

Banking Question Bank - Set 9

421 questions with verified answer keys

DIRECTIONS (Q. 1)

In question given below there are two statements, each statement consists of two blanks. You have to choose the option which provides the correct set of words that fits both the blanks in both the statements appropriately and in the same order making them meaningful and grammatically correct.

1. (1) Farmer's collectives such as Farmer Producer Organizations need to be _____ and these would be critical to _____ the ZBNF (Zero Budget Natural Farming) programme. (2) Only a well _____ military dictatorship would be capable of _____ an ordered society in the aftermath of a severe conflict.

- (a) confuted, bypassing
- (b) embedded, nurturing
- (c) established, sustaining
- (d) furnished, repudiating
- (e) authenticated, resisting

Answer (c) established, sustaining

DIRECTIONS (Q. 2-6)

In each of the following questions, a sentence is given with a blank. There are five phrases given below each sentence, one out of which can be used in the blank to form a meaningful sentence. Choose the most appropriate phrase among the five options that makes the sentence contextually meaningful.

2. More children growing up in a world so increasingly diverse that stock racial identities no longer _____.

- (a) call off
- (b) hold up
- (c) leave out
- (d) blow up
- (e) bring up

Answer (b) hold up

3. A pleasant spoken young constable arrived at Riverview with a warrant and asked if he might _____ the boat.

- (a) turn up
- (b) take down
- (c) make out
- (d) make up
- (e) look over

Answer (e) look over

4. We came into the theatre at about two for a _____, Matt came in as well and he was struggling with his voice.

- (a) put out
- (b) put up
- (c) run away
- (d) run through
- (e) run into

Answer (d) run through

5. Jet needs to urgently _____ its cost strategy as it does not have enough funds to continue operations for more than two months.

- (a) work out
- (b) warm up
- (c) wake up
- (d) turn down
- (e) take out

Answer (a) work out

6. Cameron Borthwick-Jackson hopes to make up for lost time and _____ his best as the Manchester United left-back begins his season-long loan at Scunthorpe.

- (a) get up
- (b) get back at
- (c) get back to
- (d) get along with
- (e) get around

Answer (c) get back to

DIRECTIONS (Q. 7-8)

In the following questions, five words are given, choose the most suitable alternative reflecting the combination of word(s) similar in meaning with each other.

7. (I) Guise (II) Staple (III) Wean (IV) Affliction (V) Torment

- (a) I and II
- (b) II and III
- (c) III and IV
- (d) IV and V
- (e) I, III and IV

Answer (d) IV and V

8. (I) Abstinence (II) Reverence (III) Travesty (IV) Veneration (V) homage

- (a) I and II
- (b) II and III
- (c) II, IV and V
- (d) I, II and V
- (e) I, III and IV

Answer (c) II, IV and V

DIRECTIONS (Q. 9-11)

In the following questions, a word is given in bold, choose the most suitable alternative reflecting the combination of word (s) which is similar in meaning of the highlighted word.

9. Aberration (I) Digression (II) Diversion (III) Eccentricity (IV) Transgression

- (a) Only (II)
- (b) Only (I), (II) and (III)
- (c) Both (III) and (IV)
- (d) Both (I) and (II)
- (e) All of these

Answer (b) Only (I), (II) and (III)

10. Entrenching (I) Establishing (II) Ensconcing (III) Dislodging (IV) Defenestrating

- (a) only (I)
- (b) both (I) and (II)
- (c) both (II) and (III)
- (d) Both (III) and (IV)
- (e) only (IV)

Answer (b) both (I) and (II)

11. Pared (I) Sheared (II) Pruned (III) Whittled (IV) Expatriated

- (a) both (II) and (III)
- (b) only (I), (III) and (IV)
- (c) only (I), (II) and (III)
- (d) only (II), (III) and (IV)
- (e) both (I) and (IV)

Answer (c) only (I), (II) and (III)

DIRECTIONS (Q. 12-14)

In the following questions, a word is given in bold, choose the most suitable alternative reflecting the combination of word (s) which is opposite in meaning of the highlighted word.

