

## sbi\_clerk\_2020\_mains\_unknown\_shift\_1e762e8e

SBI Clerk Mains 2020

95 questions

Each of the questions below consists of a question and two statements numbered I, and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and answer the following questions. (a) If the data in statement I alone are sufficient (b) If the data in statement II alone are sufficient (c) If the data either in statement I alone or statement II alone are sufficient to answer (d) If the data given in both I and II together are not sufficient (e) If the data in both the statements I and II together are No one stops either on bottommost step or topmost step. C stops only 5 times. C's 2nd stoppage is 2 steps above of B's 2nd stoppage. A's 3rd stoppage is just below step of B's 2nd stoppage. Both A and B don't stop on the same step. Both B and C stop on the same step only once and at that step the number of steps above B and C is more than the number of steps below to the B and C. The number of steps below A's 1st stoppage is one more than the number of steps above the A's last stoppage. Stoppage counts of B and C are equal. A's 2nd last stoppage is 2 steps below of B's 2nd last stoppage. A stoppage three more than the B's stoppage. B's last stoppage is above the step which is a multiple of 9. necessary to answer

6. Seven family members are living in the family of three generations. In which only two married couples are in the family. The number of females is more to males in the family. Who among the following is the grandmother of S's niece? Statements: I. T is the son in law of Q. P is the mother of V who has one sibling. S is the daughter of U. S is unmarried. II. Q has only two children of same gender. R is a male member in the family. P is not married with Q. U is not the mother of P.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are No one stops either on bottommost step or topmost step. C stops only 5 times. C's 2nd stoppage is 2 steps above of B's 2nd stoppage. A's 3rd stoppage is just below step of B's 2nd stoppage. Both A and B don't stop on the same step. Both B and C stop on the same step only once and at that step the number of steps above B and C is more than the number of steps below to the B and C. The number of steps below A's 1st stoppage is one more than the number of steps above the A's last stoppage. Stoppage counts of B and C are equal. A's 2nd last stoppage is 2 steps below of B's 2nd last stoppage. A stoppage three more than the B's stoppage. B's last stoppage is above the step which is a multiple of 9. necessary to answer

7. Rajesh goes from his house to his office. He goes 10m in the east direction from his house and reached at point Q. Find the direction of his office with respect to Point Q? Statements: I. From Point Q his goes to 5m north to

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are No one stops either on bottommost step or topmost step. C stops only 5 times. C's 2nd stoppage is 2 steps above of B's 2nd stoppage. A's 3rd stoppage is just below step of B's 2nd stoppage. Both A and B don't stop on the same step. Both B and C stop on the same step only once and at that step the number of steps above B and C is more than the number of steps below to the B and C. The number of steps below A's 1st stoppage is one more than the number of steps above the A's last stoppage. Stoppage counts of B and C are equal. A's 2nd last stoppage is 2 steps below of B's 2nd last stoppage. A stoppage three more than the B's stoppage. B's last stoppage is above the step which is a multiple of 9. necessary to answer

8. Six persons M, N, O, P, Q and R takes their class from Monday to Saturday of the same week. No two persons takes their class on the same day. Who among the following takes his class just after P? Statements: I. Two persons takes their class between M and O. Q takes his class just after R. II. P does not take his class on Monday and Saturday. More than one person's take class between O and Q.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient

(e) If the data in both the statements I and II together are No one stops either on bottommost step or topmost step. C stops only 5 times. C's 2nd stoppage is 2 steps above of B's 2nd stoppage. A's 3rd stoppage is just below step of B's 2nd stoppage. Both A and B don't stop on the same step. Both B and C stop on the same step only once and at that step the number of steps above B and C is more than the number of steps below to the B and C. The number of steps below A's 1st stoppage is one more than the number of steps above the A's last stoppage. Stoppage counts of B and C are equal. A's 2nd last stoppage is 2 steps below of B's 2nd last stoppage. A stoppage three more than the B's stoppage. B's last stoppage is above the step which is a multiple of 9. necessary to answer

9. Statement-The Union health ministry has made Aadhaar a compulsory document for tuberculosis patients to be able to avail treatment under the government's Revised National Tuberculosis Control Programme (RNTCP). (I) A person cannot take treatment of TB without Aadhar card. (II) Patients suffering from TB will be unable to get cash benefits under a central government scheme till they produce their Aadhaar card. (III) An individual eligible to receive the benefit under the scheme, is hereby, required to furnish proof of possession of Aadhaar number or undergo Aadhaar authentication. (IV) The World Health Organisation(WHO) recently said that tuberculosis epidemic in India was "larger" than what had been previously estimated. Which of the following could be the outcome of the given statement?

- (a) Only II
- (b) Only I and III
- (c) Only II and III
- (d) Only I
- (e) None of these

10. Statement-The Captain Amarinder Singh-led government in Punjab has announced free education for girls in government schools and colleges from Nursery to PhD. (I) Good social welfare law. It is initially for girls as they are comparatively disadvantaged. Hopefully it will soon be followed by free education for everyone. (II) It is gender biased as if a poor or average person wants to educate his son for higher education, he has to pay higher bills. If, you are introducing a law / scheme / bills under no circumstance it should not favour any particular gender, if they are really concerned about education. (III) Do not differentiate a poor or average person on gender. A poor boy or man should also get free education as well. Which of the following argument holds strong for the given statement? (a)Only II

(b)Only III (c)Only II and III (d)Only I and II (e)All of the above  
(no options)

