Total number of students who failed in at most one subjects in city F is 24000 less than total number of students who failed in at least one subject in city A. Find total number of students who failed in both subjects in city ?F? is how much less than total number of students who failed in only reasoning in city ?A?.

- (a) 3000
- (b) 6000
- (c) 9000 <== ANSWER**
- (d) 12000
- (e) 15000

4. q003022-b2fd4edd ? QUANTS

CONTEXT: - A school has four hostels in which there are two sections one for boys and one for girls. Line chart given below shows increase/decrease in total number of students in 2013 in these hostels as compare to 2012(previous year). Table given below shows ratio between number of boys to number of girls in these hostels in 2013. Study the data carefully and answer the following questions 300 250 2... 200 150 100 50 Aravali Nilgiri Udaygiri Shiv

[has 9 image(s) - chart not rendered]

Number of students is increases and decreases in Aravali and Nilgiri in 2013 respectively as compare to 2012. Number of girls who left Aravali joins Nilgiri (No other change in Number of girls) such that ratio between increase and decreases in Number of boys in Aravali and Nilgiri in 2013 as compare to 2012 is 16 : 15, then find the change in Number of boys in Nilgiri?

- (a) 350
- (b) 320
- (d) 420
- (e) 400

(c) 500 Publications@ <== ANSWER

5. q003023-3c193616 ? QUANTS

CONTEXT: - A school has four hostels in which there are two sections one for boys and one for girls. Line chart given below shows increase/decrease in total number of students in 2013 in these hostels as compare to 2012(previous year). Table given below shows ratio between number of boys to number of girls in these hostels in 2013. Study the data carefully and answer the following questions 300 250 200 150 100 50 Aravali Nilgiri Udaygiri Shivalik

[has 9 image(s) - chart not rendered]

In 2012, Number of boys in Udaygiri and Shivalik are equal and Number of girls in Shivalik is 540 more than the Number of girls in Udaygiri. If in 2013, Number of boys in both hostels are equal then find the Number of total student in Shivalik, If In 2013 strength of both hostels increases as compare to previous year

(a) 1650 <== ANSWER

- (b) 1200
- (c) 960
- (d) 1500
- (e) 900

6. q003024-cdb93c94 ? QUANTS

CONTEXT: - A school has four hostels in which there are two sections one for boys and one for girls. Line chart given below shows increase/decrease in total number of students in 2013 in these hostels as compare to 2012(previous year). Table given below shows ratio between number of boys to number of girls in these hostels in 2013. Study the data carefully and answer the following questions 300 250 200 150 100 50 Aravali Nilgiri Udaygiri Shivalik

[has 9 image(s) - chart not rendered]

In 2012 and in 2013 ratio of total strength of Udaygiri to that of Nilgiri is 4 : 5 and 5 : 8 respectively. Find the strength of Nilgiri in 2012 if strength of Udaygiri decreases

- (a) 1600
- (b) 1200
- (c) 1250
- (d) 1400

(e) 1750 <== ANSWER

7. q003025-ab7754e8 ? QUANTS

CONTEXT: - A school has four hostels in which there are two sections one for boys and one for girls. Line chart given below shows increase/decrease in total number of students in 2013 in these hostels as compare to 2012(previous year). Table given below shows ratio between number of boys to number of girls in these hostels in 2013. Study the data carefully and answer the following questions 300 250 200 150 100 50 Aravali Nilgiri Udaygiri Shivalik

[has 10 image(s) - chart not rendered]

In 2013, strength of all hostels increases as compare to 2012. If total strength of hostels in 2012 is 1030, then find the Number of boys in Aravali in 2013 is how much more than the Number of boys in Udaygiri in 2013, given that ratio of strength of Aravali, Nilgiri, Udaygiri and Shivalik is 2 : 3 : 2 : 3 respectively

- (a) 80
- (b) 100
- (c) 120

(d) 90 <== ANSWER

- (e) 10

8. q003027-f2364362 ? QUANTS

CONTEXT: Given below bar graph shows number of hours taken by six person to complete a task individually. Read the data carefully and answer the questions: 50 40 30 20 10 0 Neeraj Aniket Saurabh

Veer and Sameer started working together on another task, where Sameer work with 25% less efficiency. Veer and Sameer work for y hours and remaining work complete by Aniket in (y + 1) hours, if ratio of work done by Veer and Sameer together and by Aniket alone is 2 : 1, then in how many hours Neeraj will complete same task alone? 1

- (a) 15 2 hours

(b) 13 1 1 <== ANSWER

- (d) 11 2 hours
- (e) 9 2 hours 6

(c) 12 4 hours 1 4 hours 1 1 2 hours 2 hours Publications@

9. q003033-891571fc ? QUANTS

CONTEXT: The given bar-graph shows the number of marbels of different colors which are contained by two different bags X and Y . Read the data carefully and answered the following questions. 7 6 5 4 3 2 1 0 Yellow Red 7 Adda247 Publications For any deta il, mail us at 1 1 4 hours (c) 10 4 hours 270 270 401 hours (c) 18 401 hours 270 401 hours X Y Black Blue Publications@adda247 .com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams

If two marbels are picked at random from bag X then what is probability that either both are black or both are blue in color? $\frac{1}{4}$

- (a) $\frac{1}{5}$
- (b) $\frac{1}{10}$
- (c) $\frac{1}{15}$
- (d) $\frac{3}{7}$
- (e) $\frac{1}{17}$ <== ANSWER

10. q003035-60af4f58 ? QUANTS

CONTEXT: Given below pie chart (I) shows percentage distribution of total filled quantity of water in seven tanks. Line graph shows time (minutes) taken by seven pipe A, B, C, D, E, F and G in filling tanks P, Q, R, S, T, U and V respectively. Give the answer of the question according to given data : 8 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams Total quantity of seven tanks = 1500 ? 12% U 18% T 15% 65 60 55 Time (in minutes) 50 45 40 35 30 25 20 A B

A man has a tank which has quantity of water equal to the quantity of water in P and T together. He opened pipe B and D together for filling his tank. After X minutes man closed both pipes and opened pipe C and E for filling remaining tank. If tank filled in next (x + 15) minutes then find how many liter of water filled by B and D together ?

