

1. According to the passage, why do courts often use market share as a rough indicator of monopoly power? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) Market share directly determines the profitability of a firm.
- (b) Market share is the sole determinant of abuse of monopoly power.
- (c) Market share indicates the definite presence of supracompetitive prices.
- (d) Market share determines the ability of a firm to exclude competition.
- (e) Market share is an accurate measure of a firm's unit production costs.

2. Why does the passage suggest that antitrust laws do not attempt to counter the mere existence of monopoly power? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) Antitrust laws only prioritize the protection of smaller rival firms.
- (b) Antitrust laws focus on maintaining high levels of consumer welfare.
- (c) Antitrust laws seek to encourage the growth of large-scale firms.
- (d) Antitrust laws view monopoly power as necessary for market stability.
- (e) None of these

3. According to the passage, which scenario does not violate antitrust laws? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) A firm charging prices profitable so high that eliminates smaller rivals.
- (b) A firm raising prices to increase profits after acquiring monopoly power.
- (c) A firm using economies of scale to obtain a large market share.
- (d) A firm dominating the market by excluding competition.
- (e) A firm pricing its product above the competitive level.

4. Which of the following statements is true regarding supracompetitive prices? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) Supracompetitive prices always indicate an abuse of monopoly power.
- (b) Supracompetitive prices are irrelevant to the concept of monopoly power.
- (c) Supracompetitive prices are associated with a loss of consumers' welfare.
- (d) Supracompetitive prices violate antitrust laws in all cases.
- (e) Supracompetitive prices benefit consumers' welfare

5. What are the two essential facts that must be established to show that a firm has violated the antitrust laws by abusing monopoly power? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

(a) The firm's market share and competitive pricing
 (b) The firm's possession of monopoly power and exclusion of competition
 (c) The firm's ability to raise prices and loss of consumers' welfare
 (d) The firm's profitability and supracompetitive pricing
 (e) The firm's existence and growth potential

6. Which of the following words will fit into the given blank in the passage? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level?that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price?a supracompetitive price?customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers? welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale?that is, low unit production costs due to high volume?does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers? welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

(a) preceded
 (b) withered
 (c) legitimate
 (d) native
 (e) alternative

7. Which of the following words is the synonym of 'impair' as highlighted in the given passage? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level—that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price—a supracompetitive price—customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers' welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale—that is, low unit production costs due to high volume—does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers' welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) implode
- (b) clamp
- (c) upgrade
- (d) debilitate
- (e) garnish

8. Which of the following words is the antonym of 'essential' as highlighted in the given passage? Read the passage to answer the given questions One type of violation of the antitrust laws is the abuse of monopoly power. Monopoly power is the ability of a firm to raise its prices above the competitive level—that is, above the level that would exist naturally if several firms had to compete. In order to show that a firm has abused monopoly power, and thereby violated the antitrust laws, two essential facts must be established. First, a firm must be shown to possess monopoly power, and second, that power must have been used to exclude competition in the monopolized market. The price, a firm may charge for its product, is constrained by the availability of its close substitutes. If a firm attempts to charge a higher price—a supracompetitive price—customers will turn to other firms that supply _____ products at competitive prices. If a firm provides a large percentage of the products actually or potentially available, however, customers may find it difficult to buy from alternative suppliers. Consequently, a firm with a large share of the relevant market of substitutable products may be able to raise its price without losing many customers. For this reason, courts often use market share as a rough indicator of monopoly power. Supracompetitive prices are associated with a loss of consumers' welfare because such prices force some consumers to buy a less attractive product than they would ordinarily buy. Supracompetitive prices, however, do not themselves constitute an abuse of monopoly power. Antitrust laws do not attempt to counter the mere existence of monopoly power. For example, a firm enjoying economies of scale—that is, low unit production costs due to high volume—does not violate the antitrust laws when it obtains a large market share by charging prices that are profitable but so low that its smaller rivals cannot survive. If the antitrust laws posed disincentives to the existence and growth of such firms, the laws could impair consumers' welfare. Even if the firm, upon acquiring monopoly power, chose to raise prices in order to increase profits, it would not be in violation of the antitrust laws.

