

Read the passage and answer the questions given below. Consumption is an important element of human civilization. The success of modern economies is dependent on, and measured a great deal by, the level and nature of consumption. From the hunter- gatherers whose consumption was survival-centric to the millennials for whom consumption is about fulfilling aspirations, the nature of consumerism has seen tremendous shifts. Modern-day consumerism is not only about wanting more but also wanting it fast. We are in an age of ?hyper lapse consumerism?. The ubiquitous growth of the Internet and the rise of e-commerce have fueled hyper lapse consumerism, which refers not only to the kinds of products being sold but also to the ease with which consumers order them and the speed at which such products are delivered. According to a study by Invesp, 56% of online consumers between the age of 18 and 34 years expect the goods they have ordered to be delivered on the same day, whereas 61% want their packages even faster ? within 1-3 hours of placing an order. After e-commerce companies made delivery their core competence by putting boots on the ground and even drones in the sky, the competition to deliver faster and better is shaping consumer behavior and industry patterns. Recently in India we saw food and grocery delivery companies announcing 10-minute deliveries for consumers in select cities. This is being done by strengthening the hyper-local logistical network, leveraging predictive algorithms, process optimization and, in some cases, providing incentives and disincentives for delivery partners. When the 10-minute delivery plan was announced, policymakers and experts raised concerns that delivery professionals might resort to reckless driving and put themselves and others at risk in their rush to stick to timelines. Indiscriminate work pressure can lead to fatigue, mental health issues and other health issues among delivery professionals. In an industry which offers little to no social security for gig workers, this could have serious consequences. A NITI Aayog report, ?India?s Booming Gig and Platform Economy?, suggests extending social security for gig and platform workers, including paid sick leave, health access and insurance, and occupational disease and work accident insurance. Hyperlapse consumerism is not without its benefits. According to NITI Aayog, in 2020-21, about 7.7 million workers were engaged in the gig economy, accounting for 1.5% of the total workforce in India. This is expected to grow to 23.5 million workers by 2029-30. Going ahead, there are two paths. Either we continue with hyper lapse consumerism or shift back to a more laid-back delivery model. In the rush to come up with better value propositions for the customer, businesses often tend to ignore the social, ethical, environmental and personal costs of business decisions. These decisions get influenced by, and further influence, consumer needs and behaviour.

1. How is Consumerism evolved in human civilization?

While advertising serves a positive purpose by educating consumers, much _____ has been focused on the question of whether advertising is manipulative.

- (a) It shifted its gear to a more elementary approach by instituting ?less is more? concept in economic activity
- (b) Abiding the concept of pluralism, consumerism showcased a multifaceted dynamism in society
- (c) Consumption evolved decisively from facilitating universal growth to an approach of targeting only a restricted population of urban rich people
- (d) Renouncing the primitive approach of providing the basic necessities, consumerism grew as a means to fulfil the satisfaction or desire of the millennials
- (e) None of these

2. How are the delivery companies approaching with their ?10-minute delivery? service?

- (a) By reinforcing their local logistical network
- (b) By using the predictive algorithm
- (c) By encouraging the delivery partners through incentives
- (d) Only

3. Why are the policymakers skeptical about the newly introduced ?10-minute delivery? services by the food and grocery delivering companies?

- (a) The short delivery timeline may put added pressure on already overworked delivery persons, potentially prompting them to engage in rash driving.
- (b) It could put undue pressure on delivery person, who have no benefits or security
- (c) Due to the extensive work pressure, delivery person could subject to fatigue, mental or other health issues
- (d) Only

4. Which of the following is FALSE about hyper-lapse consumerism?

- (a) It refers not solely to the sorts of merchandise being offered but additionally to the convenience and pace with which customers get them.

