Directions: Read the following passage carefully and answer the questions given below. Certain words are given in bold to help you locate them while answering some of the questions.

Renewable energy is the future, and the future is finally here. Global investment in renewable energy shot up last year, far outstripping investment in fossil fuels, according to a UN report. As the price of clean energy technology **plummets**, it has become an increasingly attractive prospect for world governments. China was by far the world's largest investor in renewable energy in 2017, **accounting for** nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year. Other countries including Australia, Sweden and Mexico more than doubled the amount of money they pumped into clean energy projects. "Yet again, this was a record year for new renewable power capacity being financed," Francoise d'Estais from UN Environment's energy and climate branch told The Independent. "We had a record 157 gigawatts commissioned last year, far outstripping the fossil fuel generating capacity, which we estimated as 70 gigawatts."

In just over a decade, concerted investment has increased the proportion of world electricity generated by wind, solar and other renewable sources from around 5 per cent to 12 per cent. "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation." But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains ____ (A) ____ to the energy transition. The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year – the equivalent of removing the entire US transport system. According to the Wind and Solar Atlas, there are opportunities and potential for Wind and Solar plants in the East and West Nile areas that will produce around 31,150 MW from wind and 52,300 MW from solar. Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination.

The UK has been performing well in clean energy generation, with recent figures showing wind and solar sources had overtaken nuclear as suppliers of electricity. However, despite these positive trends, 2017 saw a big drop of 65 per cent in British renewables investment. Experts have criticised the withdrawal of UK support for onshore wind, as previous analysis has demonstrated it already has the capacity to outcompete fossil fuels as a power source. As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important.

Question 1: Which of the following statements are correct as per the given passage?

- (I) The decrease in the cost of renewable energy resulted in its wide use.
 - (II) China massively supported solar power and became the largest investor in renewable energy.
 - (III) Egypt is conducting feasibility studies for building the largest solar power plant.
- A) Only (I)
B) Only (II)
C) Only (III)
D) Both (II) and (III)
E) All (I), (II) and (III)

Question 2: What did the author mean by the line "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation."?

- (I) The growth of renewable energy in the electricity sector is not that impressive.
 - (II) Electricity sector has performed the best for renewables.
 - (III) Hydropower generation has made a significant contribution to the electricity sector.
- A) Only (I)
B) Only (II)
C) None
D) Both (II) and (III)
E) All (I), (II) and (III)

Question 3: Which of the following is/are the positive effect(s) of renewable energy?

- (I) Overall increase in the global temperature.
- (II) Reduction in Carbon dioxide emissions to a considerable amount

(III) Nile being converted into a biodiversity hotspot.

- A) Only (I)
- B) Only (II)
- C) Only (III)
- D) Both (II) and (III)
- E) All (I), (II) and (III)

Question 4: Why are government subsidies likely to become less important for the renewable energy sector?

- A) Because China is increasing the investment in this sector.
- B) Because the price of clean energy technology continues to plummet.
- C) Because fossil fuels is the better alternative
- D) Because there are opportunities and potential for Wind and Solar plants in the East and West Nile areas
- E) None of the above

Question 5: Which of the following words will come in place of (A) as given in the passage?

- A) Elevate
- B) Existence
- C) Erratic
- D) Diabolic
- E) Critical

Question 6: Which of the following words is most similar in meaning to "accounting for" as given in the passage?

- A) contradict
- B) contributing
- C) devious
- D) retrieve
- E) categorical

Question 7: Which of the following words is most similar in meaning to "plummets" as given in the passage?

- A) Intensify
- B) Escalate
- C) Callous
- D) Slump
- E) Reminiscent

Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct.

On October 29, 1929, Black Tuesday hit Wall Street as investors ____ (A) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____ (B) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____ (C) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____ (D) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____ (E) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday.

Question 8: (A)

- A) Traded
- B) Invaded
- C) Segregated

- D) Daunted
- E) Halted

Question 9: (B)

- A) Affording
- B) Wiping
- C) Wanting
- D) Vacating
- E) Artificial

Question 10: (C)

- A) Reprimanded
- B) Embedded
- C) Spiraled
- D) Mounted
- E) Disregarded

Question 11: (D)

- A) Provided
- B) Infiltration
- C) Dismantle
- D) Downturn
- E) Diversification

Question 12: (E)

- A) Commotion
- B) Impair
- C) Significant
- D) Proliferation
- E) Renovate

Question 13: (F)

- A) Infirmary
- B) Credibility
- C) Stabilize
- D) Burdened
- E) Rationalize

Question 14: In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer.

The plastic ban introduced by the municipality has been a total failure as there **has been no reducing** in the usage of polybags.

- A) is no reduce
- B) has been no reduction
- C) have been no reduced
- D) is not any reduced
- E) No correction required

Question 15: In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer.

As per the directives, the retail prices of both petrol and diesel **is revising** on a daily basis.

- A) have been revising
- B) are revising

- C) will be revised
- D) is revise
- E) No correction required

Question 16: In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer.

We got everything ready for all of them long before they arrived.

- A) We had got
- B) We have got
- C) We have been got
- D) We are getting
- E) No correction required

Question 17: In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer.

We still have some farm equipment that **hasn't been used** since my grandfather died.

- A) Hasn't been using
- B) was using
- C) are using
- D) should not have been use
- E) No correction required

Question 18: In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer.

Every officer and every resident of this village is determined **to do their best** to get better ranking in sanitation index.

- A) to do there best
- B) to do its best
- C) to do his best
- D) to do one's best
- E) No correction required

Question 19: In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct.

The administration has taken positive steps to _____ the education system.

- A) Increase
- B) Devised
- C) Renovated
- D) Revamp
- E) Dispel

Question 20: In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct.

Health and education sectors are two of the most _____ sectors in the global market.

- A) benefit
- B) necessity
- C) profit
- D) lucrative

E) Importance

Question 21: In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct.

She is an aware citizen who has always _____ to contribute to the progress of the country.

- A) wished
- B) admiring
- C) prepare
- D) motivating
- E) stimulate

Question 22: In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct.

In the beginning, I looked _____ and could not find quite the car I dreamed of.

- A) after
- B) around
- C) above
- D) out
- E) down

Question 23: In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct.

The RBI has played conservative in _____ a rate cut of just 25 basis points.

- A) introduce
- B) proposed
- C) improving
- D) decrease
- E) announcing

Question 24: In the following question two columns are given containing three sentences/ phrases each. In first column, sentences/phrases are A, B and C and in the second column the sentences/phrases are D, E and F. A sentence/phrase from the first column may or may not connect with another sentence/phrase from the second column to make a grammatically and contextually correct sentence. The question has five options which display the sequence(s) in which the sentences/phrases can be joined to form a grammatically and contextually correct sentence. Choose the pair(s) which make(s) a grammatically meaningful sentence.

Column 1	Column 2
A. The rumours of petrol shortage	D. highly resistant for outdoor use.
B. The body of camera makes it	E. turned out to be false.
C. There were no surprises	F. the key stakeholders in the economy.

- A) C-F and A-D
- B) B-F
- C) A-F
- D) C-E
- E) B-D and A-E

Question 25: In the following question two columns are given containing three sentences/ phrases each. In first column, sentences/phrases are A, B and C and in the second column the sentences/phrases are D, E and F. A sentence/phrase from the first column may or may not connect with another sentence/phrase from the second column to make a grammatically and contextually correct sentence. The question has five options which display the sequence(s) in which the sentences/phrases can be joined to form a grammatically and contextually correct sentence. Choose the pair(s) which make(s) a grammatically meaningful sentence.

Column 1	Column 2
----------	----------

A. As the rain water began to collect in pools on the highway	D. one of the European countries during the late stages of the tournament.
B. For years, Argentina would dominate in World Cup qualifying matches	E. recently unearthed letters argue against this belief.
C. Many have accused him of being a quiet misogynist	F. it began to hamper the flow of traffic.

- A) C-F
B) B-F
C) A-F
D) C-E
E) None of these

Question 26: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'.

People have the freedom (A)/ of speech but at the (B)/ same time each of them (C)/ have to remember their fundamental duties. (D)

- A) D
B) C
C) A
D) B
E) No error

Question 27: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'.

The number of students (A)/ competing in the event (B)/ has been fallen (C)/ because of the prize money. (D)

- A) C
B) A
C) B
D) D
E) No error

Question 28: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'.

While he used to walk (A)/ along the road, (B)/ a wild and ferocious dog (C)/ knocked him down. (D)

- A) D
B) B
C) C
D) A
E) No error

Question 29: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'.

Anaya is even willing (A)/ to make Mexico (B)/ one of the first countries to (c)/ introduces a universal basic income. (D)

- A) D
B) B
C) C
D) A
E) No error

Question 30: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'.

There were no surprises (A)/ in the second bimonthly monetary policy (B)/ announcement by the (C)/ Reserve Bank of India. (D)

- A) D
- B) C
- C) B
- D) A
- E) No error

Question 31: The ratio of speed of a boat in still water to the speed of the current is 8:5. If ratio of the time taken by the boat to travel 'D' km downstream to the time taken by the boat to travel (D – 200) km upstream is 1:1, then find the value of D.

- A) 180
- B) 320
- C) 260
- D) 240
- E) 300

Question 32: Train 'A' crosses a vertical pole at the speed of 15 m/sec in 20 seconds. Speed of train 'A' is 3 m/sec less than the speed of train 'B', and length of train B is 30 metres less than length of train A. Find the time taken by train 'B' to cross 270 metre long platform.

- A) 30 seconds
- B) 24 seconds
- C) 42 seconds
- D) 25 seconds
- E) 20 seconds

Question 33: 25 men can complete a piece of work in 12 days. 16 men started working and after 'x' days, 6 more men joined the work such that the remaining work is completed in 10 days. Find the value of 'x'.

- A) 8
- B) 4
- C) 5
- D) 6
- E) 9

Question 34: Cost of cultivating the circular field 'C' at Rs. 10 per meter square is Rs. 3465. Side of the square field 'S' is equals to the diameter of the circular field 'C'. Find the perimeter of square field.

- A) 120 metres
- B) 96 metres
- C) 80 metres
- D) 64 metres
- E) 84 metres

Question 35: The cost price of the two chairs is same. On selling one chair, a person got a profit of 12% and on selling another he incurred a loss of 18%. If the difference between their selling prices is Rs. 90, then find the cost price of each chair.

- A) Rs. 300
- B) Rs. 270
- C) Rs. 360
- D) Rs. 450
- E) None of these

Question 36: 4 years hence from now, the sum of ages of 'A' and 'B' will be 30 years less than the sum of the present ages of 'B' and 'C'. 4 years ago from now, the sum of ages of A and C was 70 years, then what is the present age of C?

- A) 54 years

- B) 40 years
- C) 72 years
- D) 58 years
- E) 64 years

Question 37: 4 years ago from now, the ratio of ages of 'A' and 'B' was 9:11 respectively, and 6 years hence from now, the ratio of ages of A and B will be 7:8, respectively. Find the present age of B.

- A) 26 years
- B) 24 years
- C) 30 years
- D) 18 years
- E) 32 years

Question 38: Cost price of article 'A' is twice the cost price of article 'B'. If the selling price of article 'B' is Rs. 3600 and it is sold at the profit of 20%, then find the cost price of article 'A'.

- A) Rs. 8000
- B) Rs. 3000
- C) Rs. 6000
- D) Rs. 2400
- E) Rs. 3600

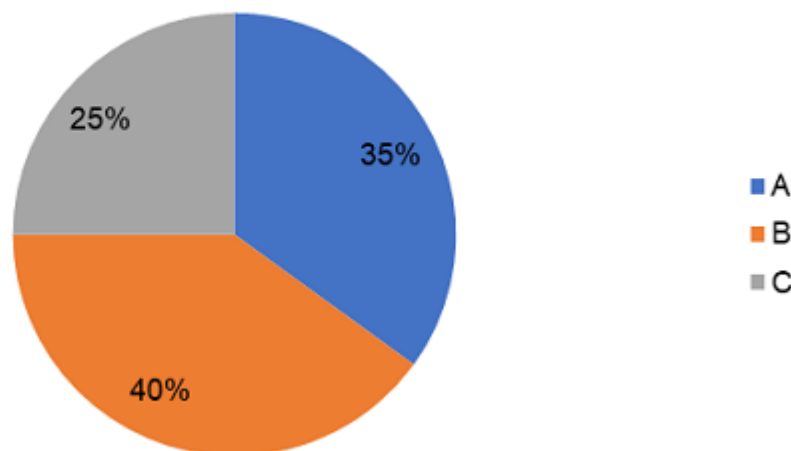

Question 39: 'A' started business with Rs. 800, while 'B' with Rs. 1200. After 4 months 'B' left, and 'C' joined with capital Rs. 400 more than 'B'. If at the end of year, profit of C was Rs 3200, then find the total profit earned by all three together.

- A) Rs. 5100
- B) Rs. 3400
- C) Rs. 6800
- D) Rs. 8500
- E) None of these

Directions: Answer the questions based on the information given below.

The given pie-chart shows the percentage distribution of number of researchers (male + female) in three labs (A, B and C) out of total number of researchers (male + female) in the given three labs together i.e. 800.

Percentage distribution of number of researchers

The given table shows the ratio of number of male to female researchers in each of the given labs.

	Number of (male:female) researchers
A	3:4
B	5:3

C

3:2

Question 40: In lab 'D', the number of male researchers is 25% more than that in lab 'A'. If the ratio of the number of male to female researchers in lab 'D' is 10:9, then find the total number of researchers in lab 'D'.

- A) 285
- B) 260
- C) 245
- D) 225
- E) 280

Question 41: Find the total number of male researchers in all the three labs together.

- A) 540
- B) 320
- C) 420
- D) 360
- E) 440

Question 42: Out of total number of researchers in lab 'C', 45% are foreigners. If there are 35 female researchers in lab 'C' who are not foreigner, then find the number of male researchers who are foreigner in lab 'C'.

- A) 35
- B) 45
- C) 55
- D) 40
- E) 65

Question 43: What is the value of central angle (in degrees) corresponding to number of researchers at lab 'B'.

- A) 144°
- B) 156°
- C) 132°
- D) 125°
- E) 172°

Question 44: The number of female researchers in lab 'C' is how much percent more/less than the number of male researchers in lab 'B'?

- A) 45%
- B) 60%
- C) 55%
- D) 80%
- E) None of these

Question 45: Find the average number of female researchers in each of the three labs.

- A) 130
- B) 115
- C) 100
- D) 135
- E) 120

Question 46: What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.)

