1. q008843-48516d4f ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Table given below shows the total population of 5 cities in 5 different years. Another table show percentage rise of population in these cities every years. Study the table and solve the given questions: 2012 2013 A - - B - - C - 1,80,000 D 1,60,000 - E - - Percentage rise of population every year 15% www.yourmahboob.wordpress.com (c) 1481 (c) 18.54% 5 19 9 % and 3 27 % respectively in (c) 3960 (c) 5 : 9 (c) 40 2014 2015 2016 - 3,04,175 - 1,45,200 - - - - - 5,37,824 A B C D E 40 10% 20% 25% www.yourmahboob.wordpress.com Note:- ? Percentage rise in population is consistent every year. ? Some data is missing in the table. Find the data according to the question.

What is the ratio of the population of city B and C together in 2012 to the city D and E together in 2013?

- (a) 22 : 15
- (b) 15 : 22
- (c) 14 : 23 <== ANSWER**
- (d) 23 : 14
- (e) 15 : 23

2. q008844-44120ed5 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table and answer the questions that follow:- The table shows the data related to investment made by five friends in two schemes A and B for different time periods and at different rate of interest. Scheme Time Name (Years)
Sameer 3 Sanjeev 6 Saahil 2 Saket 4 Sarash 2

[has 1 image(s) - chart not rendered]

Find the difference in the compound interest and simple interest earned by Saket through scheme B if he invested Rs 12000 in scheme B.

- (a) Rs 89.5 <== ANSWER**
- (b) Rs 91.5
- (d) Rs 102.8
- (e) Rs 97.5
- (c) Rs 108.2

3. q008845-dcf1fd0f ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table and answer the questions that follow:- The table shows the data related to investment made by five friends in two schemes A and B for different time periods and at different rate of interest. Scheme Time Name (Years)
Sameer 3 Sanjeev 6 Saahil 2 Saket 4 Sarash 2

The amount obtained by Sanjeev by investing same sum of money in scheme A & B at compound interest are in ratio 25 : 16. Find the value of x.

- (a) 15%
- (b) 10%
- (c) 20% <== ANSWER**
- (d) 25%
- (e) 18%

4. q008846-518ca0d9 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table and answer the questions that follow:- The table shows the data related to investment made by five friends in two schemes A and B for different time periods and at different rate of interest. Scheme Time Name (Years)
Sameer 3 Sanjeev 6 Saahil 2 Saket 4 Sarash 2

Saahil invested a sum of money(x) in scheme A at SI while Sarash invested three-seventh of x in scheme B at CI. Total interest earned by Saahil and Sarash is what percent of amount invested by Saahil in scheme A ?

- (a) 31%
- (b) 29% <== ANSWER**
- (c) 23%
- (d) 28%
- (e) 20%

5. q008847-bdf62817 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table and answer the questions that follow:- The table shows the data related to investment made by five friends in two schemes A and B for different time periods and at different rate of interest. Scheme Time Name (Years)
Sameer 3 Sanjeev 6 Saahil 2 Saket 4 Sarash 2

From a total of Rs 12,000 Sarash invested three-fifth in Scheme A and rest in scheme B at SI. Find the difference in the interest earned.

- (a) Rs 786
- (b) Rs 789
- (c) Rs 586

(d) Rs 867 <== ANSWER

(e) Rs 768

6. q008848-ea098875 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table and answer the questions that follow:- The table shows the data related to investment made by five friends in two schemes A and B for different time periods and at different rate of interest. Scheme Time Name (Years)
Sameer 3 Sanjeev 6 Saahil 2 Saket 4 Sarash 2

Saket invested an amount (P) in A at SI and Saahil an amount of Q in B at SI and earn interest in ratio of 5 : 4. Which one of the following is false statement? 2

(a) P is 16 3 % less than Q

(b) Q is 20% more than P <== ANSWER

(c) Sum of P & Q is 220% of P

(d) Difference of P & Q is 22% of P

(e) None of these

7. q008851-af8ee682 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Refer to the table given below and answer the given questions. Table shows the total population, percentage of males, females and transgenders of 5 villages in year 2000. Some data are missing, find the missing data to answer the given question
s. Village Total Percentage Population of Males P 2400 25% Q - - R - 50% S 800 - T - -

If total population of village Q and village R together in year 2000 is 25% more than the total population of village P in year 2000. And ratio of total population of village Q and village R in year 2000 is 2 : 3. Then find the ratio of males in village Q to transgenders in village R in year 2000?

(a) 9 : 8 <== ANSWER

(b) 8 : 9

(d) 3 : 5

(e) None of these

(c) 2752

8. q008854-58c96322 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table carefully and answer the questions that follow. The table shows the data related to six schools of India. Some values are missing which you need to find out and answer the questions accordingly. Ratio of Number male to Schools of female teachers teachers Vasant 480 15:17 valley Woodstock 450 DPS - Rishi 510 Valley Pathways - DAV - www.yoursmahboob.wordpress.com (c) 1500 (e) NOT (c) 10% Ratio of Percentage of teachers non-teaching to staff students _ : _ 15% _ : _ 1:6 10% 3:2 3:20 - 8:7 3:10 - 2:7 2:5 20% _ : _ 2:7 15% www.yoursmahboob.wordpress.com Note: Total strength of school = Number of teachers + Number of students + Number of non-teaching staff

If female teachers of school Vasant valley are 17% of total strength of school, then what is the ratio of teachers to students in that school ?

