SBI Clerk Mains 2016

82 questions

Study the following information to answer the given question. ? Eight friends E, F, G, H, L, M, N and O are seated in a straight line, facing north, but not necessarily in the same order. ? O sits at the extreme right end of the line. Only four people sit between O and G. ? Both F and M are immediate neighbours of G. REASONING ABILITY ? Only two people sit between M and L. L is not an immediate neighbor of O. ? N sits second to left of E.

6. What is the position of L with respect to G?

- (a) Third to the right
- (b) To the immediate left
- (c) Second to the right
- (d) Fourth to the right
- (e) Second to the left

7. Based on the given arrangement, which of the following is true with respect to N?

- (a) Only three persons sit between N and O.
- (b) None of the given options is true.
- (c) Only one person sits to the right of N.
- (d) E sits to immediate right of N.
- (e) Both L and F are immediate neighbours of N

8. Who amongst the following people represents the person seated at the extreme left end of the line?

- (a) E
- (b) N
- (c) L
- (d) F
- (e) H

9. How many persons are seated between O and E?

- (a) Two
- (b) Three
- (c) None
- (d) Four
- (e) One

10. Who amongst the following sit exactly between M and L?

- (a) E, N
- (b) F, O
- (c) F, G
- (d) E, G
- (e) H, N

In each question below is given a group of letters followed by four combinations of digits/symbols numbered (1), (2), (3) and (4). You have to find out which of the combinations correctly represents the group of letters based on the following coding system and mark the number of that combination as the answer. If none of the four combinations correctly represents the group of letters, mark 5), ie ?None of these?, as the answer. Conditions: 1) If the first letter is a consonants and the last letter is a vowel their codes are to be interchanged. 2) If both the first and the last letters is Vowel both are to be coded as +. 3) If both the first and the last letters is Consonant and in between there are two or more vowels are to be coded as 8. 4) If the first letter is vowel and the last letter is a consonant, both are to be coded as the code for the consonant. 21. Statements: B © T, T ? M, M % F Conclusions: I. B © M II. B © F 22. Statements: M ? R, R % T, T \$ K Conclusions: I. K @ M II. K © M 23. Statements: W © D, D @ H, H ? N Conclusions: I. N \$ D II. W © N 24. Statements: W @ D, D \$ R, R © K Conclusions: I. R ? W II. R % W 25. Statements: F \$ J, J % V, V © H Conclusions: I. N \$ F II. N % J

Study the following information and answer the questions given. In a certain code language ?lu ja ka hu? means ?will you meet us?, ?fa ka la ju? means ?will today maximum temperature?, ?la fu ja ju? means ?meet today the temperature? and ?ju lu na fu? means ?temperature of the us?. then

16. What is the code of ?today? in this code language?

- (a) ju
 - (b) la
 - (c) fa
 - (d) ka
 - (e) cannot be determined
-

17. What is the code of ?you? in this code language?

- (a) hu
 - (b) lu
 - (c) ka
 - (d) ja
 - (e) cannot be determined
-

18. What is the code of ?you of maximum??

- (a) ha hu fu
 - (b) fa hu na
 - (c) fu lu na
 - (d) hu fa la
 - (e) cannot be determined
-

19. What is the code of ?us? in this code language?

- (a) hu
- (b) lu
- (c) ja
- (d) ka
- (e) cannot be determined

20. What is the code of ?meet? in this code language?

- (a) hu
- (b) lu
- (c) ja
- (d) ka
- (e) cannot be determined

21. Statements: B © T, T ? M, M % F Conclusions: I. B © M II. B © F

(no options)

22. Statements: M ? R, R % T, T \$ K Conclusions: I. K @ M II. K © M

(no options)

23. Statements: W © D, D @ H, H ? N Conclusions: I. N \$ D II. W © N

(no options)

25. Statements: F \$ J, J % V, V © N Conclusions: I. N \$ F II. N % J

(no options)

Each of the questions below consists of a question and two statements numbered I and II. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and answer? (a) If the data in statements I alone is sufficient to answer 11. EFHKL B (a) @7963* (b) *7963* (c) @7963@ (d) *7S63@ (e) none of these. 12. FTAMIR (a) 7\$4812 (b) 7\$1842 (c) 7\$8882 (d) 7\$189% (e) none of these. 13. DKPRTB (a) *652\$% (b) %652\$% (c) +652\$+ (d) *652\$* (e) none of these 14. UPJTRA (a) 45#\$2© (b) ©5#\$24 (c) ©5#\$2© (d) +5#\$2+ (e) none of these 15. HLEKBI

26. Among 6 persons U, V, W, X, Y and Z, who are sitting around circle facing to the centre. Who sits immediate right of W? Statements: I. X sits second to the left of Y and opposite to U but not near to W. II. Only one person is seated between U and V. Y is seated near to Z.

