

Read the passage carefully and answer the following questions. Between 1900 and now, developed countries have benefitted from industrial development, which also led to greenhouse gas (GHG) emissions. Developing countries were relatively late in starting out on economic development. They may be contributing to emissions now, but that is a weak reason to ask them to stop economic development. A farmer in rural Africa can claim that his country has not added to emissions historically, but because of the U.S. or Russia's industrialisation, his agriculture yields are declining. Or an urban worker in South America has to work, without choice, in unforgiving heat wave conditions caused by the developed world's emissions of the past. Therefore, options like financing the developing or underdeveloped countries by the developed world have often been discussed. A paper published by Springer Link earlier this year shows that emissions attributable to the U.S. over 1990-2014 caused losses that are concentrated around 1-2% of per capita GDP across nations in South America, Africa, and South and Southeast Asia, where temperature changes have likely impacted labour productivity and agricultural yields. But emissions may have also helped a few countries, such as those in Northern Europe and Canada. Moody's Analytics estimates that by the middle of the century, Canada would see a rise in GDP of 0.3% (about \$9 billion a year) as warmer climates spur agriculture and labour productivity. The Canadian Climate Institute cautioned that such a claim was not wholly true and that other factors must be considered. For example, climate change-spurred floods could cost Canada \$17 billion annually by 2050. In this war of words, the only _____ is the fast-approaching calamity. The UN Environment Programme's annual emissions gap report for 2022 released late last month said the "international community is falling far short of the Paris goals, with no credible pathway to 1.5°C in place. Only an urgent system-wide transformation can avoid climate disaster. The world must cut emissions by 45% to avoid global catastrophe."

1. Why can developing countries specifically not be asked to stop industrialisation?

- (a) Developing countries do not produce emissions as much as developed countries.
- (b) Developing countries do not emit large amounts of greenhouse gases.
- (c) Developing countries cannot afford to stop their economic progress.
- (d) Emissions for developing countries are decreasing in amount every year.
- (e) None of these

2. How has industrialisation in developed countries affected the other countries of the world? (I) Stunted industrialisation due to economic advantage of developed countries. (II) There has been a decline in agriculture in many countries due to emissions. (III) Working conditions in these countries have worsened due to change in climate.

- (a) I and II
- (b) Only II
- (c) II and III
- (d) Only III
- (e) All of these

3. What conflict finds an explicit reference in the passage?

- (a) If climate change really poses a threat to all countries
- (b) If industrialisation really leads to climate change
- (c) If climate change is overall beneficial to some countries
- (d) If industrialisation can feasibly be stopped from harming the environment
- (e) If developed countries should curb emissions more

4. Why is there a need to take steps to cut back emissions by developed countries?

- (a) Countries all around the world suffer from the consequences of climate change regardless for who is to blame.
- (b) Economic development in many countries suffers due to climate change resulting from emissions.
- (c) Underdeveloped countries especially bear the consequences of climate change due to tropical climates.
- (d) Both

5. Which of the following is true with respect to the passage?

- (a) The author suggests that developed countries should aid other countries in financing and healthcare.

If it is possible to make a meaningful word from 1st, 2nd, 4th, and 5th letters from left end of word "PRUDENTIAL", then which will be the 2nd letter of the meaningful word from left end (using each letter once)? If no such meaningful word be formed, then mark the answer as ?Y?. If more than one meaningful word can be formed then mark the answer as ~~10~~?Y

- (b) P
 - (c) D
 - (d) E
 - (e) X
-

In these questions, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer:

79. Statements: $P > O > Q < W > X > F ? L = B$ Conclusion I: $O > X$ II: $W > L$

- (a) If only conclusion I true
 - (b) If only conclusion II true
 - (c) If either conclusion I or II true
 - (d) If neither conclusion I nor II true
 - (e) If both conclusions I and II true
-

80. Statements: $E > P = L ? O = M ? V = Z > A$ Conclusion I: $E > M$ II: $O < Z$

- (a) If only conclusion I true
 - (b) If only conclusion II true
 - (c) If either conclusion I or II true
 - (d) If neither conclusion I nor II true
 - (e) If both conclusions I and II true
-

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

81. Statements: Some Dog are Cat. No Horse is Dog. Only a few Cat is Rat. Conclusions: I. All Rat is Dog is a possibility. II. Some Cat is not Horse

- (a) Only I follows
 - (b) Both I and II follow
 - (c) Only II follows
 - (d) None follows
 - (e) None of these
-

82. Statements: Only Purple is Yellow. All olive is purple. Only a few Green is Olive. Conclusions: I. Some Olive is Yellow is a possibility II. Some Purple is Green is a possibility

- (a) Only I follows
 - (b) Both I and II follow
 - (c) Only II follows
 - (d) Either I or II follows
 - (e) None follows
-

83. Statements: All Book are Paper. No Paper is Test. All Book is Marks. Conclusions: I. Some Marks is not Test II. All Test is Book.

- (a) Only II follows
 - (b) Both I and II follow
 - (c) Only I follows
 - (d) Either I or II follows
 - (e) None follows
-

100. In a certain code ?FRIDAY? is coded as ?SGJEZB? and ?LAPTOP? is coded as ?BMQUQP?, then what will be the code for the word ?CIRCLE??

- (a) JSDSMF
 - (b) DJDSMF
 - (c) JDSDFM
 - (d) DJSMFS
 - (e) None of these
-
