1. q011009-876adfe4 ? REASONING MAINS GENIUS 08

What is the final output of the third statement of the given input?

(a) #rx% <== ANSWER

(b) #tv%

(c) #xr%

(d) #vt%

(e) None of these

2. q011010-309feaf9 ? REASONING MAINS GENIUS 08

Which of the following word determines the step 2 output of "sr8" in the given input?

(a) Sign

(b) Success

(c) Process <== ANSWER

(d) Signal

(e) None of these

3. q011011-672377a8 ? REASONING MAINS GENIUS 08

Which of the following determines the step 3 output of "kp% xq%" in the given input?

(a) Type terminal

(b) Success colour

(c) Basic solutions

(d) Colour type <== ANSWER

(e) None of these REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM CODING DECODING In
ertain code language, The consonants up to M are coded with the first four prime numbers i.e., B =
2, C = 3, and so on (After

4. q011012-6d1416d3 ? REASONING MAINS GENIUS 08

Find the code for the phrase ?SMART WORK EASY? using the given conditions?

(a) 463@4 57&# @46!

(b) 66@9# 4&92 \$@46 <== ANSWER

(c) 83!!3 72!6 943!

(d) 7242! #54@ 83!%

(e) None of these

5. q011013-b7588957 ? REASONING MAINS GENIUS 08

What will be the possible word for the code ?5&44!46!4# \$8\$926? with respect to the given conditions?

(a) CONTINUOUS ACTIVE

(b) SUBSTITUTE OBJECT

(c) PERMANENT COURSE

(d) CONSISTANT ENERGY <== ANSWER

(e) Cannot be determined REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

6. q011014-6659c880 ? REASONING MAINS GENIUS 08

How can the word ?CONTINGENT SPECIES? be coded as per the conditions?

(a) 5!42!4&46!# 6\$3\$4%6 <== ANSWER

(b) 28%76!@23! 4256@&4

(c) 5&46!42!4# 64\$3%\$6

(d) 4#64!23!4!7 34%2&@3

(e) None of the above

7. q011015-0c15ca46 ? REASONING MAINS GENIUS 08

Find the word which best suits to the code ?8863&2&28? using the given conditions.

(a) PSYCOLOGY

(b) PHENOMINA

(c) ENLIGHTED <== ANSWER

(d) SYNERGIZE

(e) Cannot be determined

8. q011017-40ca0312 ? REASONING MAINS GENIUS 08

What will be the code for the word ?ADVENTURE? with respect to the given conditions?

- (a) \$58\$46#9@
- (b) @28\$46#9\$
- (c) @58\$46#9\$

(d) \$28*46*9@ <== ANSWER

(e) None of the above REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM ANSWER INPUT & PUT

9. q011018-e4108f79 ? Q1-Q2

[has 3 image(s) - chart not rendered]

Quantity I: $9999 / 99 \times 73 + 251 = ?$ Quantity II: $\sqrt{???} / \sqrt{???} \times 45\% \text{ of } 760 = ?$ (a) Quantity I > Quantity II (b) Quantity I < Quantity II (c) Quantity I $\geq$ Quantity II (d) Quantity I $\leq$ Quantity II (e) Quantity I = Quantity II or no relation 1. 10. q011023-3c58498f ? REASONING MAINS GENIUS 18

Which of the following element is third from the right end in step III?

- (a) 25
- (b) xctgy
- (c) qbztyxp
- (d) 64 REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM <== ANSWER**
- (e) ytcjz

11. q011024-1524e90a ? REASONING MAINS GENIUS 18

What is the sum of the highest number in step III and the lowest number in step II?

- (a) 79
- (b) 82 <== ANSWER**
- (c) 67
- (d) 74
- (e) 87

12. q011025-d00b9116 ? REASONING MAINS GENIUS 18

Which of the following element is second from the left end and second from the right end respectively in step I?

- (a) 2473, tqwvGPC
- (b) aqxgb, 9442
- (c) btgxc, 3636
- (d) 9442, kcbgayj
- (e) tqwvhpd, 1824 <== ANSWER**

13. q011028-396b1a6a ? REASONING MAINS GENIUS 18

If P@J*U, then how J is related to M and how many female members are there in this family? K%G\$L, U&M, U@T%L@V

- (a) Son-in-law and Five
- (b) Father-in-law and Six
- (c) Brother-in-law and Five

(d) Son-in-law and Six <== ANSWER

(e) Father-in-law and Four

14. q011030-f8d92616 ? REASONING MAINS GENIUS 18

Which of the following correctly represents B is the brother-in-law of F?

(a) M#B*L%F@Q

(b) F@M*Q\$L%B

(c) A&B*M@Q\$F REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

(d) Both a and b

(e) Both a and c Set-02 ?A @ B? means ?B is the father of A? ?A # B? means ?A is the mother of B? ?A \$ B? means ?B is the sister of A? ?A % B? means ?A is the brother of B? ?A & B? means ?B is the wife of A? ?A * B? means ?A <== ANSWER

15. q011031-fa21d6b9 ? REASONING MAINS GENIUS 18

If all the unknown genders are female, then which of the following statement(s) is/are true?

(a) J+Q

(b) D\$?M@R REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

(c) Z@?J+K

(d) Both a and c <== ANSWER

(e) Both b and c

16. q011033-09dcbcb4 ? REASONING MAINS GENIUS 18

If M%D#?F, then how is F related to P?

(a) Niece?s husband

(b) Nephew?s son-in-law <== ANSWER

(c) Nephew?s daughter-in-law

(d) Sister?s grand-daughter

(e) Either b or c REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM ANSWER INPUT-OUTPUT

17. q011036-8302edbf ? Quadratic-Equation

I $x^2 - 3x - 18 = 0$ Required Options Are as Below II $y^2 + 11y + 18 = 0$

(a) 1,2,3 103 I $4x + 7y = 26$

(b) 2,3,1 II $8x + 14y = 12$

(c) 3,5,1

(d) 3,4,5

(e) 1,5,2 II $y^2 + 9.5y + 15 = 0$ Q. Which of the following Quadratic Equation <== ANSWER

18. q011079-92ae2921 ? TOP_50_Data_Interpretation_Quest (1)

If the total cars sold by the company A and B in the year 2017 is increased by 20 % and 25 % respectively while comparing with the previous year, then find difference between the total number of cars sold by the company A to that of B in the year 2017?

(a) 420

(b) 360 <== ANSWER

(c) 280

(d) 540

(e) None of these

19. q011179-4006c2a4 ? Quant for RRB PO Mains SET 4

CONTEXT: In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer.

I. $35x^2 - 34x - 21 = 0$ II. $63y^2 + 55y + 12 = 0$

(a) if $x \leq y$

(b) if $x < y$

(c) if $x > y$ <== ANSWER

(d) if $x \geq y$

(e) if $x = y$ or relationship between x and y can't be established

20. q011764-c9f41559 ? REASONING

CONTEXT: Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-thirds of the distance between car E and the car behind it. Distance between G and

Which of the following car is facing/moving towards West direction?

- (a) A
- (b) C
- (c) F
- (d) Cannot be determined
- (e) None of these <== ANSWER**

21. q011765-cb87cd63 ? REASONING

CONTEXT: Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-thirds of the distance between car E and the car behind it. Distance between G and

What is the shortest distance between car F and A?

- (a) More than 65 meters <== ANSWER**
- (b) 65 meters
- (c) 57 meters
- (d) 55 meters
- (e) 45 meters

22. q011766-8d7717ce ? REASONING

CONTEXT: Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-thirds of the distance between car E and the car behind it. Distance between G and

Which of the following car is to the left of F?

- (a) E
- (b) B
- (c) Both B and E
- (d) Cannot be determined <== ANSWER**
- (e) None of these

23. q011767-f226a06d ? REASONING

CONTEXT: Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-thirds of the distance between car E and the car behind it. Distance between G and

What is the direction of car E with respect to A?

- (a) North East <== ANSWER**
- (b) North West
- (c) South West
- (d) South East
- (e) None of these

24. q011768-5a916d53 ? REASONING

CONTEXT: Read the given information carefully to answer the following questions. There are seven cars viz. A, B, C, D, E, F and G on two parallel roads X and Y. Four of the given seven cars parked while rest of the three are moving along the road. The parked cars are facing either north or south direction. The roads are narrow and are to be considered as a straight line. Distance between two cars on road X is a multiple of 5, while the distance between two cars on road Y is a multiple of 3. There are three cars to the right of A. Distance between B and F is 45 meters. Distance between E and the car in front of it is two-thirds of the distance between car E and the car behind it. Distance between G and

What is the distance between car A and D?

- (a) 60 meters <== ANSWER**
- (b) 75 meters

- (c) 33 meters
- (d) 55 meters
- (e) None of these

25. q011769-d2cfd0d8 ? REASONING

CONTEXT: Study the following information carefully and answer the given questions. Seven people A, B, C, D, E, F, G participated in a race which is of a certain duration, also each of them got different ranks. The track is a linear one and is of 100m. The one who got first rank run complete 100m but rest all run different distance but less than 100m in that time. C ran 10 m more than G. Both A and B run less distance than D. One of the person covers 85m distance. The one who got II rank is only 5m behind the border line. C covers less distance than F. The difference between the distance covered by C and D is 5m. None of the given person runs 90m and nobody covers less distance than 75m. The difference

Who among the following got III rank?

- (a) D
- (b) C <== ANSWER**
- (c) F
- (d) Cannot be determined
- (e) None of these

26. q011770-5176efdb ? REASONING

CONTEXT: Study the following information carefully and answer the given questions. Seven people A, B, C, D, E, F, G participated in a race which is of a certain duration, also each of them got different ranks. The track is a linear one and is of 100m. None of the given person runs 90m and nobody covers less distance than 75m. The difference

How much distance covered by G?

- (a) 92m
- (b) 79m
- (c) 95m
- (d) 82m <== ANSWER**
- (e) None of these

29. q011774-83574742 ? REASONING

CONTEXT: Study the following information carefully to answer the given questions. Eight football players R, Q, P, O, N, M, S and T have different annual earnings viz. one million, three million and ten million. Out of these, two are females. They all live in a building having eighteen floors with top floor being numbered as 18th, second top floor is number 10th and bottom-most being numbered as 1st. Only one player lives on each floor. It is given that top floor and tenth floor is occupied by two of these players, one by each player. Each of the given eight players likes the following boxers viz. A, B, C, U and V. Two of them likes A, two likes U, two likes B and one likes C and one likes V. Q earns

R likes which of the following boxers?

