IBPS PO Mains 2024 Shift_1

107 questions

1. Conclusions: I. All number can never be digit II. Some digit being letter is a possibility

- (a) Statements: All series is number; Some series is digit; Only a few letter is number
- (b) Statements: Only a few series is digit; All series is number; Some letter is number
- (c) Statements: No digit is series; No series is number; All number is letter
- (d) Statements: Only digit is letter; Some digit is number; Only a few series is number
- (e) Statements: No digit is letter; Only a few letter is number; Only a few number is series

Read the given information carefully and answer the questions based on it: A certain number of persons sit in a row facing north. The known persons like different colors. On counting from left, the persons at even positions are managers and the persons at odd positions are associates. Four persons are in between A and the one who likes red. G sits third to the left of A. The one who likes blue sits exactly between G and the one who likes red. Four persons are in between C and the one who likes blue. The one who likes pink sits immediate right of C. D sits three persons sit to the right of the one who likes pink. The number of persons sit to the right of D is equal to the square root of the number of persons sit between D and the one who likes red. T sits sixth to the left of H who sits adjacent to C. H likes pink and sits immediate right of the one who likes yellow. No one sits to the left of B who sits adjacent to T. The one who likes black sits fourth from right end. The one who likes grey sits second to the right of B and third to the left of the one who likes white.

7. How many associates sit to the right of the one who likes white?

- (a) Three
- (b) Four
- (c) Five
- (d) Six
- (e) More than six

8. What is the position of C with respect to the one who likes grey?

- (a) 5th to the right
- (b) 7th to the right
- (c) 8th to the left
- (d) Immediate right
- (e) 4th to the right

9. Which of the following statement is correct? I. The one who sits 7th to the right of B is manager. II. Four associates sit between B and the one who likes black. III. H is manager and sits second to the right of A

- (a) Only II
- (b) Only III
- (c) Only I and II
- (d) Only I and III
- (e) All I, II and III

10. Choose the incorrect combination.

- (a) G ? grey - associate
- (b) D ? black - associate
- (c) A ? white - manager
- (d) T ? blue - manager
- (e) B ? yellow - associate

11. The below question is based on the following information: A\$B means A is mother of B A@B means A is daughter of B A#B means A is father of B A%B means A is brother of B A&B means A is wife of B A*B means A is sister of B In which of the following expression, G is the niece of M? I. M@E\$C#G@H II. E\$M%C&H#G III. M%C&H#G*E IV. C@E@M#H*G

- (a) Only II and III
- (b) Only I and III

- (c) Only I and IV
- (d) Only I, II and III
- (e) Only IV

Each of the questions below, consist of a question and three statements numbered I, II and III. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the three statements and Give answer (a) Both statements I and II together are necessary to answer the question whereas statement III alone is not sufficient to answer the question (b) Only statement III alone is sufficient to answer the question whereas both statements I and II are not sufficient to answer the question (c) All the three statements together are not sufficient to answer the question (d) Any two of the given statements are necessary to answer the question (e) Only statement II alone is sufficient to answer the question whereas both statements I and III are not sufficient to answer the question

12. Six persons P, Q, R, S, T and U attend the function on different days of a week starting from Monday to Saturday but not necessarily in the same order. Who among the following attends the function on Thursday? Statement I: P attends function three days after U who is not the first person to attend the function. One person attends the function between T and R. T attends the function three days after Q. Statement II: Two persons attend the function between S and R who attends immediately after P. Three persons attend the function between P and Q. S attends the function before T. Statement III: U attends the function two days before T who attends immediately after P. One person attends the function between Q and S.

- (a) Both statements I and II together are necessary to answer the question whereas statement III alone is not sufficient to answer the question
- (b) Only statement III alone is sufficient to answer the question whereas both statements I and II are not sufficient to answer the question
- (c) All the three statements together are not sufficient to answer the question
- (d) Any two of the given statements are necessary to answer the question
- (e) Only statement II alone is sufficient to answer the question whereas both statements I and III are not sufficient to answer the question

13. Five bags of different colours i.e., grey, brown, cyan, orange and golden are placed one above another on different shelves but not necessarily in the same order. The bottommost shelf is numbered as 1, just above it is numbered as 2 and so on till the topmost shelf is numbered as 5. Which among the following bag is placed immediately below the grey colour bag? Statement I: One bag is placed between brown colour bag and grey colour bag which is placed immediately below orange colour bag. Two boxes are placed between golden colour bag and cyan colour bag. Statement II: Brown colour bag is placed immediately below golden colour bag and neither of them is placed adjacent to cyan colour bag. One bag is placed between cyan colour bag and grey colour bag. Statement III: Two bags are placed between orange colour bag and brown colour bag. Grey colour bag is placed at the prime numbered shelf and two bags below the cyan colour bag.

- (a) Both statements I and II together are necessary to answer the question whereas statement III alone is not sufficient to answer the question
- (b) Only statement III alone is sufficient to answer the question whereas both statements I and II are not sufficient to answer the question
- (c) All the three statements together are not sufficient to answer the question
- (d) Any two of the given statements are necessary to answer the question
- (e) Only statement II alone is sufficient to answer the question whereas both statements I and III are not sufficient to answer the question

14. Six persons i.e. A, B, C, D, E and F sit around an equilateral triangle table such that three persons sit at the corners and face inside while three persons sit in the middle of each of the side and face outside but not necessarily in the same order. Who among the following sits immediate right of D? Statement I: Two persons sit between B and A who sits immediate left of E. F and D sits immediate left of each other. Statement II: One person sits between E and D. A does not sit at the corner. Statement III: C sits immediate left of B and second to the left of A. D and E does not sit adjacent to each other.

- (a) Both statements I and II together are necessary to answer the question whereas statement III alone is not sufficient to answer the question
- (b) Only statement III alone is sufficient to answer the question whereas both statements I and II are not sufficient to answer the question
- (c) All the three statements together are not sufficient to answer the question
- (d) Any two of the given statements are necessary to answer the question

(e) Only statement II alone is sufficient to answer the question whereas both statements I and III are not sufficient to answer the question

15. In the given word ?TERMINATION? if the vowels are changed with its just next letter and consonants are changed with its just previous letter. Then the letters which comes after N in the alphabetical series are changed with just next letter and the letters which comes before N are changed with its just previous letter. Now, eliminate the repeating letters and arranged the remaining letters in alphabetical order from left to right then which of the following letter is second to the left of the letter which is third from the right end in the new arrangement?