- (a) 160 l
- (b) 180 l <== ANSWER
- (d) 120 l
- (e) 144 l
- (c) 150 l

11. q003036-7c38c351 ? QUANTS

CONTEXT: Given below pie chart (I) shows percentage distribution of total filled quantity of water in seven tanks. Line graph shows time (minutes) taken by seven pipe A, B, C, D, E, F and G in filling tanks P, Q, R, S, T, U and V respectively. Give the answer of the question according to given data : 8 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams Total quantity of seven tanks = 1500 ? 12% U 18% T 15% 65 60 55 Time (in minutes) 50 45 40 35 30 25 20 A B

For filling tank S, man opened pipe D which fills the tank with 20% more efficiently. After X minutes man close the pipe D and opened pipe C and G together. Pipe C fills the tank with 25% more efficiently. If pipe C and G fills remaining tank in 15 minutes then find the value of X ?

- (a) 12 minutes
- (b) 10 minutes
- (c) 15 minutes <== ANSWER
- (d) 8 minutes
- (e) 18 minutes

12. q003037-7cee02b4 ? QUANTS

CONTEXT: Given below pie chart (I) shows percentage distribution of total filled quantity of water in seven tanks. Line graph shows time (minutes) taken by seven pipe A, B, C, D, E, F and G in filling tanks P, Q, R, S, T, U and V respectively. Give the answer of the question according to given data : 8 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams Total quantity of seven tanks = 1500 ? 12% U 18% T 15% 65 60 55 Time (in minutes) 50 45 40 35 30 25 20 A B

Quantity of another tank K is 120% of total quantity of all seven tank. For filling the bigger tank man opened pipes alternatively in such a way that three pipe B, D and G together for first minute, pipe A alone for second minute and pipe F and C together for third minutes. Find the total time required in filling the tank alternatively? 7 minutes

- (a) 151 minutes <== ANSWER
- (b) 141
- (c) 151 minutes
- (d) 150 minutes
- (e) 170 minutes

13. q003038-a7e4db7e ? QUANTS

CONTEXT: Given below pie chart (I) shows percentage distribution of total filled quantity of water in seven tanks. Line graph shows time (minutes) taken by seven pipe A, B, C, D, E, F and G in filling tanks P, Q, R, S, T, U and V respectively. Give the answer of the question according to given data : 8 Adda247 Publications For any detail, mail us at Publications@adda247.com C racker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams Total quantity of seven tanks = 1500 ? 12% U 18% T 15% 65 60 55 Time (in minutes) 50 45 40 35 30 25 20 A B

A man have a tank M, which has equal quantity of water as tank S and U together . For filling tank M man opened pipe A, C and G together for 17 some minutes man thought tank will be fully filled , but it takes 7 19 minutes more because of a leak. Find in what time leak will empty the fully filled tank?

- (a) 3hr
- (b) 3 2
- (c) 2 1 hr hr 3 6 1
- (d) 3 1 <== ANSWER**
- (e) 4 3 hr hr 6

14. q003039-bfd09d53 ? QUANTS

CONTEXT: Given below pie chart (I) shows percentage distribution of total filled quantity of water in seven tanks. Line graph shows time (minutes) taken by seven pipe A, B, C, D, E, F and G in filling tanks P, Q, R, S, T, U and V respectively. Give the answer of the question according to given data : 8 Adda247 Publications For any detail, mail us at Publications@adda247.com C racker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams Total quantity of seven tanks = 1500 ? 12% U 18% T 15% 65 60 55 Time (in minutes) 50 45 40 35 30 25 20 A B

A man have a tank of 570 liter. Man opened three pipes B, D and C together for filling the tank but pipe C fills the tank at 175% of its initial Efficiency. There is a leak at a height of 2/3 from the bottom of tank ,which empty the tank with half of the efficiency of what B, D and C filling the tank. Man noticed the leak after 32 minutes and closed all pipes and leak. Find how many liter of tank remain unfilled?

- (a) 90l
- (b) 76l <== ANSWER**
- (c) 78l
- (d) 85l
- (e) 96l 10

15. q003040-d042a90f ? QUANTS

P, Q and S invested in a business together, investment of P is 75% of investment of S and all three invested for same time. If Q and S gets extra 12% and 15% of total profit respectively and remaining profit is distributed according to their share, then find the total profit.

- (a) 270000 Rs
- (b) 370000 Rs <== ANSWER**
- (c) 375000 Rs
- (d) 275000 Rs
- (e) 325000 Rs

16. q003041-b9cadd26 ? QUANTS

Person Q and R invested in the ratio of 4 : 3 and ratio between time period of Investment Q to R is 5 : 3. If both person agree that 65% of the total profit should be divided equally and remaining profit is to be divided into ratio of their capital. If Q gets 10010 Rs. more to R. then find the total profit share of R ?