**In each of the questions given below, a group of digits/letter is given followed by four combinations of symbols numbered (a), (b), (c) and (d). You have to find out which of the four combinations correctly represents the group of digits/letters based on the symbol codes and the conditions given below. If none of the four combinations represents the group of digits/letters correctly, give (e) i.e. ?None of these? as the answer. Condition for coding the group of elements: (i) If the first letter is Consonant and the last digit is perfect square, then both are to be coded as ^. (ii) If the first digit is an odd number and the last letter is 21. How many boxes are placed above the box of Black coloured? (a) One (b) Four (c) Three (d) Five (e) None consonant, then both are to be coded by the code of the last element. (iii) If the first letter is Vowel and the last element is a digit, then the code of first and last elements are to be interchanged. (iv) If the first digit and the last digit are even number, then 22. How many boxes are placed between box Q and the one which is in Red coloured?**

16. What is the code for ?XBU7PS4??

- (a) #^E&+®%
- (b) \*®E@+&%
- (c) ^®E@+&%^
- (d) ^®E@&+^
- (e) None of these Visit: [adda247.com](http://adda247.com)

17. What is the code for ?3PUM79??

- (a) @®??\*@
- (b) ?&£©@^
- (c) ^@??\*@
- (d) ^®??\*®
- (e) None of these

18. What is the code for ?UMBS92??

- (a) £%@\$??
- (b) ?%\$@?£

- (c) μ©®+^ £
- (d) ?%?\$@£
- (e) None of these

19. What is the code for ?24PM7U4??

- (a) %£@©&% μ
- (b) μ%©#?®%
- (c) μ©#?®%@
- (d) μ@®?#©%
- (e) None of these

20. What is the code for ?5PX49Y??

- (a) ?&\*%^^?
- (b) @&£%^^?
- (c) ?&%£^@
- (d) ©&£^%©
- (e) None of these

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of an input and rearrangement. Input: notice 65 other 92 under 46 direct 71 allow 21 service 88 Step I: allow notice 65 other 92 under 46 direct 71 service 88 22 Step II: other allow notice 92 under 46 direct 71 service 88 22 66 Step III: under other allow notice 92 46 direct service 88 22 66 72 Step IV: direct under other allow notice 92 service 88 22 66 72 45 Step V: notice direct under other allow 92 service 22 66 72 45 87 Step VI: service notice direct under other allow 22 66 72 45 87 91 And Step VI is the last step of the rearrangement of the above input. As per the rules followed in the above steps, find out in each of the following questions the appropriate step for the given input. Input: public 86 interest 95 exit 67 such 43 upper 28 large 12 In step the elements ?86 such 64? found in the same order?

- (a) Step IV
- (b) Step II
- (c) Step III
- (d) Step V
- (e) Both

29. In step III, which of the following word/number would be at 4th to the left of the element which is 5th from the right end?

- (a) exit
- (b) such
- (c) public
- (d) 86
- (e) 64

30. How many steps required completing the above arrangement?

- (a) Three
- (b) Four
- (c) Six
- (d) Seven
- (e) Five

31. Which of the following is the penultimate step?

- (a) public large upper interest exit such 86 44 68 96 19 65
- (b) large upper interest exit public 86 such 64 44 68 96 19
- (c) large upper interest such 64 44 exit public 86 68 96 19
- (d) public large upper interest exit 86 such 44 68 96 17 63
- (e) None of these

32. In step VI, ?public? is related to ?63? and ?upper? is related to ?96?. In the same way ?exit? is related to?

- (a) 44

- (b) 85
  - (c) 63
  - (d) 17
  - (e) None of these Visit: [adda247.com](http://adda247.com)
- 

**In making decisions about important questions, it is desirable to be able to distinguish between ?strong? arguments and ?weak? arguments. 'Strong? arguments are those which are important and directly related to the question. ?Weak? arguments are those which are of minor importance and also may not be directly related to the question or may be related to a trivial aspect of the question. Each question below is followed by two arguments numbered as I and II. You have to decide which of the arguments a strong argument is and which a weak argument is. Give answer.**

33. Statement: Should the provision to dissolve the assembly prematurely be amended ? Arguments: I. Yes, on many occasions the provision has been used by ruling governments to fulfill their vested interests. II. No, to fulfil the constitutional obligations and norms, it sometimes becomes the need of the hour to dissolve the assembly prematurely.

- (a) if only Argument I is strong
  - (b) if only Argument II is strong
  - (c) if either Argument I or II is strong
  - (d) if neither Argument I nor II is strong
  - (e) if both Argument I and II are strong
- 

34. Statement: Should only reputed NGO?s be authorized to distribute the commodities to the public under the programme of Public Distribution System (PDS)? Arguments: I. Yes, the move will be helpful to implement the programme more effectively and will keep a tab on various problems like black marketing of the commodities supplied under PDS. II. Yes, NGO?s have helped government on many occasions

- (a) if only Argument I is strong
  - (b) if only Argument II is strong
  - (c) if either Argument I or II is strong
  - (d) if neither Argument I nor II is strong
  - (e) if both Argument I and II are strong
- 

35. In the question below is given a statement followed by three courses of action numbered I, II, and III. A course of action is a step or administrative decision to be taken for improvement, follow up or further action in regard to the problem, policy etc. On the basis of the information given in the statement, you have to assume everything in the statement to be true, then decide which of the suggested courses of action logically follow (s) for pursuing. Statement: Many school buses have fitted CNG Kit without obeying the safety guidelines properly. This results into some instances of these buses catching fire due to short circuit and endangering the lives of the school children. Courses of action: I. The regional transport authority should immediately carry out checks of all the school buses fitted with CNG Kit. II. The management of all the schools should stop hiring buses fitted with CNG Kit. III. The Government should issue a notification banning school buses for use of CNG Kit.

- (a) Only I follows
  - (b) Only II follows
  - (c) Only III follows
  - (d) I and III follow
  - (e) None of these
- 

36. If in a given arrangement, groups of letters that immediately preceded by a number and immediately followed by a symbol are removed along with that symbol and number, then which of the following element is 7th from the right end and 9th from the left end respectively?