12.45% of $(104.96 + 14.99^2) = ?$

- A) 22
- B) 124
- C) 40
- D) 80
- E) 96

Question 47: What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.)

$$12.45 \times \sqrt{624.98} + 99.78 = ? \times 19.68$$

- A) 75
- B) 5
- C) 50
- D) 35
- E) 20

Question 48: What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.)

$$5.12 + (? - 9.89) - 4.34^2 = 19.89$$

- A) 80
- B) 10
- C) 60
- D) 25
- E) 40

Question 49: What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.)

$$(4.89)^2 + \sqrt{144.35} - \sqrt{121.25} = ?$$

- A) 40
- B) 75
- C) 26
- D) 14
- E) 58

Question 50: What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.)

$$15.01\% \text{ of } 199.98 + \sqrt{1599.99} = ? \times 5.25$$

- A) 20
- B) 14
- C) 28
- D) 6
- E) 36

Question 51: In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.

I. $x^2 = 324$

II. $y^2 - 33y + 270 = 0$

- A) $x > y$
- B) $x < y$
- C) $x = y$ or the relationship cannot be established
- D) $x \geq y$
- E) $x \leq y$

Question 52: In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.

I. $2x + 5y = 38$

II. $5x - 2y = 8$

- A) $x > y$
- B) $x < y$
- C) $x = y$ or the relationship cannot be established
- D) $x \geq y$
- E) $x \leq y$

Question 53: In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.

I. $(x - 8)^2 = (x - 8)$

II. $(y - 7)^2 = y - 7$

- A) $x > y$
- B) $x < y$
- C) $x = y$ or the relationship cannot be established
- D) $x \geq y$
- E) $x \leq y$

Question 54: In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.

I. $x^2 + 3x - 28 = 0$

II. $y^2 + 17y + 72 = 0$

- A) $x > y$
- B) $x < y$
- C) $x = y$ or the relationship cannot be established
- D) $x \geq y$
- E) $x \leq y$

Question 55: In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.

I. $x^2 + 11x + 28 = 0$

II. $y^2 - 2y - 15 = 0$

- A) $x > y$
- B) $x < y$
- C) $x = y$ or the relationship cannot be established
- D) $x \geq y$
- E) $x \leq y$

Question 56: What will come in place of the question mark (?) in the following series?

120, 128, 112, ?, 104, 144

- A) 148
- B) 136
- C) 124
- D) 132
- E) 156

Question 57: What will come in place of the question mark (?) in the following series?

16, 8, 8, 12, 24, ?

- A) 64
- B) 80
- C) 72
- D) 54
- E) 60

Question 58: What will come in place of the question mark (?) in the following series?

120, ?, 336, 372, 390, 399

- A) 264
- B) 252
- C) 260
- D) 276
- E) 284

Question 59: What will come in place of the question mark (?) in the following series?

1, 8, 56, 336, 1680, ?

- A) 5640
- B) 6720
- C) 6840
- D) 6600
- E) None of these

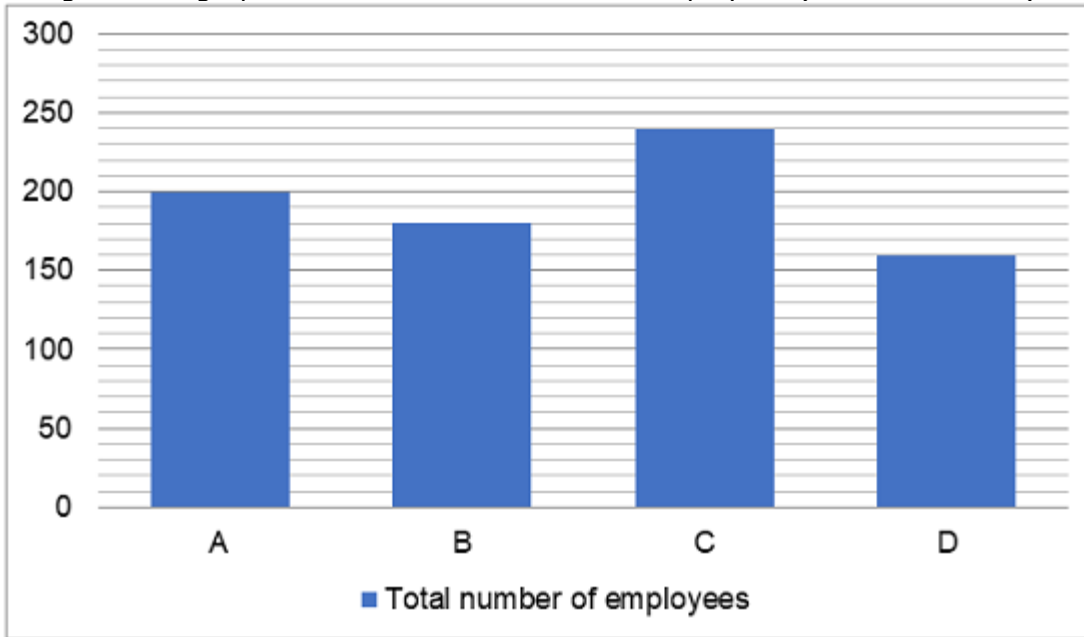

Question 60: What will come in place of the question mark (?) in the following series?

24, 28, 36, 50, 72, ?

- A) 90
- B) 108
- C) 104
- D) 110
- E) 112

Directions: Answer the questions based on the information given below.

The given bar graph shows the total number of employees (officers + clerks) in four different offices.

The given table shows the number of officers in given four offices.

	Number of officers
A	120
B	60
C	150
D	60

Question 61: Find the average of the number of clerks in office 'A', 'B' and 'D' together.

- A) 90
- B) 105
- C) 100
- D) 95
- E) 110

Question 62: Find the ratio of number of officers in office 'A' to the number of clerks in office 'C'.

- A) 5:2
- B) 6:5
- C) 2:1
- D) 4:3
- E) None of these

Question 63: If 50% of officers in office 'A' are males, and 75% of clerks in office 'D' are females, then find the difference between the number of male officers in office 'A' and male clerks in office 'D'.

- A) 25
- B) 35
- C) 45
- D) 60

E) 50

Question 64: Number of officers in office 'B' is how much percent more/less than the number of clerks in office 'A'?

- A) 15%
- B) 40%
- C) 35%
- D) 20%
- E) 25%

Question 65: In office 'E', total number of employees (officers + clerks) is 25% more than that in office 'C'. If the number of clerks in office 'E' is 120, then find the number of officers in office 'E'.

- A) 200
- B) 160
- C) 180
- D) 120
- E) 150

Direction: Answer the questions based on the information given below.

Six boxes P, Q, R, S, T and U of different colors i.e. Orange, Red, Black, Yellow, Pink and White are placed one above another but not necessarily in same order. Box R is placed just above the orange colored box. One box is placed between P and orange colored box. Three boxes are placed between P and pink colored box. Two boxes are placed between S and T. Red colored box is placed just below P. There are as many boxes placed above red colored box as below T. T is not Orange colored box. Black colored box is placed just above yellow colored box. U is placed above Q.

Question 66: Which box is placed at the top?

- A) The white colored box
- B) Box Q
- C) The Pink colored box
- D) Box R
- E) None of the above

Question 67: Which box is placed just above the Orange colored box?

- A) The Red colored box
- B) The Yellow colored box
- C) The Black colored box
- D) The White colored box
- E) None of the above

Question 68: _____ box is of Red color.

- A) Box T
- B) Box Q
- C) Box R
- D) Box P
- E) None of the above

Question 69: How many boxes are there in between the box T and the Black colored box?

- A) Two
- B) One
- C) Three
- D) None
- E) Four

Question 70: Which box is placed two places above the box P?

- A) Box R
- B) Box Q
- C) Box T
- D) Box U

E) None of the above

Direction: Answer the questions based on the information given below.

Point A is 5m west of point B. Point D is 16m north of point B. Point A is 25m south of point C. Point C is 10m west of point E. Point E is 9m north of Point F.

Question 71: Point F is at how much distance and in which direction with respect to point D?

- A) 10m, East
- B) 5m, North
- C) 12m, South east
- D) 5m, East
- E) None of the above

Question 72: If point H is in west of point F and in north of point A, then what is the distance between points C and H?

- A) 9m
- B) 10m
- C) 20m
- D) 5m
- E) None of the above

Question 73: What is the direction of Point E with respect to Point A?

- A) North West
- B) South West
- C) South East
- D) North
- E) North East

Direction: Answer the questions based on the information given below.

Nine persons namely, A, B, C, D, E, F, G, H and I are sitting in a row. Some of them are facing north and some are facing south.

A sits second from one of the extreme ends. Two persons sit between A and C. D sits third to the left of C. F sits second to the right of D. Immediate neighbors of D face the opposite direction to D. E sits second to the right of F. H is an immediate neighbor of E. Persons sitting at extreme ends are facing opposite direction to each other. A sits second to the right of E. H and A do not face north. B sits second to the left of G. I doesn't face south.

Question 74: Who sits 2nd to the right of H?

- A) I
- B) A
- C) G
- D) C
- E) None of the above

Question 75: Who sits to the immediate right of B?

- A) D
- B) F
- C) I
- D) C
- E) None of the above

Question 76: How many persons are sitting between I and E?

- A) None
- B) One
- C) Two
- D) Three
- E) Four

Question 77: Who sits 3rd to the right of I?

- A) E
- B) No one
- C) F
- D) C
- E) G

Question 78: Find the odd one out.

- A) G
- B) I
- C) B
- D) H
- E) A

Direction: Answer the questions based on the information given below.

There are six poles i.e. P, Q, R, S, T and U of different heights. Q is taller than P. T is taller than Q. T is shorter than only R. U is taller than Q. P is not the shortest pole. The length of 2nd tallest pole is 54m and 3rd shortest pole is 30m.

Question 79: Which among the following pole is the 3rd highest pole?

- A) Q
- B) P
- C) U
- D) R
- E) None of the above

Question 80: What may be the possible height of pole U?

- A) 20m
- B) 55m
- C) 25m
- D) 40m
- E) 61m

Question 81: If the sum of the heights of T and S is 80m and the sum of heights of poles R and Q is 120m then what is the difference between the heights of poles R and S?

- A) 54m
- B) 64m
- C) 70m
- D) 90m
- E) None of the above

Direction: Answer the questions based on the information given below.

Z is married to C. B and D are the children of C. D is married to daughter of K, who is married to M. K is mother of R, who is husband of N. H is the grandson of C and K. L is son of N. V is only sibling of H. D has only one daughter. Both C and V are of same gender.

Question 82: If O is the wife of D then how O is related to L?

- A) Mother
- B) Sister
- C) Aunt
- D) Grandmother
- E) Can't be determined

Question 83: How is Z related to V?

- A) Father
- B) Grandfather
- C) Sister
- D) Aunt
- E) None of the above

Question 84: If Z has only two children, one daughter and one son then how is B related to the wife of D?

- A) Sister-in-law
- B) Sister
- C) Brother-in-law
- D) Daughter
- E) None of the above

Direction: Answer the questions based on the information given below.

Seven persons P, Q, R, S, T, U and V, who live on seven different floors in a building. They work in seven different companies i.e. Google, IBM, Xiaomi, TCS, Infosys, Wipro and Samsung but not in the same order.

The one, who works in IBM, lives just above U, who works in TCS. S lives just below the floor on which R lives. Person who works in Samsung company and T do not live on an even numbered floor. The one who works in Infosys lives on even number floor below the fourth floor. There is only one floor between the floors on which S and the one who works in Wipro live. P lives on either topmost or lowermost floor. There are two floors between the one who works in TCS and the one who works Wipro. The one who lives on topmost floor works IBM company. Only two persons live below Q. The one who works Google lives on fifth floor.

Question 85: Who lives on 4th floor?

- A) R
- B) S
- C) V
- D) T
- E) None of the above

Question 86: Who works in Samsung company?

- A) R
- B) S
- C) T
- D) P
- E) None of the above

Question 87: _____ lives just below the one who works in TCS?

- A) The one who works in Wipro
- B) The one who works in Infosys
- C) The one who works in Xiaomi
- D) The one who works in Google
- E) The one who works in Samsung

Question 88: Who lives on 2nd floor?

- A) Q
- B) P
- C) R
- D) U
- E) None of these

Question 89: Who lives two floors above V?

- A) The one who works in TCS
- B) The one who works in Xiaomi
- C) The one who works in IBM
- D) The one who works in Samsung
- E) None of the above

Direction: Answer the questions based on the information given below.

Six persons A, B, C, D, E and F are sitting around a triangular table such that three of them are sitting at the corner of the table while other three are sitting at the middle of the table. Persons who are sitting at

corner are facing towards the table and the persons who are sitting at middle of the table are facing outside the table.

A sits at one of the corners of the table. D is an immediate neighbor of A. Two persons sit between D and B. C sits immediate right of B but not at any corner. E is to the immediate right of F. F does not sit at any of the corner of the table.

Question 90: Who sits 2nd to the right of B?

- A) D
- B) E
- C) A
- D) F
- E) None of the above

Question 91: Who is sitting between A and E when counted from the right of A?

- A) D
- B) F
- C) C
- D) B
- E) None of the above

Question 92: Who sits 2nd to the right of E?

- A) F
- B) C
- C) A
- D) B
- E) None of the above

Question 93: Who are sitting at the corners of the table?

- A) A, B and C
- B) B, A, and F
- C) C, D and E
- D) E, D and A
- E) A, B and E

Question 94: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few laptop is tablet
All tablet is mobile
Some mobile is headphone

Conclusions:

- I. All headphone being laptop is a possibility
- II. All tablet is laptop
- A) Only conclusion I follows
- B) Neither conclusion I nor II follows
- C) Only conclusion II follows
- D) Both conclusion I and II follows
- E) Either conclusion I or II follows

Question 95: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All bottle is cup
Only a few cup is plate
Mostly plate is jug

Conclusions:

- I. Some jug is not cup
- II. All plate is bottle
- A) Only conclusion I follows
- B) Neither conclusion I nor II follows
- C) Only conclusion II follows
- D) Both conclusions I and II follow
- E) Either conclusion I or II follows

Question 96: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

- Only a few TV is cinema
- No cinema is movie
- All movie is hit

Conclusions:

- I. All TV being cinema is a possibility
- II. Some hit are not cinema
- A) Only conclusion I follows
- B) Neither conclusion I nor II follows
- C) Only conclusion II follows
- D) Both conclusions I and II follow
- E) Either conclusion I or II follows

Question 97: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

- Few trucks is tyres
- Only a few alloys is wheels
- No tyre is alloy

Conclusions:

- I. Some wheels can be tyre
- II. Some trucks is not alloy
- A) Both conclusion I and conclusion II follow
- B) Only conclusion II follows
- C) Only conclusion I follows
- D) Neither conclusion I nor conclusion II follows
- E) None of these

Question 98: In the following question, assuming the given statements to be true, find which of the conclusion (s) among given three conclusions is /are definitely true and then give your answer accordingly.

