

IBPS RRB Prelims 2024

69 questions

Study the following information carefully and answer the given questions: Eight persons– A, B, C, D, P, Q, R and S (not necessarily in the same order) sit in two rows i.e. Row 1 and Row 2, both the rows are parallel to each other. Row 1 is to the north of Row 2. Four persons sit in each row. A, B, C and D sit in Row 1 and face south while P, Q, R and S sit in Row 2 and face north. R sits opposite to C. One person sits between A and the one who faces S. C doesn't sit at any of the ends. S does not sit at any of the ends. The one who faces P sits two persons away from D. Q does not sit left of P. | - A, B, C, D, P, Q, R S () 1 2 , - 1, 2 A, B, C D 1 P, Q, R S 2 R, C A S , C S P , D Q, P

1. Who among the following person sits opposite to one who sits two persons away from B?

- (a) P
- (b) Q
- (c) R
- (d) S
- (e) Can't be determined

2. Which of the following statements is not true?

- (a) A sits at one of the ends./ A
- (b) R sits immediately left of S./ R, S
- (c) C sits two persons away from B./ C, B
- (d) Q faces D/ Q D
- (e) All are true

3. Four of the following five are in the same group, who among the following does not belong to that group?

- (a) A
- (b) B
- (c) P
- (d) Q
- (e) S

4. How many persons sit to the left of D?

- (a) One
- (b) Two
- (c) Three
- (d) As many persons sit to the left of P/ P
- (e) None of these

5. Which among the following pair of persons doesn't face each other?

- (a) A and P/ A P
- (b) Q and D/ Q D
- (c) Q and B/ Q B
- (d) S and D/ S D
- (e) None of these

In each of the questions, relationships between some elements are shown in the statements. These statements are followed by conclusions numbered I and II. Read the statements and give the answer. , I II

6. Statements: $A < B \leq C = D$, $D > E \geq F > G$ Conclusions: I. $D \geq B$ II. $G < C$: $A < B \leq C = D$, $D > E \geq F > G$: I. $D \geq B$ II. $G < C$

- (a) If only conclusion I is true./ I
 - (b) If only conclusion II is true./ II
 - (c) If either conclusion I or II is true./ I II
 - (d) If both conclusions I and II are true./ I II
 - (e) If neither conclusion I nor II is true./ I II
-

7. Statements: $P < Q > R \leq S > T \leq U = V$ Conclusions: I. $P > V$ II. $U \geq P$: $P < Q > R \leq S > T \leq U = V$: I. $P > V$ II. $U \geq P$

- (a) If only conclusion I is true./ I
 - (b) If only conclusion II is true./ II
 - (c) If either conclusion I or II is true./ I II
 - (d) If both conclusions I and II are true./ I II
 - (e) If neither conclusion I nor II is true./ I II
-

8. Statements: $X = Y < Z \leq W$, $Y > V \geq U \leq A < B$ Conclusions: I. $Z > B$ II. $X \leq V$: $X = Y < Z \leq W$, $Y > V \geq U \leq A < B$: I. $Z > B$ II. $X \leq V$

- (a) If only conclusion I is true./ I
 - (b) If only conclusion II is true./ II
 - (c) If either conclusion I or II is true./ I II
 - (d) If both conclusions I and II are true./ I II
 - (e) If neither conclusion I nor II is true./ I II
-

Study the following alphanumeric-symbol series carefully and answer the questions given below. - G & 7 8 H * F 5 \$ B U W % A 4 S 3 L K O P 1 Q 2 E N

9. Which element is third to the left of eighth element from right end?

- (a) S
 - (b) 4
 - (c) 3
 - (d) L
 - (e) None of these
-

10. How many numbers are there which are immediately preceded and immediately followed by a letter?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

