RRB Prelims 2022

55 questions

3. How many such pairs of letters are there in the meaningful word ?CAPABILITY? each of which has as many letters between them as in the English alphabet (From both backward and forward)?

- (a) Two
 - (b) One
 - (c) More than three
 - (d) Three
 - (e) None of these
-

Study the following information and answer the questions given below: There are seven friends P, Q, R, S, T, U and V. Each of them has an entrance exam in a week starting from Monday to Sunday, but not necessarily in the same order. Only one friend has an entrance exam on each day. Three friends have an entrance exam between P and U. U has an entrance exam after Thursday. Only one friend has an entrance exam between P and V whose exam is before P. Two friends have an entrance exam between V and Q. Only one friend has an entrance exam between Q and T. S has an entrance exam just after R.

4. On which of the following day S has the entrance exam?

- (a) Sunday
 - (b) Wednesday
 - (c) Friday
 - (d) Saturday
 - (e) None of these
-

5. Who among the following has an entrance exam on Tuesday?

- (a) V
 - (b) T
 - (c) R
 - (d) P
 - (e) None of these
-

6. How many friends have an entrance exam between P and R?

- (a) Two
 - (b) No one
 - (c) One
 - (d) Three
 - (e) Four
-

7. Which of the following statement(s) is/are true regarding Q?

- (a) Q has exam just before R.
 - (b) Q has exam on Friday.
 - (c) Q has exam just after S.
 - (d) Q has exam on Wednesday.
 - (e) All are true
-

8. Four of the following five belong to a group in a certain way, find which of the one does not belong to that group?

- (a) T-Tuesday
 - (b) U-Saturday
 - (c) T-Wednesday
 - (d) R-Saturday
 - (e) Q-Friday
-

Study the information and answer the following questions: In a certain code language: ?Surging Price Fuel Push? is written as ?el or mb cn? ?Inflation record higher ever? is written as ?tz vc xa yc? ?Fuel and Power Inflation? is written as ?lv cn ob tz? ?Fuel Push and ever? is written as ?ob xa el cn?

9. What is the code for 'higher' in the given code language?

- (a) tz
 - (b) vc
 - (c) xa
 - (d) Cannot be determined
 - (e) yc
-

10. What is the code for 'Push' in the given code language?

- (a) el
 - (b) mb
 - (c) or
 - (d) cn
 - (e) None of these
-

11. What is the code for 'and' in the given code language?

- (a) lv
 - (b) cn
 - (c) tz
 - (d) ob
 - (e) None of these
-

12. What will be the possible code for 'fire record' in the given code language?

- (a) yu yc
 - (b) yc cn
 - (c) vc yc
 - (d) yc lv
 - (e) vc cn
-

Study the information carefully and answer the questions given below. Eight delegates of the different countries attend meeting on two different dates 17th and 24th of the four different months i.e., July, August, September and October of the same year. Q attends meeting in September. Three persons attend meeting between Q and T. Equal number of persons attend meeting after T and before R. More than one person attend meeting between R and S who does not attend meeting on odd number date. One person attends meeting between P and W. Equal number of persons attend meeting after V and before U who attends meeting on an odd number date. P does not attend meeting in the same month as Q.

13. Who among the following attends meeting on 17th October?

- (a) R
 - (b) W
 - (c) P
 - (d) U
 - (e) None of these
-

14. How many persons attend meeting between P and V?

- (a) One
 - (b) More than three
 - (c) Two
 - (d) Three
 - (e) None of these
-

15. Which of the following statement is true about S?

- (a) S attends meeting in September
 - (b) U attends meeting immediate after S
 - (c) S attends meeting immediate after P
 - (d) Two person attends meeting between S and Q
 - (e) None of these
-

16. Who among the following attend meeting just after R?

- (a) W
 - (b) U
 - (c) P
 - (d) V
 - (e) None of these
-

17. Four of the following five are alike in a certain way so form a group, who among the following does not belong to that group?

- (a) T
 - (b) S
 - (c) Q
 - (d) V
 - (e) P
-

In each of the questions below some statements are given followed by some Conclusions. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

18. Statements: All Kiwi are Mango All Mango are Orange Only a few Orange are Papaya Conclusion: I. All Kiwi are Papaya II. Some Papaya being Mango is a possibility

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

19. Statements: Only a few Pink are Grey No Grey are Black All Black are Blue Conclusion: I. Some Black can be Pink II. All Blue are Pink

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

20. Statements: All Lyrics are Song No Song is Bad No Lyrics is Sweet Conclusions: I. Some lyrics are not Bad II. Some Song are not Sweet

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

21. Statements: Only a few Book are Pencil All Pencil are Pen Some Pen are Student Conclusions: I. All Pen is being Book is a possibility. II. Some Student is being Pencil is a possibility

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

22. Statements: No Star are Night No Night is Sun All Sun are Earth Conclusions: I. Some Earth are Star II. All Earth are Sun

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.

(e) If both conclusions I and II follow.