Statements: $P < S = T < O$; $X > W \geq O < G$; $K < Y < W$

Conclusions:

- I. $P < X$
- II. $K < T$
- III. $G > Y$
- A) Only conclusion I is true
- B) Only conclusion II is true
- C) Both conclusions II and III are true
- D) Both conclusions I and II are true
- E) All conclusions I, II and III are true.

Question 99: How many such pairs of letters are there in the word 'HORTICULUTRAL' each of which has as many letters between them in the word as in the English alphabetical order?

- A) One
- B) Two
- C) Four
- D) Five
- E) Six

Question 100: In the question, relationship between some elements is shown in the statements (s).

These statements are followed by two conclusions. Read the statements and give answer.

Statements: $A \geq K > L \geq M$; $B > K > O = P$

Conclusions:

I. $P < M$

II. $A \geq P$

- A) Only conclusion I is true
- B) Only conclusion II is true
- C) Either conclusion I or II is true
- D) Neither conclusion I nor II is true
- E) Both conclusions I and II are true

Directions: Read the following passage carefully and answer the questions given below. Certain words are given in bold to help you locate them while answering some of the questions.

Renewable energy is the future, and the future is finally here. Global investment in renewable energy shot up last year, far outstripping investment in fossil fuels, according to a UN report. As the price of clean energy technology **plummets**, it has become an increasingly attractive prospect for world governments. China was by far the world's largest investor in renewable energy in 2017, **accounting for** nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year. Other countries including Australia, Sweden and Mexico more than doubled the amount of money they pumped into clean energy projects. "Yet again, this was a record year for new renewable power capacity being financed," Francoise d'Estais from UN Environment's energy and climate branch told The Independent. "We had a record 157 gigawatts commissioned last year, far outstripping the fossil fuel generating capacity, which we estimated as 70 gigawatts."

In just over a decade, concerted investment has increased the proportion of world electricity generated by wind, solar and other renewable sources from around 5 per cent to 12 per cent. "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation." But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains _____ (A) _____ to the energy transition. The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year – the equivalent of removing the entire US transport system. According to the Wind and Solar Atlas, there are opportunities and potential for Wind and Solar plants in the East and West Nile areas that will produce around 31,150 MW from wind and 52,300 MW from solar. Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination.

The UK has been performing well in clean energy generation, with recent figures showing wind and solar sources had overtaken nuclear as suppliers of electricity. However, despite these positive trends, 2017 saw a big drop of 65 per cent in British renewables investment. Experts have criticised the withdrawal of UK support for onshore wind, as previous analysis has demonstrated it already has the capacity to outcompete fossil fuels as a power source. As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important.

प्रश्न 1: None

- A) Only (I)
- B) Only (II)
- C) Only (III)
- D) Both (II) and (III)

E) All (I), (II) and (III)

प्रश्न 2: None

- A) Only (I)
- B) Only (II)
- C) None
- D) Both (II) and (III)
- E) All (I), (II) and (III)

प्रश्न 3: None

- A) Only (I)
- B) Only (II)
- C) Only (III)
- D) Both (II) and (III)
- E) All (I), (II) and (III)

प्रश्न 4: None

- A) Because China is increasing the investment in this sector.
- B) Because the price of clean energy technology continues to plummet.
- C) Because fossil fuels is the better alternative
- D) Because there are opportunities and potential for Wind and Solar plants in the East and West Nile areas
- E) None of the above

प्रश्न 5: None

- A) Elevate
- B) Existence
- C) Erratic
- D) Diabolic
- E) Critical

प्रश्न 6: None

- A) contradict
- B) contributing
- C) devious
- D) retrieve
- E) categorical

प्रश्न 7: None

- A) Intensify
- B) Escalate
- C) Callous
- D) Slump
- E) Reminiscent

Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct.

On October 29, 1929, Black Tuesday hit Wall Street as investors ____ (A) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____ (B) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____ (C) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____ (D) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market

underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____ (E) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday.

प्रश्न 8: None

- A) Traded
- B) Invaded
- C) Segregated
- D) Daunted
- E) Halted

प्रश्न 9: None

- A) Affording
- B) Wiping
- C) Wanting
- D) Vacating
- E) Artificial

प्रश्न 10: None

- A) Reprimanded
- B) Embedded
- C) Spiraled
- D) Mounted
- E) Disregarded

प्रश्न 11: None

- A) Provided
- B) Infiltration
- C) Dismantle
- D) Downturn
- E) Diversification

प्रश्न 12: None

- A) Commotion
- B) Impair
- C) Significant
- D) Proliferation
- E) Renovate

प्रश्न 13: None

- A) Infirmary
- B) Credibility
- C) Stabilize
- D) Burdened
- E) Rationalize

PRACTICE **MOCK**

प्रश्न 14: None

- A) is no reduce
- B) has been no reduction
- C) have been no reduced
- D) is not any reduced
- E) No correction required

प्रश्न 15: None

- A) have been revising
- B) are revising
- C) will be revised
- D) is revise
- E) No correction required

प्रश्न 16: None

- A) We had got
- B) We have got
- C) We have been got
- D) We are getting
- E) No correction required

प्रश्न 17: None

- A) Hasn't been using
- B) was using
- C) are using
- D) should not have been use
- E) No correction required

प्रश्न 18: None

- A) to do there best
- B) to do its best
- C) to do his best
- D) to do one's best
- E) No correction required

प्रश्न 19: None

- A) Increase
- B) Devised
- C) Renovated
- D) Revamp
- E) Dispel

प्रश्न 20: None

- A) benefit
- B) necessity
- C) profit
- D) lucrative
- E) Importance

PRACTICE **MOCK**

प्रश्न 21: None

- A) wished
- B) admiring
- C) prepare
- D) motivating
- E) stimulate

प्रश्न 22: None

- A) after
- B) around
- C) above
- D) out
- E) down

प्रश्न 23: None

- A) introduce
- B) proposed
- C) improving
- D) decrease
- E) announcing

प्रश्न 24: None

- A) C-F and A-D
- B) B-F
- C) A-F
- D) C-E
- E) B-D and A-E

प्रश्न 25: None

- A) C-F
- B) B-F
- C) A-F
- D) C-E
- E) None of these

प्रश्न 26: None

- A) D
- B) C
- C) A
- D) B
- E) No error

प्रश्न 27: None

- A) C
- B) A
- C) B
- D) D
- E) No error

PRACTICE **MOCK**

प्रश्न 28: None

- A) D
- B) B
- C) C
- D) A
- E) No error

प्रश्न 29: None

- A) D
- B) B
- C) C
- D) A
- E) No error

प्रश्न 30: None

- A) D
- B) C
- C) B
- D) A
- E) No error

प्रश्न 31: शांत जल में एक नाव की गति और धारा की गति का अनुपात 8: 5 है। यदि धारा अनुप्रवाह में 'D' km की यात्रा के लिए नाव द्वारा लिया गया समय और धारा विरुद्ध में (D - 200) km की यात्रा के लिए नाव द्वारा लिए गए समय का अनुपात 1: 1 है, तो D का मान ज्ञात करें?

- A) 180
- B) 320
- C) 260
- D) 240
- E) 300

प्रश्न 32: ट्रेन 'A' 20 seconds में 15 m/sec की गति से एक ऊर्ध्वाधर पुल को पार करती है। ट्रेन 'A' की गति ट्रेन 'B' की तुलना में 3 m/sec कम है, और ट्रेन 'B' की लंबाई ट्रेन A की लंबाई से 30 metres कम है। 270 metre लम्बे प्लेटफार्म को पार करने में ट्रेन 'B' द्वारा लगने वाला समय ज्ञात करें?

- A) 30 seconds
- B) 24 seconds
- C) 42 seconds
- D) 25 seconds
- E) 20 seconds

प्रश्न 33: 25 पुरुष 12 दिनों में एक काम पूरा कर सकते हैं। 16 व्यक्तियों ने काम करना शुरू किया और 'x' दिनों के बाद, 6 अधिक पुरुष इस काम में शामिल हो गए जिससे शेष काम 10 दिनों में पूरा हो गया। 'x' का मान ज्ञात करें?

- A) 8
- B) 4
- C) 5
- D) 6
- E) 9

प्रश्न 34: Rs. 10 प्रति meter वर्ग की दर से गोलाकार क्षेत्र 'C' को जोतने की लागत Rs. 3465 है। वर्गाकार क्षेत्र 'S' की भुजा गोलाकार क्षेत्र 'C' के व्यास के बराबर है। वर्गाकार क्षेत्र की परिधि ज्ञात करें।

- A) 120 metres
- B) 96 metres
- C) 80 metres
- D) 64 metres
- E) 84 metres

प्रश्न 35: दोनों कुर्सियों का क्रय मूल्य समान है। एक कुर्सी बेचने पर, एक व्यक्ति को 12% का लाभ हुआ और दूसरे को बेचने पर उसे 18% की हानि हुई। यदि उनके विक्रय मूल्य के बीच का अंतर Rs. 90 है, फिर प्रत्येक कुर्सी का क्रय मूल्य ज्ञात करें?

- A) Rs. 300
- B) Rs. 270
- C) Rs. 360
- D) Rs. 450
- E) इनमें से कोई नहीं

प्रश्न 36: अब से 4 वर्ष बाद, 'A' और 'B' की आयु का योग, 'B' और 'C' की वर्तमान आयु के योग से 30 वर्ष कम होगा। अब से 4 वर्ष पहले, A और C की आयु का योग 70 वर्ष था, फिर C की वर्तमान आयु कितनी है?

- A) 54 years
- B) 40 years
- C) 72 years
- D) 58 years
- E) 64 years

प्रश्न 37: अब से 4 वर्ष पहले, 'A' और 'B' की आयु का अनुपात क्रमशः 9:11 था, और अब से 6 वर्ष बाद, A और B की आयु का अनुपात क्रमशः 7: 8 होगा। B की वर्तमान आयु ज्ञात करें?

- A) 26 years
- B) 24 years
- C) 30 years
- D) 18 years
- E) 32 years

प्रश्न 38: वस्तु 'A' का क्रय मूल्य वस्तु 'B' के क्रय मूल्य से दोगुना है। यदि वस्तु 'B' का विक्रय मूल्य Rs. 3600 है और इसे 20% के लाभ पर बेचा जाता है, फिर वस्तु 'A' का क्रय मूल्य ज्ञात करें?

- A) Rs. 8000
- B) Rs. 3000
- C) Rs. 6000
- D) Rs. 2400
- E) Rs. 3600

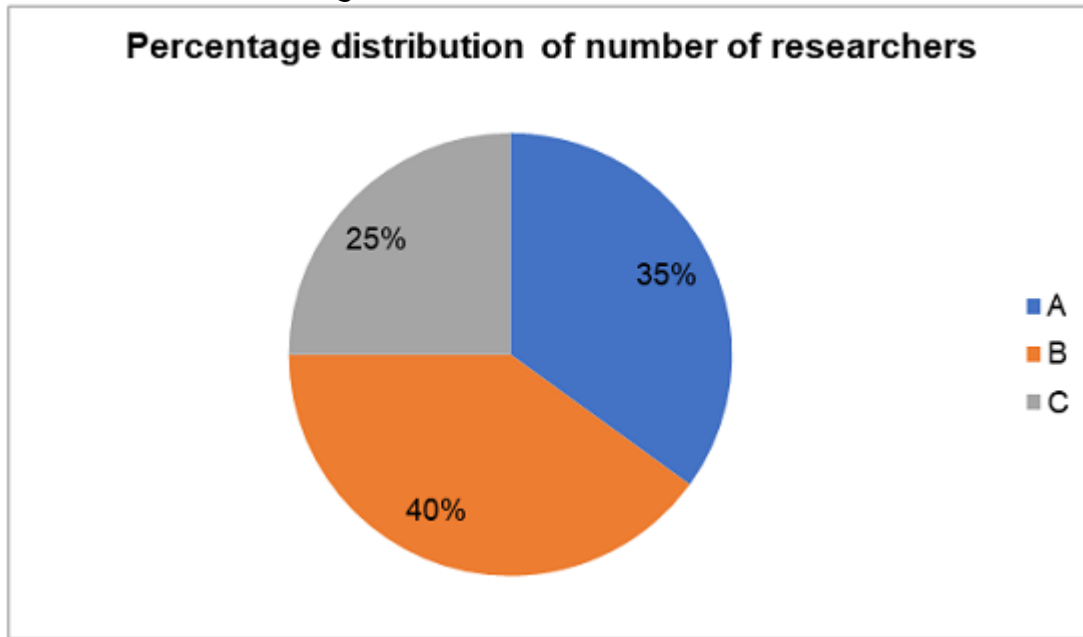

प्रश्न 39: 'A' और 'B' ने क्रमशः Rs. 800 और Rs. 1200 के साथ कारोबार शुरू किया। 4 महीने के बाद 'B' ने कारोबार छोड़ दिया, और 'C' 'B' से Rs. 400 अधिक पूँजी के साथ जुड़ता है। यदि वर्ष के अंत में, C का लाभ Rs 3200 था, तो तीनों द्वारा एक साथ अर्जित कुल लाभ ज्ञात करें?

- A) Rs. 5100
 B) Rs. 3400
 C) Rs. 6800
 D) Rs. 8500

E) इनमें से कोई नहीं

निर्देश: नीचे दी गई जानकारी के आधार पर प्रश्नों के उत्तर दें।

दिया गया pie-chart तीन labs (A, B और C) में researchers (पुरुष + महिला) की कुल संख्या (जो कि 800 है) में से तीन labs में researchers (पुरुष + महिला) की संख्या के प्रतिशत वितरण को दर्शाता है।

दी गई तालिका में दी गई प्रत्येक labs में पुरुष और महिला researchers की संख्या का अनुपात दिखाया गया है।

	Number of (male:female) researchers
A	3:4
B	5:3
C	3:2

प्रश्न 40: Lab 'D' में, पुरुष researchers की संख्या lab 'A' की तुलना में 25% अधिक है। यदि lab 'D' में पुरुष और महिला researchers की संख्या का अनुपात 10: 9 है, तो lab 'D' में researchers की कुल संख्या ज्ञात करें?

- A) 285
 B) 260
 C) 245
 D) 225
 E) 280

प्रश्न 41: तीनों labs में पुरुष researchers की कुल संख्या ज्ञात करें?