11. What is the sum of the all the prime numbers?

- (a) 16
 - (b) 18
 - (c) 17
 - (d) 20
 - (e) None of these
-

12. If we remove all the symbols from the given series, then which element will be ninth from the left end?

- (a) B
 - (b) U
 - (c) A
 - (d) 4
 - (e) None of these
-

13. How many symbols are there which are immediately preceded by a letter but not immediately followed by a number?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

14. Find odd one out?

- (a) BEC
 - (b) DGE
 - (c) MPN
 - (d) GJK
 - (e) ORP
-

Study the following information carefully and answer the given questions: Seven persons- F, G, H, I, J, K and L are living in a seven-storey building but not necessarily in the same order. The bottom-most floor is numbered as 1 and the top most floor is numbered as 7. As many floors are there above F as below K. J lives above G but not above F. F lives above third floor but not on fifth floor. Three floors are there between the floor on which J lives and the floor on which H lives. H lives below J. L lives just above G but on a prime numbered floor. | - F, G, H, I, J, K L , 1 7 F , K J, G F F J H , H, J L, G

15. Which of the following statements is correct?

- (a) L lives on the topmost floor./ L
 - (b) J lives immediately above K./ J, K
 - (c) H lives on the third floor./ H
 - (d) F lives on the sixth floor./ F
 - (e) G lives on the fourth floor./ G
-

16. Who among the following person lives on sixth floor?

- (a) G
 - (b) None of these
 - (c) I
 - (d) J
 - (e) F
-

17. How many persons live between the floors of J and H?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

18. Who among the following person lives on the floor immediately below I?

- (a) J
 - (b) F
 - (c) H
 - (d) L
 - (e) None of these
-

19. Four of the following five are in the same group, who among the following does not belong to that group?

- (a) K
 - (b) I
 - (c) L
 - (d) F
 - (e) J
-

20. If we form a four-letter meaningful word by using the first, second, third and ninth letters from the left end of the word 'SELECTION', then which of the following will be the third letter from left end of the meaningful word thus formed. If more than one such meaningful word is formed mark X as your answer. If no meaningful word is formed, mark Z as your answer? 'SELECTION' , , , - ? , X , Z

- (a) E
 - (b) N
 - (c) L
 - (d) X
 - (e) Z
-

In each question below, some statements are given followed by some conclusions. You have to take the given statements to be true, even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions definitely follows from the given statements, disregarding commonly known facts. Choose the appropriate answer:

21. Statements: Some tops are not Jeans. No Hats are Shirts. Only a few tops are Shirts. Conclusions: I. Some Hats are not Tops II. All Jeans are Shirts is a possibility. : , , , : I. , II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Either conclusion I or II follows/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Both conclusions I and II follow/ I II
-

22. Statements: All Boats are Ships. Only a few Ships are Submarine. A few Submarine are Motorboat. Conclusions: I. All Ships can be Submarine. II. Some Boats are Motorboat. : , , , : I. , II.

- (a) Only conclusion I follows/ I
 - (b) Only conclusion II follows/ II
 - (c) Either conclusion I or II follows/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Both conclusions I and II follow/ I II
-

23. Statements: No Kanpur is Jaipur. Only a few are Panipat are Jaipur. All Kanpur are Delhi. Conclusions I. Some Delhi are not Jaipur. II. No Kanpur are Panipat. : , , , I. , II.

- (a) Only conclusion I follows/ I
- (b) Only conclusion II follows/ II

- (c) Either conclusion I or II follows/ I II
 - (d) Neither conclusion I nor II follows/ I II
 - (e) Both conclusions I and II follow/ I II
-

Study the following information carefully and answer the given questions below: Six persons E, F, G, H, I and J purchase books one after the another, but not necessarily in the same order. Also, they are ranked 1 to 6 from starting to last purchase respectively. F purchases book four persons before J. Two persons purchase books between J and H. I purchases book before G. E purchases book before J but after I. I doesn't purchase book immediately before E. G doesn't purchase book immediately before J. | E, F, G, H, I J , , 1 6 F, J J H I, G E, J I I, E G, J

24. How many persons purchase books before E?

- (a) Either Three or Four
 - (b) One
 - (c) Two
 - (d) Three
 - (e) Four
-

25. Who among the following persons purchases books at fourth rank from starting?

- (a) I
 - (b) G
 - (c) E
 - (d) None of these
 - (e) H
-

26. If all the persons are arranged in alphabetical order in the sequence from first rank to last rank, then position of how many persons remain unchanged?