12. Threshold (I) brink (II) verge (III) portal (IV) nadir

- (a) both (II) and (III)
- (b) only (IV)
- (c) only (III)
- (d) only (I)
- (e) both (I) and (IV)

Answer (b) only (IV)

13. Pegged (I) Noted (II) Overlooked (III) Discovered (IV) Unearthed

- (a) only (I)
- (b) both (I) and (III)
- (c) both (III) and (IV)
- (d) only (II)
- (e) all of these

Answer (d) only (II)

14. Hefty (I) gaunt (II) covet (III) humongous (IV) concoct

- (a) Only (I)
- (b) Only (II) and (III)
- (c) Only (I), (II) and (IV)
- (d) Only (II), (III) and (IV)
- (e) All of the above

Answer (a) Only (I)

DIRECTIONS (Q. 15-16)

In the following question, certain parts of the sentence are highlighted which may or may not contain grammatical errors. There are five alternatives given below each sentence, one of which may replace the existing highlighted parts to make the sentence grammatically correct and contextually meaningful. Choose the most appropriate alternative as your answer. If the sentence is grammatically correct, as given, and doesn't require any correction, choose option (e) i.e., "No replacement required" as your answer.

15. The Divine Mother is bounded to respond to the call of her children. Renunciation of worldly matters may depends on circumstances, but inward renunciation is an essential part of the process.
- (a) is bound to respond, may depend on circumstances
 - (b) are bound for responding, might depends on circumstances
 - (c) was bounded to respond, must be dependent in circumstances
 - (d) were bounded to respond, can depends on circumstance
 - (e) no replacement required

Answer (a) is bound to respond, may depend on circumstances

16. The Indian rupee has actually appreciated against the US dollar in real terms in recent quarters, which is calculated after taking into account the rise in domestic prices.
- (a) have actually got appreciation, that are calculated after
 - (b) has been appreciated actually, that calculates after
 - (c) had been actually appreciated, which calculated after
 - (d) would gain actual appreciation, that has been calculated after
 - (e) No replacement required

Answer (e) No replacement required

DIRECTIONS (Q. 17-18)

In the following question a part of the sentence is given in bold, it is then followed by four sentences which try to explain the meaning of the idiom/phrase given in bold. Choose the alternative from the four given below each question which explains the meaning of the phrase correctly without altering the meaning of the sentence given as question. If none of the sentence explains the meaning of the highlighted phrase, choose option (e) i.e., "none of these" as your answer choice. 10 A publishing house

17. In December 1999, like a bolt from the blue came the hijacking of the Indian airliner from Kathmandu to Kandahar which lasted for a week.
- (a) In December 1999, the fatal incident of hijacking of the Indian airliner from Kathmandu to Kandahar happened which lasted for a week
 - (b) In December 1999, the formidable episode of hijacking of the Indian airliner from Kathmandu to Kandahar occurred which lasted for a week
 - (c) In December 1999, a frightening event occurred, of hijacking the Indian airliner from Kathmandu to Kandahar which lasted for a week
 - (d) In December 1999, a sudden shocking event occurred of hijacking the Indian airliner from Kathmandu to Kandahar which lasted for a week
 - (e) None of these

Answer (d) In December 1999, a sudden shocking event occurred of hijacking the Indian airliner from K

18. It's been a long journey for this dyed-in-the-wool entrepreneur who holds her mother in high regard for being a pillar of support.
- (a) It's been a long journey for this pretentious entrepreneur who holds her mother in high regard for being a pillar of support
 - (b) It's been a long journey for this conspicuous entrepreneur who holds her mother in high regard for being a pillar of support
 - (c) It's been a long journey for this inveterate entrepreneur who holds her mother in high regard for being a pillar of support
 - (d) It's been a long journey for this revolutionary entrepreneur who holds her mother in high regard for

- being a pillar of support
(e) None of these

Answer (c) It's been a long journey for this inveterate entrepreneur who holds her mother in high reg

DIRECTIONS (Q. 19-20)

The following questions are based on the passage given below: The shortage of faculties in IIMs is rooted in the fact that both existing faculty members and young PhDs who could have been potential recruits are now increasingly preferring high-paying corporate jobs over teaching jobs at the IIMs. As per the ET report, many IIM officials seem to think that the IIM Act that was implemented this January would help solve the problem because it empowers the IIMs to recruit freely and decide on teachers' salaries; they believe the provision will let IIMs offer competitive salaries. But with the government planning to regulate IIM fees, and ironically in the present context, push IIMs to increase intake, 16 A publishing house