(a) 32 : 55

(b) 5 : 11 <== ANSWER

(c) 32 : 53

(d) 23 : 53

(e) 5 : 13 5

9. q008855-625c0f0d ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table carefully and answer the questions that follow. The table shows the data related to six schools of India. Some values are missing which you need to find out and answer the questions accordingly. Ratio of Number male to Schools of female teachers teachers Vasant 480 15:17 valley Woodstock 450 DPS - Rishi 510 Valley Pathways - DAV - www.yoursmahboob.wordpress.com (c) 1500 (e) NOT (c) 10% Ratio of Percentage of teachers non-teaching to staff students _ : _ 15% _ : _ 1:6 10% 3:2 3:20 - 8:7 3:10 - 2:7 2:5 20% _ : _ 2:7 15% www.yoursmahboob.wordpress.com Note: Total strength of school = Number of teachers + Number of students + Number of non-teaching staff

The female students of Pathways school are 15 9 % more than male teachers of school Vasant valley while ratio of male to female students of Pathways school is 14 : 13. Find the number of non-teaching staff of Pathways school.

(a) 180

(b) 192

(c) 210

(d) 189 <== ANSWER

(e) None of these

10. q008856-5a524dd8 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table carefully and answer the questions that follow. The table shows the data related top six sc hools of India. Some values are missing which you need to find out and answer the questions accordingly. Ratio of Number male to Schools of female teachers teachers Vasant 480 15:17 valley Woodstock 450 DPS - Rishi 510 Valley Pathways - DAV - www.yours mahboob.wordpress.com (c) 1500 (e) NOT (c) 10% Ratio of Percentage of teachers non-teaching to staff students _ : _ 15% _ : _ 1:6 10% 3:2 3:20 - 8:7 3:10 - 2:7 2:5 20% _ : _ 2:7 15% www.yoursmahboob.wordpress.com Note: Total strength of school = Number of teachers + Number of students + Number of non-teaching staff

If strength of all school is same, then find the number of non- teaching staff of school DAV.

- (a) 420 <== ANSWER
- (b) 525
- (c) 580
- (d) 630
- (e) None of these

11. q008857-6e2af951 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following table carefully and answer the questions that follow. The table shows the data related top six sc hools of India. Some values are missing which you need to find out and answer the questions accordingly. Ratio of Number male to Schools of female teachers teachers Vasant 480 15:17 valley Woodstock 450 DPS - Rishi 510 Valley Pathways - DAV - www.yours mahboob.wordpress.com (c) 1500 (e) NOT (c) 10% Ratio of Percentage of teachers non-teaching to staff students _ : _ 15% _ : _ 1:6 10% 3:2 3:20 - 8:7 3:10 - 2:7 2:5 20% _ : _ 2:7 15% www.yoursmahboob.wordpress.com Note: Total strength of school = Number of teachers + Number of students + Number of non-teaching staff

If total strength and number of students of schools Woodstock and DPS are same, then teachers of DPS are what percent less than students of Woodstock ?

- (a) 80%
- (b) 85% <== ANSWER
- (c) 72%
- (d) 92%
- (e) None of these

12. q008862-b5708599 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table carefully and answer the following questions. Table shown below shows the ratio of literate and illiterate population of five cities Percentage of Ratio of illiterate Cities Literate Male & Female population A 48% B 60% C 72% D 64% E 52%

Find the ratio of population of literate male in city C to illiterate female in city E if illiterate female in city C is 14,000 and literate male in city E is 81,000. 81

- (a) 64
- (b) 67
- (d) 93
- (e) None of these <== ANSWER
- (c) 16% 64 93 81 67

13. q008865-b9dc19fc ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the table which shows the various items purchased by shopkeeper from wholesaler, % mark up price per kg by shopkeeper, List price per kg marked by shopkeeper and % discount offered by shopkeeper on list price. Items Quantity % mark up List price per kg % discount 33 1 Wheat 80 Kg 3 % Rice 90 kg 40% 200 Maize 40 kg 7 % 1 33 3 % Jowar 60 kg 400 Bajra 30 kg 9 %

If shopkeeper mixes 5 kg of impurity free of cost in Wheat then his total profit increases by what percent. 2

- (a) 42 7 % <== ANSWER
- (b) 64 1
- (d) 53 8 %
- (e) 50
- (c) 18,750 20 15% 100 35 7 % 100 45 6 % 100 60 6 % 300 52 13 % 2 1 3 % 3 % 1 7 %

14. q008874-cd839c9b ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the percent of number of students from 5 different colleges attended different number of seminars. No. of No. of seminars seminars seminars Attended Attended Attended - 1 - 2 P 19 16 21 Q - 18 24 R 10 18 29 S - - 29 T 16 - 25 www.yoursmahboob.wordpress.com (c) 17 : 18 (c) 9 days (c) 220% 2 2 9 % (c) 110 9 % 2 9 % No. of No. of No. of seminars seminars seminars Attended Attended Attended - 3 - 4 - 5 - 6 9 - 12 - - 20 - - 11 24 10 - 31 6 www.yoursmahboob.wordpress.com Note: Every student attended at least 1 seminar so there is no student from every college who did not attend the seminars.

If the number of students from college R who attended at most 3 seminars is equal to number of students from college S who attended at least 3 seminars and the total number of students from College S is 11400. Then find total the number of students from college R.