- (a) trivial
- (b) vital
- (c) synchronous
- (d) transitional
- (e) devotional

9. She asked me to lent (A)/ her some money (B)/ as she was (C)/ running out of cash (D)/ No Error (E). Each question is divided into four parts in which one part contains the error. Choose the incorrect part as your answer. If the sentence doesn't contain any error, choose 'No Error' as your answer choice.

- (a) A
- (b) B
- (c) C
- (d) D

(e) No Error

10. Despite of (A)/ his busy schedule, (B)/ he manages to (C)/ spend time with his family (D)/ No Error (E). Each question is divided into four parts in which one part contains the error. Choose the incorrect part as your answer. If the sentence doesn't contain any error, choose 'No Error' as your answer choice.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No Error
-

11. Each student (A)/ are required to submit (B)/ his or her (C)/ project by tomorrow (D)/ No Error (E). Each question is divided into four parts in which one part contains the error. Choose the incorrect part as your answer. If the sentence doesn't contain any error, choose 'No Error' as your answer choice.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No Error
-

12. I'm sorry, but (A)/ I can't go with you (B)/ because I have (C)/ another appointments. (D)/ No Error (E). Each question is divided into four parts in which one part contains the error. Choose the incorrect part as your answer. If the sentence doesn't contain any error, choose 'No Error' as your answer choice.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No Error
-

13. Which of the following should be the second sentence of the rearrangement? Five sentences are given in the question which are not arranged in the correct order. Rearrange these sentences to answer the given questions. (A) With the major players expanding their bases to smaller town and cities, the industry is being further propelled forward. (B) The rising penetration of internet due to cheaper data rates is also aiding the market. (C) The online food delivery industry is one of the fastest-growing segments in the Indian e-commerce industry. (D) Thus, the increased funding and rise in the self-owned delivery fleet by the major players, are providing further impetus. (E) The rapid rise in the number of smartphone users in the country is expanding the consumer base of the industry in India.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

14. Which of the following should be the last sentence of the rearrangement? Five sentences are given in the question which are not arranged in the correct order. Rearrange these sentences to answer the given questions. (A) With the major players expanding their bases to smaller town and cities, the industry is being further propelled forward. (B) The rising penetration of internet due to cheaper data rates is also aiding the market. (C) The online food delivery industry is one of the fastest-growing segments in the Indian e-commerce industry. (D) Thus, the increased funding and rise in the self-owned delivery fleet by the major players, are providing further impetus. (E) The rapid rise in the number of smartphone users in the country is expanding the consumer base of the industry in India.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

15. Which of the following should be the first sentence of the rearrangement? Five sentences are given in the question which are not arranged in the correct order. Rearrange these sentences to answer the given questions. (A) With the major players expanding their bases to smaller town and cities, the industry is being further propelled forward. (B) The rising penetration of internet due to cheaper data rates is also aiding the market. (C) The online food delivery industry is one of the fastest-growing segments in the Indian e-commerce industry. (D) Thus, the increased funding and rise in the self-owned delivery fleet by the major players, are providing further impetus. (E) The rapid rise in the number of smartphone users in the country is expanding the consumer base of the industry in India.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

16. Which of the following should be the fourth sentence of the rearrangement? Five sentences are given in the question which are not arranged in the correct order. Rearrange these sentences to answer the given questions. (A) With the major players expanding their bases to smaller town and cities, the industry is being further propelled forward. (B) The rising penetration of internet due to cheaper data rates is also aiding the market. (C) The online food delivery industry is one of the fastest-growing segments in the Indian e-commerce industry. (D) Thus, the increased funding and rise in the self-owned delivery fleet by the major players, are providing further impetus. (E) The rapid rise in the number of smartphone users in the country is expanding the consumer base of the industry in India.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

17. Which of the following should be the third sentence of the rearrangement? Five sentences are given in the question which are not arranged in the correct order. Rearrange these sentences to answer the given questions. (A) With the major players expanding their bases to smaller town and cities, the industry is being further propelled forward. (B) The rising penetration of internet due to cheaper data rates is also aiding the market. (C) The online food delivery industry is one of the fastest-growing segments in the Indian e-commerce industry. (D) Thus, the increased funding and rise in the self-owned delivery fleet by the major players, are providing further impetus. (E) The rapid rise in the number of smartphone users in the country is expanding the consumer base of the industry in India.

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

18. The doctor carefully (A) examined the disease (B) to diagnose (C) the underlying patient (D). In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that should replace each other.

