

SBI PO Prelims 2022

93 questions

Read the following passage and answer the questions given below. Some words are highlighted to help you answer some of the questions. Cybersecurity is the practice of being protected against the criminal or unauthorized use of electronic data, or the measures taken to achieve this. At least, that's what the dictionary says. Over the years the term cybersecurity has been thrown around to the point where it is almost synonymous with terms like IT security or information security. It's kind of like saying every square is a rectangle, but not every rectangle is a square. Every square is a rectangle because a square is a quadrilateral with all four angles being right angles. Similarly, cybersecurity is a part of the IT security umbrella, along with its counterparts, physical security and information security. But not every rectangle is a square, since the criteria to qualify as a square means all sides must be the same length. The point is, not all IT security measures qualify as cybersecurity, as cybersecurity has its own distinct assets to protect. CompTIA's Chief Technology Evangelist, James Stanger says it best when he defines cybersecurity as "focusing on protecting electronic assets – including internet, WAN and LAN resources – used to store and transmit that information." Of course, the threat to these electronic assets are hackers who have malicious intent to steal proprietary data and information via data breaches. Thus, it would seem the fully realised definition should include an evolving set of cybersecurity tools designed to protect confidential data from unauthorized access. To do so, it's necessary to consider how people, processes and technology all play equally important roles in keeping information safe. One of the many advantages to living in a world where every device is _____ is convenience. It's incredibly easy to conduct work, manage your social calendar, shop and make appointments from your smartphone or device. That's why it's become second nature to many of us. But, of course, the convenience of connected data also means threats from bad actors can do a lot of damage. Cybersecurity initiatives are essential to protecting our data and thus, our way of life.

1. Which of the following statements is inferred from the passage?

- (a) People, processes and technology all play very important roles in keeping information safe.
- (b) Cyber-attacks can have various objectives like financial gain, disruption and revenge and cyberwarfare.
- (c) Every square is a rectangle but every rectangle is not a square.
- (d) Brutal terrorist attacks all take place due to lack of cyber security.
- (e) None of these.

2. Choose the most appropriate antonym of the word 'MALICIOUS', as highlighted in the given passage.

- (a) malignant
- (b) decent
- (c) mischievous
- (d) nasty
- (e) None of these

3. Choose the most appropriate word from the following options to fill in the blank in the given passage.

- (a) worsening
- (b) earnest
- (c) reluctant
- (d) connected
- (e) esurient

4. Choose the most appropriate synonym of the word 'CONVENIENCE', as highlighted in the given passage.

- (a) annihilation
- (b) usefulness
- (c) hindrance
- (d) accessory
- (e) All of these

5. What are the threats to the electronic assets mentioned in the passage?

- (a) Exploitation of weakness of and breaches in data security by hackers
 - (b) Governments that try to intercept data transmissions for the purposes of spying
 - (c) Inter-governmental policies putting up restrictions on means of data security
 - (d) Knowledge of mechanisms of cybersecurity widely available to the public
 - (e) All of these
-

6. Which of the following most resembles the definition of cybersecurity according to the author?

- (a) Cybersecurity is defined as the maintenance of internet resources in order of sustenance of security measures.
 - (b) Cybersecurity can be defined as the measures taken by a particular service to strengthen the security on the service for the protection of data.
 - (c) Cybersecurity incorporates any measures taken towards securing electronic assets responsible for storage or transmission of data.
 - (d) Cybersecurity involves the privacy settings chosen by the user on an electronic platform regarding the sharing of private data.
 - (e) None of these
-

7. Which of the following statements does the passage mention to be true?

- (a) Cybersecurity initiatives are non-essential to overall structure of society and thus, can be neglected in that regard only.
 - (b) The full measure of cybersecurity can only be realised by the evolution of cybersecurity tools designed to protect confidential data from unauthorized access.
 - (c) Both (a) and (b)
 - (d) It's incredibly difficult to conduct work, manage your social calendar, shop and make appointments from your smartphone or device
 - (e) None of these
-

8. Which of the given statements cannot be justified from the information in the passage?

- (a) Malware is a software used to disrupt computer operation, gather sensitive information, or gain access to private computer systems.
 - (b) Both a) and c)
 - (c) It is said that future wars will not be like traditional wars fought on land and air but will take the form of cyber warfare.
 - (d) Cybersecurity is often confused with IT security and information security due to lack of awareness.
 - (e) None of these
-

In the following questions, a grammatically correct and meaningful sentence is given which is divided into four parts namely (A),(B),(C) and (D) You have to arrange the four parts to make a contextually and grammatically meaningful sentence. If no such rearrangement is possible mark (E) as your answer i.e. 'No rearrangement possible.'