19. Select the appropriate statement to fill the above blank in the passage.

- (a) where all the 20 IIMs can get top quality faculty
- (b) the hope that the IIM Act will be empowering could be misplaced
- (c) to select their faculty as well as curriculum
- (d) will be subject to overt control by the Ministry of Human Resource Development
- (e) none of these

Answer (b) the hope that the IIM Act will be empowering could be misplaced

20. Which among the following options would most strongly support the author's concern about IIMs?

- (a) Attracting good students to attract high caliber faculties is a chicken-egg problem
- (b) High-quality faculty, in turn, insists on and attracts high-quality staff and students
- (c) IIM officials believe the new IIM Act will offer greater freedom to B-schools to attract and retain faculty
- (d) because of IIMs increasing seats and classes, IIMs may need a Lesson in Managing Faculty Crunch
- (e) none of these

Answer (c) IIM officials believe the new IIM Act will offer greater freedom to B-schools to attract a

21. In a College election 35% voted for Abhi whereas 42% voted for Ravi. The remaining people did not vote for any person. If the difference between those who vote for Ravi in the election and those who are uncertain was 1140 ,So,how many people participated in college election voting ?

- (a) 6000
- (b) 3000
- (c) 4000
- (d) 2000
- (e) 5000

Answer (a) 6000

22. Directions: Study the following data carefully and answer the questions accordingly. In a maths test, Aniket got 414 marks which was 47 less than Baman's marks. The marks of Chand were 48% of the sum of Aniket and Baman's marks together or 52.5% of the total marks. If the marks of Dipen was 32 more than that of Chand's marks. Find how much percent VISIT US:: QUANTITATIVE APTITUDE FOR ALL COMPITATIVE EXAM did Dipen get in that examination?

- (a) 48.5%
- (b) 55.5%
- (c) 51.5%
- (d) 56.5%
- (e) None of these

Answer (b) 55.5%

23. In a Town, consisting of three areas 1, 2 and 3, the male population of the three areas are in the ratio of 2 : 3 : 4 respectively. In area 1, 55% of the male are working, in area 2, 25% of the male are working and in area 3, 50% of the male are working. Find the percentage(approx.) of non –working male in the Town.

- (a) 32%
- (b) 57%
- (c) 46%
- (d) 56%
- (e) 50%

Answer (a) 32%

24. In an election only Modi & Gandhi contested, 30% of the voters did not vote and 3200 votes were declared as invalid. The winner, Modi got 9600 votes more than his opponent , thus he secured 51% votes of the total voters on the voter list. Percentage votes of the loser candidate, Gandhi out of the total voters on the voter list is:

- (a) 9%
- (b) 6%
- (c) 12%
- (d) 3%
- (e) None of these

Answer (c) 12%

25. In an exam. 50% of the students passed in English, and 75% passed in Hindi, While 20% students failed in both the subjects. If 540 students passed in both the subjects, find the total number of students who appeared in the exam? VISIT US:: QUANTITATIVE APTITUDE FOR ALL COMPITATIVE EXAM

- (a) 1200
- (b) 1400
- (c) 1600
- (d) 1800
- (e) None of these

Answer (c) 1600

26. A company manufactures 5000 bottles every month. Due to some external factors, 20% of them are found to be defective and sent back to the factory for correction every month. The rest of the bottles are brought to the market for selling. On average the percentage of male buyers of the bottle every month is 30%. Find the number of female buyers of the bottles every month.

- (a) 2400
- (b) 2800
- (c) 3000
- (d) 3600
- (e) 3800

Answer (d) 3600

27. 25% of the voters did not cast their vote in an election of mazdoor union in Tata company between two candidates. 25% of the votes polled were found invalid. The winning candidate got 54% of the valid votes and won by a majority of 5240 votes. The number of voters enrolled voters' list was

- (a) 2,17,444
- (b) 1,26,445
- (c) 1,16,444
- (d) 1,56,445
- (e) None of these

Answer (a) 2,17,444

28. Two candidate X and Y contested in an election. 20% of the total votes are declared invalid. Ratio of valid votes got by X and Y is 3:1. Difference between the total votes and valid votes got by X is 400. Find the total number of invalid votes. VISIT US:: QUANTITATIVE APTITUDE FOR ALL COMPITATIVE EXAM

- (a) 900
- (b) 200
- (c) 300
- (d) 600
- (e) 700

Answer (a) 900

29. The total sales done by a salesman is Rs.32000 and the total commission made by him is Rs.3600. If rate of commission up to Rs.20000 is 12% and after Rs,20000 the rate of commission can either increase or decrease, then find the rate of commission on the sales done over Rs.20000.

