 2Y + 30$
- (c) $2X ? Y ? 30$
- (d) $3X ? 3Y + 30$
- (e) None of these

51. If total students in school B is 180 less than twice of total students in school A, then find the difference between total students in school A and total girls in school B?

- (a) 240

- (b) 280
 - (c) 420
 - (d) 210
 - (e) None of these
-

52. If the number of girls in school B is 450, then find the number of boys in school B (total number of students in school B is 180 less than twice the number of students in school A)

- (a) 630
 - (b) 420
 - (c) 570
 - (d) 600
 - (e) 480
-

53. X_n is the n th term of the given series and Y_n is the $(n + 1)$ th term of the given series. Choose the correct statement from the following statements (i), (ii) & (iii). 701, 349, 173, 85, 41, 19, 8, 2.5 (i) $X = 2Y + 3$ (ii) $Y = 3X + 2$ (iii) Difference between 1st and 2nd term is twice of the difference between 2nd and 3rd term and so on.

- (a) Only (i) and (iii)
 - (b) Only (i) and (ii)
 - (c) Only (ii) and (iii)
 - (d) Only (i)
 - (e) All (i), (ii) & (iii)
-

54. In the following questions, a series is given in which one term is wrong with which another series started. You have to find the wrong term in the given series then starting from that, find IVth term of new series so formed. 1, 3, 6, 21, 88, 445, 2676

- (a) 39
 - (b) 37
 - (c) 25
 - (d) 33
 - (e) 35
-

Series I: 8, 9, 15, 25, 42, 68, 105 Series II: 60, 180, 450, 900, 1350, 1380, 675

55. Wrong term of series I is the nearest square of which of the given term?

- (a) 5
 - (b) 4
 - (c) 8
 - (d) 7
-

56. If wrong term in series II is N , then which statement is true about $(N + 30)$? (i) It's a prime number. (ii) Sum of the digits is less than 9. (iii) It's a nearest multiple of 5 and its remainder is 4.

- (a) Only (ii) and (iii) follow
 - (b) Only (i) and (ii) follow
 - (c) Only (i) follow
 - (d) Non follow
 - (e) All (i), (ii) and (iii) follow
-

Table given below shows percentage of total literate population of five (A, B, C, D & E) villages, literate male, illiterate male and total female (literate + illiterate). Read the data carefully and answer the questions. Note ? ?NA? means some vales are missing which you have to calculate if required.

57. Find total population of village E?

- (a) 4200
 - (b) 3600
 - (c) 4000
 - (d) 3000
 - (e) 4800
-

58. Find difference between total male and total female population of village A?

- (a) 600
 - (b) 300
 - (c) 500
 - (d) 400
 - (e) 200
-

59. Find the ratio between total male population to total female population in village B?

- (a) 3 : 2
 - (b) 3 : 1
 - (c) 2 : 1
 - (d) 5 : 3
 - (e) 4 : 1
-

60. If the number of female graduates in village C is equal to the number of illiterate males in village C and the difference between the number of graduate female and under graduate female in village C is 120, then find the total population of village C (Note ? There is only graduate and under graduate population in village C)?

- (a) 4000
 - (b) 2000
 - (c) 1250
 - (d) 3000
 - (e) 2500
-

61. If difference between male and female population of village D is 1152, then find total number of illiterate females in village D?

- (a) 60
 - (b) 40
 - (c) 90
 - (d) 120
 - (e) 80
-

62. A bag kept some green balls, some blue balls and seven red balls. Probability of picking one green ball is 7 more than that of picking one red ball from the bag and probability of picking one blue ball is 35 more than that of picking one red ball from the bag. Find total number of blue balls in the bag?

- (a) 12
 - (b) 14
 - (c) 18
 - (d) 20
 - (e) 16
-

63. Aman born three years after marriage of his parents and Aman's mother is three years younger than his father. At present Aman is 20 years younger than his mother and after three years ratio of the age of Aman's father to his mother's will be 11 : 10. Find how many years before his parents got married?