- A) 540
 B) 320
 C) 420
 D) 360
 E) 440

प्रश्न 42: Lab 'C' में researchers की कुल संख्या में से 45% foreigners हैं। यदि lab 'C' में 35 महिला researchers हैं जो foreigners नहीं हैं, तो lab 'C' में उन पुरुष researchers की संख्या ज्ञात करें जो foreigner हैं।

- A) 35
- B) 45
- C) 55
- D) 40
- E) 65

प्रश्न 43: Lab 'B' में researchers की संख्या के अनुरूप केंद्रीय कोण (डिग्री में) का मान कितना है।

- A) 144°
- B) 156°
- C) 132°
- D) 125°
- E) 172°

प्रश्न 44: Lab 'C' में महिला researchers की संख्या lab 'B' में पुरुष researchers की संख्या से कितने प्रतिशत अधिक / कम है?

- A) 45%
- B) 60%
- C) 55%
- D) 80%
- E) इनमें से कोई नहीं

प्रश्न 45: प्रत्येक तीनों labs में महिला researchers की औसत संख्या ज्ञात करें?

- A) 130
- B) 115
- C) 100
- D) 135
- E) 120

प्रश्न 46: निम्नलिखित प्रश्न में प्रश्न चिह्न (?) के स्थान पर क्या अनुमानित मान आएगा? (नोट: आपको सटीक मान की गणना करने की आवश्यकता नहीं है।)

$$12.45\% \text{ of } (104.96 + 14.99^2) = ?$$

- A) 22
- B) 124
- C) 40
- D) 80
- E) 96

प्रश्न 47: निम्नलिखित प्रश्न में प्रश्न चिह्न (?) के स्थान पर क्या अनुमानित मान आएगा? (नोट: आपको सटीक मान की गणना करने की आवश्यकता नहीं है।)

$$12.45 \times \sqrt{624.98 + 99.78} = ? \times 19.68$$

- A) 75
- B) 5
- C) 50
- D) 35
- E) 20

प्रश्न 48: निम्नलिखित प्रश्न में प्रश्न चिह्न (?) के स्थान पर क्या अनुमानित मान आएगा? (नोट: आपको सटीक मान की गणना करने की आवश्यकता नहीं है।)

$$5.12 + (? - 9.89) - 4.34^2 = 19.89$$

- A) 80
- B) 10
- C) 60
- D) 25
- E) 40

प्रश्न 49: निम्नलिखित प्रश्न में प्रश्न चिह्न (?) के स्थान पर क्या अनुमानित मान आएगा? (नोट: आपको सटीक मान की गणना करने की आवश्यकता नहीं है।)

$$(4.89)^2 + \sqrt{144.35} - \sqrt{121.25} = ?$$

- A) 40
- B) 75
- C) 26
- D) 14
- E) 58

प्रश्न 50: निम्नलिखित प्रश्न में प्रश्न चिह्न (?) के स्थान पर क्या अनुमानित मान आएगा? (नोट: आपको सटीक मान की गणना करने की आवश्यकता नहीं है।)

$$15.01\% \text{ of } 199.98 + \sqrt{1599.99} = ? \times 5.25$$

- A) 20
- B) 14
- C) 28
- D) 6
- E) 36

प्रश्न 51: प्रश्न में, दो समीकरण I और II दिए गए हैं। आपको x और y के बीच सही संबंध स्थापित करने और सही विकल्प चुनने के लिए दोनों समीकरणों को हल करना होगा।

I. $x^2 = 324$

II. $y^2 - 33y + 270 = 0$

- A) $x > y$
- B) $x < y$
- C) $x = y$ या सम्बन्ध स्थापित नहीं किया जा सकता
- D) $x \geq y$
- E) $x \leq y$

प्रश्न 52: प्रश्न में, दो समीकरण I और II दिए गए हैं। आपको x और y के बीच सही संबंध स्थापित करने और सही विकल्प चुनने के लिए दोनों समीकरणों को हल करना होगा।

I. $2x + 5y = 38$

II. $5x - 2y = 8$

- A) $x > y$
- B) $x < y$
- C) $x = y$ या सम्बन्ध स्थापित नहीं किया जा सकता
- D) $x \geq y$
- E) $x \leq y$

प्रश्न 53: प्रश्न में, दो समीकरण I और II दिए गए हैं। आपको x और y के बीच सही संबंध स्थापित करने और सही विकल्प चुनने के लिए दोनों समीकरणों को हल करना होगा।

I. $(x - 8)^2 = (x - 8)$

II. $(y - 7)^2 = y - 7$

A) $x > y$

B) $x < y$

C) $x = y$ या सम्बन्ध स्थापित नहीं किया जा सकता

D) $x \geq y$

E) $x \leq y$

प्रश्न 54: प्रश्न में, दो समीकरण I और II दिए गए हैं। आपको x और y के बीच सही संबंध स्थापित करने और सही विकल्प चुनने के लिए दोनों समीकरणों को हल करना होगा।

I. $x^2 + 3x - 28 = 0$

II. $y^2 + 17y + 72 = 0$

A) $x > y$

B) $x < y$

C) $x = y$ या सम्बन्ध स्थापित नहीं किया जा सकता

D) $x \geq y$

E) $x \leq y$

प्रश्न 55: प्रश्न में, दो समीकरण I और II दिए गए हैं। आपको x और y के बीच सही संबंध स्थापित करने और सही विकल्प चुनने के लिए दोनों समीकरणों को हल करना होगा।

I. $x^2 + 11x + 28 = 0$

II. $y^2 - 2y - 15 = 0$

A) $x > y$

B) $x < y$

C) $x = y$ या सम्बन्ध स्थापित नहीं किया जा सकता

D) $x \geq y$

E) $x \leq y$

प्रश्न 56: निम्नलिखित श्रृंखला में प्रश्न चिह्न (?) के स्थान पर क्या आएगा?

120, 128, 112, ?, 104, 144

A) 148

B) 136

C) 124

D) 132

E) 156

प्रश्न 57: निम्नलिखित श्रृंखला में प्रश्न चिह्न (?) के स्थान पर क्या आएगा?

16, 8, 8, 12, 24, ?

A) 64

B) 80

C) 72

D) 54

E) 60

प्रश्न 58: निम्नलिखित श्रृंखला में प्रश्न चिह्न (?) के स्थान पर क्या आएगा?

120, ?, 336, 372, 390, 399

- A) 264
B) 252
C) 260
D) 276
E) 284

प्रश्न 59: निम्नलिखित श्रृंखला में प्रश्न चिह्न (?) के स्थान पर क्या आएगा?

1, 8, 56, 336, 1680, ?

- A) 5640
B) 6720
C) 6840
D) 6600
E) इनमें से कोई नहीं

प्रश्न 60: निम्नलिखित श्रृंखला में प्रश्न चिह्न (?) के स्थान पर क्या आएगा?

24, 28, 36, 50, 72, ?

- A) 90
B) 108
C) 104
D) 110
E) 112

निर्देश: नीचे दी गई जानकारी के आधार पर प्रश्नों के उत्तर दें।

दिए गए बार ग्राफ में चार अलग-अलग कार्यालय में कर्मचारियों (officers + clerks) की कुल संख्या को दर्शाता है।

दी गई तालिका दिए गए चार कार्यालय में officers की संख्या को दर्शाता है।

	Number of officers
A	120
B	60
C	150
D	60

प्रश्न 61: कार्यालय 'A', 'B' और 'D' में clerks की संख्या का औसत ज्ञात करें?

- A) 90
- B) 105
- C) 100
- D) 95
- E) 110

प्रश्न 62: कार्यालय 'A' में officers की संख्या और कार्यालय 'C' में clerks की संख्या का अनुपात ज्ञात करें?

- A) 5:2
- B) 6:5
- C) 2:1
- D) 4:3
- E) इनमें से कोई नहीं

प्रश्न 63: यदि कार्यालय 'A' में 50% officers पुरुष हैं, और कार्यालय 'D' में 75% clerks महिलाएँ हैं, तो कार्यालय 'A' में पुरुष officers की संख्या और कार्यालय 'D' में पुरुष clerks की संख्या के बीच का अंतर ज्ञात करें?

- A) 25
- B) 35
- C) 45
- D) 60
- E) 50

प्रश्न 64: कार्यालय 'B' में officers की संख्या कार्यालय 'A' में clerks की संख्या से कितने प्रतिशत अधिक / कम है?

- A) 15%
- B) 40%
- C) 35%
- D) 20%
- E) 25%

प्रश्न 65: कार्यालय 'E' में, कुल कर्मचारियों (officers + clerks) की संख्या कार्यालय 'C' की तुलना में 25% अधिक है। यदि कार्यालय 'E' में clerks की संख्या 120 है, तो कार्यालय 'E' में officers की संख्या ज्ञात करें?

- A) 200
- B) 160
- C) 180
- D) 120
- E) 150

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

छह boxes P, Q, R, S, T और U का रंग अलग-अलग है अर्थात Orange, Red, Black, Yellow, Pink और White, और इन्हें एक दुसरे के ऊपर रखा गया है पर जरूरी नहीं कि इसी क्रम में हों। Box R को Orange box के तत्काल ऊपर रखा गया है। एक box को box P और orange रंग के box के बीच रखा गया है। तीन boxes को P और pink रंग के box के बीच रखा गया है। दो boxes को S और T के बीच रखा गया है। Red रंग के box को P के तत्काल नीचे रखा गया है। Red box के ऊपर रखे गए boxes की संख्या और T के नीचे रखे गए boxes की संख्या बराबर है। T का रंग orange नहीं है। Black box को yellow box के तत्काल ऊपर रखा गया है। U Q के ऊपर है।

प्रश्न 66: सबसे ऊपर कौन सा box रखा गया है?

- A) White रंग का box
- B) Box Q
- C) Pink रंग का box
- D) Box R
- E) इनमे से कोई नहीं

प्रश्न 67: Orange box के तत्काल ऊपर कौन सा box है?

- A) Red रंग का box
- B) Yellow रंग का box
- C) Black रंग का box
- D) White रंग का box
- E) इनमे से कोई नहीं

प्रश्न 68: _____ box का रंग Red है।

- A) Box T
- B) Box Q
- C) Box R
- D) Box P
- E) इनमे से कोई नहीं

प्रश्न 69: Box T और Black रंग के box के बीच कितने boxes हैं?

- A) दो
- B) एक
- C) तीन
- D) एक भी नहीं
- E) चार

प्रश्न 70: Box P से दो boxes उपर कौन सा box है?

- A) Box R
- B) Box Q
- C) Box T
- D) Box U
- E) इनमे से कोई नहीं

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

बिंदु A बिंदु B के 5m पश्चिम में है। बिंदु D बिंदु B के 16m उत्तर में है। बिंदु A बिंदु C के 25m दक्षिण में है। बिंदु C बिंदु E के 10m पश्चिम में है। बिंदु E बिंदु F के 9m उत्तर में है।

प्रश्न 71: बिंदु D के सन्दर्भ में बिंदु F किस दिशा में और कितनी दूरी पर है?

- A) 10m, पूर्व
- B) 5m, उत्तर
- C) 12m, दक्षिण पूर्व
- D) 5m, पूर्व
- E) इनमे से कोई नहीं

प्रश्न 72: यदि बिंदु H बिंदु F के पश्चिम में और बिंदु A के उत्तर में है, तो बिंदु C और H के बीच की दूरी कितनी है?

- A) 9m
- B) 10m
- C) 20m
- D) 5m
- E) इनमे से कोई नहीं

प्रश्न 73: बिंदु A के सन्दर्भ में बिंदु E किस दिशा में है?

- A) उत्तर पश्चिम
- B) दक्षिण पश्चिम
- C) दक्षिण पूर्व
- D) उत्तर
- E) उत्तर पूर्व

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

नौ व्यक्ति A, B, C, D, E, F, G, H और I एक पंक्ति में बैठे हैं। इनमे से कुछ का मुख उत्तर की ओर है जबकि कुछ का मुख दक्षिण की ओर है।

A किसी एक अंतिम छोर से दूसरे स्थान पर बैठा है। दो व्यक्ति A और C के बीच बैठे हैं। D C के बाएं से तीसरे स्थान पर बैठा है। F D के दाएँ से दूसरे स्थान पर बैठा है। D के तत्काल पड़ोसी D के सन्दर्भ में विपरीत दिशा का सामना करते हैं। E F के दाएँ से दूसरे स्थान पर बैठा है। H E का तत्काल पड़ोसी है। अंतिम छोर पर बैठे व्यक्ति एक दूसरे के सन्दर्भ में विपरीत दिशा का सामना करते हैं। A E के दाएँ से दूसरे स्थान पर बैठा है। H और A उत्तर का सामना नहीं करते हैं। B G के बाएं से दूसरे स्थान पर बैठा है। I दक्षिण का सामना नहीं करता है।

प्रश्न 74: H के दाएँ से दूसरे स्थान पर कौन बैठा है?

- A) I
- B) A
- C) G
- D) C
- E) इनमें से कोई नहीं

प्रश्न 75: B के तत्काल दाईं ओर कौन बैठा है?

- A) D
- B) F
- C) I
- D) C

E) इनमें से कोई नहीं

प्रश्न 76: I और E के बीच कितने व्यक्ति बैठे हैं?

- A) एक भी नहीं
- B) एक
- C) दो
- D) तीन
- E) चार

प्रश्न 77: I के दाईं ओर से तीसरे स्थान पर कौन बैठता है?

- A) E
- B) No one
- C) F
- D) C
- E) G

प्रश्न 78: विषम का चुनाव करें?

- A) G
- B) I
- C) B
- D) H
- E) A

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

भिन्न भिन्न ऊंचाई के छह पोल हैं - P, Q, R, S, T और U। Q P से ऊंचा है। T Q से ऊंचा है। T केवल R से छोटा है। U Q से ऊंचा है। P सबसे छोटा पोल नहीं है। दूसरे सबसे ऊंचे पोल की ऊंचाई 54m और तीसरे सबसे छोटे पोल की ऊंचाई 30m है।

प्रश्न 79: निम्नलिखित में से कौन सा पोल तीसरा सबसे ऊंचा है?

- A) Q
- B) P
- C) U
- D) R
- E) इनमें से कोई नहीं

प्रश्न 80: पोल U की संभावित ऊंचाई कितनी हो सकती है?

- A) 20m
- B) 55m
- C) 25m
- D) 40m
- E) 61m

प्रश्न 81: यदि T और S की ऊंचाई का योग 80m है और पोल R और Q की ऊंचाई का योग 120m है तो पोल R और S के ऊंचाई के बीच का अंतर कितना है?

- A) 54m
- B) 64m

- C) 70m
D) 90m
E) इनमें से कोई नहीं

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

Z C से विवाहित है। B और D, C के बच्चे हैं। D K की पुत्री से विवाहित है और K M से विवाहित है। K R की माता है और R N का पति है। H, C और K का पोता/नाती है। L N का पुत्र है। V H का इकलौता भाई/बहन है। D की केवल एक पुत्री है। दोनों C और V समान लिंग के हैं।

प्रश्न 82: यदि O, D की पत्नी है तो O, L से कैसे संबंधित है?