9. to position itself as a major (A)/ the country has an opportunity (B)/ tourism destination during (C)/ India's presidency of the G20 (D).

- (a) DBAC
 - (b) BACD
 - (c) CDAB
 - (d) ADCB
 - (e) No rearrangement possible
-

10. demand a cessation of hostilities (A)/ with Russia, was the only country to (B)/ India, with its special historic bonds (C)/ and want diplomacy and democracy (D).

- (a) DBAC

- (b) BCAD
 - (c) CBAD
 - (d) ADCB
 - (e) No rearrangement possible
-

11. both India and South Africa (A)/ the final dress rehearsal (B)/ to put in their best efforts in (C)/ would be particularly keen (D).

- (a) DBAC
 - (b) BCAD
 - (c) CDAB
 - (d) ADCB
 - (e) No rearrangement possible
-

12. the growing food insecurity (A)/ crisis in the Asia Pacific (B)/ the Asian Development Bank is (C)/ allocating 14 \$ billion to fight (D).

- (a) DBAC
 - (b) BCAD
 - (c) CDAB
 - (d) ADCB
 - (e) No rearrangement possible
-

13. camera to observe the collision (A)/high-resolution DRACO (B)/ the DART craft carried a (C)/ and its consequences (D).

- (a) CDAB
 - (b) BCAD
 - (c) CBAD
 - (d) ADCB
 - (e) No rearrangement possible
-

14. investments, and innovations (A)/ gaining prominence globally and (B)/ satellite communication has been (C)/ is seeing a lot of interest, (D)

- (a) DCBA
 - (b) ADCB
 - (c) CBDA
 - (d) BCAD
 - (e) ABCD
-

In the following questions, a sentence has been given and been divided into five parts. One of the parts is highlighted to show that it is the grammatically correct part of the sentence. Choose from the other parts the one that contains the error, or choose "No error" if no errors exist.

15. If an invention claimed in (A) / a patent can be (B) / shown to exist or (C) / been described previously, it / invalidates the patent. (D) / No error (E)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

16. The firm stated that it (A) / maintained a strong balance sheet (B) / due to rigorous (C) / cash management and a robust / implementation of internal policies. (D) / No error (E)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

17. In the mid-1800s an American / businessman, Charles Goodyear, dropped (A) / a rubber mixture contain (B) / sulphur on his hot stove (C) / and invented vulcanization. (D) / No error (E)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

18. Abdominal pain, one of the / most common symptom of (A) / childhood, can be indicative of (B) / many gastrointestinal disorders but usually (C) / occurs without evidence of disease. (D) / No error (E)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) E
-

In each of the questions given below four words are given in bold. These four words may or may not be in their correct position. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that replace each other. If the sentence is correct as it is then select option 'No correction required' as your choice.

19. With parts of the pipes (1) being covered after laying of the canal (2) and construction material and debris strewn (3) along the banks, encroachers (4) are taking over the canal.

- (a) 2-4 and 1-3
 - (b) Only 2 - 4
 - (c) No correction required
 - (d) Only 1- 2
 - (e) 1-4 and 2-3
-

20. People thronged the burial families (1) to offer a range of dishes and departed (2) to the deceased members of their ground (3) in a symbolic gesture of love towards the desserts (4) ones.

- (a) 1-3 and 2-4
 - (b) Only 1 -3
 - (c) Only 2 -4
 - (d) No correction required
 - (e) 1-2 and 3-4
-

21. Authoritarian regimes, in strength (1), are static regimes where (2) a supreme leader assumes (3) know-it-all power and essence (4).

- (a) Only 2 -3

- (b) 1-3 and 2-4
- (c) 1 -4 only
- (d) No correction required
- (e) Only 2 -4

Each of the following questions has two sentences. Each sentence has a blank. From the options given below the sentence, choose the set of words which fits into both the blanks and mark the same as your answer.

