RRB Prelims 2022

46 questions

Study the given information and answer the following questions: Eight persons P, Q, R, S, T, U, V and W are sitting in a straight line at an equal distance between each other, but not necessarily in the same order. Some of them are facing north and some are facing south. V faces to north and sits at one of the extreme ends. Q sits 3rd to the right of S. There are two persons gap between S and V. S is the immediate neighbor of P who sits 2nd to the right of Q. U sits 4th to the right of R. R is neither an immediate neighbor of Q nor S. T does not sit at extreme ends. No two persons sitting adjacent to each other face in the same direction.

1. Who among the following sits to the immediate left of S?

- (a) Q
- (b) P
- (c) T
- (d) R
- (e) None of these

2. How many persons sit between Q and R?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) More than four

3. Which among the following pair of persons sit at the extreme ends?

- (a) Q, R
- (b) W, V
- (c) T, S
- (d) R, V
- (e) None of these

4. How many persons are facing the south direction?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) More than four

5. Which of the following would replace % and # respectively in the following expression so that $T \geq P$, $P > F$ holds true?
 $M < S \% T \geq E = D; P \geq S \# L = C > F$

- (a) $>$, $?$
- (b) $?$, $>$
- (c) $?$, $<$
- (d) $>$, $=$
- (e) None of these

19. How many pairs of letters are there in the word 'EQUIDISTANT', each of which has as many letters between them (both forward and backward direction) in the word as they have between them according to English alphabetical order?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None of these

20. If in the number 524393156749, position of the 1st digit is interchanged with the position of the 2nd digit and 3rd digit is interchanged with the 4th digit and so on. Then which number will be the 5th from the left end?

- (a) 3
 - (b) 6
 - (c) 9
 - (d) 1
 - (e) 5
-

In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

21. Statements: Some Study are Table. All Table are PG. Few Libraries are Table. Conclusions: I. Some Library can never be PG. II. Some Library can be Study.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

22. Statements: All Cinema are Mean. Some Mean are Time. No 3D is Time. Conclusions: I. Some Mean are not 3D. II. Some Cinema can be Time

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

23. Statements: Some Blue are Yellow. Some Red are Pink. No Blue is Pink. Conclusions: I. Some Red can be Yellow. II. Some Red are not Blue.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

24. Statements: Only a few GW are TP. Only a Few TP are RX. All RX are MK. Conclusions: I. Some GW can be RX. II. All TP being RX is a possibility.

- (a) If only conclusion I follows.
 - (b) If only conclusion II follows.
 - (c) If either conclusion I or II follows.
 - (d) If neither conclusion I nor II follows.
 - (e) If both conclusions I and II follow.
-

Study the information carefully and answer the questions given below. A person starts walking from point B in west direction and walks 7m to reach point A. From point A, he takes a right turn and walks 8m to reach point X. From point X, he starts walking in 10m east to reach at point D. From point D, he takes a right turn and walks 12m to reach point Z. From point Z, he starts walks 3m in west direction to reach at point P.

30. What is the direction of point B with respect to point Z?

- (a) South
 - (b) North- West
 - (c) South-East
 - (d) North
 - (e) None of these
-

31. What is the shortest distance between point B and point P?

- (a) 3m
- (b) 6m

- (c) 4m
 - (d) 5m
 - (e) None of these
-

32. What is the direction of point D with respect to point A?

- (a) North-west
 - (b) South-east
 - (c) South-west
 - (d) North-east
 - (e) None of these
-

39. In a row of student, Avika is 20th from the right end and Veer is 14th from the left end. After interchanging their initial positions then what is the position of Avika from the left?

- (a) 10
 - (b) 9
 - (c) 20
 - (d) 14
 - (e) None of these
-

40. The position of how many alphabets will remain unchanged if each of the alphabet in the word 'RELIGIOUS' is arranged in alphabetical order from left to right?

