How wonderful it is to watch the sky after sunset! One would first notice one or two bright dots shining in the sky. Soon you would see the number increasing. You cannot count them anymore. The whole sky is filled with tiny shining objects - some are bright, others dim. It seems as if the sky is studded with diamonds. They all appear to be twinkling. But if you look at them carefully you will notice that some of them do not twinkle as others do. They simply glow without any flicker just as the moon shines. Along with these bright objects, you may also see the moon on most of

Kerala is home to 53 large dams with a collective capacity of nearly 7 trillion litres. For dams to truly tame floods, experts say dam reservoirs need to be relatively empty before the onset of rains. According to Himanshu Thakkar, coordinator of the South Asia Network for Dams, Rivers and People, this was not the case in Kerala. The Idukki dam was already near full capacity by July-end even as rains were relatively weak (below normal levels) during that period.

(a) The damages from the floods could be lowered by relatively emptying the dam reservoirs ahead of monsoon rains <== ANSWER

Our world's surface is a jumble of _____1_____ (puzzle) tectonic plates, with new ones emerging as others are pulled under. The ongoing cycle keeps our continents in motion and drives life on Earth. But what happens when a plate disappears into the planet's interior? The question has long puzzled scientists because conventional wisdom said that sinking tectonic plates must _____2_____ (stabilize) intact to keep pulling on the portion behind it, but according to geophysical evidence, they are destroyed. Now, in a study published in Nature, scientists say they've found an answer that reconciles the two stories: Plates are significantly _____3_____ (improved) as they sink but not so much that they break apart entirely. The finding came after scientists put tectonic plates through a computer-generated gauntlet of destructive geologic forces. The model _____4_____ (display) that as the plate