- (a) 27765 Rs
- (b) 28190 Rs
- (c) 42497 Rs
- (d) 34307 Rs
- (e) 32695 Rs <== ANSWER**

17. q003042-bc442349 ? QUANTS

Q started a business with his investment, after some month S came to joined with him and invest his amount in business. At the end of 3 year, the ratio of profit of Q to S is 3 : 2. Find after how many month S joined the business ?

- (a) 4 months <== ANSWER**
- (b) 6 months
- (c) 3 months
- (d) 5 months
- (e) 6 months 11

18. q003043-7b60dd55 ? QUANTS

If T received Rs. 24300 as profit out of the total profit of Rs. 40500 which T and R earned at the end of one year. If T invested Rs. 81000 for 9 months, whereas R invested his amount for the whole year, what was the amount invested by R ?

- (a) 30500 Rs
- (b) 40500 Rs <== ANSWER**
- (c) 35500 Rs
- (d) 32500 Rs
- (e) 40050 Rs

19. q003044-aad67b91 ? QUANTS

If Q and R invested into the ratio of 8 : 9 and R and S Invested into the ratio of 3 : 2. At the end of the year if they all got a total profit of 37030 Rs. then find the share of profit of Q, R and S individually ?

- (a) 14490 Rs, 9660 Rs, 12880 Rs
- (b) 9660 Rs, 17710 Rs, 11005 Rs
- (c) 12880 Rs, 14490 Rs, 9660 Rs <== ANSWER**
- (d) 12434 Rs, 13594 Rs, 11006 Rs
- (e) None of these

20. q003045-edfefa71 ? QUANTS

CONTEXT: Data about investments of different persons is given below. Study the data and solve the questions carefully. ? Investment of Neeraj is 50% more than investment of Aman while investment of Neeraj is 25% less than that of Sandeep. Total Investment = 40,000 Rakesh, 30% Saurabh, 40% Sandeep, 30%

Neeraj and Saurabh started a business together. After 8 months of business they invested Rs 1000 per month for every month. If annual profit is Rs 8000 then find Saurabh's profit out of total profit?

- (a) Rs 2950
- (b) Rs 4000
- (c) Rs 5050 <== ANSWER**
- (d) Rs 4450
- (e) Rs 4850

21. q003046-dc35a115 ? QUANTS

CONTEXT: Data about investments of different persons is given below. Study the data and solve the questions carefully. ? Investment of Neeraj is 50% more than investment of Aman while investment of Neeraj is 25% less than that of Sandeep. Total Investment = 40,000 Rakesh, 30% Saurabh, 40% Sandeep, 30%

Aman and Rakesh started a business together. Rakesh left the business x months before the completion of year while Aman increased his investment by Rs 2000 after 8 months and then after 2 months more he increased his investment by Rs 2000 again. If ratio between profit share of Aman and Rakesh is 7 : 8 then Rakesh worked for how many months?

- (a) 8 months <== ANSWER**
- (b) 4 months
- (c) 6 months
- (d) 2 months
- (e) 10 months

22. q003047-ee8d18a4 ? QUANTS

CONTEXT: Data about investments of different persons is given below. Study the data and solve the questions carefully. ? Investment of Neeraj is 50% more than investment of Aman while investment of Neeraj is 25% less than that of Sandeep. Total Investment = 40,000 Rakesh, 30% Saurabh, 40% Sandeep, 30%

Sandeep and Neeraj started a business together. After 8 months, Neeraj is replaced by another partner, Satish whose investment is Rs 4000 more than investment of Saurabh. If Satish worked for 3 months, then find the profit share of Sandeep if annual profit is Rs 11,500.

- (a) Rs 2500
- (b) Rs 3000
- (c) Rs 4500
- (d) Rs 5000
- (e) Rs 6000 <== ANSWER**

23. q003048-9c349831 ? QUANTS

CONTEXT: Data about investments of different persons is given below. Study the data and solve the questions carefully. ? Investment of Neeraj is 50% more than investment of Aman while investment of Neeraj is 25% less than that of Sandeep. Total Investment = 40,000 Rakesh, 30% Saurabh, 40% Sandeep, 30%

Aman invested his amount in a scheme which after 20% p.a. at C.I. for 2 years while Saurabh invested his amount in a car whose value will depreciate at 20% p.a. every year. Find the total value of amount Aman and Saurabh will have after 2 years.

- (a) Rs. 31,680
- (b) Rs. 18,880 <== ANSWER**
- (c) Rs. 26,880
- (d) Rs. 16,320
- (e) Rs. 22,880

55. q003093-5a9ab839 ? QUANTS

CONTEXT: Given below in each question there two statements (I) and (II). You have to determine, which statement is sufficient to give the answer of question. Also there are five alternatives given, you have choose one alternative as your answer of the questions:

What will perimeter of smaller rectangle? I. Ratio between length of smaller and larger rectangle is 4 : 5 and breadth of both rectangle is equal. Difference between Perimeter of both rectangle is 8 cm. II. Breadth of both rectangle is equal to side of square, whose area is 196 cm² .