- (a) 15%
- (b) 20%
- (c) 10%
- (d) 12%
- (e) None of these

Answer (c) 10%

30. 630 students of a school took an exam. The ratio of boys to girls who took the exam is 3:4. The ratio of number of students passed the exam to those who failed the exam is in the ratio 11:3. Among the girls, the ratio of number of students who passed to those who failed the exam is in the ratio is 11:4. Find the ratio of number of boys to the number of girls who failed?

- (a) 32:15
- (b) 16:35
- (c) 19:33
- (d) 22:39
- (e) None of these

Answer (c) 19:33

31. What is the direction of A with respect to V?

- (a) East
- (b) North
- (c) North-West
- (d) South-east
- (e) South-west REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM

Answer (c) North-West

32. How many countries get higher ranks than China in boxing?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) Five

Answer (c) Three

33. What is the rank of Turkey in Boxing and Archery and US in rowing respectively?

- (a) 4, 3, 2
- (b) 5, 6, 3
- (c) 6, 1, 2
- (d) 3, 2, 4 REASONING MAINS GENIUS FOR ALL BANK & INSURANCE MAINS EXAM
- (e) Both a and d

Answer (e) Both a and d

34. What is the sum of the rank of Japan in archery, India in boxing and Malaysia in tennis?

- (a) 10
- (b) 14
- (c) 24
- (d) 34
- (e) 18

Answer (e) 18

35. I. $4x^3 + 24x^2 - 64x = 0$

II. $3y^2 + 39y + 126 = 0$

- (a) if $x > y$
- (b) if $x < y$
- (c) if $x \geq y$
- (d) if $x \leq y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

36. I. $48x^2 - 24x + 3 = 0$

II. $55y^2 + 53y + 12 = 0$

- (a) if $x > y$
- (b) if $x < y$
- (c) if $x \geq y$
- (d) if $x \leq y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

37. I. $143x^2 + 43x - 66 = 0$

II. $33y^2 - 40y + 12 = 0$

- (a) if $x = y$ or relationship between x and y can't be established
- (b) if $x < y$
- (c) if $x \leq y$
- (d) if $x \geq y$
- (e) if $x > y$

Answer (e) if $x > y$

38. I. $72x^2 - 101x + 35 = 0$

II. $45y^2 - 62y + 21 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x = y$ or relationship between x and y can't be established
- (d) if $x \geq y$
- (e) if $x < y$

Answer (e) if $x < y$

39. I. $56x^2 + 15x - 56 = 0$

II. $7y^2 - 34y - 48 = 0$

- (a) if $x < y$
- (b) if $x = y$ or relationship between x and y can't be established
- (c) if $x > y$
- (d) if $x \geq y$
- (e) if $x \leq y$

Answer (c) if $x > y$

40. I. $117x^2 + 128x + 35 = 0$

II. $39y^2 - 31y - 28 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (d) if $x < y$

41. I. $36x^2 + 55x + 21 = 0$

II. $132y^2 - 17y - 30 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x < y$
- (d) if $x \geq y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (c) if $x < y$

42. I. $20x^2 - 108x + 144 = 0$

II. $8y^2 + 18y + 4 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

43. I. $2x^2 + 5x + 2 = 0$

II. $6y^2 + 69y + 198 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

44. I. $20x^2 + 93x + 99 = 0$

II. $16y^2 - 25 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (d) if $x < y$

45. I. $x^2 - 52x + 667 = 0$

II. $y^2 - 60y + 899 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (d) if $x < y$

46. I. $3x^2 + 19x + 30 = 0$

II. $3y^2 - 20y - 32 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

47. I. $x^2 - 13\sqrt{2}x + 60 = 0$

II. $y^2 + 3\sqrt{5}y - 20 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

48. I. $10x^2 - 69x + 108 = 0$

II. $6y^2 - 47y + 77 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

49. I. $5x^2 - 34x + 24 = 0$

II. $4y^2 - 13y + 9 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x \leq y$ or no relationship can be established between x and y