22. Mobile signal _____ is weak in _____ regions.

- (a) reachability, hill
- (b) volume, central
- (c) affordability, outskirts
- (d) strength, interior
- (e) strength, hill

23. A large part of the world has _____ the Russian _____.

- (a) condemned, invasion
- (b) criticize, welcome
- (c) appreciated, intrude
- (d) condemned, abandon
- (e) criticism, invasion

24. The history of communal _____ of India is _____.

- (a) dissonance, benign
- (b) dissonance, exemplifying
- (c) harmony, unique
- (d) riots, smashing
- (e) harmony, reprove

In the following questions two columns are given containing three sentences/phrases each. In first column, sentences/phrases are A, B and C and in the second column the sentences/phrases are D, E and F. A sentence/phrase from the first column may or may not connect with another sentence/phrase from the second column to make a grammatically and contextually correct sentence. Each question has five options, four of which display the sequence(s) in which the sentences/phrases can be joined to form a grammatically and contextually correct sentence.

25. Column (1) (A)His parents love him so much that (B)He can finish ten pizzas in one go (C)Tomorrow is his birthday party
Column (2) (D) we bought him a house as a wedding gift (E) I am going to get a lot many gifts from my friends
(F) She has not been active on any social media platforms

- (a) A-D
- (b) B-E
- (c) B-F
- (d) B-E & C-F
- (e) none of these

26. Column (1) (A)The textbook of mathematics written by my uncle (B) His mother has raised him to be a good man
(C) In the search for few diamonds, he lost Column (2) (D)the kilograms worth of gold she had (E)is used by my teachers at school
(F) and respect all women

- (a) A-E
- (b) B-E & C-F

- (c) A-E & B-F
 - (d) A-F & B-D
 - (e) None of these
-

27. Column (1) (A) Indian workers, most of them in the informal sector (B) We have to come up with some innovative mechanism (C) The matching contribution should ensure that Column (2) (D) have no social security net (E) for people to opt for such a useful product (F) had become increasingly relevant

- (a) A-D
 - (b) A-D & B-E
 - (c) C-F
 - (d) A-E & C-F
 - (e) None of these
-

In the following question, sentences are given with a part in bold. The given phrase in the bold may or may not contain an error. The options following can replace the incorrect phrase. The correct phrase that is to be replaced will be your answer. If the sentences are correct then select 'No improvement required' as your answer.

28. Central India and the southern peninsula were expected to get most rain than their historical average.

- (a) were expect to get more
 - (b) were expected to got more
 - (c) were expected to get mostly
 - (d) were expected to get more
 - (e) No improvement required
-

29. The hybrid pitches could now been used for ODIs and T20Is, for men and women if both the rival teams agree.

- (a) could now been use for
 - (b) could now be used for
 - (c) could now be use for
 - (d) could now being used for
 - (e) No improvement required
-

30. In economics, the supply and the demand normally correlated because one factor determines another element.

- (a) demand normally correlated as
 - (b) demand normal correlated because
 - (c) demands normally correlated because
 - (d) demand normally correlate because
 - (e) No improvement needed
-

31. Average age of a group of 20 students is 18 years. By mistake at the time of calculating the average age, age of two students 16years, 15years were taken as 18years and 20years. Calculate the exact average age of the group?

- (a) 17.65
 - (b) 18.65
 - (c) 19.65
 - (d) 15.65
 - (e) 14.65
-

32. A shopkeeper purchased an item at Rs. 1000. He spent Rs. 500 on transportation, Rs. 200 on Labour, Rs. 300 on packaging. He then sells it at 25% profit to a customer. The customer spent Rs. 200 on it and sell it at 30% profit. Selling price of item for shopkeeper is approximately what percent more or less than the selling price for customer?

- (a) 52%
 - (b) 29%
 - (c) 36%
 - (d) 43%
 - (e) 25%
-

33. A mixture contains milk and water in the ratio 4:1. On adding another mixture to it containing 20 liters milk and 10 liters water to it the new ratio of water to milk becomes 1:3. Find the difference in the quantity(in litres) of milk and water in the initial mixture.

- (a) 10
 - (b) 20
 - (c) 30
 - (d) 40
 - (e) 50
-

34. A boat can row 20 km downstream and 20 km upstream in 12 hours. If speed of boat in still water is 50% more than the speed of stream. Find in how much time boat will cover 50 km downstream?

