

Ready questions - file 1 - 500 questions

1. q000118-3ea534e6 ? PO Pre Quant Set 1 A

CONTEXT: In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

I. $11x + 64/x = 54$ II. $12y^2 + 40y + 17 = 0$

(a) if $x > y$ <== ANSWER

(b) if $x \leq y$

(c) if $x \geq y$

(d) if $x < y$

(e) if $x = y$ or relationship between x and y can't be established

2. q000119-08624422 ? PO Pre Quant Set 1 A

CONTEXT: In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

I. $84x^2 + 115x + 26 = 0$ II. $27y^2 + 36y - 15 = 0$

(a) if $x > y$

(b) if $x \leq y$

(c) if $x \geq y$

(d) if $x < y$ <== ANSWER

(e) if $x = y$ or relationship between x and y can't be established

3. q000120-ffa5261e ? PO Pre Quant Set 1 A

CONTEXT: In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

I. $24x^2 + 25x - 11 = 0$ II. $45y^2 + 36y + 7 = 0$

(a) if $x > y$ <== ANSWER

(b) if $x \leq y$

(c) if $x \geq y$

(d) if $x < y$

(e) if $x = y$ or relationship between x and y can't be established

4. q000213-cd980e70 ? ace quant 3rd edition pdf

A shopkeeper sells two pens, he sold 1 pen at profit and other pen at loss. SP of each of the two pens is Rs.300 and profit percentage on 1 pen is equal to loss percentage on other. If overall loss of shopkeeper is 6.25%, then find difference between cost price of both pen.

(a) Rs.350

(b) Rs.100

(c) Rs.240 <== ANSWER

(d) Rs.160

(e) Rs.300

5. q000225-52fc3134 ? ace quant 3rd edition pdf

In a class percentage of students who passed the exam is 60% and number of boys & girls who passed the exam is same. If boys who failed the exam are 200% more than girls who failed in exam then find the percentage of girls who failed out of total students

(a) 9%

(b) 13%

(c) 10%

(d) 12% <== ANSWER

(e) 15%

6. q000263-bc3a2b1e ? 200-quadratic-equation-questions

I. $7x - 54x + 99 = 0$ II. $4y^2 - 16y + 15 = 0$

(a) if $x > y$ <== ANSWER

(b) if $x < y$

(c) if $x \geq y$

(d) if $x \leq y$

(e) if $x = y$, or no relation can be established between x and y

7. q000516-fb9d9b28 ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: D F 3 # R N 8 A @ Y 4 M ? W P 6 H U 9 1 K 2 E

How many such consonants are there in the above arrangement each of which is immediately preceded by a symbol and immediately followed by a letter?

- (a) None
- (b) One <== ANSWER**
- (c) Two
- (d) Three
- (e) None of these

8. q000525-526fed93 ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: D F 3 # R N 8 A @ Y 4 M ? W P 6 H U 9 1 K 2 E

If all numbers are dropped from the above arrangement, which of the following will be the fourteenth from the left end?

- (a) I <== ANSWER**
- (b) P
- (c) W
- (d) U
- (e) None of these

9. q000526-0534a494 ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: D F 3 # R N 8 A @ Y 4 M ? W P 6 H U 9 1 K 2 E

How many such numbers are there in the above arrangement each of which is immediately preceded by a vowel?

- (a) None
- (b) One <== ANSWER**
- (c) Two
- (d) Three
- (e) None of these

10. q000878-ca73baf2 ? ace quant 3rd edition pdf

A container contains 96 litre mixture of milk and water out of which 35% is water. 20 lit of mixture is taken out and 10 litre milk & 16 litre water are added in remaining mixture. Find the difference between quantity of milk and water in the final mixture after replacement.

- (a) 15.4 lit <== ANSWER**
- (b) 16.8 lit
- (c) 18.2 lit
- (d) 21.4 lit
- (e) 19.8 lit

11. q000943-507af6c2 ? Ace English 3rd edition

CONTEXT: Select the phrase/connector (STARTERS) from the given three options which can be used to form a single sentence from the two sentences given below, implying the same meaning as expressed in the statement sentences.

China will step up efforts to contain the coronavirus outbreak ahead of the Lunar New Year holidays. 17 new cases of the virus have been confirmed and there is increasing possibility of spread of virus to other countries. (i) In lieu of 17 new cases... (ii) Owing to the 17 new cases.... (iii) Taking into consideration China's efforts to....

- (a) Only (i) <== ANSWER**
- (b) Only (ii)
- (c) Only (iii)
- (d) Both (i) and (ii)
- (e) None of the above

12. q000944-d8d7bd8c ? Ace English 3rd edition

CONTEXT: Select the phrase/connector (STARTERS) from the given three options which can be used to form a single sentence from the two sentences given below, implying the same meaning as expressed in the statement sentences.

- (a) The one who belongs to Hyderabad
- (b) The one who belongs to Chennai
- (c) The one who produces Cabbage
- (d) The one who produces Cauliflower <== ANSWER**
- (e) The one who produces Onion

18. q001049-71eec7de ? Complete Pack of Banking Exam

Who sits second to the left of Durga?

- (a) Yazhini
- (b) Suchitra
- (c) Ilakiya
- (d) Priya
- (e) Lakshmi <== ANSWER**

19. q001050-9571311f ? Complete Pack of Banking Exam

Which of the following person belongs to Lucknow?