- (a) A
 - (b) K
 - (c) E
 - (d) Q
 - (e) R
-

16. If we use the following alphabets from the words given in the options below: * The second consonant from the left end in the first word, * The last vowel from the right end in the second word, * The consonant which is first from the right end in the third word, * The vowel which is second from the left end in the fourth word, Then, which of the following options give a meaningful word?

- (a) Game, Mate, King, Fire
 - (b) Land, Rust, Well, Tube
 - (c) Wish, Fish, Cost, Lane
 - (d) Nice, Gain, Word, Meet
 - (e) None of these
-

17. If in the given word ?ASSUMPTION? if vowels are replaced with their immediately succeeding letter and consonants are replaced with just preceding letter and in the word ?METICULOUS? the letters which comes after N are changed to their immediately succeeding letter and the letter which comes before N are changed to their immediately preceding letter then both the words are combined second word is arranged after first word then repeated letters are removed after combining both the words then which letter is sixth from the right end?

- (a) O
 - (b) D
 - (c) S
 - (d) J
 - (e) M
-

22. Statement: In December 2024, the Indian government announced measures to achieve a GDP growth target of 6.5% to 7% for the current fiscal year. This decision followed slower-than-expected growth in the July-September quarter, attributed to weaker manufacturing and consumption sectors. The government plans to boost infrastructure spending and increase incentives for electric vehicle manufacturers to stimulate economic growth. Conclusions: I. The Indian government is proactively addressing the economic slowdown by implementing strategic measures. II. Enhancing infrastructure spending is expected to positively impact India's GDP growth. III. The slowdown in the July-September quarter was solely due to external global factors. Which of the above conclusions logically follows with the statement?

- (a) Only I
 - (b) Only II
 - (c) Only III
 - (d) Only I and II
 - (e) Only II and III
-

23. Statement: In October 2024, India and China reached an agreement to de-escalate border tensions, allowing both nations to resume patrolling in previously disputed areas along the Line of Actual Control (LAC). Despite the agreement, there remains a lack of trust between the two countries, and sporadic confrontations continue to occur in border regions. Proposed Courses of Action: I. India should increase diplomatic engagements with China to build mutual trust and ensure the effective implementation of the agreement. II. India should enhance its military presence along the LAC to deter any potential aggression from China. III. India should seek mediation from international organizations to monitor and enforce the border agreement. Which of the above courses of action should India pursue to effectively address the ongoing challenges along the LAC?

- (a) Only I

- (b) Only II
 - (c) Only III
 - (d) Both I and II
 - (e) Both I and III
-

24. Statement: In June 2024, controversies arose over the NEET-UG exam due to alleged question paper leaks and irregularities in results. While the National Testing Agency (NTA) initially denied the claims, it later formed a committee to investigate. The Supreme Court ordered a re-examination for some candidates, highlighting the need for transparency. Based on the above statement, which of the following can be inferred? I. The integrity of the NEET-UG examination was questioned due to alleged irregularities. II. The NTA acknowledged the possibility of errors in the examination process. III. The Supreme Court mandated a complete cancellation of the NEET-UG examination.

- (a) Only inference 1 is correct
 - (b) Only inference 2 is correct
 - (c) Both inferences 2 and 3 are correct
 - (d) Both inferences 1 and 2 are correct
 - (e) All inferences 1, 2, and 3 are correct
-

25. In the question below, two statements are provided. Examine these statements carefully and determine whether there is a cause-and-effect relationship between them. Choose your answer from the options provided. Statements: I. The Election Commission of India reported a record voter turnout of 64.2 crore people in the 2024 Lok Sabha elections. II. The Election Commission implemented extensive voter awareness campaigns across the country in the lead-up to the 2024 general elections.

- (a) Statement I is the cause, and Statement II is its effect.
 - (b) Statement II is the cause, and Statement I is its effect.
 - (c) Both statements are independent causes.
 - (d) Both statements are effects of a common cause.
 - (e) None of these
-

Read the given information carefully and answer the questions based on it: Four machines (A, B, C, and D) are arranged in a production line to manufacture a specific product. Each machine has distinct operational rules and performs a different function in the manufacturing process. The factory works from 9:00 AM to 5:00 PM every day, and each product must pass through the machines in a specific order to be completed. Each machine has a fixed processing time per product, but machines cannot process more than one product at a time. Here is the information about the machines: Machine A: Takes 10 minutes to process a product. The products enter at 7-minute intervals starting at 9:00 AM. Machine B: Takes 15 minutes to process a product. It starts working only if Machine A has completed its task and sends the product forward. Machine C: Takes 20 minutes to process a product. It requires a 5-minute cooldown period before processing the next product. Machine D: Takes 12 minutes to process a product. It can only start processing a product if it receives it before or exactly on the half-hour mark. Otherwise, the product must wait until the next half-hour mark. The factory stops accepting new products for processing at 4:00 PM.

37. Find the total number of products fully manufactured by 5:00 PM?

- (a) 38
 - (b) 39
 - (c) 37
 - (d) 40
 - (e) None of these
-

38. What are the number of products entering machine A?

- (a) 59
 - (b) 53
 - (c) 60
 - (d) 61
 - (e) None of these
-

39. Find the exact time the last product completes processing in Machine D.

- (a) 4:55 PM
- (b) 4:57 PM
- (c) 4:48 PM

- (d) 5:00 PM
 - (e) None of the above
-

40. At what time does the 6th product finish processing in Machine B?

- (a) 9:45 AM
 - (b) 9:48 AM
 - (c) 9:50 AM
 - (d) 9:56 AM
 - (e) None of these
-

46. In September 2024, India's first Vande Bharat Sleeper trainset, which was flagged off by the Railway Minister Ashwini Vaishnaw at Bangalore rail complex, was indigenously designed and manufactured by which of the following leading Indian rail and metro manufacturers?

- (a) Indian Railways
 - (b) Bharat Electronics Limited (BEL)
 - (c) Bharat Earth Movers Limited (BEML)
 - (d) Hindustan Aeronautics Limited (HAL)
 - (e) Tata Advanced Systems
-

47. According to the National Strategy for Financial Inclusion (NSFI) report released by the Reserve Bank of India (RBI), what is the radius distance within which banking access should be provided to every village in hilly areas with 500 households?

- (a) 3 kilometers
 - (b) 4 kilometers
 - (c) 6 kilometers
 - (d) 5 kilometers
 - (e) 10 kilometers
-

48. As per the revised norms by the RBI, the ceiling on the quantum of public deposits held by deposit-taking Housing Finance Companies (HFCs) has been reduced from 3 times of net owned funds to what revised limit?