- (a) 14800 <== ANSWER
- (b) 41900

- (c) 15300
- (d) 12400
- (e) 13000

15. q008876-6a3623a7 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the percent of number of students from 5 different colleges attended different number of seminars. No. of No. of No. of seminars seminars seminars Attended Attended Attended - 1 - 2 P 19 16 21 Q - 18 24 R 10 18 29 S - - 29 T 16 - 25 www.yourmahboob.wordpress.com (c) 17 : 18 (c) 9 days (c) 220% 2 2 9 % (c) 110 9 % 2 9 % No. of No. of No. of seminars seminars seminars Attended Attended Attended - 3 - 4 - 5 - 6 9 - 12 - - 20 - - - 11 24 10 - 31 6 www.yourmahboob.wordpress.com
Note: Every student attended at least 1 seminar so there is no student from every college who did not attend the seminars.

The number of students from college P who attended more than 2 seminars is approximately what per cent less than the number of students from college S who attended at least 3 seminars if the number of student who attended 2 seminars from college P is 48 and the number of students of college S who attended 6 seminars www.yourmahboob.wordpress.com is 48 more than the number of students from college P, who attended 1 seminar?

- (a) 77%
- (b) 74% <== ANSWER**
- (c) 71%
- (d) 75%
- (e) 73%

16. q008877-90753f70 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the percent of number of students from 5 different colleges attended different number of seminars. No. of No. of No. of seminars seminars seminars Attended Attended Attended - 1 - 2 P 19 16 21 Q - 18 24 R 10 18 29 S - - 29 T 16 - 25 www.yourmahboob.wordpress.com (c) 17 : 18 (c) 9 days (c) 220% 2 2 9 % (c) 110 9 % 2 9 % No. of No. of No. of seminars seminars seminars Attended Attended Attended - 3 - 4 - 5 - 6 9 - 12 - - 20 - - - 11 24 10 - 31 6 www.yourmahboob.wordpress.com
Note: Every student attended at least 1 seminar so there is no student from every college who did not attend the seminars.

If the difference between number of students from college T who attended 3 seminars and students who attended 5 seminars is 60, and the total students from college R is 60% of the total students from college T then find the number of students of college R who are attending 2 seminars.

- (a) 116 <== ANSWER**
- (b) 104
- (c) 136
- (d) 108
- (e) 105

17. q008881-f7105175 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table and answer the questions based on it. Sells of major flowers used in decoration purpose (in kg)
Months Freesia Jasmine January 69 91 February 75 88 March 81 97 April 98 107 May 93 110 June 99 116 July 105 122

What is the difference between the average sells (in kg) of Freesia, Marigold and Roses in February, June and May respectively and the average sells of Jasmine and Roses in April and July respectively ? www.yourmahboob.wordpress.com

- (c) 438 : 919 Marigold Orchids Roses 71 15 100 75 18 120 79 21 102 88 25 131 92 24 143 97 20 154 103 25 163 <== ANSWER**

- (d) 25
- (e) None of these

18. q008885-a0c08cba ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the following table and answer the questions. Cities Population A 53000 B 49000 C 65000 D 60000 E 75000

What is the ratio of total women from cities D, B and E to the total men from remaining cities?

- (a) 9255 : 6868
- (b) 9155 : 6868 <== ANSWER**
- (d) 79 : 64
- (e) None of these
- (c) 30 1 2 9 % 3 % 1 3 % as compared to 2 11 % as Percentage of women out of total Population 44 45 40 55 50

19. q008888-212b5c4b ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the following table and answer the questions. Cities Population A 53000 B 49000 C 65000 D 60000 E 75000

No of females in C is what percent more or less than no of females from E?

- (a) 30.66% less
- (b) 32% more
- (c) 30.66% more
- (d) 32% less
- (e) None of the above <== ANSWER**

20. q008890-63454b61 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: There are six students A, B, C, D, E and F. The following table shows the marks given to these students from Monday to Friday in a subject. Study the following table and answer the questions given below it. Mon Tue A 175 205 B 180 285 C 165 190 D 145 210 E 110 295 F 210 145

What is percentage increase of marks taken by A from Monday to Friday? (Rounded off to two decimal points)

- (a) 107.68% <== ANSWER**
- (b) 102.86%
- (d) 68.71%
- (e) None of these
- (c) 65500 Wed Thu Fri 350 450 355 410 485 395 315 495 575 405 470 675 490 490 650 340 465 910

21. q008892-4c8335c6 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: There are six students A, B, C, D, E and F. The following table shows the marks given to these students from Monday to Friday in a subject. Study the following table and answer the questions given below it. Mon Tue A 175 205 B 180 285 C 165 190 D 145 210 E 110 295 F 210 145

If on Saturday there is an increase of 20% marks as compared to Monday and 15% marks as compared to Tuesday of B and C respectively. Then find the total marks taken by B and C on Saturday?

- (a) 453.5
- (b) 415.25 <== ANSWER**
- (c) 434.5
- (d) 433.5
- (e) None of these

22. q008894-47c4478c ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: There are six students A, B, C, D, E and F. The following table shows the marks given to these students from Monday to Friday in a subject. Study the following table and answer the questions given below it. Mon Tue A 175 205 B 180 285 C 165 190 D 145 210 E 110 295 F 210 145

Total marks taken by the students on Wednesday is approximately what percentage more/less than the total marks taken by all of the students on Monday ?

