1. q021050-59c430d5 ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: A % D F K E 8 J Q 1 ? V T U 2 \$ W # 6 B G @ I L 7 3 H

How many such letters are there in the above arrangement each of which is immediately followed by a number?

- (a) None
- (b) One
- (c) Two
- (d) Three <== ANSWER**
- (e) None of these

2. q021051-ee05bdb3 ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: A % D F K E 8 J Q 1 ? V T U 2 \$ W # 6 B G @ I L 7 3 H

How many such symbols are there in the above arrangement each of which is immediately preceded by a consonant and followed by a vowel?

- (a) None
- (b) One <== ANSWER**
- (c) Two
- (d) Three
- (e) None of these

3. q021052-f329f35c ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: A % D F K E 8 J Q 1 ? V T U 2 \$ W # 6 B G @ I L 7 3 H

How many such consonants are there in the above arrangement each of which is not immediately preceded by a symbol but followed by a vowel?

- (a) One
- (b) Two
- (c) Three
- (d) Four <== ANSWER**
- (e) None of these

4. q021053-1b39182e ? Ace reasoning 3rd edition

CONTEXT: Study the following arrangement carefully and answer the questions given below: A % D F K E 8 J Q 1 ? V T U 2 \$ W # 6 B G @ I L 7 3 H

How many such vowels are there in the above arrangement each of which is immediately preceded by a number?

- (a) One
- (b) Two
- (c) Three <== ANSWER**
- (d) Four
- (e) None of these

5. q021054-c49c5dc4 ? Ace reasoning 3rd edition

CONTEXT: These questions are based on the following arrangement of numbers, letters and symbols. Study them carefully and answer the questions given below: 1 8 Q W 3 d Z 5 ? 2 J @ U K 9 P I % R 4 \$ M E 7 T # A 6 F

Which of the following should come in place of question mark (?) in the following series based on the elements in the above arrangement? 3WZ 2?@ 9KI ?

- (a) %14
- (b) 4RM <== ANSWER**
- (c) 4%\$
- (d) \$4E
- (e) None of these

6. q021055-51e03c32 ? Ace reasoning 3rd edition

CONTEXT: These questions are based on the following arrangement of numbers, letters and symbols. Study them carefully and answer the questions given below: 1 8 Q W 3 d Z 5 ? 2 J @ U K 9 P I % R 4 \$ M E 7 T # A 6 F

How many such letters are there in the above arrangement each of which is not immediately preceded by a symbol?

- (a) Five
- (b) Six
- (c) Seven <== ANSWER**
- (d) Eight
- (e) More than eight

7. q021104-8e279685 ? Ace reasoning 3rd edition

CONTEXT: In each of the following questions, two @cetexamgroup statements numbered I and II are given. There may be cause and effect relationship between the two statements. These two statements may be the effect of the same cause or independent causes. These statements may be independent causes without having any relationship. Read both the statements in each question and mark your answer as: (a) If statement I is the cause and statement II is its effect; (b) If statement II is the cause and statement I is its effect; (c) If both the statement I and II are independent causes; (d) If both the statements I and II are effects of independent causes; and (e) If both the statements I and II are effects of

Company Y has changed delivery slots for many of its orders. Which of the following may be a probable cause for taking the above step?

- (a) It has suddenly seen a shortage of staff
- (b) It can't cope with the sudden surge in demand of its products
- (c) It doesn't have adequate logistic support for the delivery of its products
- (d) Both a and b
- (e) All of the above Visit: <== ANSWER**

8. q021105-9e59baeb ? Ace reasoning 3rd edition

CONTEXT: In each of the following questions, two @cetexamgroup statements numbered I and II are given. There may be cause and effect relationship between the two statements. These two statements may be the effect of the same cause or independent causes. These statements may be independent causes without having any relationship. Read both the statements in each question and mark your answer as: (a) If statement I is the cause and statement II is its effect; (b) If statement II is the cause and statement I is its effect; (c) If both the statement I and II are independent causes; (d) If both the statements I and II are effects of independent causes; and (e) If both the statements I and II are effects of

As a society we are getting more assertive and traditional power structure are eroding. Which of the following can be a possible effect of the @cetexamgroup above cause?

