1. q019720-1ec7f5d7 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information carefully and answer the questions given below- There are 12 persons who born in 24 different months of 2 years i.e., 1998 and 1999. Only one person was born in a month in each year. The months are January to December. G was born in a month of 30 days after June and in 1999. B was born in November. B was born before G. There is a gap of 5 months between L and M. Both L and M were born in same year. There is a gap of 2 months between the person who born in June 1999 and M and both were born in same year. P was born immediately after L in the same year. J was born in March 1998. As many months are there between the month in which Q and U were born is same as the

Who is the youngest among H, L, S and K?

- (a) H
- (b) L
- (c) K
- (d) Cannot be determined
- (e) S 12 <== ANSWER**

2. q019721-96741834 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring house

What is the position of S with respect to R?

- (a) Third to the left
- (b) Second to the left <== ANSWER**
- (c) Immediate left
- (d) Sixth to the left
- (e) Second to the right

3. q019722-531748be ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring house

How many persons live between Y and N?

- (a) Five
- (b) Six
- (c) Seven
- (d) Three
- (e) Four <== ANSWER**

4. q019723-a42bbb06 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring house

Which of the following person does not have any adjacent vacant house?

- (a) S
- (b) P
- (c) R <== ANSWER**
- (d) K
- (e) N

5. q019724-24a0f4d9 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring house

Which of the following statement is correct? I. K does not live in house number 12 II. Even number of persons live between J and R III. Three houses are in between Y and P

- (a) Only II
- (b) Only I
- (c) Only II and III <== ANSWER**
- (d) All I, II and III
- (e) Only I and III

6. q019725-887ac069 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live in nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring house

What is the house number of that vacant house which is adjacent to T's house?

- (a) None of these
- (b) 5
- (c) 4
- (d) 6 <== ANSWER**
- (e) 3 13

7. q019726-3885e7a4 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information carefully and answer the questions given below- In alphabetical series A-Z each letter except vowels and consonants (M, N and P) is assigned a different number starting from 1 (for ex- B is coded as 1, C-2, D-3) and again those numbers get repeated (for ex- Q- 1, R -2 and so on). Also, each consonant (M, N and P) is coded with different symbol viz. #, * and \$ respectively. Conditions: I. If the number of letters in the word is even then first vowel from left end will be coded as + If the number of letters in the word is odd then first vowel from left end will be coded as @. II. If the third letter from the left end of the word is vowel, then use A. III. If word

What is the code of ?Palm Tree??

- (a) \$&3# 12A> <== ANSWER**
- (b) \$+33 12AA
- (c) 1+33 33A>
- (d) #+3\$ A12>
- (e) None of these

8. q019727-a5601d69 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information carefully and answer the questions given below- In alphabetical series A-Z each letter except vowels and consonants (M, N and P) is assigned a different number starting from 1 (for ex- B is coded as 1, C-2, D-3) and again those numbers get repeated (for ex- Q- 1, R -2 and so on). Also, each consonant (M, N and P) is coded with different symbol viz. #, * and \$ respectively. Conditions: I. What is the code of ?Data Breach??

- (a) 3+2>12\$\$\$2A
- (b) 3+3>12\$\$\$&2
- (c) 3+1> 32##23
- (d) 3+1>12A&23 <== ANSWER**
- (e) None of these

10. q019729-3f2a57ca ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: In each question given below, some statements are followed by some conclusions. You have to assume everything in the statements to be true even if they seem to be at variance with commonly known facts. You have to find out, which of the given conclusions logically follow from the statement, disregarding commonly known facts. 14 www.bankersadda.com | Adda247 App

[has 1 image(s) - chart not rendered]

Statements: Only break is ice Only a few break is cake Some cake is milk All milk is water Some water is not bridge Conclusions: I. No bridge being ice is a possibility II. Some break can never be milk III. All milk being cake is a possibility

(a) Both II and III follows <== ANSWER

(b) Both I and II follow

(c) None follows

(d) Only III follow

(e) Both I and III follow

11. q019730-d2951ad7 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: In each question given below, some statements are followed by some conclusions. You have to assume everything in the statements to be true even if they seem to be at variance with commonly known facts. You have to find out, which of the given conclusions logically follow from the statement, disregarding commonly known facts. 14 www.bankersadda.com | Adda247 App

Statements: All lyrics are sound No music is lyrics Only a few instruments are music Only a few instruments are pleasant Conclusions: I. All sound being music is not a possibility II. Some music is not pleasant III. All pleasant can be lyrics

(a) Either II or III follows

(b) Both I and II follow

(c) None follows

(d) Only III follow

(e) Both I and III follow <== ANSWER

12. q019731-4ad2a42c ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: In each question given below, some statements are followed by some conclusions. You have to assume everything in the statements to be true even if they seem to be at variance with commonly known facts. You have to find out, which of the given conclusions logically follow from the statement, disregarding commonly known facts. 14 www.bankersadda.com | Adda247 App

Statements: All planets are universe Only a few galaxy is universe All earth is world Only a few earth is galaxy Conclusions: I. All world can never galaxy II. Some planets being earth is a possibility III. No planets are world

(a) Either II or III follows

(b) Only I and II follow <== ANSWER

(c) None follows

(d) Only III follow

(e) Only I and III follow 15

13. q019732-1ea716b5 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in d

How many floor(s) gaps is/are between S and X?

(a) Three

(b) Either two or three

(c) One <== ANSWER

(d) Either one or two

(e) Two

14. q019733-7abe3ae6 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in d

On which of the following floor and flat does Q live?

(a) 5th floor, flat B

(b) 4th floor, flat A

(c) 2nd floor, flat B <== ANSWER

(d) 3rd floor, flat A

(e) None of these

15. q019734-4d3ecc81 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in d

Which among the following statement(s) is/are true? I. P and R live on the same floor II. Q lives just below S's flat III. R lives in flat B

(a) Both I and II

(b) Both II and III <== ANSWER

(c) Only I

(d) Both I and III

(e) Only III

16. q019735-b7ad4168 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in d

Four of the following five are alike in a certain way and form a group. Who among the following person does not belong to the group?

(a) W

(b) R

(c) T

(d) P <== ANSWER

(e) X 16

17. q019736-ea0799d5 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in d

How many persons live to the south west of V?

(a) One

(b) Two

(c) Four

(d) None

(e) Three <== ANSWER

18. q019737-d3548fee ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

In the word ?DECARBONATE? following conditions are applied: I. All the letters which come before K in alphabetical order are changed to their immediate next letter and the letters which come after K in alphabetical order are changed to their 2nd previous consonant. II. All the repeated letters are removed. III. Remaining letters are arranged in alphabetical order from left to right. (condition II is applied after condition I and condition III is applied after condition II) Now find how many letters (according to alphabetical order) are there between 2nd letter from left end and 5th letter from right end in the new word formed after applying the conditions?

(a) None <== ANSWER

(b) One

(c) Two

(d) Three

(e) More than three

19. q019738-8250706e ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Italian super - luxury sports car manufacturer Lamborghini has spread its wings in India. And it, has just opened a dealership in Bengaluru, the IT capital of the country. At a price tag of over Rs. 1 Crore, in addition high import duty barriers. Who will buy a Lamborghini car? Rather, what gives the Italian car maker the confidence to not only drive into India but also expand its presence? If super - luxury brand like Lamborghini is sensing an unfolding big opportunity in a New India, other traditional global luxury car makers have turned very ambitious with new launches.

