39. q008094-cdb2e58a ? SBI 8th March Shift1

CONTEXT: Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The corresponding letter of that part is the answer. If the given sentence is correct as it is, then choose option ?No error? as your answer response. (Ignore errors of punctuation, if any).

The rebels planned (A)/ to blow out (B)/ the bridge before (C)/ reinforcements arrived. (D)

- (a) A
- (b) B <== ANSWER**
- (c) C
- (d) D
- (e) No error

40. q008095-628dee3a ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Which of the following statements is/are correct according to the passage? (I) The legalization of online betting in the United States has influenced global betting trends, including in Europe. (II) Traditional casinos are becoming obsolete due to the growing popularity of online gambling platforms. (III) The integration of technology, such as AI and blockchain, has improved security in online gambling.

- (a) Only (II)
- (b) Both (I) and (II)
- (c) Only (III)

(d) Both (I) and (III) <== ANSWER

(e) All (I), (II), and (III)

41. q008096-9c8033a8 ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Which of the following is a concern regarding online betting, based on the passage?

(a) Traditional casinos will completely disappear in the near future

(b) Online gambling companies may manipulate algorithms to increase losses

(c) The increased engagement in sports may create biased betting outcomes

(d) A lack of proper financial education may lead to severe monetary losses for new bettors <== ANSWER

(e) Governments will completely ban online betting again due to its risks

42. q008097-a0e1cf1e ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Identify the INCORRECT statement based on the passage.

(a) The U.S. legalization of online betting has influenced global gambling trends, impacting regulations and betting dynamics in other countries

(b) Online gambling companies have successfully eliminated gambling addiction through AI-driven detection and prevention systems <== ANSWER

(c) The passage highlights that gamification in digital betting can make gambling more addictive by obscuring its long-term consequences

(d) Both A and B

(e) All are incorrect

43. q008098-09c7d34f ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Identify the correct synonym for "engage" based on its usage in the passage.

(a) Capture

(b) Captivate <== ANSWER

(c) Emerge

(d) Replace

(e) Evolve

44. q008099-f022a9f9 ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Based on the passage, how has the U.S. decision to legalize online betting impacted global gambling trends?

(a) It has primarily benefited U.S. sports leagues, while the global gambling industry remains unaffected due to differing regulatory structures

(b) The passage suggests that U.S. legalization has caused a worldwide increase in problem gambling, overwhelming responsible gambling initiatives

(c) The ripple effect of this decision has influenced European markets by increasing sports engagement and enhancing revenue streams for clubs and leagues <== ANSWER

- (d) The passage implies that U.S. legalization has had minimal influence outside its borders, as most online gambling companies operate independently of U.S. laws
- (e) The global sports industry has opposed this change, fearing that the rise of online betting could reduce traditional in-person viewership

45. q008100-3f508d8d ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

What potential risk associated with online betting does the passage emphasize the most?

- (a) The complete lack of gambling regulations worldwide, which has allowed fraudulent activities to flourish
- (b) The psychological and financial dangers of unchecked digital gambling, particularly among young and inexperienced users <== ANSWER**
- (c) The negative impact of online betting on professional sports, leading to a decline in revenue and viewership
- (d) The erosion of traditional casino culture due to the increasing preference for digital betting platforms
- (e) The long-term economic instability of online gambling companies due to increasing competition and market saturation

46. q008101-a7ba7641 ? SBI 8th March Shift1

CONTEXT: Read the following passage and answer the given questions. With the United States recently lifting its ban on online betting, the digital gambling landscape has experienced a significant paradigm shift, redefining the intersection between technology and wagering. Once constrained by stringent regulations, platforms facilitating poker, online casinos, and sports betting are now flourishing, attracting an influx of new participants, particularly among the youth. This legislative reversal has catalyzed a global ripple effect, influencing betting dynamics in Europe and beyond. In response to this shift, several companies are launching innovative gambling platforms to capitalize on the growing demand.

Which of the following words is the closest in meaning to the opposite of "vice" as used in the passage?