- (a) 1.0 times
 - (b) 1.25 times
 - (c) 0.5 times
 - (d) 2.0 times
 - (e) 1.5 times
-

49. The National Centre for Financial Education (NCFE) is a Section 8 (Not-for-Profit) Company promoted by all of the following financial sector regulators except:

- (a) Reserve Bank of India (RBI)
 - (b) Securities and Exchange Board of India (SEBI)
 - (c) Insurance Regulatory and Development Authority of India (IRDAI)
 - (d) Pension Fund Regulatory and Development Authority (PFRDA)
 - (e) National Bank for Agriculture and Rural Development (NABARD)
-

50. As of July 2024, the Indian Railways has made significant progress in implementing the Kavach system, which involves various activities to enhance train safety. According to the latest update, on how many Route kilometers has the Kavach system been successfully deployed?

- (a) 1,220 Route km
 - (b) 1,465 Route km
 - (c) 1,750 Route km
 - (d) 1,305 Route km
 - (e) 1,511 Route km
-

51. As of March 2024, what was the Gross Merchandise Value (GMV) achieved by the Government e- Marketplace (GeM) during the financial year 2023-24 (FY24), reflecting a significant surge in public procurement?

- (a) ₹2.01 Lakh Crore
- (b) ₹3.5 Lakh Crore

- (c) ₹4 Lakh Crore
 - (d) ₹4.5 Lakh Crore
 - (e) ₹1.97 Lakh Crore
-

52. As per the Reserve Bank of India's (RBI) four-tiered regulatory framework for Urban Cooperative Banks (UCBs), what are the minimum Capital Adequacy Ratio (CAR) requirements for Tier-1 UCBs and Tier 2 UCBs, respectively?

- (a) 8% for Tier-1 and 10% for Tier 2
 - (b) 9% for Tier-1 and 12% for Tier 2
 - (c) 10% for Tier-1 and 11% for Tier 2
 - (d) 9% for Tier-1 and 10% for Tier 2
 - (e) 10% for Tier-1 and 13% for Tier 2
-

53. In July 2024, Meta announced the release of Llama 3.1, which is claimed to be the "world's largest and most capable openly available foundation model." How many parameters does the most capable version of Llama 3.1 have?

- (a) 700 billion
 - (b) 100 billion
 - (c) 405 billion
 - (d) 200 billion
 - (e) 8 billion
-

54. As of October 2024, the Securities and Exchange Board of India (SEBI) raised the position limit for trading members in index futures and options contracts to what amount, or 15% of the total open interest, whichever is higher?

- (a) ₹5,700 crore
 - (b) ₹6,500 crore
 - (c) ₹7,100 crore
 - (d) ₹8,200 crore
 - (e) ₹7,500 crore
-

55. As per the Reserve Bank of India (RBI) regulations, what is the minimum Net Owned Fund (NOF) requirement for a Non-Banking Financial Company (NBFC) in India to ensure financial stability and customer protection?

- (a) ₹5 crore
 - (b) ₹8 crore
 - (c) ₹12 crore
 - (d) ₹10 crore
 - (e) ₹15 crore
-

56. The government recently extended the benefits under the Remission of Duties and Taxes on Exported Products (RoDTEP) scheme for exports made from domestic tariff area (DTA) units. Till which date has the scheme been extended?

- (a) September 30, 2025
 - (b) June 30, 2025
 - (c) March 31, 2025
 - (d) December 31, 2025
 - (e) January 31, 2026
-

57. The 80th anniversary of the D-Day landings was marked on June 6, 2024, with veterans and world leaders gathering in Normandy, which is located in _____?

- (a) Belgium
 - (b) Germany
 - (c) United Kingdom
 - (d) France
 - (e) Italy
-

58. As of January 2024, which country has remained on the FATF's black list (high-risk jurisdictions) since February 2020, with no material changes reported in its action plan?

- (a) Iran
- (b) Afghanistan

- (c) North Korea
 - (d) Syria
 - (e) Myanmar
-

59. As of December 2023, which two states are among the top contributors to India's registered micro, small, and medium enterprises (MSMEs), collectively contributing nearly 40 per cent along with Uttar Pradesh?

- (a) Karnataka and Gujarat
 - (b) Maharashtra and Tamil Nadu
 - (c) West Bengal and Rajasthan
 - (d) Andhra Pradesh and Telangana
 - (e) Punjab and Haryana
-

60. In November 2024, India signed a Memorandum of Implementation (MoI) for the co-development of the UNICORN mast, a stealth-enhancing conical structure for naval warships, with which of the following countries?

- (a) South Korea
 - (b) United States
 - (c) Japan
 - (d) Russia
 - (e) France
-

61. As per the Finance Ministry's statement, what was the net profit of Public Sector Banks (PSBs) during the April-September period of the current fiscal year, showing a growth of 25.6% year-on-year?

- (a) ₹65,000 crore
 - (b) ₹75,000 crore
 - (c) ₹95,000 crore
 - (d) ₹85,000 crore
 - (e) ₹1,05,000 crore
-

62. The Reserve Bank of India (RBI), through its Payments Vision 2025 document, has laid out five key anchor points to guide the development of India's payment systems. Which among the following is not listed as one of these anchor points?

- (a) Integrity
 - (b) Innovation
 - (c) Institutionalisation
 - (d) Infrastructure
 - (e) Internationalisation
-

63. What is the primary objective of the "Guidelines for Prevention and Regulation of Greenwashing or Misleading Environmental Claims, 2024," issued by the Central Consumer Protection Authority (CCPA)?

- (a) To promote the use of environmentally friendly products in industries.
 - (b) To prevent false or exaggerated environmental claims.
 - (c) To incentivize manufacturers for producing green products.
 - (d) To set mandatory emission reduction targets for businesses.
 - (e) To create a ranking system for green-certified companies.
-

64. What is the name of the Special Purpose Vehicle (SPV) responsible for implementing the BharatNet project, one of the largest rural telecom initiatives in the world?

- (a) Bharat Telecom Limited
 - (b) Bharat Broadband Network Limited
 - (c) Digital India Network Limited
 - (d) Rural Connectivity Network Limited
 - (e) National Telecom Corporation
-

65. As per the 2024 Global Nature Conservation Index (NCI), India ranked 176th out of 180 countries. Among the following, which country is not listed among the top 5 performing countries in the index?

