IBPS RRB Prelims 2024

43 questions

Read the given information carefully and answer the questions based on it: A certain number of persons sit in a row facing north. Five persons sit between P and Q. M sits third to the right of Q and fourth from an end. The number of persons sit between H and M is same as the number of persons sit between Q and M. Four persons sit between B and H. D sits sixth to the left of B and third from an end. G sits fourth to the right of F who sits between D and Q. ??

1. What is the position of M with respect to G? (a) Immediate left (b) Second to the left (c) Fourth to the left (d) Second to the right (e) Immediate right

2. The number of persons sit between D and F is same as the number of persons sit between ___ and ___. (a) B, P (b) Q, H (c) B, G (d) M, H (e) P, F

3. How many persons sit in the row? (a) 19 (b) 17 (c) 13 (d) None of these (e) 14

4. Who among the following sits exactly between F and H? (a) Q (b) B (c) G (d) M (e) P

5. Which of the following is true about B? I. Five persons sit to the right of B II. No one sits between B and M III. P sits seventh to the left of B (a) Only I (b) Only II (c) Only III (d) Only I and II (e) Only I and III

6. If 2 is subtracted from each even digit and 1 is subtracted from each odd digit in the number 463278293, then which of the following digits will appear more than twice in the new number thus formed? (a) Only 6 (b) Only 6 and 2 (c) Only 2 (d) 6, 8 and 2/6 (e) None of these

7. In the word 'RESIDUAL', how many pairs of the letters have the same number of letters between them (both forward and backward direction) in the word as in the alphabet?
 (a) Four
 (b) Two
 (c) One
 (d) Three
 (e) None

Read the given information carefully and answer the questions based on it: Nine boxes A, B, C, D, E, F, G, H and I are placed one above the other in a stack (but not necessarily in the same order as given). The boxes are numbered as 1 to 9 from bottom to top. Five boxes are placed between box B and box G. Box E is placed just below box G. Three boxes are placed between box E and box H. Box I is placed just below box H but above box D which is a prime numbered box. Box C is placed above box A but does not place on topmost position.
 Four of the following five are similar in a certain pattern and related to a group, which does not belong to the group?
 (a) B-G
 (b) D-G
 (c) H-I
 (d) A-H
 (e) E-C

17. How many boxes are placed between box D and box F?
 (a) Two
 (b) Three
 (c) Four
 (d) Five
 (e) Six

18. Which box is placed exactly between box A and box G?
 (a) Box H
 (b) Box I
 (c) Box D
 (d) Box C
 (e) Box E

19. Which of the following is correct?
 (a) Box F and box H are adjacent to each other
 (b) Box E is placed at bottommost position
 (c) All are correct
 (d) Four boxes are placed below box I
 (e) Box C is placed at even number position

20. Which box is placed immediately below box I?
 (a) Box D
 (b) Box G
 (c) Box H
 (d) Box F
 (e) Box C

- Read the given information carefully and answer the questions based on it: Eight persons A, B, C, D, E, F, G and H sit around a circular table but not necessarily in the same order as given. Four persons face inside and four face outside. E sits second to the right of A who faces inside. Two persons sit between E and F who faces opposite direction as A. Three persons sit between G and C who doesn't sit adjacent to A. Immediate neighbors of G face same direction. H sits third to the right of D who faces same direction as A. B faces same direction as E but does not sit adjacent to F. ?? ?? ??????? ?? ?????????? ???? ?? ?? ?? ?????? ????????? ?? ????? ?????? ??