What may be the assumption of Lamborghini company to launch and expand their product in India? (I) The luxury car is a stipulated requirement or thriving people as it has been seen in Delhi, Mumbai and Bengaluru. (II) The ability to afford high import duties by Indians who are living in rich metropolitan areas. (III) The inclination of moneyed people towards sports car will potentially grow.

- (a) Only I and III
- (b) Only II
- (c) Only I and II
- (d) Only III
- (e) Only II and III <== ANSWER**

20. q019739-7bd4871e ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Each of the question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and given answer:

In a three-generation family of six members, how is U related to M? I. H is child of U. B is only daughter of U's spouse. L is sister-in-law of B. M is child of L. R is the grandfather of B's niece. II. U is sibling of H. L is parent of M. R is mother of H. M is brother-in-law of U. B is a married male.

- (a) Only statement I is sufficient <== ANSWER**
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient

21. q019740-c7209d27 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Each of the question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and given answer:

Seven persons go to a clinic on different days of week starting from Tuesday. Which person goes just after the one who goes on Friday? I. Three persons go between G and D. B goes just before G. B does not go on Saturday and Sunday. F goes two days after A but not on Monday. E goes before C but after Wednesday. II. More than three persons go before D. Two persons go between D and A. F does not go on Tuesday. Equal number of persons go before C and after F. E goes just before B. G goes after B but not on Sunday.

- (a) Only statement I is sufficient <== ANSWER**
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient

22. q019741-e3ace08c ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Each of the question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and given answer:

Six persons sit around a circular table facing inside. What is the position of M with respect to the one who sits immediate left of D? I. One person sits between N and K. D and N do not sit adjacent to each other. II. L sits second to the left of P. M does not face the immediate neighbors of P. Equal number of persons do not sit between K and P (from the both side).

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient 18 <== ANSWER**

23. q019742-2cc46242 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

B is 7m to the north of C. G is 4m to the south of E. I is 11m to the west of G. D is 3m to the east of H. F is 12m to the east of B. C is 6m to the west of E. D is 9m to the south of I. F is 10m to the north of A. Find the odd one out?

- (a) FC
- (b) EI
- (c) GH
- (d) AD
- (e) HE <== ANSWER**

24. q019743-d20f905c ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

Statement: Use for 2 weeks, your face will get pimple free. It is 100% tested and there is no side effect-Advertisement by a face wash company Y. Assumption: (I) Pimple on face is common people issue. (II) People believe on tested products. (III) Stock of face wash by company will be sold in a week.

- (a) Only I and III
- (b) Only II and III
- (c) Only II
- (d) Only I and II <== ANSWER**
- (e) All of three

25. q019744-c033f7fe ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: There are three stacks i.e. X, Y and Z from west to east respectively, which contains different number of boxes placed one above another. Each box has same heights. Box U is kept to the just north-west of box E. Box Q is kept to the east of box E. At most two boxes are kept below box E. Three boxes are kept between box Q and the box which is kept to the east of box A in the same stack. At least two boxes are kept between box B and box E in the same stack. Box B is kept to the south-east of box A. Five boxes are kept between box A and box F in the same stack. Box F is kept to the west of box T which is kept just below box G in t

How many known boxes are kept in the stack Y?

- (a) Three
- (b) Four
- (c) Five <== ANSWER**
- (d) Two
- (e) Either two or three

26. q019745-b37eae98 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: Study the following information and answer the questions below: There are three stacks i.e. X, Y and Z from west to east respectively, which contains different number of boxes placed one above another. Each box has same heights. Box U is kept to the just north-west of box E. Box Q is kept to the east of box E. At most two boxes are kept below box E. Box B is kept to the south-east of box A. Five boxes are kept between box A and box F in the same stack. Box F is kept to the west of box T which is kept just below box G in the same stack.

How many total boxes are Kept between the box B and the box which is kept to the just east of box F in the same stack?

(a) Four <== ANSWER

(b) Three

(c) Five

(d) Six

(e) Two

29. q019750-9d247f9e ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: After 8 phases of election in Bengal, on 2nd May the 'khela' becomes over. TMC lead by Chief Minister Mamata Banerjee has got success to clean sweep Bengal election despite of strong opposition heavyweight Bhartiya Janata Party. Top Central Ministers and chief ministers of BJP ruled states also participated in rallies. While seated in a wheelchair Didi with her injured left foot, rallies could not have been easy. But Didi scored! And her supporters and TMC cheered.

What can be assumed from the given statement of election result?

(a) Rallies by top ministers attract the voters to vote towards the party

(b) Election commission takes a long duration of time to conduct election in Bengal

(c) After Bengal, there will be election in two more states

(d) Both <== ANSWER

(e) Both 20

30. q019751-ba6f502c ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: After 8 phases of election in Bengal, on 2nd May the 'khela' becomes over. TMC lead by Chief Minister Mamata Banerjee has got success to clean sweep Bengal election despite of strong opposition heavyweight Bhartiya Janata Party. Top Central Ministers and chief ministers of BJP ruled states also participated in rallies. While seated in a wheelchair Didi with her injured left foot, rallies could not have been easy. But Didi scored! And her supporters and TMC cheered.

I. TMC Party workers starts celebration and there is some news of violence between BJP & TMC workers. II. Out of 292 seats, TMC has marked a major victory by winning 225 seats and BJP has not touched the triple figure. Give answer

(a) If Statement I is the cause and Statement II is its effect

(b) If Statement II is the cause and Statement, I is its effect <== ANSWER

(c) If both the Statements I and II are independent causes

(d) If both the Statements I and II are effects of independent causes

(e) If both the Statement I and II are effects of some common causes

31. q019752-993cddf5 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: In the following questions, the symbols %, #, @, \$, and & are used with the following meaning as illustrated below: P & Q means P is equal to Q P%Q means P is either less than or equal to Q P\$Q means P is either greater than or equal to Q P#Q means P is neither less than nor equal to Q P@Q means P is neither greater than nor equal to Q In each question, assuming the given statements to be true, find out which of the given conclusions below, is are definitely true as per the statement.

Statements: D @ B % T, E # N @ M, T & R % M Conclusions: I. R # D II. T @ M III. B % N

(a) Only II is true

(b) Only I or III is true

(c) Only I is true <== ANSWER

(d) Only II and III is true

(e) None is true

32. q019753-4ca08242 ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: In the following questions, the symbols %, #, @, \$, and & are used with the following meaning as illustrated below: P & Q means P is equal to Q P%Q means P is either less than or equal to Q P\$Q means P is either greater than or equal to Q P#Q means P is neither less than nor equal to Q P@Q means P is neither greater than nor equal to Q In each question, assuming the given statements to be true, find out which of the given conclusions below, is are definitely true as per the statement.

Statements: C \$ L # P & O, M \$ S # P, B \$ V % S Conclusions: I. P @ B II. M # O III. C \$ V

(a) Only II is true <== ANSWER

(b) Only III is true

(c) None is true

(d) Only I and II is true

(e) Either II or III is true

CONTEXT: In the following questions, the symbols %, #, @, \$, and & are used with the following meaning as illustrated below: P & Q means P is equal to Q P%Q means P is either less than or equal to Q P\$Q means P is either greater than or equal to Q P#Q means P is neither less than nor equal to Q P@Q means P is neither greater than nor equal to Q In each question, assuming the given statements to be true, find out which of the given conclusions below, is are definitely true as per the statement.