- (a) Social media rapidly build or damage brands

166. q023252-19bcbfed ? sbi-clerk-mains-2021-question-paper

X spheres of diameter 6 cm put into a right angled- cylindrical vessel of diameter 8 cm. The height of water rose to 36 cm and all the sphere are completely submerged in water. What is the value of X ?

- (a) 12
- (b) 9
- (c) 16 <== ANSWER**
- (d) 18
- (e) 10

167. q023253-0510eae9 ? sbi-clerk-mains-2021-question-paper

P invested Rs.2000 and Q invested Rs.2500 in a business. After 4 months Q left and R joined with $Y\%$ of Q's capital. Total profit at the end of year was Rs.7500 and P's profit share was Rs.2400. Find the value of Y .

- (a) 110%
- (b) 220%
- (c) 175%
- (d) 205% <== ANSWER**
- (e) 125%

168. q023254-d9b0e802 ? sbi-clerk-mains-2021-question-paper

Time taken by boat to cover an upstream distance of $(D+40)$ km is double of the time taken by boat to cover a downstream distance of D km. If the ratio of speed of boat in still water to speed of current is 5: 1, then find the speed of boat in still water.

- (a) 20 kmph
- (b) 16 kmph
- (c) 12 kmph
- (d) 24 kmph
- (e) CND <== ANSWER**

169. q023255-c497f736 ? sbi-clerk-mains-2021-question-paper

Cost price of article A is Rs. $X+150$ and cost price of article B is Rs. $X-150$. Article A sold at loss of 20% and article B sold at profit of 25%. If the selling price of article B is Rs.750 more than that of article A. Find the cost price of B.

- (a) Rs.2500
- (b) Rs.2200 <== ANSWER**
- (c) Rs.1850
- (d) Rs.2750
- (e) None of these

170. q023256-d3820d6d ? sbi-clerk-mains-2021-question-paper

A mixture contains 165 liters milk and X liters water. When X liter milk and 120-liter water added to mixture the respective ratio becomes 5: 4. What will the ratio of $(X+30)$ liter milk and $(X-15)$ liter water.

- (a) 3: 2

- (b) 5: 3
(c) 2: 1 <== ANSWER
 (d) 4: 3
 (e) None of these

171. q023257-af9f5fdc ? sbi-clerk-mains-2021-question-paper

A container contains 180-liter milk and X liter water. When 10-liter water added to mixture then water will become 14.001%. Find the approximate resultant quantity of water in mixture?

- (a) 29.3 liter <== ANSWER**
 (b) 32.6 liter
 (c) 24.8 liter
 (d) 36.2 liter
 (e) 39.5 liter

172. q023258-5372527d ? sbi-clerk-mains-2021-question-paper

Total population of town A is 25% less than that of town B. Female in town A are 40% of total population. Male of town B is 1320 more than that of town A. Female in town B are 46.01% of total population of town A. Find the total population (approx.) of both towns together?

- (a) 86000
 (b) 96000
 (c) 14400
(d) 11200 <== ANSWER
 (e) 74000

173. q023260-4c11b446 ? sbi-clerk-mains-2021-question-paper

The present ages of Father & Mother is in ratio 8:7 while that of Father & Son is 5:1. 4 years ago, the ratio of Father age to Daughter age was 12:1. The sum of present age of Son & Daughter is 20% of sum of ages of Father & Mother. Find ratio of present age of Mother to that of his daughter?

- (a) 5:2
 (b) 8:1
 (c) 4:1
(d) 5:1 <== ANSWER
 (e) 5:3

174. q023262-8f6c1acb ? sbi-clerk-mains-2021-question-paper

CONTEXT: In the following questions, the symbols %, #, @, and \$ are used with the following meanings as illustrated below. Study the following information and answer the given questions: ?A\$5B? means A is 15m east of B. ?A#12B? means A is 5m north of B. ?A%6B? means A is 16m west of B. ?A@14B? means A is 7m south of B. B@35F, L\$11B, M\$12D, X%17Y, C#35Y, K@14Y, P#21L, P%3X, M@27X

If the statement ?O%(-8)P? is true then, what is the shortest distance between point O and point M?