- (a) @B
  - (b) DB
  - (c) B@
  - (d) HE
  - (e) I2
- 

57. A rectangular park having length of 60 meters surrounded by a path, which width is 5 meters. If rate of flooring per square meter is Rs. 500 and total cost of flooring on path is Rs. 550000, then find the area of rectangular park (in m<sup>2</sup>)?

- (a) 1800
- (b) 2400

- (c) 3000
- (d) 2520
- (e) 2880

58. The certain number of men can do a work in some days. When eight more men would join them, then work would be finished in 40% less time. If 33

(no options)

59. Monthly income of P is Rs. 11000 more than that of Q. P and Q spent 15% and 10% of their respective monthly income on rent, while each spent 10% of his respective monthly income on household items. If remaining amount they saved and saving of P is Rs. 7000 more than Q, then find monthly income of Q (in Rs.)?

- (a) 15000
- (b) 36000
- (c) 25000
- (d) 24000
- (e) 32000 Visit: [adda247.com](http://adda247.com)

60. When a man sold a watch for Rs. 4000, then he makes a loss of in this transaction. If man would sell the same watch for Rs. 5000, then he would make a profit of Quantity I. Difference between profit share of B and C. Quantity II. Rs. 240.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ? Quantity II
- (d) Quantity I ? Quantity II
- (e) Quantity I = Quantity II or no relation

61. A man invests Rs. P in scheme A on simple interest for two years at certain rate of interest and he invests Rs. (P + 5000) in scheme B on simple interest for five years at twice the rate of interest of the rate of interest of scheme A. If interest received by man from scheme B is ten times of interest received from scheme A, then find the amount invested by man in scheme A.

- (a) 8000 Rs.
- (b) 4000 Rs.
- (c) 7500 Rs.
- (d) 5000 Rs.
- (e) 10000 Rs.

62. In two towns A and B the ratio of males to females is 5 : 3 & 5 : 1 respectively. If population of both towns is equal and total males in town A are 500 less than total males in town B, then find the total females in both the towns

- (a) 1000
- (b) 1300
- (c) 1100
- (d) 700
- (e) 1600

**In the given questions, two quantities are given, one as ?Quantity I? and another as ?Quantity II?. You have to determine relationship between two quantities and choose the appropriate option:**

63. A man purchases two articles in total Rs. 1800. If he sells first article at 15% profit and second article at loss of 8% and selling price of both the articles is equal. Quantity I ? Cost price of first article. Quantity II ? Cost price of second article.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ? Quantity II
- (d) Quantity I ? Quantity II
- (e) Quantity I = Quantity II or no relation

64. If the product of two integers are 24 times of their difference and sum of both integers is 14. Quantity I ? Value of greater integer. Quantity II ? Twice the value of smaller integer.

- (a) Quantity I < Quantity II

- (b) Quantity I > Quantity II
  - (c) Quantity I = Quantity II or no relation
  - (d) Quantity I ? Quantity II
  - (e) Quantity I ? Quantity II
- 

65. A, B & C entered in a business and I invest such that, investment of A is crossed A. Quantity II. 400 km

- (a) Quantity I < Quantity II
  - (b) Quantity I > Quantity II
  - (c) Quantity I = Quantity II or no relation
  - (d) Quantity I ? Quantity II
  - (e) Quantity I ? Quantity II
- 

66. A started his journey from point X at the speed of 25 km/hr at 10 am and B started from point X at 4 pm at the speed of 40 km/hr in the direction of A. Quantity I. Total distance covered by B when he 3 ?? of what the loss he makes initially. Find the cost price of watch (in Rs.)?

- (a) 4400
  - (b) 4600
  - (c) 4500
  - (d) Can't determine
  - (e) None of these
- 

67. A and B invested into a business with capital of Rs. 12500 and Rs. 8500 respectively. If they share 60% of total profit equally and rest profit they distributed as per their respective investment. If profit share of A is Rs. 300 more than that of B, then find the total profit received by both (in Rs.)?

- (a) 3937.5
  - (b) 3737.5
  - (c) 3537.5
  - (d) 3637.5
  - (e) 4037.5
- 

68. Marked price of an article is two times of its cost price and a discount of Rs. D is given such that profit on article is 50% more than the discount (in Rs.). If discount was of 40% given on the article, then find the profit percentage on the article?

- (a) 30%
  - (b) 25%
  - (c) 10%
  - (d) 20%
  - (e) 15%
- 

**Read the data carefully and answer of the questions. There are 350 students in a school who like Orange, Grapes and Apple and students can like more than one fruit as well. 6% of total students like only Orange, 18% of total students like only Apple and 12% of total students like only Grapes. X% of total students like Orange and Grapes but not Apple. Y% of total students like Apple and Orange but not Grapes and Z% of total students like Apple and Grapes but not Orange. Value of X, Y & Z is multiple of ten and no value are same.**

69. How many students like all three fruits?

- (a) 28
  - (b) 21
  - (c) 14
  - (d) 7
  - (e) Can't determine
- 

70. What would be maximum value of total students who like Apple, Orange but not Grapes?

- (a) 105
- (b) 70
- (c) 210
- (d) 35

(e) Can't determine 3 ?? of total investment made by them, while investment of B is equal to the sum investment of A and C together. Their total profit after one year in business is Rs. 840. Visit: [adda247.com](http://adda247.com)

---

71. What would be minimum difference between total students like Orange and Grapes but not Apple and total students like Apple and Grapes but not Orange?