- (a) Corruption
- (b) Virtue <== ANSWER**
- (c) Immorality
- (d) Sin
- (e) Depravity

47. q008102-375a72dd ? SBI 8th March Shift1

87. q008142-c1a3b967 ? SBI 8th March Shift1

CONTEXT: Read the information and answer the following questions. The information is about the total people who like three different games i.e. volleyball, chess and cricket. The people who like only volleyball is (x+10) and people who like only chess is 15 less than that of Volleyball. People who like only cricket is 28. Average number of people who like only one game is 21. People who like all the games together is 50. The ratio of people who like volleyball and chess together and chess and cricket together is 1:2. Total people who like chess is 96.

Find the ratio of people who like only cricket and chess together to people who like only volleyball.

(a) 24:25 <== ANSWER

(b) 25:24

(c) 15:16

(d) 10:9

(e) 5:4

88. q008143-9a6649f3 ? SBI 8th March Shift1

CONTEXT: Read the information and answer the following questions. The information is about the total people who like three different games i.e. volleyball, chess and cricket. The people who like only volleyball is (x+10) and people who like only chess is 15 less than that of Volleyball. People who like only cricket is 28. Average number of people who like only one game is 21. People who like all the games together is 50. The ratio of people who like volleyball and chess together and chess and cricket together is 1:2. Total people who like chess is 96.

Find the difference between people who like only one game to people like all the games together.

- (a) 20
- (b) 13 <== ANSWER**
- (c) 15

- (e) ominous 2

134. q008199-efbf7ad1 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the passage given below and answer the following questions. As an economist, I believe that there are several ways to tackle an economic downturn. The first and most important step is for the government to implement fiscal policies that stimulate economic activity. By injecting money into the economy, we can boost consumer spending and create new jobs, which in turn helps to jumpstart economic growth. This can be done through tax cuts, increased government spending on infrastructure projects, and targeted subsidies for industries that are struggling. Another effective strategy is for the government to work closely with central banks to implement monetary policies that support economic growth.

What is the first and most important step to tackle an economic downturn, according to the economist in the passage?

- (a) Implementing trade tariffs to protect domestic industries
- (b) Increasing government bureaucracy to monitor businesses
- (c) Implementing fiscal policies that stimulate economic activity <== ANSWER**
- (d) Limiting consumer spending to control inflation
- (e) None of the above

135. q008200-02baef8f ? SBI-Clerk-Mains-Previous-Year-Paper-2022

- (d) I look to keep up with the
- (e) No replacement required

155. q008220-b199deda ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: A few sentences are provided in the following questions, each with a phrase highlighted in bold. There may or may not be an error in the highlighted phrase. The erroneous phrase can be replaced with one of the given alternatives. Choose "No replacement required" as your response if the highlighted phrase is correct.

The employee had to clock in and out on time to avoid getting in trouble with the HR department.

- (a) for avoiding get in trouble with
- (b) to avoid getting to trouble with
- (c) in avoid getting of trouble with
- (d) of avoiding get for trouble with
- (e) No replacement required <== ANSWER**

156. q008221-d4b1d4d6 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The pie chart given below shows the percentage distribution of number of people (Male+ Female) visited a zoo on five different days of a week. Note: (i) portion occupied on Friday = 90?. (ii) Total number of people visited the zoo on five different days is 1000.

[has 1 image(s) - chart not rendered]

On Monday, the ratio of males to females visited the zoo is 3:2. If 40% of the total males and $\frac{1}{4}$ of total females visited zoo in the morning and rest visited in afternoon, then find the number of females visited zoo in afternoon is how much more/less than males visited zoo in the same time?

- (a) 18 <== ANSWER**
- (b) 20
- (c) 30
- (d) 36
- (e) 24 11

157. q008222-59d504d5 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The pie chart given below shows the percentage distribution of number of people (Male+ Female) visited a zoo on five different days of a week. Note: (i) portion occupied on Friday = 90?. (ii) Total number of people visited the zoo on five different days is 1000.

[has 1 image(s) - chart not rendered]

On Thursday, total number of females visited are 30% of the people visited on Wednesday. If 30% of the males visited on Thursday are under 50 years, then find the number of males visited to zoo whose age is above or equal to 50 years is what percent of total number of people visited in the week.

- (a) 8.1%
- (b) 12%
- (c) 3%
- (d) 8.4% <== ANSWER**
- (e) 2.4%

158. q008223-60280c5f ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The pie chart given below shows the percentage distribution of number of people (Male+ Female) visited a zoo on five different days of a week. Note: (i) portion occupied on Friday = 90?. (ii) Total number of people visited the zoo on five different days is 1000.