- (a) 10 years
 - (b) 7 years
 - (c) 13 years
 - (d) 8 years
 - (e) 6 years
-

64. Shopkeeper marked up a pen at certain percentage above its cost price. If marked price of pen is Rs. Y, then find the value of Y? Statement I ? Y is marked up 80% above cost price. Statement II ? Cost price of the pen is Rs. X. If shopkeeper allows a discount of 4% on marked price, then he makes a profit of 8% on it. When shopkeeper sells the pen at marked price, then he makes a profit of Rs. 28. Statement III ? Cost price of the pen is Rs. P. If shopkeeper allows a discount of 22 9 % on marked price, then he makes a profit of Rs. 70.

- (a) Statement (I) alone is sufficient answer the question
- (b) Statement (II) alone is sufficient to answer the question
- (c) All the three statements taken together are necessary to answer the question

- (d) Either statement (II) alone or statement (I) and (III) together sufficient to answer the question.
(e) Statement (III) alone is sufficient to answer the question
-

A man is going shop from his home with the speed of _____ kmph and time taken to reach the shop by him is _____ hours. After reaching there he purchases a cylindrical jar of certain height having capacity equal to 83259 cm³. The man also purchases a conical vessel whose capacity is $\frac{1}{4}$ th of cylindrical jar and height of conical vessel is 14 cm. Note: Height of conical vessel is four times of the height of cylindrical jar.

65. Find the ratio of the radius of cylindrical jar to the radius of conical vessel?

- (a) 3 : 1
(b) 4 : 1
(c) 5 : 1
(d) 6 : 1
(e) 5 : 2
-

The distance (in km) between the home and shop in numerical value is equal to seven more $\frac{1}{3}$ of square root of than $\frac{1}{11}$ of the capacity of the cylindrical jar and the speed of the man is four times of the time taken by him to reach the shop.

66. Speed of man _____ kmph.

- (a) 12
(b) 15
(c) 10
(d) 8
(e) 18
-

67. Time taken to reach the shop by man is _____ hours.

- (a) 3.5
(b) 2
(c) 3
(d) 2.5
(e) 4
-

Match the column I and II based on the given questions. Column I Column II (i) X = Cone Volume of cone = 1232 m³ (A) Radius = 14 m (ii) Y = Cylinder Volume of cylinder = 1848 m³ (B) Radius = 7 m (iii) S = Square, which inscribe (C) Circumference of in circle circle = 44 m

68. If the difference of the height of Y and side of S is greater than 20 m.

- (a) (i) Only A, either B or C (ii) Only A (iii) Only A
(b) (i) Only C (ii) Only B (iii) Only A
(c) (i) Only B (ii) Only A (iii) Only A
(d) (i) Only C (ii) Only B (iii) Only B
(e) None of these
-

69. If height of X is greater than height of Y.

- (a) (i) Only A, either B or C (ii) Only A (iii) Only A
(b) (i) Either B or C (ii) Only A (iii) Only A, either B or C
(c) (i) Only B (ii) Only A (iii) Only A
(d) (i) Only C (ii) Only B (iii) Only B
(e) None of these
-