(a) Jyothi <== ANSWER

- (b) Shalini
- (c) Durga
- (d) Aarthi
- (e) Lakshmi

20. q001051-421323e0 ? Complete Pack of Banking Exam

Which of the following persons sits at the extreme ends of one row?

- (a) Yazhini and Suchitra
- (b) Aarthi and Gayathri
- (c) Haritha and Gayathri <== ANSWER**
- (d) Priya and Ilakiya
- (e) Ritaj and Haritha

21. q001053-559d2dda ? Complete Pack of Banking Exam

Bala working in which of the following country?

- (a) UAE
 - (b) Saudi Arabia
 - (c) Egypt
 - (d) Yemen <== ANSWER**
 - (e) Palestine
17. How many people will sit between Rajesh and Akram? 18. Which of the following persons working in Qatar? 19. Which of the following statement is true?

22. q001058-1824848f ? Complete Pack of Banking Exam

Daniel Ricciardowon which of the following grand prix?

- (a) Russian Grand Prix
- (b) Australian Grand Prix <== ANSWER**
- (c) Chinese Grand Prix
- (d) Canadian Grand Prix
- (e) Bahrain Grand Prix

23. q001059-d0a9fe2d ? Complete Pack of Banking Exam

Which month Sebastian Vettel was born?

- (a) February
- (b) April
- (c) August <== ANSWER**
- (d) November
- (e) Cannot be determined

24. q001061-ac0b0fa9 ? Complete Pack of Banking Exam

Which of the following product does Vishal order?

- (a) Books <== ANSWER**
- (b) Pen drive
- (c) Mobile
- (d) Shirt
- (e) Watch

25. q001063-662e1ace ? Complete Pack of Banking Exam

If 'Laptop' is related to 'Paytm', 'Pen drive' is related to 'Amazon', then which following is 'Watch' related to?

- (a) Flipkart
- (b) Jabong
- (c) Snapdeal <== ANSWER**
- (d) Ebay
- (e) None of these

26. q001066-16f3dfd6 ? Complete Pack of Banking Exam

The person who saved money on August, Saved _____

- (a) 40 <== ANSWER**
- (b) 80
- (c) 500

- (d) 2500
- (e) 1600

27. q001067-c392aab5 ? Complete Pack of Banking Exam

Four among the following form a group in a certain way. Which of the following does not belong to Group?

- (a) A
- (b) F
- (c) C
- (d) B
- (e) D <== ANSWER**

28. q001069-c920e0ef ? Complete Pack of Banking Exam

Which of the following Bank listed on 3rd place from the top?

- (a) Andra Bank
- (b) Dena Bank
- (c) Syndicate Bank <== ANSWER**

I. $2x^2 + 3x - 20 = 0$ II. $2y^2 + 15y + 28 = 0$

(a) if $x > y$ <== ANSWER

(b) if $x \leq y$

(c) if $x \geq y$

(d) if $x < y$

(e) if $x = y$ or relationship between x and y can't be established

186. q001730-45d5d8d2 ? Quadratic

I. $x^2 - 13.5x + 38 = 0$ II. $y^2 - 1.5y - 10 = 0$

(a) if $x > y$

(b) if $x \leq y$

(c) if $x \geq y$

(d) if $x < y$ <== ANSWER

(e) if $x = y$ or relationship between x and y can't be established

187. q001787-6484d985 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: With an increased variability of monsoons and rapidly depleting groundwater tables, large parts of India are reeling under water stress and drought like situation. Here, one intervention that has been tried out in various States, and perhaps needs to be taken up on a bigger scale, is the construction of farm ponds, it can be cost-effective structures that transform rural livelihoods. They can help enhance water control, contribute to agriculture intensification and boost farm incomes.

Which of the following can diminish the importance farm ponds?

(a) Farm Ponds is cost effective and it transform rural livelihoods

(b) It will help to enhance water control, agricultural reforms and can boost farmers' incomes

(c) It can be used as intermediate storage which may lead to evaporation loss <== ANSWER

(d) Both

(e) Both 22

188. q001788-979d7c36 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: With an increased variability of monsoons and rapidly depleting groundwater tables, large parts of India are reeling under water stress and drought like situation. Here, one intervention that has been tried out in various States, and perhaps needs to be taken up on a bigger scale, is the construction of farm ponds, it can be cost-effective structures that transform rural livelihoods. They can help enhance water control, contribute to agriculture intensification and boost farm incomes.

Which of the following statement(s) is/are false in context of the given statement?

- (a) The problem of lower water table has captivated the entire country
- (b) Farm ponds can help in the process of water control
- (c) Construction of farm ponds hamper the agricultural modification & rural subsistence <== ANSWER**
- (d) Farm ponds can be a viable investment option
- (e) None of these

189. q001793-c2a8dd50 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

Owner of Restaurant A has decided to decrease the price of Full Thali to attract the customers while the Owner of Restaurant B will keep the price unchanged. Both the owner has same motive to increase the customer base and increase their income. Which of the following can be hypothesized from the above statement? (I) All the Customer of Restaurant B will move to Restaurant A to avail the benefit of price slashed. (II) Some of the customer will think quality of Restaurant A is not as good as Restaurant B. (III) Infrastructure and kitchen of Restaurant B is more modern and spacious.

- (a) Only I and II
- (b) Only III
- (c) Only II and III <== ANSWER**
- (d) Only I and III
- (e) None of them

190. q002418-52774c11 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: What approximate value should come in place of question mark (?) in the following questions?

