IBPS RRB Prelims 2025

49 questions

Study the information carefully and answer the questions given below. B has only one son. A is child of B. C is sister-in-law of A. E is son of C. F is grandfather of E. H is unmarried. H is daughter of D. F and B are of same gender. F is the spouse of D. G is the male member of the family.

1. How is C related to B?

- (a) Daughter
- (b) Daughter-in-law
- (c) Aunt
- (d) Mother-in-law
- (e) None of these

2. How is G related to D?

- (a) Son
- (b) Daughter
- (c) Nephew
- (d) Uncle
- (e) Son-in-law

3. How is E related to brother-in-law of H?

- (a) Son
- (b) Son-in-law
- (c) Nephew
- (d) Uncle
- (e) None of these

4. Find the odd-one out.

- (a) KMO
- (b) GIK
- (c) BDF
- (d) UXZ
- (e) EGI

15. If in the given word 'PREVAIL', if vowels are changed to immediately succeeding letter and consonants are changed to immediately preceding letter, then find how many vowels are there in the new arrangement?

- (a) One
- (b) None
- (c) Two
- (d) Three
- (e) Four

21. In the word 'TROUBLE', how many pairs of the letters have the same number of letters between them (both forward and backward direction) as in the English alphabet?

- (a) Four
- (b) Two
- (c) One
- (d) Three
- (e) More than four

In this question, relationship between different elements is shown in the statements. The statements are followed by two conclusions. Give answer:

22. Statements: $R > T$? $W < K = P > H$? J Conclusions: I. $W < H$ II. $J > K$

- (a) If only conclusion I is true

- (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

23. Statements: $Q \geq M < R = T > K \geq S > V$ Conclusions: I. $R > K$ II. $V \geq M$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

24. Statements: $L > X \geq D \geq P = Y < H \geq C$ Conclusions: I. $X \geq Y$ II. $C > P$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

The following question contains some statements followed by two conclusions numbered I and II. Assume that all the statements are true, even if they seem to differ from commonly known facts. Analyze both conclusions and decide which one logically follows from the given statements.

25. Statements: Only a few cars are blue Some blue are fast Conclusions: I. Some cars being fast is a possibility II. Some fast is not blue

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

26. Statements: Some roses are red All red are fresh Only a few fresh is dry Conclusions: I. No red is dry II. No roses being dry is a possibility

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

27. Statements: All rivers are valleys Some valleys are hills No hills are mountains Conclusions: I. No rivers being hills is a possibility II. Some valleys are not mountains

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

Read the given information carefully and answer the related question: Six persons A, B, C, D, E and F have different heights (in cm). F is taller than C but shorter than D. The height of 2nd tallest person is 181cm. E is shorter than D but taller than A. B is taller than D. E is taller than C but shorter than F. The third shortest person is 174cm.

28. How many persons are shorter than B?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) Five
-

29. What will be the possible height of F?

- (a) 168cm
 - (b) 183cm
 - (c) 178cm
 - (d) 159cm
 - (e) 173cm
-

30. Who among the following is second shortest?

- (a) F
 - (b) E
 - (c) B
 - (d) Either C or A
 - (e) A
-

The following question is based on the 3-letter word series given below. Read carefully and answer accordingly:
SUN EAT DOG ANT JAM

31. If all the words are arranged alphabetically from left then, which word will become third from the right end?

- (a) EAT
 - (b) JAM
 - (c) SUN
 - (d) DOG
 - (e) ANT
-

32. If second letter in each word is changed to its immediate next letter (as per English alphabet), then how many words will become meaningful?

- (a) Three
 - (b) Two
 - (c) One
 - (d) None
 - (e) Four
-

33. How many letters are between ?first letter of second from left end? and ?third letter of third word from right end?, as per English alphabet?

- (a) Three
 - (b) One
 - (c) Four
 - (d) Six
 - (e) Seven
-

34. If the letters within each word are arranged in dictionary order from left, then how many words will have third letters as vowel?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

35. Which letter is third from the left in the word which is fourth from left end?

- (a) M
 - (b) N
 - (c) G
 - (d) T
 - (e) E
-

Read the given information carefully and answer the related questions: Seven persons A, B, C, D, E, F and G are designated on different designations in a company but not in same order as given. The designations are CEO, COO, AM, GM, AGM, Manager and Executive. The designations are given in decreasing order of their seniority such that CEO is the seniormost designation and Executive is the junior most designation. A is four designations junior to G. D is designated immediately junior to A. Two persons are designated between B and C. F is two designations senior to C. Who among the following is designated as AM?