Read the passage carefully and answer the questions given below it. The last few months have been great for the economy. New cases have fallen, and economic activity is racing back to pre-pandemic levels. After a c.24% contraction in the quarter ending June 2020, we expect GDP to grow by a positive 1.8% in the quarter ending December 2020. This is quite a sharp turnaround in a short period. A careful look suggests that a key driver of the rebound has been pent-up goods demand. As the lockdown ended, the production of consumer non-durables shot up, followed _____ (I) _____. A large mountain of household financial savings funded this rebound. Total chocolate cookies produced M +10% M% 40% 20% A B C D Alas, we also find that goods demand is back at pre-pandemic levels and may not be the key driver of a continued rebound. Thankfully, pent-up services demand can play that role. Still 25% below normal, services can get a shot in the arm as herd immunity rises, in part led by vaccine roll-out. GDP growth is likely to be strong for the next few quarters, rising from -6.3% y-o-y in FY21 to 11.2% y-o-y in FY22. But then, what next? By definition, pent-up demand is a one-time driver of growth. Once services demand is back at pre-pandemic levels, say by end 2021, what will drive growth? It is possible that the scars the pandemic leaves behind will begin to show up around that same time, presenting a double whammy for growth. And this is where the centre stepped in with the budget. It tried to introduce a new narrative for medium-term growth, namely capital expenditure. In particular, it introduced the following: The capex budget was raised by 0.8% of GDP over two years (FY21 and FY22). In fact, only after adjusting for the higher capex multipliers is the FY22 fiscal impulse positive. The government did not impose any new taxes/cesses, nor did it make changes in capital gains tax. Our previous work has shown that policy stability tends to crowd-in private sector capex. The government outline plans to create two new institutions, a bad bank and a DFI, although much will depend on the design and implementation over time. On Feb 5, RBI outlined its role in this new narrative?not being the main driver of growth as it was in 2020, but playing a supportive role and helping it through its larger- than-expected market borrowing. RBI will have to tread the fine line between normalising liquidity (especially with inflation likely to be north of the 4% target over the next year) and maintaining orderly conditions in the bond and FX markets. Liquidity switching could help. For instance, it could use the space freed up by the reversal in CRR cut for bond purchases. Or, in the face of a rising trade deficit and falling BoP surplus, it could focus more on bond purchases than dollar purchases. RBI is expected to start raising the reverse repo rate in 2H2021, the repo rate may remain unchanged at 4% over the

81. According to the passage, what can be said about the economy after the pandemic?

- (a) New cases have risen, and economic activity is highly influenced by it.
- (b) Still 85% below normal, services can get a shot in the arm as herd immunity rises, in part led by vaccine roll-out.
- (c) Economic activity is racing back to pre-pandemic levels.
- (d) Both

82. The line emboldened in the given passage may or may not have an error. If there is an error, find the part that contains the error or choose 'no error' as your answer. The government outline plans (A) / to create two new institutions, a bad bank and a DFI (B) / although much will depend on the design (C) /and implementation over time.

- (D) (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

83. Choose the option that can complete the given sentence (I).

- (a) soon by consumer durables
- (b) later on customer's desires
- (c) on consumer durables
- (d) soon by customer's desires.
- (e) None of the above

84. Which of the following sentences is incorrect according to the passage?

- (a) The capex budget was raised by 0.8% of GDP over two years.
- (b) and
- (c) After a c.24% contraction in the quarter ending June 2020, we expect GDP to grow by a positive 1.8% in the quarter ending October 2020.
- (d) Both
- (e) None of the Above

Read the passage carefully and answer the questions given below it. Maharashtra is facing a water crisis of unprecedented proportions. After years of drought, the river currents have ebbed, water in dams and reservoirs have depleted and over-exploitation of groundwater has raised concerns regarding the long-term availability of water. Meanwhile, media reports claim IT firms in Chennai are asking employees to work from home. The reason is that they don't have enough water to sustain their operations. It hasn't rained for almost 200 days in the city and it may not get adequate rain to get over the water crisis for the next 3 months. In North India, the people of arid Thar Desert of Rajasthan are spending Rs. 2500 for getting 2500 litres of water which they share with their cattle. With Punjab facing the threat of desertification and the state struggling to break away from the wheat-paddy cycle, farmers in the state have been adopting a decade-old scheme to utilise underground pipeline system for irrigation. In light of this crisis, Central government on its part has created a Jal Shakti Ministry under a full-fledged cabinet minister to resolve the water crisis but a lot more needs to be done. There is a huge dependence on monsoon rains to replenish most of India's important water sources such as underground aquifers, lakes, rivers, and reservoirs. But monsoon is vulnerable to factors such as climate change, El-Nino, etc. Certain regions have surplus amounts of water for their need while others face perennial droughts for most of the year. For instance, Drought is a recurrent phenomenon in Andhra Pradesh where no district is entirely free of droughts. Rajasthan is one of the most drought-prone areas of India. Population growth, industrialization, rapid urbanisation, rising needs of irrigation and increase in domestic water usage have accelerated the demand for water. Since urbanization increases in India at a rapid pace = water demand will increase rapidly as city dwellers consume more water than rural people. Currently, about 285 million or 33% of India's total population resides in urban areas. By 2050 this figure will reach 50%. Rapid urbanisation is adding to the water scarcity issue in the country. Presence of buildings, tar, and cement roads = even if a city like Mumbai gets good rains, the rainwater is not retained in the area as the water is not allowed to percolate underground. Therefore, water required for cities is largely drawn from neighbouring villages and far-off rivers and lakes = threatening the availability in those areas. Large cities also generate large quantities of urban sewage which pollutes the freshwater sources and ocean waters. However, only about 20% of urban wastewater is currently treated globally. In India, the figure is even lower. A Niti Aayog report predicted that water demand will be twice the present supply by 2030 and India could lose up to 6% of its GDP during that time. Water shortages are hurting India's capacity to generate electricity because 40% of thermal power plants are located in areas where water scarcity is high. Indian agriculture is heavily dependent on monsoon (not dependable) + Ineffective agricultural practices in irrigated areas = Water stress in agriculture = Poor Cultivation = Farmer suicides. Not only farmers are affected by the water crisis, urban dwellers in cities and towns across India are also facing a never seen before drinking water scarcity. In India, there are conflicts between Karnataka and Tamil Nadu over sharing of Cauvery waters, between Gujarat and Madhya Pradesh over sharing of Narmada waters, between Andhra Pradesh and Telangana over sharing of Krishna waters, etc.