- (a) 105
  - (b) 42
  - (c) 70
  - (d) 35
  - (e) Can't determine
- 

**Read the data carefully and answer the questions. In the year 2018, there were three classes 8th, 9th and 10th and total number of students in all three classes is 181. Total number of boys in 9th class are 20% more than that of in 8th class and total number of girls in 9th class are 50% more than that of in 10th class. Sum of total number of boys in 8th class & 9th class together and total number of girls in 9th & 10th class is 128. The sum of total boys in 8th class and girls in 10th class is 56. Total number of boys in 10th class are 17 more than total number of girls in 8th class.**

72. If in class 11th total number of boys are 80% of the total number of boys in class 10th and 75% of total boys in class 11th is equal to 50% of girls in class 11th, then find percentage of girls in class 11th?

- (a) 50%
  - (b) 55%
  - (c) 60%
  - (d) 65%
  - (e) 70%
- 

73. In class 7th in the year 2017 total number of students are 60 and total number of girls in 7th class are 25% more than total girls in class 10th in 2018. If out of total boys and girls in class 7th in the year 2017 20% & 40% are failed respectively, then find total boys take new admission in class 8th in the years 2018 are what percent more than that of girls take new admission in same class and in the same year (All students enrolled in exam in class 7th in the year 2017)?

- (a) 48%
  - (b) 66 3 %
  - (c) 30%
  - (d) 40%
  - (e) 33 3 %
- 

74. In the class 12th in 2020 total new boys and new girls take admission are X & Y respectively. Total new boys and new girls take admission in class 11th in year 2019 are 12 & 8 respectively, while 80% of total boys and 87.5% of total girls passed in class 10th in 2018. If 90% of total boys and 11 ?? of total girls passed in class 11th in year 2019 and total boys in class 12th in 2020 are 75% of total students in class 9th in 2018, then find difference between total students in class 12th in 2020 and that of in class 8th in 2018 (total boys in class 12th in 2020 are 170% more than that of girls)?

- (a) 18
  - (b) 16
  - (c) 24
  - (d) 12
  - (e) 22
- 

81. Arun and Veer together takes 18 days to do a work while Arun and Chiru together take 30 days to do that work. Veer is 200% more efficient than Chiru. What is the time taken by all three together to do the work?

- (a) 12 days
  - (b) 20 days
  - (c) 16 days
  - (d) 10 days
  - (e) 15 days
- 

82. Rate of interest for first and second year is 15% and X% respectively. If total interest (total CI + total SI) received on a sum of Rs. 800 in these two years is Rs.756, then what is the value of X?

- (a) 12 2%
- (b) 30%

- (c) 15%
- (d) 25%
- (e) 20%

---

83. Ratio of income of A to that of B is 9: 10. Income of C is 3 % less than that of A. Average income of A, B and C is Rs.5300. Savings of A and B are equal and savings of C is Rs.300 less than that of B. Expenditure of A is 20% more than that of C. Savings of A is what percent of income of A?

- (a) 31 3 %
- (b) 33 3 %
- (c) 35%
- (d) 27 2 %
- (e) 30%

---

84. If A works on 1st day, B works on 2nd day and C works for 3rd day then in this way the whole work is completed in 15 days. The same work is completed when A works for 8 days and B works for 11 days. Same work is completed when A works for 8 4 days and C works for 5 days. What is the time taken by A and C together to complete the work?

- (a) 8 ????
- (b) 7 2 ????
- (c) 6 2 ????
- (d) 5 ????
- (e) 6 3 ????

---

85. P, Q and R entered into a partnership. Amount invested by P is 5% more than that of Q. Amount invested by R is 2 7 % more than that of P. After 4 months, Q increases his investment by 15% and after 6 months from the beginning, P withdraws 60% of his amount. Find the difference between profit share of P and Q if the profit share of R is Rs. 3240.

- (a) ?? 1020
- (b) ?? 1080
- (c) ?? 1110
- (d) ?? 1125
- (e) ?? 1095

---

86. Both Vikash and Vijay sold an article at 20% profit on selling price. Average of cost price of article for Vikash and Vijay is Rs.700. Profit earned by Vikash is Rs.50 less than profit earned by Vijay. What is the average of selling price of article for Vikash and Vijay?

- (a) Rs 825
- (b) Rs 875
- (c) Rs 910
- (d) Rs 925
- (e) Rs 805

---

87. Series S1 contains four consecutive odd numbers and Series S2 contains four consecutive even numbers. Smallest number of series S1 is 5 less than the largest number of series S2. What is the difference between sum of smallest numbers of both series and sum of second smallest number of both series?

- (a) 4
- (b) 6
- (c) 8
- (d) 2
- (e) None of these

---

88. There are some white balls and some red balls in a bag. Number of red balls are 2 more than the number of white balls in the bag. Three balls are drawn from the bag at random. What is the probability that out of three balls drawn at least one ball is red and at most two balls are white? (it is given that there are total 10 balls in the bag)

- (d) (e)None of these

---

89. Difference between downstream speed and upstream speed of a boat is 8 km/h. If total time taken by the boat to cover 56 km in downstream and 36 km in upstream is 8 hours, What is the time taken by the boat to cover 48 km in still water?

- (a) 3 hours
  - (b) 4 hours
  - (c) 5 hours
  - (d) 6 hours
  - (e) 7 hours Visit: [adda247.com](http://adda247.com)

90. A vessel of capacity 108 liters is full of pure milk.  $X$  liters of milk is taken out from the vessel and is replaced with water. Again,  $X$  liters of the mixture is taken out from the vessel and is replaced with water. Now the vessel contains only 48 liters of milk. What is the value of  $X$ ?

- (a) 36 litres
  - (b) 24 litres
  - (c) 30 litres
  - (d) 40 litres
  - (e) 48 litres
- 

**Each of given question is followed by two statements i.e. Statement I & II. You have to determine which statement (s) is/are sufficient/necessary to answer the question and mark answer accordingly. (a) Only statement II is sufficient (b) Either statement I or II is sufficient (c) Both statements together are not sufficient to answer (d) Only statement I is sufficient (e) Both statements together are necessary to answer**

91. What is the speed of train? I. train can cross a platform in 30 sec while a tree in 12 sec. II. length of platform is 50% more than that of train.

