

SBI Clerk Prelims 2024

95 questions

Read the following passage and answer the given questions. Leadership is not just about making decisions; it is about taking responsibility, managing risks, and maintaining balance in different aspects of life. Many individuals struggle with leadership, especially when they have to manage both business responsibilities and family commitments. The ability to lead effectively requires confidence, adaptability, and a clear sense of priorities. Tyson, like many aspiring leaders, initially struggled with indecisiveness. He feared making the wrong choices and avoided risks, believing that playing it safe was the best approach. However, when he took charge of his family's business, he quickly realized that hesitation could lead to missed opportunities. Business success depends on making timely decisions, even in uncertain situations. Leadership is about assessing risks, finding solutions, and taking action without unnecessary delays. One of the key lessons Tyson learned was that leadership in business and family life _____ different but complementary skills. In business, he needed to be strategic, assertive, and willing to take calculated risks. At home, leadership meant being present, making time for loved ones, and ensuring that his commitments to family were not overshadowed by professional demands. Many business leaders face this challenge—how to be effective at work while also fulfilling their responsibilities at home. Tyson discovered that strong organizational skills were essential in maintaining this balance. He developed a structured approach to his work, setting clear goals and prioritizing tasks. He also learned to delegate, trusting his team to handle operations when necessary, allowing him to focus on long-term growth. At home, he applied the same principles by setting aside quality time for his family, ensuring that his leadership role in business did not come at the expense of personal relationships. Effective leadership requires the ability to manage impulses, remain focused, and make informed decisions. Balancing business and family commitments is challenging, but with proper planning, self-discipline, and a strong support system, it is possible to excel in both. True leadership is not just about professional success—it is about maintaining stability in all areas of life.

1. Identify the correct statement based on the passage.

- (a) Leadership is primarily about maintaining authority and making quick decisions.
- (b) Delegating responsibilities in business is unnecessary if a leader is highly skilled.
- (c) A successful leader must develop both strategic and emotional intelligence.
- (d) Both (a) and (b)
- (e) All (a), (b) and (c)

2. Which of the following statements is true according to the passage?

- (a) Effective leadership requires balancing personal and professional responsibilities.
- (b) Tyson realized that making timely decisions is crucial for business success.
- (c) Strong leadership is solely about making quick decisions without assessing risks.
- (d) Both (a) and (b)
- (e) All (a), (b) and (c)

3. Choose the word that is closest in meaning to "key" as used in the passage.

- (a) Crucial
- (b) Superficial
- (c) Unrelated
- (d) Minor
- (e) Optional

4. Select the word that is most similar in meaning to "impulse" as used in the passage.

- (a) Instinct
- (b) Calculation
- (c) Caution
- (d) Delay
- (e) Indifference

5. Choose the most appropriate word for the given blank.

- (a) involve
 - (b) provide
 - (c) requires
 - (d) consisting
 - (e) demanding
-

6. According to the passage, why did Tyson initially struggle with leadership?

- (a) He was overly confident and took unnecessary risks, leading to frequent failures.
 - (b) He hesitated to make decisions and avoided risks, believing that safety ensured success.
 - (c) He lacked technical business knowledge and struggled to manage financial resources.
 - (d) He prioritized family responsibilities over business, which led to instability in both areas.
 - (e) He was unable to communicate effectively with his team, causing inefficiencies.
-

7. What lesson did Tyson learn regarding leadership in both business and family life?

- (a) The same leadership style should be applied in all situations for consistency.
 - (b) Leadership is only about professional success, as family matters are secondary.
 - (c) Leadership in business requires strategic thinking, while family leadership demands emotional presence.
 - (d) Avoiding risks in business and family life ensures long-term stability.
 - (e) Business and family leadership require entirely different skill sets that do not overlap.
-

8. Why did Tyson find organizational skills essential for leadership?

- (a) They allowed him to handle every task personally without delegating responsibilities.
 - (b) They encouraged him to focus on long-term goals instead of daily operations.
 - (c) They helped him focus entirely on business success without worrying about personal commitments.
 - (d) They enabled him to manage his business efficiently while maintaining a work-life balance.
 - (e) They taught him that rigid scheduling is the only way to manage leadership challenges.
-