Study the data carefully and answer the following questions. (e) 4 www.bankersadda.com | www.scadda.com | www.careerpower.in | Adda247 App 200 Questions of Quantitative Aptitude

If passing marks for each subject is 40% of 120, then what is the difference between passing marks and marks scored by Student B in Computer?

- (a) 30
- (b) 32 <== ANSWER**
- (c) 36
- (d) 40
- (e) 45

212. q002447-6c92e4a8 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note - Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

If company - B sold 80%, 90% and 80% buses manufactured by it in 2016, 2017 & 2018 respectively, then find average number of unsold buses of company - B in 2016, 2017 & 2018.

- (a) 400
- (b) 900
- (c) 500 <== ANSWER**
- (d) 200
- (e) 100

213. q002448-bc7265bb ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note - Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

Buses manufactured by company - A in 2016 & 2018 together are what percent more or less than buses manufactured by company - D in 2017 & 2018 together?

- (a) 50% <== ANSWER**
- (b) 90%
- (c) 70%
- (d) 60%
- (e) 80%

214. q002450-3a4a35e0 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note - Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

Buses manufactured in 2018 by all these 5 companies together are approximately what percent of buses manufactured in 2016 by all these 5 companies together?

- (a) 104%
- (b) 108%
- (c) 102%
- (d) 118%
- (e) 115% <== ANSWER**

215. q002451-d9944bd2 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note - Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

Average number of buses manufactured by company - B, C & D in 2017 are how much more or less than buses manufactured by company - D & E together in 2016?

- (a) 1500
- (b) 2500
- (c) 2000
- (d) 1000 <== ANSWER**
- (e) 500

A sum of Rs. P was invested at 10% for 2 years at simple interest. If the same sum was invested at 20% for $?x?$ years, it would have fetched Rs. 200 more. Find $?x?$ if $Px = 5000$. (value of x is given in months)

- (a) 12
(b) 18
(c) 15 <== ANSWER

- (d) Cannot be determined
- (e) None of these

223. q002472-5623cfb3 ? 200-Questions-of-Quantitative-Aptitude

A sum of Rs 1400 becomes Rs 2408 in 8 yrs at simple interest, then find the rate of interest for last 4 yrs, if the interest rate for 1st 4 yrs is 12% per annum ?

- (a) 8 %
- (b) 10 %
- (c) 6% <== ANSWER**
- (d) 4 %
- (e) None of these

224. q002476-2691ea04 ? 200-Questions-of-Quantitative-Aptitude

If the shopkeeper marked the price of an item 60% above the cost price and then gives two successive discount of 10% and 15% respectively, then find the profit percentage of the shopkeeper on selling the item?

- (a) 25.4%
- (b) 22.4% <== ANSWER**
- (c) 20%
- (d) 28.5%
- (e) 32%

225. q002477-48df0c03 ? 200-Questions-of-Quantitative-Aptitude

Johnny calculates his profit at cost price while Jini at selling price. If cost price is same for all and everyone calculate their profit as 10%. Find ratio of selling price.

- (a) 100:111
- (b) 10:11
- (c) 10:101
- (d) 99:100 <== ANSWER**
- (e) Cannot be determined

226. q002478-276ef1aa ? 200-Questions-of-Quantitative-Aptitude

An amount doubles in 5 years at simple interest. In what time will it become 12 times of itself at same rate? (in years)

- (a) 30
- (b) 50
- (c) 55 <== ANSWER**
- (d) 36
- (e) None of these

227. q002480-1ba68669 ? 200-Questions-of-Quantitative-Aptitude

An amount of 4000 rs is invested at 20% per annum for 2 yrs at compound interest compounding half-yearly, then find the total interest amount received after 2 yrs ?

- (a) Rs 1856.4 <== ANSWER**
- (b) Rs 1812.4
- (c) Rs 1882.4
- (d) Rs 1912.4
- (e) None of these

228. q002481-4a7e2045 ? 200-Questions-of-Quantitative-Aptitude

Anu bought a purse at a discount of 20% which was marked at 30% higher than cost price. A customer gets 10% extra discount on purchase of more than two purses. If Anu purchased 3 such purses, find profit or loss percent of shopkeeper.

- (a) 4% loss
- (b) 4% profit
- (c) 6.4% profit
- (d) 6.4% loss <== ANSWER**
- (e) None of these

229. q002487-69a034a9 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Line graph shows the quantity of 5 different products purchased by a person.

If cost per kg of sugar, salt & rice is Rs. 10, Rs. 30 & Rs. 20 respectively then find the sum of difference of total cost of sugar and that of salt and difference of total cost of sugar and that of rice?

- (a) Rs. 500
- (b) Rs. 475
- (c) Rs. 400
- (d) Rs. 450 <== ANSWER**
- (e) Rs. 435

230. q002488-3dd9eaf6 ? 200-Questions-of-Quantitative-Aptitude

A train crosses a tunnel which is half of its length with a speed of 144 km/hr. in ? min, then find the time in which it will cross another train which is double of its length and standing on platform in opposite direction with 60% of its initial speed ?

- (a) 120 sec
- (b) 90 sec
- (c) 150 sec
- (d) 100 sec <== ANSWER**
- (e) 180 sec. 11

231. q002492-e2edc5e5 ? 200-Questions-of-Quantitative-Aptitude

How many students are there in Section B of class?

- (a) 50 <== ANSWER**
- (b) 60
- (c) 90
- (d) 100
- (e) 110

232. q002494-924d7a3d ? 200-Questions-of-Quantitative-Aptitude

what is average of students who passed in only one examination in all sections together?