- (a) Two
 - (b) One
 - (c) None
 - (d) Three
 - (e) Four
-

41. A can do a piece of work in eighteen days, while B and C together can do the same work in six days. If the ratio of efficiency B to A is 8 : 5, then find in how many days C can complete the same work alone?

- (d) (e)
-

42. Speed of a boat in still water is 3.5 km/hr. If the time taken by boat to cover a certain distance in upstream is 250% of the same distance cover in downstream, then find the speed of the stream?

- (d) (e)
-

43. Manoj & Nilu invested Rs. 'P' and Rs. 6000 respectively, while Manoj left the business after eight months. If Manoj got 50% less profit than Nilu at the end of one year, then find 'P'?

- (a) Rs 4800
 - (b) Rs 5500
 - (c) Rs 4200
 - (d) Rs 4500
 - (e) Rs 5000
-

44. A is three years elder than B and after two years the ratio of age of A to that of B will be 5 :

(no options)

45. A train running at the speed of 180 kmph passes a pole in 36 second, in how much time the train can cross 1200 meters long another train, which running in opposite direction with the speed of 108 kmph?

- (a) 32.5 second
 - (b) 37.5 second
 - (c) 35.5 second
 - (d) 30.5 second
 - (e) 27.5 second
-

The following pie chart shows the percentage break up of accidents due to various vehicles in a city. Total number of accidents = 24,000 (including both male and females)

51. Find the average number of accidents that are due to motorcycles, Buses and cars?

- (a) 4,620
 - (b) 4,820
 - (c) 4,720
 - (d) 4,520
 - (e) 4,500
-

52. Out of the total number of accidents caused by trucks and autos together, the ratio of Death to Injuries is 13 : 11. Then find the number of injuries caused by these two vehicles.

- (a) 3,300
 - (b) 3,900
 - (c) 4,400
 - (d) 3,410
 - (e) 3,850
-

53. If in total number of accidents $62\frac{1}{2}\%$ are male. Male accidents due to cars and cycles is 40% of total male accidents, then find the number of female accidents due to cars and cycles together?

- (a) 720
 - (b) 900
 - (c) 600
 - (d) 960
 - (e) 840
-

54. Find the difference of the central angle corresponding to the number of accidents due to motorcycles and autos together and Trucks and cycles together.

- (a) 35°
 - (b) 33.4°
 - (c) 32.4°
 - (d) 35.4°
 - (e) 36°
-

55. Out of total accidents, 48% are resulted into spot deaths, which are only $6\frac{1}{4}\%$ of the total population of city. Then, find the number of female population, if the ratio of male to female is

(no options)

Read the data carefully and answer the following questions. People take subscription of Sony six for watching three games Hockey, Cricket and Football. The ratio of male who take subscription for watching Hockey to that of for Cricket is 5 : 6. Females who take subscription for watching Cricket are 1000 less than the females who take subscription for watching Hockey. Male and Female who take subscription for watching Football are 16750 and 18500 respectively. Total male who take subscription for watching Cricket are 4000 less than total female who take subscription for watching cricket. Average of male and female who take subscription for watching cricket is 17000.

61. Total male who take subscription for watching Cricket & Hockey together are how many more/less than total female who take subscription for watching Football & Cricket together?

- (a) 10000
 - (b) 12000
 - (c) 5000
 - (d) 8000
 - (e) 7000
-

62. Total male who take subscription for watching Football is what percent more than total male who take subscription for watching cricket?

- (a) 18 %
 - (b) 8 %
 - (c) 11 %
 - (d) 15 %
 - (e) 12 %
-

63. What is the average of male who take subscription for watching Hockey, Football and Cricket?

- (a) 14500
 - (b) 13600
 - (c) 11750
 - (d) 14750
 - (e) 15500
-

64. If total female who take subscription for watching Tennis are 40% of total female who take subscription for watching Hockey, Football and Cricket together, then how many females who take subscription for watching Tennis?

- (a) 11500
 - (b) 12500
 - (c) 23000
 - (d) 25000
 - (e) None of these
-

65. Total male who take subscription for watching Hockey, Football and Cricket together are how many more/less than total female who take subscription for watching Hockey, Football and Cricket together?