- A) माता
B) बहन
C) चाची/मामी
D) दादी/नानी
E) निर्धारित नहीं किया जा सकता

प्रश्न 83: Z, V से कैसे संबंधित है?

- A) पिता
B) दादा/नाना
C) बहन
D) चाची/मामी
E) इनमें से कोई नहीं

प्रश्न 84: यदि Z के केवल दो बच्चे हैं, एक पुत्री और एक पुत्र तो B, D की पत्नी से कैसे संबंधित है?

- A) साली/भाभी/ननद
B) बहन
C) जीजा/साला/देवर
D) पुत्री
E) इनमें से कोई नहीं

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

सात व्यक्ति P, Q, R, S, T, U और V, एक ईमारत के सात भिन्न भिन्न तल पर रहते हैं। वे सात विभिन्न कंपनी में कार्य करते हैं अर्थात् Google, IBM, Xiaomi, TCS, Infosys, Wipro और Samsung पर जरूरी नहीं कि इसी क्रम में हों। वह व्यक्ति, जो IBM में कार्य करता है, U के तत्काल ऊपर रहता है और U TCS में कार्य करता है। S उस तल के तत्काल निचले तल पर रहता है जिसपर R रहता है। Samsung कंपनी में कार्य करने वाला व्यक्ति और T एक सम संख्या से अंकित तल पर नहीं रहते हैं। वह व्यक्ति, जो Infosys में कार्य करता है, एक सम संख्या से अंकित तल पर चौथे तल के नीचे रहता है। S और Wipro में कार्य करने वाले व्यक्ति के बीच केवल एक तल है। P या शीर्षतम या सबसे निचले तल पर रहता है। TCS

और Wipro में कार्य करने वाले व्यक्तियों के बीच दो तल हैं। शीर्षतम तल पर रहने वाला व्यक्ति IBM में कार्य करता है। केवल दो व्यक्ति Q के नीचे रहते हैं। Google में कार्य करने वाला व्यक्ति पांचवें तल पर रहता है।

प्रश्न 85: चौथे तल पर कौन रहता है?

- A) R
- B) S
- C) V
- D) T
- E) इनमें से कोई नहीं

प्रश्न 86: Samsung कंपनी में कौन काम करता है?

- A) R
- B) S
- C) T
- D) P
- E) इनमें से कोई नहीं

प्रश्न 87: _____ उस व्यक्ति के तत्काल नीचे रहता है जो TCS में काम करता है?

- A) वह व्यक्ति जो Wipro में काम करता है।
- B) वह व्यक्ति जो Infosys में काम करता है।
- C) वह व्यक्ति जो Xiaomi में काम करता है।
- D) वह व्यक्ति जो Google में काम करता है।
- E) वह व्यक्ति जो Samsung में काम करता है।

प्रश्न 88: दूसरे तल पर कौन रहता है?

- A) Q
- B) P
- C) R
- D) U
- E) इनमें से कोई नहीं

प्रश्न 89: V से दो तल ऊपर कौन रहता है?

- A) वह एक व्यक्ति जो TCS में काम करता है।
- B) वह एक व्यक्ति जो Xiaomi में काम करता है।
- C) वह एक व्यक्ति जो IBM में काम करता है।
- D) वह एक व्यक्ति जो Samsung में काम करता है।
- E) इनमें से कोई नहीं

निर्देश: दिए गए जानकारी के आधार पर सवालों के उत्तर दें।

छह व्यक्ति A, B, C, D, E और F एक त्रिकोणाकार मेज़ पर इस तरह बैठे हैं कि इनमें से तीन व्यक्ति मेज़ के कोने पर बैठे हैं जबकि शेष तीन व्यक्ति मेज़ के भुजा के मध्य में बैठे हैं। कोने पर बैठे व्यक्ति मेज़ के केंद्र का सामना करते हैं और मेज़ के भुजा के मध्य में बैठे व्यक्ति मेज़ के केंद्र से बाहर का सामना करते हैं।

A मेज़ के किसी एक कोने पर बैठा है। D A का तत्काल पड़ोसी है। दो व्यक्ति D और B के बीच बैठे हैं। C B के तत्काल दाएँ ओर बैठा है पर किसी कोने पर नहीं। E F के तत्काल दाएँ ओर बैठा है। F मेज़ के किसी भी कोने पर नहीं बैठा है।

प्रश्न 90: B के दाईं ओर से दूसरे स्थान पर कौन बैठता है?

- A) D
- B) E
- C) A
- D) F
- E) इनमें से कोई नहीं

प्रश्न 91: A के दाईं ओर से गणना किये जाने पर A और E के बीच कौन बैठा है?

- A) D
- B) F
- C) C
- D) B
- E) इनमें से कोई नहीं

प्रश्न 92: E के दाईं ओर से दूसरे स्थान पर कौन बैठता है?

- A) F
- B) C
- C) A
- D) B
- E) इनमें से कोई नहीं

प्रश्न 93: मेज़ के कोनों पर कौन बैठता है?

- A) A, B and C
- B) B, A, and F
- C) C, D and E
- D) E, D and A
- E) A, B and E

प्रश्न 94: निम्नलिखित प्रश्न में तीन कथन के बाद दो निष्कर्ष I और II दिए गए हैं। आपको दिए गए कथनों को सत्य मानना है भले ही वह ज्ञात तथ्यों से भिन्न भी हो और फिर यह तय करना है कि दिए गए निष्कर्षों में से कौन सा निष्कर्ष इन कथनों का तर्कसंगत अनुसरण करता है।

कथन:

केवल कुछ laptop tablet है

सभी tablet mobile है

कुछ mobile headphone है

निष्कर्ष:

- I. सभी headphone के laptop होने की संभावना है
 II. सभी tablet laptop है
 A) केवल निष्कर्ष I अनुसरण करता है।
 B) ना ही निष्कर्ष I ना ही II अनुसरण करता है।
 C) केवल निष्कर्ष II अनुसरण करता है।
 D) दोनों निष्कर्ष I और II अनुसरण करता है।
 E) या निष्कर्ष I या II अनुसरण करता है।

प्रश्न 95: निम्नलिखित प्रश्न में तीन कथन के बाद दो निष्कर्ष I और II दिए गए हैं। आपको दिए गए कथनों को सत्य मानना है भले ही वह ज्ञात तथ्यों से भिन्न भी हो और फिर यह तय करना है कि दिए गए निष्कर्षों में से कौन सा निष्कर्ष इन कथनों का तर्कसंगत अनुसरण करता है।

कथन:

- सभी bottle cup है
 केवल कुछ cup plate है
 अधिकांश plate jug है

निष्कर्ष:

- I. कुछ jug cup नहीं है
 II. सभी plate bottle है
 A) केवल निष्कर्ष I अनुसरण करता है।
 B) ना ही निष्कर्ष I ना ही II अनुसरण करता है।
 C) केवल निष्कर्ष II अनुसरण करता है।
 D) दोनों निष्कर्ष I और II अनुसरण करता है।
 E) या निष्कर्ष I या II अनुसरण करता है।

प्रश्न 96: निम्नलिखित प्रश्न में तीन कथन के बाद दो निष्कर्ष I और II दिए गए हैं। आपको दिए गए कथनों को सत्य मानना है भले ही वह ज्ञात तथ्यों से भिन्न भी हो और फिर यह तय करना है कि दिए गए निष्कर्षों में से कौन सा निष्कर्ष इन कथनों का तर्कसंगत अनुसरण करता है।

कथन:

- केवल कुछ TV cinema है
 कोई भी cinema movie नहीं है
 सभी movie hit है

निष्कर्ष:

- I. सभी TV के cinema होने की संभावना है
 II. कुछ hit cinema नहीं है
 A) केवल निष्कर्ष I अनुसरण करता है।

- B) ना ही निष्कर्ष I ना ही II अनुसरण करता है।
 C) केवल निष्कर्ष II अनुसरण करता है।
 D) दोनों निष्कर्ष I और II अनुसरण करता है।
 E) या निष्कर्ष I या II अनुसरण करता है।

प्रश्न 97: निम्नलिखित प्रश्न में तीन कथन के बाद दो निष्कर्ष I और II दिए गए हैं। आपको दिए गए कथनों को सत्य मानना है भले ही वह ज्ञात तथ्यों से भिन्न भी हो और फिर यह तय करना है कि दिए गए निष्कर्षों में से कौन सा निष्कर्ष इन कथनों का तर्कसंगत अनुसरण करता है।

कथन:

कुछ trucks tyres हैं
 केवल कुछ alloys wheels हैं
 कोई भी tyre alloy नहीं है

निष्कर्ष:

- I. कुछ wheels tyre हो सकते हैं
 II. कुछ trucks alloy नहीं हैं
 A) दोनों निष्कर्ष I और निष्कर्ष II अनुसरण करता है।
 B) केवल निष्कर्ष II अनुसरण करता है।
 C) केवल निष्कर्ष I अनुसरण करता है।
 D) ना ही निष्कर्ष I ना ही निष्कर्ष II अनुसरण करता है।
 E) इनमें से कोई नहीं

प्रश्न 98: निम्नलिखित प्रश्न में दिए गए कथनों को सत्य मानकर यह तय करना है कि दिए गए तीन निष्कर्षों में से कौन सा निष्कर्ष निश्चित रूप से सत्य है और उसी अनुसार अपना उत्तर दें।

कथन: $P < S = T < O$; $X > W \geq O < G$; $K < Y < W$

निष्कर्ष:

- I. $P < X$
 II. $K < T$
 III. $G > Y$
 A) केवल निष्कर्ष I सत्य है।
 B) केवल निष्कर्ष III सत्य है।
 C) दोनों निष्कर्ष II और III सत्य है।
 D) दोनों निष्कर्ष I और II सत्य है।
 E) सभी निष्कर्ष I, II और III सत्य है।

प्रश्न 99: 'HORTICULUTRAL' शब्द में अक्षरों के ऐसे कितने जोड़े हैं जिनके बीच उतने ही अक्षर हैं जितने कि अंग्रेजी वर्णमाला श्रृंखला में होते हैं?

- A) एक
B) दो
C) चार
D) पांच
E) छह

प्रश्न 100: निम्नलिखित प्रश्न में दिए गए कथनों को सत्य मानकर यह तय करना है कि दिए गए दो निष्कर्षों में से कौन सा निष्कर्ष निश्चित रूप से सत्य है और उसी अनुसार अपना उत्तर दें।

कथन: $A \geq K > L \geq M$; $B > K > O = P$

निष्कर्ष:

I. $P < M$

II. $A \geq P$

- A) केवल निष्कर्ष I सत्य है।
B) केवल निष्कर्ष II सत्य है।
C) या निष्कर्ष I या II सत्य है।
D) ना ही निष्कर्ष I ना ही II सत्य है।
E) दोनों निष्कर्ष I और II सत्य है।

ANSWER KEYS and SOLUTIONS:

1) - E)	2) - D)	3) - B)	4) - B)	5) - E)	6) - B)
7) - D)	8) - A)	9) - B)	10) - C)	11) - D)	12) - D)

97) - A)	98) - A)	99) - C)	100) - D)		

Solution 1: E)

(e) is the right answer. All the three statements are true.

(I) is correct. Refer to the lines: *As the price of clean energy technology plummets, it has become an increasingly attractive prospect for world governments.*

(II) is correct. Refer to the lines: *China was by far the world's largest investor in renewable energy in 2017, accounting for nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year*

(III) is correct. Refer to the lines: *Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination.*

Solution 2: D)

(d) is the right answer. The author seeks to convey that the contribution of renewables in the electricity sector has been significant. Solar and wind energy have grown considerably because of their contributions. It also tells us that they have "built on" the contributions of hydropower. TO BUILD ON means to use a success or achievement as a base from which to achieve more success. Thus, the contribution of hydropower to electricity generation was already significant.

Solution 3: B)

(b) is the right answer. Refer to the lines: *The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year – the equivalent of removing the entire US transport system.* The passage talks about reduction in carbon dioxide emissions as a possible effect on using renewable energy.

(I) is not a positive effect. (III) has not been mentioned in the passage.

Solution 4: B)

(b) is the right answer. Refer to the lines: *As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important.* The passage explicitly states that the price of renewable energy is falling because of advancement in clean energy technology. The other options are incorrect because they do not provide the actual reason.

Solution 5: E)

(e) is the right answer.

Sentence: But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains ____ (A) ____ to the energy transition. We need an adjective to modify the noun ROLE. The sentence seeks to convey that electricity constitutes for only one-fifth of the global energy consumption and renewable energy needs to play a significant part in the process of shifting away from fossil fuel consumption in the transportation and heating sectors. CRITICAL fits contextually in the blank. A CRITICAL factor is used to describe something that is extremely important.

ELEVATE- to raise or lift (something) to a higher position.

EXISTENCE- the fact or state of living or having objective reality.

ERRATIC- unpredictable

DIABOLIC-extremely cruel or unpleasant.

Solution 6: B)

(b) is the right answer. If a particular thing ACCOUNTS FOR a part or proportion of something, that part or proportion consists of that thing, or is used or produced by it. CONTRIBUTING is the one with the most similar meaning.

Contradict- to oppose or provide and opposite point of view

Devious- dishonest

Retrieve- to get or bring (something) back from somewhere.

Solution 7: D)

(d) is the right answer. If an amount, rate, or price plummets, it decreases quickly by a large amount.

SLUMP is the most similar in meaning.

Intensify- become or make more intense/stronger

Escalate- increase rapidly.

Callous- showing or having an insensitive and cruel disregard for others.

Reminiscent- suggesting something by resemblance.

Solution 8: A)

We need a verb here to link the subject INVESTORS with the object SHARES. TRADED (dealt; bought and sold) will fit here as the sentence tells us how the investors bought and sold some 16 million shares in a single day. Thus, (a) is the right answer.

Invaded - entered without permission. Segregated - separated. Daunted - frightened; intimidated. Halted - stopped.

Solution 9: B)

We need a present participle form verb here to link the two clauses of the sentences. WIPING OUT (destroying) will fit here as the sentence tells us how investors were destroyed as billions of dollars were lost. Thus, (b) is the right answer.

Affording - being able to buy or pay for something. Wanting - wishing for. Vacating - emptying. Artificial (adjective) - insincere; fake.

Solution 10: C)

We need a verb here to agree with the subject AMERICA AND THE REST OF THE INDUSTRIALIZED WORLD. SPIRALED (descended) will fit here as the sentence tells us how the industrialised countries descended into the Great Depression. Thus, (c) is the right answer.

Reprimanded - scolded. Embedded - implanted. Mounted - climbed. Disregarded - ignored; overlooked.