- (b) In an attempt to conquest the race of provision of services, companies some times compromise with moral, social, ethical cost
 - (c) Companies had gone to the extent of employing drones to strengthen their delivery services.
 - (d) Hyper-lapse consumerism is gradually in its way to deteriorate the economy by promoting the concept of providing more to the rich.
 - (e) None of these
-

5. Which of the following options is/are TRUE with respect to the data given in the passage?

- (a) 56% of on-line customers between the age of 18 and 34 years anticipate the products they've ordered to be delivered on the identical day.
 - (b) Hyper-consumerism is making significant impact on economy by contributing 7.7 million workforces currently to the projected number of 23.5 million in 2029-30.
 - (c) It has been advised to provide gig workers with social security, sick leaves, health insurance, and other benefits.
 - (d) Only
-

6. Which of the following can fit into the blank given in the passage?

- (a) awareness
 - (b) attention
 - (c) belief
 - (d) intention
 - (e) enticement
-

7. Which of the following words is the synonym of 'indiscriminate' highlighted in the passage?

- (a) capricious
 - (b) lethargic
 - (c) chide
 - (d) befuddle
 - (e) terse
-

8. Which of the following words is the antonym of 'ubiquitous' highlighted in the passage?

- (a) unprecedented
 - (b) peripatetic
 - (c) scarce
 - (d) clamber
 - (e) impending
-

In each of the questions given below four words are given in bold. These four words may or may not be in their correct position. The sentence is then followed by options with the correct combination of words that should interchange with each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that replace each other. If the sentence is correct as it is then select 'No interchange required' as your choice.

9. No subjected (A) of society would ever draconian (B) itself to be section (C) to a law that is allow (D) .

- (a) Only (A) -(D)
 - (b) Only (B) -(D)
 - (c) Both (A) -(B) and (C) -(D)
 - (d) Both (A) -(C) and (B) -(D)
 - (e) No interchange needed
-

10. The judgment delivered (A) formally fundamental (B) the right to privacy (C) as being a recognized (D) right.

- (a) Only (A) -(D)
 - (b) Only (B) -(D)
 - (c) Both (A) -(B) and (C) -(D)
 - (d) Both (A) -(C) and (B) -(D)
 - (e) No interchange needed
-

11. From the data security individual (A) of a/an perspective (B) , the threats posed by underestimated (C) cannot be malware (D) .

- (a) Only (A) -(D)
 - (b) Only (B) -(D)
 - (c) Both (A) -(B) and (C) -(D)
 - (d) Both (A) -(C) and (B) -(D)
 - (e) No interchange needed
-

12. To allot the task of violation (A) excreta and cleaning (B) sewers to humans when machines (C) are able to do the work is a gross removing (D) of rights.

- (a) Only (A) -(D)
 - (b) Only (B) -(D)
 - (c) Both (A) -(B) and (C) -(D)
 - (d) Both (A) -(C) and (B) -(D)
 - (e) No interchange needed
-

13. Manipur is divided (A) and psychologically geographically (B) between the Imphal hills (C) and the many valley (D) around it.

- (a) Only (A) -(D)
 - (b) Only (B) -(D)
 - (c) Both (A) -(B) and (C) -(D)
 - (d) Both (A) -(C) and (B) -(D)
 - (e) No interchange needed
-

Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The number of that part is the answer. If there is no error the answer is ?No Error?. (Ignore errors of punctuation, if any.)

14. Jamaica is looking (A) / forward to enrich (B) / investment ties (C) / with India (D) / No Error (E)

- (a) D
 - (b) A
 - (c) B
 - (d) C
 - (e) No Error
-

15. The world was relying (A) / on India for shipments of (B) /wheat due to a shortage (C) / sparks by the Ukraine war (D) /No Error (E)

- (a) D
 - (b) A
 - (c) B
 - (d) C
 - (e) No Error
-

16. The upcoming web series (A) / on the OTT platform (B) / has triggered many a debates (C) / throughout the country (D) / No Error (E)

- (a) D
 - (b) A
 - (c) B
 - (d) C
 - (e) No Error
-

17. India was among the 12 countries which (A) / abstained to voting on a UN Human (B) / Rights Council resolution seeking to address (C) / the deteriorating situation in Ukraine (D) / No Error (E)