Statements: A \$ H \$ S, T & N # Z @ U, H % T @ E 21 www.bankersadda.com | Adda247 App Conclusions:

I. Z @ E II. N \$ S III. A # Z

- (a) Only II is true
- (b) All I, II and III are true
- (c) Only I is true
- (d) Only I and II is true <== ANSWER**
- (e) Only I and III is true

34. q019755-f548887f ? IBPS-Clerk-Mains-2023-Memory-Based-1-1

CONTEXT: There are three rows given and to find out the resultant of a particular row we need to follow the following Conditions: - 1. If an even number is followed by a perfect square number then the resultant will be the positive difference between both the numbers. 2. If an odd number is followed by an even number (not prime) which is not a perfect square number then the resultant will be addition of both the numbers. 3. If an even number is followed by an even number which is not a perfect square then the resultant will be the addition of positive difference between the two numbers with the greater number. 4. If an odd number is followed by an odd prime number then the resultant will be the positive difference between the two numbers with the greater number.

What is the resultant of row 1, if X is the resultant of row 2 and Y is the resultant of row 3?

- (a) 84
- (b) 86 <== ANSWER**
- (c) 77
- (d) 65
- (e) 62

CONTEXT: Read the following information carefully and answer the questions given below. The information about athletes from three (P, Q, and R) different countries is selected from the Olympics in three (2010, 2014, and 2018) different years. Athletes selected from P in 2014 are $2x+10$, which is 10 more than the athletes selected from R in 2010. Athletes selected from Q in 2018 are half of the athletes selected from R in 2010, and athletes selected from R in 2014 were 20 more than those from R in 2010. The ratio of athletes selected from R in 2010 to 2018 is 9:13. Athletes selected from P in 2010 were 18 more than athletes selected from R in 2010. The athletes selected from Q in 2010 and 2014 are 2a and 2b respectively.

40% of the athletes selected from Q in 2018 participated in track and field games, 25% of the remaining participated in archery, and the remaining participated in board games. Find the total athletes who participated in board games and track & field games.

CONTEXT: Read the following passage and answer the given questions. Living in a warm, dry, and healthy home is declared by the Chief Human Rights Commissioner of New Zealand, Paul Hunt, to be as fundamental a human right as the presumption of innocence or freedom of expression. However, an alarming "accountability deficit" in ensuring the upkeep of such homes poses a threat to New Zealand's democratic ideals. Despite being ranked the second freest nation globally in 2021, issues arise from property being the primary source of wealth for New Zealanders, a widening equality gap, and the challenging living conditions for approximately 600,000 households residing in non-owned properties. The disparity is

Priya's age 2 years ago was thrice Anu's age five years hence. And if Priya's age 5 years hence will be four times Anu's age after 4 years. Find Anu is how many years younger than Priya?

Let Priya's age be x and Anu's age be y .
2 years ago: $x - 2 = 3(y + 5)$
5 years hence: $x + 5 = 4(y + 4)$
Solving these equations:
 $x - 2 = 3y + 15 \Rightarrow x = 3y + 17$
 $x + 5 = 4y + 16 \Rightarrow x = 4y + 11$
Equating the two expressions for x :
 $3y + 17 = 4y + 11 \Rightarrow y = 6$
Substituting $y = 6$ into $x = 3y + 17$:
 $x = 3(6) + 17 = 35$
Difference in ages: $35 - 6 = 29$ years.

(a) 35 yrs

(b) 6 yrs

(c) 29 yrs

(d) 22 yrs <== ANSWER

(e) 15 yrs Let Priya's age be x and Anu's age be y . ATQ. $x - 2 = 3(y + 5)$ and $x + 5 = 4(y + 4)$. Solving (1) & (2) $x = 35$, $y = 6$. Difference = 29 years.

Find the wrong term in the given series.

(a) 22
(b) 24
(c) 40
(d) 82 <== ANSWER
(e) 210 2222 222 222 ? ? 222 22 22 ? ? 222 | 16, 27, 43, 64, 90, 120 The Pattern is:- None of these / 222 22 222 22 ? Sol. Sol. The Pattern is:- Thus, the incorrect number is 40. 22222 222 22 22 22 40 So option (c) is the correct answer.

167. q020065-57663e31 ? ARUN SIR 1500 PAID

120, 145, 168, 197, 224, 255, 288

(a) 288
(b) 197
(c) 145
(d) **255** <== ANSWER
(e) 120 Sol. Wrong number = 255 Pattern of series $120 = 11 - 1$ $145 = 12 + 1$ $168 = 13 - 1$ $197 = 14 + 1$ $224 = 15 - 1$ $16 + 1 = 257$ $288 = 17 - 1$ So 114 should come in the place of 104

220. q020118-0148345b ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO₂ emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

Which of the following statements can be inferred from the passage? (I) Nuclear power has played a major role in reducing global CO₂ emissions over the past decades. (II) The decline of nuclear power in advanced economies is primarily due to safety concerns. (III) The cost of transitioning to a fully renewable energy system without nuclear power could rise significantly.

- (a) Only (I)
- (b) Only (II)
- (c) Both (I) and (III) <== ANSWER**
- (d) Only (III)
- (e) All (I), (II), and (III)

221. q020119-20c6f84a ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO2 emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

According to the passage, why is the decline of nuclear power a cause for concern?

- (a) It poses a threat to the stability and security of global energy supplies
- (b) It could result in a rise in CO2 emissions, putting international climate goals at risk <== ANSWER**
- (c) Nuclear power is the only reliable source of low-carbon energy that can support global energy needs
- (d) The expenses associated with maintaining existing nuclear power plants are excessively high, contributing to the decline
- (e) The development and implementation of advanced nuclear technologies are not yet practical

222. q020120-fd3f394d ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO2 emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

Which of the following actions is NOT suggested by the report to maintain nuclear power as part of the global energy mix?

- (a) Promoting the safe operation and management of existing nuclear power plants
- (b) Allocating resources towards the development of advanced nuclear technologies
- (c) Giving priority to renewable energy sources over nuclear power in energy strategies <== ANSWER**
- (d) Supporting the construction of new nuclear power facilities
- (e) Making sure that nuclear power continues to play a role in the global low-carbon energy strategy

223. q020121-a4606bb9 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO2 emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

Which of the following can be inferred as a consequence of removing nuclear power from the global energy mix?

- (a) Solar and wind power would completely take over as dependable sources of energy, replacing nuclear power
- (b) Advanced economies would cease their investments in renewable energy technologies
- (c) The world would require much larger investments in renewable energy sources and improvements in energy efficiency <== ANSWER**
- (d) CO2 emissions would significantly rise, leaving no feasible alternatives for reducing emissions
- (e) Achieving the objectives of the Paris Agreement would become easier

224. q020122-e66490f6 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO2 emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

Which of the following is an incorrect interpretation of the phrase "which calls for rapid cuts in emissions" as used in the passage?

- (a) The Sustainable Development Scenario demands immediate and significant reductions in CO2 emissions
- (b) Meeting the goals of the Paris Agreement requires accelerated efforts in cutting CO2 emissions
- (c) The scenario emphasizes swift actions for CO2 reduction to achieve climate goals
- (d) The passage implies that nuclear power helps meet the rapid emission reduction requirements

(e) The phrase indicates that slow progress in emission reductions is acceptable <== ANSWER

225. q020123-caaa9c42 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO2 emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could

What is one of the major consequences of the decline in nuclear power?