- (a) 9hr
 - (b) 8hr
 - (c) 7hr
 - (d) 5hr
 - (e) 6hr
-

35. The ratio of age of Ram to Shyam 6 years ago was 1:2. Present age of Ram is 5 years more than the present age of Prem. Ratio of age of Prem and Shyam is 5:14. Find the age of Ram after 10 years (In years).

- (a) 24
 - (b) 23
 - (c) 21
 - (d) 22
 - (e) 20
-

36. The volume of a cylinder is 5280m^3 and curved surface area of the cylinder is 704m^2 . Find the ratio of radius to height of the cylinder?

- (a) 225 : 112
 - (b) 226 : 119
 - (c) 223 : 112
 - (d) 227 : 112
 - (e) 229 : 112
-

37. A father had 1000 rupees. He divided the sum between his two sons equally. One son invests the sum at 10% simple interest for 2 years and another son invests the sum at 20% compound interest for 2 years. Find the sum of the interest received by both of them?

- (a) Rs. 440
- (b) Rs. 320
- (c) Rs. 500

- (d) Rs. 120
 - (e) Rs. 660
-

38. There are x black balls, $x-2$ yellow balls and $x+2$ green balls in a bag A. The probability of choosing two black balls when 2 balls are picked at random from the bag is $\frac{1}{12}$. Find the total balls in the bag.

- (a) 9
 - (b) 18
 - (c) 27
 - (d) 36
 - (e) 45
-

39. If an employee spends 20% of the salary on rent, 10% of the remaining he gives to his grandmother and 30% of the remaining spends on food and rest he saves. Find the ratio of savings to expenditure of the employee?

- (a) 63:62
 - (b) 62:63
 - (c) 64:29
 - (d) 81: 29
 - (e) 29:81
-

40. The cost price of article A is equals to selling price of the article B. if article A is sold at the $33\frac{1}{3}\%$ profit and article B is sold at the 50% profit and the sum of the cost price of article B and selling price of article A is Rs. 672, then find the cost price of article A?

- (a) Rs. 224
 - (b) Rs. 336
 - (c) Rs. 380
 - (d) Rs. 420
 - (e) Rs. 448
-

In the following bar graph number of shirts and pants manufactured by a company in a month are given. Read the graph carefully and answer the following questions.

41. The total number of shirts and pants manufactured by S is what percent less or more with respect to T?

- (a) 100%
 - (b) 200%
 - (c) 50%
 - (d) 60%
 - (e) 75%
-

42. If the shirt and pants manufactured by the company R is in the ratio of 1:2. Find the ratio of shirt manufactured by R to the total number of shirts and pants manufactured by T?

- (a) 7:25
 - (b) 6:25
 - (c) 4:3
 - (d) 3:25
 - (e) 25:6
-

43. Find the average number of shirts and pants manufactured by all the companies?

- (a) 7290
- (b) 1210

- (c) 1430
 - (d) 7150
 - (e) 1420
-

44. If the ratio of shirt to pant for the company P, R, and T are in the ratio of 3:7, 4:5 and 3:2 respectively. Find the total number of shirt and the total number of pants of these three companies respectively?

- (a) 1000, 2000
 - (b) 2050, 1600
 - (c) 1900, 2200
 - (d) 1600, 2050
 - (e) 1800, 6000
-

45. Find the ratio of total number of shirts and pants manufactured by Q and R together to P and S together?

- (a) 30:31
 - (b) 23:17
 - (c) 17:23
 - (d) 40:19
 - (e) 19:40
-

46. A, B, and C started a business with the ratio of investment of 2:3:4 respectively. After one year, A doubled the investment and C withdraw half of the investment. Find the ratio of profit earned by B and C at the end of two years.

- (a) 4:3
 - (b) 3:1
 - (c) 2:1
 - (d) 1:1
 - (e) 5:8
-

47. A is 50% more efficient than B, who take double time than C to complete a work. A can complete the work in 'x' days while C can complete the same work in (x - 15) days. In how many days all three can completes the same work together?

- (a) 36 days
 - (b) 30 days
 - (c) 22.5 days
 - (d) 20 days
 - (e) 18 days
-

The following table shows total no. of laptops sold by five different shops and ratio of Dell laptops to HP laptops sold by each shop. Read the following table carefully and answer the questions given below.