- (a) D
 - (b) A
 - (c) B
 - (d) C
 - (e) No Error
-

18. More than 33 lakh cheque (A) / bounce cases are pending (B) / in difference courts and (C) / blocking judicial docket (D) / No Error (E)
- (a) D
 - (b) A
 - (c) B
 - (d) C
 - (e) No Error
-

19. The Indian government proposed a new (A) /Emigration Bill which aims to (B) / integrate emigration management and streamlines (C) / the welfare of emigrant workers (D) / No Error (E)
- (a) B
 - (b) D
 - (c) No Error
 - (d) C
 - (e) A
-

In the following questions six sentences are given. You have to rearrange these sentences to make a contextually meaningful paragraph. It is given that the sentence (D) will be the fourth sentence in the arrangement. After rearrangement, answer the following questions. (A) The carrier is set to be commissioned in September in the presence of Prime Minister Narendra Modi. (B) Moreover, it has been expected that the carrier will be fully operational by 2023-end. (C) From November, the naval army will commence landing trials which it hope to complete by the middle of next year. (D) When the complete crew is there, all systems are in place, only then aircraft landing trials will happen. (E) The commissioning of the country?s first indigenously built aircraft carrier Vikrant will enhance peace and security in the Indian Ocean. (F) It will put in all effort so that the aircraft carrier is operational 20th March of the following would be the SECOND sentence after rearrangement?

- (a) A
 - (b) F
 - (c) C
 - (d) D
 - (e) B
-
21. Which of the following would be the LAST sentence after rearrangement?
- (a) A
 - (b) F
 - (c) C
 - (d) E
 - (e) B
-
22. Which of the following would be the FIFTH sentence after rearrangement?
- (a) A
 - (b) F
 - (c) C
 - (d) E
 - (e) B
-
23. Which of the following would be the FIRST sentence after rearrangement?
- (a) A
 - (b) F
 - (c) C
 - (d) E
 - (e) B
-
24. Which of the following would be the THIRD sentence after rearrangement?
- (a) A
 - (b) F
 - (c) C
 - (d) E

(e) B

In each question, a sentence is divided into four parts, which may or may not be correctly placed. Choose the correct order of the phrases from the given options that can make a meaningful sentence.

25. on two think tanks and a charity organisation (A) / related to financial transactions (B) / on suspicion of irregularities (C) / the Income Tax Department conducted surveys (D)

- (a) CDBA
 - (b) DACB
 - (c) BCDA
 - (d) BDCA
 - (e) No rearrangement required
-

26. the interchange of (A) / research and statistics between scientists (B) / working on similar studies (C) / can lead to new discoveries (D)

- (a) CDBA
 - (b) DACB
 - (c) BCDA
 - (d) DBCA
 - (e) No rearrangement required
-

27. when you sit, you use less (A) / researchers have found that (B) / when you stand or move (C) / energy than you do (D)

- (a) DBAC
 - (b) BCAD
 - (c) BADC
 - (d) ADCB
 - (e) No rearrangement required
-

28. difficult to manage their emotions (A) / life event they may find it more (B) / when someone experiences a stressful (C) / and can become overwhelmed (D) .

- (a) CBAD
 - (b) BCAD
 - (c) CDAB
 - (d) ADCB
 - (e) No rearrangement required
-

29. The U.S. Equal Employment Opportunity Commission enforces (A) / during a variety of work situations (B) / a job applicant or an employee (C) / federal laws prohibiting discrimination against (D)

- (a) DBAC
 - (b) BCAD
 - (c) CDAB
 - (d) ADCB
 - (e) No rearrangement required
-

30. Enzymes split up the proteins (A) / the food and the digestive (B) / gastric juice breaks down (C) / the hydrochloric acid in the (D)

- (a) DBAC
 - (b) BCAD
 - (c) DCBA
 - (d) ADCB
 - (e) No rearrangement required
-

Read the data carefully and answer the questions. There are total ?X? number of students in a class of three different (A, B & C) sections. 40% of total students are in section A and the ratio of total students in section A to C is 10: 9. The ratio of boys to girls in section B is 7: 5 and 60% of total students in section A are boys. There are 40 girls in section C and total 170 girls in the class.