- (a) 35m
 (b) 43m
(c) 25m <== ANSWER
 (d) 28m
 (e) Can't be determined

175. q023263-3d64af73 ? sbi-clerk-mains-2021-question-paper

CONTEXT: In the following questions, the symbols %, #, @, and \$ are used with the following meanings as illustrated below. Study the following information and answer the given questions: ?A\$5B? means A is 15m east of B. ?A#12B? means A is 5m north of B. ?A%6B? means A is 16m west of B. ?A@14B? means A is 7m south of B. B@35F, L\$11B, M\$12D, X%17Y, C#35Y, K@14Y, P#21L, P%3X, M@27X

If the statement ?A%51C? is true then how far and in which direction is point A with respect to point F?

- (a) #21 <== ANSWER**
 (b) #28
 (c) %21
 (d) @14
 (e) None of these

Find the difference between the total distance from point F to point X and the total distance from point Y to point L?

- (a) 6m
- (b) 28m
- (c) 18m
- (d) 10m
- (e) 22m <== ANSWER**

178. q023267-73cc0d05 ? sbi-clerk-mains-2021-question-paper

Statement: Election commission of India is going to announce the result of five states. Mass gathering and celebration of political leaders and workers may result increase in corona cases. Course of Action: I. Election commission should issue the guidelines to close all the political party office on the result day. II. Section 144 should be imposed in whole states whose results are to be announced.

- (a) Only II follows
- (b) Only I follows
- (c) Both I and II follow <== ANSWER**
- (d) Either I or II follows
- (e) None follows

179. q023268-dab482c1 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. More than two persons shifted between the one who shifted to Shimla and Jaipur. V does not shift to Manali. The one who shifted to Gurugram is shifted just before V and just after S. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

Who among the following is shifted in October 2009?

- (a) The one who shifted to Jaipur
- (b) The one who shifted to Delhi <== ANSWER**
- (c) S
- (d) The one who shifted to Goa
- (e) None of these

180. q023269-f15a7af4 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. More than two persons shifted between the one who shifted to Shimla and Jaipur. V does not shift to Manali. The one who shifted to Gurugram is shifted just before V and just after S. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

Four of the following five are alike in a certain way and so form a group. Find the one who does not belong to that group?

- (a) U-Delhi
- (b) V-Gurugram
- (c) W-Jaipur <== ANSWER**

- (d) S-Manali
- (e) T-Raipur

181. q023270-0202c80b ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. More than two persons shifted between the one who shifted to Shimla and Jaipur. V does not shift to Manali. The one who shifted to Gurugram is shifted just before V and just after S. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

Which of the following statements is not true? I. S shifted just after the one who shifted to Jaipur II. The number of persons shifted before X is half than the number of persons shifted after T III. No one shifted before the one who shifted to Raipur

- (a) Only III <== ANSWER
- (b) Both I and II
- (c) All I, II and III
- (d) Both II and III
- (e) Only II

182. q023271-07aa3a79 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. More than two persons shifted between the one who shifted to Shimla and Jaipur. V does not shift to Manali. The one who shifted to Gurugram is shifted just before V and just after S. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

Which of the following pair/group of persons shifted in the month which has odd numbers of days in the same year?

- (a) X, W, Y
- (b) R, T
- (c) S, V, Y
- (d) Y, W <== ANSWER
- (e) None of these

183. q023272-ef5f7ca9 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

How many persons shifted between R and the one who shifted just after S?

- (a) Three
- (b) None
- (c) More than three <== ANSWER
- (d) One
- (e) Two

184. q023273-0b584652 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and answer the following questions.

Seven persons live in a seven-storey building, such that ground floor is numbered as 1 and so on till the topmost floor is numbered as 7. Who among the following lives just above U's floor? Statements I. R lives just below U's floor. Two persons live between Q and R. More than three persons live below Q. There are as many persons live below T as live above Y. B lives three floors below T. Statements II. One floor gap between B and R. U lives between B and R but not live on even numbered floor. No one lives between Q and B.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer <== ANSWER

185. q023274-2810ed03 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and answer the following questions.