- (a) A growing global dependence on nuclear energy, leading to a shift away from other energy sources and increasing the demand for nuclear power in the energy mix
- (b) Strengthened electricity security across various regions, resulting in improved stability and reliability of energy supplies despite the reduced reliance on nuclear power
- (c) Increased cost efficiency within the energy sector, allowing for more affordable energy production and distribution due to the decline in nuclear energy investments. 12

(d) Significant impacts on both electricity security and the overall cost of energy, as the decline of nuclear power undermines the stability of energy supplies and increases energy-related expenses <== ANSWER

- (e) A higher dependence on fossil fuels in advanced economies, causing a shift back to more carbon-intensive energy sources to compensate for the decline of nuclear power

226. q020124-b6e1456f ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the questions below, a sentence is divided into several parts. Select the most appropriate sequence to rearrange the parts into a grammatically correct and contextually coherent sentence.

(A) of climate change and preserving

- (b) is essential for mitigating the adverse effects
- (c) and responsible resource management
- (d) including renewable energy usage, waste reduction
- (e) biodiversity for future generations (F) adopting sustainable practices across industries

(a) FDCBAE <== ANSWER

227. q020127-b532a8a9 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the questions below, a sentence is divided into several parts. Select the most appropriate sequence to rearrange the parts into a grammatically correct and contextually coherent sentence.

(A) and infrastructure strain, requiring

- (b) livable environments for future populations
- (c) such as housing shortages, pollution
- (d) as urbanization continues to reshape
- (e) innovative planning to ensure sustainable, (F) the global landscape, cities face growing challenges

(a) DFCAEB <== ANSWER

228. q020128-5742278e ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following questions, a sentence is divided into several parts. One of the parts is grammatically correct, while the others contain errors. Identify the incorrect part(s) from the sentence. If all parts are correct, select "no error" as the answer.

To understand personal finance, (A)/ including budgeting and investing,/ empower individuals to make (B)/ informed decisions and (C) /achieve long-term financial security. (D)

- (a) A
- (b) A-B <== ANSWER**
- (c) C-D
- (d) D
- (e) No error

229. q020129-4776858c ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following questions, a sentence is divided into several parts. One of the parts is grammatically correct, while the others contain errors. Identify the incorrect part(s) from the sentence. If all parts are correct, select "no error" as the answer.

Not only the team achieved (A)/ remarkable success in the project, / but never before they had encountered (B) / such challenges that tested their (C)/ skills and determination to this extent. (D)

- (a) A-D

(b) A-B <== ANSWER

(c) C-D

(d) D

(e) No error

Each of the participants / were asked to provide (A) / feedback on the event, (B) / including their suggestions for improvement (C) / and their overall satisfaction with the experience. (D)

(a) A-B

(b) B-C

(c) A <== ANSWER

- (d) D-E
- (e) No error

235. q020135-52dd077b ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Solar power is steadily reshaping the energy landscape, not just through its promise of sustainability, but by overcoming some of the long-standing technical barriers that once held it back. One of the most significant advancements in recent years lies in the rise of perovskite solar cells. Unlike conventional silicon-based panels, these cells are more affordable to produce and remarkably versatile, offering a faster route to mass adoption of solar energy. The reduced production costs promise to democratize clean energy access, potentially making solar a primary power source for both individuals and industries. 15 www.bankersadda.com

According to the passage, which of the following statements best reflects how perovskite solar cells are different from conventional silicon-based solar panels?

- (a) Perovskite solar cells are more efficient and environmentally friendly compared to silicon-based solar panels
- (b) Silicon-based solar panels are more reliable but less affordable compared to perovskite solar cells
- (c) Unlike silicon-based panels, perovskite cells are easier to integrate into national power grids, enhancing energy distribution
- (d) Perovskite solar cells are more cost-effective and versatile, offering a more accessible route to widespread solar energy adoption <== ANSWER**
- (e) The development of perovskite cells marks the first time solar panels have surpassed 25% efficiency

236. q020136-2cce9531 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Solar power is steadily reshaping the energy landscape, not just through its promise of sustainability, but by overcoming some of the long-standing technical barriers that once held it back. One of the most significant advancements in recent years lies in the rise of perovskite solar cells. Unlike conventional silicon-based panels, these cells are more affordable to produce and remarkably versatile, offering a faster route to mass adoption of solar energy. The reduced production costs promise to democratize clean energy access, potentially making solar a primary power source for both individuals and industries. 15 www.bankersadda.com

Which of the following assumptions about the future of solar energy is most likely to be weakened if the technological advancements discussed in the passage fail to materialize? (I) Solar energy will become the primary energy source for both individuals and industries. (II) Global reliance on fossil fuels will decrease as solar technology becomes more affordable and efficient. (III) Climate change goals will be met if solar power continues to evolve as expected.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III) 16 <== ANSWER**

Which of the following is an implied benefit of tandem solar cells in the passage?

- (a) Tandem solar cells are easier to manufacture than conventional photovoltaic panels
- (b) Tandem solar cells increase solar energy's reliability by storing excess energy during peak hours
- (c) Tandem solar cells help overcome the physical limitations previously associated with traditional solar technology <== ANSWER**
- (d) Tandem solar cells reduce solar power's environmental footprint, making them more sustainable
- (e) Tandem solar cells are less expensive than silicon-based and perovskite solar cells

241. q020141-d36a1db3 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Read the information and answer the given question. John has consistently demonstrated a lack of punctuality, often arriving late to meetings and missing important deadlines, which has caused disruptions in the workflow of the team. Despite numerous reminders and opportunities to improve his time management skills, he continues to struggle with completing tasks on schedule, putting added pressure on his colleagues. Additionally, John has developed a reputation for being arrogant, dismissing constructive feedback from both peers and supervisors, and often undermining the efforts of others with an overconfident attitude. His reluctance to acknowledge these issues has created tension in the workplace, making it difficult for the team to collaborate effectively. 17 www.bankersadda.com | Test Prime Based on the paragraph, what can be inferred about John's work behavior?

- (a) John frequently meets deadlines but struggles with maintaining a positive relationship with his team
- (b) John's arrogance stems from the heavy workload he faces and the constant criticism he receives regarding his personal qualities
- (c) John acknowledges that he lacks necessary skills for the project and thus withdraws from it
- (d) John is not dependable for urgent projects due to his tardiness and arrogance <== ANSWER**
- (e) John is known for always providing constructive feedback to his peers

242. q020142-2d251127 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Read the following passage and answer the given question. Lily is a high school student who excels academically, consistently earning top grades in all her subjects. However, she often feels anxious about exams, believing that anything less than perfect marks is a failure. As a result, Lily spends long hours studying, often skipping social events and recreational activities. While her friends enjoy their weekends, Lily can usually be found at home reviewing her notes. Despite her academic success, she feels isolated and overwhelmed by the pressure to maintain her perfect record. Based on the paragraph, what can be inferred about Lily's academic habits and social life?

- (a) Lily believes that only perfect grades will help her make friends and maintain a good social life
- (b) Lily prefers studying over socializing, often choosing to stay home and review her notes while her friends go out <== ANSWER**
- (c) Lily's friends often avoid inviting her to social events because she is always too busy with her studies
- (d) Lily does not feel pressured by her academic performance and manages to enjoy her weekends with friends
- (e) Lily balances her academic success with a busy and enjoyable social life

243. q020143-aec44a59 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Recent advancements in medical research have significantly improved the development of new treatments for various diseases. A primary focus has been the evolution of personalized medicine, an approach that tailors medical treatment to the individual characteristics of each patient. Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to

Based on the passage, which of the following assumptions can be made about mRNA vaccines? (I) mRNA A vaccine technology has applications beyond COVID-19 treatment. (II) mRNA vaccines can be developed more quickly than traditional vaccines. (III) mRNA vaccines have proven to be more effective than all other vaccine types.