- (a) Luxembourg
- (b) Estonia

- (c) Finland
 - (d) United States
 - (e) Denmark
-

66. What are the revised transaction limits for UPI 123Pay and UPI Lite as per the latest guidelines issued by the Reserve Bank of India (RBI)?

- (a) ₹10,000 for UPI 123Pay and ₹5,000 for UPI Lite
 - (b) ₹5,000 for UPI 123Pay and ₹10,000 for UPI Lite
 - (c) ₹10,000 for both UPI 123Pay and UPI Lite
 - (d) ₹5,000 for UPI 123Pay and ₹2,000 for UPI Lite
 - (e) ₹7,500 for UPI 123Pay and ₹3,000 for UPI Lite
-

67. Why did the Reserve Bank of India (RBI) impose business restrictions on four non-banking finance companies (NBFCs), including Asirvad Micro Finance Ltd and Navi Finserv Ltd (in October 2024)?

- (a) Non-compliance with loan recovery practices
 - (b) High levels of non-performing assets (NPAs)
 - (c) Excessive interest rates and pricing policy violations
 - (d) Failure to maintain adequate capital reserves
 - (e) Violation of anti-money laundering guidelines
-

68. What is the minimum regulatory Common Equity Tier 1 (CET1) capital ratio that banks in India must maintain, as per RBI guidelines?

- (a) 4.5%
 - (b) 5.0%
 - (c) 5.5%
 - (d) 6.0%
 - (e) 6.5%
-

69. Which company has secured orders from Kerala Gramin Bank and Karnataka Gramin Bank for its banking SuperApp to accelerate digital transformation?

- (a) FSS Technologies
 - (b) Network People Services Technologies Limited
 - (c) NPCI International Payments Limited
 - (d) Infibeam Avenues
 - (e) PayU India
-

70. What percentage of Adjusted Net Bank Credit (ANBC) are Small Finance Banks (SFBs) required to allocate to Priority Sector Lending (PSL)?

- (a) 50%
 - (b) 60%
 - (c) 65%
 - (d) 75%
 - (e) 80%
-

71. Which Indian private sector bank recently inaugurated its first branch in Singapore after receiving a wholesale banking license from the Monetary Authority of Singapore (MAS)?

- (a) ICICI Bank
 - (b) Axis Bank
 - (c) HDFC Bank
 - (d) Kotak Mahindra Bank
 - (e) Yes Bank
-

72. What is the name of the launch vehicle that will be used for India's maiden mission to Venus, scheduled for launch in March 2028?

- (a) PSLV-C57
- (b) GSLV Mk-II
- (c) SSLV

- (d) GSLV Mk-III
 - (e) LVM-3
-

73. Who is the director of the film Laapata Ladies, which has been chosen as India's official entry for the Oscars 2025?

- (a) Zoya Akhtar
 - (b) Kiran Rao
 - (c) Meghna Gulzar
 - (d) Gauri Shinde
 - (e) Reema Kagti
-

74. Which of the following government schemes offers the highest interest rate among those mentioned?

- (a) Public Provident Fund (PPF)
 - (b) Mahila Samman Savings Certificate (MSS)
 - (c) National Savings Certificate (NSC)
 - (d) Kisan Vikas Patra (KVP)
 - (e) Sukanya Samridhi Yojana (SSY)
-

75. Which fintech firm recently completed its merger with North East Small Finance Bank, consolidating their operations and brand identities into a single institution?

- (a) KreditBee
 - (b) ZestMoney
 - (c) Slice
 - (d) MoneyTap
 - (e) FlexiLoans
-

76. What is the prize money awarded to the winner of the International Booker Prize?

- (a) £25,000
 - (b) £40,000
 - (c) £50,000
 - (d) £75,000
 - (e) £100,000
-

77. By which year does India aim to achieve a production capacity of 5 million metric tons of green hydrogen annually under its Green Hydrogen Mission?

- (a) 2030
 - (b) 2027
 - (c) 2025
 - (d) 2032
 - (e) 2035
-

78. What was the paid-up capital of the Reserve Bank of India (RBI) when it started operations in 1935?

- (a) ₹2 crores
 - (b) ₹5 crores
 - (c) ₹10 crores
 - (d) ₹15 crores
 - (e) ₹20 crores
-

79. The Women's Asian Champions Trophy 2024 hockey tournament was hosted from November 11 to November 20. In which state did this tournament take place?

- (a) Jharkhand
 - (b) Odisha
 - (c) Chhattisgarh
 - (d) Uttar Pradesh
 - (e) Bihar
-

80. Which Australian university recently became the second to formally start its international campus at GIFT City in India?

- (a) University of Melbourne
 - (b) University of Queensland
 - (c) University of Sydney
 - (d) University of Wollongong
 - (e) Australian National University
-

81. The Lakhpati Didi scheme, aimed at empowering women through Self-Help Groups (SHGs), is an initiative of which ministry?

- (a) Ministry of Women and Child Development
 - (b) Ministry of Finance
 - (c) Ministry of Rural Development
 - (d) Ministry of Labour and Employment
 - (e) Ministry of Social Justice and Empowerment
-

82. What are the minimum Capital to Risk (Weighted) Assets Ratio (CRAR) requirements for urban cooperative banks (UCBs) as prescribed by the Reserve Bank of India (RBI)?

- (a) Tier 1: 8%, Tier 2 to 4: 10%
 - (b) Tier 1: 9%, Tier 2 to 4: 12%
 - (c) Tier 1: 10%, Tier 2 to 4: 15%
 - (d) Tier 1: 8.5%, Tier 2 to 4: 11.5%
 - (e) Tier 1: 7%, Tier 2 to 4: 13%
-

83. As per the latest data available as of March 2024, which state in India has emerged as the leader in terms of the highest number of Micro, Small, and Medium Enterprises (MSMEs), contributing over 17% to the country's total MSMEs?

- (a) Tamil Nadu
 - (b) Uttar Pradesh
 - (c) Maharashtra
 - (d) Rajasthan
 - (e) Gujarat
-

84. In the context of Lidar, what does the letter "R" stand for?

- (a) Reflection
 - (b) Ranging
 - (c) Radiation
 - (d) Resolution
 - (e) Refraction
-

85. What is the name of the winged vehicle used by ISRO in the third Reusable Launch Vehicle (RLV) Landing Experiment (LEX-03) conducted in June 2024?