Six persons L, M, N, O, P and Q going to attend a meeting one by one in different months- January, March, June, July, October and November but not necessarily in the same order. Who among the following goes just after L? Statements I. P attend meeting just before month of M. O attend meeting after 5 months of N. Q attend meeting before L. Statements II. More than three persons attend meeting between N and M. One person attends a meeting between O and P. Q attend a meeting before P but not just before.

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer <== ANSWER**
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer

If all the persons sit according to the alphabetical order in clockwise direction from A then, how many persons remain the same position (excluding A)?

- (a) One <== ANSWER**
- (b) More than three
- (c) Two
- (d) None
- (e) Three

211. q023301-fa800e67 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Amid mounting pressure over the Centre to postpone the CBSE Board exams scheduled for next month, Prime Minister will hold a meeting with Education Minister and other important officials at 12 pm to discuss the issue. The government is likely to consider postponing the exams as Covid-19 cases continue to rise across states. Several state governments and Opposition leaders such as Arvind Kejriwal and Rahul Gandhi have been appealing to the Centre to postpone board exams.

Which of the following substantiates the demand raised by Opposition leaders? (I) Several crowded markets in many states have been closed after Covid-19 guidelines. (II) Many state governments have postponed the state board exams for X and XII classes as cases of Covid- 19 continue to rise. (III) Cases have been rising but elections in many states are conducted.

- (a) Only II and III
- (b) Only III
- (c) Only I and II <== ANSWER**
- (d) Only I and III
- (e) All of three

212. q023302-af4e9012 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Amid mounting pressure over the Centre to postpone the CBSE Board exams scheduled for next month, Prime Minister will hold a meeting with Education Minister and other important officials at 12 pm to discuss the issue. The government is likely to consider postponing the exams as Covid-19 cases continue to rise across states. Several state governments and Opposition leaders such as Arvind Kejriwal and Rahul Gandhi have been appealing to the Centre to postpone board exams.

What may be the repercussions if board exam will be conducted? (I) Many students may get infected and this will be tough situation for government to handle. (II) Every student will get good mark s and they will move ahead in academic. (III) There may be sudden rise in number of cases of Covi d-19.

- (a) Only II and III
- (b) Only I and III <== ANSWER**
- (c) Only II
- (d) Only I and II
- (e) All of three

213. q023303-94cf9994 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the information carefully and answer the questions given below. Eight boxes A, B, C, D, E, F, G and H are arranged one above the other but not necessarily in the same order. Each of the box has same height of 2 inch. Different number of books are in each box- 12, 13, 14, 15, 17, 18, 21 and 28 but not necessarily in the same order. Two boxes gap between D and E and in both boxes the difference of number of books are 4. Box A is placed two places below the box which has 21 books. Box A is placed just above the box D. Box B is placed just above the box which has 13 books. Box B contains 17 books. The box which has 15 books is placed just below box H and just above the box which has 14 boo

How many boxes are placed between box B and the box which is placed just above box H?

- (a) Three <== ANSWER**
- (b) More than three
- (c) Two
- (d) One
- (e) None

- (e) 39.5 liter 21

228. q023320-bd2436b6 ? sbi-clerk-mains-2021-question-paper

CONTEXT: In the following questions, the symbols %, #, @, and \$ are used with the following meanings as illustrated below. Study the following information and answer the given questions: ?A\$5B? means A is 15m east of B. ?A#12B? means A is 5m north of B. ?A%6B? means A is 16m west of B. ?A@14B? means A is 7m south of B. B@35F, L\$11B, M\$12D, X%17Y, C#35Y, K@14Y, P#21L, P%3X, M@27X

Find the difference between the total distance from point F to point X and the total distance from point Y to point L?

- (a) 6m
- (b) 28m
- (c) 18m
- (d) 10m
- (e) 22m 24 <== ANSWER**

229. q023321-94ba2e30 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons R, S, T, U, V, W, X, Y shifted to different cities in two different years 2009 and 2010 of four given months viz. January, April, July and October but not necessarily in the same order. No one shifted between T and the one who shifted to Jaipur and both of them shifted in different years. More than two persons shifted between the one who shifted to Shimla and Jaipur. V does not shift to Manali. The one who shifted to Gurugram is shifted just before V and just after S. Three persons shifted between S and R who shifted in the month which has even numbers of days. X is shifted to Chandigarh just before

Who among the following is shifted in October 2009?