- (a) 13@6*9
- (b) 93@6*1
- (c) 13@6*1
- (d) 93@6*9
- (e) None of these

27. How P is related to R? Statements: I. Q is father-in-law of R, who is mother of S. P is grandmother of S. II. T is father of P, who is son-in-law of U. U has only one grand-daughter R, who is also a grand-daughter of T.

- (a) 13@6*9
- (b) 93@6*1
- (c) 13@6*1
- (d) 93@6*9
- (e) None of these

28. Who among P, Q, R, S, T, and U is the tallest? Statements: I. S and R are taller than P but shorter than U. Q is taller than T. II. U is shorter than T but taller than Q and S. while P is not tallest.

- (a) 13@6*9
- (b) 93@6*1
- (c) 13@6*1
- (d) 93@6*9

(e) None of these

29. In which direction is Q from of P. Statements: I. Q is towards north of O, which is towards the east of P. II. R is towards east of M and P is towards the west of T.

- (a) 13@6*9
 - (b) 93@6*1
 - (c) 13@6*1
 - (d) 93@6*9
 - (e) None of these
-

30. How many person are sitting in a row? Statements: I. A is on 16th position from the right end of the row. M is on 8th position from the left end of the row. II. A is 18th from the left end and 20th from the right end of the row.

- (a) 13@6*9
 - (b) 93@6*1
 - (c) 13@6*1
 - (d) 93@6*9
 - (e) None of these
-

Triangle represents (1) and circle represents (0). If triangle appears in unit's place then its value is 1. If it appears in 10's place its value is doubled to 2 like that it continues. Questions based on this For example:

36. How will you represent ?13? in this code language?

- (d) (e)
-

37. What will be the code for ?

- (a) 19
 - (b) 20
 - (c) 22
 - (d) 27
 - (e) 25
-

Answer the questions on the basis of the information given below. A number arrangement machine when given an input of words, rearranges them following a particular rule in each step. The following is an illustration of input and steps of rearrangement. Input : 98 Bite 102 Legal 88 54 Mango 21 Cool Zing. Step1: Bite 98 Legal 88 54 Mango 21 Cool Zing 102 Step2: Cool Bite Legal 88 54 Mango 21 Zing 102 98 Step3: Legal Cool Bite 54 Mango 21 Zing102 98 88 Step4: Mango Legal Cool Bite 21 Zing 102 98 88 54 Step5: Zing Mango Legal Cool Bite102 98 88 54 21 This is the final arrangement and step 5 is the last step for this input. As per the rules followed in the above steps, find out in each of the following questions the appropriate steps for the given input. Input for the questions. Input: Kite 19 54 Give 31 Right 72 87 Dream Ace.

41. In step-3, what is position of ?Ace? from the left end?

- (a) Third
 - (b) Fifth
 - (c) Second
 - (d) Sixth
 - (e) First
-

42. In step-5, how many Letters/Numbers are between Dream and 72?

- (a) Five
 - (b) Two
 - (c) Four
 - (d) Six
 - (e) Three
-

43. ?Kite Give Dream Ace Right 87 72 54 31 19? in which of the following step?

- (a) Step-2
- (b) Step-4
- (c) Step-5
- (d) There is no such Step

(e) Step-3

44. In Step-2, which of the following letter/number is 5th right of Kite?

- (a) 31 (b) Give (c) Right
 - (d) 87
 - (e) 54
-

45. How many steps would be needed to complete the arrangement?

- (a) Four
 - (b) Two
 - (c) Seven
 - (d) Six
 - (e) Five
-

In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

62. I. $4x + 7y = 42$ II. $3x - 11y = ?$ I

- (a) if $x > y$
 - (b) if $x = y$
 - (c) if $x < y$
 - (d) if $x \neq y$
 - (e) if $x = y$ or no relation can be established between x and y .
-

63. I. $9x^2 - 29x + 22 = 0$ II. $y^2 - 7y + 12 = 0$

- (a) if $x > y$
 - (b) if $x = y$
 - (c) if $x < y$
 - (d) if $x \neq y$
 - (e) if $x = y$ or no relation can be established between x and y .
-

64. I. $3x^2 - 4x - 32 = 0$ II. $2y^2 - 17y + 36 = 0$

- (a) if $x > y$
 - (b) if $x = y$
 - (c) if $x < y$
 - (d) if $x \neq y$
 - (e) if $x = y$ or no relation can be established between x and y .
-