- (a) Vikram
 - (b) Pushpak
 - (c) Gaganyaan
 - (d) Shakti
 - (e) Tejas
-

In the following question, a sentence with two highlighted phrases are given which may or may not be grammatically correct. From the given alternatives, choose the most suitable pair of phrases that are grammatically and contextually correct to replace the incorrect phrases.

86. The ongoing effort to combat neglected tropical diseases, which disproportionately affect vulnerable populations in low-income countries, have highlighted the critical need for global collaboration. (i) efforts for fighting neglected/ had highlighted the critical need (ii) recent effort to combat neglected/ has highlighted the critical need (iii) ongoing efforts to combat neglected/ have highlighted the critical need

- (a) Both (ii) and (iii)
- (b) Only (iii)
- (c) Both (i) and (iii)
- (d) Only (ii)

(e) All (i), (ii) and (iii)

87. The unexpected delay on releasing the much-anticipated book had left fans disappointed, yet eager to explore the story once it becomes available. (i) unexpected delay in releasing / left fans disappointed yet eager (ii) unexpected delay in releasing / has left fans disappointed yet eager (iii) unexpected delay releasing / had left fans disappointed yet eager

- (a) Both (i) and (ii)
 - (b) Only (iii)
 - (c) Both (ii) and (iii)
 - (d) Only (ii)
 - (e) All (i), (ii), and (iii)
-

88. The detailed analysis of financial trends by the economists did provide valuable insights, allowing investors to make informed decisions in a volatile market. (i) detailed analysis about / has provided valuable insights (ii) detailed analysis of / have provided valuable insights (iii) detailed analysis of / has provided valuable insights

- (a) Both (i) and (iii)
 - (b) Only (ii)
 - (c) Both (ii) and (iii)
 - (d) Only (iii)
 - (e) All (i), (ii), and (iii)
-

89. The professors' detailed lecture about historical narratives emphasized the importance of understanding cultural contexts, a lesson still relevant today (i) professor's detailed lecture of / emphasized the importance of (ii) professor's detailed lecture on / has emphasized the importance of (iii) professor's detailed lecture on / emphasized the importance of

- (a) Both (i) and (ii)
 - (b) Only (iii)
 - (c) Both (ii) and (iii)
 - (d) Only (i)
 - (e) All (i), (ii), and (iii)
-

90. The skilled weaver's intricate designs for luxurious fabrics did captivated the attention of fashion enthusiasts and collectors at the international exhibition. (i) skilled weaver intricate designs on / has captivated the attention (ii) skilled weaver's intricate designs on / have captivated the attention (iii) skilled weaver's intricate designs of / have captivated the attention

- (a) Both (i) and (iii)
 - (b) Only (ii)
 - (c) Both (ii) and (iii)
 - (d) Only (i)
 - (e) All (i), (ii), and (iii)
-

In the questions below, three sentences are provided. Select the most appropriate connectors to link (A)-(B) and (B)-(C) respectively to form a cohesive sentence without altering the given context.

92. (A) The students worked tirelessly on their group project, researching extensively and compiling their findings into a detailed report, (B) they faced numerous challenges, such as conflicting schedules and limited resources, (C) they managed to submit their work on time, impressing their professor with their dedication and collaborative effort (i) although (ii) while (iii) and yet (iv) which

- (a) ii, iv
 - (b) i, iii
 - (c) i, ii
 - (d) iii, iv
 - (e) ii, iii
-

93. (A) The company introduced a new product line aimed at younger consumers, (B) the initial feedback from the market was mixed, highlighting both strengths and areas for improvement, (C) the sales team decided to focus on promotional campaigns to address consumer concerns. (i) because (ii) despite (iii) and therefore (iv) however

- (a) i, iii
- (b) ii, iii

- (c) ii, iv
- (d) i, iv
- (e) iii, iv

94. (A) The team worked late into the night to finalize the presentation, (B) they discovered a critical error in their analysis, (C) they resolved the issue and delivered the presentation successfully. (i) although (ii) because (iii) and (iv) however

- (a) ii, iii
- (b) ii, iv
- (c) i, iv
- (d) iii, ii
- (e) i, iii

Read the following conversation between X and Y, and answer the given question. X: Have you noticed the product's performance? It has significantly alienating (A) lately. Y: Absolutely. It's plagued with glitches now?seems like some underlying malfunctions (B). X: I tried to troubleshoot, but their support only offered deficiencies (C) like rebooting. Y: Typical. They really need to focus (D) on addressing these issues instead of avoiding accountability. X: True. If they don't resolve this, they'll end up deteriorated (E) loyal customers like us. Y: I'll draft a formal complaint. It's time they addressed these recurring stopgap measures (F). X: Good idea. Let me know?otherwise, a switch to a competitor seems inevitable.

96. Which of the following is correct sequence of the words after the rearrangement?

- (a) E-A and F-C
- (b) A-C and B-D
- (c) F-C and A-D
- (d) E-A and B-D
- (e) A-B and C-F

97. Which of the following is the synonym of the word ?FOCUS??

- (a) converge
- (b) concentrate
- (c) centralize
- (d) define
- (e) present

Read the following passage and answer the given questions. Online marketing has dramatically reshaped the way products and services are presented, especially for younger audiences who dominate the digital space. Platforms like social media, streaming services, and personalized ads are central to this transformation, relying on advanced algorithms to tailor promotional content. For youth, this means a daily influx of messages that are often indistinguishable from entertainment. This digital strategy significantly shapes the purchasing habits of young people. Continuous exposure to targeted ads tends to drive impulsive shopping, fueled further by the endorsements of influencers. These influencers, who often appear relatable, lend authenticity to promotions, making them far more persuasive than traditional advertisements. As a result, young consumers are not just passive buyers but active trendsetters, analyzing market demands in a predictive manner. However, there is a downside to this influence. Online marketing frequently glamorizes products, portraying lifestyles that many young people aspire to but may not realistically achieve. Such aspirational content can result in financial strain as they attempt to keep up with these idealized images. Additionally, this constant exposure to rapid, attention-grabbing content is thought to contribute to shorter attention spans among the younger generation. Despite these concerns, there are notable benefits to online marketing for youth. It offers them access to a wide range of products and the ability to make more informed decisions through reviews and comparisons. For young entrepreneurs, digital platforms serve as a springboard for showcasing their products and reaching a global audience. Yet, ethical questions loom large, particularly around privacy and the use of personal data, as companies strive to maximize profits without always considering consumer well-being. In essence, online marketing is a double-edged sword. It has brought convenience and innovation, but its implications for youth demand ongoing attention to ensure that its influence remains positive and balanced.