- (a) A
- (b) V
- (c) C
- (d) Can't be determined <== ANSWER**
- (e) None of these

30. q011776-c8f362e3 ? REASONING

Two of them likes A, two likes U, two likes B and one likes C and one likes V. Q earns

Who amongst the given eight players stays between Q and P?

- (a) M
- (b) Q
- (c) S
- (d) None of these
- (e) No one <== ANSWER**

33. q011779-9281734c ? REASONING

CONTEXT: Read the following information carefully and answer the questions. In a family 12 members i.e. A, B, C, D, E, F, G, H, I, K, L and J are from 4 different rooms, only 3 members live in each room. Rooms are numbered as 14, 15, 16, 11. Each room is painted with different colours Red, Green, Blue, Yellow (not necessarily in same order). Each room is situated in different apartments i.e. Parsavanath, Pragati, Antariksh and Ansal (not necessarily in same order). A and G are from same room and their room is an odd numbered room. J's room colour is Green. B's and K's room colour is red. E and D, are from different rooms but they are from even numbered room. Yellow and blue are colours of even number

What is the number of B's room and name of B's apartment?

- (a) 15, Pragati
- (b) 16, Ansal

- (c) 15, Ansal
(d) 15, Parsavanath <== ANSWER
(e) None of these

34. q011780-d4ecd0ce ? REASONING

CONTEXT: Read the following information carefully and answer the questions. In a family 12 members i.e. A, B, C, D, E, F, G, H, I, K, L and J are from 4 different rooms, only 3 members live in each room. Rooms are numbered as 14, 15, 16, 11. Each room is painted with different colours Red, Green, Blue, Yellow (not necessarily in same order). Each room is situated in different apartments i.e. Parsavanath, Pragati, Antariksh and Ansal (not necessarily in same order). A and G are from same room and the ir room is an odd numbered room. J's room colour is Green. B's and K's room colour is red. E and D, are from different rooms b ut they are from even numbered room. Yellow and blue are colours of even number

What is the colour of the room which is situated in Parsavanath apartment?

- (a) Blue
(b) Yellow
(c) Red <== ANSWER
(d) Green
(e) None of these

35. q011781-7c19ed90 ? REASONING

CONTEXT: Read the following information carefully and answer the questions. Which of the following combination is not true?

- (a) A- Green-Antariksh
(b) E- Blue-Pragati
(c) C- Blue-Ansal <== ANSWER
(d) F-Yellow-Ansal
(e) J- Green- Antariksh

38. q011784-5395be0f ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- There are seven boxes i.e. A, B, C, D, E, F and G which are kept one above the other but not necessarily in the same order. They all contain different topic books i.e. Puzzle, Machine Input (MI), English, Logical, Math's, Computer, and Ranking but not necessarily in the same order. All the boxes contain different number of books. The total number of books in all the boxes is 192. No two boxes have the same number of books. Three boxes are kept between box F having an odd number of books which is a perfect cube and the box which contains computer book. Box C having 21 books kept immediately below the box having 34 books.

How many boxes are kept above the box B?

- (a) One
- (b) Four
- (c) More than four
- (d) Three
- (e) None <== ANSWER**

39. q011785-2e072829 ? REASONING

- (e) None of these

67. q011814-c5ec3f48 ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. D is not the immediate neighbour of A. H is the immediate neighbour of D. D sits second to the right of B. E sits second to the right of F, who sits second to the left of H. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direct

What is the shortest distance between point P and point S?

- (a) 12 meters
- (b) 13 meters
- (c) 14 meters <== ANSWER**
- (d) More than 16 meters
- (e) None of these

68. q011815-aaa90a8c ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. D is not the immediate neighbour of A. H is the immediate neighbour of D. D sits second to the right of B. E sits second to the right of F, who sits second to the left of H. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direct

What is the shortest distance between A and F? initial position when they all are sitting around the circular table?

- (a) 3 meters
- (b) 5 meters
- (c) 7 meters
- (d) Cannot be determined
- (e) None of these <== ANSWER**

69. q011816-387effb2 ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. D is not the immediate neighbour of A. H is the immediate neighbour of D. D sits second to the right of B. E sits second to the right of F, who sits second to the left of H. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direct

In which direction is point L with respect to the E's Initial position at the time of dinner?

- (a) South

(b) Southwest <== ANSWER

- (c) Northwest
- (d) West
- (e) None of these

70. q011817-56183761 ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. D is not the immediate neighbour of A. H is the immediate neighbour of D. D sits second to the right of B. E sits second to the right of F, who sits second to the left of H. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direction

Who among the following is sitting third to the left of C at the instant when they all are sitting around the circular table?

- (a) A
- (b) E
- (c) B
- (d) F <== ANSWER**
- (e) D

71. q011818-1eb3488e ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Eight persons i.e. A, B, C, D, E, F, G and H are sitting around a circular table while having dinner. Some of them face inside and some of them face outside the centre. Each of them is at equal distance from each other. B is sitting third to the right of A. H sits third to the right of G. C and E faces same direction. The table is arranged in such a way that two of the given eight persons are facing towards north. D and C faces opposite direction

Who among the following is sitting farthest from point M at the instant when they all were sitting around the circular table?

- (a) A <== ANSWER**
- (b) B
- (c) C
- (d) D
- (e) None of these

72. q011819-efc416f1 ? REASONING

CONTEXT: Read the following information carefully and answer the questions given below: Eight persons L, M, N, O, P, Q, R, S are working on an eight storey building where ground floor is numbered as 1 and top floor is numbered as 8. Each person works on a different floor and also ordered different snacks from the restaurant viz. Aloo tikki, Masala Vada, Noodles, Pizza, Pakoda, Pav bhaji, Sweet corn, Samosa. They also drink different varieties of drink from CCD machine viz. Tea, Coffee, Lemon Tea, and Soup. 3 persons drink tea, 2 persons drink coffee and soup each and 1 person drinks Lemon tea. There are three floors between the one who ordered Masala Vada and Q and both of them work on an odd number

Who among the following ordered Noodles?

- (a) L
- (b) S <== ANSWER**
- (c) P
- (d) R
- (e) Q

73. q011820-4700fd1a ? REASONING

CONTEXT: Read the following information carefully and answer the questions given below: Eight persons L, M, N, O, P, Q, R, S are working on an eight storey building where ground floor is numbered as 1 and top floor is numbered as 8. Each person works on a different floor and also ordered different snacks from the restaurant viz. Aloo tikki, Masala Vada, Noodles, Pizza, Pakoda, Pav bhaji, Sweet corn, Samosa. They also drink different varieties of drink from CCD machine viz. Tea, Coffee, Lemon Tea, and Soup. 3 persons drink tea, 2 persons drink coffee and soup each and 1 person drinks Lemon tea. There are three floors between the one who ordered Masala Vada and Q and both of them work on an odd number

Which of the following drink is taken with Aloo Tikki?

- (a) Lemon Tea
- (b) Tea <== ANSWER**
- (c) Either Coffee or Lemon Tea
- (d) Soup
- (e) Data inadequate

74. q011822-8fbc30bc ? REASONING

CONTEXT: Read the following information carefully and answer the questions given below: Eight persons L, M, N, O, P, Q, R, S are working on an eight storey building where ground floor is numbered as 1 and top floor is numbered as 8. Each person works on a different floor and also ordered different snacks from the restaurant viz. Aloo tikki, Masala Vada, Noodles, Pizza, Pakoda, Pav bhaji, Sweet corn, Samosa. They also drink different varieties of drink from CCD machine viz. Tea, Coffee, Lemon Tea, and Soup. 3 persons drink tea, 2 persons drink coffee and soup each and 1 person drinks Lemon tea. There are three floors in between the one who ordered Masala Vada and Q and both of them work on an odd number

On which of the following floor does O work?

- (a) 7th
- (b) 4th
- (c) 3rd
- (d) 5th <== ANSWER**
- (e) 2nd

75. q011823-2d5b169a ? REASONING

CONTEXT: Read the following information carefully and answer the questions given below: Eight persons L, M, N, O, P, Q, R, S are working on an eight storey building where ground floor is numbered as 1 and top floor is numbered as 8. Each person works on a different floor and also ordered different snacks from the restaurant viz. Aloo tikki, Masala Vada, Noodles, Pizza, Pakoda, Pav bhaji, Sweet corn, Samosa. They also drink different varieties of drink from CCD machine viz. Tea, Coffee, Lemon Tea, and Soup. 3 persons drink tea, 2 persons drink coffee and soup each and 1 person drinks Lemon tea. There are three floors in between the one who ordered Masala Vada and Q and both of them work on an odd number

How many persons live between the one who ordered Pakoda and the one who ordered Sweet corn?

- (a) Five
- (b) Six
- (c) Two
- (d) Three
- (e) None <== ANSWER**

76. q011825-e19d2652 ? REASONING

CONTEXT: Study the following information carefully and answer the question below- Six persons A, B, C, D, E and G who all belong to a family having three generations and all are sitting around two inscribed squares table such that all the persons sit at the three corners of each outer and the inner squares. Some of them face inside and some of them face outside. F is the daughter of G. Brother-in-law of G sits second to the right of B and both face opposite directions. B is the son-in-law of D and does not sit in the same square with his daughter. E is the daughter of D, and is not married to B. There is only one vacant seat in each square. The vacant seats are not in front of each other. No one sits

How many persons face inside?

- (a) One
- (b) Three
- (c) Two
- (d) Four
- (e) Can't be determined <== ANSWER**

77. q011826-4aa5d47b ? REASONING

CONTEXT: Study the following information carefully and answer the question below- Six persons A, B, C, D, E and G who all belong to a family having three generations and all are sitting around two inscribed squares table such that all the persons sit at the three corners of each outer and the inner squares. Some of them face inside and some of them face outside. F is the daughter of G. Brother-in-law of G sits second to the right of B and both face opposite directions. B is the son-in-law of D and does not sit in the same square with his daughter. E is the daughter of D, and is not married to B. There is only one vacant seat in each square. The vacant seats are not in front of each other. No one sits

How is G related to D?

- (a) Son-in-law
- (b) Son
- (c) Daughter-in-law
- (d) Daughter <== ANSWER**
- (e) None of these

78. q011827-05be786a ? REASONING

[has 1 image(s) - chart not rendered]

What does the code ?bp? stand for in the given code language? Statement I: In the language, ?black white red? is coded as ?df dc or? and ?green blue grey? is coded as ?st hn wo? Statement II: In the language, ?blue pink brown? is coded as ?er bp hn? and ?pink blue white? is coded as ?hn or bp? Statement III: In the language, ?green violet orange? is coded as ?pa wo kl? and ?yellow pink brown? is coded as ?bp bi er?