In the following passage there are blanks, each of which has been denoted by a letter. For each blank, five options are given. Choose the most appropriate word from the options that fits the blank appropriately. Obesity has become a major health _____ (A) in many countries. Over the past few decades, the number of obese people has increased _____ (B). Poor eating habits, lack of physical activity, and unhealthy lifestyles are some of the main causes of obesity. This condition leads to several serious diseases, including diabetes, heart disease, and high blood pressure. Governments and health organizations are working to raise _____ (C) about the dangers of obesity. They encourage people to eat a balanced diet and exercise regularly. Schools are also taking steps to promote healthy habits among children. However, despite these efforts, the problem continues to _____ (D). Simple changes, such as avoiding junk food and staying active, can make a big _____ (E). In addition, the government should implement strict policies to reduce the consumption of sugary drinks and processed foods. Only through collective efforts can we _____ (F) this growing crisis.

9. Which of the following word best fits in blank (A)?

- (a) issue
 - (b) solution
 - (c) victory
 - (d) policy
 - (e) happiness
-

10. Which of the following word best fits in blank (B)?

- (a) scarcely
 - (b) gradually
 - (c) partially
 - (d) carelessly
 - (e) poorly
-

11. Which of the following word best fits in blank (C)?

- (a) ignorance
 - (b) confusion
 - (c) awareness
 - (d) hesitation
 - (e) disturbance
-

12. Which of the following word best fits in blank (D)?

- (a) disappear
 - (b) improve
 - (c) recover
 - (d) worsen
 - (e) vanish
-

13. Which of the following word best fits in blank (E)?

- (a) mistake
 - (b) difference
 - (c) trouble
 - (d) damage
 - (e) loss
-

14. Which of the following word best fits in blank (F)?

- (a) invite
 - (b) welcome
 - (c) increase
 - (d) create
 - (e) control
-

Read the sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The letter of that part is the answer. If the given sentence is grammatically and contextually correct, then choose option "No error" as your answer response. (Ignore errors of punctuation, if any).

15. The doctor careful (A)/ examined the patient (B)/ and prescribed the necessary (C)/ medication for a speedy recovery. (D)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No error
-

16. She decided (A)/ to join the gym (B)/ in order too (C)/ improve her fitness. (D)

- (a) A

- (b) B
 - (c) C
 - (d) D
 - (e) No error
-

17. The cat escaped (A)/ though the open (B)/ window before (C)/ anyone could catch it. (D)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No error
-

18. He carry the (A)/ heavy suitcase (B)/ up the stairs (C)/ without any help. (D)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No error
-

19. Please bring (A)/ your notebook (B)/ to the meeting so (C)/ you can took notes. (D)

- (a) A
 - (b) B
 - (c) C
 - (d) D
 - (e) No error
-

In the sentence given below, three words are highlighted in bold. Rearrange these words to form a meaningful and grammatically correct sentence. If the words are already in the correct order, select "No rearrangement required" as the answer.

20. The clock (A) inside feels solemn, with a high wall silently (B) ticking almost ambiance (C).

- (a) BAC
 - (b) CAB
 - (c) ACB
 - (d) CBA
 - (e) No rearrangement required
-

21. Their enduring (A) represented meeting (B) and goodwill, inspiring an devotion (C) spirit even today.

- (a) BCA
 - (b) BAC
 - (c) CAB
 - (d) ACB
 - (e) No rearrangement required
-

22. Mini feeling (A), seeing half her bowl still (B) full, already sighed (C) completely satisfied.

- (a) CAB
- (b) BAC
- (c) ACB

- (d) CBA
 - (e) No rearrangement required
-

23. That afternoon, the snooping (A) visited the brothers (B) site, curiously theft (C) around for clues.

- (a) BAC
 - (b) CBA
 - (c) BCA
 - (d) ACB
 - (e) No rearrangement required
-

In each of the following questions, a sentence contains a highlighted phrase that may be grammatically incorrect. Choose the most appropriate option from the given alternatives to replace the highlighted phrase and correct the sentence. If the highlighted phrase is correct as it is, then choose "No replacement required" as the correct answer.