- (a) 39.67
- (b) 40.67
- (c) 41.67 <== ANSWER**
- (d) 42.67
- (e) 43.67

233. q002496-b662bdcb ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Given table shows the data of students of a class related to results of Half-yearly and Annual examination. Study the data carefully and answer the questions.

Which sections have equal number of students?

- (a) section A & B
- (b) section A & C <== ANSWER**
- (c) section B & C
- (d) all have same no.of students
- (e) none

234. q002498-ff86a253 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Following table gives the detail of items sold by two different stores i.e Store A and Store B and among them percentage of numbers of items purchased by females are given.

Find the respective ratio between total number of items purchased by males from store A on Tuesday and Wednesday together to the total numbers of items purchased by females from store B on Thursday and Friday together ?

- (a) 45:73
- (b) 41:71
- (c) 73:41
- (d) 71:41 <== ANSWER**
- (e) 37:71

CONTEXT: Study the charts given below carefully and answer the following questions. Pie chart shows the percentage distribution of total Spectators of a particular city loving different sports as shown below.

[has 1 image(s) - chart not rendered]

Total spectators of cricket and football together is how much more/less than total spectators of badminton and tennis together?

- (a) 160
- (b) 140 <== ANSWER**
- (c) 180
- (d) 200
- (e) None of these

283. q002554-51162bea ? 200-Questions-of-Quantitative-Aptitude

If in D there are only two parties-BJP & INC and BJP got 70% of the total valid votes, then find by how many votes BJP won the election in D.

- (a) 18000 <== ANSWER**
- (b) 25000
- (c) 10000
- (d) 16000
- (e) 6000 2

284. q002555-4caf3c4c ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Given bar graph shows the details of number of students in a particular class of 3 different schools in 5 different years.

Find the difference between the number of total students from all the schools in 2011 and 2013 together and the total number of students from all the schools in 2014 and 2015 together?

- (a) 140
- (b) 60
- (c) 120
- (d) 80 <== ANSWER**
- (e) 100 3

285. q002556-8e738d8d ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Given bar graph shows the percentage distribution of total number of students of each school (P, Q, R & S) who took admission in 3 different streams. Total students in P, Q, R & S are 700, 800, 400 & 900 respectively.

What is the ratio of the no. of students who have opted for engg. in college R to that of those who have opted for same stream in college P?

- (a) 14:11
- (b) 17:13
- (c) 11:14 <== ANSWER**
- (d) 13:17
- (e) None of these

286. q002558-28e4bc08 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note - Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

If buses sold by company - B and company - E in 2016 are 75% and 80% respectively, then find ratio of buses sold by company - B & E together in 2016 to unsold buses of company - B & E together in 2016.

- (a) 11 : 5
- (b) 5 : 1
- (c) 8 : 5
- (d) 7 : 2 <== ANSWER**
- (e) None of the above

287. q002561-f550102f ? 200-Questions-of-Quantitative-Aptitude

The interest earned on an amount after 2 yrs at 10 % per annum compounded yearly is Rs

- (a) Rs 1792 <== ANSWER**
- (b) Rs 1864
- (c) Rs 1912
- (d) Rs 1754
- (e) Rs 1720

288. q002562-a0defb7c ? 200-Questions-of-Quantitative-Aptitude

Rs. 12000 becomes Rs. 15000 in 18 months at a certain rate of interest at simple interest. Find amount if Rs. 5000 invested at same rate for 30 months at simple interest.

- (a) Rs. 7883.33
- (b) Rs. 7083.33 <== ANSWER**
- (c) Rs. 7279.80
- (d) Rs. 7173.33
- (e) None of these 9

289. q002563-220cb925 ? 200-Questions-of-Quantitative-Aptitude

Aakash sells an article at a profit of 10%. Had he bought it for 5% less and sold it for 120 rs more then he would have gained 20% profit. What is the cost price of the article ?

- (a) Rs 2500
- (b) Rs 4000
- (c) Rs 3000 <== ANSWER**
- (d) Rs 3500
- (e) Rs 2000

290. q002565-2fa3be79 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Line graph shows the quantity of 5 different products purchased by a person.

If total cost of Tea is Rs. 5000 and that of wheat is Rs.

- (a) 72%
- (b) 86%
- (c) 82% <== ANSWER**
- (d) 78%
- (e) 92%

291. q002566-e21340da ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Line graph shows the quantity of 5 different products purchased by a person.

One kg of rice and one kg of sugar is purchased in Rs

- (a) Rs. 300 <== ANSWER**
- (b) Rs. 350
- (c) Rs. 200
- (d) Rs. 250

(e) Rs. 450

292. q002567-ad66f6f7 ? 200-Questions-of-Quantitative-Aptitude

Arun sells his watch at a profit of 33 % & his purse at a loss of 16 % & on whole he gains Rs.

(a) 53 : 15 33 % then there will be no profit no loss. Find cost price

(b) 44 : 17

(c) 41 : 17 of the watch ?

(d) 47 : 15 <== ANSWER

(e) 44 : 15

293. q002570-fdaac0f4 ? 200-Questions-of-Quantitative-Aptitude

Prabhat invested Rs. 15600 on SI at rate of R% p.a. for 3 years & the interest obtained is Rs. 7020. If he invested the same amount at rate of (R+5)% p.a. for two years on CI then find the interest obtained by Prabhat?