- (a) A-C
 - (b) B-D
 - (c) A-B & D-C
 - (d) C-D
 - (e) No replacement required
-

19. Despite his comprehend (A) attempts, he couldn't numerous (B) the theories (C) complex (D). In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that should replace each other.

- (a) A-B
- (b) B-C

- (c) C-D
 - (d) A-B & C-D
 - (e) No replacement required
-

20. The caring volunteer underprivileged (A) her time to helping (B) those in need, making a positive (C) impact in the lives of the dedicated (D). In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that should replace each other.

- (a) A-D
 - (b) B-C
 - (c) C-D
 - (d) A-C & B-D
 - (e) No replacement required
-

21. I good (A) the feeling of side (B) into a comfortable chair, with a relish (C) book in my hands and a cup of tea by my sinking (D). In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that should replace each other.

- (a) A-C
 - (b) B-D
 - (c) A-C & B-D
 - (d) C-D
 - (e) No replacement required
-

22. The frolicked (A) puppy playful (B) in the park, chasing (C) after a colorful ball with boundless (D) energy. In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that should replace each other.

- (a) A-C
 - (b) A-B
 - (c) A-B & D-C
 - (d) C-D
 - (e) No replacement required
-

23. I have doubts that he will be able to complete the project on time. Which of the options, (a), (b), (c), (d) given below each sentence should replace the phrase printed in bold in the sentence to make sentence grammatically correct? If the sentence is already grammatically correct, mark option ?No replacement required? as the answer.

- (a) that he will being
 - (b) whether he will being
 - (c) whether he will be
 - (d) if he were be
 - (e) No replacement required
-

24. If I had reached the station five minutes ago, I would have catch the train. Which of the options, (a), (b), (c), (d) given below each sentence should replace the phrase printed in bold in the sentence to make sentence grammatically correct? If the sentence is already grammatically correct, mark option ?No replacement required? as the answer.

- (a) I would catch
 - (b) I would had catch
 - (c) I were catch
 - (d) I would have caught
 - (e) No replacement required
-

25. Despite the rain, a number of students has showed up to the outdoor event. Which of the options, (a), (b), (c), (d) given below each sentence should replace the phrase printed in bold in the sentence to make sentence grammatically correct? If the sentence is already grammatically correct, mark option ?No replacement required? as the answer.

- (a) students have showed up
 - (b) student have showed up
 - (c) student had showed up
 - (d) students has showing up
 - (e) No replacement required
-

26. The government is committed to _____ public safety and _____ effective law enforcement measures. The following question has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank that best fits in the context of the sentence.

- (a) jeopardizing, weakening
 - (b) prioritizing, strengthening
 - (c) overlooking, undermining
 - (d) compromising, promoting
 - (e) overlooking, strengthening
-

27. To improve customer satisfaction, the company should focus on _____ service quality and _____ responsiveness to customer needs. The following question has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank that best fits in the context of the sentence.

- (a) enhancing, increasing
 - (b) diminishing, decreasing
 - (c) compromising, neglecting
 - (d) maintaining, limiting
 - (e) enhancing, neglecting
-

28. To promote a healthy lifestyle, it is essential to encourage regular _____ and _____ eating habits. The following question has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank that best fits in the context of the sentence.

- (a) exercise, balanced
 - (b) sedentary, unhealthy
 - (c) inactivity, excessive
 - (d) rest, irregular
 - (e) walk, excessive
-

29. The manager provided _____ feedback to the team and _____ their efforts in meeting project deadlines. The following question has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank that best fits in the context of the sentence.

- (a) constructive, acknowledged
 - (b) destructive, appreciated
 - (c) foreseen, criticized
 - (d) vague, rescued
 - (e) constructive, delusion
-

30. The speaker delivered a/an _____ presentation, engaging the audience with _____ stories and persuasive arguments. The following question has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank that best fits in the context of the sentence.