- (a) The one who shifted to Jaipur
- (b) The one who shifted to Delhi <== ANSWER**
- (c) S
- (d) The one who shifted to Goa
- (e) None of these 25

230. q023322-6616a1cb ? sbi-clerk-mains-2021-question-paper

CONTEXT: Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and answer the following questions.

Seven persons live in a seven-storey building, such that ground floor is numbered as 1 and so on till the topmost floor is numbered as

- (a) If the data in statement I alone are sufficient
- (b) If the data in statement II alone are sufficient
- (c) If the data either in statement I alone or statement II alone are sufficient to answer
- (d) If the data given in both I and II together are not sufficient
- (e) If the data in both the statements I and II together are necessary to answer 26 <== ANSWER**

231. q023323-ebb10eae ? sbi-clerk-mains-2021-question-paper

CONTEXT: A number arrangement machine when given an input line of numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. Input: 35 47 59 39 68 Step I: 332 443 554 336 662 Step II: 331 441 551 333 664 Step III: 331 333 441 551 664 Step IV: 7 9 9 11 16 Step V: 14 18 18 22 48 And step V is the last step of the arrangement. As per the above rule followed in the above steps, find out in each of the following questions the appropriate step for the given input: Input: 19 27 78 48 57

What is the sum of the numbers which is 3rd from the left in Step III and 4th from the right in the final step?

- (a) 447

(b) 454 <== ANSWER

(c) 443

(d) 466

(e) None of these 27

232. q023324-7c74985f ? sbi-clerk-mains-2021-question-paper

CONTEXT: In the following questions, the symbols @, #, %, \$ and ? are used with the following meaning as illustrated below- ?P #Q? means ?Q is neither greater than nor equal to P? ?P?Q? means ?Q is neither equal to nor smaller than P? ?P%Q? means ?Q is neither smaller than nor greater than P? ?P\$Q? means ?Q is not smaller than P? ?P@Q? means ?Q is not greater than P? Now in each of the following questions assuming the given statement to be true, find which of the three conclusions I, II and III given below them is/are definitely true and give your answer accordingly.

Statements: W%X?Y\$B@C; M\$N?O%R?B Conclusions: I. R?Y II. W?C III. X#B

(a) None is true <== ANSWER

(b) Only II is true

(c) Only I and II are true

(d) Only II and III are true

(e) Only I and III are true 31

233. q023325-74193a12 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the information carefully and answer the questions given below. Six persons stay at different step of a stair of 40 steps facing to the 40th step. P stay at step which is a multiple of 9 but above the 20th step. The number of steps ahead P is same as the number of steps behind S. There are seven steps gap between S and Q which is not stay at even numbered position. The number of steps between Q and S is half the number of steps between T and R. The number of steps between R and U is one more than the number of steps behind S. U stay below the step 25. Both T and U stay in somewhere between P and Q. T stay at step which is a multiple of 7 but above 15th step. Now, all the persons play

The number of steps gap between U and S?

(a) 9

(b) 8 <== ANSWER

(c) 12

(d) 17

(e) 13 32

234. q023326-1cca7684 ? sbi-clerk-mains-2021-question-paper

CONTEXT: Study the information carefully and answer the questions given below. Seven members M, P, Q, R, S, T and U are living in the family in which two married couples and arranged in descending order from left according to their age but not necessarily in the same order. The one who is 36 years old is married with P who is the son of T's father's wife M. R is 54 years old and younger to only M. U is sister of Q who is not elder to U. S is sister-in-law of U's uncle. The number of males in the family is more than the number of females. T is just older to U who is 20 years younger to S. Q's father is just younger to the one who is 54 years old.

How many persons are older and younger to T's brother respectively?

(a) 3, 3

(b) 1, 5

(c) 2, 4 <== ANSWER

(d) 5, 1

(e) None of these 36