48. Find the ratio between no. of Dell laptop sold by shop P and R together to number of HP laptop sold by shop Q and S together.

- (a) 5:8
 - (b) 4:5
 - (c) 5:9
 - (d) 5:4
 - (e) 2:7
-

49. Price of each HP and Dell laptop is Rs.20000 and Rs.22000 respectively find the difference between the amount earned by shop T after selling both type of laptops.

- (a) Rs. 1050000
 - (b) Rs. 1200000
 - (c) Rs. 1100000
 - (d) Rs. 1240000
 - (e) Rs. 2200000
-

50. Number of HP laptop sold by shop M is 20% more than that of shop S and ratio of Dell to HP laptop sold by shop M is 5:7. Find the total number of laptops sold by shop M.

- (a) 724
 - (b) 728
 - (c) 712
 - (d) 720
 - (e) 716
-

51. What is the average number of HP laptop sold by S and Q together?

- (a) 440
 - (b) 400
 - (c) 402
 - (d) 410
 - (e) 448
-

52. Number of Dell laptop sold by shop R is what % no. of HP laptop sold by shop P.

- (a) 112.5%
 - (b) 81%
 - (c) 50%
 - (d) 87.5%
 - (e) 85%
-

What approximate value will come in place of question mark (?) in the given questions (You are not expected to calculate the exact value.)

55. ? % of 549.99 + 20.03 % of 649.99 = 349.99

- (a) 36%
 - (b) 24%
 - (c) 20%
 - (d) 30%
 - (e) 40%
-

56. $5.03 \times (? + 12.01) + 29.99 \% \text{ of } 899.99 = 359.99$

- (a) 10
 - (b) 8
 - (c) 6
 - (d) 4
 - (e) 12
-

Read the following information carefully and answer the questions given below. Number of male and female employee work in four different company i.e., P, Q, R and S. Number of male employee in company P is 560 which is 100% more than that of female. Ratio of male to female employee in company Q is 4:5 and number of females in company P is equal to number of male employees in company Q. Total number of male in all the four companies is 1760 and total no. of employees in all the four companies is 3500. no. of male in company S is 420 and no. of female in company R is 650.

58. Find the total number of male employees in company R and number of female employees in company S together.

- (a) 925
- (b) 980
- (c) 915
- (d) 960
- (e) 940

59. Find the average number of female employees in all the four company.

- (a) 425
- (b) 465
- (c) 445
- (d) 475
- (e) 435

60. Number of female employees in company S is approximately what % no. of male employee in company P.

- (a) 44%
- (b) 70%
- (c) 54%
- (d) 94%
- (e) 82%

In the following questions, two equations (I) and (II) are given. You have to solve both the equations and answer the following questions.

64. I. $3x + 2y = 7$ II. $2x + 5y = 12$

- (a) $x < y$
- (b) $x > y$
- (c) $x \leq y$
- (d) $x = y$ or no relation between x & y .
- (e) $x \geq y$

Study the following information carefully and answer the questions given below. Ten persons sit in two parallel rows in such a way that the persons sit in row 1 face south while the persons sit in row 2 face north. Persons sit in row 1 face the persons who sits in row 2 and vice versa. One person sits to the left of B. A sits 3rd to the right of E and faces M. O sits immediate left of the person who faces B. P sits 3rd to the right of N who doesn't face C. Q neither sit in row 2 nor with A. M doesn't sit with B in the same row. D is one of the persons.

66. Four of the following five are alike in a certain way and hence form a group. Who among the one doesn't belong to that group?

- (a) Q
- (b) C
- (c) N
- (d) E
- (e) D

67. Who among the following sits immediate right of A?

- (a) C
 - (b) D
 - (c) B
 - (d) No one
 - (e) None of these
-

68. Who among the following sits opposite to D?

- (a) P
 - (b) O
 - (c) N
 - (d) Q
 - (e) Either P or N
-

69. How many persons sit between Q and M?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Either two or three
 - (e) None of the above
-

70. If Q is related to B in the same way P is related to C, then who among the following is related to A?

- (a) D
 - (b) N
 - (c) M
 - (d) O
 - (e) None of these
-

71. If in a certain code language "another world change" is coded as "nh ae dr" similarly "change necessary world" is coded as "dr cy ae" then what will be the code for " necessary another"?