98. What dual nature of online marketing's influence on youth is emphasized in the passage?
- (a) It promotes both financial independence among youth by offering comparative purchasing tools and impulsive buying through emotional advertisements driven by influencers.
 - (b) It simultaneously provides access to a diverse range of products and services through online platforms and creates unrealistic lifestyle aspirations through glamorized marketing strategies.

- (c) It fosters shorter attention spans among youth due to constant exposure to high-speed, engaging content, while also promoting financial discipline through structured promotional campaigns.
 - (d) It enables market dominance by social media influencers who shape consumer trends, while diminishing the relatability of conventional celebrity endorsements.
 - (e) It glamorizes consumerism and aspirational lifestyles, reducing the focus on product quality and customer satisfaction in the marketing narrative.
-

99. How does the role of influencers in online marketing contrast with traditional advertisements, as described in the passage?

- (a) Influencers help curb impulsive purchasing tendencies by fostering trust through personalized endorsements, unlike traditional advertisements which rely on broad and impersonal messaging strategies.
 - (b) Influencers focus on driving trends through their social media presence and interactive content, which contrasts with traditional advertisements that primarily aim to reinforce brand identity through repetitive visual and auditory cues.
 - (c) Influencers depend on advanced algorithmic analysis of youth behavior to deliver targeted content, unlike traditional advertisements which are created based on extensive focus group studies and demographic assumptions.
 - (d) Influencers contribute to a sense of relatability and authenticity by endorsing products in a personal context, whereas traditional advertisements often lack this individual connection and rely on generalized promotional content.
 - (e) Influencers entirely replace the need for personalized marketing by integrating into the audience's lifestyle, unlike traditional ads which are largely ineffective in delivering tailored messages.
-

100. Choose the most appropriate phrase to replace 'serve as a springboard' without altering the context.

- (a) Act as a launching pad
 - (b) Function as a stepping stone
 - (c) Provide a direct solution
 - (d) Serve as a barrier to entry
 - (e) Offer a restrictive pathway
-

101. Choose the most appropriate phrase to replace the highlighted phrase 'analyzing market demands in a predictive manner'.

- (a) Forecasting consumer trends based on available insights
 - (b) Shaping consumer expectations with limited foresight
 - (c) Driving impulsive purchases in response to evolving ads
 - (d) Steering market demands in unprecedented ways
 - (e) Reacting passively to marketing trends and patterns
-

102. Choose the most suitable synonym of 'OFFERS' as used in the passage.

- (a) Eliminates
 - (b) Predicts
 - (c) Provides
 - (d) Proposes
 - (e) Foresees
-

In the following passage there are blanks, each of which has been denoted by letters. For each blank each, three words are suggested. Following the words, five options are given. Choose the most appropriate set of words from the options that fits the blank appropriately. The recruitment landscape in Europe has evolved significantly, driven by globalization and the proliferation of sophisticated technologies. Employers increasingly prioritize processes that are _____ (A) (A: (I) equitable, (II) antiquated, (III) rational) to attract a wider talent pool. Moreover, the introduction of artificial intelligence (AI) has transformed candidate screening, making it more _____ (B) (B: (I) incisive, (II) haphazard, (III) perfunctory). However, despite these advancements, recruiters face challenges in ensuring their hiring practices remain _____ (C) (C: (I) capricious, (II) myopic, (III) scrupulous). Diversity and inclusion have also emerged as crucial factors, compelling organizations to adopt _____ (D) (D: incongruous (I), (II) synergistic, (III) symbiotic) strategies to foster a collaborative workplace culture. Furthermore, navigating Europe's stringent labor laws requires companies to remain _____ (E) (E: (I), recalcitrant (II) compliant, (III) apathetic) in their operations. Even so, the ever-growing competition for skilled professionals has made the recruitment process increasingly _____ (F) (F: (I) onerous, (II) relinquishing, (III) demanding).

103. Which of the following words will fit in the given blank (A)?

- (a) Both (II) and (III)
- (b) Only (II)

- (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Both (I) and (II)
-

104. Which of the following words will fit in the given blank (B)?

- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Both (I) and (II)
-

105. Which of the following words will fit in the given blank (C)?

- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Both (I) and (II)
-

106. Which of the following words will fit in the given blank (D)?

- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Both (I) and (II)
-

107. Which of the following words will fit in the given blank (E)?

- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Only (II)
-

108. Which of the following words will fit in the given blank (F)?

- (a) Both (II) and (III)
 - (b) Only (III)
 - (c) Both (I) and (III)
 - (d) Only (I)
 - (e) Both (I) and (II)
-

Read the following passage and answer the given questions. Chinese horoscope platforms embody a profound synthesis of antiquated astrological tenets and modern interpretative mechanisms. Unlike the heliocentric predilections of Western astrology, the Chinese zodiac operates on a dodecennial framework, wherein each annum is governed by a specific zoological archetype?such as the Rat, Dragon, or Ox?paired with one of the five metaphysical elements: Wood, Fire, Earth, Metal, or Water. These elements, perpetually oscillating in an intricate cyclical sequence, infuse each zodiac year with distinctive energetic attributes. The prognostications are further nuanced by the application of "BaZi," or the Four Pillars of Destiny, which meticulously delineates the celestial influences of an individual?s natal year, month, day, and hour. This methodology integrates "heavenly stems" and "earthly branches" to construct a symbiotic matrix of cosmic energies. Practitioners extrapolate these esoteric alignments to proffer bespoke insights into realms such as professional trajectories, interpersonal dynamics, and corporeal well-being, emphasizing consonance with universal rhythms. This ancient paradigm underscores an intricate amalgamation of philosophical profundity and contemporary digitized execution.

109. What distinguishes the Chinese zodiac?s framework from Western astrology, as explained in the passage?

- (a) Chinese zodiac forecasts are anchored exclusively in metaphysical constructs, contrasting with Western astrology's foundation on heliocentric principles.
- (b) Western astrology adheres to a twelve-year cyclical framework, whereas the Chinese zodiac emphasizes planetary configurations.

- (c) The Chinese zodiac integrates animal archetypes with a quintet of recurring elements, diverging from the annual orientation of Western astrology.
- (d) The Chinese zodiac employs the BaZi methodology exclusively, in contrast to Western astrology's reliance on fixed celestial reference points.
- (e) Western astrology integrates terrestrial branches, whereas the Chinese zodiac derives its framework solely from constellational patterns.