- (a) Only statement II is sufficient
  - (b) Either statement I or II is sufficient
  - (c) Both statements together are not sufficient to answer
  - (d) Only statement I is sufficient
  - (e) Both statements together are necessary to answer
- 

92. What is quantity of milk in mixture of milk & water? I. if 10 lit of the mixture is taken out then water becomes 35% of total quantity of remaining mixture. II. if 30 lit water is added to the initial mixture then quantity of the milk becomes equal to that of water.

- (a) Only statement II is sufficient
  - (b) Either statement I or II is sufficient
  - (c) Both statements together are not sufficient to answer
  - (d) Only statement I is sufficient
  - (e) Both statements together are necessary to answer
- 

93. How many balls are in the bag? Bag contains only three types of colored balls. I. ratio of blue balls to red balls 4 : 5. Number of white colored ball is one more than that of red colored balls. II. no. of ways of selecting 2 red balls from the bag is

- (a) Only statement II is sufficient
  - (b) Either statement I or II is sufficient
  - (c) Both statements together are not sufficient to answer
  - (d) Only statement I is sufficient
  - (e) Both statements together are necessary to answer
- 

94. In what time pipe C alone can fill the tank? I. pipe A & B together takes 4 hours to fill the tank while pipe A, B and C together takes 3 hours to fill the tank. All pipes are inlet. II. time taken by pipe A alone to fill half of the tank is same as time taken by pipe A & B together to fill the complete tank.

- (a) Only statement II is sufficient
  - (b) Either statement I or II is sufficient
  - (c) Both statements together are not sufficient to answer
  - (d) Only statement I is sufficient
  - (e) Both statements together are necessary to answer
- 

95. What is area of square? I. length of diagonal of square is equal to diameter of circle of area. II. area of circle circumscribing the square is 154 sq.m.

- (a) Only statement II is sufficient

- (b) Either statement I or II is sufficient
  - (c) Both statements together are not sufficient to answer
  - (d) Only statement I is sufficient
  - (e) Both statements together are necessary to answer
- 

**Study the passage given below and answer the following questions. Passage gives information about tourists from India who visited at least 1 country out of USA, UK and Australia. Ratio of total tourists from India who visited USA, UK and Australia is 3:4:3 respectively. Total tourists from India who visited all 3 countries together are 500. Ratio of tourists from India who visited only USA to total tourists from India who visited UK is 1:5. Tourists from India who visited both USA and UK but not Australia are equal to tourists from India who visited both Australia and UK but not USA. Tourists from India who visited both USA and Australia but not UK are 700. Tourists from India who visited only USA are 800. Tourists from India visited only these 3 countries.**

96. Find total number of tourists from India who visited only one country.

- (a) 2500
  - (b) 3100
  - (c) 2900
  - (d) 2700
  - (e) 2300
- 

97. Total tourists from India who visited only one more country along with Australia is what percent of total tourists from India who visited UK?

- (a) 38.5%
  - (b) 42.5%
  - (c) 54.5%
  - (d) 56.5%
  - (e) 75.5%
- 

98. Find the total number of tourists from India who visited exactly 2 countries.

- (a) 3200
  - (b) 3500
  - (c) 2500
  - (d) 2700
  - (e) 2400
- 

99. Total tourists from India who visited both USA and UK together are what percent more or less than total tourists from India who visited Australia?

- (a) 80%
  - (b) 40%
  - (c) 70%
  - (d) 60%
  - (e) 50%
- 

100. Find total number of tourists from India who visited atleast one country.

- (a) 10000
  - (b) 7500
  - (c) 6300
  - (d) 6000
  - (e) 6700
-

Read the passage carefully and answer the questions given below it. If plastic had been invented when the Pilgrims sailed from Plymouth, England, to North America?and the Mayflower had been stocked with bottled water and colorful plastic-wrapped snacks for consumers? attraction?their plastic trash would likely still be around, four centuries later. If the Pilgrims had been like many people today and simply tossed their empty bottles and wrappers over the side, Atlantic waves and sunlight would have worn all that plastic into tiny bits. And those bits might still be floating around the world?s oceans today, sponging up toxins to add to the ones already in them, waiting to be eaten by some hapless fish or oyster, and ultimately perhaps by one of us. We should give thanks that the Pilgrims didn?t have plastic, I thought recently as I rode a train to Plymouth along England?s south coast. I was on my way to see a man who would help me make sense of the whole mess we?ve made with plastic, especially in the ocean. Because plastic wasn?t invented until the late 19th century, and production really only took off around 1950, we have a mere 9.2 billion tons of the stuff to deal with. Of that, more than 6.9 billion tons have become waste. And of that waste, a staggering 6.3 billion tons never made it to a recycling bin?a figure that stunned the scientists who crunched the numbers in 2017. No one knows how much unrecycled plastic waste ends up in the ocean, Earth?s last sink. In 2015, Jenna Jambeck, a University of Georgia engineering professor, caught everyone?s attention with a rough estimate: between 5.3 million and 14 million tons each year just from coastal regions. Most of it isn?t thrown off ships but is dumped carelessly on land or in rivers, mostly in Asia. It?s then blown or washed into the sea. Imagine five plastic grocery bags stuffed with plastic trash says, sitting on every foot of coastline around the world?that would correspond to about 8.8 million tons, her middle-of-the-road estimate of what the ocean gets from us annually. It?s unclear how long it will take for that plastic to completely biodegrade into its constituent molecules. Estimates range from 450 years to never. Meanwhile, ocean plastic is estimated to kill millions of marine animals every year. Nearly 700 species, including endangered ones, are known to have been affected by it. Some are harmed visibly?strangled by abandoned fishing nets or discarded six-pack rings. Many more are probably harmed invisibly. Marine species of all sizes, from zooplankton to whales, now eat microplastics, the bits smaller than one-fifth of an inch across. On Hawaii?s Big Island, on a beach that seemingly should have been pristine?no paved road leads to it?I walked ankle-deep through microplastics. They crunched like Rice Krispies under my feet. After that, I could understand why some people see ocean plastic as a looming catastrophe, worth mentioning in the same breath as climate change. At a global summit in Nairobi last December, the head of the United Nations Environment Programme spoke of an ?ocean Armageddon.? And yet there?s a key difference: Ocean plastic is not as complicated as climate change. There are no ocean trash deniers, at least so far. To do something about it, we don?t have to remake our planet?s entire energy system.