(a) Rs. 6864 <== ANSWER

(b) Rs. 6250

(c) Rs. 6748

(d) Rs. 6468

(e) Rs. 6648

294. q002571-7ff5d677 ? 200-Questions-of-Quantitative-Aptitude

Students failed in both exams in section C are what percent of total students in section C? (in %)

(a) 30

(b) 20

(c) 18

(d) 25

(e) 33.33 12 <== ANSWER

295. q002572-351549f9 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Following table gives the detail of items sold by two different stores i.e Store A and Store B and among them percent age of numbers of items purchased by females are given.

Find the total number of items purchased by males from store B on all the given days together?

(a) 936

(b) 832

(c) 912

(d) 852

(e) 882 <== ANSWER

296. q002573-712a8550 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Following table DI gives the detail of magazines printed by five different companies and distributed among different distributors and answer the following question accordingly.

Find the difference between total no. of distributors of magazines sold by companies P and Q together to the total no. of distributors of magazines sold by companies R and T together?

(a) 38

(b) 34 <== ANSWER

(c) 36

(d) 42

(e) 40 Note:- magazines were equally distributed among the distributors of respective printing companies

297. q002574-d5458fa3 ? 200-Questions-of-Quantitative-Aptitude

Find the total numbers of distributors of magazines of company Q and T together?

(a) 62

(b) 72

(c) 84

(d) 78 <== ANSWER

(e) 64 13 42, 142, 86, 91, 338, ? 84, ?

298. q002575-7566deb9 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the paragraph carefully and answer the following questions. Adda247 publications sold three books i.e. Quant, English and reasoning on three different stores i.e. A, B and C. Quant, reasoning and English book are sold at 20% discount by store A, C and B respectively. Quant, reasoning and English book are sold at 15% discount by store C, B and A respectively. Discount percent given on Quant book by store B is half of discount percent given on reasoning book by store C. M.R.P. for each book is same at every store.

If total selling price of Quant book for store A and B together is Rs.

- (a) Rs.240
- (b) Rs.270
- (c) Rs.280
- (d) Rs.300 <== ANSWER**
- (e) Rs.600

299. q002576-f176cc6b ? 200-Questions-of-Quantitative-Aptitude

Store A sold reasoning book at Rs. 880, find M.R.P of the book if discount given by store A on reasoning book is 20% more than discount given by store B on quant book?

- (a) Rs. 1200
- (b) Rs. 1000 <== ANSWER**
- (c) Rs. 960
- (d) Rs. 1240
- (e) None of these. 15

300. q002577-81c27094 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Pie chart given below shows no. of non-defective article manufactured by five different firms i.e. P, Q, R, S and T. Read the data carefully and answer the following questions. (total article manufactured by any firm = defective + non-defective article)

If no. of defective article manufactured by firm P and R are 30% and 30 10 13 % respectively of total no. of article manufactured by each of these firm, then find defective article manufactured by firm P is what percent more/ less than that of firm R?

- (a) 20%
- (b) 15%
- (c) 50% <== ANSWER**
- (d) 25%
- (e) 75%

301. q002578-b9a5983d ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Pie chart given below shows no. of non-defective article manufactured by five different firms i.e. P, Q, R, S and T. Read the data carefully and answer the following questions. (total article manufactured by any firm = defective + non-defective article)

What is the ratio of non-defective article manufactured by firm Q and R together to that of P and S together?

- (a) 2:1
- (b) 1:1 <== ANSWER**
- (c) 1:2
- (d) 1:3
- (e) 3:1 16

302. q002580-dbb7eafd ? 200-Questions-of-Quantitative-Aptitude

The work done by 5 boys in 20 days can be done by 10 men in 8 days. 4 Men & 4 boys undertook a work to complete in 3 days for Rs.

- (a) Rs 236
- (b) Rs.240 <== ANSWER**
- (c) Rs.244
- (d) Rs.248
- (e) Rs.242

303. q002582-bdb887f1 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Given line graph shows the sum invested, rate of interest and time period of investment by 4 people. Study the data carefully and answer the questions. (NOTE: all invested their sum at simple interest)

If Karan had invested same sum at compound interest at same rate of interest for same period. How much more would he earn?

- (a) Rs 80 <== ANSWER**
- (b) Rs 90

- (c) Rs 70
- (d) Rs 60
- (e) None of these

304. q002583-eebe40ae ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Following Table chart gives the details of 5 students of a particular school in five different subjects in the annual exam.

Total marks scored by Aakash, Siddharth and Lokesh in English is what percentage of the total marks scored by Amit, Aakash and Lokesh in maths?

- (a) 75%
- (b) 70% <== ANSWER**
- (c) 65%
- (d) 68%
- (e) 80% Note:-the data provided in the table is percentage of marks out of total marks in that particular subject

305. q002584-1644b90d ? 200-Questions-of-Quantitative-Aptitude

Find the difference of total marks scored by Ritesh in all the given subject together and total marks scored by Aakash in all the given subjects together?

- (a) 71 <== ANSWER**
- (b) 84
- (c) 78
- (d) 82
- (e) 93 18

306. q002585-7c6a5ffb ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Given pie graph shows percentage distribution of watches manufactured by a company in 2018. Study the graph carefully & answer the questions.

What is ratio of watches manufactured by Timex & Sonata together to that by Fossil & Casio together?

- (a) 5:4
- (b) 8:7
- (c) 7:8 <== ANSWER**
- (d) 7:4
- (e) 5:8

307. q002586-72880424 ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the charts given below carefully and answer the following questions. Pie chart shows the distribution of total students of a university in different departments as shown below.