24. She put up her scarf carefully, enjoying the warmth it provided her.

- (a) kept
 - (b) bought
 - (c) adjusted
 - (d) made
 - (e) No replacement required
-

25. She carefully book into the antique vase on the wooden shelf, ensuring it wouldn't tip over.

- (a) refused
 - (b) placed
 - (c) misplaced
 - (d) returned
 - (e) No replacement required
-

26. Tanusha felt driven away, as if struck by an unexpected earthquake.

- (a) adored
 - (b) elated
 - (c) fenced
 - (d) shaken
 - (e) No replacement required
-

27. Sun set behind hills, air chilled, and children look after for comfort and company.

- (a) huddled
 - (b) packed
 - (c) flowed
 - (d) spiced
 - (e) No replacement required
-

28. Many arrive to take in royalty, but few can truly prove their lineage.

- (a) stealing
- (b) fulfilling
- (c) taking
- (d) claiming
- (e) No replacement required

In the question, one word is given in bold and correspondence to that, three sentences are given each containing that word. Choose the option depicting the sentence(s) that have/ has the correct usage of the word.

29. **HOARDING** (I) The government launched a campaign to discourage hoarding of essential supplies during the crisis. (II) His habit of hoarding old newspapers and magazines made his house extremely cluttered. (III) The supermarket imposed a limit on certain items to prevent people from hoarding and creating shortages.

- (a) Only (I)
 - (b) Both (I) and (III)
 - (c) Only (III)
 - (d) All (I), (II) and (III)
 - (e) Only (II)
-

30. **ALIGHT** (I) The passengers waited for the train to stop before they began to alight from the compartments. (II) He was so tired that he just wanted to alight on the bed and sleep. (III) The campfire suddenly caught alight, illuminating the dark forest around them.

- (a) Only (III)
 - (b) Only (II)
 - (c) Both (I) and (III)
 - (d) Both (I) and (II)
 - (e) All (I), (II) and (III)
-

The table given below shows the number of students (Girls + Boys) in four different classes (A, B, C & D).

31. Find the average number of boys in C and B is what percent less than girls in D.

- (a) 25
 - (b) 30
 - (c) 15
 - (d) 40
 - (e) 35
-

32. Find the ratio of girls in B and C together to boys in D.

- (a) 2:5
 - (b) 1:1
 - (c) 1:5
 - (d) 4:3
 - (e) 5:3
-

33. In class F, the number of boys is 20% more than that in B and number of girls is $\frac{5}{6}$ of girls in C. Find the total number of students in F.

- (a) 125
 - (b) 118
 - (c) 115
 - (d) 114
 - (e) 113
-

34. 25% students are present in class C. Find the absent students in class C.

- (a) 12
- (b) 36
- (c) 30

- (d) 40
 - (e) 35
-

35. Total student in B and A together is what percentage of total girls in D (approx.).

- (a) 225
 - (b) 230
 - (c) 260
 - (d) 240
 - (e) 235
-

The line graph given below shows the products sold in the month of January, February, March and April.

36. The cost of product sold in January is Rs 20. If the cost of the product sold in the month of February is 20% more than that of January, then find the revenue(in Rs) generated in February.

- (a) 3325
 - (b) 3360
 - (c) 3315
 - (d) 3340
 - (e) 3335
-

37. In June, the product sold is the average number of products sold in January and February. If 20% of product are sold in June, then find the unsold product in June.

- (a) 525
 - (b) 530
 - (c) 520
 - (d) 540
 - (e) 535
-

38. Find the average number of products sold in the given months.

- (a) 147.5
 - (b) 130
 - (c) 115.5
 - (d) 140.5
 - (e) 135.5
-

39. Find the ratio of products sold in January and February together to products sold in April.

- (a) 1:25
 - (b) 13:9
 - (c) 12:5
 - (d) 1:4
 - (e) 9:13
-

40. The product sold in the month of March is what percentage of product sold in January.

- (a) 125
- (b) 130
- (c) 115
- (d) 140
- (e) 135

Read the following information carefully and answer the questions given below. The ratio of the number of pizzas sold by A to B is 4:7, and the number of burgers sold by A is 20 less than the number of pizzas sold by B. The total number of burgers and pizzas sold by B is 150 and the total number of pizzas sold by A is 40.

41. Find the total number of pizzas and burgers sold by A.

- (a) 60
 - (b) 90
 - (c) 80
 - (d) 100
 - (e) 120
-

42. The number of burgers sold by A is what percentage of the number of pizzas sold by B?

- (a) $29\frac{3}{7}\%$
 - (b) 14.28%
 - (c) 66.67%
 - (d) 54.33%
 - (e) $71\frac{3}{7}\%$
-

43. The number of burgers sold by C is 25% more than pizzas sold by A, then find the difference between the number of burgers sold by C and the number of pizzas sold by A.