- (a) Both II and III
- (b) I and either II or III
- (c) II and either I or III

(d) Both I and III <== ANSWER

(e) All I, II and III Explanation (The Approach): 1. (c); From all the statements 2. (c); From I and II, we get- ?hn? stands for ?Blue? So, The code ?bp? stands for-Pink From II and III, we get- The code ?bp? stands for-Pin

88. q011877-21944792 ? REASONING

CONTEXT: Each of the questions below consists of three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Five persons P, Q, R, S and T are standing in a row facing north in increasing order of their heights from left to right. That means the shortest one stands at the leftmost end while the tallest one stands at the rightmost end. Who among the following is the fourth tallest? I. Q and S are shorter than R. S height is 172 cm. Only two persons are standing to the right of S. II. Q's height is 178 cm. T is not an immediate neighbour of R. III. Q is an immediate neighbour of T and S. More than two persons are standing to the left of P.

- (a) Statement (I) and Statement (II) together are sufficient
- (b) Statement (II) and Statement (III) together are sufficient
- (c) Statement (I) and Statement (III) together are sufficient <== ANSWER**
- (d) All the statement (I), statement (II) and statement (III) together are sufficient
- (e) Either two of the given statements are sufficient. 15

Which of the following can be coded as ?L*A??

- (a) Jaxes
- (b) Zumbo <== ANSWER
- (c) Judge
- (d) April
- (e) None of these

105. q011908-d2cbe95b ? REASONING

CONTEXT: These questions are based on the following informations. In a certain code: ?severe cash crunch again? is coded as ?M *Z S@X V#H S#X?. ?Finance Ministry has emphasis? is coded as ?B\$N H&S H\$V V?U?. ?Reserve Bank India has claimed? is coded as ? Z*R V?I H&S W?X P@Y?.

What could be the code for ?Court has judges??

- (a) G*X H\$S Q#H
- (b) G*X H\$S H#Q
- (c) G@X H\$S H#Q
- (d) G*X H\$S H@Q
- (e) G*X H&S H#Q <== ANSWER

106. q011909-6e2e63fd ? REASONING

CONTEXT: Study the following information and answer the given questions: In alphabetical series each consonant is assigned a different number from 1-7 (for ex- B is coded as 1, C-2.....J-7)and again those numbers get repeated(for ex- K-1, L-2.....so on). Besides the above information, following operations are to be applied for coding the words given in the questions below. Each letters of the given questions will be coded as per the given conditions: I. Vowels appearing before ?M? in the Alphabetical series will be coded as ?*?. II. Vowels appearing after ?M? in the alphabetical series will be coded as ?\$\$. III. Number immediately preceded by vowel will be coded as ?#1?. IV. Number immediately follow

What will possibly be the code for ?NORMAL??

- (a) ?#1\$\$@##2**@#
- (b) ?#1\$\$@##1**@# <== ANSWER
- (c) ?#3\$\$@##1**@#
- (d) ?#1\$#@##1**@#
- (e) None of these

107. q011910-256c9c97 ? REASONING

What is the code for 'peer loom'?

- (a) 15CO 18BC
- (b) 15BO 18BV <== ANSWER**
- (c) 15BO 18CV
- (d) 18CO 15BV
- (e) None of these

116. q012019-80d05ec6 ? REASONING

CONTEXT: Study the following information carefully and answer the questions given below. Six persons i.e. A, B, C, D, E and F are sitting in an open ground such that they are at certain distance with their immediate neighbours. F sits 4m northeast direction to B. B is in the east of E, who is 4m in the east of person A. C is 4m in the north of E. The distance between B and E is same as the distance between D and A. D is 3m south of A.

What is the shortest distance between B and A?

- (a) 6m
- (b) 7m <== ANSWER**
- (c) 4m
- (d) 3m
- (e) None of these

117. q012020-98f6c752 ? REASONING

CONTEXT: Study the following information carefully and answer the questions given below: A man was initially walking along the diagonal of a rectangular playground such that the longer side was in horizontal axis and the shorter on the vertical axis. He walked only along the perimeter of the rectangle, diagonal or along the median of the rectangle. He started from the midpoint of the ground towards southwest and walked 6.5km, then took a turn and walked for 6km along the perimeter and 2.5 km along the median to reach the 11 Adda247 Publications. For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams starting point. He then turn towards right

In which direction is he finally walking?

- (a) North <== ANSWER**
- (b) South
- (c) Northeast
- (d) Southeast
- (e) None of these

118. q012021-75965a72 ? REASONING

CONTEXT: Study the following information carefully and answer the questions given below: A man was initially walking along the diagonal of a rectangular playground such that the longer side was in horizontal axis and the shorter on the vertical axis. He walked only along the perimeter of the rectangle, diagonal or along the median of the rectangle. He started from the midpoint of the ground towards southwest and walked 6.5km, then took a turn and walked for 6km along the perimeter and 2.5 km along the median to reach the 11 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams starting point. He then turn towards right

What is the total length of the shorter side of the rectangle?

- (a) 10km
- (b) 4km
- (c) 8km
- (d) 5km <== ANSWER**
- (e) None of these

119. q012022-599a45d6 ? REASONING

CONTEXT: Study the following information carefully and answer the questions given below: A man was initially walking along the diagonal of a rectangular playground such that the longer side was in horizontal axis and the shorter on the vertical axis. He walked only along the perimeter of the rectangle, diagonal or along the median of the rectangle. He then turn towards right

In which direction is A is in with respect to its starting position?

- (a) Southeast
- (b) South
- (c) Northeast <== ANSWER**
- (d) Southwest
- (e) None of these

120. q012023-7894cf76 ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Point F is to the north of E. Point A is to the west of B. Point B is to the south of point C. Point F is to the north east of point C which is in-line with point E. Point D is exactly in between point C and E. Point J is to the north of point D. Point K is 5m away from point J and is exactly horizontally in line with point J. Point B is 8m in the south of Point K. The distance between point F and E is 4m.

If the distance between point K and F is 8m and both points are inline, then what will the shortest distance between point J and E?

- (a) 6 m
- (b) 5 m <== ANSWER**
- (c) 7 m
- (d) 8 m
- (e) None of these

121. q012024-95e5bd03 ? REASONING

CONTEXT: Study the following information carefully and answer the question given below- Point F is to the north of E. Point A is to the west of B. Point B is to the south of point C. Point F is to the north east of point C which is in-line with point E. Point D is exactly in between point C and E. Point J is to the north of point D. Point K is 5m away from point J and is exactly horizontally in line with point J. Point B is 8m in the south of Point K. The distance between point F and E is 4m.

Point F is in which direction from point A?

- (a) North East <== ANSWER**
- (b) North West
- (c) South West
- (d) South East
- (e) None of these 12

122. q012025-0c8d39f3 ? REASONING

CONTEXT: Study the following information carefully and answer the question below- Point A is 5km in north of point B. Point B is 6km in west point C. Point C is exactly between point E and F. Point E is horizontally inline with point A. Point F is as far as from point D (horizontally inline) as Point A from point E. Point D is vertically not inline with point B.

If point G is 6km east of point E then point G is how far and in which direction from point D?

- (a) 6km, North
- (b) 5km, North-east
- (c) 10km, North <== ANSWER**
- (d) 14km, South
- (e) None of these

123. q012026-001de92d ? REASONING

CONTEXT: Study the following information carefully and answer the question below- Point A is 5km in north of point B. Point B is 6km in west point C. Point C is exactly between point E and F. Point E is horizontally inline with point A. Point F is as far as from point D (horizontally inline) as Point A from point E. Point D is vertically not inline with point B.

Point A is in which direction from point F?

- (a) North
- (b) South
- (c) northwest <== ANSWER**
- (d) Southeast
- (e) None of these

124. q012027-46a059b7 ? REASONING

CONTEXT: Study the following information carefully and answer the question below- Point A is 5km in north of point B. Point B is 6km in west point C. Point C is exactly between point E and F. Point E is horizontally inline with point A. Point F is as far as from point D (horizontally inline) as Point A from point E. Point D is vertically not inline with point B.

How far is point E from point B?

- (a) 6 km
- (b) $\sqrt{87}$ km
- (c) $\sqrt{61}$ km <== ANSWER**
- (d) 8 km
- (e) None of these

125. q012028-e67f525e ? REASONING

CONTEXT: Read the following information carefully and answer the questions that follows: Six persons i.e. A, B, D, E, G and H are standing in a ground at seven different points. (i) B is standing 3m to the west of A. (ii) E is standing 7m west of person D who is standing 3m east of G. (iii) H is standing 4m south of D. (iv) A is standing in 5m south east direction of point E.

What is the shortest distance between G and H?

- (a) 4m
- (b) 5m <== ANSWER**
- (c) 2m
- (d) 3m
- (e) Cannot be determined

126. q012029-4b42882a ? REASONING

CONTEXT: Read the following information carefully and answer the questions that follows: Six persons i.e. A, B, D, E, G and H are standing in a ground at seven different points. (i) B is standing 3m to the west of A. (ii) E is standing 7m west of person D who is standing 3m east of G. (iii) H is standing 4m south of D. (iv) A is standing in 5m south east direction of point E.

How many persons are standing in the south west direction of G if E is perpendicular to B?

- (a) Three
- (b) More than three
- (c) Two <== ANSWER**
- (d) None of these
- (e) Cannot be determined

127. q012030-82d30abb ? REASONING

CONTEXT: Read the following information carefully and answer the questions that follows: Six persons i.e. A, B, D, E, G and H are standing in a ground at seven different points. (i) B is standing 3m to the west of A. (ii) E is standing 7m west of person D who is standing 3m east of G. (iii) H is standing 4m south of D. (iv) A is standing in 5m south east direction of point E.

How many Persons are standing to the west of G?

- (a) None
- (b) Two
- (c) Four
- (d) Three
- (e) None of these <== ANSWER**

128. q012031-4565aa25 ? REASONING

CONTEXT: Read the following information carefully to answer the questions that follow. The questions are based on following coding formats: P1Q means - P is in North of Q P2Q - P is in South of Q P3Q - P is in East of Q P4Q - P is in West of Q @ means - Either 2 or 7 m # - Either 5 or 10 m & - Either 8 or 13 m Conditions given are as: I. A @1 B II. A &3 D III. F #3 E IV. G @4 F V. E #1 D

What could be the shortest distance between E and B considering the smallest among the given two possible distances?