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Statement I and II both together sufficient <== ANSWER**
- (d) Either statement I or Statement II alone sufficient
- (e) Neither statement I or statement II sufficient

56. q003094-02f8a7c0 ? QUANTS

CONTEXT: Given below in each question there two statements (I) and (II). You have to determine, which statement is sufficient to give the answer of question. Also there are five alternatives given, you have choose one alternative as your answer of the questions:

How many Students in college? I. Ratio between girls to boy is 9 : 11. II. Out of total girls in the college 20% are belongs to below eighteen years age group. Total girls belongs to below eighteen years age group are 9% of total students in college

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Statement I and II both together sufficient
- (d) Either statement I or Statement II alone sufficient
- (e) Neither statement I or statement II sufficient <== ANSWER**

57. q003095-e9325e9e ? QUANTS

CONTEXT: Given below in each question there two statements (I) and (II). You have to determine, which statement is sufficient to give the answer of question. Also there are five alternatives given, you have choose one alternative as your answer of the questions:

What was profit shopkeeper made on article? I. Shopkeeper sold article on 5% discount in the Rs. of 3800. II. If shopkeeper sold article on marked price, he would made a profit of 25%. 6 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Statement I and II both together sufficient <== ANSWER**
- (d) Either statement I or Statement II alone sufficient
- (e) either statement I or statement II sufficient

58. q003096-c3eae77 ? QUANTS

CONTEXT: Given below in each question there two statements (I) and (II). You have to determine, which statement is sufficient to give the answer of question. Also there are five alternatives given, you have choose one alternative as your answer of the questions:

What is speed of boat? I. Speed of boat in still water is two times more that speed of current. I
I. Boat takes equal time to cover a distance downstream to 50% of that distance upstream.

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Statement I and II both
- (d) Either statement I or Statement II alone sufficient
- (e) Neither statement I or statement II sufficient <== ANSWER**

59. q003097-363f42e8 ? QUANTS

CONTEXT: Given below in each question there two statements (I) and (II). You have to determine, which statement is sufficient to give the answer of question. Also there are five alternatives given, you have choose one alternative as your answer of the questions:

Find the amount invested at the rate of 10%? I. Total amount of Rs. 4500 invested in two different parts at the rate of 20% p.a. and 10% p.a. for two years. Simple Interest obtained from both parts are equal. II. A man invested an amount in two schemes A and B in the ratio of 2 : 1 respectively. Scheme A offered simple interest at the rate of 10% p.a. and Scheme B offered compound interest at the rate of 20% p.a. and man got a total interest of Rs. 1260 after two years from both schemes. Amount invested on SI is same as amount invested at the rate of 10% in statement I?

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Statement I and II both
- (d) Either statement I or Statement II alone sufficient <== ANSWER**
- (e) Neither statement I or statement II sufficient

60. q003098-5690aeac ? QUANTS

CONTEXT: The following questions are accompanied by three statements (A) or (I) and (B) or (II), You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

What is the minimum passing percentage in a test? I. Raman scored 25% marks in the test and Sunil scored 288 marks which is 128 more than that of Raman. II. Raman scored 64 marks less than the minimum passing marks.

- (a) Both I and II together are not sufficient
- (b) Both I and II together are needed <== ANSWER**
- (c) Only I alone is sufficient
- (d) Only II alone is sufficient
- (e) Either I or II alone is sufficient

61. q003099-3e9d93e9 ? QUANTS

CONTEXT: The following questions are accompanied by three statements (A) or (I) and (B) or (II), You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

Whose body weight is second highest among the five boys Arun, Vinay, Suraj, Raju and Pratap? I. Average weight of Arun, Suraj and Vinay is 68 kg and average weight of Raju and Pratap is 72 kg. Also Suraj is 78 kg. Raju is 68 kg and Vinay is 46 kg. II. Average weight of Arun, Suraj, Vinay and Raju is 68 kg and also Suraj is 78 kg. Raju is 68 kg and Vinay is 46 kg. All of them have different weights.

- (a) Both I and II together are not sufficient
- (b) Both I and II together are needed
- (c) Only I alone is sufficient <== ANSWER**

- (d) Only II alone is sufficient
- (e) Either I or II alone is sufficient

62. q003100-72ec1078 ? QUANTS

CONTEXT: The following questions are accompanied by three statements (A) or (I) and (B) or (II), You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

What is the population of the city A? I. The ratio of the population of males and females in city A is 27 : 23 and the difference between their population is 100000. II. The population of city A is 80% of that of city B. The difference between populations of city A and city B is 312500.

- (a) Both I and II together are not sufficient
- (b) Both I and II together are needed
- (c) Only I alone is sufficient
- (d) Only II alone is sufficient
- (e) Either I or II alone is sufficient <== ANSWER**

63. q003101-0b191ead ? QUANTS

CONTEXT: The following questions are accompanied by three statements (A) or (I) and (B) or (II), You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

How many students did participate in Singing? I. The students who participated in dancing were 150% more than that who participated in Singing. II. 150 students participated in dancing.

- (a) Both I and II together are not sufficient
- (b) Both I and II together are needed <== ANSWER**
- (c) Only I alone is sufficient
- (d) Only II alone is sufficient
- (e) Either I or II alone is sufficient

CONTEXT: Neeraj have some toys which are in the form of different structures. These are cylindrical, conical, spherical. Other than solid conical structure, all two are of both types i.e., hollow as well as solid. ? Volume of a conical toy is three times of the volume of a solid cylindrical toy while radius of a solid spherical toy is half than that the radius of a conical toy. Outer radius of hollow cylindrical toys is same as radius of solid spherical toy while average of outer radius and inner radius of hollow cylindrical toys is equal to radius of solid cylindrical toy. Height of cylindrical, conical and hollow cylindrical toys is same i.e, 14cm ? Number of solid spherical toys is 20% of total n

Find the number of conical toys Neeraj have?