[has 1 image(s) - chart not rendered]

On Friday, total number of males visited in zoo is the average of number of people visited on Saturday and Thursday. Total number of females visited zoo on Friday is of total number of people visited on Monday. Find the total number of people visited zoo on Saturday.

- (a) 180

- (b) 200
- (c) 300
- (d) 150 <== ANSWER**
- (e) 240

159. q008224-7849e4c2 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The pie chart given below shows the percentage distribution of number of people (Male+ Female) visited a zoo on five different days of a week. Note: (i) portion occupied on Friday = 90%. (ii) Total number of people visited the zoo on five different days is 1000.

[has 1 image(s) - chart not rendered]

The total number of people visited zoo on Saturday and Sunday are in the ratio of 1:2 respectively. The total number of females visited zoo on Saturday is 75% of total number of people visited zoo on Tuesday. If 70% of the people visited zoo on Saturday are males, then find the total number of people visited zoo on Sunday.

- (a) 1800
- (b) 1200
- (c) 3000
- (d) 1500

On Friday, it manufactures 60 more bags than Monday. The total manufacturing of bags on all days except Wednesday is 1000. Company Y - The manufacturing of bags on Friday and Thursday is same i.e. 15% out the total manufacturing of bags in all days. Company Z - The manufacturing of bags on Tuesday and Wednesday is same i.e. 12% out the total manufacturing of bags in all days. Total bags

The bags manufactured by Z on Fridays is what percent more/less than bags manufactured by Z on Monday.

- (a) 44%
- (b) 33%
- (c) 55%
- (d) 66%
- (e) 25.66% <== ANSWER**

192. q008257-56f0522b ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Read the information carefully and answer the following question. The information shows manufacturing of bags by three companies X, Y and Z from Monday to Friday. Company X - On Monday and Tuesday, it manufactures bags in the ratio of 1:2 respectively. On Thursday, it manufactures 60 less bags than on Monday. On Friday, it manufactures 60 more bags than Monday. The total manufacturing of bags on all days except Wednesday is 1000. Company Y - The manufacturing of bags on Friday and Thursday is same i.e. 15% out the total manufacturing of bags in all days. Company Z - The manufacturing of bags on Tuesday and Wednesday is same i.e. 12% out the total manufacturing of bags in all days. Total bags

If company A manufactured 20% more bags than total bags manufactured by all the companies on Thursday, then find the total number of bags manufactured by company A in all days is approximately what percent of total bags manufactured by company X in all days.

- (a) 65%
- (b) 51% <== ANSWER**
- (c) 70%
- (d) 110%
- (e) 80%

193. q008259-7bc11d4a ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The data given below is about number of articles sold by X, Y and Z in three different years from 2020 to 2022. Total number of articles sold by X, Y and Z in 2022 is 347. Total number of articles sold in all three years by Y and Z is 400 and 227 respectively. Articles sold by Z in 2021 and 2022 are in the ratio of 8:7. The ratio of articles sold by X and Z in 2020 is 1:2. The number of articles sold by Z in 2020 is 20 more than the articles sold by it in 2021. The number of articles sold by Y in 2022 is four times the number of articles sold by X in 2020. The number of articles sold by Y and Z in 2020 is 25:23. In 2021, X sold thrice the number of articles sold by it previous year.

Find the ratio of total articles sold by X to Y in all the given years.

- (a) 33:35
- (b) 21:23
- (c) 100:71
- (d) 71:100 <== ANSWER**
- (e) 71:73

194. q008260-7fe81db4 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The data given below is about number of articles sold by X, Y and Z in three different years from 2020 to 2022. Total number of articles sold by X, Y and Z in 2022 is 347. Total number of articles sold in all three years by Y and Z is 400 and 227 respectively. Articles sold by Z in 2021 and 2022 are in the ratio of 8:7. The ratio of articles sold by X and Z in 2020 is 1:2. The number of articles sold by Z in 2020 is 20 more than the articles sold by it in 2021. The number of articles sold by Y in 2022 is four times the number of articles sold by X in 2020. The number of articles sold by Y and Z in 2020 is 25:23. In 2021, X sold thrice the number of articles sold by it previous year.