101. According to the passage, what is the reason for existence of plastic in a huge amount?
- As plastic is cheaper and easily accessible while alternatives are costlier
  - Because of large production of it for convenient commercial uses in many sectors
  - Breakdown of plastic into tiny pics in soil and it presents for a long time
  - People prefer use plastic more in their daily lives
  - None of these
- 
102. What is the reason for the plastic pollution as per the information given in passage?
- Usage of plastic on regular basis has an adverse effect on health and on environment
  - Disposal of used plastic is easier.
  - Government?s rules are lenient for the use of plastic in almost every country.
  - There is lack of dumping system for the waste.
  - None of these
- 
103. Which of the following statement can be said in reference to the frequent use of plastic?
- The production of plastic should be banned as this is the major reason for pollution.
  - Plastic is important in our daily lives as it makes life better, healthier and safer every day.
  - The environment with plastic pile will have adverse effects as plastic is non-biodegradable.
  - The price of plastic will be increased due to increase in its demand in market.
  - None of these Visit: [adda247.com](http://adda247.com)
- 
104. What does the author mean by ?ocean Armageddon? given in third paragraph in the passage?
- The various measures taken by the UNEP to tackle plastic pollution
  - Pollution of soil due to tiny bits of plastic in the soil and in ocean
  - Dumping of plastic waste in millions in and nearby the ocean
  - Usage of plastic for almost every purpose in our daily lives
  - None of these
-

105. Which of the following statement is incorrect as per the given passage? (A) Half of the plastic has been recycled and can be reused. (B) Plastic is one of the major reasons for the endangerment of marine life. (C) Plastic can be there in human food chain.

- (a) Only (C)
- (b) Both (B) and (C)
- (c) Both (A) and (C)
- (d) Only (A)
- (e) All (A), (B) and (C)

106. Which of the following is the similar word of 'stuffed' given in passage?

- (a) default
- (b) fill
- (c) reeling
- (d) optimal
- (e) None of these

Read the passage carefully and answer the questions given below it. Insomnia, especially in its chronic form, is a frequent sleep disorder, probably the most frequent sleep disorder of all, afflicting approximately 10% of the adult population worldwide. According to most recent diagnostic criteria, like the DSM-5 or the ICSD-3, we nowadays talk of insomnia disorder instead of primary or secondary insomnia, as it was usually called in older versions of diagnostic manuals. Insomnia disorder as a diagnostic category encompasses disturbances of sleep and daily work, like problems to fall asleep or to maintain sleep and associated daytime sequelae like impairment of concentration or attention, increased fatigue, dysphoria etc. Chronic insomnia significantly increases the risk of developing somatic or mental illness, especially depressive disorders. It has been speculated that the early and adequate treatment of insomnia may be very helpful in avoiding these long-time consequences, and in cases of comorbidity, insomnia treatment may also have a positive impact on the somatic or mental comorbidity. Insomnia comes at a high cost because recent research has shown that insomnia has severe consequences for work productivity, sick leave and many other areas. Summarising, the costs for the society are high and has inferior outcomes, but adequate insomnia treatment is supposed to reduce these. This virtual issue covers several aspects of insomnia disorder. An article focusses on the prevalence and management of chronic insomnia in Swiss primary care. This article nicely shows that insomnia is a very frequent problem encountered in general practice, but still, the predominant modality of treatment is pharmacological treatment instead of CBT-I. This is a pity, because CBT-I has now been confirmed by several international guidelines to be the first-line treatment of insomnia. Methods are discussed about how to further disseminate knowledge about CBT-I in general practice. In a similar way, other article covers the endeavours of the European Academy for Cognitive Behavioral Therapy for Insomnia to improve the teaching system for CBT-I. Hopefully, this initiative will be successful and lead to more adequately trained CBT-I therapists all over Europe. Four articles in this virtual issue deal with the question of whether insomnia symptoms may be predictive for somatic or mental disorders. It is shown that insomnia may be involved in the development of post-traumatic stress symptoms, place people at a higher risk of cancer and also lead to an increased frequency of perinatal depressive symptoms during pregnancy. Two articles look at digital, web-based CBT treatment interventions. It becomes clear that CBT delivered via web-based solutions conveys a good chance of being able to help people with insomnia and to reduce associated depressive symptoms. Furthermore, the long-term benefits are clearly proven.