85. According to the passage, which of the following sentences indicate the impact of water crisis?
- (a) It is affecting the electricity generation capacity of India as the thermal power plants need water to generate electricity.
 - (b) About 20% of urban wastewater is currently treated globally which shows a lower figure,
 - (c) Rising needs of irrigation and increase in domestic water usage have accelerated water crisis in India.
 - (d) It has affected the coal mines in India and production of coal has reduced drastically.
 - (e) None of the above
-
86. Choose the word which is most opposite to the term 'vulnerable' highlighted in the passage?
- (a) Susceptible
 - (b) Accessible
 - (c) Protected
 - (d) Both
-
87. Choose the word which is most similar to the term 'dwellers' highlighted in the passage?
- (a) Emigrants
 - (b) Tenants
 - (c) Exiles
 - (d) Refugees
 - (e) Evacuees
-

Read the passage carefully and answer the questions given below it. China's rising power is based on its remarkable economic success. Shanghai's overall economy is currently growing at around 13% per year, thus doubling in size every five or six years. Everywhere there are start-ups, innovations, and young entrepreneurs hungry for profits. In a series of high-level meetings between Chinese and African officials, the advice that the African leaders received from the Chinese was sound, and more practical than they typically get from the World Bank. Chinese officials stress the crucial role of public investments, especially in agriculture and infrastructure, to lay the basis for private sector-led growth. In a hungry and poor rural economy, as China was in the 1970s and as most of Africa is today, a key starting point is to raise farm productivity. Farmers need the benefits of fertilizer, irrigation and high-yield seeds, all of which were a core part of China's economical take off. Two other equally critical investments are also needed: roads and electricity, without which there cannot be a modern economy. Farmers might be able to increase their output, but it won't be able to reach the cities, and the cities won't be able to provide the countryside with inputs. The government has taken pains to ensure that the electricity grids and transportation networks reach every village in China. China is prepared to help Africa in substantial ways in agriculture, roads, power, health and education. And that is not an empty boast. Chinese leaders are prepared to share new high yield rice varieties, with their African counterparts and, all over Africa, China is financing and constructing basic infrastructure. This illustrates what is wrong with the World Bank. The World Bank has often forgotten the most basic lessons of development, preferring to lecture the poor and force them to privatise basic infrastructure, which is untenable, rather than to help the poor to invest in infrastructure and other crucial sectors. The Bank's failure began in the early 1980s when under the ideological sway of them American President and British Prime Minister it tried to get Africa and other poor regions to cut back or close down government investments and services. For 25 years, the bank tries to get governments out of agriculture, leaving impoverished peasants to fend for themselves. The result has been a disaster in Africa, with farm productivity stagnant for decades. The bank also pushed for privatization of national health systems, water utilities, and road and power networks, and has grossly underfinanced these critical sectors. This extreme free-market ideology, also called 'structural adjustment', went against the practical lessons of development successes in China and the rest of Asia. Practical development strategy recognizes that public investments - in agriculture, health, education, and infrastructure- are necessary complements to private investments. The World Bank has instead wrongly seen such vital public investments as an enemy of private sector development. Whenever the bank's ideology failed, it has blamed the poor for corruption, mismanagement, or lack of initiative. Instead of focusing its attention on helping the poorest countries to improve their infrastructure, there has been a crusade against corruption. The good news is that African governments are getting the message on how to spur economic growth and are getting crucial help from China and other partners that are less wedded to extreme free-market ideology than the world Bank. They have declared their intention to invest in infrastructure, agriculture modernization, public health, and education. It is clear the Bank can regain its relevance only if it becomes practical once again, by returning its focus to financing public investments in priority sectors. If that happens, the Bank can still do justice to the bold vision of a world of shared prosperity that prompted its creation after World War II.

