RRB Prelims 2022

38 questions

In each question below are given two/three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer-

9. Statements: Some prime are consonant. All consonant are cup. No cup is a cap. Conclusions: I. Some consonant being cap is a possibility. II. All cup being prime is a possibility.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows,
- (e) If both conclusions I and II follow.

10. Statements: Some prime are consonant. All consonant are cups. No cup is a cap. Conclusions: I. No cap is consonant. II. Some prime are not caps.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows,
- (e) If both conclusions I and II follow.

11. Statements: All number is digits. No digit is a numeric. Conclusions: I. Some number is not numeric. II. No number is a numeric.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows,
- (e) If both conclusions I and II follow.

Study the following information to answer the given questions: Twelve persons are sitting in two parallel rows containing six persons in each row in such a way that there is an equal distance between adjacent persons. In the first row- A, B, C, D, E and F are seated and all of them are facing south. In the second row- P, Q, R, S, T and V are seated and all of them are facing north. Therefore, in the given seating arrangement, each member seated in a row faces another member of the other row. D sits third to the right of B. Either D or B sits at an extreme end of the line. The one who faces B sits second to right of T. Two people sit between Q and V. Neither Q nor V sits at an extreme end of the line. The immediate neighbour of Q faces the person who sits third to left of A. R sits second to the left of P. C and E are immediate neighbours of each other. E does not face the immediate neighbour of S.

13. How many persons sit between V and S?

- (a) One
- (b) Three
- (c) Two
- (d) More than three
- (e) None

14. The number of persons sits between A and E is same as the number of persons sits between _____ and _____.

- (a) Q, T
- (b) R, V
- (c) D, C
- (d) P, S
- (e) None of these

15. Who among the following sits second to the right of P?

- (a) V

- (b) S
 - (c) Q
 - (d) T
 - (e) None of these
-

16. Who among the following sits opposite to V?

- (a) E
 - (b) C
 - (c) D
 - (d) F
 - (e) None of these
-

20. The position of how many alphabets will remain unchanged if each of the alphabets in the word ?MULTINATIONAL? is arranged in alphabetical order from left to right?

- (a) One
 - (b) Three
 - (c) Two
 - (d) Four
 - (e) None
-

21. Four of the following five are alike in a certain way so form a group, which of the following does not belong to that group?

- (a) LMR
 - (b) DEJ
 - (c) TUZ
 - (d) KLP
 - (e) FGL
-

Study the following information to answer the given questions: Eight persons are living on different floors of an eight-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 8. Four persons live between A and C who lives on an even numbered floor. H lives on an odd numbered floor. Two persons live between A and B. Three persons live between E and D who lives on an odd numbered floor above B's floor. More than four persons live between F and G who lives above F's floor.

31. How many persons live below C's floor?

- (a) Three
 - (b) More than three
 - (c) Two
 - (d) One
 - (e) None of these
-

32. On which of the following floor does F live?

- (a) 6th floor
 - (b) 7th floor
 - (c) 2nd floor
 - (d) 4th floor
 - (e) None of these
-

33. The number of persons live between D and H is same as the number of persons live between _____ and _____.

- (a) E, A
 - (b) H, A
 - (c) D, C
 - (d) B, G
 - (e) None of these
-

34. Which of the following statement is true about G?

- (a) H lives immediately below G's floor
- (b) Not more than four persons live below G's floor

- (c) Only two persons live between G and B
 - (d) G lives on an odd numbered floor
 - (e) None is true
-

40. Among A, B, C, D and E, each of them has different weights. D's weight is more than only three persons. B's weight is more than E and less than C. C is not lighter than D. A is heavier than B. Who among them is the third heaviest?

- (a) B
 - (b) D
 - (c) E
 - (d) A
 - (e) C
-

The table given below shows total number of Android mobiles & IOS mobiles available at three different stores P, Q and R and the table shows the percentage of total mobiles (Android mobiles + IOS mobiles) sold by these stores out of total available mobiles. Read the data carefully and answer the questions.

41. The number of ?Android mobiles? sold by store P and store Q is 30% and 40% respectively. Find the total ?IOS mobiles? sold by store P and Q together?

- (a) 180
 - (b) 140
 - (c) 160
 - (d) 200
 - (e) 240
-

42. The average number of mobiles sold by store Q and store R together is how much more or less than total unsold mobiles by store P?

- (a) 175
 - (b) 195
 - (c) 165
 - (d) 145
 - (e) 225
-

43. If the ratio of total ?Android mobiles? to total ?IOS mobiles? sold by stores R and Q is 5 : 4 and 3 : 2 respectively, then find the total number of ?Android mobiles? sold by store R & Q together?

- (a) 450
 - (b) 420
 - (c) 350
 - (d) 390
 - (e) 320
-

44. Total unsold mobiles of store P is what percent (approximate) of the total unsold mobiles of store Q & R together?

- (a) 65%
 - (b) 60%
 - (c) 40%
 - (d) 55%
 - (e) 45%
-

45. Find the total number of mobiles sold by all three stores P, Q & R together?

- (a) 720
 - (b) 780
 - (c) 810
 - (d) 840
 - (e) 880
-

46. A man has 250 l milk and each time he takes out 25 l of milk and replaced it with same quantity of water. If he repeats this process thrice then find quantity of milk in final solution (in liter).