38. Find difference between total boys and girls in the class?

- (a) 160
 - (b) 120
 - (c) 180
 - (d) 260
 - (e) 140
-

39. Total boys in section B are what percent less than total girls in section A?

- (a) 8%
 - (b) 12.5%
 - (c) 12%
 - (d) 10%
 - (e) 17.5%
-

40. Find average number of boys in all three sections?

- (a) 120
 - (b) 90
 - (c) 110
 - (d) 80
 - (e) 130
-

41. Find ratio of total boys in section C to total girls in all three sections?

- (a) 17 : 14
 - (b) 12 : 17
 - (c) 7 : 17
 - (d) 13 : 17
 - (e) 14 : 17
-

42. Ram and Sohan entered into business investing Rs. 36000 and 72000 respectively. After six months, Sohan left and Aman entered into the business investing Rs. 32000. If at the end of the year, profit share of Aman was Rs. 5680 then find the total profit earned by all of them together.

- (a) Rs. 17640
 - (b) Rs. 31240
 - (c) Rs. 25795
 - (d) Rs. 16975
 - (e) Rs. 40460
-

43. Atul invested 62.5% of his monthly income in scheme A offering 20% C.I. (compounded annually) for 2 years and rest amount in scheme B offering 12.5% per annum simple interest for same period. If the difference between CI and SI is Rs. 2430 after 2 years, then find the monthly income(approx.) of Atul.

- (a) Rs 15067
 - (b) Rs 16550
 - (c) Rs 13407
 - (d) Rs 12000
 - (e) Rs 18750
-

44. Average of 25 numbers is 96. If average of first 11 numbers is 50 while average of last 12 numbers is 80 and 12th and 13th numbers are $(2x+26)$ and $(3x+14)$ respectively. Find the 13th number.

- (a) 624
 - (b) 524
 - (c) 575
 - (d) 325
 - (e) 765
-

45. Aman's friend Mayank gave him Rs. 14000 and Naman gave to Aman 30% less than what Mayank gave to Aman. If Chetan gave 50% more than Naman to Aman, then the amount received by Aman from Chetan is what percent more than that of amount which is received by Aman from Mayank?

- (a) 12.5%

- (b) 2%
 - (c) 3%
 - (d) 5%
 - (e) 7.5%
-

46. The curved surface area of a cylindrical vessel is 10692cm^2 . The respective ratio of the radius and the height of the vessel is 3:7 respectively. If the cylindrical vessel is full of water, then find the time taken to empty the vessel at the rate of 1782cm^3 of water per minute.

- (a) 75minute
 - (b) 67minute
 - (c) 81minute
 - (d) 90minute
 - (e) 80minute
-

47. 8 men and 7 women can complete a piece of work in 15 days. If additional 2 men joined them, then they could finish the $\frac{4}{5}$ th of work in 10 days, find the time taken by 21 women to complete the work.

- (a) 24 days
 - (b) 18 days
 - (c) 32 days
 - (d) 21 days
 - (e) 25 days
-

48. Delhi Express is running with a speed of 144 km/h crosses a pole in 12.5 seconds. If the time taken by Delhi Express to cross Patna Express which is running with a speed of 162 km/h and coming from opposite direction in 12 seconds, then find the length of Patna Express.

- (a) 490 m
 - (b) 520 m
 - (c) 370 m
 - (d) 540 m
 - (e) 300 m
-

49. In a box there are 36 pink balls and rest are orange balls. The probability of picking an orange ball at random is $\frac{1}{5}$. Find the probability of picking a pink ball and an orange ball.