- (a) 40
- (b) 20
- (c) 15
- (d) 12
- (e) 8 17 <== ANSWER**

- (d) Four <== ANSWER**
- (e) Six

176. q003410-cc9f884d ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Study the following information carefully and answer the questions given below: Seven persons go to watch movie on different days from Monday to Sunday of the same week. At most one person goes before C. As many persons go before C as after E. Only two persons go between E and D. G goes two persons after A. More than two persons go between F and B. A doesn't go after B.

On which among the following days does B go to watch movie?

- (a) Sunday
- (b) Tuesday
- (c) Saturday <== ANSWER**
- (d) Wednesday
- (e) Monday

177. q003411-f2abea69 ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Study the following information carefully and answer the questions given below: Seven persons go to watch movie on different days from Monday to Sunday of the same week. At most one person goes before C. As many persons go before C as after E. Only two persons go between E and D. G goes two persons after A. More than two persons go between F and B. A doesn't go after B.

Which among the following statement is not true?

- (a) C goes to watch movie at least before three persons
- (b) Even number of persons go to watch movie between A and B
- (c) B goes to watch movie after F
- (d) F goes to watch movie on Monday <== ANSWER**
- (e) All are true

178. q003412-9bd2d577 ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Study the following information carefully and answer the questions given below: Seven persons go to watch movie on different days from Monday to Sunday of the same week. At most one person goes before C. As many persons go before C as after E. Only two persons go between E and D. G goes two persons after A. More than two persons go between F and B. A doesn't go after B.

If all the persons go to watch movie in alphabetical order from Monday to Sunday, then the position of how many persons changed?

- (a) One
- (b) Six <== ANSWER**
- (c) Three
- (d) Four
- (e) Five

179. q003413-5f93979a ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

If we form a four-letter meaningful word by using the first, second, fourth and sixth letter from the left end of the word ?FRANCHISE?, then which of the following will be the fourth letter of the meaningful word thus formed. If more than one meaningful word is formed mark Z as your answer. If no meaningful word is formed, mark X as your answer?

- (a) F
- (b) R
- (c) H
- (d) X <== ANSWER**
- (e) Z

The ratio of the speeds of a train and a man is 6 : 1 respectively. The length of the train is 78 0 m and crosses a pole in 1 minute 5 seconds. In how much time will the man cross the 240 m long platform?

- (a) 120 seconds <== ANSWER**
- (b) 60 seconds
- (c) 90 seconds
- (d) 180 seconds
- (e) 150 seconds

207. q003441-edd17295 ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

In a vessel water is 40% of the milk. When 28 litres of mixture are taken out from the vessel and 10 litres of water is added in the remaining mixture, then quantity of water becomes 60% of the milk. Find the initial quantity of milk?

- (a) 70 litres <== ANSWER**
- (b) 21 litres
- (c) 14 litres
- (d) 35 litres
- (e) 49 litres

208. q003442-08c3006c ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Read the given passage and answer the following questions. Some parts have been highlighted to aid in answering the questions. Ato was a young man who lived in a small village in the mountains. The village had been suffering from an ancient salt deficiency for generations. The soil was so poor that it couldn't produce crops, and the people were forced to eat tasteless food. They were also weak and sickly, and many of them died young. The man was determined to find a way to help his people. He travelled far and wide, seeking out knowledge about salt and how to produce it. He met with wise men and scholars, and he studied ancient texts. He even travelled to distant lands, where he learned about

What was the main problem faced by the village in the mountains?

- (a) Lack of water for irrigation, which led to poor crop yields and food scarcity
- (b) Soil with excessive nutrients, causing imbalances in plant growth and quality
- (c) Ancient salt deficiency that had plagued the village for generations, affecting both crops and health <== ANSWER**
- (d) Overpopulation, putting a strain on available resources and causing malnutrition
- (e) Excessive rainfall, leading to soil erosion and difficulty in cultivation

209. q003443-cd2c57f9 ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Read the given passage and answer the following questions. Some parts have been highlighted to aid in answering the questions. Ato was a young man who lived in a small village in the mountains. The village had been suffering from an ancient salt deficiency for generations. The soil was so poor that it couldn't produce crops, and the people were forced to eat tasteless food. They were also weak and sickly, and many of them died young. The man was determined to find a way to help his people. He travelled far and wide, seeking out knowledge about salt and how to produce it. He met with wise men and scholars, and he studied ancient texts. He even travelled to distant lands, where he learned about

How did Ato attempt to solve the village's problem?

- (a) By building a dam for water supply to enhance agricultural productivity
- (b) By importing crops from other villages to address food shortages
- (c) By teaching the villagers to mine for gold as an alternative source of wealth
- (d) By seeking knowledge about salt and its production to combat the salt deficiency issue <== ANSWER**
- (e) By introducing advanced medical treatments to improve the villagers' health

210. q003444-6d4653b1 ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Read the given passage and answer the following questions. Some parts have been highlighted to aid in answering the questions. Ato was a young man who lived in a small village in the mountains. The village had been suffering from an ancient salt deficiency for generations. The soil was so poor that it couldn't produce crops, and the people were forced to eat tasteless food. They were also weak and sickly, and many of them died young. The man was determined to find a way to help his people. He travelled far and wide, seeking out knowledge about salt and how to produce it. He met with wise men and scholars, and he studied ancient texts. He even travelled to distant lands, where he learned about

How did the villagers initially react to Ato's knowledge about salt?