- (a) 5
 - (b) 10
 - (c) 15
 - (d) 20
 - (e) 30
-

Read the following information carefully and answer the questions given below. Total males planted trees on Saturday is 400, and the total males planted trees on Sunday is 60% more than that of those on Saturday. The ratio of total males to total females who planted trees on Sunday is 8:3. Total females who planted trees on Saturday is 40 less than that on Sunday.

44. Find the sum of the total females who planted trees on Saturday and the total males who planted trees on Sunday.

- (a) 800
 - (b) 840
 - (c) 980
 - (d) 910
 - (e) 750
-

45. Find the difference between the total males and total females who planted trees on Sunday.

- (a) 400
 - (b) 450
 - (c) 420
 - (d) 230
 - (e) 320
-

46. The average weight of 40 students in class is 35 kg. The weights of two students were wrongly entered as 44 kg and 40 kg instead of 42 kg and 38 kg, respectively. Find the correct average weight of the class.

- (a) 31.9 kg
- (b) 34.4kg

- (c) 31.2 kg
 - (d) 30.9 kg
 - (e) 34.9 kg
-

47. The perimeter of a circle is 88 meter and the radius of the circle is 2 meter more than the breadth of a rectangle. If the area of the rectangle is 180 sq meter, then find the length of the rectangle (in meter).

- (a) 15
 - (b) 20
 - (c) 12
 - (d) 16
 - (e) 24
-

48. The selling price of the article is 270, when it is sold at 10% loss. If the article sold at the profit of 35%, then find the profit (in Rs).

- (a) 115
 - (b) 105
 - (c) 112
 - (d) 106
 - (e) 124
-

49. Pipe A and pipe B can fill a tank in 9 hours and 6 hours respectively. Pipe C takes 7.5 hours to empty the tank. If pipe A and pipe B together open for three hours and after that pipe C is open, then find time taken by pipe C to empty the tank.

- (a) 6.25
 - (b) 5.05
 - (c) 5.12
 - (d) 4.23
 - (e) 6.24
-

50. In a factory 40% are females and out of total males 65% are above the age of 50 years. If total males under the age of 50 years or equal to 50 years are 4200, then find the number of females in the factory?

- (a) 5000
 - (b) 8000
 - (c) 1200
 - (d) 1600
 - (e) 6400
-

What will come in the place of question (?) mark in following the question:

53. $544 \div 8.5 \times 4 = 2^{(?)}$

- (a) 7
 - (b) 3
 - (c) 1
 - (d) 8
 - (e) 9
-

55. $?^2 \times (2^6 + 6^2) = 60^2$

- (a) 5

- (b) 4
 - (c) 8
 - (d) 6
 - (e) 2
-

56. $?^3 + 2^9 = 32^2$

- (a) 6
 - (b) 4
 - (c) 8
 - (d) 2
 - (e) 10
-

57. $2844.8 \times 5 - 2844.8 = ?$

- (a) 1129.2
 - (b) 113789
 - (c) 11379.2
 - (d) 11223.4
 - (e) None of these
-

58. $1640 \div 4.1 - 32 \times 50 = ?$

- (a) 500
 - (b) 490
 - (c) 400
 - (d) 450
 - (e) None of these
-

61. Y is 75% of the P and the average of both the numbers is 30 less than the P, then find value of 20% of Y?

- (a) 52
 - (b) 36
 - (c) 12
 - (d) 180
 - (e) 64
-

62. A vessel contains 80 liters of milk and water in the ratio of 3:5. If X liters of water are added to the vessel, then the ratio of water to milk becomes 2:1, respectively. Find X.

- (a) 5
 - (b) 10
 - (c) 15
 - (d) 20
 - (e) 25
-

63. The ratio of the present ages of A to B is 5:9, respectively. After four years, the ratio of the ages of A to B is 7:11, respectively. Find the age of B two years ago (in years).

- (a) 9
- (b) 10
- (c) 13
- (d) 22
- (e) 16

64. A man invested Rs X in simple interest at 20% p.a. for three years and received interest of Rs 2400. If he invested the same amount in compound interest at 10% p.a. for two years, then find the interest received by him (in Rs).