- (a) $\sqrt{113}$ <== ANSWER**
- (b) $\sqrt{111}$

- (c) sqrt115
- (d) sqrt117
- (e) none of these

129. q012032-89f2b469 ? REASONING

CONTEXT: Read the following information carefully to answer the questions that follow. The questions are based on following coding formats: P1Q means - P is in North of Q P2Q - P is in South of Q P3Q - P is in East of Q P4Q - P is in West of Q @ means - Either 2 or 7 m # - Either 5 or 10 m & - Either 8 or 13 m Conditions given are as: I. A @1 B II. A &3 D III. F #3 E IV. G @4 F V. E #1 D

In which direction is point G with respect to D?

- (a) south west
- (b) north west
- (c) north
- (d) north east
- (e) can't be determined <== ANSWER**

130. q012033-c36208c7 ? REASONING

CONTEXT: Following questions are based on the information given below. Ajay start driving from his house to his friend Jeet's house. He start driving in the west direction from his house by a car. After going 15m he takes a right turn from point N and continue driving for 20m and reaches the point 14 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams P. From point P he takes a right turn and after driving 30m, reaches the point Q. from point Q he takes a left turn and continue moving 20 m to reach Jeet's house. In the way Ajay stop a Shop at point O which is exactly between P and Q.

Find the shortest distance between jeet's house and point O?

- (a) 35m
- (b) 30m
- (c) 25m <== ANSWER**
- (d) 10sqrt13
- (e) None of these

131. q012034-2beecf0 ? REASONING

CONTEXT: Following questions are based on the information given below. Ajay start driving from his house to his friend Jeet's house. He start driving in the west direction from his house by a car. After going 15m he takes a right turn from point N and continue driving for 20m and reaches the point 14 Adda247 Publications For any detail, mail us at Publications@adda247.com Cracker Book for Bank (IBPS | SBI | RRB PO | Clerk) Mains Exams P. From point P he takes a right turn and after driving 30m, reaches the point Q. from point Q he takes a left turn and continue moving 20 m to reach Jeet's house. In the way Ajay stop a Shop at point O which is exactly between P and Q.

Jeet's house is in which direction from Ajay's house?

- (a) North
- (b) North East <== ANSWER**
- (c) North West
- (d) South West
- (e) South

132. q012035-f2c51934 ? REASONING

CONTEXT: These questions are based on the information given below: Eight persons A, B, C, D, E, F, G and H are standing in such a way that C is 20 m apart from B towards West, B is 30 m South with respect to A. A is 40 m towards West with respect to E. D is 50 m towards South with respect to E. F is 15 m apart from G towards North. H is 20 m towards East with respect to G. F is 40 m towards West with respect to D.

In which direction is B standing with respect to F?

- (a) North-West
- (b) North <== ANSWER**
- (c) North-East
- (d) Cannot be determined
- (e) None of these

133. q012036-c393cb1c ? REASONING

CONTEXT: These questions are based on the information given below: Eight persons A, B, C, D, E, F, G and H are standing in such a way that C is 20 m apart from B towards West, B is 30 m South with respect to A. A is 40 m towards West with respect to E. D is 50 m towards South with respect to E. F is 15 m apart from G towards North. H is 20 m towards East with respect to G. F is 40 m towards West with respect to D.

If one more person I is standing towards South-West with respect to D, then in which direction is H, standing with respect to I?

- (a) South-West

- (b) North-East
- (c) North-West
- (d) Cannot be determined <== ANSWER**
- (e) None of these 15

134. q012037-ee5b83f5 ? REASONING

CONTEXT: These questions are based on the information given below: Eight persons A, B, C, D, E, F, G and H are standing in such a way that C is 20 m apart from B towards West, B is 30 m South with respect to A. A is 40 m towards West with respect to E. D is 50 m towards South with respect to E. F is 15 m apart from G towards North. H is 20 m towards East with respect to G. F is 40 m towards West with respect to D.

What is the direction of C with respect to H?

- (a) North-West <== ANSWER**
- (b) North
- (c) West
- (d) Cannot be determined
- (e) None of these

135. q012038-1bebb2f6 ? REASONING

Mohan starts walking in the west direction and walks for 8 km, then he takes a right turn and walks for 5 km again he takes a right turn and walks for 2.5 km and at last he takes a right turn walks for 5 km, then in which direction and at what distance is Mohan from his initial position?

- (a) 5 km west
- (b) 5.5 km East
- (c) 5 Km East
- (d) None of these
- (e) 5.5 km west <== ANSWER**

136. q012039-282b6248 ? REASONING

CONTEXT: Two friends Silva and Jones started walking from two different points. Silva, who started from point A moved along a circular track and after walking 11km he reached point B, from where he turned left and walked 5km to reach point C after which he stopped. Jones started from point F and after walking 5km, he reached point E. From point E he turned 45 degree towards his left and walked $\sqrt{8}$ km to reach point D. After reaching point D, he turned 45 degrees in clockwise direction. Then, he moved ahead 5km to reach point C which is towards the west of point D. Point B, C and D are in straight line.

[has 19 image(s) - chart not rendered]

In which direction was Silva facing at instant he travelled three-fourth of his total journey?

- (a) East <== ANSWER**
- (b) West
- (c) North East
- (d) South East
- (e) Cannot be determined

CONTEXT: Study the following information carefully and answer the questions given below: Nine persons lives on different floor in thirteen story building. The bottommost floor is numbered as 1 and so on till the topmost floor is numbered as 13. Four floors are vacant. A lives on prime numbered floor above floor 5. Four floors gap between A and G. One floor gap between G and H. H lives above G. Five floors gap between H and C. C lives below H. D lives on even numbered floor. Number of floors above D is same as the numbers of floors between J and B. E lives on even number floor just above B. No vacant floor between C and B. F lives two floors above D.

How many persons live above E?

- (a) Four
- (b) Five
- (c) Three
- (d) Six <== ANSWER**
- (e) More than six

169. q012303-04b4c3d1 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Study the following information carefully and answer the questions given below: Nine persons lives on different floor in thirteen story building. The bottommost floor is numbered as 1 and so on till the topmost floor is numbered as 13. Four floors are vacant. A lives on prime numbered floor above floor 5. Four floors gap between A and G. How many words are starts with vowel in step IV?

- (a) Two
- (b) Three
- (c) Four
- (d) Six
- (e) Seven <== ANSWER**

177. q012311-36011250 ? SBI-Clerk-Mains-Memory-Based-2023-2024

If in the given word ?DANGEROUS?, if all the vowels replaced by its just next letter and all the consonants replaced by its just previous letter then remove all the repeated letter. After that how many letters between 6th letter from the left and 4th letter from the right according to the alphabetical order?

- (a) 7
- (b) 4 <== ANSWER**
- (c) 2
- (d) 1
- (e) 3

178. q012312-77138bfc ? SBI-Clerk-Mains-Memory-Based-2023-2024

District Magistrate of City X gave hard hitting remarks at meeting with all the Pradhan ?One vill age in district is spreading violence in the region?. The growing forces of violence pose a fundamental challenge. We will not tolerate violence in city. Strict action will be taken for the culprits. Which of the following statement can be inferred from above sentence? (I) Law and order of India is not under control. (II) The district which is indicated by DM will take strong action against violence. (III) DM of city X is too much concern about violent activity and cannot tolerate it.

- (a) Only I
- (b) Only III <== ANSWER**
- (c) II and III
- (d) Only I and III
- (e) None of these

179. q012313-23733090 ? SBI-Clerk-Mains-Memory-Based-2023-2024

Statement: Fair glow in one week otherwise money will be returned. This is Ayurveda cream and there is no side effect-Use ?X? brand cream. -An advertisement in the newspaper A. Which of the following statement can be assumed from the above sentence? I. Normally people like Ayurveda cream. II. Very few people read advertisement in a newspaper. III. Very few people read the newspaper A.

- (a) None is implicit
- (b) Only I and II are implicit
- (c) Only I, and either II or III are implicit
- (d) All are implicit
- (e) None of the above <== ANSWER**

180. q012314-91316465 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Each of the questions below, consist a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the statements and give answer.

Six boxes are placed one above the other. How many boxes are placed below B? I. E is placed three boxes above D. B is placed just above F. One box is placed between D and C. II. Three boxes are placed between A and E. C is placed just below A. Two boxes are placed between C and F. B is placed above D.

- (a) Only I is sufficient
- (b) Both I and II together are sufficient
- (c) Either I or II is sufficient
- (d) Only II is sufficient <== ANSWER**
- (e) Both I and II, even together are not sufficient

181. q012315-85f0bf88 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Each of the questions below, consist a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the statements and give answer.

Six persons have different weights to each other. Who among all is 2nd heaviest? I. B is heavier than A but lighter than C. Only two persons are lighter than A. D is heavier than F but lighter than E. B is heavier than E. II. Only two persons are heavier than C. D is lighter than C but heavier than A. F is lighter than C and B who is not the heaviest. F is heavier than D but lighter than E.

- (a) Only I is sufficient
- (b) Both I and II together are sufficient
- (c) Either I or II is sufficient <== ANSWER**
- (d) Only II is sufficient
- (e) Both I and II, even together are not sufficient

182. q012316-5178d909 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Each of the questions below, consist a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the statements and give answer.

Six persons visit a city in different months i.e., January, February, March, April, May and June. Who among all visits in March? I. M visits in the month having 30 days. Two persons visit between M and B. The number of persons visit before B is same as the number of persons visit after G. II. Two persons visit between D and N. N visits on one of the months after D. G visits just before N. E visits three months before G but not in February.

- (a) Only I is sufficient
- (b) Both I and II together are sufficient <== ANSWER**
- (c) Either I or II is sufficient
- (d) Only II is sufficient
- (e) Both I and II, even together are not sufficient

183. q012317-be4ad86c ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Study the following information carefully and answer the questions given below: Four persons A, B, C and D walk to their home from junction in different directions. A goes 7m in the north to reach at point P. He turns his right and goes 11m to reach at point R. Now he turns his left and goes 14m to reach at point S. After that he turns his right and goes 20m to reach at point Q. Finally, he takes his right and goes 18m to reach his home. B goes 9m north to reach at point M. Now he takes his left and goes 26m to reach at point T. After that he takes two consecutive right and goes 9m and 15m to reach at point O and point N respectively. Finally, he takes his left and goes 8m to reach his home.

Who ends up farthest from the starting junction?