Solution 11: D)

We need a noun here to be modified by the adjective ECONOMIC. DOWNTURN (decline) will fit here as the sentence tells us how the Great Depression was the deepest and longest-lasting economic decline in history. Thus, (d) is the right answer.

Provided (verb) - supplied. Infiltration - contamination. Dismantle (verb) - disintegrate; separate into parts. Diversification - the act of making something more diverse or varied.

Solution 12: D)

We need a noun here to be modified by the definite article THE. PROLIFERATION (rapid increase) will fit here as the sentence tells us how the rapid increase of debt was one of the causes of the collapse of the market. Thus, (d) is the right answer.

Commotion - disorder. Impair (verb) - break or make something stop functioning. Significant (adjective) - important. Renovate (verb) - change the appearance of something.

Solution 13: C)

We need a base form verb here to fit in the infinitive construction TO + VERB. STABILIZE (make steady) will fit here as the sentence tells us how investment companies and bankers tried to make the market steady by buying up more stock. Thus, (c) is the right answer.

Infirmity (noun) - weakness. Credibility (noun) - reliability; good reputation. Burdened - troubled. Rationalize - to provide a logical explanation for something.

Solution 14: B)

The sentence conveys that the plastic ban has failed as the usage of polybags has not reduced due to it. The highlighted phrase is incorrect as it uses the verb REDUCING instead of REDUCTION; the adjective NO should modify a noun. (b) can replace it and convey the requisite meaning, which makes it the right answer.

A is incorrect because the verb IS should be followed by a noun that will serve as its object; REDUCE is a verb. C is incorrect likewise, because REDUCED is a verb; moreover, the plural verb HAVE is incorrect. D is incorrect we need a phrase ending with a noun so that the preposition IN can follow.

Solution 15: C)

The sentence conveys that the retail prices of petrol and diesel is to be revised on a daily basis. We need a passive voice verb phrase here as the sentence already specified what is to be revised - the retail prices of fuel. The highlighted phrase is incorrect as IS REVISING is an active voice verb phrase, and will convey the meaning that it is the retail prices that are doing the revising rather than being the object of the revision, which is absurd. (c) can replace it and convey the requisite meaning.

A and B are incorrect likewise, because they are in active voice. D is incorrect as it uses the base form verb REVISE instead of the past participle REVISED for a passive voice construction, which is incorrect.

Solution 16: A)

The sentence conveys that the author had arranged everything prior to their arrival. Here, the sentence talks of two events, both of which took place in the past - (1) the act of getting everything ready, and (2) their arrival. When a sentence talks about two past events, the past perfect tense is used for the event which took place earlier than the other. The highlighted phrase is incorrect as it uses the simple past tense

WE GOT, and should be replaced with the past perfect WE HAD GOT, as the first event (the act of getting things ready) took place BEFORE the second event (their arrival). Thus, (a) is the right answer. B is incorrect as it uses the present perfect tense. C is incorrect as it uses the second form verb GOT with the present perfect continuous construction HAVE + BEEN + VERB (getting). D is incorrect as it uses the present continuous tense.

Solution 17: E)

The sentence conveys that the author still possesses some farm equipment that has not been used since the death of his grandfather. We need a passive voice verb phrase here as the sentence already specified what is not being used - farm equipment. The highlighted phrase is grammatically and contextually correct, which makes (e) the right answer.

A, B and C are incorrect as they use the active voice. D is incorrect as it uses the base form verb USE instead of the past participle USED; the passive voice construction is SHOULD + NOT + HAVE + BEEN + PAST PARTICIPLE.

Solution 18: C)

The sentence conveys that every officer and resident is resolved to put his best effort to get a better ranking in the sanitation index. The highlighted phrase is incorrect as it uses the plural possessive pronoun THEIR in place of the singular possessive HIS. When we use EACH or EVERY, we use the singular verb or pronoun. Thus, (c) is the right answer.

A is incorrect as THERE is an adverb, not a possessive pronoun. B is incorrect as the possessive pronoun ITS is used for animals and objects, not people. D is incorrect as the possessive case ONE'S is used with the subject pronoun ONE is used.

Solution 19: D)

We need a base form verb to fit in the infinitive construction TO + VERB. The sentence conveys that the administration has taken measures to enhance the education system. REVAMP (make improvements) will fit here. Thus, (d) is the right answer.

Increase - rise. DEVISED (created) is a second form verb. RENOVATED (redecorated; changed the appearance) is a second form verb. Dispel - drive away doubt or fear.

Solution 20: D)

We need an adjective to modify the noun SECTORS. LUCRATIVE (profitable) will fit here as the sentence tells us how health and education are two of the most profitable sectors in the global market. Thus, (d) is the right answer.

Benefit (noun) - advantage. Necessity (noun) - the state of being required. Profit (noun) - gain. Importance (noun) - significance.

Solution 21: A)

We need a past participle form verb here to fit in the present perfect tense construction HAS + VERB. WISHED (wanted) will fit here as the sentence conveys that she is a citizen who has always wanted to contribute to the country's growth. Thus, (a) is the right answer.

ADMIRING (liking; respecting) is a continuous form verb. PREPARE (become or make ready) is a base form verb. MOTIVATING (inspiring) is a continuous form verb. STIMULATE (inspire; drive) is a base form verb.

Solution 22: B)

We need a preposition here to form a phrasal verb with LOOK. AROUND (in the surrounding environment) will fit here as the sentence tells us how the author looked in the surrounding area and did not find the car that he dreamed of. Thus, (b) is the right answer.

Look after - took care of. Look above - look over something. Look out - watch out for; be alert. Look down - to consider someone inferior to oneself.

Solution 23: E)

We need a gerund here to follow the preposition IN. ANNOUNCING (declaring) will fit here as the sentence tells us how the RBI has been conservative and declared a rate cut of only 25 basis points. Thus, (e) is the right answer.

Introduce (verb) - bring out. Proposed (verb) - offered. Improving - enhancing. Decrease (noun/ verb) - fall; reduce.

Solution 24: E)

(e) is the right answer. The correct pairs are AE and BD.

AE - A begins the sentence by establishing the subject - the rumours of petrol shortage, and E follows with the verb stem, completing the sentence. It tells us that the rumours turned out to be false.

BD - B begins the sentence by establishing the subject - the body of the camera. D completes the sentence by telling us more about the body of the camera - it is resistant for outdoor use.

C and F fail to form a meaningful and coherent sentence.

Solution 25: C)

(c) is the right answer. The correct pair is AF.

AF - A begins the sentence by telling us how rain water collected on the highway in pools, and F concludes by giving its effect - it restricted traffic flow.

B and C fail to form a meaningful and coherent sentence with either D or E.

Solution 26: A)

(a) is the right answer. We need to replace HAVE with HAS as 'each of' and 'either of' always takes the singular verb.

Solution 27: A)

(a) is the right answer. We need to replace HAS BEEN FALLEN with HAS FALLEN. There is no passive form of the verb FALL.

Solution 28: D)

(d) is the right answer. In A, we need to replace USED to WALK with WAS WALKING. The second half of the sentence implies that the incident of knocking down took place while the man was walking. The first half of the sentence will be in past continuous tense while the second part will be in simple past.

Solution 29: A)

(a) is the right answer. In D, we need to replace INTRODUCES with INTRODUCE as we need the base form of the word to fit in the infinitive construction of TO+VERB.

Solution 30: E)

(e) is the right answer. The sentence is grammatically and contextually correct.

Solution 31: C)

Let the speed of the boat in still water and the speed of the current be $8x$ km/hr and $5x$ km/hr, respectively

According to the question,

$$D/(8x + 5x) = \{(D - 200)/(8x - 5x)\}$$

$$\text{Or, } 3D = 13D - 2600$$

$$\text{Or, } D = 2600/10 = 260$$

Hence, option c.

Solution 32: A)

Length of the train 'A' = $15 \times 20 = 300$ m/sec

Speed of train 'B' = $15 + 3 = 18$ m/sec

Length of train 'B' = $300 - 30 = 270$ metres

Required time taken = $(270 + 270)/18 = 30$ seconds

Hence, option a.

Solution 33: C)

According to the question,

$$25 \times 12 = 16x + (16 + 6) \times 10$$

$$\text{Or, } 16x = 300 - 220$$

$$\text{Or, } x = 80/16 = 5$$

Hence, option c.

Solution 34: E)

Let the radius of the circular field be 'r' metres

According to the question,

$$\pi r^2 = 3465/10$$

$$\text{Or, } r^2 = (346.5 \times 7)/22 = 110.25$$

$$\text{Or, } r = 10.5 \text{ metres}$$

Therefore, each side of the square field 'S' = $2r = 2 \times 10.5 = 21$ metres

Perimeter of the square field = $4 \times 21 = 84$ metres

Hence, option e.

Solution 35: A)

Let the cost price of each chair be Rs. 'x'.

Selling price of chair sold at 12% profit = Rs. $1.12x$

Selling price of chair sold at 18% loss = Rs. $0.82x$

According to the question,

$$1.12x - 0.82x = 90$$

$$\text{Or, } 0.3x = 90$$

$$\text{Or, } x = 90/0.3 = 300$$

Therefore, cost price of each chair = Rs. 300

Hence, option a.

Solution 36: D)

Let the present ages of 'A', 'B' and 'C' be 'a' years, 'b' years and 'c' years, respectively

According to the question,

$$(a + 4 + b + 4 + 30) = b + c$$

$$\text{Or, } c - a = 38 \dots (1)$$

$$\text{Also, } c - 4 + a - 4 = 70$$

$$\text{Or, } c + a = 78 \dots (2)$$

On solving equation (1) and (2), we get

Present age of 'C' = c years = 58 years

Hence, option d.

Solution 37: A)

Let the ages of 'A' and 'B' 4 years ago from now be $9x$ years and $11x$ years, respectively.

According to the question,

$$(9x + 4 + 6)/(11x + 4 + 6) = 7/8$$

$$\text{Or, } 72x + 80 = 77x + 70$$

$$\text{Or, } 5x = 10$$

$$\text{Or, } x = 2$$

Therefore, present age of 'B' = $11x + 4 = 26$ years

Hence, option a.

Solution 38: C)

Let the cost price of article 'B' be Rs. 'x'

Therefore, cost price of article 'A' = Rs. $2x$

According to the question,

$$1.2 \times x = 3600$$

$$\text{Or, } x = 3600/1.2 = 3000$$

Therefore, cost price of article 'A' = $2x = \text{Rs. } 6000$

Hence, option c.

Solution 39: C)

Ratio of the profits received by 'A', 'B' and 'C'

$$= (800 \times 12):(1200 \times 4):(1600 \times 8) = 6:3:8$$

Therefore, total profit received = $3200 \times (17/8) = \text{Rs. } 6800$

Hence, option c.

Solution 40: A)

	Total number of researchers	Number of male researchers	Number of female researchers
A	$0.35 \times 800 = 280$	$280 \times (3/7) = 120$	$280 - 120 = 160$
B	$0.4 \times 800 = 320$	$320 \times (5/8) = 200$	$320 - 200 = 120$
C	$0.25 \times 800 = 200$	$200 \times (3/5) = 120$	$200 - 120 = 80$

Number of male researchers in lab 'D' = $1.25 \times 120 = 150$

Number of female researchers in lab 'D' = $150 \times (9/10) = 135$

Therefore, total number of researchers in lab 'D' = $150 + 135 = 285$

Hence, option a.

Solution 41: E)

Required number = $120 + 200 + 120 = 440$

Hence, option e.

Solution 42: B)

Total number of foreigner researchers at lab 'C' = $0.45 \times 200 = 90$

Therefore, number of foreigner male researchers = $90 - (80 - 35) = 45$

Hence, option b.

Solution 43: A)

Required angle = $360^\circ \times (40/100) = 144^\circ$

Hence, option a.

Solution 44: B)

Required percentage = $\{(200 - 80)/200\} \times 100 = 60\%$

Hence, option b.

Solution 45: E)

Required average = $(160 + 120 + 80)/3 = 120$

Hence, option e.

Solution 46: C)

12.45% of $(104.96 + 14.99^2) = ?$

12% of $(105 + 15^2) \sim ?$

$? \sim 0.12 \times (105 + 225)$

$? \sim 39.6$

$? \sim 40$

Hence, option c.

Solution 47: E)

$12.45 \times \sqrt{624.98} + 99.78 = ? \times 19.68$

$12 \times \sqrt{625} + 100 \sim ? \times 20$

$? \times 20 \sim (12 \times 25) + 100$

$? \sim (400 \div 20)$

$? \sim 20$

Hence, option e.

Solution 48: E)

$5.12 + (? - 9.89) - 4.34^2 = 19.89$

$5 + (? - 10) - 4^2 \sim 20$

$(? - 10) \sim 20 + 16 - 5$

$? \sim 31 + 10$

$? \sim 41 \sim 40$

Hence, option e.

Solution 49: C)

$(4.89)^2 + \sqrt{144.35} - \sqrt{121.25} = ?$

$5^2 + \sqrt{144} - \sqrt{121} \sim ?$

$$? \sim 25 + 12 - 11$$

$$? \sim 26$$

Hence, option c.

Solution 50: B)

$$15.01\% \text{ of } 199.98 + \sqrt{1599.99} = ? \times 5.25$$

$$15\% \text{ of } 200 + \sqrt{1600} \sim ? \times 5$$

$$0.15 \times 200 + 40 \sim ? \times 5$$

$$? \sim (30 + 40) \div 5$$

$$? \sim 14$$

Hence, option b.

Solution 51: C)

From I:

$$x^2 = 324$$

$$x = 18, -18$$

From II:

$$y^2 - 33y + 270 = 0$$

$$y^2 - 18y - 15y + 270 = 0$$

$$y(y - 18) - 15(y - 18) = 0$$

$$(y - 18)(y - 15) = 0$$

$$y = 18, 15$$

X	Relation	y
18	=	18
18	>	15
-18	<	18
-18	<	15

So, relation between x and y cannot be established.

Hence, option c.

Solution 52: B)

From I:

$$2x + 5y = 38$$

$$y = (38 - 2x)/5$$

From I:

$$5x - 2y = 8$$

$$5x - \{2(38 - 2x)\}/5 = 8$$

$$29x = 116$$

$$x = 4$$

$$y = (38 - 2x)/5$$

$$y = 6$$

$$\text{So, } x < y$$

Hence, option b.