- (a) ae dr
 - (b) dr nh
 - (c) cy dr
 - (d) nh cy
 - (e) Can't be determined
-

Study the following information carefully to answer the given questions. Seven plants are planted in a garden in different direction at different distance with respect to each other. Plant P is 10m to the north of plant R which is 5m to the west of plant U. Plant V is 12m to the east of plant S which is 6m to the north of plant U. Plant Q is to the north of plant V and to the east of plant P. The distance between plant P and plant T is twice of the distance between plant V and plant Q. Plant P is to the east of plant T.

72. In which direction is plant T with respect to plant V?

- (a) West
 - (b) South west
 - (c) North east
 - (d) North west
 - (e) South
-

73. What is the sum of the distance between (plant P and plant T) and (plant Q and plant V)?

- (a) 17m
 - (b) 14m
 - (c) 12m
 - (d) 15m
 - (e) 16m
-

74. Four of the following five are alike in a certain way and hence form a group. Find the one who doesn't belong to the group?

- (a) S-Q
 - (b) R-V
 - (c) U-V
 - (d) R-Q
 - (e) T-U
-

Study the following information carefully to answer the given questions. Ten persons i.e., M, N, O, P, Q, R, S, T, U and V live in two different flats (but not necessarily in the same order) viz. Flat A and Flat B of a five-floor building such that the lowermost floor is numbered as 1 and the floor just above it is numbered as 2 and so on till the topmost floor is numbered as 5. Flat A is to the west of flat B whereas flat A of floor 2 is immediately above flat A of floor 1 and flat B of floor 2 is immediately above flat B of floor 1 and so on. Two floors gap between U and V who lives below U's floor. U lives on an odd numbered floor and lives just to the north- west of R. R lives three floors above P. S lives on the same floor as P but not in flat A. M lives on an even numbered floor and lives in the north- west N. N doesn't live on odd numbered floor. Q lives below O in the same named flat as P.

75. In which of the following flat and floor does T live?

- (a) Flat A, floor 3
 - (b) Flat B, floor 3
 - (c) Flat A, floor 5
 - (d) Flat B, floor 1
 - (e) Flat B, floor 2
-

76. Which among the following statement(s) is/are not true? I. Q lives on an odd numbered floor II. O and U live in the same named flat III. V lives in flat A

- (a) Both I and II
 - (b) Both II and III
 - (c) Only II
 - (d) Both I and III
 - (e) Only III
-

77. Four of the following five are alike in a certain way and hence form a group. Find the one who doesn't belong to the group?

- (a) U
 - (b) T
 - (c) P
 - (d) S
 - (e) M
-

78. How many floors are there between U and S?

- (a) One
- (b) Two

- (c) Three
 - (d) Either one or two
 - (e) None
-

In each of the questions below, some statements are given followed by some conclusions numbered as I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Give answer.

79. Statements: No gold is stone. Only a few metal is stone. Some silver is gold. Conclusions I: All silver can be stone
II: Some metal is not gold

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Neither conclusion I nor II follows
 - (e) Both conclusions I and II follow
-

80. Statements: Only square is triangle. Only a few rhombus is sphere. Some sphere is square. Conclusions I: Some triangle is not rhombus II: All rhombus can never be sphere.

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Neither conclusion I nor II follows
 - (e) Both conclusions I and II follow
-

81. Statements: Some butter is not cake. Some cookies is cake. All bread is butter Conclusions I: All bread being cookies is a possibility II: Some bread is not cake.

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Neither conclusion I nor II follows
 - (e) Both conclusions I and II follow
-

82. Statements: Some trouser is shirt. No skirt is shirt. Only a few jeans are skirt. Conclusions I: No trouser is skirt II: All skirt is trouser

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Neither conclusion I nor II follows
 - (e) Both conclusions I and II follow
-

83. Statements: Only a few bus is Jeep. Some Jeep is truck. All car is truck. Conclusions I: Some car is Bus II: No bus is car

- (a) Only conclusion I follows
 - (b) Only conclusion II follows
 - (c) Either conclusion I or II follows
 - (d) Neither conclusion I nor II follows
 - (e) Both conclusions I and II follow
-

Study the following information carefully to answer the given questions. Eight persons are there in a family of three generation. T is brother-in-law of M who is daughter-in-law of J. U is father of S who is only daughter of M. J has only two children. T is paternal uncle of H. J is brother-in-law of E and has no siblings. E is brother of R.