- (a) Only (I)
- (b) Both (I) and (II) <== ANSWER**
- (c) Only (III)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

244. q020144-f7038aa9 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Recent advancements in medical research have significantly improved the development of new treatments for various diseases. A primary focus has been the evolution of personalized medicine, an approach that tailors medical treatment to the individual characteristics of each patient. Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to

Identify the correct statement based on the passage.

- (a) Imatinib is used to treat various forms of cancer by targeting cancer cells indiscriminately
- (b) Traditional vaccines are faster to develop than mRNA vaccines, which require growing live viruses
- (c) Personalized medicine primarily focuses on environmental factors while ignoring genetic influences
- (d) mRNA vaccines instruct cells to produce proteins that trigger an immune response <== ANSWER**
- (e) Targeted therapies cause significant harm to normal cells during cancer treatment

245. q020145-517b3a29 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to

Based on the passage, what is the most likely reason for the growing interest in mRNA vaccine technology beyond COVID-19?

- (a) mRNA vaccines have proven to be more cost-effective than all other types of vaccines
- (b) mRNA technology offers a platform that can be adapted to develop treatments for various diseases quickly <== ANSWER**
- (c) The use of mRNA vaccines has eradicated the need for traditional vaccine development
- (d) mRNA vaccines offer permanent immunity to diseases, unlike other vaccines
- (e) Research into mRNA vaccines focuses solely on treating infectious diseases like influenza and HIV

247. q020147-d1bfe989 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Recent advancements in medical research have significantly improved the development of new treatments for various diseases. A primary focus has been the evolution of personalized medicine, an approach that tailors medical treatment to the individual characteristics of each patient. Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to

Which of the following can be inferred about the potential future challenges of personalized medicine based on the passage?

- (a) Personalized medicine may become too expensive for widespread adoption due to its individualized approach
- (b) Personalized medicine is likely to cause more side effects because of its focus on targeting specific molecular profiles
- (c) The success of personalized medicine will depend heavily on integrating genetic research into medical treatments. 19 <== ANSWER**
- (d) Personalized medicine will soon replace all forms of traditional medicine, making standardized treatments obsolete
- (e) Personalized medicine is effective only in treating cancer and has limited applications in other fields of healthcare

248. q020148-c30c00da ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the following passage and answer the given questions. Recent advancements in medical research have significantly improved the development of new treatments for various diseases. A primary focus has been the evolution of personalized medicine, an approach that tailors medical treatment to the individual characteristics of each patient. Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to

Which of the following statements can be inferred from the passage regarding advancements in medical research? (I) Targeted therapies have reduced the harmful side effects associated with traditional cancer treatments. (II) mRNA vaccine technology is gaining interest for its potential to treat diseases beyond infectious ones. (III) Personalized medicine focuses exclusively on genetic factors when developing individualized treatments.

- (a) Only (I)
- (b) Both (I) and (II) <== ANSWER**
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

- (a) organizational
- (b) behavioral <== ANSWER**
- (c) No replacement required
- (d) cohort
- (e) realistic

255. q020155-8da9031d ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following question, a sentence is presented with a blank. Select the most appropriate word to fill in the blank, ensuring that the sentence is both grammatically correct and contextually appropriate.

The workers showed great _____ during the strike to demand better conditions.

- (a) solitude
- (b) apathy
- (c) hostility
- (d) solidarity <== ANSWER**
- (e) detachment

256. q020156-9fc69ba3 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following question, a sentence is presented with a blank. Select the most appropriate word to fill in the blank, ensuring that the sentence is both grammatically correct and contextually appropriate.

The artist found inspiration for his new sculpture in his nightly _____.

- (a) routine
- (b) muse <== ANSWER**
- (c) monotony
- (d) impulse
- (e) hesitation 21

257. q020157-ad8a2c1a ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

As the project deadline approached, the team needed to pull together (i) their resources to ensure success. They began to carry on (ii) the final details, making sure nothing was overlooked. Everyone felt the pressure, but they were determined to go over (iii) despite the challenges. By the end of the day, they managed to wrap up (iv) their tasks, feeling accomplished and ready for the presentation.

- (a) i-ii
- (b) i-iv
- (c) ii-iv
- (d) ii-iii <== ANSWER**
- (e) No interchange required

258. q020158-8af7436f ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the given information carefully and answer the questions based on it: Nine persons of a three-generation family are of different age (years). The persons are A, D, N, M, H, S, T, W and K but not related in the same order as given. W is son-in-law of S who is parent of K's spouse. K's mother-in-law has only one daughter. A is spouse of S and paternal grandparent of N. K's child is niece of T who has two children but D is not child of W. Number of males is one more than number of females. D and A are not of same gender. To find the age of all persons, follow the instructions below: Age of the youngest member is equal to the total number of persons in the family. Age of D's spouse is three

What is the total age of all the persons of 2nd generations?

- (a) 102 years
- (b) 119 years
- (c) 117 years
- (d) 129 years <== ANSWER**
- (e) None of the above

259. q020159-be80f5c3 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the given information carefully and answer the questions based on it: Nine persons of a three-generation family are of different age (years). The persons are A, D, N, M, H, S, T, W and K but not related in the same order as given. W is so n-in-law of S who is parent of K's spouse. K's mother-in-law has only one daughter. A is spouse of S and paternal grandparent of N. K's child is niece of T who has two children but D is not child of W. Number of males is one more than number of females. D and A are not of same gender. To find the age of all persons, follow the instructions below: Age of the youngest member is equal to the total number of persons in the family. Age of D's spouse is three

Which of the following statement is/are correct? I. oldest person's age is an odd number II. M is nephew of D III. T is older to K

- (a) Only III
- (b) Only I
- (c) Both II and III
- (d) Both I and II
- (e) All I, II and III 22 <== ANSWER**

273. q020173-154657cb ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Statement: In an effort to combat rising air pollution levels, several city governments are implementing policies that encourage the use of electric vehicles (EVs). These measures include offering tax incentives, developing more EV charging infrastructure, and restricting the use of traditional fuel-powered vehicles in certain areas. The goal is to promote cleaner transportation options and reduce the environmental impact caused by emissions from conventional vehicles. Which of the following assumption is in line with the context of the statement?

- (a) Electric vehicles are considered a cleaner alternative to traditional fuel-powered vehicles <== ANSWER**
- (b) Public awareness about the environmental benefits of electric vehicles is growing
- (c) The high cost of electric vehicles will discourage widespread adoption, even with tax incentives
- (d) The current EV charging infrastructure is insufficient to support a large-scale shift to electric vehicles
- (e) The electricity required to charge electric vehicles will come from renewable energy sources rather than fossil fuels

274. q020174-1c45d1cf ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Statement: Empowering women with vocational skills has become a key focus for several organizations, aiming to improve their livelihoods and economic independence. These initiatives are designed to provide women with the tools to start small businesses, increase their employment opportunities, and contribute more actively to their communities' economic growth. Which of the following statement is based on the statement? I. Many organizations believe that traditional roles limit women's economic participation. II. Women who acquire new skills are likely to have better access to economic opportunities. III. Women can enhance their financial prospects through targeted skill development programs. IV. Vocational training is the most effective way to boost a country's overall economy.