- (a) 15000
 - (b) 13250
 - (c) 10200
 - (d) 15500
 - (e) 10000
-

Table given below shows total number of students who appeared for SBI clerk pre-exam in a computer lab in three different shifts on five days. Read the data carefully and answer the following questions?

66. Total number of students appeared in shift1 & shift2 together of day2 are approximately what percent more or less than total number of students appeared in shift3 of day1 & day3 together?

- (a) 11.11%
 - (b) 9.09%
 - (c) 8.25%
 - (d) 11.33%
 - (e) 9.11%
-

67. If 40% of students appeared in shift2 of day4 are girls, then find number of boys appeared in shift2 of day4 are how much less than total students appeared in same shift of day5?

- (a) 190
 - (b) 105
 - (c) 85
 - (d) 90
 - (e) 120
-

68. Find the average number of students appeared in shift3 of all five days?

- (a) 800
 - (b) 820
 - (c) 810
 - (d) 815
 - (e) 805
-

69. If 0.4% and 0.75% of students appeared in shift1 & shift3 of day1 and day5 respectively cleared the pre-exam, then find the ratio of students who cleared pre-exam in shift3 of day5 to that of in shift1 of day1?

- (a) 1:2
 - (b) 3:2
 - (c) 4:3
 - (d) 2:3
 - (e) 2:1
-

70. Total number of students appeared in shift2 of day4 are what percent of total number of students appeared in shift3 of the same day?

- (a) 45%
 - (b) 87.5%
 - (c) 62.5%
 - (d) 75%
 - (e) 60%
-

71. A man invested Rs. 4000 at the rate of $X\%$ p.a. on simple interest and get Rs. 5440 as amount after three years. Find the value of $(X + 3)$?

- (a) 9
 - (b) 21
 - (c) 18
 - (d) 15
 - (e) 12
-

72. Sum of circumference of circle and perimeter of the square is 204 cm and ratio of radius of circle to side of square is 7 : 6. Find the area of square (in cm^2) .

- (a) 324
 - (b) 400
 - (c) 441
 - (d) 256
 - (e) 576
-

73. Pipe A and B alone can fill a tank in x hours and $x+10$ hours respectively. If both pipes together fill the tank in 12 hours, then the time taken by B alone to fill the tank is what percent of that of A alone?

- (a) None of these
 - (b) 175%
 - (c) 125%
 - (d) 200%
 - (e) 150%
-

74. 80 liters solutions of sugar and water in the ratio of 2: 3 is mixed with 120 liters solutions of sugar and water. Find the ratio of sugar to water in 120 liters solution, if percentage of sugar in final solution is 38.5%?

- (a) 3:2
 - (b) 2:3
 - (c) 3:5
 - (d) 7:13
 - (e) 5:7
-

75. A man buys an article and marks it up 30 % above its cost price. At the time of sale, he gives 10% discount instead of 15% due to which he earns Rs. 13 more. Find cost price of the article?

- (a) Rs. 230
 - (b) None of these
 - (c) Rs. 150
 - (d) Rs. 130
 - (e) Rs. 200
-

Find out the missing term in the given number series.

76. 2, 8, 40, 240, 1680, ?

- (a) 12440
 - (b) 13440
 - (c) 14440
 - (d) 11440
 - (e) 10440
-

77. 1, 6, 16, 31, 51, ?

- (a) 79

- (b) 72
 - (c) 74
 - (d) 76
 - (e) 77
-

78. 4096, 1024, 512, 128, 64, ?

- (a) 2
 - (b) 4
 - (c) 32
 - (d) 8
 - (e) 16
-

79. 21, 42, 64, 87, 111, ?

- (a) 136
 - (b) 126
 - (c) 145
 - (d) 129
 - (e) 121
-

80. 65, 126, 217, 344, 513, ?

- (a) 728
 - (b) 730
 - (c) 731
 - (d) 729
 - (e) 733
-