65. I. $3x^2 - 19x - 14 = 0$ II. $2y^2 + 5y + 3 = 0$

- (a) if $x > y$
 - (b) if $x = y$
 - (c) if $x < y$
 - (d) if $x \neq y$
 - (e) if $x = y$ or no relation can be established between x and y .
-

66. I. $x^2 + 14x + 49 = 0$ II. $y^2 + 9y = 0$

- (a) if $x > y$
 - (b) if $x = y$
 - (c) if $x < y$
 - (d) if $x \neq y$
 - (e) if $x = y$ or no relation can be established between x and y .
-

Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient to answer the question. You should use the data and your knowledge of Mathematics to choose between the possible answers. Give answer? (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone. (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone. (c) If both statements I and II together are required to answer the question. (d) If the answer can be found by using any of the two statements alone. (e) If both the statements together are not sufficient to answer the question.

79. What will be the cost of painting a rectangular wall? I. Cost of painting is Rs 10 per square meter. II. Perimeter of wall is 60 m.

- (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone.
 - (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone.
 - (c) If both statements I and II together are required to answer the question.
 - (d) If the answer can be found by using any of the two statements alone.
 - (e) If both the statements together are not sufficient to answer the question.
-

80. Age of A is one third of age of B. What are their ages? I. After 10 years the ratio between age of A and B will

- (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone.
 - (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone.
 - (c) If both statements I and II together are required to answer the question.
 - (d) If the answer can be found by using any of the two statements alone.
 - (e) If both the statements together are not sufficient to answer the question.
-

81. What is the length of a train? I. It takes 8 seconds to cross a man. II. It takes 20 seconds to cross a 50-meter-long bridge with the same speed.

- (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone.
 - (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone.
 - (c) If both statements I and II together are required to answer the question.
 - (d) If the answer can be found by using any of the two statements alone.
 - (e) If both the statements together are not sufficient to answer the question.
-

82. What is sum of two numbers a and b? I. $a + z = 20$ II. $z + b = 20$

- (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone.
 - (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone.
 - (c) If both statements I and II together are required to answer the question.
 - (d) If the answer can be found by using any of the two statements alone.
 - (e) If both the statements together are not sufficient to answer the question.
-

83. What is the age of A and B? I. Age of A is 80% of the age of C. II. Age of B is 60% of the age of C

- (a) If the question can be answered by using statement I alone but cannot be answered by statement II alone.
 - (b) If the question can be answered by using statement II alone but cannot be answered by statement I alone.
 - (c) If both statements I and II together are required to answer the question.
 - (d) If the answer can be found by using any of the two statements alone.
 - (e) If both the statements together are not sufficient to answer the question.
-

Read the following passage carefully and answers the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions There is no fool so great a fool as a knowing fool. But to know how to use knowledge is to have wisdom." Businesses continue to face challenging times. In this uncertainty, some leaders have lost their way due to egregious moral and ethical missteps. Others have reached career dead ends due to their inability to see the big picture from a higher not-so- common perspective. Many of these leaders are undoubtedly intelligent. But they're not wise. Our minds work on a lower and higher level. The lower level deals with the concrete - our immediate physical environment, information, facts and logic. Our lower mind supports us to be aware, conceptual and reflective. Our lower mind is rational, analytical, opinionated, busy and 95. A train is moving at a speed of 132 km/hour. If the length of the train is 110 metres, how long will it take to cross a railway platform 165 metres long? (a) 5 second (b) 7.5 second (c) 10 second (d) 15 second (e) 9 second