- (a) Both I and III
- (b) Both I and IV
- (c) Only II
- (d) Both II and III <== ANSWER**
- (e) Both II and IV

275. q020175-d8f89b17 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Study the following information carefully and answer the given questions below: There are eight employees A, B, C, D, E, F, G and H working in a company at different designations: CEO, Vice President (VP), Senior Manager (SM), Manager, Assistant Manager (AM), Junior Officer (JO), Clerk and Trainee. Each employee plays a different sport: Football, Cricket, Basketball, Hockey, Tennis, Badminton, Chess and Volleyball. The designations are ranked in order with CEO being the senior-most and Trainee being the junior-most. All the information is not necessarily in the same order. 27 www.bankersadda.com | Test Prime The one who plays Badminton is designated just junior to D. A and G don't play Tennis

Which among the following games B plays and how many persons are junior to B respectively?

Statement: As global labor shortages, particularly in sectors like construction, persist, companies are increasingly turning to immersive training environments. These technologies aim to enhance workers' skills efficiently, reduce onboarding time, and help close the gap between the demand for skilled labor and the available workforce. Which of the following course of action is in-line with the statement? I. Focus on increasing tax incentives for large corporations to promote economic growth. II. Collaborate with tech providers to introduce VR-based simulations for on-site construction training. III. Implement immersive training environments to quickly upskill workers in sectors facing shortages.

- (a) Only II
- (b) Only I
- (c) Both II and III <== ANSWER**
- (d) Only III
- (e) Both I and II

283. q020183-609e825a ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

6G connectivity is in development, with technologies like Reconfigurable Intelligent Surfaces (RIS) expected to optimize wireless communications and support emerging tech like autonomous vehicles. Which of the following courses of action should be taken to support this advancement? I. Encourage investment in RIS infrastructure to improve wireless communication efficiency and enable widespread adoption of 6G technology. II. Increase funding for traditional 5G networks to strengthen the current communications infrastructure instead of focusing on 6G. III. Implement policies to limit the use of autonomous vehicles until current 5G networks are more stable. 29 www.bankersadda.com | Test Prime

- (a) Only II
- (b) Only III
- (c) Only I <== ANSWER**
- (d) Both II and III
- (e) Both I and II

284. q020184-5803a84f ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

Statement: To combat climate change, many countries are accelerating investments in renewable energy and sustainable technologies. A recent focus is on developing hydrogen fuel cells for clean energy production and storage, aiming to reduce reliance on fossil fuels and decrease greenhouse gas emissions. Which of the following courses of action is the most suitable to support the statement's objective of advancing hydrogen fuel cell technology as a solution to climate change?

- (a) Governments should provide tax incentives and grants to companies investing in hydrogen fuel cell technology to encourage faster adoption <== ANSWER**
- (b) Encourage immediate investments in nuclear energy plants, as they provide a steady power supply, which could help bridge current energy gaps
- (c) Limit the production of electric vehicles until a more efficient energy source than lithium-ion batteries are available
- (d) Increase subsidies for coal mining companies to keep energy prices low and ensure energy availability during the transition to renewable sources

(e) Prioritize funding for urban transportation projects over renewable energy initiatives, focusing on improving road and rail infrastructure instead

Neural technology in headphones is advancing rapidly, enabling non-invasive brain control for tasks like web browsing and gaming. This innovation could transform how users interact with devices, offering hands-free control through brainwave sensors, enhancing convenience and accessibility. Which of the following arguments is the strongest in support of the claim that neural technology in headphones will revolutionize user interaction with devices? I. Neural technology in headphones is interesting, but many new technologies don't achieve mass adoption. II. Neural headphones allow hands-free control, improving convenience and accessibility for all users, especially those with mobility issues. III. While neural headphones are innovative, they might be expensive, limiting their use to a small group.

Under how many categories were the National Awards for e-Governance (NAeG) 2024 conferred?

- (a) Three
- (b) Four
- (c) Five <== ANSWER**
- (d) Six
- (e) Seven 8

351. q020253-ec8bbe35 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

What are the sources of revenue for the Consolidated Fund of India?

- (a) 1, 2, and 3 only
- (b) 2, 3, and 4 only
- (c) 1, 3, 4, and 5 only
- (d) 1, 2, 3 and 4 only
- (e) All of the above <== ANSWER**

352. q020254-6bf212db ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

How many foreign banks operating under the wholly owned subsidiary (WOS) model have been appointed as agency banks by the RBI as of 2023?

- (a) None
- (b) One <== ANSWER**
- (c) Two
- (d) Three
- (e) Five 9

353. q020255-33709c03 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following questions, a sentence is divided into several parts. One of the parts is grammatically correct, while the others contain errors. Identify the incorrect part(s) from the sentence. If all parts are correct, select "no error" as the answer.

The rapidly growth in urban populations (A) / have led to increased demand (B) / for housing, infrastructure, and (C) / public services in many (D) / developing countries.

- (a) A-B <== ANSWER**
- (b) B-C
- (c) C-D
- (d) D
- (e) No error 14

354. q020256-ad3c1926 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following questions, a paragraph is provided with a few highlighted words. Select the most appropriate option that can replace the highlighted word to ensure the paragraph is both grammatically and contextually accurate. A recent psychological study on decision-making under uncertainty has endured (A) on the cognitive biases that influence human choices. The researchers focused on the prospect theory, which suggests that individuals are more likely to avoid losses than to pursue equivalent (B) gains, even when the risks are identical. Participants were asked to make decisions involving hypothetical financial backdrop (C), and the results confirmed a pronounced loss tactic (D) across various

Which of the following is most suitable to replace (B)?

- (a) fabricated
- (b) economic
- (c) sustenance
- (d) No replacement required <== ANSWER**
- (e) commercial

355. q020257-76499ecb ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In the following question, a sentence is presented with a blank. Select the most appropriate word to fill in the blank, ensuring that the sentence is both grammatically correct and contextually appropriate.

The artist found inspiration for his new sculpture in his nightly _____.

- (a) routine
- (b) muse <== ANSWER**
- (c) monotony
- (d) impulse
- (e) hesitation

356. q020258-fe5fea72 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Read the given information carefully and answer the questions based on it: Nine persons of a three-generation family are of different age (years). The persons are A, D, N, M, H, S, T, W and K but not related in the same order as given. W is so n-in-law of S who is parent of K's spouse. K's mother-in-law has only one daughter. A is spouse of S and paternal grandparent of N. K's child is niece of T who has two children but D is not child of W. Number of males is one more than number of females. D and A are not of same gender. To find the age of all persons, follow the instructions below: Age of the youngest member is equal to the total number of persons in the family. Age of D's spouse is three

Which of the following statement is/are correct? I. oldest person's age is an odd number II. M is nephew of D III. T is older to K

- (a) Only III
- (b) Only I
- (c) Both II and III
- (d) Both I and II
- (e) All I, II and III <== ANSWER**

357. q020259-f17fec98 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: Study the following information carefully and answer the questions given below. Fourteen persons B, C, D, E, F, G, H, I, J, K, L, M, N and O sit around two tables-one circular (referred to as a rope-shaped table) inscribed within a square-shaped table. Four persons sit at the corners of the square table, while four sit in the middle of the sides. The persons who sit at corners face inside and the persons who sit on the middle of the sides of table face outside. Six persons sit at the circular rope-shaped table at a distance of multiples of 3 between them consecutively such as 3m, 6m, 9m and so on. The persons who sit on the circular rope shaped table face inside. F sits 9m to the left of J

What is the position of D with respect of C?