- (a) A
- (b) B
- (c) C
- (d) D <== ANSWER**
- (e) Cannot be determined

184. q012318-e41a08f3 ? SBI-Clerk-Mains-Memory-Based-2023-2024

214. q012348-60821a9a ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Read the following passage and answer the given questions based on it. In a world dominated by digital advancements, Rohan, a seasoned software engineer with thirty years of experience, decided to embark on a transformative journey. Eager to contribute to his family's legacy, he embarked on an agricultural journey alongside his brother. Together, they chose to cultivate millets, a crop that thrived in the village's climate and offered resistance to pests, aligning perfectly with their aspirations for sustainable farming. The village's reliance on age-old farming tools and techniques posed a challenge for maximizing millet production. Recognizing the potential for modern technology to enhance

Which of the following statement is CORRECT?

- (a) Rohan initiated his agricultural venture with assistance from his father
- (b) The choice to cultivate millets was driven by their higher market prices for farmers
- (c) Millets exhibit resistance to pests <== ANSWER**
- (d) Engaging in millet cultivation resulted in significant financial losses for the village's farmers
- (e) None of the above statements are correct

215. q012349-b8fe5882 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Read the following passage and answer the given questions based on it. In a world dominated by digital advancements, Rohan, a seasoned software engineer with thirty years of experience, decided to embark on a transformative journey. Eager to contribute to his family's legacy, he embarked on an agricultural journey alongside his brother. Together, they chose to cultivate millets, a crop that thrived in the village's climate and offered resistance to pests, aligning perfectly with their aspirations for sustainable farming. The village's reliance on age-old farming tools and techniques posed a challenge for maximizing millet production. Recognizing the potential for modern technology to enhance

What was the primary challenge Rohan faced when he began his agricultural venture in the village?

- (a) A lack of interest from the village community in adopting new farming methods
- (b) The village's reliance on age-old farming tools and techniques that limited farming practices** <== ANSWER
- (c) Difficulty in finding a suitable crop that could thrive in the local climate
- (d) Resistance from local middlemen who were threatened by his innovative approaches
- (e) The high cost of importing modern agricultural technology to the village

221. q012355-5147c008 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Read the following passage and answer the given questions. Germany's economic vigor is surmised to have attenuated by 0.3% in the annum 2023, aligning with autumnal prognostications. An erosion in purchasing power egregiously impinged upon private consumer expenditures. Escalated expenditures pertinent to construction and borrowing, compounded by a paucity of labor and pronounced energy costs, have effectively hamstrung investments in the construction ambit and industries characterized by prodigious energy consumption. Indices reflecting economic sentiment have remained in a state of torpor, with certain gauges in January descending to their lowest ebb since the COVID-19 pandemic's advent, s

What factors are primarily responsible for the projected attenuation of Germany's economic growth in 2023? (I) A reduction in consumer purchasing power due to economic conditions. (II) Increased costs associated with construction and borrowing activities. (III) Persistent labor shortages and elevated energy prices impacting industrial and construction investments.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)** <== ANSWER

What does the following sentence mean in the context of the passage? ?More austere fiscal policies are poised to cast a pall over the near-term growth outlook.?

- (a) Stricter budgetary measures are expected to improve economic growth prospects shortly
(b) The implementation of more rigid fiscal policies is likely to brighten the economic outlook in the near future
(c) Tighter government spending and taxation policies are anticipated to dampen economic growth in the short term <== ANSWER
(d) Increased public investment and spending, as part of austere policies, will enhance the economic growth outlook
(e) Fiscal austerity measures will have no significant impact on the economic growth forecasts

227. q012361-ccf27054 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Read the following passage and answer the given questions. Germany's economic vigor is surmised to have attenuated by 0.3% in the annum 2023, aligning with autumnal prognostications. An erosion in purchasing power egregiously impinged upon private consumer expenditures. Escalated expenditures pertinent to construction and borrowing, compounded by a paucity of labor and pronounced energy costs, have effectively hamstrung investments in the construction ambit and industries characterized by prodigious energy consumption. Indices reflecting economic sentiment have remained in a state of torpor, with certain gauges in January descending to their lowest ebb since the COVID-19 pandemic's advent, s

What does the phrase ?squaring the circle? mean?

- (a) Finding a simple solution to a complex problem
- (b) Making significant progress in a short amount of time
- (c) Achieving something that is seemingly impossible or very difficult <== ANSWER**
- (d) Balancing economic growth with environmental sustainability
- (e) Increasing productivity without additional resources

228. q012362-85d669e0 ? SBI-Clerk-Mains-Memory-Based-2023-2024

On a chilly afternoon, Ratul was toiling away in his office when a cold breeze wafted through the open window, prompting him to close it to maintain a cozy environment. Despite feeling somewhat lethargic that day, his spirits were unexpectedly lifted by a sudden phone call. The caller delivered the exhilarating news that Ratul had been shortlisted for the best performance award for his outstanding work on a recent project. Overwhelmed with happiness, Ratul found himself at a loss for words, unable to articulate the immense joy and surprise he felt at this unexpected recognition. What the following word can most suitably express the feeling of Ratul?

- (a) Ecstatic <== ANSWER**
- (b) Despondent
- (c) Bewildered
- (d) Insouciant
- (e) Apathetic

229. q012366-21150911 ? SBI-Clerk-Mains-Memory-Based-2023-2024

In the following question, three sentences are given, each containing a highlighted word. Among the provided alternatives, select the word that serves as the most suitable antonym for the highlighted words.

- (a) To pacify the crying child, her mother gently rocked her in her arms, humming a soft lullaby
- (b) The lavish buffet spread was more than enough to satiate the guests' hunger, leaving them content and full
- (c) After a long hike on a hot summer day, the icy cold water from the mountain stream quenched their thirst perfectly <== ANSWER**
- (d) blandish
- (e) console

230. q012367-551b2f28 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In each question, one word is given in bold and correspondence to that, three sentences are given each containing that word. Choose the option depicts the sentence(s) that have/ has the correct usage of the word.

RIGHT (I) Despite the intricate calculations, he decided to right his thesis on the quantum theory's implications on temporal paradoxes. (II) She exercised her right to vote, believing in the importance of contributing to the democratic process. (III) He turned right at the corner, following the directions to reach the new bookstore downtown.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (I) and (II)
- (e) Both (II) and (III) <== ANSWER**

231. q012368-45c8fbb3 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In each question, one word is given in bold and correspondence to that, three sentences are given each containing that word. Choose the option depicts the sentence(s) that have/ has the correct usage of the word.

QUERY (I) Upon encountering an error in the report, she sent a query to the IT department seeking clarification and assistance. (II) After reviewing the database, he formulated a complex SQL query to extract the specific information needed for the upcoming project presentation. (III) She submitted a query to the customer service team, hoping for a quick resolution to her issue with the online order.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) All are correct <== ANSWER**
- (e) Both (I) and (III)

232. q012369-d2365366 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In each question, one word is given in bold and correspondence to that, three sentences are given each containing that word. Choose the option depicts the sentence(s) that have/ has the correct usage of the word.

RELIANT (I) As technology advances, society becomes increasingly reliant on digital tools for daily tasks and communication. (II) He was reliant to believe that the weather would improve, despite the forecast predicting rain all week. (III) The remote village, reliant on solar panels for electricity, showcased the potential of sustainable energy in off-grid communities.

- (a) Only (I)
- (b) Both (I) and (III) <== ANSWER**
- (c) Only (III)
- (d) All are correct
- (e) Only (II)

233. q012370-6f56aaf2 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the questions given below, a sentence is given where the word has been emboldened. Below the sentence three words are given. Following the words, five options are given. Select the best alternatives for the bold word from the given options.

Given the dark clouds gathering in the sky, it's likely that we'll see rain before the afternoon is over. (I) scarcely (II) probably (III) conceivably

- (a) Only (I)
- (b) Both (II) and (III) <== ANSWER**
- (c) Only (III)
- (d) Both (I) and (III)
- (e) Both (I) and (II)

234. q012371-e0f10d72 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the questions given below, a sentence is given where the word has been emboldened. Below the sentence three words are given. Following the words, five options are given. Select the best alternatives for the bold word from the given options.

He enjoyed the movie, though he had already read the book and knew the ending. (I) however (II) hence (III) nevertheless

- (a) Only (I)
- (b) Both (II) and (III)
- (c) Only (III)
- (d) Both (I) and (III) <== ANSWER**
- (e) Both (I) and (II)

235. q012372-c15be4de ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the following questions, four sentences are provided and you are required to evaluate the grammatical correctness of each statement and select the corresponding option that accurately represents your evaluation.

(I) Despite the heavy rain, the event proceeded as planned, and many attendees appreciated the dedication shown. (II) Everyone in the classroom were eagerly waiting for the announcement that the school year was finally over. (III) The committee decided that the proposal, while innovative, did not align with the organization's current priorities. (IV) Having lost the game, the team's spirits were low, but its coach's encouraging words lifted their mood significantly.

- (a) Only (I) is correct
- (b) Both (III) and (IV) are incorrect
- (c) Both (II) and (IV) are incorrect <== ANSWER**
- (d) Both (I) and (IV) are correct
- (e) All (I), (II), (III) and (IV) are correct

236. q012373-dbc8c80f ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the following questions, four sentences are provided and you are required to evaluate the grammatical correctness of each statement and select the corresponding option that accurately represents your evaluation.

(I) As the deadline approaches, the team worked tirelessly to ensure the project's completion on time, despite facing numerous challenges. (II) The recent study reveals that, despite common belief, eating chocolate in moderation can have benefits for heart health. (III) Each of the participants have their own unique perspective, which they will share during the discussion panel next week. (IV) The novel's intricate plot, combined with the author's attention to detail, makes it a compelling read for enthusiasts of the genre.

- (a) Only (I) is incorrect
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct <== ANSWER**
- (d) Both (I) and (III) are correct

(e) All (I), (II), (III) and (IV) are correct

237. q012374-a575f6c3 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the following questions, four sentences are provided and you are required to evaluate the grammatical correctness of each statement and select the corresponding option that accurately represents your evaluation.

(I) In an effort to reduce waste, the city council announced that it will be implementing a new recycling program next month. (II) The teacher, along with her students, are planning a field trip to the museum to enhance their understanding of history. (III) Not only does the new policy aim to increase efficiency, but it also seeks to improve the overall customer experience. (IV) Despite his initial reservations, he found that the course offered valuable insights over the subject, exceeding his expectations.