- (a) plausible, charming
 - (b) tempting, gruesome
 - (c) compelling, captivating
 - (d) gruesome, passive
 - (e) triggering, boring
-

36. $19.99\% \text{ of } 650.3 = ? \times ? + 2.99 \times 3.01$ What approximate value will come in place of question mark (?) in the following question. (You are not expected to calculate the exact value)

- (a) 8

- (b) 5
 - (c) 14
 - (d) 20
 - (e) 11
-

37. $14.95^2 + 9.03 \times 10.99 = ?$ What approximate value will come in place of question mark (?) in the following question. (You are not expected to calculate the exact value)

- (a) 324
 - (b) 250
 - (c) 320
 - (d) 260
 - (e) 230
-

38. 49.87% of 720.2 = ? $\times$ 4.99 + 4.12 $\times$ 5.08 What approximate value will come in place of question mark (?) in the following question. (You are not expected to calculate the exact value)

- (a) 68
 - (b) 76
 - (c) 71
 - (d) 55
 - (e) 90
-

39. $2.97^3 + 4.99 \times 3.01 = ?$ What approximate value will come in place of question mark (?) in the following question. (You are not expected to calculate the exact value)

- (a) 36
 - (b) 40
 - (c) 42
 - (d) 50
 - (e) 45
-

40. $(24.98\% \text{ of } 880.2)/10.99 + 39.98\% \text{ of } 200 = ?(?)$ What approximate value will come in place of question mark (?) in the following question. (You are not expected to calculate the exact value)

- (a) 7500
 - (b) 8900
 - (c) 10000
 - (d) 2000
 - (e) 4500
-

46. In the following question, two equations are given. Solve these equations, and answer the question given below.

- (a) If $x > y$
 - (b) If $x ? y$
 - (c) If $x < y$
 - (d) If $x ? y$
 - (e) If no relation can be established between x and y
-

47. In the following question, two equations are given. Solve these equations, and answer the question given below.

- (a) If $x > y$
 - (b) If $x ? y$
 - (c) If $x < y$
 - (d) If $x ? y$
 - (e) If no relation can be established between x and y
-

48. In the following question, two equations are given. Solve these equations, and answer the question given below.

- (a) If $x > y$
- (b) If $x ? y$
- (c) If $x < y$
- (d) If $x ? y$
- (e) If no relation can be established between x and y

49. In the following question, two equations are given. Solve these equations, and answer the question given below.

- (a) If $x > y$
 - (b) If $x ? y$
 - (c) If $x < y$
 - (d) If $x ? y$
 - (e) If no relation can be established between x and y
-

50. In the following question, two equations are given. Solve these equations, and answer the question given below.

- (a) If $x > y$
 - (b) If $x ? y$
 - (c) If $x < y$
 - (d) If $x ? y$
 - (e) If no relation can be established between x and y
-

56. A man invested the same amount in two different schemes, i.e., A and B. He invested in schemes A and B at 8.5% p.a. and 8% p.a., respectively, for four years. If the difference between the simple interest received from schemes A and B is Rs 40, then find the amount he invested in each scheme.

- (a) 2000
 - (b) 2500
 - (c) 2400
 - (d) 2800
 - (e) 3000
-

57. Neha spends 35% of her monthly salary on shopping and 20% of the remaining salary on food. She then spends her remaining salary on SIP and charity in the ratio of 3:1 respectively. If the difference between the amount spent on SIP and shopping is Rs. 1200, find the monthly income of Neha (in Rs).

- (a) Rs 34000
 - (b) Rs 20000
 - (c) Rs 25000
 - (d) Rs 30000
 - (e) None of these
-

58. The sum of the present ages of Anika and Riya is 29 years. If after four years the age of Anika is $\frac{20}{17}$ th that of Riya, then find the present age of Riya.

- (a) 13 years
 - (b) 11 years
 - (c) 17 years
 - (d) 16 years
 - (e) 12 years
-

59. The average of four consecutive even numbers is X . If the ratio of the smallest and largest number is 3:4, respectively, then find X .

- (a) 18
 - (b) 21
 - (c) 16
 - (d) 2
 - (e) 24
-

60. The ratio of speed of boat in still water to speed of stream is 8 : 1. It takes 4 hours by boat to cover 54 km in downstream & 42 km in upstream. Find the downstream speed of boat.

- (a) 25 kmph
 - (b) 24 kmph
 - (c) 21 kmph
 - (d) 27 kmph
 - (e) 23 kmph
-

61. The radius of a circle is 14 cm. what is area of another circle having radius 1.5 times the actual circle (in sq. cm)?