- (a) Fifth to the left
- (b) Fifth to the right
- (c) Sixth to the right <== ANSWER**
- (d) Sixth to the left
- (e) Second to the right

358. q020260-281ea8b3 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: In each question, rows containing different elements are provided. To find out the resultant of a particular row, follow the given conditions: Condition 1: If an even number is followed by an odd number, then the resultant must be the difference between the number. Condition 2: If an odd number is followed by another odd prime number, then the sum of the resultants is added by 4. Condition 3: If an odd number is followed by an even number, then the resultant must be the sum of both numbers. Condition 4: If an even number is followed by an even number, then the resultant must be the difference between the number added by 2. Condition 5: If an odd number

What will be the value of X and Z respectively if the difference between the resultants of both the rows is equal to 10? 12 37 X Z 96

- (a) 15, 18
- (b) 14, 7

(c) 12, 3 <== ANSWER

(d) 22, 9

(e) None of these 25

359. q020261-1356dc15 ? IBPS-Clerk-Mains-Memory-Based-Paper-2024

CONTEXT: A word and number arrangement machine, when given an input line of words and numbers, rearranges them following a particular rule in each step. Below is an example of input and its rearrangement: Input: 97 wisdom 64 amplify 38 justice 71 clarity 25 mystery Step I: 52 97 64 amplify 38 justice 71 clarity mystery modsiw Step II: 83 52 97 64 amplify justice 71 clarity modsiw yretsym Step III: 17 83 52 97 64 amplify clarity modsiw yretsym ecitsuj Step IV: 46 17 83 52 97 amplify modsiw yretsym ecitsuj ytiralc Step V: 79 46 17 83 52 64 modsiw yretsym ecitsuj ytiralc yfilpma Based on the above example where Step V is the last step, find the arrangement for the below input and answer the related ques

Find the sum of the numbers which are second from the right end and third from left end in Step I V?

(a) 63

(b) 36 <== ANSWER

(c) 131

(d) 77

(e) None of these 30

In a town 40% are male and rest are female. If 40% of total female are graduate and total non-graduate female are 540, then find the number of males in the town?

(a) 900

(b) 500

(c) 400

(d) 600 <== ANSWER

(e) 1200

449. q020645-5e9a0a22 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

Reema and Seema started a business with an investment of Rs X and Rs X + 500 for a year. If the profit share of Reema is $\frac{1}{6}$ less than that of Seema, then find the value of X.

(a) 3000

(b) 2500 <== ANSWER

(c) 2000

(d) 3500

(e) 1500

450. q020646-1d1c65e6 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

A shopkeeper sold an article for Rs 2400 at a 20% profit. The discount allowed on the article is 20%. If he allowed 10% discount on the article, then find the profit on the article.

(a) Rs 690

(b) Rs 380

(c) Rs 560

(d) Rs 240

(e) Rs 700 <== ANSWER

451. q020647-0755f1f1 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

The present age of Sunita to Mohit is 6:5, respectively, and the present age of Vinita is 11 years more than that of Mohit. If the present age of Vinita is twice the age of Sunita five years ago, then find the present age of Vinita.

- (a) 27 years
- (b) 20 years
- (c) 22 years
- (d) 24 years
- (e) 26 years <== ANSWER**

452. q020648-7ba02d47 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

A vessel contains 70 liters of milk and water in the ratio of 3:7. If the X liters of milk and 56 liters of water are added to the mixture, then the ratio of the milk to water becomes 3:5. Find X.

- (a) 48
- (b) 42 <== ANSWER**
- (c) 35
- (d) 56
- (e) 63

453. q020649-8bb0a065 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

A, B and C can do a work in 48 days, 72 days and 54 days respectively. If A and B together can do a work for 8 days, then find the time taken (in days) by C to complete the remaining work.

- (a) 44
- (b) 31
- (c) 43
- (d) 34
- (e) 39 <== ANSWER**

454. q020650-6172c0d3 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

The total time taken by a boat to cover 105 km upstream and 105 km downstream in 7.5 hours. If the ratio of the speed of boat in downstream to upstream is 2:1 respectively, then find the speed of the boat in speed in still water?

- (a) 44.5
- (b) 31.5 <== ANSWER**
- (c) 43.5
- (d) 34.5
- (e) 39.5

455. q020651-17ce0929 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

A train takes 30 seconds to cross a pole and 45 seconds to cross a 350 meters long bridge. Find the length of the train.

- (a) 840 m
- (b) 600 m
- (c) 800 m
- (d) 700 m <== ANSWER**
- (e) 900 m

456. q020652-eae021d8 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

The circumference of two circles is 88 meters and 132 meters. What is sum of the radius of both the circles.

- (a) 14 meters
- (b) 35 meters <== ANSWER**
- (c) 7 meters
- (d) 21 meters
- (e) 42 meters

457. q020653-a44f3062 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Read the given information carefully and answer the questions below: Eight persons - A, B, C, D, E, F, G and H - were born (but not necessarily in the same order as given) on two different dates - either 8 or 27 of four different months - January, May, June and November. No two persons were born on the same date. D was born on an even date in May. A was born in the month before D. A and D were born on same dates. Four persons were born between A and E. H was born in the same month as E. G was born just after B. Two persons were born between B and C.

F was born on which date and month?

- (a) 8 May
- (b) 8 November
- (c) 27 May
- (d) 27 January <== ANSWER**
- (e) 8 June

458. q020654-8f5fb554 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Read the given information carefully and answer the questions below: Eight persons - A, B, C, D, E, F, G and H - were born (but not necessarily in the same order as given) on two different dates - either 8 or 27 of four different months - January, May, June and November. No two persons were born on the same date. D was born on an even date in May. A was born in the month before D. A and D were born on same dates. Four persons were born between A and E. H was born in the same month as E. G was born just after B. Two persons were born between B and C.

How many persons were born after C?

- (a) Five
- (b) One
- (c) Two
- (d) Three
- (e) Four <== ANSWER**

459. q020655-89296a04 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Read the given information carefully and answer the questions below: Eight persons - A, B, C, D, E, F, G and H - were born (but not necessarily in the same order as given) on two different dates - either 8 or 27 of four different months - January, May, June and November. No two persons were born on the same date. D was born on an even date in May. A was born in the month before D. A and D were born on same dates. Four persons were born between A and E. H was born in the same month as E. G was born just after B. Two persons were born between B and C.

Who among the following was born on 8 November?

- (a) C
- (b) H
- (c) G
- (d) B <== ANSWER**
- (e) E

460. q020656-133568d6 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Read the given information carefully and answer the questions below: Eight persons - A, B, C, D, E, F, G and H - were born (but not necessarily in the same order as given) on two different dates - either 8 or 27 of four different months - January, May, June and November. No two persons were born on the same date. D was born on an even date in May. A was born in the month before D. A and D were born on same dates. Four persons were born between A and E. H was born in the same month as E. G was born just after B. Two persons were born between B and C.

Four of the following five are similar in a certain pattern, who among the following is dissimilar to others?

- (a) A
- (b) D
- (c) H
- (d) B
- (e) G <== ANSWER**

461. q020657-c993b936 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Read the given information carefully and answer the questions below: Eight persons - A, B, C, D, E, F, G and H - were born (but not necessarily in the same order as given) on two different dates - either 8 or 27 of four different months - January, May, June and November. No two persons were born on the same date. D was born on an even date in May. A was born in the month before D. A and D were born on same dates. Four persons were born between A and E. H was born in the same month as E. G was born just after B. Two persons were born between B and C.