110. What can be inferred about the relationship between "heavenly stems" and "earthly branches" in BaZi analysis?

- (a) They function in isolation to delineate universal cadences for zodiacal interpretations.
- (b) They center exclusively on physical vitality, exerting negligible influence on relational or occupational analyses.
- (c) They are archaic constructs omitted from the purview of contemporary Chinese astrological methodologies.
- (d) They hinge solely on the natal year to derive both vocational and personal astrological prognostications.
- (e) They constitute an interdependent framework employed to elucidate cosmic influences shaping an individual's essence.

Rearrange the following five sentences (A), (B), (C), (D) and (E) in the proper sequence to form a meaningful paragraph and then answer the question given below.

111. (A) Early identification of mental health issues can lead to better outcomes. (B) Stigma around mental health often prevents people from seeking help. (C) Mental health plays a crucial role in overall well-being. (D) Support systems, like therapy and counseling, can aid recovery effectively. (E) Promoting awareness and open conversations is vital for breaking the stigma.

- (a) BCADE
- (b) CBEAD
- (c) DCBAE
- (d) CBEAD
- (e) DACBE

112. (A) Establishing a dedicated Indian cybersecurity force is crucial to counter threats. (B) The rise in cybercrime threatens critical sectors like banking and defense. (C) Strengthening cybersecurity infrastructure can protect sensitive data and national interests. (D) India's rapid digital transformation has made it a target for cyberattacks. (E) Coordinated efforts between the government and private sectors are essential for success.

- (a) BCADE
- (b) ADCBE
- (c) DBCAE
- (d) BDCAE
- (e) DACBE

Read the following passage and answer the given questions. Japan is grappling with a demographic crisis as it faces the reality of being one of the oldest nations in the world. Recent data shows that more than 10% of Japan's population is aged 80 or older, while 29% are over the age of 65. This aging population, coupled with a declining birth rate, is putting unprecedented pressure on Japan's government and economy. Projections estimate that the population could shrink from its current 125 million to around 96 million by 2060. By that time, nearly 40% of the population will be over 65, a demographic scenario unparalleled in modern history. Recognizing the urgency, the Japanese administration has initiated a quick and light movement towards solutions. Policymakers are implementing reforms at an accelerated pace to address the challenges posed by this demographic shift. Key strategies include providing (A) older citizens to participate (B) in the workforce and encouraging (C) incentives for women to remain (D) more actively in the job market. In tandem, efforts to modernize industries are being supported by technological advancements such as robotics and artificial intelligence, which are increasingly used to fill labor gaps in eldercare and manufacturing. Despite these measures, the situation remains complex. Healthcare and pension costs account for approximately 30% of public expenditure, and sustaining the pension system is becoming increasingly difficult. By 2050, there will be nearly one retiree for every working-age person, a stark contrast to the 1970s when the ratio was 1:4. The administration's light movement also focuses on incentivizing higher birth rates by investing in childcare subsidies, parental leave policies, and family support programs. However, societal preferences for smaller families persist, complicating these efforts. Culturally, Japan's historically restrictive stance on immigration continues to slow progress in diversifying the workforce. While immigration reform has been explored, achieving substantial change requires overcoming deep-rooted societal resistance. Japan's quick and light movement reflects a determined approach to tackling this demographic crisis, but the road ahead demands multifaceted solutions and cultural shifts. The country's experience serves as a global case study, offering lessons for nations facing similar demographic transitions.

113. According to the passage, what does the phrase "quick and light movement" primarily emphasize in Japan's approach to its aging population crisis?
- (a) A hastily implemented series of policies aimed at completely eliminating the aging population issue by 2050, focusing on youth-oriented solutions.
 - (b) A strategic and accelerated implementation of multifaceted measures to address the challenges of a declining workforce and rising dependency ratios.
 - (c) A symbolic gesture by the Japanese government to highlight technological advancements in eldercare without addressing broader societal concerns.
 - (d) A temporary shift in policy to test immigration-based solutions, primarily designed to delay the effects of an aging population.
 - (e) A movement to decentralize administrative authority, empowering local governments to manage aging-related issues independently.
-
114. Which of the following can be inferred from the passage regarding the global relevance of Japan's demographic crisis?
- (a) Japan's aging population serves as an isolated case study with minimal implications for nations with diverse demographics and robust birth rates.
 - (b) The challenges faced by Japan highlight the importance of cultural adaptability in implementing effective immigration reforms.
 - (c) Other nations with aging populations must adopt Japan's robotics and AI strategies to completely resolve their demographic challenges.
 - (d) Japan's experience underscores the need for immediate global attention to pension sustainability and workforce management as universal concerns.
 - (e) Comprehensive government intervention alone is sufficient to address the issues of aging populations worldwide.
-
115. If the trend of Japan's population shrinking to 96 million by 2060 continues, what might be inferred about its global economic ranking?
- (a) Japan will likely maintain its economic position due to advances in automation and exports.
 - (b) Japan's economy may contract due to a reduced labor force and declining domestic demand.
 - (c) The shrinking population will attract foreign investment to fill labor and productivity gaps.
 - (d) Japan will experience sustained economic growth through technological leadership.
 - (e) The demographic trends will have minimal impact on Japan's global economic role.
-
116. Which of the following accurately reflects Japan's strategies to cope with its aging population? (I) Encouraging older citizens to continue working while adopting robotics to fill labor gaps. (II) Providing substantial childcare subsidies to boost the birth rate and offset the shrinking workforce. (III) Rapidly expanding immigration policies to increase the workforce and reduce dependency ratios.
- (a) Only (I)
 - (b) Both (I) and (II)
 - (c) Only (III)
 - (d) Both (II) and (III)
 - (e) All (I), (II), and (III)
-
117. Choose the correct interchange of words to make the sentence grammatically and contextually correct.
- (a) A-C
 - (b) A-B
 - (c) B-D
 - (d) A-C and B-D
 - (e) A-D and B-C
-
118. Choose the most suitable word which has the similar meaning as "stark" used in the passage.
- (a) Sharp
 - (b) Bright
 - (c) Subtle
 - (d) Indistinct
 - (e) Modest
-

119. Which of the following issues are identified as key challenges for Japan's pension system in the passage? (I) A rising dependency ratio that reduces the number of working-age individuals relative to retirees. (II) Insufficient technological integration to streamline the management of pension funds. (III) Increasing healthcare costs due to the growing elderly population.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (II)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

120. What does the passage imply about the role of historical factors in shaping Japan's current demographic situation?

- (a) Historical immigration policies have contributed significantly to the rising percentage of elderly citizens.
- (b) Past declines in birth rates have compounded the current population decline and aging demographic.
- (c) Japan's historical focus on industrial growth has stabilized population trends over time.
- (d) The aging population trend in Japan is unrelated to historical factors and is solely a recent development.
- (e) Historical increases in fertility rates have delayed the aging population crisis until now.