107. What is/are the impact(s) of chronic insomnia on the efficiency of day time work?

- (a) Depression and overthinking are the common causes of insomnia.
- (b) The efficiency of a person will decrease due to exhaustion and lack of focus.
- (c) Initially person's abilities will be affected because of mental health issues.
- (d) Insomnia doesn't have too much effect as it has become common in adults.
- (e) None of these

108. What is/are the possible links between insomnia and public societal concerns?

- (a) The societal consequences of insomnia are substantial and include impaired quality of life.
- (b) It increases the cost of life due to expenses on medication and remedies.
- (c) Insomnia and normal sleepers have a broadly similar understanding of societal concerns and activities.
- (d) The societal outcomes of insomnia are insignificant as it doesn't have mental effect.
- (e) None of these Visit: [adda247.com](http://adda247.com)

109. What is/are the major concern(s) in the treatment of insomnia?

- (a) Some believe insomnia is turning out to be a

110. Which of the following statement is correct as per the information given in passage? (i) Insomnia is a worldwide problem and is not confined to a country. (ii) Insomnia has become an inevitable disorder nowadays. (iii) There is a need to increase the number of predominantly modality therapist.

- (a) only (i)
  - (b) only (i) and (ii)
  - (c) only (iii)
  - (d) only (ii) and (iii)
  - (e) only (i) and (iii)
- 

111. Which of the following words is similar to 'Impairment', as highlighted in the above passage?

- (a) accompany
  - (b) commence
  - (c) intervene
  - (d) dimension (e) disablement
- 

112. According to the passage, why timely therapy of insomnia becomes imperative?

- (a) Because this is the only reason of depression in
- 

**Read each sentence to find out which part doesn't have any grammatical or idiomatic error in it. The correct, if any, will be one part of the sentence. The number of that part is the answer. If all the given parts are erroneous then mark the answer 'e'. (Ignore errors of punctuation, if any.) very common problem amongst the masses.**

113. The Supreme Court in Tuesday directed banks and financial institutions to refunding compound interest, interest on interest or penal interest collected on EMI for loans during the period to moratorium.

- (a) The Supreme Court in Tuesday directed banks and unreachable to the general public.
  - (d) Diffuse awareness among people about the new prescript for the cure of insomnia.
  - (e) None of these
- 

114. The past fortnight have seen a persistent increase in the COVID-19 cases in Delhi and positivity is also on the risen and it has been observed that COVID-19 appropriate behaviour is not been followed amongst the general public.

- (a) The past fortnight have seen a persistent
- 

115. Perhaps the government have done due diligence that demonstrates its financial viability but it has an obligation to lay the facts of the business model on the table.

- (a) Perhaps the government have
  - (b) Untreated insomnia can cause the major mental and health issues later.
  - (c) As the social cost of insomnia is not as much high as mental health have.
  - (d) Modern therapies are the only prescript to cure insomnia timely.
  - (e) None of these
- 

116. Monthly deadlines have been set to insure speedy complete of the market redevelopment project, which has suffered several delay due to the COVID-induced lockdown and curbs.

- (a) Monthly deadlines have been set to insure
  - (b) financial institutions to refunding compound interest
  - (c) interest on interest or penal interest collected on
  - (d) EMI for loans during the period to moratorium
  - (e) None is correct increase in the COVID-19 cases
- 

117. While recognising society's deep-rooted patriarchy and initiating a course correction in the way the judiciary itself views gender rights a playwright known for his feisty women characters who break free of traditions of familial confines and notions of social propriety.

- (a) While recognising society's deep-rooted patriarchy and
  - (b) initiate a course correction in the way the

In the following passage, each sentence consists of a highlighted word that can be incorrect. Find out which word should be replaced with other bold words to make the sentence grammatically correct and contextually meaningful. Choose the most appropriate alternative reflecting the word (s) that can fill the given blank. India has released new rules stringent (118) the trade of electricity across its borders. They define the contours of the South Asian electricity market, contour (119) clear limits on who can buy from and sell into India. This has balancing (120) for the electricity markets of Bangladesh, Bhutan, and Nepal, which, to varying degrees, have aligned their energy futures with the Indian market. The new rules show that India's approach is unmistakeably political. It attempts to balance China's growing economically (121) in the region with developmental aims, both its own and the region's. Of central importance is the ownership of power plants wishing to sell to India. In masterful legalese, the rules strongly stunt (122) the participation of plants owned by a company situated in 'a third country with whom India shares a land border' and 'does not have a bilateral agreement on power sector cooperation with India'. Chinese companies rotate (123) to establish plants in Nepal, Bhutan, or Bangladesh will presumably have a hard time making good on their investments with the Indian market cut off. 125. elected will not be able to act on (A)/ the popular government they have (B)/ constitution vests in it the competence to do (C)/ matters which the (D). (a) BCDA (b) CADB (c) BADC (d) DCAB (e) No rearrangement is possible 126. An effective justice system should not depend (A)/ irrespective of the individual in charge (B)/ robust enough to ensure justice for everyone, (C)/ on a few individuals?

118. Select the word that fits blank (118).  
goodness and should be (D).

- (a) elaborate
- (b) governing
- (c) afflict
- (d) produce
- (e) designs

119. Select the word that fits blank (119).

- (a) placing
- (b) protect
- (c) enact
- (d) disappoint
- (e) subsequent

120. Select the word that fits blank (120).

- (a) ramifications
- (b) manifest
- (c) alarmed
- (d) deteriorate
- (e) commodity

121. Select the word that fits blank (121).

- (a) scuffle
- (b) influence
- (c) resorted
- (d) flee
- (e) establish Visit: [adda247.com](http://adda247.com)

In the following questions, a grammatically correct and meaningful sentence is given which is divided into four parts, (A),(B),(C) and (D). You have to arrange the four parts to make a contextually and grammatically meaningful sentence (the meaning can be different from the one given in the question). If no such rearrangement is possible mark

124. because the fight for gender equality is far from over (A)/ it needs to stand on women's rights (B)/ the Court's reiteration on where (C)/ is a move in the right

- (e) as your answer i.e. 'No rearrangement is possible'. judiciary

125. elected will not be able to act on (A)/ the popular government they have (B)/ constitution vests in it the competence to do (C)/ matters which the (D).