- (a) 135%
- (b) 140%
- (c) 125%
- (d) 130% <== ANSWER**
- (e) 150%

23. q008897-fe328a56 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below the table which shows the total population of children in (Lakh) who attends school in five different states and percentage of boys in these students. Table also shows the total number of school in these five states. Some values are missing in the table. You have to calculate these values if required to answer the question. Total children States who attended school West 48 Bengal UP - Orissa - Bihar - Karnataka -

By what percent number of schools in Karnataka should be decreased so that number of students per school in Karnataka becomes equal to number of students per school in West Bengal if total students who attended school in Karnataka is 25% more than total students who attend school in west Bengal.

- (a) 60%
- (b) 40%
- (d) 55% <== ANSWER**
- (e) 50%
- (c) 50Lakh 4 4 13 % 13 %

24. q008900-a7f23864 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table carefully to answer the following questions. In the given table there are five colleges in which total student and percentage of engineering students and ratio of arts and commerce students are given. There are only three types of streams in each college. Note ? some data are missing, calculate the missing data if necessary. College Total no. of Students P 1250 Q - R - S 2100 T 1440

If the ratio of boys and girls in college P for commerce student is 2 : 5 and the commerce student are 40% more than arts student. Then find the difference of boys and girls in Commerce?

- (a) 225
- (b) 275
- (d) 325 <== ANSWER**
- (e) 215
- (c) 1712 Percentage of Ratio of arts to Engineering commerce students students 28% - 25% - - 5:8 - 5:2 - -

25. q008901-7cc99331 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table carefully to answer the following questions. In the given table there are five colleges in which total student and percentage of engineering students and ratio of arts and commerce students are given. There are only three types of streams in each college. Note ? some data are missing, calculate the missing data if necessary. College Total no. of students P 1250 Q - R - S 2100 T 1440

If the total engineering student in college T is 360 and student in arts are 25% more than the student in commerce and engineering student in college S is 630. Then find ratio of arts student in college S to college T?

- (a) 2 : 3
- (b) 4 : 7 <== ANSWER**
- (c) 4 : 9
- (d) 7 : 4
- (e) 7 : 8

26. q008902-5cf29500 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table carefully to answer the following questions. In the given table there are five colleges in which total student and percentage of engineering students and ratio of arts and commerce students are given. There are only three types of streams in each college. Note ? some data are missing, calculate the missing data if necessary. College Total no. of students P 1250 Q - R - S 2100 T 1440

If Engineering students in college P is 150 less than engineering student in college Q. Then total student in college S is what percent more or less than total student in college Q?

- (a) 1%
- (b) 3%
- (c) 9% <== ANSWER**
- (d) 7%
- (e) 5%

27. q008904-c7537289 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the given table carefully to answer the following questions. In the given table there are five colleges in which total student and percentage of engineering students and ratio of arts and commerce students are given. There are only three types of streams in each college. Note ? some data are missing, calculate the missing data if necessary. College Total no. of students P 1250 Q - R - S 2100 T 1440

Suppose there is another college A in which engineering students are $\frac{2}{5}$ th of the engineering student of college P and arts student in college A is 33 3 % more than engineering student in college Q . And commerce student in college A is 25% more than commerce student of college S. Then find the total number of students in college A [Given that engineering student in college S is 700 and total student is called Q is 1260].

- (a) 1120
- (b) 1020 <== ANSWER**
- (c) 1060
- (d) 1080
- (e) 1050

28. q008906-d2b6bdd7 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the table carefully to answer the questions that follow: Table below shows the runs scored, Number of matches played, average of runs per innings, total number of 4's and 6's hit and ratio of number of fours and sixes hit by five batsman in Indian Premiere League (IPL) 2016 Note - (No batsman, remained not out in any innings) Few values are missing in table, a candidate is expected to calculate the missing values if it is required to answer the given questions. No. of Total Batsman Matches Runs played Virat Kohli - 16 David - 20 Warner AB-de- 848 - Villiers G. Gambhir - 15 S. Dhawan 570 -

What percent of runs are made by AB de Villiers by hitting fours and sixes if total fours and sixes hit by AB-de-Villiers is 60% more than that of total fours and sixes hit by G. Gambhir. (approximately)

- (a) 60%
- (b) 65%

(d) 45% <== ANSWER

(e) 55%

(c) 3642

29. q008907-8eec7055 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the table carefully to answer the questions that follow: Table below shows the runs scored, Number of matches played, average of runs per innings, total number of 4s and 6s hit and ratio of number of fours and sixes hit by five batsman in Indian Premiere League (IPL) 2016 Note - (No batsman, remained not out in any innings) Few values are missing in table, a candidate is expected to calculate the missing values if it is required to answer the given questions. No. of Total Batsman Matches Runs played Virat Kohli - 16 David - 20 Warner AB-de- 848 - Villiers G. Gambhir - 15 S. Dhawan 570 -

What is the difference in average of runs made by S. Dhawan and 4 AB de Villiers if average of AB de Villiers is 11 6 % less than average of Virat Kohli and number of innings played by G. Gambhir and S. Dhawan are equal.