Study the following alphanumeric symbol series carefully and answer the questions given below. E @ * 4 9 7 @ 4 H 5 V J \$ N % M 2 # V 1 & F

26. How many such letters are in the above series which are immediately preceded by a number and immediately followed by a symbol?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

27. Which among the following element is 5th from the right if we remove all symbols from the above series?

- (a) E
- (b) M
- (c) 4
- (d) 2
- (e) None of these

28. How many such symbols are in the above series which are immediately preceded by a number and immediately followed by a letter?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

29. What is the sum of the 8th element from left end and 6th element from right end in the above series?

- (a) 8
- (b) 3
- (c) 6
- (d) 11
- (e) Can't be determined

30. Which of the following meaningful word cannot be formed with the help of the letters of ?MANIPULATE??

- (a) Eat
- (b) Platinum
- (c) Animated
- (d) Planet
- (e) Animal

35. If all the digits of the given number ?568941372? are arranged in descending order from left to right, then how many digits remain in the same position after arrangement?

- (a) Two
- (b) One
- (c) None
- (d) Three
- (e) Four

40. Which of the following meaningful word can be formed with the help of the letters of ?SCHOOL??

- (a) Cohl
- (b) Scol
- (c) Losh
- (d) Sool
- (e) None of these

In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

41. 60, 30, 30, 45, 90, 225, 725

- (a) 225
 - (b) 60
 - (c) 90
 - (d) 725
 - (e) 45
-

42. 17, 29, 50, 83, 127, 182, 248

- (a) 29
 - (b) 83
 - (c) 182
 - (d) 248
 - (e) 50
-

43. 2, 8, 26, 80, 242, 728, 2188

- (a) 242
 - (b) 2188
 - (c) 2
 - (d) 728
 - (e) 8
-

44. 7.1, 7.7, 8.9, 10.7, 13.1, 16.1, 19.8

- (a) 7.1
 - (b) 13.1
 - (c) 16.1
 - (d) 10.7
 - (e) 19.8
-

45. 2, 4, 9, 18, 36, 62, 99

- (a) 99
 - (b) 4
 - (c) 18
 - (d) 62
 - (e) 36
-

Line chart given below shows the total number of students in five different schools (A, B, C, D and E) in 2019. Study the line chart given below and answer the following question.

46. Total number of students in school D are what percent more or less than total number of students in school E?

- (a) 25%
 - (b) 15%
 - (c) 20%
 - (d) 10%
 - (e) 30%
-

47. Total number of students in school B are how much more than total number of students in school C?

- (a) 120
 - (b) 150
 - (c) 180
 - (d) 90
 - (e) 210
-

48. Total number of students in school D are what percent of total number of students in school A?

- (d) (e)
-

49. Find average number of students in school B, C and D.

- (a) 450
 - (b) 360
 - (c) 420
 - (d) 400
 - (e) 380
-

50. If total number of students in school F in 2019 are 50% more than that of in school B in 2019, then find total number of students in school F in 2019.

- (a) 810
 - (b) 840
 - (c) 820
 - (d) 800
 - (e) 830
-

51. A man bought a bike for Rs. 26600 and spent Rs. 1400 on its repairing. If he sold it for Rs. X and made a profit of 12.5%, then find X??

- (a) 31500
 - (b) 30800
 - (c) 31360
 - (d) 32200
 - (e) 30600
-

52. Two types of sugar i.e., 24 kg of Rs. 50 per kg and 16 kg of Rs. 40 per kg. At what price of per kg mixture of sugar was sold so that gain a profit of 25%?

- (a) Rs. 52.5
 - (b) Rs. 44
 - (c) Rs. 57.5
 - (d) Rs. 36.8
 - (e) None of these
-

53. In 6 hours, a boat travels 24 km more along the stream than against the stream. If boat travel 35 km along the stream and come back against the stream in 6 hrs, then what is speed of boat in still water?

- (a) 14 km/hr
 - (b) 12 km/hr
 - (c) 18 km/hr
 - (d) 15 km/hr
 - (e) 16 km/hr
-

54. Average of present age of A, B, C and D is 30 years. B is 14 years older than D and C is 2 years younger than D. Present age of A is equal to average of present age of group. Find the age of C five years ago.

- (a) 24 years
 - (b) 29 years
 - (c) 19 years
 - (d) 21 years
 - (e) 31 years
-

55. A person covers a distance with the speed of 4 m/sec in 1 hr 40 min and 30 sec. find distance covered by him.

- (a) 18.6 km
 - (b) 24.12 km
 - (c) 21.64 km
 - (d) 28.8 km
 - (e) 16.44 km
-

56. If an amount of Rs. 13200 is distributed in three persons such that share of R is half of P and share of Q is one-third of P. Find share of Q and R together?

- (a) Rs. 5050

- (b) Rs. 6000
 - (c) Rs. 4660
 - (d) Rs. 6240
 - (e) Rs. 5600
-

57. If a certain sum becomes twice in 3 years at certain rate at SI, then find simple interest earned on Rs. 4200 after five years at same rate of interest?