- (a) Only (III) is incorrect
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct
- (d) Both (I) and (III) are correct <== ANSWER**
- (e) All (I), (II), (III) and (IV) are correct

238. q012375-af7c90f7 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: In the following questions, four sentences are provided and you are required to evaluate the grammatical correctness of each statement and select the corresponding option that accurately represents your evaluation.

(I) The research team was surprised to find that their results contradicted previous studies, leading them to further investigate the anomaly. (II) Among the many challenges faced by the committee was finding a consensus on the proposed budget, which proved to be more difficult than anticipated. (III) The number of participants attending the conference exceeded the organizers' expectations, which necessitated additional preparations. (IV) Following the seminar, feedback from attendees were overwhelmingly positive, indicating the event's success in meeting its objectives.

- (a) Both (III) and (IV) are incorrect <== ANSWER**
- (b) Both (I) and (IV) are incorrect
- (c) Both (II) and (IV) are correct
- (d) Both (I) and (III) are correct
- (e) All (I), (II), (III) and (IV) are correct

239. q012376-083ab343 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

[has 1 image(s) - chart not rendered]

On Monday, the ratio of males to females visiting the mall was 2:3. If the number of females visiting the mall increased by 25% and the total number of people visiting on Monday remained the same, then the number of males after females is increased are what percentage of total people visited the mall on Tuesday.

- (a) 32.5%
- (b) 16.67%
- (c) 8.33%
- (d) 33.33% <== ANSWER**
- (e) 65%

240. q012377-1d7c8fc5 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

[has 1 image(s) - chart not rendered]

On Wednesday, 30 people watch movie and remaining went to food court in the mall. If females went to food court is equal to total people went to the movie and total male went to food court is 12 more than that of total male went to the movie, then find the ratio of total females went to movie on Wednesday to total people went to mall on Thursday.

- (a) 3:1
- (b) 1:3
- (c) 2:7
- (d) 7:9

(e) 1:12 <== ANSWER

241. q012378-bba2f748 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

[has 1 image(s) - chart not rendered]

Total males visited to mall on Sunday and Thursday are same and ratio of females visited on Sunday to Thursday is Find sum total males in both the given days.

- (a) 36
- (b) 39
- (c) 60
- (d) 80

(e) 84 <== ANSWER

242. q012379-d4dc28cf ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

[has 1 image(s) - chart not rendered]

Ratio of the total people visited to mall on Saturday to on Monday and Tuesday together is 1:2 and males visited on Saturday is 25% more than that total people visited to mall on Sunday. The females visited mall on Saturday is what percentage of the total people visited the mall in all given days.

- (a) 3.6%
- (b) 1.8%
- (c) 2.5% <== ANSWER**
- (d) 7.5%
- (e) 6.5%

243. q012380-fceb84ff ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: The pie chart given below shows the percentage distribution of total people (males and females) visited to a mall in five different days of a week (Sunday, Monday, Tuesday, Wednesday & Thursday). Read the information carefully and answer the following questions. Note: (i) The difference between total people visited the mall on Sunday and Tuesday is 12. (ii) Total 400 people visited the mall on all five days.

[has 1 image(s) - chart not rendered]

Find the difference between maximum and minimum number of people visited to the mall in the given days.

- (a) 72 <== ANSWER**
- (b) 18
- (c) 20
- (d) 30
- (e) 65

244. q012381-32ffc840 ? SBI-Clerk-Mains-Memory-Based-2023-2024

Solve the given two equation (I) and equation (II) and from the roots of these equation find which of the new equation formed. (I): $x^2 - 10x + 21 = 0$ (II): $y^2 - 24y + 144 = 0$ For making equation one root is taking from (I) and other root taken from (II)

- (a) $z^2 - 19z + 84 = 0$ <== ANSWER**
- (b) $z^2 - 19z + 36 = 0$
- (c) $z^2 - 13z + 36 = 0$
- (d) $z^2 - 19z + 30 = 0$
- (e) $z^2 - 15z + 84 = 0$

245. q012382-bae7e227 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Solve the quadratic equation given below and answer the question based on these equations. (I) $2x^2 - Px + 10 = 0$ (II) $4y^2 - Ry + 15 = 0$ Note: (i) Roots of the equation (I) are (A) and (B) whose sum is 4.5 (ii) Roots of the equation (II) are C and D. Smallest root (C) of the equation (II) is ? of the smallest root (A) of the equation (I)

Find the sum of the B and D.

- (a) 6.75
- (b) 7.75

(c) 6.25 <== ANSWER

(d) 4.25

(e) 8.25

246. q012383-5878e3f8 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Solve the quadratic equation given below and answer the question based on these equations. (I) $2x^2 - Px + 10 = 0$ (II) $4y^2 - Ry + 15 = 0$ Note: (i) Roots of the equation (I) are (A) and (B) whose sum is 4.5 (ii) Roots of the equation (II) are C and D. Smallest root (C) of the equation (II) is ? of the smallest root (A) of the equation (I)

Which of the following statement/s is/are correct. (I) $A + 1.75 = D$ (II) $B + 1.25 = D$ (III) $D - C = B + 0.25$

(a) Both (I) and (II)

(b) Only (I)

(c) Only (III)

(d) All (I), (II) & (III) <== ANSWER

(e) None of these

247. q012384-93e34f04 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: One number is wrong, and one number is missing in the given number series. Solve the number series and answer the questions given below. (I) 0.5, 5, 60, 480, 2880, 11520, P

Find the wrong number of the series.

(a) 5 <== ANSWER

(b) 60

(c) 480

(d) 2880

(e) 0.5

248. q012385-87d6a676 ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: One number is wrong, and one number is missing in the given number series. Solve the number series and answer the questions given below. (I) 0.5, 5, 60, 480, 2880, 11520, P

If the wrong number of the series is A, then find which of the statement/s is/are correct. (I) P

- $2880 = 4032A$ (II) P is completely divisible by A (III) $P > 4320A$

(a) Both (I) and (II)

(b) Only (I)

(c) Only (III)

(d) All (I), (II) & (III) <== ANSWER

(e) None of these

249. q012386-155305cd ? SBI-Clerk-Mains-Memory-Based-2023-2024

Anvi and Vaishnav started a business with the investment of Rs. 4800 and Rs. P respectively. After 6 months and 4 days Anvi left the business and Vaishnav invested Rs. 300 more. After 2 months and 3 days from the time at which Anvi left, Madhu joined the business by investing half of the amount invested by Vaishnav. If the annual profit is Rs. 1600 and the share of Madhu is Rs. 200. Find the approximate value of P.

(a) Rs. 15300 <== ANSWER

(b) Rs. 16000

(c) Rs. 70000

(d) Rs. 75000

(e) Rs. 65000

250. q012387-019f44e5 ? SBI-Clerk-Mains-Memory-Based-2023-2024

A boat covers 1.5S km downstream in 15 hours. A boy covered S km in 5 hours and the speed of the boy is 11 km/hr more than the speed of boat in still water. If the speed of stream is 3 km/hr, then find the value of S.

(a) 80 <== ANSWER

(b) 70

(c) 60

(d) 90

(e) 50

251. q012388-e92907e5 ? SBI-Clerk-Mains-Memory-Based-2023-2024

If and $B + C = 12$, Also $14 \geq A > B > 9$ and $10 \geq B > C > 1$. (Note: A, B and C are the integers) Quantity (I)
Value of $A + 5$ Quantity (II) Value of $2C + B$

- (a) Quantity I > Quantity II <== ANSWER
(b) Quantity I < Quantity II
(c) Quantity I $\geq$ Quantity II
(d) Quantity I $\leq$ Quantity II
(e) Quantity I = Quantity II or no relation

252. q012389-2c3a14e6 ? SBI-Clerk-Mains-Memory-Based-2023-2024

A person invested Rs. P in a scheme that offers 19.8% interest, which is compounded annually for two years and two days. If the amount received from this scheme is reinvested at the same rate for the same period of time in the same scheme, then he will receive Rs. 792 as interest. Find the approximate value of P.

- (a) 2500
(b) 1250 <== ANSWER
(c) 1450
(d) 1320
(e) 1000

253. q012390-e93439f3 ? SBI-Clerk-Mains-Memory-Based-2023-2024

A train crossed a poll in t seconds and the train crossed a platform in (t + 12) seconds. If the sum of length of platform and the train 540 meters. If the length of train is 300 meters, then find the distance covered by the train in (t - 6) seconds.

- (a) 280 meters
(b) 240 meters
(c) 250 meters
(d) 160 meters
(e) 180 meters <== ANSWER

254. q012391-b9da44ed ? SBI-Clerk-Mains-Memory-Based-2023-2024

X and Y are two numbers, and $XY = 40$. If we add one to numbers X and Y each, then both numbers form a single digit. Find the product of X and Y after adding one to both numbers. (Both X and Y are integers.)

- (a) 54 <== ANSWER
(b) 64
(c) 42
(d) 49
(e) None of these

255. q012393-40ec7feb ? SBI-Clerk-Mains-Memory-Based-2023-2024

CONTEXT: Find the pattern of the series and answer the questions given below. Series I. a, d, c, 669, 833, 1017, 1221 Series II. b, b+18, 336, 354, 372, 390 Series III. 456, 472, 408, 552, z

Which of the following statement/s is/are incorrect.