- (a) $\frac{18}{55}$
 - (b) $\frac{3}{7}$
 - (c) $\frac{46}{57}$
 - (d) $\frac{55}{111}$
 - (e) $\frac{9}{13}$
-

50. Anand is running with a speed of $(x+13)$ km/h and covers a certain distance in 10 hours. If his speed had been $(4x-12)$ km/h, then he would have taken 2.5 hours more to cover the same distance. Find the distance he travelled(km)

- (a) 163
 - (b) 200
 - (c) 305
 - (d) 225
 - (e) 195
-

61. A mixture contains Alcohol and Water in the ratio of 13:17 respectively. If 180ml of mixture is taken out, and then 12ml of alcohol and 24ml of water is added into the remaining mixtures such that the ratio of alcohol and water becomes 5:7 respectively. Find the original quantity of the mixture.

- (a) 345ml
 - (b) 480ml
 - (c) 360ml
 - (d) 520ml
 - (e) 640ml
-

In each of the questions below are given some statements followed by some Conclusions. You have to take the given statements to be true even, if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

66. Statements: Some news are article. All articles are headline. Only a few articles are report. Conclusions: I: All headline can never be report. II: Some news are not report.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

67. Statements: No subject is relation. Some relations are air. No air is game. Conclusions: I: Some subject can be air. II: Some relation is not game.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

68. Statements: All rice is fry. All fry are bake. Only bake is chips. Conclusions: I: Some chips can be rice. II: Some chips are rice.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

Study the following information and answer the questions given below: Eight persons Y, U, I, R, E, W, Q and P sit in a linear row but not necessarily in the same order. Four persons face south and the remaining four persons face north direction. Y is the only neighbour of P who faces north. U sits second to the left of Y and sits third to the right of R. Only two persons sit between W and E and none of them sit at any of the extreme ends of the row. Q and U sit immediate right to each other. I and E face north and both are the immediate neighbours of R.

69. Who among the following sits immediate right of W?

- (a) Y
 - (b) U
 - (c) Q
 - (d) R
 - (e) None of these
-

70. How many persons sit between E and P?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None of these
-

71. Four among the following five are alike in a certain way and form a group. Find the one who does not belong to that group?

- (a) Y
 - (b) R
 - (c) I
 - (d) W
 - (e) Q
-

72. What is the position of Q with respect to I?

- (a) Third to the right
 - (b) Second to the left
 - (c) Third to the left
 - (d) Immediate right
 - (e) None of these
-

73. How many persons sit to the left of Y?

- (a) Two
 - (b) Three
 - (c) Four
 - (d) Five
 - (e) None of these
-

86. Which of the following is the third letter of the meaningful word formed from the First, fourth, sixth and eighth letters from the left end of the word ?NUTRITION?. If more than one word is formed your answer will be Z and if no word can be formed your answer will be X?

- (a) O
 - (b) X
 - (c) R
 - (d) Z
 - (e) N
-

Study the alphanumeric symbol series given below and answer the questions which follow: A ^ \$ S F 7 9 K \$ 5# X K 8 J * F I R 3 1 @ V 9 5 % M L

87. How many symbols are there in the given series which are immediately followed by a letter and immediately preceded by a number?

- (a) Three
 - (b) Four
 - (c) Two
 - (d) One
 - (e) None of these
-

88. Which among the following element will be sixth to the right of the one which is eighteenth from right end?

- (a) *
 - (b) I
 - (c) F
 - (d) J
 - (e) None of these
-

89. How many elements are there between the element which is tenth from left end and the element which is fourteenth from right end?

- (a) Two
 - (b) Four
 - (c) Six
 - (d) Five
 - (e) None of these
-

90. How many numbers are there in the series which are immediately followed by another number?

- (a) Three
 - (b) Two
 - (c) None
 - (d) One
 - (e) None of these
-

91. Five boxes Z, X, Q, P and L are arranged in a series according to their weight in increasing order from right to left. Box L is lighter than only one box. Box X is heavier than box Z but lighter than box Q which is not the heaviest among all. Find how many boxes are heavier than box P?

- (a) Two
 - (b) One
 - (c) None
 - (d) Three
 - (e) None of these
-