Total article sold by Y in 2020 is what percent more/less than that of total article sold by X in 2022?

- (a) 60%
- (b) 75%
- (c) 50%
- (d) 100%
- (e) 0% 21 <== ANSWER**

195. q008261-6432fbb1 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The data given below is about number of articles sold by X, Y and Z in three different years from 2020 to 2022. Total number of articles sold by X, Y and Z in 2022 is 347. Total number of articles sold in all three years by Y and Z is 400 and 227 respectively. Articles sold by Z in 2021 and 2022 are in the ratio of 8:7. The ratio of articles sold by X and Z in 2020 is 1:2. The number of articles sold by Z in 2020 is 20 more than the articles sold by it in 2021. The number of articles sold by Y in 2022 is four times the number of articles sold by X in 2020. The number of articles sold by Y and Z in 2020 is 25:23. In 2021, X sold thrice the number of articles sold by it previous year.

Find the total article sold in year 2021.

- (a) 315
- (b) 325
- (c) 345
- (d) 326 <== ANSWER**
- (e) 355

196. q008262-4b489a67 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The data given below is about number of articles sold by X, Y and Z in three different years from 2020 to 2022. Total number of articles sold by X, Y and Z in 2022 is 347. Total number of articles sold in all three years by Y and Z is 400 and 227 respectively. Articles sold by Z in 2021 and 2022 are in the ratio of 8:7. The ratio of articles sold by X and Z in 2020 is 1:2. The number of articles sold by Z in 2020 is 20 more than the articles sold by it in 2021. The number of articles sold by Y in 2022 is four times the number of articles sold by X in 2020. The number of articles sold by Y and Z in 2020 is 25:23. In 2021, X sold thrice the number of articles sold by it previous year.

In 2023, that article sold by X is 45% more than the previous year. In 2020, the article sold by Y is decreased by 75% from previous year. Find the sum of article sold by X in 2023 and Y in 2019.

- (a) 545 <== ANSWER**
- (b) 525

202. q008268-83f10616 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

In one of the historical reforms of the economy of India, Rs 500 and Rs 1,000 notes were banned. This was one of the boldest movements by the Government of India announced over a 40- minute speech. Most of the industry and commoners alike reacted to this decision to curb corruption with overwhelming support. Whereas some sections are of the opinion that it is a draconian scheme causing hardships to people. A recent study had pegged India's black-market economy at over Rs 30 lakh crore or about 20 percent of total GDP. This is even bigger than the GDP of countries like Thailand and Argentina. Rather getting support from most of the industry, what would have been the reason that some of them declared it as a draconian scheme? (I) It was declared without giving time to people to withdraw ample cash for their use. (II) It had caused certain hardships in daily activities. (III) It stopped the

- (a) Only II and III

232. q008298-9598fb03 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Seven persons- Q, R, S, T, U, V and W sit around a circular table facing outside the table but not necessarily in the same order. Who among the person sits second to the right of U? Statement I: T sits second to the right of Q. V is an immediate neighbour of Q. S sits third to the right of V. U does not sit adjacent to S. Statement II: R sits immediate right of T. Two persons sit between T and W. Q sits second to the left of W. Three persons sit between Q and V.

- (a) If the data given in statement I alone is sufficient to answer the question <== ANSWER**
- (b) If the data given in statement II alone is sufficient to answer the question
- (c) If the data given in either statement I alone or statement II alone is sufficient to answer the question
- (d) If the data given in both statements I and II together are sufficient to answer the question
- (e) If the data given in both statements I and II together are not sufficient to answer the question

233. q008299-e32a4ddb ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Seven persons- P, Q, R, S, T, U and V live on seven different floors of a building but not necessarily in the same order. The lower- most floor is numbered as 1 and the floor immediately above it is numbered as 2 and so on till the topmost floor is numbered as 7. Who among the person lives three floors below P? Statements I: T lives three floors above U. Only two persons live between U and Q. Only one person lives between Q and V. P lives above V but does not live on an even numbered floor. Statement II: Four persons live between S and T. S lives on a prime numbered floor. Three persons live between S and R. U lives two floors below R.