CONTEXT: Given below is the graph which shows the number of people who travelled from Delhi to Bhopal by Bus A and Bus B on six different days. Bus A 400 350 300 250 200 150 100 Monday Tuesday Wednesday

The number of people who travelled by Bus B on Sunday of the same week are 20% more than those of who travelled by the same bus on Saturday. What is the ratio of the number of people who travelled on Sunday to those of who travelled on Tuesday by the same bus B.

- (a) 24 : 31 <== ANSWER**
 (b) 23 : 32
 (d) 11 : 19
 (e) 5 : 7
 (c) $0.8 \frac{1}{3} \times 5 = 5 = 0.6$ thousand Bus B Thursday Friday Saturday = 240 240 Required ratio = $310 = 24 : 31$

176. q009168-8998c2a3 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the graph which shows the number of people who travelled from Delhi to Bhopal by Bus A and Bus B on six different days. Bus A 400 350 300 250 200 150 100 Monday Tuesday Wednesday

What is the difference between average number of people who travelled by bus A on Tuesday, Wednesday and Thursday and average number of people who travelled by bus B on Wednesday, Monday and Friday. 2

- (a) 263 <== ANSWER**
 (b) 332
 (d) 663
 (e) 28 Wednesday and Thursday $270+240+210 = 720 = 240 \times 3$ Average of people travelled by bus B on Wednesday, Monday and Friday $(320+200+120) = 640 = 213 \times 3$ Required difference = $240 - 213 = 27$
 (c) $350 \frac{1}{2} \times 3 = 525$ 640 80 2 3 = 3 = 263

177. q009169-d6a075d8 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Given below is the graph which shows the number of people who travelled from Delhi to Bhopal by Bus A and Bus B on six different days. Bus A 400 350 300 250 200 150 100 Monday Tuesday Wednesday

If fare per person of Bus B is 90% of fare per person of Bus A on all days and difference between total fare of bus A and bus B on Monday is Rs. 1240 then find the total fare (in Rs.) of both buses on Friday.

- (a) 2025
 (b) 5550
(c) 4960 <== ANSWER
 (d) 5354
 (e) 3885 Then, fare per person of Bus B = $0.9 \times$ According to question $350 - 320 \times 0.9 = 1240 - 620 = 620$ Required fare = $140 \times 20 + 120 \times 18 = 2800 + 2160 = 4960$

185. q009180-93138bd1 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following line-graph and answer the following questions. The graph below shows the funds allotted to three states by the government in different years. Maharashtra Andhra Pradesh Karnataka 450 400 Fund allotted (in crore) 350 300 250 200 150 100 50 0 2001 2002 2003 2004 2005

What is the ratio of average funds allotted to Karnataka in years 2002, 2004 and 2005 to the average funds allotted to Andhra Pradesh in 2001, 2003 and 2005 ?

(a) 15:17 <== ANSWER

(b) 12:17

(c) 15:16

(d) 13:14

(e) 17:15 $150 + 350 + 250 \div 750 \div 15 \times 3 = 850 \div 17 \times 150 + 400 + 300 \div 3$

186. q009181-2fa7a847 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following line-graph and answer the following questions. The graph below shows the funds allotted to three states by the government in different years. Maharashtra Andhra Pradesh Karnataka 450 400 Fund allotted (in crore) 350 300 250 200 150 100 50 0 2001 2002 2003 2004 2005

Total funds allotted to these three states in 2002 is what percent less than the total funds allotted to the three states in 2005 ?

(a) 5%

(b) 0% <== ANSWER

(c) 4%

(d) 6%

(e) 2.5% Total funds in 2005 = $300 + 250 + 50 = 600$ crore Both are equal, Hence 0%

187. q009182-23d1fdd9 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following line-graph and answer the following questions. The graph below shows the funds allotted to three states by the government in different years. Maharashtra Andhra Pradesh Karnataka 450 400 Fund allotted (in crore) 350 300 250 200 150 100 50 0 2001 2002 2003 2004 2005

If in 2006, the funds allotted to Maharashtra, Andhra Pradesh and Karnataka increased by 10%, 20% and 40% respectively as compared to 2005, then find the average funds allotted to three states in 2006.

- (a) 200 crores
 - (b) 240 crores
 - (c) 255 crores <== ANSWER**
 - (d) 260 crores
 - (e) 235 crores
- Fund allocated to Andhra Pradesh in 2006 = $300 \times 1.2 = 360$ crore
Fund allocated to Karnataka in 2006 = $250 \times 1.4 = 350$ crore
Req. average = $\frac{55+360+350}{3} = 255$ crore

188. q009183-81114927 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following line-graph and answer the following questions. The graph below shows the funds allotted to three states by the government in different years. Maharashtra Andhra Pradesh Karnataka 450 400 Fund allotted (in crore) 350 300 250 200 150 100 50 0 2001 2002 2003 2004 2005

Funds allotted to Maharashtra in 2001, 2002 and 2003 is what percent less/more than funds allotted to Karnataka in 2003, 2004 and 2005 ?

- (a) 3.25%
 - (b) 7.25%
 - (c) 4.25%
 - (d) 6.25% <== ANSWER**
 - (e) 6%
- Fund allocated to Karnataka in 2003, 2004, 2005 = $200 + 350 + 250 = 800$
Fund allocated to Maharashtra in 2001, 2002 and 2003 = $600 + 750 + 500 = 1850$
Req. % = $\frac{1850 - 800}{800} \times 100 = 131.25\%$

189. q009184-46ab6a70 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the following line-graph and answer the following questions. The graph below shows the funds allotted to three states by the government in different years. Maharashtra Andhra Pradesh Karnataka 450 400 Fund allotted (in crore) 350 300 250 200 150 100 50 0 2001 2002 2003 2004 2005

What is the average funds (in crore) allotted to the given three states in 2002 and 2005 ?