- (a) Three
 - (b) None
 - (c) One
 - (d) Two
 - (e) More than three
-

27. Which among the following statements is/are true? I. F purchases the book before I. II. More than two persons purchase books between I and J. III. E purchases the book after G. - / / ? I. F, I II. I J III. E, G

- (a) Only III/ III
 - (b) Only II/ II
 - (c) Only I/ I
 - (d) Both II and III/ II III
 - (e) Both I and III/ I III
-

28. As many persons purchase books before F as after _____. F , _____

- (a) G
 - (b) None of these
 - (c) H
 - (d) I
 - (e) E
-

Study the following five three-digit based number series carefully and answer the questions given below: - | 534 218 356 878 427

29. If all the digits within each number are multiplied by each other, then the product of which number is the second lowest?

- (a) 534
 - (b) 218
 - (c) 356
 - (d) 878
 - (e) 427
-

30. What is the difference between the highest digit of the second lowest number and the lowest digit of the third highest number in the given number series?

- (a) 4
 - (b) 5
 - (c) 2
 - (d) 6
 - (e) 1
-

31. If all the digits within each number are arranged in ascending order, then how many numbers will remain unchanged?

- (a) None
 - (b) Three
 - (c) Two
 - (d) Four
 - (e) One
-

32. What will the sum of the third digit of the third number from the left end and the second digit of the second number from the right end?

- (a) 12
 - (b) 10
 - (c) 13
 - (d) 14
 - (e) 16
-

33. If first and third digits of each number are interchanged within the number, then how many numbers will remain unchanged?

- (a) One
 - (b) None
 - (c) Two
 - (d) Three
 - (e) Four
-

34. In the word "COMPLEX", how many pairs of letters have the same number of letters between them (both forward and backward direction) in the word as in the alphabet? "COMPLEX", () ?

- (a) Four
 - (b) Two
 - (c) One
 - (d) Three
 - (e) More than four
-

Study the following information carefully and answer the given questions below: A certain number of persons sit in a linear row and face north. Four persons sit between Q and S. K sits second from one of the ends. Five persons sit between K and M. N sits third to the left of M. F sits immediately to the left of K. O sits immediately to the left of N. Q sits sixth to the right of O who sits at one of the ends. | Q S K K M N, M F, K O, N Q, O O

35. How many persons sit in this row?

- (a) 13
- (b) 12
- (c) 10
- (d) 14
- (e) 15

36. What is the position of M with respect to S?

- (a) Seventh to the right
- (b) Sixth to the right
- (c) Seventh to the left
- (d) Sixth to the left
- (e) Eighth to the right

37. How many persons sit between K and Q?

- (a) None of these
- (b) Five
- (c) Two
- (d) As many persons sit between Q and N./ Q N
- (e) As many persons sit between O and M./ O M

Study the following information carefully and answer the given questions below: Viraj started walking from Point X in the east direction for 10m and reached Point Y. From Point Y, he turned right and walked for 15m and reached Point Z. From Point Z, he turned left and walked for 7m and reached Point W. Point S is 5m west Point T. From Point W, he turned left and walked for 4m and reached Point V. From Point V, he turned right and walked for 5m and reached Point U. Point U is 11m south of Point T. | X 10 Y Y 15 Z Z 7 W S, T 5 W 4 V V 5 U U, T 11

38. If Point W is 7m to the west of Point B then in which direction is Point T with respect to Point B?

- (a) North
- (b) North-east
- (c) South-west
- (d) North-west
- (e) South-east

39. What is the shortest distance between Point S and Point Y?

- (a) 5m/5
- (b) 6m/6
- (c) 7m/7
- (d) 8m/8
- (e) None of these

40. What is the total distance travelled by Viraj from Point Z to Point T?

- (a) 17m/17
- (b) 27m /27

- (c) 32m/32
 - (d) 25m/25
 - (e) 20m/20
-

41. The average marks obtained by a student in five subjects is 105. If we exclude marks of three subjects which average is 72 excluding highest and lowest mark obtained by the student, then find the sum of highest and lowest mark obtained by the student? 105 , 72 , ?