- (a) They were excited and immediately started implementing his ideas to alleviate their struggles
- (b) They were sceptical and didn't believe salt could be a solution to their long-standing problem <== ANSWER**
- (c) They welcomed him as a hero without any doubts, grateful for his efforts
- (d) They ignored his advice and continued with their traditional practices, resistant to change
- (e) They thought he was a magician and feared the potential consequences of his knowledge. 15

211. q003445-363a604c ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Read the given passage and answer the following questions. Some parts have been highlighted to aid in answering the questions. Ato was a young man who lived in a small village in the mountains. The village had been suffering from an ancient salt deficiency for generations. He met with wise men and scholars, and he studied ancient texts. He even travelled to distant lands, where he learned about

Which of the following words is most similar to the word 'overcome' as it is used in the passage?

- (a) Surrender
- (b) Complicate
- (c) Maintain
- (d) Retreat
- (e) Conquer** <== ANSWER

216. q003450-9ee683ef ? IBPS-Clerk-Pre-Memory-Based-Paper-Mock-01-26

CONTEXT: Read the given passage and answer the following questions. Some parts have been highlighted to aid in answering the questions. Ato was a young man who lived in a small village in the mountains. The village had been suffering from an ancient salt deficiency for generations. The soil was so poor that it couldn't produce crops, and the people were forced to eat tasteless food. They were also weak and sickly, and many of them died young. The man was determined to find a way to help his people. He travelled far and wide, seeking out knowledge about salt and how to produce it. He met with wise men and scholars, and he studied ancient texts. He even travelled to distant lands, where he learned about

Choose the most appropriate antonym for the word 'sceptical' as is highlighted in the passage.

- (a) Cautious
- (b) Trusting** <== ANSWER
- (c) Doubtful
- (d) Hesitant
- (e) Apprehensive

(e) $x \geq y$

269. q004053-89e39f2c ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the given passage to answer the following questions The hydrological cycle is expected to _____ with global warming, which likely increases the intensity of extreme precipitation events and the risk of flooding. The changes, however, often differ from the theorized expectation of increases in water-holding capacity of the atmosphere in the warmer conditions, especially when water availability is limited. Results show an intensification of extreme precipitation and flood events over all climate regions which increases as water availability increases from dry to wet regions. Similarly, there is an increase in the intensification of extreme precipitation and flood with the seasonal

[has 1 image(s) - chart not rendered]

What does the Clausius-Clapeyron relationship explain?

(a) It demonstrates how higher temperatures increase atmospheric pressure

(b) It demonstrates how higher temperatures increase the amount of atmospheric water vapor for precipitation <== ANSWER

(c) It demonstrates how changes in ocean currents lead to changes in atmospheric moisture content

(d) It demonstrates how changes in solar radiation lead to changes in atmospheric moisture content

(e) None of these 1

270. q004054-9898e8af ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the given passage to answer the following questions The hydrological cycle is expected to _____ with global warming, which likely increases the intensity of extreme precipitation events and the risk of flooding. The changes, however, often differ from the theorized expectation of increases in water-holding capacity of the atmosphere in the warmer conditions, especially when water availability is limited. CONTEXT: In each of the question a paragraph is given and based on the paragraph a blank is provided. Choose the best word from the given options that will fit into the blank.

If you can imagine a furry humanoid seven feet tall, with the face of an intelligent gorilla and the braincase of a man, you'll have a rough idea of what they looked like -- except for their teeth. The canines would have fitted better in the face of a tiger, and showed at the corners of their wide, thin-lipped mouths. The description gives the expression of _____.

- (a) indignant
- (b) jingoism
- (c) apoplectic
- (d) feeble
- (e) ferocity <== ANSWER**

289. q004073-de0c31da ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the given passage to answer the following questions A long-held view of the history of the English colonies that became the United States has been that England's policy toward these colonies before 1763 was dictated by commercial interests and that a change to a more imperial policy, dominated by expansionist militarist objectives, generated the tensions that ultimately led to the American Revolution. In a recent study, Stephen Saunders Webb has presented a formidable challenge to this view. According to Webb, England already had a military imperial policy for more than a century before the American Revolution. He sees Charles II, the English monarch between 1660 and 1685, as the proper

How did the colonial governors, backed by the military presence of the garrison, seek to prevent the colonial assemblies from transforming colonial America into a capitalistic oligarchy, according to Webb's argument?

- (a) The governors used military force to suppress the colonial assemblies and maintain control over legislative affairs in the colonies
- (b) The governors imposed heavy taxes in order to weaken the power and prevent the establishment of a capitalistic oligarchy
- (c) The governors opposed the plantation system and break up large holdings of land by taxation to reduce the power of the colonial Americans <== ANSWER**
- (d) The governors distributed lands of capitalistic oligarchs among the common people
- (e) None of these

What role did taxation play in the conflict between colonial governors and the colonial upper classes, according to Webb?