- (a) 1296
 - (b) 1386
 - (c) 1352
 - (d) 1485
 - (e) 1276
-

62. A shopkeeper marked the price of an article by 40% above cost price and gave discount of Rs. 224. On the final amount, he charged 10% tax. In the whole transaction, he earned Rs. 158.6. Find cost price of the article.

- (a) Rs 750
 - (b) Rs 760
 - (c) Rs 744
 - (d) Rs 757
 - (e) Rs 748
-

63. Time taken to travel a certain distance of x km at speed of 40 km/h is 2 hours more than the time taken to travel $(x+20)$ km at speed of 60 km/h. Find the time taken to travel $(x+40)$ km at the speed of 40 km/h?

- (a) 9 hours
 - (b) 5 hours
 - (c) 8 hours
 - (d) 6 hours
 - (e) 7.5 hours
-

64. A train travelling at 72 km/hr. crosses a platform of 160 m in 18 second and another train travelling at 90 km/hr crosses the same platform in 15 second. Find the length of both the trains?

- (a) 160 m
 - (b) 180 m
 - (c) 140 m
 - (d) 400 m
 - (e) 415 m
-

65. A container contains a mixture of milk and water in which water is 24%. 50% of the mixture is taken out in then, water becomes 78 liter less than the milk. Find the remaining quantity of milk in that container?

- (a) 171 lit
 - (b) 152 lit
 - (c) 133 lit
 - (d) 108 lit
 - (e) 114 lit
-

69. Statements: All Sprite is Fanta. Only a few Fanta is Limca. No Limca are Pepsi. Conclusions: I. Some Fanta are not Pepsi. II. All Sprite can be Pepsi. In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Both conclusions I and II follow
 - (e) Neither conclusion I nor II follows
-

70. Statements: Some Strawberry are Dragon fruit. Some Dragon Fruit are not Jack Fruit. Only Jack fruit are Guava. Conclusions: I. Some Guava are definitely not Strawberry. II. All Strawberry are Jackfruit In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- (a) Only conclusion I follows
- (b) Only conclusion II follows
- (c) Either conclusion I or II follows

- (d) Both conclusions I and II follow
 - (e) Neither conclusion I nor II follows
-

71. Statements: Only a few Vase are Pot . A Few Pot is Flowers. Only Flowers are Plant. Conclusions: I. No Plant being Vase is a possibility. II. All Pot can be Vase. In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Both conclusions I and II follow
 - (e) Neither conclusion I nor II follows
-

72. Statements: Only Question is Written. All Answers are Question. No Solution is Answers. Conclusions: I. Some Written being Answers is a possibility. II. No Questions are Solution. In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Both conclusions I and II follow
 - (e) Neither conclusion I nor II follows
-

73. If it is possible to make only one meaningful word from the 1st, 6th, 10th and 11th letters from the left end of the word ?ACCOUNTABLE? using each letter only once, then what is the third letter of the word from the left end? If no such meaningful word can be formed, the answer is ?Y? and if more than one such meaningful word can be formed, the answer will be ?Z?.

- (a) L
 - (b) Y
 - (c) Z
 - (d) N
 - (e) A
-

87. Find the odd-one out.

- (a) DHL
 - (b) BFJ
 - (c) NRV
 - (d) MQU
 - (e) KOR
-

93. Statements: $F > G$? $H > I$? $J = K > R$; $L < M = N$? $O < U = Q$; $R > S$? $T = U$ Conclusions: I. $J > M$ II. $N ? S$ III. $L < K$ In this question, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement and select the appropriate answer.

- (a) If only conclusion I is true
 - (b) If both conclusions I and III are true
 - (c) If only conclusion II is true
 - (d) If both conclusions II and III are true
 - (e) If either conclusion I or II is true
-

94. Statements: $P < Q > R$? $S = W < T$; $U > W$? $X = Y < Z > L > N = M$ Conclusions: I. $R ? Y$ II. $S < M$ In this question, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement and select the appropriate answer.

- (a) If only conclusion II is true
- (b) If both conclusions I and II are true
- (c) If only conclusion I is true

- (d) If neither conclusion I nor II is true
 - (e) If either conclusion I or II is true
-

95. Statements: $A < B = C < D = E$; $F > G > H > B$; $J > G ? K > L > M$ Conclusions: I. $F > D$ II. $A < K$ In this question, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement and select the appropriate answer.

- (a) If only conclusion II is true
 - (b) If only conclusion I is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-