- (a) 311
 - (b) 315
 - (c) 309
 - (d) 319
 - (e) 330
-

42. 6 bulls can have plugged a field in 9 days, while 12 ox's can plugged the field in 6 days. Find in how many days 5 bulls and 4 ox's can plugged the same field?

- (a) 6
 - (b) 4
 - (c) 8
 - (d) 9
 - (e) 12
-

43. The length of a rectangle is 3 cm more than its breadth. If the perimeter of the rectangle is 66 cm, then find the area of the rectangle (in cm square)?

- (a) 180
 - (b) 270
 - (c) 120
 - (d) 378
 - (e) 460
-

44. A vessel contains mixture of milk and water in the ratio of 11 : 8. When 8 liters of milk and 24 liters of water added in the mixture, then the ratio of milk to water in resultant mixture becomes 7 : 6. Find the quantity of water in the initial mixture?

- (a) 84 liters /84
 - (b) 72 liters /72
 - (c) 60 liters /60
 - (d) 96 liters /96
 - (e) 120 liters/120
-

45. There are two numbers and smaller number is 13 more than half off the bigger number. If difference between bigger and smaller number is 78, then find the smaller number?

- (a) 182
 - (b) 91
 - (c) 102
 - (d) 104
 - (e) 106
-

46. X is 24 more than Y and $\frac{3}{5}$ th of X is 16 less than Y. Find the value of 'Y'? X, Y 24 X $\frac{3}{5}$ Y 16 'Y' ?

- (a) 74

- (b) 66
- (c) 76
- (d) 96
- (e) 80

47. Three years ago, the age of A was 21 years. Four years hence, the ratio of age of A to that of B will be 7 : 5. Find the present age of B (in years)?

- (a) 20
- (b) 24
- (c) 12
- (d) 16
- (e) 8

48. P started business with Rs 2500 and after 4 months, Q joined him with Rs X. At the end of one year, the ratio of profit share of P and Q is 5 : 4. Find the value of X (in Rs.)? P 2500 4 Q, X, P Q 5: 4 X ()

- (a) 4000
- (b) 2000
- (c) 3500
- (d) 2400
- (e) 3000

49. A man invested Rs P on simple interest at rate of 12% p.a. for five years and he received Rs 2700 as interest. Find the value of P (in Rs.)? $12\% P 2700 P () ?$

- (a) 4000 Rs / 4000
- (b) 3500 Rs / 3500
- (c) 5000 Rs / 5000
- (d) 4500 Rs / 4500
- (e) 4800 Rs / 4800

50. A man travelled a certain distance by car for 2 hours at 60 km/hr, by Bus for 5 hours at 80 km/hr and the remaining distance by bicycle at 10 km/hr for 5 hours. Find the average speed of man in the whole journey? $2 \text{ } 60 / , 5 \text{ } 80 / 5 \text{ } 10 / ?$

- (a) 42.5 km/hr / 42.5
- (b) 54.5 km/hr / 54.5
- (c) 47.5 km/hr / 47.5
- (d) 40.5 km/hr / 40.5
- (e) 50.5 km/hr / 50.5

What will come in the place of question mark (?) in the following number series. (?)

51. 22, 24.5, 29.5, 37, 47, ?

- (a) 57.5
- (b) 61.5
- (c) 60.5
- (d) 59.5
- (e) 67

52. 413, 244, 123, 74, ?, 40

- (a) 47

- (b) 45
 - (c) 43
 - (d) 49
 - (e) 51
-

53. 64, 68, 80, 116, 224, ?