- (a) 162.225
- (b) 182.25

- (c) 142.25
 - (d) 122.25
 - (e) 102.25
-

47. Ratio of volume of two spheres is 27 : 64 and radius of larger sphere is 14 cm. If radius of smaller sphere is 7.5 cm less than side of a square, then find the area of that square (in cm^2)?

- (a) 225
 - (b) 484
 - (c) 625
 - (d) 324
 - (e) 361
-

48. Adarsh is two years older than Ayush and ratio of present age of Adarsh and Sameer is 13 : 15 and. If ratio between age of Ayush & Sameer after three years is 9 : 11, then find the difference between Adarsh age after five years & Sameer's present age (in year)?

- (a) 1
 - (b) 2
 - (c) 3
 - (d) 4
 - (e) 5
-

49. Two cards are drawn randomly from a pack of 52 cards. Then, find the probability of getting at least one 1 red king and 1 black king, if replacement is not allowed.

- (d) (e)
-

50. A shopkeeper gives one article free at purchase of every four article and also allows 10% discount. If he wants to earn 8% profit then find market price is what percent of cost price of each article.

- (a) 150%
 - (b) 50%
 - (c) 100%
 - (d) 75%
 - (e) 20%
-

51. Upstream speed of a boat is $62\frac{1}{2}\%$ of downstream speed of that boat and boat takes 1.5 hours more to cover a distance of 65 km in upstream than that in still water. Find speed of stream?

- (a) 6 km/hr
 - (b) 3 km/hr
 - (c) 5 km/hr
 - (d) 4 km/hr
 - (e) 3.5 km/hr
-

52. Hemant invest 1800 Rs at rate of 5% and $x\%$ per annum in ratio 4 : 5 respectively. At the end of 2 year, he will get total Rs 160 as SI. Find value of x

- (a) 4%
 - (b) 6%
 - (c) 8%
 - (d) 4.5%
 - (e) 3%
-

53. A train of length 1.6 km crosses a pole in 3 min. Another train coming from opposite direction with speed of 50 km/h can cross first train in ? ? ? ? Find length of train which has speed of 50 km/h.

- (a) 1.4 km
 - (b) 1.2 km
 - (c) 1.8 km
 - (d) 3 km
 - (e) 2 km
-

54. Manoj's monthly income is Rs. 5000. Due to 10% increase in his income his expenditure is increased by 18% and savings are reduced by 2%. Find his initial expenditure. (In Rs.)

- (a) 3480
 - (b) 3040
 - (c) 3000
 - (d) 3140
 - (e) 3080
-

55. The average weight of seven students in a class is 26.5 kg. When a new student joins them, the average weight increases by 2.5 kg. Find the weight of the new student? (in kg)

- (a) 46.5
 - (b) 43.5
 - (c) 48.5
 - (d) 39.5
 - (e) 41.5
-

62. Veer, Aayush and Shivam entered into a business and invested in the ratio of a : 12 : 15 respectively. If time period for which Veer, Aayush and Shivam invested is in the ratio of 12: 10 : b respectively and the profit share of Veer, Aayush and Shivam are same, then find ?a-b??

- (a) 4
 - (b) 3
 - (c) 5
 - (d) 2
 - (e) None of these
-

63. Average of four numbers is increased by 1 when a number is replaced by x and average of that four number is decreased by 1 when another number is replaced with x. What is the difference of the both numbers?

- (a) 6
 - (b) 8
 - (c) 16
 - (d) 4
 - (e) Cannot be determined
-

64. There are three numbers and the ratio of first to second number is 9:10, while the ratio of first to third number is 3:4. If average of all the three numbers is 62, then find difference of second and third number?

- (a) 8
 - (b) 10
 - (c) 12
 - (d) 14
 - (e) 16
-

65. 400 students took the All-India mock test, 60% of the boys and 80% of the girls cleared the cut off in this mock test. If the total percentage of students cleared the cut off of this mock test is 65%, then find how many girls appeared in this mock test?

- (a) 100
 - (b) 120
 - (c) 150
 - (d) 300
 - (e) 125
-

Read the given information carefully and answer the following questions. Aayush has two daughters (Sneha and Neha) and two sons (Vivek and Vikash). Present age of Aayush is equal to the sum of present age of both the sons and 125% of the sum of present age of both the daughters. Vikash was 20 years elder to Sneha who was that time 16 years younger to her sister. 10 years ago, ratio of age of Aayush to that of Vivek at that time was 3:1.

66. Find the ratio of age of Neha four years later to that of age of Vivek ten years later?

- (a) 2 : 1

- (b) 1 : 2
 - (c) 1 : 1
 - (d) 3 : 2
 - (e) 2 : 3
-

67. Find the average of present age of all the five members?

- (a) 39.6 years
 - (b) 39.4 years
 - (c) 38.8 years
 - (d) 38.4 years
 - (e) 39.2 years
-

68. Find the difference between sum of present age of Vivek and Vikash together and the sum of present age of Sneha and Neha together?

- (a) 14 years
 - (b) 21 years
 - (c) 18 years
 - (d) 20 years
 - (e) 12 years
-

69. Difference between the age of the eldest child and that of the youngest child is what percent of the present age of Neha?

- (d) (e)
-

70. If ratio of age of Aayush's wife four years ago to that of her eldest child four years ago was

(no options)