- (a) 200 <== ANSWER**
 - (b) 300
 - (c) 400
 - (d) 250
 - (e) 210
- Funds allotted in 2002 = 200 + 350 + 250 = 800
Funds allotted in 2005 = 200 + 350 + 250 = 800
Average = $\frac{800 + 800}{2} = 800$

190. q009185-fc541cac ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: -Refer the graph and answer the following questions. Data related to the number of votes polled in two constituencies Chandani Chowk and Purani Delhi during six years. Chandani Chowk Purani Delhi 600 500 400 300 200 100 2012 2013 2014 2015 2016 2017 100

If in 2012, 9 % of total registered voters did not poll vote from purani delhi and 20% of registered voters did not poll from chandani chowk then what is the sum of total registered voters in purani Delhi & Chandani chowk in 2012.

- (a) 740 <== ANSWER**
 - (b) 820
 - (c) 6240
 - (d) 520
 - (e) 550
- Total registered voters from purani Delhi = $\frac{200}{0.2} = 1000$
Total registered voters from Chandani Chowk = $\frac{600}{0.09} = 6666.67$
Sum = $1000 + 6666.67 = 7666.67$

191. q009188-4bf4aed6 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: -Refer the graph and answer the following questions. Data related to the number of votes polled in two constituencies Chandani Chowk and Purani Delhi during six years. Chandani Chowk Purani Delhi 600 500 400 300 200 100 2012 2013 2014 2015 2016 2017 100

What is the ratio of votes Polled from chandani chowk in 2012, 2013 and 2015 together to the votes polled from purani delhi in 2014, 2015, 2017 together.

- (a) 30 : 67
 - (b) 31 : 69 <== ANSWER**
 - (d) 29 : 69
 - (e) 31 : 68
- Chandani Chowk votes: 2012 (600), 2013 (500), 2015 (400)
Purani Delhi votes: 2014 (300), 2015 (200), 2017 (100)
Ratio = $\frac{600+500+400}{300+200+100} = \frac{1500}{500} = 3:1$

The sale of watches by these two different companies in different years is given in the graph below . G-Shock 6000 5500 5000 No. of watches sold 4500 4000 3500 3000 2500 2000 1500 2012 2013

The total sales of both companies in 2015 is what percent more than the total sales of both the companies in 2013?

(a) 65%

(b) 80%

(c) 70% <== ANSWER

(d) 55%

(e) 170% Sales of both the companies in 2013 = $3000 + 2000 = 5000$ (8500 - 5000) 3500 Required % = $\frac{3500}{5000} \times 100 = 70\%$ 5000

195. q009193-8df99b0c ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the following line graph and answer the following questions given below it. There are two watch manufacturing companies G-Shock and Casio. The sale of watches by these two different companies in different years is given in the graph below . G-Shock 6000 5500 5000 No. of watches sold 4500 4000 3500 3000 2500 2000 1500 2012 2013

Find the difference between the total sales of company G-Shock from 2012 to 2014 and that of company Casio from 2013 to 2015?

(a) 7500

(b) 5500

(c) 6000

(d) 5000 <== ANSWER

(e) 6500 4000 = 8500 Total sales of casio from 2013 to 2015 = $3000 + 5500 + 5000 = 13500$ Required Difference = $13500 - 8500 = 5000$

196. q009196-00961d64 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Study the Radar graph given below and answer the following questions. No. of students passed in 2000 = 200 (same for both schools A and B) 40 30 2006 20 10 2005 The Radar graph shows the percentage increase in the number of students passing out from schools A and B with respect to the number of students passed in 2000. www.yourmahboob.wordpress.com (c) 55% 100 125 = 2000 (3500 - 2000) 1500 x 100 = 2000 x 100 = 2000 2001 2002 School B 0 School A 2003 2004

If the ratio of boys to girls (who passed) in 2000 from school A was 12 : 8 and it was the same in 2004 as well for same school, then find the percentage increase in the number of girls passing out in 2004 from school A with respect to that of 2000 from the same school?

(a) 35%

(b) 30% <== ANSWER

(d) 60%

(e) None of these 8 No. of girls in 2004 = $20 \times \frac{104-80}{80}$ Percentage % = $\frac{20}{80} \times 100 = 25\%$

(c) $96 \frac{7}{10} \times 240 = 168 \frac{1}{7} \times 168 = 24 \frac{130}{100} \times 200 = 104 \frac{24}{80} \times 100 = 30\%$

197. q009197-0a9946b7 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

If the tourist traffic from India to USA is 165000 more than that of UK then overseas tourist traffic in the age group of (40-49) years are how much (in lakh) more/less than the overseas traffic from India in the age group of (30 - 39) years?