- (a) Rs. 7000
 - (b) Rs. 7500
 - (c) Rs. 5250
 - (d) Rs. 4550
 - (e) Rs. 3750
-

58. An iron bullet of length, breadth and height of 120 cm, 88 cm and 20 cm respectively is made into a cylindrical wire of length 67200 cm. What is the diameter of the wire?

- (a) 1 cm
 - (b) 0.25 cm
 - (c) 0.5 cm
 - (d) 2 cm
 - (e) 1.5 cm
-

59. P and Q enter into a partnership. Q and P invests Rs 9000 and Rs 12000 respectively. Q and P withdrew Rs X and Rs. 2400 after 4 months and 8 months respectively. If profit ratio of P and Q at the end of the year is 168 :125. Find Value of X (in Rs.).

- (a) 500
 - (b) 2000
 - (c) 2500
 - (d) 1500
 - (e) 1000
-

60. The average of marks in 5 subjects obtained by a student is 65. On re calculating it was found that the marks of two subjects were recorded as 58 and 68 instead of 85 and 86 respectively. Find the actual average marks obtained by the student.

- (a) 68
 - (b) 72
 - (c) 74
 - (d) 70
 - (e) 69
-

61. If a number is reduced by 25%, it becomes 150. By what percent should it be increased to make it 250.

- (a) 35%
 - (b) 25%
 - (c) 45%
 - (d) 75%
 - (e) 20%
-

62. The time taken by a train A running at a speed of 54 km/hr to cross another train B of length 700 meters going in opposite direction at the speed of 90 km/h is t minutes. Find the value of t , if train A takes 40 sec to cross a platform of length 100 meters.

- (a) 3
 - (b) 5
 - (c) 2
 - (d) 1
 - (e) 0.5
-

63. A and B can finish a work alone in 10 days and 15 days respectively. They both started work for together, but after 3 days A left the work and remaining work was completed by B alone. If they were paid a total of Rs 6000 for their work, find the wage of A.
- (a) Rs 1600
 - (b) Rs 1800
 - (c) Rs 1500
 - (d) Rs 2100
 - (e) Rs 1200
-

Table given below shows the total number of coolers sold by five different stores and also shows the ratio of the total number of coolers sold to total AC sold by each of these five stores. Read the data carefully and answer the questions. Q54. Average of present age of A, B, C and D is 30 years. B is 14 years older than D and C is 2 years younger than D. Present age of A is equal to average of present age of group. Find the age of C five years ago. (a) 24 years (b) 29 years (c) 19 years (d) 21 years (e) 31 years Q55. A person covers a distance with the speed of 4 m/sec in 1 hr 40 min and 30 sec. find distance covered by him. (a) 18.6 km (b) 24.12 km (c) 21.64 km (d) 28.8 km (e) 16.44 km Q56. If an amount of Rs. 13200 is distributed in three persons such that share of R is half of P and share of Q is one-third of P. Find share of Q and R together? (a) Rs. 5050 (b) Rs. 6000 (c) Rs. 4660 (d) Rs. 6240 (e) Rs. 5600 Q57. If a certain sum becomes twice in 3 years at certain rate at SI, then find simple interest earned on Rs. 4200 after five years at same rate of interest? (a) Rs. 7000 (b) Rs. 7500 (c) Rs. 5250 (d) Rs. 4550 (e) Rs. 3750 Q58. An iron bullet of length, breadth and height of 120 cm, 88 cm and 20 cm respectively is made into a cylindrical wire of length 67200 cm. What is the diameter of the wire? (a) 1 cm (b) 0.25 cm (c) 0.5 cm (d) 2 cm (e) 1.5 cm Q59. P and Q enter into a partnership. Q and P invests Rs 9000 and Rs 12000 respectively. Q and P withdrew Rs X and Rs. 2400 after 4 months and 8 months respectively. If profit ratio of P and Q at the end of the year is 168 :125. Find Value of X (in Rs.). (a) 500 (b) 2000 (c) 2500 (d) 1500 (e) 1000

64. Find the ratio of the total number of AC sold by store R & S together to the total number of AC sold by store P?
- (a) 3 : 5
 - (b) 5 : 3
 - (c) 5 : 4
 - (d) 5 : 2
 - (e) 3 : 2
-

65. Total number of AC sold by store T is what percent less than the total number of AC sold by store Q?
- (a) 20%
 - (b) 80%
 - (c) 40%
 - (d) 50%
 - (e) 60%
-

66. Total number of coolers sold by store S is what percent less than the total number of AC sold by store Q?
- (a) 20%
 - (b) 25%
 - (c) 30%
 - (d) 15%
 - (e) 22%
-

67. Find the average number of AC sold by store P and T.
- (a) 160
 - (b) 120
 - (c) 100
 - (d) 140
 - (e) 130
-

68. If out of total number of AC sold by store Q & R, 40% and 20% ACs respectively are returned by customers (due to defect), then find total number of non-defected AC sold by these two stores together?
- (a) 380
 - (b) 420
 - (c) 320

(d) 360

(e) 300