Total students from engineering and pharmacy department together is approximately what percentage of the total students from MBBS and Fine arts dept?

- (a) 122%
- (b) 148%
- (c) 126%
- (d) 143%
- (e) 134% <== ANSWER**

308. q002587-b9c760fe ? 200-Questions-of-Quantitative-Aptitude

CONTEXT: Study the charts given below carefully and answer the following questions. Pie chart shows the distribution of total students of a university in different departments as shown below.

Find the ratio of total number of student from engineering and architecture department together to total students from the pharmacy and BSc department together?

- (a) 27:43
- (b) 27:47
- (c) 43:27 <== ANSWER**

350. q002673-2c6e5107 ? QUANTS

CONTEXT: Three partners Abhishek, Neeraj and Aniket enter into a partnership business with the capitals in the ratio of 3 : 5 : 8. After four month Abhishek, Neeraj and Aniket added Rs. 6000, Rs. 9000 and Rs. 12000 respectively, after next four months Abhishek and Aniket withdraw Rs. 5000 and Rs. 8000 respectively and Neeraj added additional Rs. 6000.

Amir and Mayank started a business in partnership. Amir investment for six months is Rs. 6000 more than what Neeraj invested for first four months and Mayank invested for eight months, Rs. 2000 less than what Aniket invested for first four months. If Mayank got profit share of Rs. 15400, out of total profit Rs. 22750 then find the investment of Amir is how much less than investment of Mayank? (2 marks)

- (a) 218000 Rs
- (b) 216000 Rs
- (c) 210000 Rs
- (d) 220000 Rs
- (e) 232000 Rs <== ANSWER**

351. q002674-57bef388 ? QUANTS

Veer, Sameer and Gopal enter into a business by making investment in the ratio of 5 : 6 : 7 respectively. After six months Veer and Sameer withdraw 25% of his initial investment respectively. After 18 months from the starting of business Gopal added 75% of his initial investment. If at the end of one year profit share of Gopal is Rs. 2000 more than Sameer, then find profit share of Veer?

- (a) 4420 Rs
- (b) 4520 Rs
- (c) 4820 Rs
- (d) 4320 Rs <== ANSWER**
- (e) 4720 Rs.

352. q002675-aa87fec0 ? QUANTS

Manish and Rituraj invested Rs. 12000 and Rs. 16000 in a business. After four months Manish and Rituraj both added Rs. 4000 in their initial investment. At the end of one year the total profit was Rs. 172500, if Manish and Rituraj invested their profit share on compound interest at the rate of 20% and 10% respectively then find difference between interests got by both at the end of two years?

- (a) Rs.10250
- (b) Rs.11520
- (c) Rs.12210
- (d) Rs.13110 <== ANSWER**
- (e) Rs.12660

353. q002676-24890dc3 ? QUANTS

CONTEXT: Data given below about investment of three partners in a business. Read the data carefully and answer the questions:
Swati, Monika and Anshika three business partners enter into a business by making investment Rs. 4000, Rs. 6000 and Rs. 8000 respectively. After first quarter Swati, Monika and Anshika added some amount in the ratio of 2 : 3 : 2. After second quarter Swati, Monika and Anshika withdrew 50%, 30% and 30% respectively of capital invested in second quarter. At the end of nine months profit share divided among Swati, Monika and Anshika in the ratio of 24 : 37 : 49 respectively.

[has 3 image(s) - chart not rendered]

Satish and Veer enter into a business, Satish invested 200% more than Swati capital for second quarter, while Veer invested 300% more than Anshika capital for third quarter. And profit share of Satish at end of two year is Rs. 7250 out of total profit of Rs. 15950. Then find for how many months Veer invested his capital?

- (a) 14 months
- (b) 12 months
- (c) 18 months <== ANSWER**
- (d) 10 months
- (e) 8 months

- (e) 80 km/hr

425. q002790-653ffe73 ? QUANTS

CONTEXT: Time taken by train A to cover a distance is 1.5 times the time taken by train B to cover the same distance. Train A and train C starts simultaneously from a station in same direction. Train B, start after 30 min and overtake train C in 1.5 hour later than it cross train A.

If train A double its speed, then speed of train A is what % more than the speed of train C. (1 Mark)

- (a) 60% <== ANSWER**
- (b) 100%
- (c) 80%
- (d) 50%
- (e) None of these

426. q002791-85379bae ? QUANTS

CONTEXT: A consignment should deliver on time to customer for which Mahendra start his journey with uniform speed, after 2 hours customer call Mahendra to deliver his order 1 hour before the decided time. Mahendra increased his speed by 50% to deliver it 1 hour before the decided time.

Find the total time taken by Mahendra to deliver the consignment?

- (a) 4 hours
- (b) 5 hours <== ANSWER**
- (c) 6 hours
- (d) 7 hours
- (e) 3 hours

427. q002792-90e07a58 ? QUANTS

CONTEXT: A consignment should deliver on time to customer for which Mahendra start his journey with uniform speed, after 2 hours customer call Mahendra to deliver his order 1 hour before the decided time. Mahendra increased his speed by 50% to deliver it 1 hour before the decided time.

If initially, customer also start moving toward Mahendra at speed of 60 km/hr and take his consignment after 3 hours then find the total distance between Mahendra and Customer initially.