- (a) d is a prime number <== ANSWER
(b) a and z both are an odd number
(c) c is divided by 7, then the quotient is $\frac{1}{4}$ of b
(d) Only
(e) Both

308. q015399-3c890e12 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 3x + 6 = 0$ II. $3y^2 + 13y + 12 = 0$

(a) $x > y$ <== ANSWER

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

309. q015400-39038a0b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $5x^2 + 3x - 14 = 0$ II. $10y^2 - 3y - 27 = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

310. q015401-dcfa90cf ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 5x + 6 = 0$ II. $y^2 + 3y + 2 = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$ <== ANSWER

(e) $x = y$, or the relationship cannot be established

311. q015402-fe611fc4 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 + 3x + 1 = 0$ II. $12y^2 + 7y + 1 = 0$

(a) $x > y$

(b) $x < y$ <== ANSWER

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

312. q015403-3c823d90 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 + 23x + 63 = 0$ II. $4y^2 + 19y + 21 = 0$

(a) $x > y$

(b) $x < y$ <== ANSWER

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

313. q015404-7844cefd ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $4x^2 - 29x + 45 = 0$ II. $3y^2 - 19y + 28 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

314. q015405-99beeb09 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 - 13x + 21 = 0$ II. $5y^2 - 22y + 21 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$ <== ANSWER**
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

315. q015406-6336e825 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $12x^2 + 11x - 56 = 0$ II. $4y^2 - 15y + 14 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$ <== ANSWER**
- (e) $x = y$, or the relationship cannot be established

316. q015407-7b014d82 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $7x - 3y = 13$ II. $5x + 4y = 40$

- (a) $x > y$
- (b) $x < y$ <== ANSWER**
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

317. q015408-bd9fa73d ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $\sqrt{1225}x + \sqrt{4900} = 0$ II. $(81)^{??}y + (343)^{?} = 0$

- (a) $x > y$ <== ANSWER**
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

318. q015409-f6f9e8 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $18/x^2 + 6/x - 12/x^2 = 8/x^2$ II. $y^3 + 9.68 + 5.64 = 16.95$

- (a) $x > y$
- (b) $x < y$ <== ANSWER**
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

319. q015410-c97bcd8f ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $15/\sqrt{x} - 9/\sqrt{x} = (x)^{?}$ II. $y^{??} - (36)^{?} = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

320. q015411-f1d9e62b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $7x^2 + 16x - 15 = 0$ II. $y^2 - 6y - 7 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

321. q015412-8bcc1559 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 5x + 6 = 0$ II. $y^2 + 7y + 12 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$ <== ANSWER**
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

322. q015413-5398a0b8 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 20 = 9x$ II. $y^2 + 42 = 13y$

- (a) $x > y$
- (b) $x < y$ <== ANSWER**
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

323. q015414-59984b18 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $12x + 3y = 14$ II. $4x + 2y = 16$

- (a) $x > y$
- (b) $x < y$ <== ANSWER**
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

324. q015415-9b3239c6 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 4x + 4 = 0$ II. $y^2 - 8y + 16 = 0$

- (a) $x > y$
- (b) $x < y$ <== ANSWER**
- (c) $x \geq y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

325. q015416-6e0dd310 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 19x + 84 = 0$ II. $y^2 - 25y + 156 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$
- (d) $x \leq y$ <== ANSWER**
- (e) $x = y$, or the relationship cannot be established

326. q015417-e1cb4680 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^3 - 468 = 1729$ II. $y^2 - 1733 + 1564 = 0$

- (a) $x > y$
- (b) $x < y$
- (c) $x \geq y$ <== ANSWER**
- (d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

327. q015418-4714544d ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $9/\sqrt{x} + 19/\sqrt{x} = \sqrt{x}$ II. $y^2 - (2 \times 14)^{(11/2)}/\sqrt{y} = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established **<== ANSWER**

328. q015419-60c9d3f0 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $\sqrt{784x} + 1234 = 1486$ II. $\sqrt{1089y} + 2081 = 2345$

(a) $x > y$ **<== ANSWER**

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

329. q015420-a3dc4cea ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $12/\sqrt{x} - 23/\sqrt{x} = 5\sqrt{x}$ II. $\sqrt{y}/12 - 5\sqrt{y}/12 = 1/\sqrt{y}$

(a) $x > y$ **<== ANSWER**

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

330. q015421-fbeaac73 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $6x^2 - 49x + 99 = 0$ II. $5y^2 + 17y + 14 = 0$

(a) $x > y$ **<== ANSWER**

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

331. q015422-63c9958f ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $x = (1331)^x$ II. $2y^2 - 17y + 36 = 0$

(a) $x > y$ **<== ANSWER**

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

332. q015423-3d79cc73 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $6x^2 + 29x + 35 = 0$ II. $3y^2 + 19y + 30 = 0$

(a) $x > y$ **<== ANSWER**

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

333. q015424-8a4fc224 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $x^2 - 5x + 6 = 0$ II. $2y^2 - 15y + 27 = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$ <== ANSWER

(e) $x = y$, or the relationship cannot be established

334. q015425-3246ec8e ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 + x - 1 = 0$ II. $2y^2 - 3y + 1 = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$ <== ANSWER

(e) $x = y$, or the relationship cannot be established

335. q015426-b44e3f43 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $8x + 7y = 135$ II. $5x + 6y = 99$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

336. q015427-9abd96bd ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 = 64$ II. $2y^2 + 25y + 72 = 0$

(a) $x > y$

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

337. q015428-546755f0 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $7x + 3y = 26$ II. $2x + 17y = -41$

(a) $x > y$ <== ANSWER

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

338. q015429-d4dc40f9 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3x^2 + 5x - 2 = 0$ II. $2y^2 - 7y + 5 = 0$

(a) $x > y$

(b) $x < y$ <== ANSWER

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

339. q015430-cde797d3 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $5x^2 + 2x - 3 = 0$ II. $2y^2 + 7y + 6 = 0$

(a) $x > y$ <== ANSWER

(b) $x < y$

(c) $x \geq y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

340. q015431-a3f023fc ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 5x - 6 = 0$ II. $2y^2 - 11y + 15 = 0$

- (a) $x > y$
(b) $x < y$ <== ANSWER
(c) $x \geq y$
(d) $x \leq y$
(e) $x = y$, or the relationship cannot be established

341. q015432-de8216bc ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $7x = 4y + 85$ II. $y = \text{cbrt}17576$

- (a) $x > y$ <== ANSWER
(b) $x < y$
(c) $x \geq y$
(d) $x \leq y$
(e) $x = y$, or the relationship cannot be established

342. q015433-b4af0b48 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 25 = 0$ II. $4y^2 = 24y - 35$

- (a) $x > y$
(b) $x < y$
(c) $x \geq y$
(d) $x \leq y$
(e) $x = y$, or the relationship cannot be established <== ANSWER

343. q015434-56b6b486 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $4x^2 - 43x + 105 = 0$ II. $7y^2 - 29y + 30 = 0$

- (a) $x > y$ <== ANSWER
(b) $x \geq y$
(c) $x < y$
(d) $x \leq y$
(e) $x = y$, or the relationship cannot be established

344. q015435-54128761 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 13x + 40 = 0$ II. $y^2 + 7y + 10 = 0$

- (a) $x > y$
(b) $x \geq y$
(c) $x < y$
(d) $x \leq y$ <== ANSWER
(e) $x = y$, or the relationship cannot be established

345. q015436-b1e79c91 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x = \text{cbrt}2197$ II. $2y^2 - 54y + 364 = 0$

- (a) $x > y$
(b) $x \geq y$
(c) $x < y$
(d) $x \leq y$ <== ANSWER
(e) $x = y$, or the relationship cannot be established

346. q015437-95a595b9 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $13x - 8y + 81 = 0$ II. $15x - 5y + 65 = 0$

- (a) $x > y$
(b) $x \geq y$
(c) $x < y$ <== ANSWER
(d) $x \leq y$
(e) $x = y$, or the relationship cannot be established

347. q015438-69f99772 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x = \sqrt{172}$ II. $y^2 - 29y + 210 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$ <== ANSWER**
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

348. q015439-6a254349 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $676x^2 - 1 = 0$ II. $y = 1/\sqrt[3]{13824}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$ <== ANSWER**
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

349. q015440-e64ff438 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 + 5x - 33 = 0$ II. $y^2 - y - 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

350. q015441-37914ab2 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 12x + 36 = 0$ II. $y^2 + 15y + 56 = 0$

- (a) $x > y$ <== ANSWER**
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

351. q015442-2aabccb9 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 - 3x - 35 = 0$ II. $y^2 - 7y + 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

352. q015443-75a98c1c ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $12x^2 - 47x + 40 = 0$ II. $4y^2 + 3y - 10 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

353. q015444-f7d82926 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x = \sqrt{256}/\sqrt{576}$ II. $3y^2 + y - 2 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

354. q015445-443eb4b8 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $8x^2 - 49x + 45 = 0$ II. $8y^2 - y - 9 = 0$

(a) $x > y$

(b) $x \geq y$ <== ANSWER

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

355. q015446-8b6bfb2a ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $42x - 17y = -67$ II. $7x - 12y = -26$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ <== ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

356. q015447-ef26a4e2 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $2.3x - 20.01 = 0$ II. $2.9y - x = 0$

(a) $x > y$ <== ANSWER

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

357. q015448-78f3251c ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $x^2 - 26x + 168 = 0$ II. $y^2 - 25y + 156 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

358. q015449-f3e351ef ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $2x^2 + 13x - 7 = 0$ II. $2y^2 - 5y + 3 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ <== ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

359. q015450-8a44dd2a ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $x^2 + 12x + 32 = 0$ II. $2y^2 + 15y + 27 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

360. q015451-e9aff699 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $x^2 - 82x + 781 = 0$ II. $y^2 = 5041$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\leq$ ANSWER

361. q015452-8b9b9d01 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3x^2 - 7x - 20 = 0$ II. $y^2 - 8y + 16 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$ $\leq$ ANSWER

(e) $x = y$, or the relationship cannot be established

362. q015453-69446c66 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $9x^2 - 114x + 361 = 0$ II. $y^2 = 36$

(a) $x > y$ $\leq$ ANSWER

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

363. q015454-9d5115cb ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $9x^2 - 29x + 22 = 0$ II. $y^2 - 7y + 12 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ $\leq$ ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

364. q015455-95054f42 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3x^2 - 4x - 32 = 0$ II. $2y^2 - 17y + 36 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$ $\leq$ ANSWER

(e) $x = y$, or the relationship cannot be established

365. q015456-296c2e2a ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 14x + 49 = 0$ II. $y^2 + 9y = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\leq$ ANSWER

366. q015457-af6b54c0 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $35x^2 - 53x + 20 = 0$ II. $56y^2 - 97y + 42 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ $\leq$ ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

367. q015458-ae402b2c ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x = \sqrt[3]{4913}$ II. $13y + 3x = 246$

(a) $x > y$ <== ANSWER

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

368. q015459-7eae5fd5 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 3481 = 0$ II. $3y^2 = \text{cbrt}216000$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

369. q015460-d96f56d2 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $20x^2 - 67x + 56 = 0$ II. $56y^2 - 67y + 20 = 0$

(a) $x > y$ <== ANSWER

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

370. q015461-11dcbe93 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 = 14641$ II. $y = \sqrt{14641}$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$ <== ANSWER

(e) $x = y$, or the relationship cannot be established

371. q015462-17662618 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 + 42 = 13x$ II. $y = \sqrt{1296}$

(a) $x > y$

(b) $x \geq y$ <== ANSWER

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

372. q015463-9f604aba ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $15x^2 - 46x + 35 = 0$ II. $4y^2 - 15y + 14 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ <== ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

373. q015464-851d3036 ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $7x + 6y + 4z = 122$ II. $4x + 5y + 3z = 88$ III. $9x + 2y + z = 78$

(a) $x < y = z$ <== ANSWER

(b) $x \leq y < z$

(c) $x < y > z$

(d) $x = y > z$

(e) $x = y = z$, or none of the above holds

374. q015465-603c8ee4 ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $7x + 6y = 110$ II. $4x + 3y = 59$ III. $x + z = 15$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$ <== ANSWER
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

375. q015466-de1fff1f ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $x = \sqrt{(36)^x (1296)^y}$ II. $2y + 3z = 33$ III. $6y + 5z = 71$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds <== ANSWER

376. q015467-4641ac2e ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $8x + 7y = 135$ II. $5x + 6y = 99$ III. $9y + 8z = 121$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$ <== ANSWER
- (e) $x = y = z$, or none of the above holds

377. q015468-865fdc52 ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $(x + y)^3 = 1331$ II. $x - y + z = 0$ III. $xy = 28$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds <== ANSWER

378. q015469-a5441fe4 ? Quadratic_equations_adda

CONTEXT: In each question equations I, II and III are given. Solve them and determine the relationship between x, y and z.