Solution 53: D)

From I:

$$(x - 8)^2 = (x - 8)$$

$$(x - 8)^2 - (x - 8) = 0$$

$$(x - 8)(x - 8 - 1) = 0$$

$$(x - 8)(x - 9) = 0$$

$$x = 8, 9$$

From II:

$$(y - 7)^2 = y - 7$$

$$(y - 7)^2 - (y - 7) = 0$$

$$(y - 7)(y - 7 - 1) = 0$$

$$(y - 7)(y - 8) = 0$$

$$y = 7, 8$$

X	Relation	y
---	----------	---

8	=	8
8	>	7
9	>	8
9	>	7

So, $x \geq y$

Hence, option d.

Solution 54: A)

From I:

$$x^2 + 3x - 28 = 0$$

$$x^2 + 7x - 4x - 28 = 0$$

$$x(x + 7) - 4(x + 7) = 0$$

$$(x + 7)(x - 4) = 0$$

$$x = -7, 4$$

From II:

$$y^2 + 17y + 72 = 0$$

$$y^2 + 8y + 9y + 72 = 0$$

$$y(y + 8) + 9(y + 8) = 0$$

$$(y + 8)(y + 9) = 0$$

$$y = -8, -9$$

X	Relation	y
-7	>	-8
-7	>	-9
4	>	-8
4	>	-9

So, $x > y$

Hence, option a.

Solution 55: B)

From I:

$$x^2 + 11x + 28 = 0$$

$$x^2 + 7x + 4x + 28 = 0$$

$$x(x + 7) + 4(x + 7) = 0$$

$$(x + 7)(x + 4) = 0$$

$$x = -7, -4$$

From II:

$$y^2 - 2y - 15 = 0$$

$$y^2 + 3y - 5y - 15 = 0$$

$$y(y + 3) - 5(y + 3) = 0$$

$$(y + 3)(y - 5) = 0$$

$$y = -3, 5$$

X	Relation	y
-7	<	-3
-7	<	5
-4	<	-3
-4	<	5

So, $x < y$

Hence, option b.

Solution 56: B)

$$120 + 8 = 128$$

$$128 - 16 = 112$$

$$112 + 24 = 136$$

$$136 - 32 = 104$$

$$104 + 40 = 144$$

Hence, option b.

Solution 57: E)

$$16 \times 0.5 = 8$$

$$8 \times 1 = 8$$

$$8 \times 1.5 = 12$$

$$12 \times 2 = 24$$

$$24 \times 2.5 = 60$$

Hence, option e.

Solution 58: A)

$$120 + 144 = 264$$

$$264 + 72 = 336$$

$$336 + 36 = 372$$

$$372 + 18 = 390$$

$$390 + 9 = 399$$

Hence, option a.

Solution 59: B)

$$1 \times 8 = 8$$

$$8 \times 7 = 56$$

$$56 \times 6 = 336$$

$$336 \times 5 = 1680$$

$$1680 \times 4 = 6720$$

Hence, option b.

Solution 60: C)

$$24 + 4 = 28$$

$$28 + (4 + 4) = 36$$

$$36 + (8 + 6) = 50$$

$$50 + (14 + 8) = 72$$

$$72 + (22 + 10) = 104$$

Hence, option c.

Solution 61: C)

	Total number of employees	Number of officers	Number of clerks
A	200	120	$200 - 120 = 80$
B	180	60	$180 - 60 = 120$
C	240	150	$240 - 150 = 90$
D	160	60	$160 - 60 = 100$

$$\text{Required average} = (80 + 120 + 100)/3 = 100$$

Hence, option c.

Solution 62: D)

$$\text{Required ratio} = 120:90 = 4:3$$

Hence, option d.

Solution 63: B)

$$\text{Required difference} = 0.5 \times 120 - 0.25 \times 100 = 60 - 25 = 35$$

Hence, option b.

Solution 64: E)

$$\text{Required percentage} = \{(80 - 60)/80\} \times 100 = 25\%$$

Hence, option e.

Solution 65: C)

$$\text{Number of officers in office 'E'} = 1.25 \times 240 - 120 = 180$$

Hence, option c.

Solution 66: C)

Starting Point: Firstly, fix the position of R and the orange colored box and then connect the other related information.

Clues: One box is placed between P and orange colored box. Three boxes are placed between P and pink colored box. Red colored box is placed just below P.

Inference: One box is placed between P and orange colored box so, either box P is placed above or below the orange colored box.

So, there are two possible cases.

Case I: When box P is placed above the Orange colored box:

Boxes	Colors
P	
R	Red
	Orange
	Pink

Case II: When box P is placed below the Orange colored box:

Boxes	Colors
	Pink
R	
	Orange
P	
	Red

Clues: Two boxes are placed between S and T. There are as many boxes placed above red colored box as below T. T is not Orange colored box. Black colored box is placed just above yellow colored box. U is placed above Q.

Inference: So, in case II box T must be placed at the top and in case I box T is placed immediately below the box R but box T is not in orange color so, case I is invalid.

The final arrangement is as follows:

Boxes	Colors
T	Pink
R	White
U	Orange
S	Black
P	Yellow
Q	Red

The pink colored box is placed at the top.

Hence, option c.

Solution 67: D)

The White colored box is placed just above the Orange colored box.

Hence, option d.

Solution 68: B)

Box Q is of Red color.

Hence, option b.

Solution 69: A)

There are two boxes in between the box T and the Black colored box.

Hence, option a.

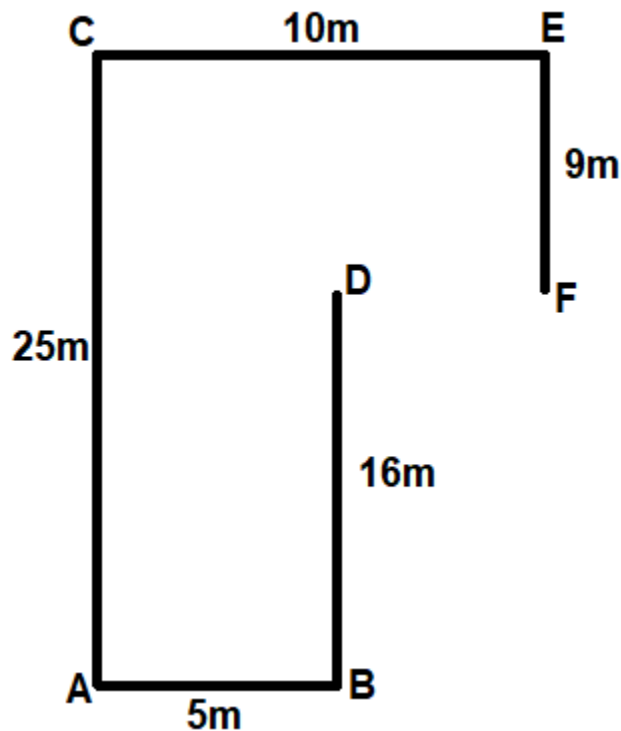

Solution 70: D)

Box U is placed two places above the box P.

Hence, option d.

Solution 71: D)

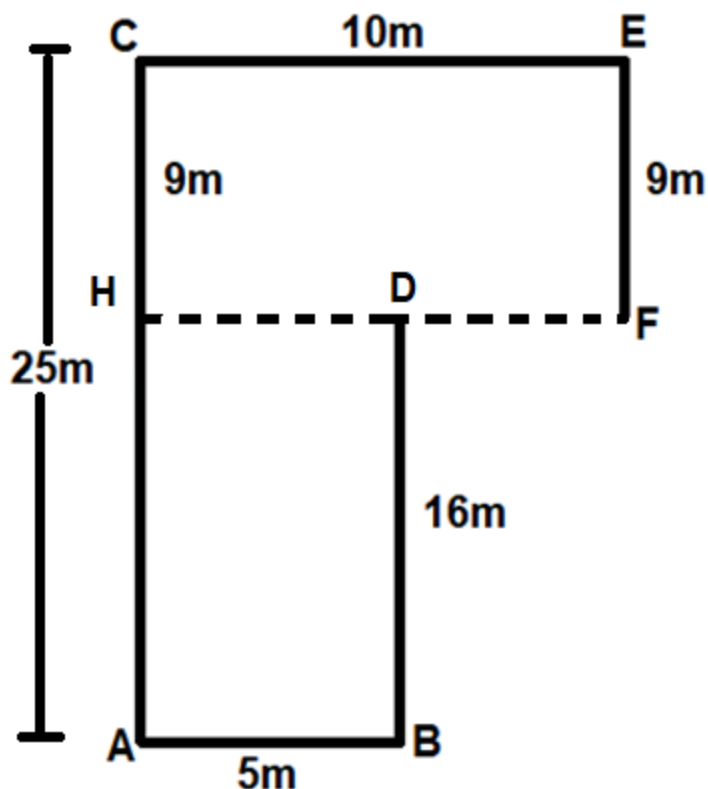

Following figure can be formed to show the direction and distance among the points given.

Point F is in 5m east of point D.
Hence, option d.

Solution 72: A)

Figure:

So, if point H is west of point F and north of point A, then the distance between C and H must be 9m.
Hence, option a.

Solution 73: E)

Point E is in north east with respect to point A.
Hence, option e.

Solution 74: D)

Starting Point: Firstly, fix the position of A i.e. A either sits 2nd from the right or left end of the row.

Clues: Two persons sit between A and C. D sits third to the left of C. F sits second to the right of D. Immediate neighbors of D face the opposite direction to D. E sits second to the right of F. H is an immediate neighbor of E.

So, there are two cases

Case I: When A sits 2nd from the left end of the row:

(here left or right are considered with respect to the north direction)

	A	H	E	C(south)	F(south)	(north)	D(south)	(north)	
--	---	---	---	----------	----------	---------	----------	---------	--

Case II: When A sits 2nd from the right end of the row:

(south)	D(north)	(south)	F(north)	C(north)	E	H	A		
---------	----------	---------	----------	----------	---	---	---	--	--

Clues: Persons sitting in an extreme end are facing opposite direction to each other. A sits second to the right of E. H and A do not face north. B sits second to the left of G. I doesn't face south.

Inference: So, B sits 2nd to the left of G also I faces the north which means I sits at the extreme end and persons sitting at the extreme ends facing the opposite direction which is not possible in case I so, case I is rejected.

The final arrangement is as follows:

G(south)	D(north)	B(south)	F(north)	C(north)	E(north)	H(south)	A(south)	I(north)	
----------	----------	----------	----------	----------	----------	----------	----------	----------	--

C sits 2nd to the right of H.

Hence, option d.

Solution 75: A)

D sits to the immediate right of B.

Hence, option a.

Solution 76: C)

Two persons sitting between I and E.

Hence, option c.

Solution 77: B)

I sits at the extreme end so, No one sits 3rd to the right of I.

Hence, option b.

Solution 78: B)

All are facing south direction except I.

Hence, option b.

Solution 79: C)

Q is taller than P. T is taller than Q. T is shorter than only R.

So, Pole R is the tallest pole.

U is taller than Q. P is not the shortest pole which means pole S is the shortest pole.

The final arrangement is as follows:

$R > T(54m) > U > Q(30m) > P > S$

Pole U is the 3rd highest pole.

Hence, option c.

Solution 80: D)

The height of pole T and Q is 54 and 30m respectively so, the height of pole U is lie between 54m to 30m.

Hence, option d.

Solution 81: B)

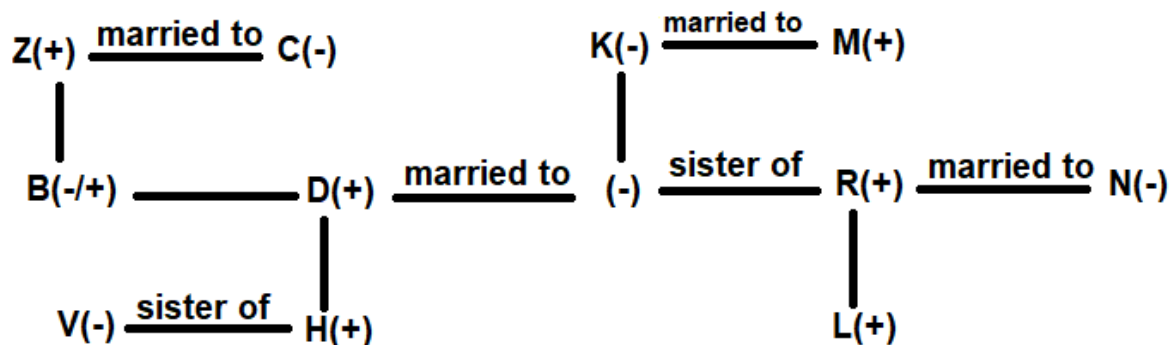

So, if the sum heights of poles T and S is 80m which means the height of pole S is 26m(80-54) also the sum of the heights of R and Q is 120m which means height of pole R is 90m(120-30) So, the difference between the heights of poles R and S is 64m(90-26).

Hence, option b.

Solution 82: C)

So, D has only one daughter and H is the grandson of K and V is the only sibling of H which means V is female and V and C are of same gender which means C is also female.

As per the information given following figure can be formed to show the family relations among the given persons:

So, if O is the wife of D which means O is the aunt of L.

Hence, option c.

Solution 83: B)

Z is the husband of C which means Z is the grandfather of V.

Hence, option c.

Solution 84: A)

If Z has only two children i.e. one daughter and one son which means B is the daughter of Z so, B is the sister-in-law of the wife of D.

Hence, option a.

Solution 85: C)

Starting Point: As we have direct information, we will start solving puzzle from fixing P either on topmost or lowermost floor.

Clues: Only two persons live below Q. The one who works Google lives on fifth floor. The one who works IBM lives just above U who works TCS company.

Inference: The one who works Infosys lives on even number floor below the fourth floor i.e. on 2nd floor.

Case I: When P lives on topmost floor:

Floor	Person	Company
7	P	IBM
6	U	TCS
5		Google
4		
3	Q	
2		Infosys
1		

Case II: When P lives on lowermost floor:

Floor	Person	Company
7		IBM
6	U	TCS
5		Google
4		
3	Q	

2		Infosys
1	P	

Clues: There are two floors between the one who works TCS and the one who works Wipro. Only one person lives between the one who works Wipro company and S, who lives just below R. Person who works Samsung and T do not live on an even numbered floor.

Inference: S, who lives just below R which is not possible in case II so, case II is invalid. Also T and the one who works in Samsung live on odd number floor, so, the one who works Samsung company lives on 1st floor and T lives on 5th floor.

The final arrangement is as follows:

Floor	Person	Company
7	P	IBM
6	U	TCS
5	T	Google
4	V	Xiaomi
3	Q	Wipro
2	R	Infosys
1	S	Samsung

V lives on 4th floor.

Hence, option c.

Solution 86: B)

S works in Samsung company.

Hence, option b.

Solution 87: D)

The one who works in Google lives just below the one who works in TCS.

Hence, option d.

Solution 88: C)

R lives on 2nd floor.

Hence, option c.

Solution 89: A)

The one who works in TCS lives two floors above V.