(a) 0.725 lakh <== ANSWER

(b) 0.275 lakh

(d) 0.527 lakh

(e) 0.42 lakh 30 % ? 165000 1 % ? 5500 100% ? 550000 ? Total overseas tourist from India = 550,000 Then, $(20 - 15) = 5\%$ of 550,000 = $5 \times 5500 = 27500 = 0.275$ lakh
(c) 0.55 lakh

306. q009389-67c2f427 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: - Study the given pie charts and answer the following questions. In the first pie chart distribution of overseas tourist traffic from India to different countries is given and in the second pie chart distribution of overseas tourist traffic from India according to age wise is given. Distribution of Overseas Tourist Traffic from India Japan, 30% USA, 40% Others, UK, 20% 10%

If amongst other countries, Switzerland, accounted for 25% of the Indian tourist traffic, and it is known from official Swiss records that a total of 25 lakh Indian tourists had gone to Switzerland and during the year, then what was the volume of traffic of Indian tourists in the US?

(a) 150 lakh

(b) 125 lakh

(d) 225 lakh <== ANSWER

(e) 230 lakh ? Required No. of tourist =

(c) $3 : 8 \rightarrow 40 : 15 \rightarrow 15 + 15 = 30 = 4 : 3 \rightarrow 100 : 20 \rightarrow 500$ lakh $15 : 100 \rightarrow 500 = 75$ lakh $40 : 100 \rightarrow 500 = 200$ lakh

307. q009393-7eb65e11 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the given data carefully and answer the following questions. Given below are two pie charts which show the percentage distribution of Income of 5 firms in 2016 and in 2017. Percentage distribution for some firms is not given. You have to calculate these value if required 2017 A D 20% 28% B E 25% 7% C 20% Note: Total income of all firm in 2016 and in 2017 is in the ratio 5 : 7 Profit % = $\frac{\text{Income} - \text{Expenditure}}{\text{Income}} \times 100$ Expenditure www.yourmahboob.wordpress.com (c) 3.6 lakh 2016 A E 20% 20% D B 10% 15% C 35%

If profit percentage of A in 2016 is equal to profit percentage of C in 2017 and expenditure of A in 2016 is 20 L then what is the expenditure of C in 2017.

(a) 15 L

(b) 18 L

(d) 35 L

(e) $28 L \times 7 \times 5 - E \times 20 \rightarrow 20 = E \rightarrow 140 \times E \times 20 = -20E \rightarrow E = 28 L \times 5$

(c) 12 : 17 5x 100 7x 100 1 1 3 % 3 % 45 7x 7x 9 x 5 x 100 = 4 1 3 % 20x 5x 20x 7x 100-20 100-E = 20 E <== ANSWER

What is the average speed of car for the duration 3rd and 4th hours?

- (a) 6 km/hr
(b) 9 km/hr <== ANSWER
 (d) 12 km/hr
 (e) None of these Total time taken = $12 \div 6 = 2$ hr
 (c) 62% 3 4 5 Time (in hours) Total Distance

465. q009768-1cf69e6e ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: The graph here shows a car following a linear path. Study the graph and answer the questions that follow.

Time (in hours)	Distance (in kms.)
0	0
1	10
2	20
3	30
4	40

If the car travels another 28 kms in 4 hours after the fifth hour, then what is the ratio of average speed of car for 4th to 8th hour to that of 6th to 9th hour?

- (a) 35 : 31
(b) 42 : 31
(d) Can not determined <== ANSWER
(e) None of these But, distance covered for 6th, 7th or 8th hour individually is unknown. Hence the average speed of car for hours 4th to 8th can not be calculated. Hence we can't determine the desired ratio
(c) $\frac{3 \text{ km/hr} \times 22 + 3 \times 20 + 3 \times 28 + 4 \times 7}{4} = 7 \text{ km/hr}$

466. q009770-0984c56e ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Refer the following line graph and answer the questions based on it. The line graph shows the percentages of markup on CP and discount offered on MP of six different articles sold by a shopkeeper. Markup 70 60 50 40 30 20 10 0 A B

Selling price of article C is Rs.528 and the marked prices of articles C and E are the same. What is the average selling price of both the articles?

- (a) Rs.534.5
(b) Rs.544.5 <== ANSWER
 (d) Rs.524.5
 (e) Rs.527.5
- (c) 6 hrs 72 20 2 10.8 = 3 = 6 3 hrs. Discount C D E F Then, marked price of article E = Rs.660 Selling price of article E = $660 \times \frac{528 + 561}{1000}$ Required average = 2

467. q009772-eb610dbd ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Refer the following line graph and answer the questions based on it. The line graph shows the percentages of markup on CP and discount offered on MP of six different articles sold by a shopkeeper. Markup 70 60 50 40 30 20 10 0 A B

If the cost price of article E is double to that of article A, the marked price of article E is how much percent more than that of article A?

- (a) 50% <== ANSWER
(b) 40%
(c) 30%
(e) 45% Then, the cost price of article E = Rs.200 Marked price of article A = $100 + 60\%$ of $100 = 160$
60 Marked price of article E = $200 + 20\%$ of $200 = 240$ $(240 - 160)$ Required Percentage = $\frac{160}{240} \times 100 = 66\frac{2}{3}\%$
(c) $3 : 5$ $(100 + 60) : (100 + 50) : 600 \times \frac{4}{5} = 480$ $\frac{480}{100} \times 100 = 480\%$

468. q009776-fd19889c ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the given data carefully and answer the given question Pie chart shows percentage distribution of total quantity of milk and water in five different vessel namely A, B, C, D and E www.yoursmahboob.wordpress.com (c) E (100 - Discount%) -10 0 100 (100 -25) -100 = 20% 100 (c) Rs.184 (100 - Discount%) -100 100 Milk A E 15% 20% B D 20% 10% C 35% Total milk = 500 Lt Total Water = 250 Lt