I. $x + 3y + 4z = 96$ II. $2x + 8z = 80$ III. $2x + 6y = 120$

- (a) $x < y = z$
- (b) $x \leq y < z$
- (c) $x < y > z$ <== ANSWER
- (d) $x = y > z$
- (e) $x = y = z$, or none of the above holds

379. q015470-82bfdb85 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3x/(3x+7) - (3x+7)/(3x) = 14$ II. $y/(18y-5) - (18y-5)/y = 2$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$ <== ANSWER
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

380. q015471-13812e1d ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x/(x+7) + (x+7)/x = 12$ II. $y/(y+8) + (y+8)/y = 16$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

381. q015472-84619d3e ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x/(x-11) + (x-11)/x = 7$ II. $4y/(4y-13) + (4y-13)/(4y) = 9$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$

(e) $x = y$, or the relationship cannot be established <== ANSWER

382. q015473-2b73183e ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $99x^2 + 149x + 56 = 0$ II. $156y^2 + 287y + 132 = 0$

- (a) $x > y$ <== ANSWER**
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

383. q015474-5a52d3ec ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $77x^2 + 58x + 8 = 0$ II. $42y^2 + 59y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

384. q015475-88e213bf ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $63x^2 + 172x + 117 = 0$ II. $30y^2 + 162y + 216 = 0$

- (a) $x > y$ <== ANSWER**
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

385. q015476-a1321fa4 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $36x^2 + 369x + 900 = 0$ II. $144y^2 + 337y + 144 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

386. q015477-adda67cb ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $18x^2 - 13\sqrt{7}x + 14 = 0$ II. $32y^2 - 19\sqrt{6}y + 9 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

387. q015478-9203d968 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 82x + 781 = 0$ II. $y^2 - 5041 = 0$

- (a) $x > y$
- (b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

388. q015479-8bbfeab2 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $36x^2 + 47\sqrt{7}x + 105 = 0$ II. $35y^2 + 20\sqrt{3}y + 63\sqrt{2}y + 36\sqrt{6} = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

389. q015480-d7a35e11 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $91x^2 + 298x + 187 = 0$ II. $247y^2 + 216y - 391 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

390. q015481-9d1f9a15 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $81x^2 - 9x - 2 = 0$ II. $56y^2 - 13y - 3 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

391. q015482-5994da2b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $391x^2 + 1344x + 1073 = 0$ II. $437y^2 + 1074y + 589 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

392. q015483-018e6924 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3216x^2 + 3859x + 481 = 0$ II. $8132y^2 - 4839y + 978 = 0$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$ $\Leftarrow$ ANSWER

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established

393. q015484-a8beba27 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x = \sqrt[3]{357911}$ II. $y = \sqrt{5041}$

(a) $x > y$

(b) $x \geq y$

(c) $x < y$

(d) $x \leq y$

(e) $x = y$, or the relationship cannot be established $\Leftarrow$ ANSWER

394. q015485-7fbd3f31 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $3x^2 + 15x + 18 = 0$ II. $2y^2 + 15y + 27 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

395. q015486-e6a1d076 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $2x^2 - (4 + \sqrt{13})x + 2\sqrt{13} = 0$ II. $10y^2 - (18 + 5\sqrt{13})y + 9\sqrt{13} = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

396. q015487-7723bc5d ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $821x^2 - 757x^2 = 256$ II. $\sqrt{196}y^3 - 12y^3 = 16$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$ <== ANSWER**
- (e) $x = y$, or the relationship cannot be established

397. q015488-e5400b15 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $13x - 21 = 200 - 4x$ II. $y = \sqrt[3]{2197}$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

398. q015489-bf3da4e1 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $(x + y)^2 = 3136$ II. $y + 2513 = 2569$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$ <== ANSWER**
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

399. q015490-fad6f32b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 = 49$ II. $y^2 + 15y + 56 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER**
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

400. q015491-f5e3f766 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $(441)^{x^2} - 111 = (15)^2$ II. $\sqrt{121}y^2 + (6)^3 = 260$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER**

401. q015492-41943b64 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $15x^2 - 41x + 14 = 0$ II. $2y^2 - 13y + 20 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$ <== ANSWER
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

402. q015493-560f804b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 8\sqrt{3}x + 45 = 0$ II. $y^2 - \sqrt{2}y - 24 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER

403. q015494-e48c5832 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x - 7\sqrt{2}x + 24 = 0$ II. $y - 5\sqrt{2}y + 12 = 0$

- (a) $x > y$
- (b) $x \geq y$ <== ANSWER
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

404. q015495-041d244f ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $63x - 94\sqrt{x} + 35 = 0$ II. $32y - 52\sqrt{y} + 21 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established <== ANSWER

405. q015496-6eb4170b ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $x^2 - 7\sqrt{3}x + 35\sqrt{15} = 5\sqrt{5}x$ II. $y^2 - 5\sqrt{5}y + 30 = 0$

- (a) $x > y$ <== ANSWER
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$, or the relationship cannot be established

406. q015497-e00964c0 ? Quadratic_equations_adda

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y.

I. $\sqrt{25}x + \sqrt{16}y = 41$ II. $\sqrt{16}x - \sqrt{25}y = 40$

- (a) $x > y$ <== ANSWER
- (b) $x \geq y$

CONTEXT: In each question two equations I and II are given. Solve both and determine the relationship between x and y .

I. $(289)^{1/2}x - \sqrt{324} = 203$ II. $(484)^{1/2}y - \sqrt{225} = 183$

(a) $x > y$ <== ANSWER

(b) $x \geq y$

- (a) 1125 <== ANSWER
(b) 1075
(c) 1055

(e) 1225 ? ?? Average of total books sold by stores B and C = $??50 \times ??? \times ?? \times 100? \times 100 + 45 \times = 1675$? Unsold books of store A = $3500 \times ??? = 2800$ Required difference = $2800 - 1675 = 1125$

Ratio of sold plain and lined books for store C is 5 : 4 and for store B is 3 : 2. Then find the total plain books sold by these two stores together ?

Store C: Plain = 5x, Lined = 4x
Store B: Plain = 3y, Lined = 2y

Total Plain Books = 5x + 3y
Total Lined Books = 4x + 2y

Given: Total Plain Books = 700, Total Lined Books = 480

So, 5x + 3y = 700 and 4x + 2y = 480

Solving these equations:

From 4x + 2y = 480, we get y = 240 - 2x

Substituting y in 5x + 3y = 700:

5x + 3(240 - 2x) = 700

5x + 720 - 6x = 700

-x = 700 - 720

-x = -20

x = 20

Then y = 240 - 2(20) = 200

Total Plain Books = 5(20) + 3(200) = 100 + 600 = 700

Total Lined Books = 4(20) + 2(200) = 80 + 400 = 480

The ratio of plain to lined books for store C is 5 : 4.

The ratio of plain to lined books for store B is 3 : 2.

Therefore, the total plain books sold by these two stores together are 700.

(e) 1975 ?? Total books sold by store C = $45 \times 100 \times ??? = 1350$? Plain books sold by C = $1350 \times ? = 750$?? Plain books sold by store B = $??? = 1200$? $\times 5000 \times$ Required number of books = $1200 + 750 = 1950$

(e) 57% Unsold books of store A ? ??? = 2800 = 3500 x Unsold books of store B and C together ?? ?? ?
 ?? = 6150 = 5000 x ??? + 4500 x ?????????? Required% = x 100 = 54% ????

(e) Rs. 4.1 lac Number of total books sold by store B $?? \times ?? = 2000 = 5000 \times ??$ Number of lined books sold $= 2000 \times ?? = 1200$ Total amount earned $= \text{Rs. } (800 \times 250 + 1200 \times 175) = \text{Rs. } 4.1 \text{ lac}$ Q. 6-10 Line graph shows the percent $\leq$ ANSWER

Find the total number of persons in city E who like apple if difference between number of persons who like apple and mango 1500 Questions E -Book for SBI & IBPS PO PRE 2021 Best 300 DI Questions together and number of persons who like mango and banana together in city E is Rs 240.
 E ?? 240 ??

- (a) 950
- (b) 280
- (c) 230
- (d) 640 <== ANSWER**

(e) $140 \times 15\% = 210$ Number of persons who like apple in city E $400 \times 40 = 160 = 40\%$?

499. q015802-1ec43d1b ? DI (2)

If difference between number of persons who like apple in city D to person who like mango in city E is 2100 while sum of number of persons who like mango in city D and number of persons who like banana in city E is 4100, then find total number of persons in city D is what percent more than that in city E?
 $D - E = 2100$ $D + E = 4100$
 $2D = 6200$ $D = 3100$
 $E = 4100 - 3100 = 1000$
 $\frac{3100}{1000} \times 100 = 310\%$
 $310\% - 100\% = 210\%$
 $\therefore$ 210% more than

(a) 75%

(b) 300% <== ANSWER

(c) 150%

(d) 175%

(e) 225% Let, Number of persons in city D = x and number of persons in city E = y
 $x - y = 2100$... (i)
 $x + y = 4100$... (ii)
 On solving (i) & (ii) $x = 3100$, $y = 1000$
 $\therefore$ $\frac{3100}{1000} \times 100 = 310\%$
 $310\% - 100\% = 210\%$
 $\therefore$ 210% more than

500. q015803-a1c7fb89 ? DI (2)