- (a) 840
 - (b) 660
 - (c) 1130
 - (d) 820
 - (e) 750
-

65. A X-meter-long train can cross a pole in 16 seconds, and the speed of the train is 25 m/sec. If the length of a bridge is $X + 150$ meters, then find the time taken by the train to cross the bridge (in seconds).

- (a) 40
 - (b) 60
 - (c) 30
 - (d) 20
 - (e) 38
-

Study the following letter-number-symbol sequence and answer the questions given below: 2 U H # K 7 % M ! R O @ 2 I B 9 8 % P 5 \$ 1 * A

66. Which of the following element is 4th to the left of 9th element from the right end?

- (a) B
 - (b) 9
 - (c) %
 - (d) @
 - (e) 8
-

67. How many letters are immediately succeeded by a number and immediately preceded by a symbol?

- (a) One
 - (b) Four
 - (c) Two
 - (d) Five
 - (e) None of these
-

68. How many symbols are immediately preceded as well as immediately succeeded by consonants?

- (a) One
 - (b) Four
 - (c) Five
 - (d) Two
 - (e) Three
-

69. Four of the following five are alike in a certain way and hence form a group. Who among the following does not belong to that group?

- (a) UK#
 - (b) 7P1
 - (c) B%8
 - (d) MOR
 - (e) \$A*
-

70. How many even numbers are between 7th element from left and 3th element from right in the given series?

- (a) One
 - (b) Three
 - (c) Four
 - (d) Two
 - (e) None
-

71. In a certain code language, "POWER" is coded as "OPWRE", and "GREAT" is coded as "RGETA". Following the same pattern, what is the code for "WAVES"?

- (a) AWWSE
 - (b) AWSVE
 - (c) WAVSE
 - (d) AWEVS
 - (e) None of these
-

In these questions, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer:

72. Statements: $S \geq G > K = E > B < J > P$ Conclusions: I. $B \leq S$ II. $S > E$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If both conclusions I and II are true
 - (e) If neither conclusion I nor II is true
-

73. Statements: $F < Y \leq J \leq Q = L > V < A$ Conclusions: I. $L = Y$ II. $L > Y$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If both conclusions I and II are true
 - (e) If neither conclusion I nor II is true
-

74. Statements: $G > U = C \geq Z > R > I < W \leq T$ Conclusions: I. $G > I$ II. $C > T$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If both conclusions I and II are true
 - (e) If neither conclusion I nor II is true
-

75. Statements: $Y < W < J \geq N$; $W < P \leq Z$ Conclusions: I. $W < Z$ II. $P > Y$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If both conclusions I and II are true
 - (e) If neither conclusion I nor II is true
-

76. Statements: $B < K = F \geq J$; $N \leq D > K$ Conclusions: I. $J < D$ II. $D \geq F$

- (a) If only conclusion I is true
- (b) If only conclusion II is true

- (c) If either conclusion I or II is true
 - (d) If both conclusions I and II are true
 - (e) If neither conclusion I nor II is true
-

77. How many pairs of letters are in the word "DAUGHTER" in both forward and backward directions, each of which has as many letters between them as in the English alphabetical series?

- (a) Four
 - (b) Two
 - (c) Three
 - (d) One
 - (e) More than four
-

78. How many such digits are there in the number '74215398' which will remain at the same position when arranged in ascending order from left to right?

- (a) Four
 - (b) One
 - (c) Three
 - (d) Two
 - (e) None
-

Study the following information carefully and answer the questions given below: Six persons are comparing their weights in decreasing order from left to right. B is just heavier than A. Three persons are lighter than A. C is heavier than J. J is not the lightest person. H is heavier than C. One person is M.

79. How many persons weigh between B and J?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

80. If H is related to A and in the same way C is related to M, then B is related to who among the following person?

- (a) C
 - (b) A
 - (c) J
 - (d) M
 - (e) None of these
-

81. Who among the following is the heaviest person?

- (a) B
 - (b) M
 - (c) H
 - (d) A
 - (e) None of these
-

82. If it is possible to make a meaningful word using 1st, 3rd, 5th and 6th letters (From left end) of the word "MENTORS", then what will be the 2nd letter from left end of that meaningful word? If no such meaningful word can be formed, mark the answer as 'X', if more than one words can be formed, mark the answer as 'Y'?