With the intention of cheating a shopkeeper sells mixture of vessel-D showing that he is taking only 4% profit over cost price. Find his actual profit. If he professes to sell pure milk and cost price is due to milk only

- (a) 40% <== ANSWER
- (b) 30%
- (d) 35%
- (e) None of these
- (c) $2 : 1 \Rightarrow 15 : 100 = 75$ Lt $20 : 100 = 100$ $250 \times 10 = 25$ $100 : 250 \times 25 = 62.5$ $100 : 10 : 100 = 50$ Quantity of Water in D = $250 \times$ Total quantity = $50 + 12.5 = 62.5$ Let CP of 1 Lt = Rs. 10 Total cost for customer = $62.5 \times 10 = 625$ 26 SP = 6

469. q009778-17756639 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the given data carefully and answer the given question Pie chart shows percentage distribution of total quantity of milk and water in five different vessel namely A, B, C, D and E www.yoursmahboob.wordpress.com (c) E (100 - Discount%) -100 100 (100 -25) -100 = 20% 100 (c) Rs.184 (100 - Discount%) -100 100 Milk A E 15% 20% B D 20% 10% C 35% Total milk = 500 Lt To tal Water = 250 Lt

What will be the final ratio of milk and water if all the vessels are poured into the bigger vessel except from vessel C only 50% of mixture is taken out

- (a) 2 : 1
- (b) 66 : 31 <== ANSWER**
- (d) 55 : 21
- (e) None of these = $412.5 : 193.75$? 66 : 31
- (c) $27.50 = 25$ Lt. $50 \times 100 = 10 + 18.75 = 500 \times 35$ 1 45 1

470. q009779-8b8b6805 ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: Read the given data carefully and answer the given question Pie chart shows percentage distribution of total quantity of milk and water in five different vessel namely A, B, C, D and E www.yoursmahboob.wordpress.com (c) E (100 - Discount%) -100 100 (100 -25) -100 = 20% 100 (c) Rs.184 (100 - Discount%) -100 100 Milk A E 15% 20% B D 20% 10% C 35% Total milk = 500 Lt To tal Water = 250 Lt

Find profit% after selling mixture at cost price from vessel B, C and D together. If one professes to sell pure milk and cost price is due to milk only (approximately)

- (a) 54%
- (b) 60% <== ANSWER**
- (c) 63%
- (d) 58%
- (e) $62\% \times 500 = 325$ Lt. 75 Water in B, C and D together = $250 \times 100 = 187.5$ Lt. Total mixture = 512.5 Lt 187.5% profit = $325 \times 100 \div 512.5 = 57.6\% = 58\%$

CONTEXT: Study the data given below and answer the following questions. The pie charts shown below shows the distance covered by a boat moving upstream and downstream on different days of a week. And the table shows the speed of stream in km/hr. on different days of a week. Total distance covered upstream = 4800 km Saturday 10% Sunday 20% Friday 14% Monday Thursday 16% Wednesday 12% Tuesday 18% Day Monday Tuesday Wednesday Thursday Friday Saturday Sunday

The speed of boat in still water on Saturday was 21 km/hr. and 4 that on Sunday was 28 7% more than that on Saturday and if the 1 time taken by boat to travel upstream on Saturday is 2 2 times of the time taken to travel downstream on Sunday, then find the time taken by the boat to cover a distance of 125 km upstream on Saturday?

(a) 6 hrs. 45 min

(b) 2 hrs. 45 min

(c) 4 hrs. 30 min

(d) 6 hrs. 15 min <== ANSWER

(e) None of these

CONTEXT: Study the data given below and answer the following questions. The pie charts shown below shows the distance covered by a boat moving upstream and downstream on different days of a week. And the table shows the speed of stream in km/hr. on different days of a week. Total distance covered upstream = 4800 km Saturday 10% Sunday 20% Friday 14% Monday Thursday 16% Wednesday 12% Tuesday 18% Day Monday Tuesday Wednesday Thursday Friday Saturday Sunday

If the time taken by boat to travel upstream on Friday is 30 hours more than the time taken by it to travel downstream on Wednesday and the speed of boat in still water on Friday is 17 kmph, then find the upstream speed of boat on Wednesday? (speed of boat in still water is different on different days)

(a) 27 kmph

(b) 22 kmph

(c) 20 kmph <== ANSWER

(d) 25 kmph

(e) 10 kmph

496. q009815-78fd5ad ? DATA INTERPRETATION BANKERS ADDA @Aj_ebooks

CONTEXT: P, Q, R, S and T are five persons employed to complete a job A. Line graph shows the data regarding the time taken by these persons to complete the job A. Table 2 shows the actual time for which every one of them worked on the job A. 70 60 50 40 30 20 P Q 10 20 15 0 P Q Person P Q R S T Note 1: Q and S worked on the job A for ?whole number? days. Note 2: Two jobs B and C are similar to job A and require same effort as required by job A.

If P and R worked on job B with they are assisted by Q every 3rd day ,then find the time taken by both of them to complete the job B together?

(a) 13 days

(b) 22

(d) 3 days

(e) 22 days

(c) 37.5% 4 3 times their given efficiency and 1 1 6 days 2 days <== ANSWER