- (a) BCDA
- (b) CADB
- (c) BADC
- (d) DCAB

(e) No rearrangement is possible

---

126. An effective justice system should not depend (A)/ irrespective of the individual in charge (B)/robust enough to ensure justice for everyone, (C)/ on a few individuals? goodness and should be (D).

(a) BCDA

(b) CADB

(c) ADCB

(d) DCAB

(e) No rearrangement is possible

---

**In each of the question given below, a phrase is highlighted, which can be incorrect. Choose the most appropriate phrase from given options which could replace the highlighted phrase to make the statement grammatically and contextually correct. If no such replacement is required mark (e) as your answer i.e. ?No replacement is required?.**

**127.** They'd taken a step together towards their future by talking openly on topics he never thought he would be able to bring up.

(a) never thought he have been able to

(b) never thought he has been able

(c) never thought he will be able to

(d) never thought he will not be able to

(e) No replacement required

---

128. The foreigners covered under this Amendment Act may submit applications for grand of Indian citizenship after appropriate rules are notified by the Central government

(a) might submit applications for grand of

(b) may submit applications for grant of

(c) may submitted applications for grant of

(d) might submit application for granting of

(e) No replacement required

---

**A word has been given in each question and has been used in the sentences given below. Identify the statements where the word has been used in a contextually and grammatically correct manner. If the word has been used incorrectly in all the statements, mark (e), ?None of these?, as your answer.**

129. Thrive (i) To survive and thrive after COVID-19, community networks are the key (ii) Thriving is a cool concept because it encompasses the component of both development and success. (iii) A lady IPS officer has also thrive the State Home Minister of taking money for transfers and postings.

(a) only (i)

(b) only (ii)

(c) both (ii) and (i)

(d) both (i) and (iii)

(e) none of these

---

130. Reconcile (i) Due to the pain and burns, victim reconcile consciousness after four-five minutes. (ii) Company is coming up with the approaches that really reconcile some of the challenge it is facing. (iii) The Indian Tea Association has reconcile the daily wage of tea plantation workers in Assam to `193.

(a) only (ii)

(b) both (i) and (ii)

(c) both (ii) and (iii)

(d) all (i), (ii), (iii)

(e) None of these

---

131. Convalesce (i) Prague city hall has rented a luxury hotel where homeless people who contract COVID-19 can convalesce. (ii) The victim has criminal background and was convalesce in murder and robbery cases. (iii) The patient has now returned to convalesce with her family and as rates of infection have dropped so much.

(a) both (i) and (ii)

(b) both (i) and (iii)

(c) only (iii)

---

- (d) only (ii)
  - (e) None of these
- 

132. Repudiate (i) He BSES discoms have repudiate its Delhi consumers to switch off all non-essential lights and electrical appliances for an hour. (ii) Iran strongly repudiate unsubstantiated allegations over claims of its involvement (iii) Norwegian Air is seeking to repudiate three aircraft sales contracts with Boeing as part of its restructuring process.

- (a) only (iii)
  - (b) both (i) and (ii)
  - (c) both (ii) and (iii)
  - (d) all (i), (ii), (iii)
  - (e) none of these
- 

133. Exacerbate (i) The future requirement of digital documentation that demonstrates Covid-19 vaccine status may exacerbate inequality. (ii) Slow solar rollout exacerbating grid supply concerns (iii) Physical masks may even exacerbate racial bias

- (a) both (i) and (ii)
  - (b) both (i) and (iii)
  - (c) only (iii)
  - (d) only (ii)
  - (e) all (i), (ii), (iii)
- 

**In the following question, a sentence is given. Find out which idiom is most suitable for sentence. Choose the most appropriate idiom for the given sentence.**

134. I will go on trusting James always in every situation no matter what happens.

- (a) take it with a pinch of a salt
  - (b) through thick and thin
  - (c) sat on the fence
  - (d) once in a blue moon
  - (e) None of these Visit: [adda247.com](http://adda247.com)
- 

135. We cannot trust him as he reveals all secrets in front of other friends.

- (a) under the weather
  - (b) the balls your court
  - (c) spill the beans
  - (d) break a leg
  - (e) None of these
- 

**Choose the most suitable pair of words in blank that is the antonym of the given word and make the sentence grammatically and contextually correct.**

136. RESTRICT A major concern in contemporary Indian development is the \_\_\_\_\_ socio-economic disparity across groups and regions.

- (a) mutate, originate
  - (b) found, invent
  - (c) transfer, transport
  - (d) widening, broaden
  - (e) None of these
- 

137. RETIRING The \_\_\_\_\_ in the establishment's response is partly because India currently enjoys a favourable international constellation.

- (a) required, mandate
  - (b) assertiveness, decisiveness
  - (c) dispose, exhort
  - (d) import, deliver
  - (e) None of these
-

138. DISASSOCIATE While some \_\_\_\_\_ a few of the awards to the political alignment of the personalities, there were others who thought that deserving candidates were overlooked.

- (a) destroy, revoke
  - (b) attributed, allocate
  - (c) conserve, protect
  - (d) substitute, replacement
  - (e) None of these
- 

139. INDULGE By \_\_\_\_\_ from the vote on the UN Human Rights Council resolution on Sri Lanka, India has signalled its unwillingness to upset its neighbour.

- (a) remove, rotate
  - (b) sacred, religious
  - (c) provide, endow
  - (d) abstaining, refraining
  - (e) None of these
- 

140. IMMACULATE While we are still in the grip of the COVID-19 pandemic, which is airborne, we have forgotten that another such blight could well come from \_\_\_\_\_ water.

- (a) present, available
  - (b) contaminated, polluted
  - (c) create, develop
  - (d) evolve, cultivate
  - (e) None of these
-