88. Which of the following statements can be inferred from the passage?
- Criticize the World Bank for playing a crucial role in China's development but neglecting Australia.
 - Make a case for the closure of the World Bank since it promotes US interests over those of other countries.
 - Illustrate how China can play a more concrete role in Africa.
 - Use China's success as an example of the changes required in World ideology.
 - None of the above

89. What is the advice given by the author to the World Bank?
- Reduce the influence of the Africa and Britain in its functioning.
 - Adopt a more practical ideology of structural adjustment.
 - Change its ideology to one encouraging both public and private sector investment in basic infrastructure.
 - Support China's involvement in developing Africa.
 - None of the above

90. Choose the word which is most similar in meaning to 'untenable'.
- indefensible
 - plausible
 - legitimate
 - pardonable
 - arguable

91. Choose the word which is most opposite in meaning to 'crusade'.
- Scrimmage

- (b) Strife
- (c) Ravage
- (d) Expedition
- (e) Stoppage

Read the passage and choose the correct word/set of words to fill the blanks. Hope and fear are marching in lockstep. The arrival of the vaccines represents the _____ (92) _____ (gloom, murk, dawn) of hope. Yet, fears about mutations of the virus and how politics, which defines public policy, will mutate loom large across India's political economy. Political rhetoric propels public expectations and the declaration by Finance Minister Nirmala Sitharaman recently of 'a budget which is a budget like never before' will be tested against a billion aspirations. The challenge of _____ (93) _____ (revival, amelioration, droop) and recovery is located in a parade of riveting contrasts. India, it is useful to remember, migrated from slowdown to lockdown. The contrast between the message beamed by stock indices and indices of the real economy are striking to say the least. In the period post the high of 2016-17, growth has _____ (94) _____ (limped, slid, stumped) consistently and stock valuations have risen just as consistently. GDP growth slid from 8-plus per cent to hover at around 4 per cent to a contraction in the wake of the pandemic, while the benchmark Sensex has shot up from around 29,000 points to over 47,000 points. How has the fall in growth impacted government _____ (95) _____ (expenditure, asset, revenues)? In theory, drop in output would result in drop in revenues. That though is not necessarily true in the Indian context. This week, the government informed India that the Goods and Services Tax collections 'for December 2020 recorded all time high since implementation of GST'. Even as the economy is in what is called a technical recession, which translates into two quarters of negative growth, GST collections which averaged at around Rs 90,000 crore since August 2017, touched the new high of Rs 1.15,174 crore for the month of December. GST revenues grew even as the economy _____ (96) _____ (shrank, dwindled, aggrandized) 7.5 per cent in the July- Sept 2020 period. It is not just the Dalal Street vs Main Street picture or the GDP vs GST revenues imagery which are curious. Conventional economics _____ (97) _____ (postulates, ionates, charges) a correlation between inflation and interest rates. Consumer Price Inflation, which was under 3 per cent in 2017, has seen a secular rise now touching 7.5 per cent. The RBI's policy rates though have slid from over 6.5 per cent to 5.15 per cent in 2019 to 4 per cent in 2020. This column has previously highlighted the _____ (98) _____ (phenomenon, movement, criteria) affecting savers. Interest rates Select the word that fits blank (92). savings account halved to 3 per cent ? a 365-day deposit now fetches what the savings account used to.