Solve the given series and answer the following questions. Series: $a + 15$, $a + 16.2$, $a + 18.6$, _____, _____, M Note: (i) x and y are prime number less than 10. $(y > x)$ (ii) $xy = a$ (iii) $2a = 10y$.

127. Find which of the series follows the same pattern as above series. I. 25.8, 27, 29.4, 33, 37.8, 43.8 II. 112, 113.2, 115.6, 119.2, 124, 130 III. 325, 326.2, 328.6, 332.2, 337, 343

- (a) Both I & II
- (b) Both I & III
- (c) All I, II & III
- (d) None of the above
- (e) Only I

128. Find the seventh term of the given series.

- (a) 75.2
- (b) 68
- (c) 83.6
- (d) 77.2
- (e) 92.8

129. Find the value of M.

- (a) $9y + x$
- (b) $\&$
- (c) $2a - 2$
- (d) All (a),
- (e) None of the above

130. If 7 is added to the value of $2a$, then the resultant is?

- (a) Divisible by 7
- (b) Multiple of 11
- (c) Prime number

131. A bus can cover x km distance with speed of p km/hr in four hours. The speed of stream is q km/hr and a boat covers x km distance in downstream & upstream with speed of p km/hr in total 9 hours. If boat takes 1 hour more to cover 30 km upstream than 20 km downstream, find the value of x ??

- (a) $3p + 2q$
- (b) $60 + 2q + 30$
- (c) $5q + p$
- (d) $(1.5p + 4q) + 35$
- (e) $4q + 2p$

132. Which of the statement is/are not required to find the age of Raj after 6 years. (i) Simran is eight years younger to Raj. (ii) Mohit is four years elder to Mahi. (iii) Mahi is 10 years younger to Raj. (iv) The ratio of present age of Simran and Mahi is 5:4.

- (a) Both (i) and (ii)
 - (b) Only (ii)
 - (c) Only (iii)
 - (d) Both (iv) & (ii)
 - (e) Only (i)
-

133. Find the difference between average temperature on Saturday and Tuesday together and average temperature on Wednesday and Saturday together. (i) The average temperature on Saturday, Tuesday and Wednesday is 45 degrees. (ii) The sum of temperature on Tuesday and Wednesday is 115 degrees. (iii) Sum of temperature on Tuesday and Saturday is degrees 80.

- (a) 2.5
 - (b) 5.5
 - (c) 6.5
 - (d) 11.5
 - (e) 12.5
-

140. X liters of mixture contain milk and water. Water is 20% in the mixture. Follow the steps one after another in the given order. I. b liters of water is added, and the percentage of water in the mixture becomes 25%. II. b liters of mixture is removed. III. 1.5b liters of milk are added. Find the final quantity of the mixture after completing these three steps.

- (a) 16.5b
 - (b) 18.5b
 - (c) 17.5b
 - (d) 12.5b
 - (e) 15.5b
-

Solve the given equations and answer the question given below. I. $x^2 + 5x + 6 = 0$ III. $x^2 + 7x + 12 = 0$ II. $x^2 - 13x + 20 = 0$ IV. $x^2 - 9x + 20 = 0$ Note: (i) Sum of co-efficient of x^2 , x , y^2 and y is -5. (ii) Roots of all the equations are non-imaginary. (iii) Both A & B are positive integers.

141. Find the difference between the larger root of equation IV and smallest root of equation II.

- (a) 2.5
 - (b) 4
 - (c) 1.5
 - (d) 2
 - (e) 3.5
-

142. Find the product of the larger root of equation I and smaller root of equation IV.

- (a) 4
 - (b) 8
 - (c) 4
 - (d) 8
 - (e) 10
-

143. If 6 is subtract from smaller root of equation III and add the resultant to the value of B, then find the square of the resultant number.

- (a) 225
 - (b) 64
 - (c) 81
 - (d) 144
 - (e) 121
-

153. A man has two articles A and B, to find the selling price of article B which statement or statements is/are required to answer the question. A. Total amount received by man after selling six article A and four article B is Rs.240, From this total amount either man could buy nine article A & four article B or three article A and eight article B. B. The ratio of profit percent on selling article A and article B is same. C. Total profit earned on selling one article B is Rs. 6 and profit percentage on selling one article A is 25%. The selling price and the cost price of article B are Rs.10 and Rs.8 more than that of article A respectively.

- (a) Either A and B together or B and C together are sufficient to answer the question
 - (b) Either A and B together or C alone is sufficient to answer the question
 - (c) Either A and C together or B and C together are sufficient to answer the question
 - (d) A, B and C together are sufficient to answer the question
 - (e) Either only B or A and C together are sufficient to answer the question
-

154. The question is followed by three statements I, II and III. You have to determine which statement or statements (s) is/are sufficient/necessary to answer the question and mark answer accordingly. The slant height of a cone is x cm. If side of a square is $(x+5)$ cm, then find the area of the square. I. The ratio of diameter of cone to its height is 3 : 2. II. The base and height of a cylinder is same as base and height of the cone respectively. Volume of the cylinder is 4500π cm³. III. Total surface area of the cone is 600π cm² and curved surface area of the cone is 375π cm².

- (a) Statement II and III together sufficient to answer the question
 - (b) Statement III alone is sufficient to answer the question
 - (c) All the three statements taken together are necessary to answer the question
 - (d) Statement I and II together sufficient but III alone not sufficient
 - (e) Either statement I and II together or statement III alone is sufficient to answer the question.
-

155. Two containers A and B contains mixture of milk and water. Container A contains milk & water in the ratio of 3:5 and milk in container B is 75%. The total quantity of mixture in container A to B is $500x$ liters & $400y$ liters. If mixture A is mixed with mixture B, then which statement (s) is/are sufficient/necessary to find the total quantity of container A (in liters). I. The sum of quantity of milk in container A and B is 195 liters. II. The quantity of water in container A is 85 liters more than that of B.

- (a) Either (I) alone or (II) alone
 - (b) Only (I)
 - (c) Only (II)
 - (d) Both (I) and (II)
 - (e) None of them
-