ENGLISH LANGUAGE 96. 15 litres of a mixture contains alcohol and water in the ratio 1 : 4. If 3 litres of water is mixed in it, the percentage of alcohol in the new mixture will be (a) 15 (b) 16 (c) 17 (d) 18 (e) None of these 97. Two pipes A and B can fill a cistern in 30 minutes and 45 minutes respectively. Both pipes are opened. The cistern will be filled in just 20 min, if the pipe B is turned off after (a). 5 min (b). 9 min (c). 10 min (d). 15 min (e). None of these 98. 2 men and 3 boys can do a piece of work in 10 days while 3 men and 2 boys can do the same piece of work in 8 days. In how many days can 2 men and 1 boy do the same piece of work? (a) 12 2 days (b) 24 days (c) 32 days (d) 11 2 days (e) None of these 99. A man sets out on cycle from Delhi to Faridabad, and at the same time another man starts from Faridabad on cycle for Delhi. After passing each other they complete their journeys in 2 7 and 5 often sceptical. It is bound by time and space. We use our lower mind to make sense of our complicated and emotional world. The lower mind is the stuff of business schools, "operations-focused" education and experiential learning. The lower mind delivers reductionist thinking and mechanistic, conventional approaches to life. The main drawback of living in the lower mind is that it only reflects your internal map of reality. It is like being stuck in your own intellectual zip code, never moving beyond your nine- digit thoughts, beliefs, assumptions, expectations and world views. It is like living in one town, knowing it completely, and never venturing outside the borders of that town. Intelligent people are generally engaged with their lower mind and left-brain thinking. The lower mind focuses on one corner of the painting. Wisdom does not arise from this place. The higher mind considers the abstract. It involves intuition, aspiration, heart, soul and spirit and connects with the Universal mind, with Universal truth, with beauty and with goodness. Our higher mind speaks in the language of ideas, ideals, symbols, principles and impulses. It is loving. It guides us to the truth. The higher mind sees the threads woven between the mental, physical, emotional, spiritual, psychological and social aspects of our life. The higher mind sees the entire painting - the place from which wisdom arises. Wise leaders access both their lower and higher minds. Wise leaders understand they are spiritual beings living in a human form. They allow their lower minds to access their higher, helping them to access intuition and impressions that provide insights into the bigger picture of life. Wise leaders understand the importance of focus, presence, self- discipline, meditation, study, loving service and creative expression. They seek to grasp the next higher level of awareness. They venture outside their historical map of reality - willing to jettison their old, "safe" beliefs, assumptions, expectations and worldviews - to explore the possible and the unknown. They're open to knowing what they don't know. Wise leaders understand that spiritual and personal growth means connecting with higher concepts and energies, be they values, ideas, ideals, potentials, archetypes, higher guidance or intuition. The wise leader develops the capacity to not only connect with these higher concepts, but also to seek to ground them into forms, tasks, projects, relationships and details that inform the way they lead. Wise leaders don't stop with experience, but transcend experience - both their own and others' - in a way that they spend an appreciative amount of time and energy in deep self-reflection and thoughtful consideration around their experience, leading to higher insights, enhanced value and a deeper sense of self-awareness. Proust Wise leadership is not about having experiences but consciously learning from those experiences. The process of learning from experience leads to a process of inquiry - looking with curiosity, not judgment, into the who, what, when, where, how and - most importantly - the why of their experiences. Inquiry is a matter of punctuation; it's about question marks, not full stops. It is about curiosity. Wise leaders understand how connections between diverse elements can create something new. They are adept at using analogy and metaphor and seek to recognize patterns, spot trends, draw connections and discern the big picture even when there seem to be nothing there. A wise leader interacts with her world in terms of a richer and more varied spectrum of possibilities and opportunities. A wise leader understands the importance of relationships - human and otherwise. A wise leader is a systems thinker, a gestalt thinker, a holistic thinker. Wise leaders are comfortable being oriented to their right brain, as well as to their heart and soul. Inquiry, for the wise leader, is not about "futurizing the past" - using their past experiences, the known, the tried and true - to explain present experiences that are un-common, un-usual, un-familiar. They understand that inquiry involves delving deeply into the self, even parts of the self that, heretofore, might have been unknown, in order to search for new insights, perspectives and understanding - seeking familiarity with the unknown. For wise leaders, inquiry means creating an internal space unencumbered by old thoughts, beliefs and premises - a new, clear, inviting and open space - entering into a fresh realm without preconception or expectation and being informed with new learning, new sense, new meaning, new WHYS and new HOWs. In other words, new wisdom.

- (b) People with Wisdom have conventional approach to life.
 - (c) Wisdom is what's left after we've run out of personal opinions.
 - (d) The abilities to plan or create an idea, solve a problem, be logical in your creativity and make favorable results in a bad situation.
 - (e) All of these.
-

102. Which of the following is false in context of the passage? (1) Lower mind lacks emotional and spiritual intelligence. (2) For wise leader inquiry means new wisdom. (3) People who lack wisdom but are intelligent don't have access to higher mind.

- (a) Only 1.
 - (b) Both (1) and (2)
 - (c) Both (3) and (1).
 - (d) only (3)
 - (e) None of these.
-

103. What is the main drawback(s) of living only in the lower mind?

- (a) Person is unable to have a conventional approach to life.
 - (b) Person is opinionated and sceptical.
 - (c) Never been able to transcend beyond our beliefs and assumption.
 - (d) People stop having experiences.
 - (e) Not able to understand the importance of relationships.
-

104. What is the difference between intelligence and wisdom?

- (a) People with wisdom don't have rational thinking.
 - (b) Intelligent people are not reflective.
 - (c) People with wisdom have access to both the minds.
 - (d) People with wisdom never make mistakes.
 - (e) People with wisdom are not sceptical unlike the one who are intelligent.
-

Which of the following words is nearest in the meaning to words as given in bold letters?