- (a) Taxation was a means of supporting the plantation system in the colonies
- (b) Taxation was a way for the colonial governors to maintain control over the colonial assemblies
- (c) Taxation was a means of breaking up large land holdings and supporting small farmers** <== ANSWER
- (d) Taxation played no role in the conflict between colonial governors and the colonial upper classes
- (e) None of these

293. q004077-ab5b3455 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the given passage to answer the following questions A long-held view of the history of the English colonies that became the United States has been that England's policy toward these colonies before 1763 was dictated by commercial interests and that a change to a more imperial policy, dominated by expansionist militarist objectives, generated the tensions that ultimately led to the American Revolution. In a recent study, Stephen Saunders Webb has presented a formidable challenge to this view. According to Webb, England already had a military imperial policy for more than a century before the American Revolution. He sees Charles II, the English monarch between 1660 and 1685, as the proper

Which of the following words is the synonym of 'formidable' as highlighted in the given passage?

- (a) dreadful
- (b) daunting
- (c) petrifying
- (d) ominous
- (e) All of these** <== ANSWER

294. q004078-6b7ca350 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Select the phrase/connector from the given three options which can be used to form a single sentence from the two sentences given below, implying the same meaning as expressed in the statement sentences

- (A) The government has introduced new policies to promote renewable energy.
- (b) Some critics have raised concerns about the effectiveness of these policies. (I) Despite the concerns raised by some critics,... (II) Although the government has introduced new policies to promote renewable energy,... (III)
- (a) Only (I) and (III)
 - (c) only (I)
 - (d) only (II)** <== ANSWER
 - (e) Only (III)

295. q004079-e5edc5aa ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: In each question, four words are given in bold which may be wrongly placed also one of the highlighted words need to be changed. Choose the rearrangement from the given options which needed between these words and also the replacement required, if any.

Despite the cognizance (A) posed by cultural differences, achieved (B) communication in the workplace can be effective (C) through cultural challenges (D) training, active listening, and open-mindedness.

- (a) BDCA, no replacement needed
- (b) No rearrangement needed, B- withheld
- (c) DCBA, A-competence** <== ANSWER
- (d) ACDB, B-trained
- (e) CADB, A- prioritized

Eleven persons A, E, G, H, J, M, O, R, S, U and X sit around a hexagonal table but not necessarily in the same order. Six persons sit at the corners and face outside of the table while six persons sit at the middle of the sides and face inside of the table. One of the seats is vacant. One person sits between M and X who sits in the middle of the table. M sits fifth to the left of R and sits adjacent to the vacant seat. U neither sits adjacent to X nor R. E sits third to the right of U. Only one person sits between U and H who neither sits opposite to X nor sits adjacent to X. The number of persons sitting between

Who among the following person sits second to the right of the vacant seat?

- (a) The one who sits immediate left of E
- (b) O
- (c) The one who sits opposite to U <== ANSWER**
- (d) H
- (e) The one who sits third to the right of O

323. q004109-ccd30d15 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Study the following information carefully and answer the questions given below. Eleven persons A, E, G, H, J, M, O, R, S, U and X sit around a hexagonal table but not necessarily in the same order. Six persons sit at the corners and face outside of the table while six persons sit at the middle of the sides and face inside of the table. One of the seats is vacant. One person sits between M and X who sits in the middle of the table. M sits fifth to the left of R and sits adjacent to the vacant seat. U neither sits adjacent to X nor R. E sits third to the right of U. Only one person sits between U and H who neither sits opposite to X nor sits adjacent to X. The number of persons sitting between

Four of the following five are alike in a certain way as per the given arrangement and hence form a group, Find the one who doesn't belong to that group?

- (a) O
- (b) The one who sits immediate right of R
- (c) E
- (d) The one who sits third to the left of R
- (e) H <== ANSWER**

324. q004110-8efd19f1 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each question given below, consists of a question and two statements. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the given statements and given answer.

In which direction is G with respect to C? I. A is west of B. B is north of C. C is west of D. D is south of F. G is west of F and north of B. II. B is north of A. C is east of A. D is south of C. F is west of D. G is north of F and west of A.

- (a) If data in statement I alone is sufficient to answer
- (b) If data in statement II alone is sufficient to answer
- (c) If data either in statement I alone or in statement II alone is sufficient to answer <== ANSWER**
- (d) If data neither in statement I alone nor in statement II alone is sufficient to answer
- (e) If data in both statement I and II together are sufficient to answer

325. q004111-361bec22 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each question given below, consists of a question and two statements. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the given statements and given answer.

How many children are sitting in the row? I. Five persons are sitting between A and B. G is sitting second to the left of B. N is sitting exactly in the middle of A and G. II. Even number of persons are sitting in the row.

- (a) If data in statement I alone is sufficient to answer
- (b) If data in statement II alone is sufficient to answer
- (c) If data either in statement I alone or in statement II alone is sufficient to answer
- (d) If data neither in statement I alone nor in statement II alone is sufficient to answer <== ANSWER**
- (e) If data in both statement I and II together are sufficient to answer

326. q004112-7892a85e ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each question given below, consists of a question and two statements. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the given statements and given answer.

What is the relation of S with respect to K? I. K is child of B's only sibling. T is brother of H's mother who is not P. II. D is son-in-law of P whose son is B. H is mother-in-law of K's wife. S is elder to C.

- (a) If data in statement I alone is sufficient to answer
- (b) If data in statement II alone is sufficient to answer
- (c) If data either in statement I alone or in statement II alone is sufficient to answer
- (d) If data neither in statement I alone nor in statement II alone is sufficient to answer
- (e) If data in both statement I and II together are sufficient to answer 17 <== ANSWER**

327. q004113-a5930372 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each question given below, consists of a question and two statements. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the given statements and given answer.