- (a) If the data given in statement I alone is sufficient to answer the question
- (b) If the data given in statement II alone is sufficient to answer the question
- (c) If the data given in either statement I alone or statement II alone is sufficient to answer the question
- (d) If the data given in both statements I and II together are sufficient to answer the question <== ANSWER**
- (e) If the data given in both statements I and II together are not sufficient to answer the question

249. q008318-bd1fe9e2 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: The data given below is about number of articles sold by X, Y and Z in three different years from 2020 to 2022. Total number of articles sold by X, Y and Z in 2022 is 347. Total number of articles sold in all three years by Y and Z is 400 and 227 respectively. Articles sold by Z in 2021 and 2022 are in the ratio of 8:7. The ratio of articles sold by X and Z in 2020 is 1:2. The number of articles sold by Z in 2020 is 20 more than the articles sold by it in 2021. The number of articles sold by Y in 2022 is four times the number of articles sold by X in 2020. The number of articles sold by Y and Z in 2020 is 25:23. In 2021, X sold thrice the number of articles sold by it previous year.

Total article sold by Y in 2020 is what percent more/less than that of total article sold by X in 2022?

- (a) 60%
- (b) 75%
- (c) 50%
- (d) 100%
- (e) 0% <== ANSWER**

250. q008319-46e8ac88 ? SBI-Clerk-Mains-Previous-Year-Paper-2022

CONTEXT: An alphanumeric machine when given an input, rearranges it by following a particular rule in each step. The following is an illustration of the input and steps rearrangement: Input: Trauma 36 Dynamic 65 Portrayed 44 Minute 55 Permanent 67 Step I: 67 36 Dynamic 65 Portrayed 44 Minute 55 Permanent Trauma Step II: 67 Dynamic 36 Portrayed 44 Minute 55 Permanent Trauma 65 Step III: 67 Dynamic 55 36 44 Minute Permanent Trauma 65 Portrayed Step IV: 67 Dynamic 55 Minute 44 Permanent Trauma 65 Portrayed 36 Step V: 67 Dynamic 55 Minute 44 Trauma 65 Portrayed 36 Permanent Step V is the last and final step of the rearrangement. With the same rules followed in the above arrangement determine the steps for

Which of the following element is second to the right of 'Potato' in step III of the given input?

255. q008325-d6a72c7f ? REASONING MAINS GENIUS 13

Seven persons - P, Q, R, S, T, U and V are reading books on seven different days from Monday to Sunday of the same week. Who reads the book immediately before P? Statement I: Only four persons read between S and P. T reads two days after P. The number of persons read before T is one less than the number of persons read after V. U reads on one of the days after V. Statement II: U reads on one of the days after Friday. Only one person reads between U and T. As many persons read between T and V as between Q and T. P reads immediately before V.

(a) If the data given in statement I alone is sufficient to answer the question

(b) If the data given in statement II alone is sufficient to answer the question

(c) If the data given in either statement I alone or statement II alone is sufficient to answer the question

(d) If the data given in both statement I and statement II together are necessary to answer the question <== ANSWER

(e) If the data given in both statements I and II together are not sufficient to answer the question. REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

Statement: Start to think of travelling by train for a holiday. A train journey can give one a better view of places on the way which an air journey cannot give. You can walk around whenever you want, meet other travelers and locals, relax and watch the landscape go peacefully by. Train travel is both a beautiful and affordable way to see the country, and no trip is more scenic than the trip by trains. Conclusions: I. While going for a holiday, people want to enjoy the view of the places on the way. II. People should not travel by air when they are going for a holiday. Which of the following can be concluded from the given statement?

327. q008581-7ca89c97 ? SBI_Clerk_Mains_2024_25_Memory_Based_Paper_1

CONTEXT: Read the following passage and answer the given questions. India's electric vehicle (EV) industry is undergoing a profound transformation. Once marred by scepticism, financial constraints, and infrastructural shortcomings, the sector is now accelerating toward a cleaner, technology-driven future. The most notable momentum is observed in the electric two-wheeler (E2W) segment, where sales have reached a significant 18 million units. This surge is fuelled by a combination of factors: evolving consumer preferences, cost-efficiency, and concerted policy interventions aimed at mainstreaming e-mobility. The industry's initial journey was fraught with economic setbacks. High battery costs, limited

Which of the following statements can be logically inferred from the passage? (I) The Indian government's infrastructural and fiscal policies are not only supporting existing EV manufacturers but are also influencing traditional automobile companies to shift strategies. (II) Technological innovations have not only made EVs cheaper to produce but have also contributed to features that align with changing consumer demands. (III) The growth of electric vehicles in India has primarily been driven by rural demand and local manufacturing incentives.