Which of the following statement is correct? I. D was born after A II. G and C were born in same month III. H was born on 8 June

- (a) Only I
- (b) Only I and II
- (c) Only II
- (d) Only I and III <== ANSWER**

(e) Only III

462. q020658-9fb91a ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons - A, B, C, D, E, F, G and H - sit in a row facing north, but not necessarily in the same order. D sits third to the right of C. Three persons sit between C and E. A sits second to the right of E. F sits fourth to the left of H. C is not an immediate neighbour of G. More than one person sit between H and G. B sits to the right of G.

Who among the following persons sits fourth to the left of B?

- (a) G
- (b) D <== ANSWER**
- (c) E
- (d) F
- (e) None of these

463. q020659-a5595ab8 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons - A, B, C, D, E, F, G and H - sit in a row facing north, but not necessarily in the same order. D sits third to the right of C. Three persons sit between C and E. A sits second to the right of E. F sits fourth to the left of H. C is not an immediate neighbour of G. More than one person sit between H and G. B sits to the right of G.

Which among the following statement is/are false?

- (a) E sits at one of the extreme ends of the row <== ANSWER**
- (b) F and G are immediate neighbours
- (c) Only one person sits between G and C
- (d) A sits immediate left of B
- (e) H and E are immediate neighbours

464. q020660-94ff69d6 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons - A, B, C, D, E, F, G and H - sit in a row facing north, but not necessarily in the same order. D sits third to the right of C. Three persons sit between C and E. A sits second to the right of E. F sits fourth to the left of H. C is not an immediate neighbour of G. More than one person sit between H and G. B sits to the right of G.

If F and A, interchange their positions, who will sit to the immediate right of A?

- (a) B
- (b) G <== ANSWER**
- (c) D
- (d) H
- (e) None of these

465. q020661-0a8009e7 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the questions given below: Eight persons - A, B, C, D, E, F, G and H - sit in a row facing north, but not necessarily in the same order. D sits third to the right of C. Three persons sit between C and E. A sits second to the right of E. F sits fourth to the left of H. C is not an immediate neighbour of G. More than one person sit between H and G. B sits to the right of G.

Which of the following pairs represents the persons sitting at the extreme ends?

- (a) E and C
- (b) E and D
- (c) C and B <== ANSWER**
- (d) B and D
- (e) None of these

Four of the following five are alike in a certain way and thus form a group. Find the one who does not belong to the group?

- (a) M
- (b) H
- (c) A
- (d) D
- (e) K <== ANSWER**

479. q020675-642f9f42 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the question given below: Eight persons - H, M, A, G, K, O, C and D are sitting around a square shaped table in such a way that four of them sit at four corners of the table while remaining four sit in the middle of the four sides, but not necessarily in the same order. The one who sits at the four corners faces the center while those who sit in the middle of the sides face outside. K sits immediate left of H. G sits second to the left of K. Three persons sit between A and M. M sits immediate left of G. Only two persons sit between H and O. O sits at one of the corners but does not sit adjacent to M. D sits third to the left of G.

Which among the following statement(s) is/are true? I. C sits second to the left of G II. G sits opposite to A III. Two persons sit between M and K when counting from left of M.

- (a) Only I
- (b) Only III
- (c) Only II
- (d) Both I and III <== ANSWER**
- (e) All I, II and III

480. q020676-1e740be5 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: In the questions below, some statements are given followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the statements and decide which of the given conclusion logically follows from the statements. Give answer:

Statement: All key is rubber. Only a few rubber is dot. Some Dot is paper. Conclusions: I. Some key is not paper. II. No paper being rubber is a possibility.

- (a) Only I follows
- (b) Only II follows <== ANSWER**
- (c) Either I or II follow
- (d) Neither I nor II follow
- (e) Both I and II follow

481. q020677-ed79350e ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: In the questions below, some statements are given followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the statements and decide which of the given conclusion logically follows from the statements. Give answer:

Statement: Only soil is plant. Some soil is feather. No feather is color. Conclusions: I. All feather being soil is a possibility. II. Some soil is not color.

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follow
- (d) Neither I nor II follow
- (e) Both I and II follow <== ANSWER**

482. q020678-c71e94be ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: In the questions below, some statements are given followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the statements and decide which of the given conclusion logically follows from the statements. Give answer:

Statement: Only a few money is scale. All scale is graph. Some graph is brick. Conclusions: I. No brick is scale. II. All money is graph.

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follow
- (d) Neither I nor II follow <== ANSWER**

(e) Both I and II follow

483. q020679-69ad9ab0 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the question given below: A certain number of people are sitting in a row facing north. A sits fifth to the left of B. E is an immediate neighbour of B. F sits second to the left of A and second from one of the extreme ends of the row. Only one person sits between B and G. E is not an immediate neighbour of G. K sits fourth to the right of G. No one sits to the right of K. Five persons sit between K and T.

Who among the following person sits fourth to the right of T?

- (a) E
- (b) G
- (c) A
- (d) F
- (e) B <== ANSWER**

484. q020680-abfc113e ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the question given below: A certain number of people are sitting in a row facing north. A sits fifth to the left of B. E is an immediate neighbour of B. F sits second to the left of A and second from one of the extreme ends of the row. Only one person sits between B and G. E is not an immediate neighbour of G. K sits fourth to the right of G. No one sits to the right of K. Five persons sit between K and T.

Who among the following sits seventh from the left end of the row?

- (a) B
- (b) G <== ANSWER**
- (c) E
- (d) T
- (e) Unknown person

485. q020681-0379c4b6 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the following information carefully and answer the question given below: A certain number of people are sitting in a row facing north. A sits fifth to the left of B. E is an immediate neighbour of B. F sits second to the left of A and second from one of the extreme ends of the row. Only one person sits between B and G. E is not an immediate neighbour of G. K sits fourth to the right of G. No one sits to the right of K. Five persons sit between K and T.

How many persons are sitting in the row?

- (a) 13
- (b) 14
- (c) 15
- (d) 11 <== ANSWER**
- (e) 12

486. q020683-f2c56d23 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

CONTEXT: Study the information carefully and answer the questions given below. There are eight persons in a three-generation family with three married couples. M is father of O. Q is the daughter-in-law of G. Q is the mother of S. S is the grandchild of M. P is the sister of M. S and T are siblings. T is the only son of O. L and P are married.

[has 66 image(s) - chart not rendered]

How many female members are there in the family?

- (a) Three
- (b) Five
- (c) Four <== ANSWER**
- (d) Two
- (e) None of these

[has 66 image(s) - chart not rendered]

Who among the following is the aunt of O?

- (a) G
- (b) P <== ANSWER**
- (c) Q
- (d) T
- (e) Can't be determined

488. q020685-60c4efed ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

How many pair of digits are in the number ?275849136?, each of which have as many digits between them as in the number series (both forward and backward order)?

- (a) One
- (b) Two
- (c) Three <== ANSWER**
- (d) Four
- (e) More than four

489. q020686-fc949099 ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

In the word ?HUNGARILY?, if all the letters are arranged in alphabetical order from left to right, then, how many letters will remain same on their positions?

- (a) None
- (b) Two
- (c) Four
- (d) Three
- (e) One <== ANSWER**

490. q020687-517b12cc ? SBI_Clerk_Pre_2024_25_Memory_Based_Paper_22_

If a meaningful word is formed by using the second, fourth, fifth and tenth letters (from the left end) of the word ?RENOVATION?, then which of the following will be the second letter from the left end of the meaningful word thus formed. If more than one such meaningful word is formed mark Y as your answer. If no meaningful word is formed, mark Z as your answer?

- (a) N
- (b) Y
- (c) E
- (d) Z
- (e) V <== ANSWER**

491. q020766-5f6df84b ? Wrong-Number-Series