- (a) 524
 - (b) 516
 - (c) 528
 - (d) 548
 - (e) 538
-

54. 17, 22, 37, 62, ?, 142

- (a) 101
 - (b) 99
 - (c) 95
 - (d) 93
 - (e) 97
-

55. 48, ?, 123, 223, 423, 823

- (a) 73
 - (b) 71
 - (c) 75
 - (d) 77
 - (e) 79
-

The bar graph given below shows number of shirts sold by five shops. Study the graph carefully and answer the questions given below.

56. Find the ratio of number of shirts sold by R to total shirts sold by S and T together? R S T

- (a) 1:2
 - (b) 1:4
 - (c) 1:3
 - (d) 2:3
 - (e) 1:1
-

57. The average number of shirts sold by P, Q and X is 90, then find the difference between shirts sold by X and S?

- (a) 40
 - (b) 50
 - (c) 20
 - (d) 30
 - (e) 70
-

58. Total shirts sold by Q is what percent more than total shirts sold by S?

- (a) 25%
- (b) 15%
- (c) 20%
- (d) 10%

(e) 30%

59. If total number of shirts sold by A is $\frac{5}{4}$ th of total shirts sold by R and total pants sold by A is $\frac{3}{4}$ th of total shirts sold by P, then find total shirts and pants sold by A? A R $\frac{5}{4}$ A P $\frac{3}{4}$, A

- (a) 155
- (b) 115
- (c) 145
- (d) 125
- (e) 135

60. If selling price of each shirt is Rs 200 for each shop, then find the total revenue generated by Q and T together (in Rs)? 200 , Q T () ?

- (a) 60000
- (b) 64000
- (c) 56000
- (d) 52000
- (e) 48000

The table given below shows number of students in three classes A, B and C in four different months March, April, May and June. Read the data carefully and answer the questions given below. - , , A, B C

61. Find the difference between total number of students in class B & C together in May and total number of students in class A & C together in March? B C A C

- (a) 43
- (b) 41
- (c) 37
- (d) 39
- (e) 35

62. The average number of students in March, April & May in class C is what percent of total number of students in A in the month of June (approx.)?

- (a) 97%
- (b) 93%
- (c) 89%
- (d) 83%
- (e) 90%

63. If total number of students in class D in month of April are half of the total student in class A and B in the same month, then find the sum of total students in class D in month of April and students in class B in month of March? D , A B , D B

- (a) 145
- (b) 155
- (c) 135
- (d) 165
- (e) 125

64. Find the ratio of total students in class A in month of May to sum of total students in class B in month of May and total students in class C in month of April? A B C

- (a) 3 : 5
 - (b) 3 : 4
 - (c) 9 : 13
 - (d) 9 : 14
 - (e) 9 : 16
-

65. Total students in class A in month of March is what percent more than total students in class B in month of June?

- (a) 45%
 - (b) 42%
 - (c) 72%
 - (d) 48%
 - (e) 52%
-

What value should come in place of (?) in the following questions. (?) ?

67. $343 + 243 + 512 = 20\% \text{ of } ?$ $343 + 243 + 512 = ? \ 20\%$

- (a) 4590
 - (b) 5490
 - (c) 6490
 - (d) 6140
 - (e) 5290
-

71. $24 \times ?^2 - 8 \times 7 = 3400$

- (a) 8
 - (b) 4
 - (c) 12
 - (d) 2
 - (e) 6
-

72. $12.5 \times ? + 15^2 = (19)^2 - 11$

- (a) 8
 - (b) 4
 - (c) 6
 - (d) 12
 - (e) 10
-

74. $128 + 15\% \text{ of } ? = (5)^3 + 30$ $128 + ? \ 15\% = (5)^3 + 30$

- (a) 160
 - (b) 220
 - (c) 200
 - (d) 180
 - (e) 196
-