Hence, option a.

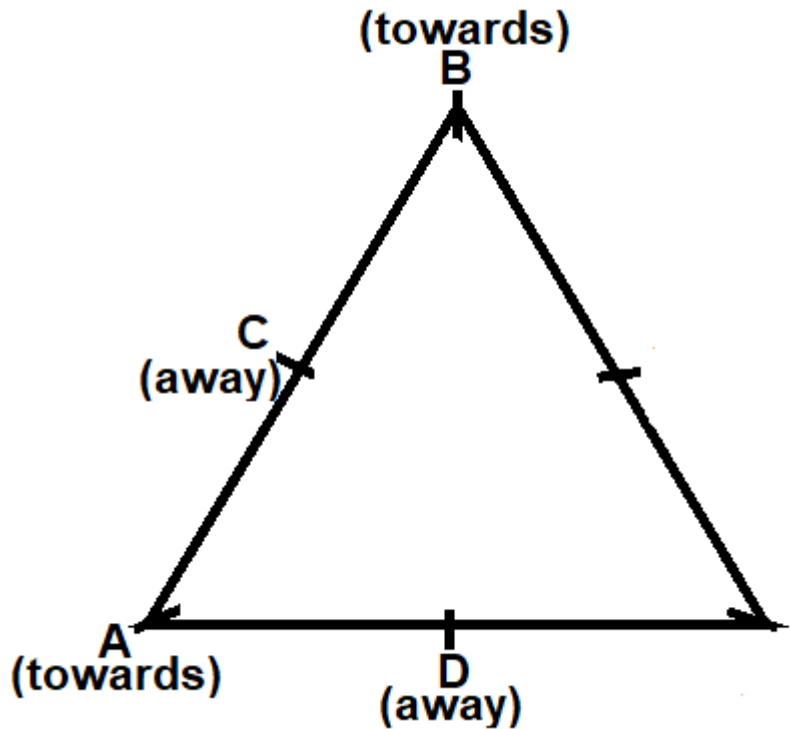

Solution 90: C)

Starting Point: Firstly, fix the position of D as can either sit to the right or left of A, who sits at one of the corners.

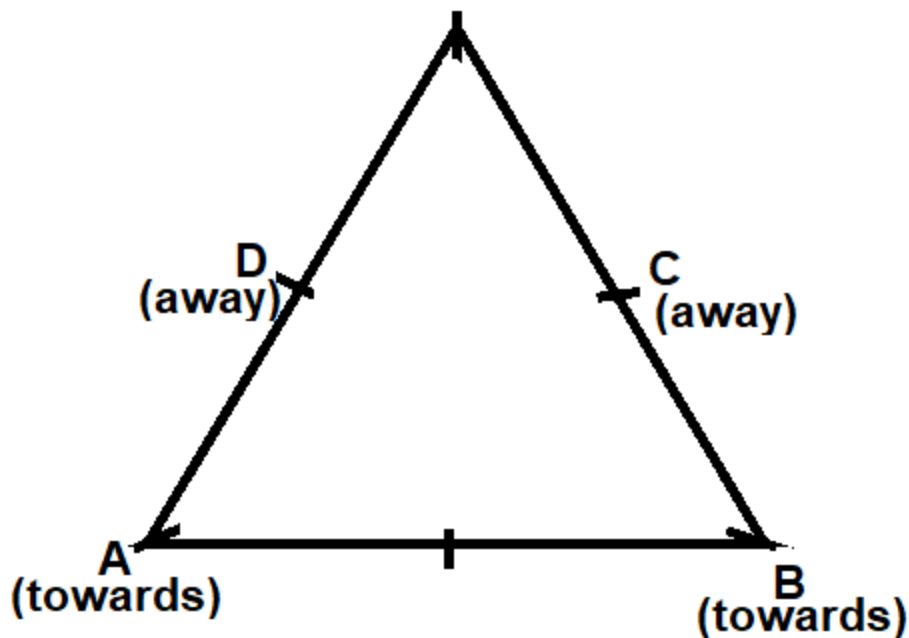

Clues: Two persons sit between D and B. C sits immediate right of B but not at any corner.

Inference: So, D can either sit to the right or to the left of A.

Case I: When D sits to the right of A:

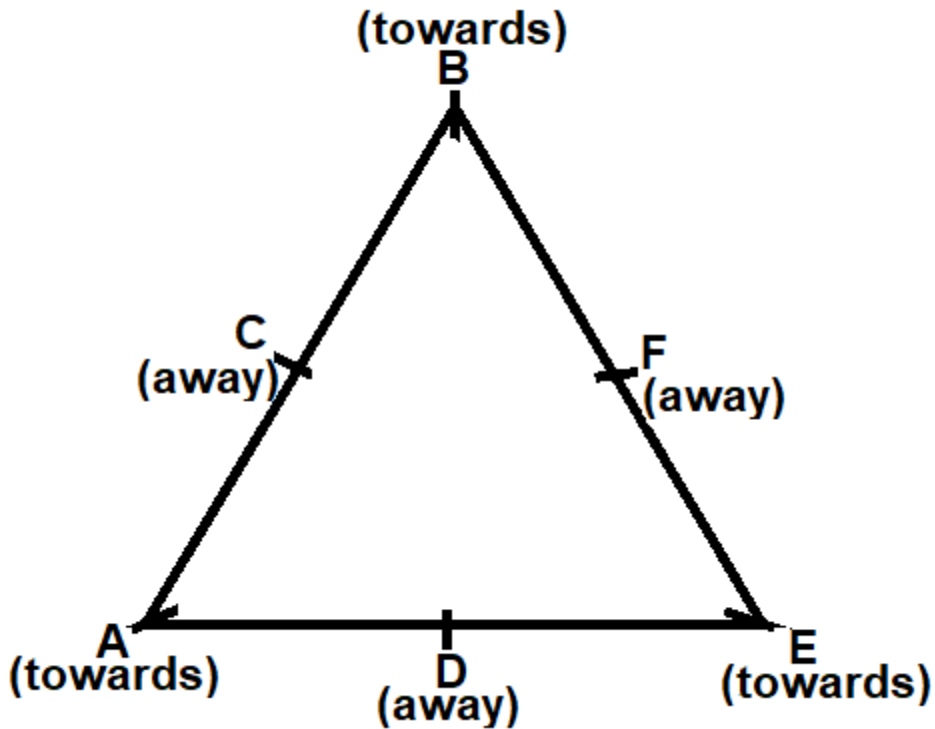

Case II: When D sits to the left of A:

Clues: E is to the immediate right of F. F does not sit at any of the corner of the table.

Inference: E sits to the immediate right of F and F sits at the middle of the table which is not possible in case II.

The final arrangement is as follows:

A sits 2nd to the right of B.
Hence, option c.

Solution 91: A)

D sits between A and E when counted from the right of A.
Hence, option a.

Solution 92: D)

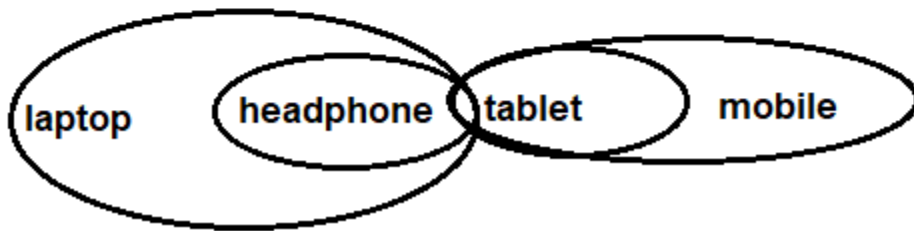

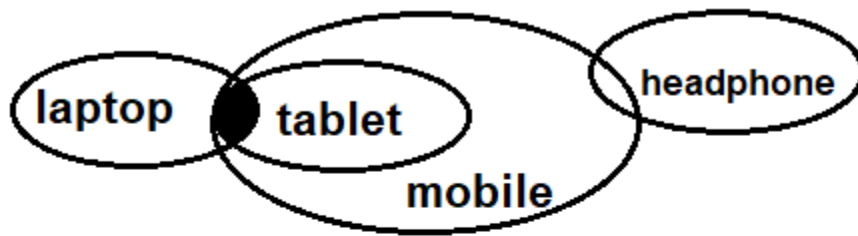

B sits 2nd to the right of E.
Hence, option d.

Solution 93: E)

A, B and E are sitting at the corners of the table.
Hence, option e.

Solution 94: A)

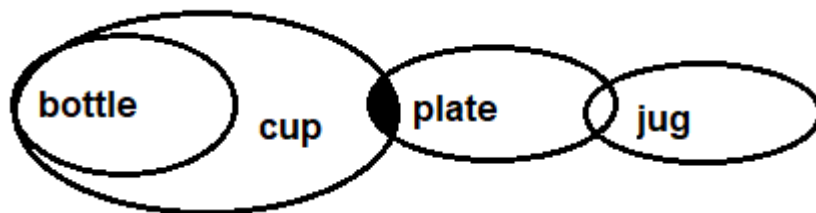

Following figures can be formed from the statements:

So, from the above figure it is clear that all headphone can be laptop so conclusion I follows. Hence, option a.

Solution 95: B)

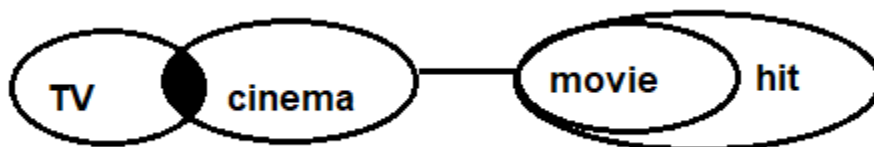

Following figure can be formed from the statements:

So, there is no direct relation is given between plate and bottle so, conclusion II does not follow also all jug can be cup so, conclusion I also does not follow. Hence, option b.

Solution 96: C)

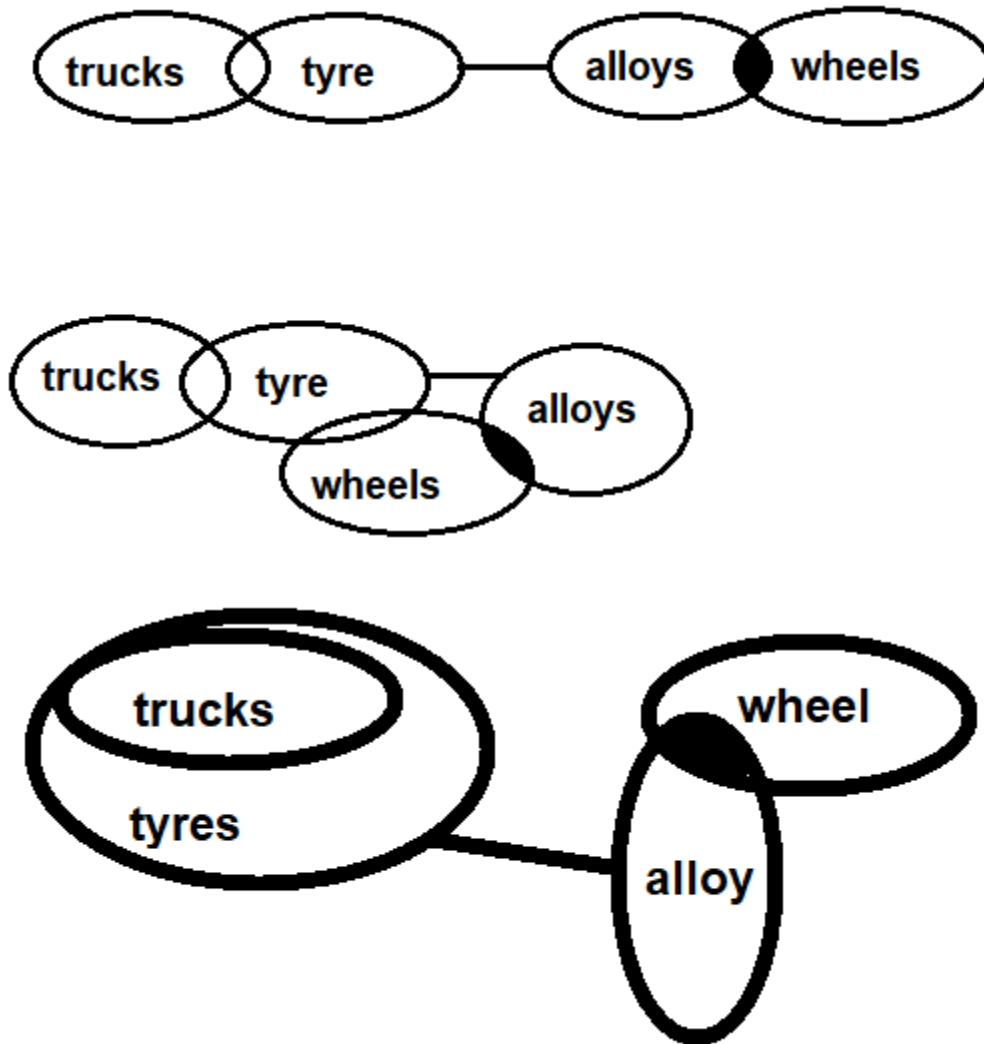

Following figure can be formed from the statements:

Since, only a few TV is cinema is given which some TV are definitely not a part of cinema so, conclusion I does not follow and it is clear that some part of hit can never be part of cinema so, conclusion II follows. Hence, option c.

Solution 97: A)

Following figures can be formed from the statements:

So, from the above figure it is clear that some wheels can be tyres so, conclusion I follows. Also, common part of truck are tyre can never be part of alloy. So, conclusion II follows. Hence, option a.

Solution 98: A)

Given statements: $P < S = T < O$; $X > W \geq O < G$; $K < Y < W$

On combining, we get

$P < S = T < O \leq W < X$; $P < S = T < O \leq W > Y > K$; $G > O \leq W > Y > K$

Conclusions:

I. $P < X$: True (As $P < S = T < U \leq W < X$, so $P < X$)

II. $K < T$: False (As $T < O \leq W > Y > K$, so, the relation between K and T can't be determined)

III. $G > Y$: False (As $G > O \leq W > Y$, so, the relation between G and Y can't be determined)

Hence, option a.

Solution 99: C)

Given word 'HORTICULUTRAL'

So, there are four such pairs i.e. HR, IL, CH and TU.

Hence, option c.

Solution 100: D)

Given statement: $A \geq K > L \geq M$; $B > K > O = P$

On combining statements, we get,

$A \geq K > O = P$; $M \leq L < K > O = P$

Conclusions:

I. $P < M$: False (As, $M \leq L < K > O = P$, so, the relation between P and M can't be determined)

II. $A \geq P$: False (As, $A \geq K > O = P$, so, $A > P$)

Hence, option d.