- (a) 256 km
- (b) 150 km
- (c) 500 km
- (d) 450 km <== ANSWER**
- (e) 300 km

428. q002793-f73fd32b ? QUANTS

CONTEXT: A man decided to run 15 rounds of a circular track of 400 m in certain time with certain speed. He starts running but after completing some round around the track he reduced his speed by 40% due to which he takes 4 min extra as scheduled. But if he reduced his speed by completing 3 more rounds he would have reached 2 min earlier than the time he actually reached.

Find the original speed of man?

- (a) 240 m/min
- (b) 160 m/min
- (c) 200 m/min
- (d) 400 m/min <== ANSWER**
- (e) 350 m/min

429. q002794-8209f1f8 ? QUANTS

430. q002795-b7cb9cf4 ? QUANTS

A cyclist left point A for point B and travelled at the constant speed of 25 km/h. When he covered the distance of $25/3$ km, he was overtaken by a car that left point A twelve minutes after the cyclist and travelled at a constant speed too. When the cyclist travelled another 30 km, he encountered the car returning from B. Assume that the car did not stop at point B. Find the distance between A and B.

- (a) 39.5833 km
- (b) 41.0833 km
- (c) 60.833 km <== ANSWER**
- (d) 43.33 km
- (e) 50 km

431. q002796-47e005ab ? QUANTS

Two persons left simultaneously from two places A and B. One of them left A for B while the other left B for A. Both travel at uniform speed. The first person on reaching B returns to A and then again travels back to B and so on. Similarly the second person on reaching A returns to B and then travels back to A and so on. What will be the distance covered by the first person when they meet for the third time given the ratio of the speed of the first person to that of the second person is 3 : 2 and the distance between A and B is 500 m?

- (a) 1000 m
- (b) 1500 m <== ANSWER**
- (c) 2500 m

- (d) 1200 m
- (e) 1800 m

432. q002797-549dce51 ? QUANTS

A train M running at the speed of 108 km/hr crosses a man running at 12 km/hr in opposite direction of train in 12 second and crosses a platform in 32 sec. If a train N is Standing on same platform and length of platform is 140 meter more than length of train N. Find in what time train N will cross train M running in same direction, if train N passes a pole in 12 second?

- (a) 168 sec
- (b) 164 sec <== ANSWER**
- (c) 154 sec
- (d) 186 sec
- (e) 172 sec

433. q002798-c3758924 ? QUANTS

CONTEXT: Satish and Bhavya starts from point P and Q respectively at same time to reach at point B. Satish overtakes Bhavya after 10 hours at point A. If Bhavya starts 4 hours earlier than Satish then they will meet at point B after 16 hours when Satish starts. Ratio between distance between Q and A to Q and B is 1 : 2. Point P, Q, A and B lies on a straight road. 9 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams

If distance between point A and point B is 180km then find time taken by Bhavya to reach point C which is 432km ahead of point B??

- (a) 36 hours
- (b) 44 hours <== ANSWER**
- (c) 24 hours
- (d) 32 hours
- (e) 40 hours

A circle is inscribed in a square. If the difference between area of the square and circle is 262.5 cm², then find the area of the rectangle whose perimeter is same as that of circle while length of rectangle is 20% more than the breadth of rectangle (in cm²)

(a) 1500

(b) 1400

(c) 700

(d) 750 <== ANSWER

(e) 3000

469. q002841-636c133d ? QUANTS

Inside a square plot a circular garden is developed which exactly fits in the square plot and the diameter of the garden is equal to the side of the square plot which is 28 metre. What is the area of the space left out in the square plot after developing the garden?

(a) 98 m²

(b) 146 m²

(c) 84 m²

(d) 168 m² <== ANSWER

(e) 68 m²

470. q002843-8723d417 ? QUANTS

A toymaker makes a toy in which a cone is mounted on the base of a hemisphere. If the total surface area of the toy is 858 cm² then find the volume of the toy, given that the diameter of the toy is 14 cm?

(a) 1950 3 cm³ <== ANSWER

(b) 1250 3 cm³

(c) 1400 cm³

(d) 1500 cm³

(e) 1200 cm³

471. q002844-3b3ca78a ? QUANTS

If sum of circumference of a circle and perimeter of rectangle is 204 cm and perimeter of rectangle is 50% of magnitude of area of square and side of square is 12 cm. If length of rectangle is 8 cm more than that of breadth, then find sum of area of circle and rectangle?

(a) 1694sq cm <== ANSWER

(b) 1450sq cm

(c) 1550sq cm

(d) 1750sq cm

(e) 1460sq cm

472. q002845-76108ba7 ? QUANTS

A sphere is melted into n number of small spheres. Total surface area of these small spheres is what percent more or less than total surface area of large sphere, if the ratio of radius of small sphere to radius of large sphere is 1 : 3.

(a) 50%

(b) 100%

(c) 150%

(d) 200% <== ANSWER

(e) 75%

473. q002846-6c3bbf8d ? QUANTS

Ratio of height of cylinder to that of diameter is 2: 3. This cylinder is formed by melting a sphere having same radius as the radius of circle. Ratio of magnitude of area of circle to magnitude of its circumference is 21: 2. Find height of cylinder.

(a) 14 units

(b) 21 units

(c) 42 units

(d) 28 units <== ANSWER

(e) 35 units

474. q002847-61f47aee ? QUANTS

If the curved surface area of first cone is thrice that of second cone and slant height of the second cone is thrice that of the first, find the ratio of the area of their base.