105. EGGREGIOUS

- (a) Imperceptible
 - (b) Conspicuous
 - (c) Conceal
 - (d) Trivial
 - (e) Trifling
-

106. CONVENTIONAL

- (a) Distinctive
 - (b) Orthodox
 - (c) Complex
 - (d) Inept
 - (e) Original
-

Which of the following words is most opposite in the meaning to words as given in bold letters?

107. DISCERN

- (a) Perceive
 - (b) Detect
 - (c) Recognize
 - (d) Confound
 - (e) Behold
-

108. PERSEPECTIVE

- (a) Panorama
- (b) Prospect
- (c) Aspect

- (d) Stance
- (e) Blindness

Read the following passage carefully and answers the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions This is a problem that society must fix; we are supposed to be an equal education system. It is Hispanic and black students who aren't performing at the level of white and Asian students. Certain races or groups shouldn't be the only ones successful in school. According to the interview with Greg Duncan and Richard Murnane, Rohan Mascarenhas stated that, one of the reasons why children achieve good grades in school is because they are in after-school programs. Parents with higher income sign their kids up for the after school. They do this so that their child can learn more throughout the day not just in school. After-school programs also help children one on one, who are struggling in school. The rich take advantage of these after school programs. The students with low-income struggle with their reading and writing, they can't afford to go to after-school programs. This is why they continue to struggle and don't receive the proper help that they need. When I was in elementary school I attended after-school, which helped me because it kept me in honors class. I was able to get the extra help I needed during this time and improved my academic performance. Its important to attended after-school because it focuses on academic activities. Parents with higher income pay for tutors to come over and teach their child. While low income parents don't reach out to any tutors. If students with lower income could receive some money from the government to help them pay for after schools and tutors, it would help them to perform better and succeed in school as well. The government can help if they make after school programs free for any student. The more students to join after- schools, the better results they will have in test scores in school. Would you send your child to a Public or a Private school? Which would your income lead you to? Most high-income parents put their child in private schools; its class size is smaller than public schools. Public school classes ranges from 25 to 30 students. That's too many students for one teacher to handle. One of the benefits of private school is that class size is from 15 to 20 students. This allows students to receive more attention in class, and receive more work as well. The level of teaching is different between the two. Private school teachers often have their graduate degree or their doctrine degree, while public school teachers must have a bachelor's degree with a master in their subject. The level of education however, is more difficult for private than for public school. Parents with low income tend to put their child in public schools because it's free. Help from the government is what makes public schools run well and not shut down. Private schools charge tuition for each student, so this helps them raise enough money and not rely so much for government funds. There is a gap in achievement between low-income students and high-income students. Students who come from affluent families perform higher in school compared to lower income families. About 82 percent of high school graduates who come from high-income families attend colleges, in comparison to 52 percent of graduates from low-income families. A study shown by Martha Bailey and Susan Dyhorski showed that over the last 20 years the percent of children from higher income who completed college increased by 21 percent, while low income increased by only 4 percent. This is not a significant change for low-income students, showing that this is a cycle. Study show that this cycle continues and stays with the student into college. The rate of White graduates who were college ready in English was 77 percent, whereas African American was half of that, they were 35 percent ready. This is because students who come from families with low- income are attending high schools with teachers who are inexperienced and that do not offer the courses needed to prep them for college. These schools lack the resources they need to ensure their students are ready for higher education. The percent of 18-24 year olds enrolled in college is 58 percent, while Hispanic is less than half of that at 19 percent and black at 14 percent. The income gap has not narrowed over time. 109. Which one of the following is(are the reason(s) why students with higher income succeed more than those with low income? (1) Poor students don't go to after-school programs because they can't afford it unlike the rich students.  - (b) B
 - (c) C
 - (d) D
 - (e) E
-

138. Which of the following should be the FIRST sentence after the rearrangement?

- (a) A
 - (b) C
 - (c) B
 - (d) G
 - (e) E
-

139. Which of the following should be the FIFTH sentence after the rearrangement?

- (a) E
- (b) D

- (c) B
 - (d) F
 - (e) A
-

140. Which of the following should be the FOURTH sentence after the rearrangement?

- (a) A
 - (b) B
 - (c) C
 - (d) F
 - (e) D
-