84. How R is related to H?

- (a) Father
- (b) Grandfather
- (c) Mother
- (d) Grandmother
- (e) Sister

85. Which among the following statement(s) is/are true? I. R is elder than S II. S is sister of H III. E is father of M

- (a) Only III
- (b) Both I and II
- (c) Only I
- (d) All I, II and III
- (e) Both I and III

86. How many married couples are in the family?

- (a) One
- (b) None
- (c) Two
- (d) Three
- (e) Can't be determined

Study the following information carefully to answer the given questions. Seven persons get different number of chocolates. E gets more chocolates than at most two persons. Two persons get chocolates between E and G. E gets more chocolates than K and just less chocolates than M. The number of persons gets more chocolates than K is same as the number of persons gets less chocolates than G. E has 3 chocolates less than J who has chocolates which is equal to the smallest two-digit number. J gets more chocolates than L but doesn't get the highest number of chocolates. D gets 6 chocolates more than E.

87. What is the sum of the chocolates does D, J and E have?

- (a) 33
- (b) 20
- (c) 30
- (d) 25
- (e) 28

88. How many persons get less chocolates than the one who gets just more chocolates than G?

- (a) Two
- (b) Four
- (c) Five
- (d) Three
- (e) More than five

89. What may be the possible number of chocolates does M get?

- (a) 5
- (b) 12
- (c) 9

- (d) 6
 - (e) 11
-

90. If we form a four-letter meaningful word with 2nd, 4th, 9th and 10th letter from the left end of the word 'DISCUSSION', then what would be the first letter of that meaningful word? If no meaningful word is formed, then mark the answer as X. If more than one meaningful word is formed then, mark the answer as Z.

- (a) C
 - (b) N
 - (c) X
 - (d) I
 - (e) Z
-

Study the following information carefully and answer the questions given below. Eight persons from P to W were born in eight different months of a year but not necessarily in the same order. Months are from January to August. Consecutive alphabetical named persons are not born in adjacent month. No one was born between R and P who was born in the month having minimum number of days. Three persons were born between R and U. Three persons were born between Q and V who was born just after S.

91. How many persons were born between R and W?

- (a) Two
 - (b) Three
 - (c) Four
 - (d) Five
 - (e) More than five
-

92. Who among the following was born in June?

- (a) S
 - (b) V
 - (c) R
 - (d) W
 - (e) None of these
-

93. Four of the following five are alike in a certain way and thus forms a group, then who among the following doesn't belong to that group?

- (a) T
 - (b) R
 - (c) Q
 - (d) S
 - (e) V
-

94. Who among the following was born just before S?

- (a) R
 - (b) W
 - (c) V
 - (d) Either R or V
 - (e) Either W or R
-

95. In which of the following month V was born?

- (a) July
- (b) April
- (c) March
- (d) May
- (e) August

96. How many pairs of letters are there in the word 'SIMPLIFICATE', each of which has as many letters between them as they have in English alphabetical series (both forward and backward direction)?

- (a) One
- (b) Three
- (c) Four
- (d) Two
- (e) More than four

Study the following information carefully and answer the questions given below. Nine persons like three different subjects viz., Sociology, Economics and English. Not less than two persons and not more than four persons like the same subject. A and M like same subject but not English. B likes a subject only with R. Y likes Economics. O and P like same subject same as the Y likes. Z and U like same subject.

97. Who among the following likes Economics?

- (a) R
- (b) B
- (c) O
- (d) Z
- (e) Both Z and R

98. Who among the following likes English?

- (a) B
- (b) M
- (c) R
- (d) Both B and R
- (e) None of these

99. Which of the following statement is true?

- (a) Z likes English.
- (b) A and U like same subject
- (c) O and U like same subject
- (d) B doesn't likes English
- (e) All are true

100. Which of the following combination is not true?

- (a) O- English
 - (b) Z - Sociology
 - (c) B- English
 - (d) P- Economics
 - (e) None is true
-