36. Who among the following is designated as AM?
- (a) C
 - (b) B
 - (c) E
 - (d) A
 - (e) F
-

37. How many persons are designated junior to C?
- (a) None
 - (b) One
 - (c) Two
 - (d) Three
 - (e) Four
-

38. If G is related to F, in the similar way C is related to A, then D is related to whom?
- (a) A
 - (b) B
 - (c) E
 - (d) C
 - (e) G
-

39. What is the designation of B?
- (a) COO
 - (b) AGM
 - (c) GM
 - (d) CEO
 - (e) Executive
-

40. Who among the following is two designations senior to D?
- (a) E
 - (b) F
 - (c) B
 - (d) C
 - (e) G
-

The table given below shows the total number of scooter and car sold by five companies. Read the data and answer the following question. Companies Scooters sold Cars sold A B C D E

41. Find the ratio of scooters sold by A and B together to cars sold by D.
- (a) 7:9
 - (b) 13:12
 - (c) 12:13
 - (d) 61:62
 - (e) 31:12
-

42. If the ratio of sold to unsold scooters in D is 1:2, then find the total (sold + unsold) scooters in D
- (a) 420
 - (b) 480
 - (c) 400
 - (d) 450
 - (e) 410
-

43. Out of the total Cars sold by B, 25% of the cars are defective. Find the non-defective cars sold by B is what percentage of total scooter sold by C.

- (a) 37%
 - (b) 33%
 - (c) 31%
 - (d) 26%
 - (e) 36%
-

44. Average number of scooters sold by all the companies.

- (a) 266
 - (b) 113
 - (c) 166
 - (d) 176
 - (e) 196
-

45. If company F sold 20% more scooters than A and 30% less cars than E, then find the sum of total number of scooters and cars sold by F

- (a) 266
 - (b) 333
 - (c) 366
 - (d) 376
 - (e) 338
-

51. A shopkeeper marked an article 25% above its cost price and allowed 20% profit on the article. If the discount allowed on the article is Rs 20, then find the cost price of the article (in Rs).

- (a) 250
 - (b) 400
 - (c) 500
 - (d) 480
 - (e) 350
-

52. A and B started a business with investment of Rs 2000 and Rs 4000 respectively. After 6 months B invested 50% more of his initial investment and at the end of the year the total profit of Rs 14000. Find the profit share of B (in Rs).

- (a) 12000
 - (b) 10000
 - (c) 8000
 - (d) 7000
 - (e) 5000
-

53. A 44-liter mixture contains milk and water. The quantity of milk is 6 liters more than that of water. How much water must be added so that the ratio of milk to water becomes equal?

- (a) 6
 - (b) 5
 - (c) 7
 - (d) 8
 - (e) 10
-

54. 520 meters long train can cross a pole in 13 seconds. Find the time taken by the train to cross 130-meter-long platform (in seconds).

- (d) (e)
-

55. If the circumference of the circle is 88 cm, then find the area of the circle (in cm^2).

- (a) 900
- (b) 824
- (c) 616
- (d) 1024
- (e) 540

56. The present ages of A and B are in the ratio of 7 : 9, respectively. Six years ago, the ratio of their ages was 11 : 15, respectively. Find the age of B three years from now (in years).

- (a) 36
 - (b) 33
 - (c) 42
 - (d) 39
 - (e) 45
-

57. A man spends 20% of his income on rent and 10% of the remaining amount on groceries. He saves the rest. If his total expenditure (on rent and groceries) is Rs 4200, find the amount he saves (in Rs).

- (a) 9850
 - (b) 19200
 - (c) 15400
 - (d) 12400
 - (e) 10800
-

58. The total cost of 6 pens and 9 pencils is Rs 150. What will be three-fourth of the total cost of 12 pens and 18 pencils?

- (a) Rs 225
 - (b) Rs 280
 - (c) Rs 262.5
 - (d) Rs 202.5
 - (e) Rs 240
-

59. The average of three consecutive even numbers is 106. Find the average of the second largest and the largest numbers.

- (a) 112
 - (b) 110
 - (c) 107
 - (d) 103
 - (e) 105
-

60. The population of a town increases by 10% in the first year and decreases by 5% in the next. What is the overall percentage change after two years.

- (a) 4% increase
 - (b) 4.5% increase
 - (c) 5% increase
 - (d) 5.5% increase
 - (e) No change
-

Find the wrong number in the given series.

61. 220, 225, 215, 231, 206, 242 (a)225 (b)220 (c)231 (d)206 (e)242

(no options)

62. 121, 123, 126, 131, 138, 150 (a)121 (b)150 (c)123 (d)126 (e)138

(no options)

63. 13, 104, 197, 292, 380, 488 (a)13 (b)104 (c)380 (d)112 (e)488

(no options)

64. 322, 330, 338, 336, 354, 362 (a)322 (b)330 (c)362 (d)336 (e)354

(no options)

65. 3, 4, 7, 10, 18, 34 (a)3 (b)4 (c)7 (d)10 (e)18

(no options)

What will come in the place of question (?) mark in following questions.

66. $44\% \text{ of } 750 + ?3 = 546$

- (a) 5
 - (b) 8
 - (c) 4
 - (d) 6
 - (e) 3
-

67. $(48 \times ?) + (52 \times 6) = 80\% \text{ of } 840$

- (a) 3.5
 - (b) 12.5
 - (c) 2.5
 - (d) 4.5
 - (e) 7.5
-

74. $15\% \text{ of } 300 + 9.09\% \text{ of } 803 + 3 = (?)^2$

- (a) 10
 - (b) 11
 - (c) 9
 - (d) 8
 - (e) 12
-

80. $35\% \text{ of } 250 + 25\% \text{ of } 35 = ?$

- (a) 96.25
 - (b) 81.65
 - (c) 82.85
 - (d) 80.65
 - (e) 79.65
-