(a) 81 : 1 <== ANSWER

(b) 9 : 1

(c) 3 : 1

(d) 27 : 1

(e) None of these

475. q002848-0bc2bf6b ? QUANTS

There are two cylindrical vessels with same capacity and same dimensions. If radius of one vessel increased by 7 cm and height of second vessel increases by 15 cm, then capacity of both vessel increased by equality $Q \text{ cm}^3$. If actual height of both vessels is 12 cm, then find value of Q ?

- (a) 9840 cm^3
- (b) 9240 cm^3 <== ANSWER**
- (c) 9460 cm^3
- (d) 9160 cm^3

476. q002849-4c8b648d ? QUANTS

There are four light poles in four corners of a park, four at midpoint of each side and one pole in the middle of that square park. Area of park is 19600 cm^2 . If side of park is 50 times of radius of each light pole, then find the total base area covered by these poles if pole's base is circular in shape?

- (a) 197.12 cm^2
- (b) 172.48 cm^2
- (c) 246.4 cm^2
- (d) 220.76 cm^2
- (e) 221.76 cm^2 <== ANSWER**

477. q002850-3e5ffb98 ? QUANTS

Area of a square is 306.25 cm^2 and breadth of rectangle is 3.5 cm less than side of square. Area of rectangle is 252 cm^2 and height and radius of a cylindrical vessel equal to length & breadth of rectangle respectively. If vessel filled, contains mixture of milk and water in which milk is 75%, then find the volume of water contained by cylindrical vessel?

- (a) 2572 cm^3
- (b) 2472 cm^3
- (c) 2772 cm^3 <== ANSWER**
- (d) 2872 cm^2
- (e) 2878 cm^2

478. q002852-32a68273 ? QUANTS

CONTEXT: ; A hemispherical bowl is filled with hot water to the brim. The contents of the bowl are transferred into a cylindrical vessel whose radius is 50% more than its height.

[has 2 image(s) - chart not rendered]

This hemispherical bowl is joined at one end of the cylindrical vessel and the solid obtained by combining these figure is filled completely with water. If a drain pipe is connected to it then pipe will empty 539 cm^3 of water in one minute. If radius of the solid is 21 cm, then in what time whole of the water will be emptied from the solid. Given that diameter of cylinder and hemisphere are same.

- (a) 72 min <== ANSWER**
- (b) 60 min
- (c) 90 min
- (d) 75 min
- (e) None of these

479. q002853-e5285fea ? QUANTS

A cylinder whose height is equal to its radius is full of milk. Its milk is poured into a hemispherical bowl of same radius as of cylinder and remaining milk is poured into another hemispherical bowl of same volume as of previous one. What percentage of the volume of second hemispherical bowl remained empty?

- (a) 40%
- (b) 66%
- (c) 33%
- (d) 50% <== ANSWER**
- (e) 100%

480. q002854-4642bc36 ? QUANTS

In a house, there is a semicircular corridor, a circular hall and a circular garden. Sum of perimeter of corridor and hall is 102 m. If radius of hall is 50% more than radius of corridor then find area of circular garden, given radius of garden is 300% more than sum of radius of corridor and radius of hall together.

- (a) 6300? sq.m
- (b) 5400? sq.m

- (d) 4200? sq.m
- (e) 4900? sq.m <== ANSWER**

481. q002855-c49edc77 ? QUANTS

Height of a cylindrical vessel is equal to side of a square, whose area is 256 cm^2 . Radius of cylindrical vessel is equal to average of radius of a sphere and hemisphere. If ratio between the radius of hemisphere and that of the sphere is 2 : 1 and difference between their total surface area is 4928 cm^2 , then find volume of cylindrical vessel ?

- (a) 21,288 cm^3
- (b) 20,176 cm^3
- (c) 22,176 cm^3 <== ANSWER**
- (d) 26,176 cm^3
- (e) 24,288 cm^3

482. q002856-86b3d990 ? QUANTS

Radius of a cylinder is half of the side of square, whose perimeter is 6 cm more than perimeter of rectangle. If ratio between length to breadth of rectangle is 7 : 2 and between length of rectangle to side of square is 3 : 2. Find volume of cylinder, given height of cylinder is equal to breadth of rectangle?

- (a) 24,938 cm^3
- (b) 24,948 cm^3 <== ANSWER**
- (c) 24,848 cm^3
- (d) 24,996 cm^3
- (e) 24,918 cm^3

483. q002858-4e208d13 ? QUANTS

Radius of a cylindrical vessel is 1.5 cm less than breadth of rectangle, while height of cylindrical vessel is equal to length of rectangle, whose area is 168 cm^2 . If ratio between length & breadth of rectangle is 7 : 6, then find the thickness of 1 disc, if these discs are kept one above another in cylindrical vessel and 10 discs get completely fit in cylindrical vessel. (Let radius of discs equal to radius of cylindrical vessel)?

- (a) 1.2 cm
- (b) 1.6 cm
- (c) 1.8 cm
- (d) 1.4 cm <== ANSWER**
- (e) 1.0 cm

484. q002859-6747c75e ? QUANTS

The ratio between radius of two hemispheres solid tin pieces is 2 : 3 and difference between volume of both is $\frac{836}{21} \text{ cm}^3$. These two hemispheres are melted into a cylindrical vessel and used 743 cm^3 extra tin material for polishing the vessel. If ratio between height & radius of cylindrical vessel is 3 : 4, then find the total surface area of cylindrical vessel?

- (a) 154 cm^2
- (b) 132 cm^2
- (c) 176 cm^2 <== ANSWER**
- (d) 208 cm^2