- (b) gloom, murk
- (c) dawn
- (d) gloom, murk, dawn
- (e) murk

93. Select the word that fits blank (93).

- (a) revival
- (b) amelioration
- (c) droop
- (d) revival, amelioration
- (e) droop, amelioration

94. Select the word that fits blank (94).

- (a) limped
- (b) slid, limped
- (c) stumped
- (d) slid
- (e) slid, stumped

95. Select the word that fits blank (95).

- (a) expenditure, asset
- (b) expenditure
- (c) expenditure, revenues
- (d) asset
- (e) revenues

96. Select the word that fits blank (96).

- (a) aggrandized
 - (b) shrank, aggrandized
 - (c) shrank , dwindled
 - (d) dwindled, aggrandized
 - (e) shrank , dwindled, aggrandized
-

97. Select the word that fits blank (97).

- (a) ionates, charges
 - (b) postulates, ionates
 - (c) postulates
 - (d) ionates
 - (e) charges
-

98. Select the word that fits blank (98).

- (a) movement, criteria
 - (b) movement
 - (c) phenomenon
 - (d) phenomenon, movement
 - (e) phenomenon, movement, criteria
-

Select the phrase/connector from the given three options which can be used to form a single sentence from the two sentences given below, implying the same meaning as expressed in the statement.

99. (1) Mukesh Ambani's Reliance is keen to sign a binding agreement. (2) The agreement would be signed before next annual shareholders meeting, which is due to take place before the end of April. (A) However, the next annual _____ (B) Before the next annual _____ (C) Mukesh Ambani's Reliance is

- (a) Only (A)
 - (b) Only (B)
 - (c) Only (C)
 - (d) Both (A) and (B)
 - (e) Both (B) and (C)
-

100. (1) The bank plans to set aside Rs100 crore to Rs200 crore for the merger. (2) It wants to run this merger scheme on a pilot basis at least eight months. (A) In spite of the pilot basis _____ (B) Despite the bank plans _____ (C) Though the bank plans to _____

- (a) Only (A)
 - (b) Only (B)
 - (c) Only (C)
 - (d) Both (A) and (B)
 - (e) Both (B) and (C)
-

101. (1) Social issues are distinguished from economic issues. (2) Some issues have both social and economic aspects. (A) Even though social issues are distinguished _____ (B) Lest some issues _____ (C) Moreover some issues _____

- (a) Only (A)
 - (b) Only (B)
 - (c) Only (C)
 - (d) Both (A) and (B)
 - (e) Both (B) and (C)
-

102. (1) Within the sensex pack, 22 stocks gained ground (2) Reliance Industries, HDFC Bank ,ICICI Bank contributed the maximum to the day's gains. (A) Since, Reliance Industries _____ (B) Within the sensex pack _____ (D) Contradicting the sensex pack _____

- (a) Only (A)
- (b) Only (B)
- (c) Only (C)
- (d) Both (A) and (B)

(e) Both (B) and (C)

103. (1) SEBI has amended the Depository and Participants Regulations. (2) It includes an additional explanation that states that 'pledge' would also refer to 're-pledge' of securities for margin or settlement obligations. (A) SEBI wants to amend the _____ (B) By including an additional _____ (C) In spite of amending

(a) Only (A)

(b) Only (B)

(c) Only (C)

(d) Both (A) and (B)

(e) Both (B) and (C)

The following sentences form a paragraph. The second and fifth sentences of the paragraph are given. The rest are numbered as P, Q, R, S and T. These are not given in the proper order. Read the sentences and choose the alternative that arranges them in correct order.