Some boxes are placed one above another, find how many boxes are placed above G? I. One box is placed between A and B which is placed adjacent to C. Number of boxes between A and F is same as below A. G is placed below H and above F. II. H is placed two boxes above C and just below D. F is placed five boxes below D.

- (a) If data in statement I alone is sufficient to answer
- (b) If data in statement II alone is sufficient to answer
- (c) If data either in statement I alone or in statement II alone is sufficient to answer
- (d) If data neither in statement I alone nor in statement II alone is sufficient to answer <== ANSWER**
- (e) If data in both statement I and II together are sufficient to answer

328. q004114-1034c9e2 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each question given below, consists of a question and two statements. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the given statements and given answer.

Eight persons sit around a circular table facing outside. How many persons sit between B and V? I. Three persons sit between V and T. K is not the neighbor of T and V. R sits fifth to the left of K. II. B sits third to the right of K. T sits opposite to K. one person sits between T and R. V sits immediate right of R.

- (a) If data in statement I alone is sufficient to answer
- (b) If data in statement II alone is sufficient to answer <== ANSWER**
- (c) If data either in statement I alone or in statement II alone is sufficient to answer
- (d) If data neither in statement I alone nor in statement II alone is sufficient to answer
- (e) If data in both statement I and II together are sufficient to answer

329. q004115-abc859a0 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Study the following information carefully and answer the below questions. Seven persons - H, I, J, K, L, M and N attend the exam one by one starting from 9.30 AM to 2.15 PM. Each shift of the exam was scheduled for either 30 min or 45 min. There were two breaks of 15min each. Exam duration of the persons who attend the exam immediately before or after the break is not same. Also, both the breaks are not adjacent to each other. Each person likes different sports viz. - Football, Cricket, Hockey, Basketball, Softball, Rugby and Soccer. All the information is not necessary in the same order. Only three persons attend the exam before the one who likes Soccer. J attends the exam immediately after t

Who among the following person likes Basketball?

- (a) J <== ANSWER**
- (b) N
- (c) H
- (d) K
- (e) None of these 18

Four of the following five are similar in a certain pattern and related to a group, who among the following does not belong to the group?

- (a) L
- (b) I
- (c) J
- (d) N
- (e) H <== ANSWER**

334. q004120-9dc0515f ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Study the following information carefully and answer the questions given below. Mr. A started walking towards west for 8m from point B and reached point C. Then he takes two consecutive right turns and walks for 5m and 4m to reach point D and E respectively. From point E he walks 10m towards north to reach point F and then he turns to his right and walks for 4m to reach point G. Mr. B started walking towards south from point H for 10m and reached point I. Then he turns left and walks for 5m to reach point J. Then he turns left and walks for 15m to reach point K. Then, he turns towards west and walks for 15m to reach point L. Then finally he turns to his right and walks for 10m to reach point

What is the total distance covered by Mr. B?

- (a) 50m
- (b) 55m <== ANSWER**
- (c) 45m
- (d) 40m
- (e) Can't be determined

335. q004121-fff17b55 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Study the following information carefully and answer the questions given below. Mr. A started walking towards west for 8m from point B and reached point C. Then he takes two consecutive right turns and walks for 5m and 4m to reach point D and E respectively. From point E he walks 10m towards north to reach point F and then he turns to his right and walks for 4m to reach point G. Mr. B started walking towards south from point H for 10m and reached point I. Then he turns left and walks for 5m to reach point J. Then he turns left and walks for 15m to reach point K. Then, he turns towards west and walks for 15m to reach point L. Then finally he turns to his right and walks for 10m to reach point

If point Z is 4m east of point C, then the distance between point Z and point F is same as between point ___ and point ___.

- (a) HI
- (b) FG
- (c) LK <== ANSWER**
- (d) BZ
- (e) None of these

336. q004122-65b6d42f ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Study the following information carefully and answer the questions given below. Mr. A started walking towards west for 8m from point B and reached point C. Then he takes two consecutive right turns and walks for 5m and 4m to reach point D and E respectively. From point E he walks 10m towards north to reach point F and then he turns to his right and walks for 4m to reach point G. Mr. B started walking towards south from point H for 10m and reached point I. Then he turns left and walks for 5m to reach point J. Then he turns left and walks for 15m to reach point K. Then, he turns towards west and walks for 15m to reach point L. Then finally he turns to his right and walks for 10m to reach point

If point A is the mid-point of point J and point K, then what is the direction of point C with respect to point A?

- (a) South-west
- (b) North-west <== ANSWER**
- (c) North-east
- (d) North
- (e) West

390. q004178-2e894401 ? IBPS-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the given passage to answer the following questions A long-held view of the history of the English colonies that became the United States has been that England's policy toward these colonies before 1763 was dictated by commercial interests and that a change to a more imperial policy, dominated by expansionist militarist objectives, generated the tensions that ultimately led to the American Revolution. In a recent study, Stephen Saunders Webb has presented a formidable challenge to this view. According to Webb, England already had a military imperial policy for more than a century before the American Revolution. He sees Charles II, the English monarch between 1660 and 1685, as the proper

Which of the following words is the synonym of 'formidable' as highlighted in the given passage?

The average age (in years) of a group of people is twice the number of people in the group. A person, X, leaves the group and the average age is still twice the number of people in the group. Now another person, Y, leaves the group and the average age is still twice the number of people in the group. If the ratio of the ages of X and Y is 19: 17, then find the average age of the group, if one more person, Z, of age 16 years, leaves the group.