- (a) Only (I)
(b) Both (I) and (II) <== ANSWER

- (c) Only (III)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

In the following question, a sentence with a highlighted phrase is given which may or may not be correct. Choose the correct option to replace the highlighted phrase. If the team would have submitted the proposal on time, they could have secured the funding for the project. (I) If the team had submitted (II) Had the team submitted (III) If the team have submitted 23 www.bankersadda.com | Test Prime

- (a) Only (I)
- (b) Both (I) and (II) <== ANSWER**
- (c) Only (III)
- (d) Both (II) and (III)
- (e) No replacement required

341. q008595-d8c609c2 ? SBI_Clerk_Mains_2024_25_Memory_Based_Paper_1

CONTEXT: Read the following passage and answer the given questions. The traditional interview process often relies on the candidate's ability to describe their prior experiences, qualifications, past work duties, and skillsets - an approach that creates a larger barrier to recruitment and selection for most non-native speakers. Managers should consider whether candidates should be tested on their ability to talk or write about their skills, or on their ability to demonstrate these skills in practice. To this end, rather than testing oral or written communication aptitude, companies can adopt innovative ways to test practical and technical on-the-job skills, in which candidates are asked to perform a

Which of the following best summarizes the central argument presented in the passage?

- (a) Traditional interviews are universally effective in assessing a candidate's communication and job performance skills, especially for native speakers
- (b) The interview process should continue to prioritize oral and written communication to maintain professional standards across industries
- (c) Recruitment strategies must evolve to emphasize candidates' practical demonstration of skills over their verbal articulation, especially to support non-native speakers and promote inclusivity <== ANSWER**
- (d) All organizations must adopt a single standardized skill assessment model that eliminates interviews altogether to ensure fairness in selection
- (e) Language proficiency tests should be made more rigorous in interviews to ensure only well-spoken professionals are recruited

342. q008596-ea7f7661 ? SBI_Clerk_Mains_2024_25_Memory_Based_Paper_1

CONTEXT: Read the following passage and answer the given questions. The traditional interview process often relies on the candidate's ability to describe their prior experiences, qualifications, past work duties, and skillsets - an approach that creates a larger barrier to recruitment and selection for most non-native speakers. Managers should consider whether candidates should be tested on their ability to talk or write about their skills, or on their ability to demonstrate these skills in practice. To this end, rather than testing oral or written communication aptitude, companies can adopt innovative ways to test practical and technical on-the-job skills, in which candidates are asked to perform a

What assumption does the author make about the relationship between language skills and job performance?

- (a) High language proficiency always results in high job productivity, particularly in technical roles
- (b) Language skills are irrelevant in all professional fields and should not be a consideration in recruitment
- (c) Fluency in communication may not accurately reflect a candidate's job capabilities, and overemphasis on it can limit access for capable non-native speakers <== ANSWER**
- (d) Multilingual individuals automatically outperform monolingual individuals due to broader vocabulary and cultural awareness
- (e) Employees with poor communication skills will struggle regardless of their technical competency

Statement: In a recent national policy announcement, the government mandated that all private companies with over 100 employees must ensure at least 30% female representation in their leadership roles by 2027. This move is expected to reduce the gender gap in corporate governance. However, some critics argue that without structural support like affordable childcare and safe transportation, achieving this target may be difficult. Based on the above statement, which of the following can be inferred? I. The government is taking measures to promote gender equality in corporate leadership. II. Private companies are not currently required to ensure any female representation. I II. Supporting infrastructure is crucial for the success of gender-related policy goals. ??? : ??? ?? ??? ?? ?????????? ???? ?????? ???, ????? ?? ????????? ???? ?? ?? 100 ?? ???? ?????????????? ???? ??? ????? ?????????? ?? 2027 ?? ?