- (a) R
- (b) O
- (c) M
- (d) X
- (e) Y

Read the given information carefully and answer the relates questions: A certain number of persons sit in a row facing north. Three persons sit between A and B. C sits sixth to the left of B. D sits exactly between C and A. E sits fourth to the right of D. Five persons sit between E and F. C sits to the right of F. Number of persons sit between F and B is twice the number of persons to the left of F. four persons sit between E and G. No one sits to the right of G.

83. How many persons sit in the row?

- (a) 11
- (b) 12
- (c) 13
- (d) 14
- (e) 15

84. What is the position of B with respect to G?

- (a) Second to the right
- (b) Fourth to the left
- (c) Seventh to the left
- (d) Fifth to the right
- (e) Immediate left

85. How many persons sit to the left of A?

- (a) Eleven
- (b) Nine
- (c) Six
- (d) Eight
- (e) Twelve

Study the following information carefully and answer the questions given below: Eight boxes – A, B, C, D, E, F, G, and H are placed one above another in a stack but not necessarily in the same order. Box G is placed three boxes above Box H. Two boxes are placed between box F and box B which is placed immediately above Box H. Box F is placed below Box H. Box F is not placed at either topmost or bottom- most position. Box E is placed above box B. As many boxes are placed above Box E as below Box A. Box C is placed above Box D. Box C is placed above Box H but not at the topmost position.

86. How many boxes are placed between Box E and the box which is placed just below Box H?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None

87. Which box is placed exactly between Box B and Box A?

- (a) Box E
- (b) Box C
- (c) Box H

- (d) Box G
 - (e) Box D
-

88. Which box is placed at the fourth position from the top?

- (a) Box G
 - (b) Box B
 - (c) Box H
 - (d) Box D
 - (e) None of these
-

89. If all the boxes are arranged in alphabetical order from top to bottom, how many boxes will remain in their original position?

- (a) None
 - (b) One
 - (c) Two
 - (d) Three
 - (e) Four
-

90. How many boxes are placed between box C and box H?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

Read the given information carefully and answer the related questions: Eight persons sit around a circular table facing inside. R sits third to the left of M. One person sits between R and S. T sits immediate left of S. G sits opposite to T. K sits immediate left of G. F sits immediate right of O.

91. Who among the following sits second to the right of F?

- (a) T
 - (b) S
 - (c) M
 - (d) R
 - (e) K
-

92. What is the position of O with respect to M?

- (a) Immediate right
 - (b) Second to the right
 - (c) Third to the right
 - (d) Immediate left
 - (e) Second to the left
-

93. How many persons sit between S and F when counted from the left of S?

- (a) None
- (b) One
- (c) Two
- (d) Three

(e) Four

94. Which of the following statement is correct?

- (a) O and G does not sit adjacent to each other
 - (b) F sits opposite to M
 - (c) None is correct
 - (d) S sits second to the right of O
 - (e) One person sits between M and K
-

95. Four of the following five are similar in a certain manner, which among the following is dissimilar to others?

- (a) F-M
 - (b) R-K
 - (c) T-G
 - (d) S-O
 - (e) R-G
-

Study the following information carefully and answer the question given below: Nine people A, B, C, D, E, F, G, H and I were born in different months March, April, May, June, July, August, September, October and November of the same year. (But not necessarily in the same order) Three people were born between F and the one who was born in July, and B was born before H but on a month having 30 days. No one was born between F and A. Three people were born between A and H. Three people were born between I and C. Not more than two persons were born between D and E who were born after D. I was born before B. G is not the youngest person and was born after E.

96. Who was born in March?

- (a) F
 - (b) I
 - (c) E
 - (d) A
 - (e) B
-

97. How many people were born between H and F?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) Six
-

98. Which of the following statement(s) is/are true? I. B was born on April II. One person is born between D and C. III. G was born after F

- (a) Only I
 - (b) Both II and III
 - (c) Both I and II
 - (d) Only II
 - (e) All I, II and III
-

99. Four of the following five are alike in a certain way and hence form a group. Which one does not belong to the group?

- (a) G

- (b) C
 - (c) D
 - (d) E
 - (e) A
-

100. Which of the following represents the people who were born in September and October respectively?

- (a) A, F
 - (b) G, A
 - (c) C, E
 - (d) A, I
 - (e) None of thes
-