104. P. Above 500 falls in the 'severe-plus emergency' category.

(no options)

105. P. According to its developers, the key is labeling the nodes and identifying small lesions or growths that could be problematic.

(no options)

In the following questions, four words are highlighted in bold and numbered as (A), (B), (C) and (D). Some words have been swapped from their places and interchanged with other words which are highlighted and labelled. Choose the option which displays correct swapping of words making the sentence grammatically correct and contextually meaningful. If all words are in their places, choose option

106. Amid the solace (A) of COVID-19-induced (B) lockdown, the considerable improvement in the city's air quality gave some challenges (C) for Delhiites fighting a contagion (D) from the confines of their homes.

(a) A-D

(b) B-D

(c) C-A

(d) Both A-B and C-D

(e) No replacement required

107. The Minister said the Railways was also route (A) 'metro-like' trains on the corridor (B) between Palwal and Sonapat for commuters (C) travelling daily on the mulling (D) for jobs and business.

(a) Both A-C and B-D

(b) Only B-C

(c) Only A-D

(d) Both A-D and B-C

(e) No replacement required

108. The salient seal (A) of these masks are that (B) they provide a complete features (C) around the nose and mouth with a gasket (D) fitting that provides no leakage.

(a) A-E

(b) B-D

(c) C-A

(d) Both A-B and C-E

(e) No replacement required

109. The fillip (A) of an elderly Nagaland couple with stigma (B) has given a recovery (C) to the State government's fight against the comorbidities (D) surrounding the novel coronavirus infection.

(a) Both A-C and B-D

(b) Only B-C

(c) Only A-D

(d) Both A-D and B-C

(e) No replacement required

In each of the following sentences there are two blank spaces. Below each five pairs of words have been denoted by numbers (A), (B), (C), (D) and (E). Find out which pair of words can be filled up in the blanks in the sentences in the same sequence to make the sentence meaningfully complete.

110. A number of scientists in the country think that they are on the _____ of a major _____.

- (a) gateway, breakthrough
- (b) centre, achievement
- (c) periphery, success
- (d) threshold, overhaul
- (e) frontier, experimentation

111. You must _____ your house in order before you _____ to offer advice to others.

- (a) arrange, proceed
- (b) set, venture
- (c) organize, preach
- (d) adjust, think
- (e) maintain, dare

112. Further, to augment bond market liquidity, corporates need to be encouraged to _____ exiting bonds under the same International Securities Identification Number, to duly shore up floating _____.

- (a) frame, image
- (b) recirculates, steaks
- (c) expunge, companies
- (d) redistribute, stakes
- (e) reissue, stocks

113. The internal and concurrent audit system of banks is intended to red _____ risks in real time, but has failed and must be _____ up.

- (a) hood, kept
- (b) flag, shored
- (c) salute, prodded
- (d) dame, given
- (e) dress, developed

In the following questions a part of the sentence is given in bold, it is then followed by four sentences which try to explain the meaning of the idiom/phrase given in bold. Choose the alternative from the four given below each question which explains the meaning of the phrase correctly without altering the meaning of the sentence given as question. If none of the sentences explain the meaning of the highlighted phrase, choose option (E) i.e.: ??none of these?? as your answer choice.

114. We need to go back to the drawing board on this project as it had some fundamental flaws from the start.

- (a) We need to carry out a follow-up on this project as it had some fundamental flaws from the start.
- (b) We need to consult the experts on this project as it had some fundamental flaws from the start.
- (c) We need to revise the project from the beginning as it had some fundamental flaws from the start.
- (d) We need to endure the strategy on this project as it had some fundamental flaws from the start.
- (e) None of these

115. What the president had achieved during his presidency was a far cry from what he had promised during his run for election.

- (a) What the president had achieved during his presidency was a much crucial system of what he had promised during his run for election.
- (b) What the president had achieved during his presidency was much allied with what he had promised during his run for election.
- (c) What the president had achieved during his presidency was a pre-requisite for what he had promised during his run for election.
- (d) What the president had achieved during his presidency was very different from what he had promised during his run for election.
- (e) None of these