Answer (d) if $x < y$

50. I. $36x^2 - 196x - 11 = 0$

II. $4y^2 - 19y + 12 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (d) if $x < y$

51. I. $6x^2 + 25x + 21 = 0$

II. $5y^2 - 176y - 333 = 0$

- (a) if $x > y$
- (b) if $x \leq y$
- (c) if $x \geq y$
- (d) if $x < y$
- (e) if $x = y$ or relationship between x and y can't be established

Answer (a) if $x > y$

DIRECTIONS (Q. 52)

In the following passage there are blanks, each of which has been numbered and one word has been suggested alongside the blank. These numbers are printed below the passage and against each, five options are given. In four options, one word is suggested in each option. Find out the appropriate word which fits the blank appropriately. If the word written alongside the blank fits the passage, choose option "No replacement required" as the correct choice.

52. Our world's surface is a jumble of _____1_____ (puzzle) tectonic plates, with new ones emerging as others are pulled under. The ongoing cycle keeps our continents in motion and drives life on Earth. But what happens when a plate disappears into the planet's interior? The question has long puzzled scientists because conventional wisdom said that sinking tectonic plates must _____2_____ (stabilize) intact to keep pulling on the portion behind it, but according to geophysical evidence, they are destroyed. Now, in a study published in Nature, scientists say they've found an answer that reconciles the two stories: Plates are significantly _____3_____ (improved) as they sink but not so much that they break apart entirely. The finding came after scientists put tectonic plates through a computer-generated gauntlet of destructive geologic forces. The model _____4_____ (display) that as the plate enters the mantle, it bends abruptly downward, cracking its cold, brittle back. At the same time, the _____5_____ (observing) changes the fine grain structure of the rock along its underbelly, leaving it weakened. Combined, the stresses pinch the plate along its weak points, leaving it mostly intact but segmented like a slinky snake.

- (a) friction
- (b) overlapped
- (c) jostling
- (d) dividing
- (e) No replacement required

Answer (c) jostling

DIRECTIONS (Q. 53-54)

Rearrange the following sentences to form a coherent paragraph and answer the given questions. (A) The book is not as fascinating as Harry Potter. (B) However, it has sold _____ copies than any other books in the past decade. (C) Even though this book does not feature magical elements, it _____ around aspirations and wishes.

53. Choose the most suitable word to fill in the statement (B).

- (a) few
- (b) many
- (c) more
- (d) much
- (e) little

Answer (c) more

54. Choose the most suitable word to fill in the statement (C).

- (a) aspire
- (b) conflicts
- (c) captures
- (d) revolves
- (e) understands

Answer (d) revolves

DIRECTIONS (Q. 55-58)

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. The letter of that part is the answer. If the sentence is grammatically and contextually correct, then choose option "No error" as your answer choice. (Ignore the errors of punctuation, if any.)

55. Hardly had the sun set (A)/ then the nocturnal creatures emerged, (B)/ filling the night (C)/ with their calls and activities. (D)

(a) A
(b) B
(c) C
(d) D
(e) No error

Answer (b) B

56. Each of the (A)/ students has (B)/submitted his/her (C)/ assignment on time. (D)

(a) A
(b) B
(c) C
(d) D
(e) No error

Answer (e) No error

57. Not only she did complete (A)/ the project ahead of schedule, (B)/ but also did so (C)/ with exceptional attention to detail. (D)

(a) A
(b) B
(c) C
(d) D
(e) No error

Answer (a) A

58. Underneath the twinkling stars, (A)/ the weary traveler (B)/ found solace in the (C)/ soothing melodies of nature. (D) 4

(a) A
(b) B
(c) C
(d) D
(e) No error

Answer (e) No error

DIRECTIONS (Q. 59-63)

Given below are two statements in each question. Each statement has one blank which will be filled in with the same word. Select the combination of words that fits in appropriately in the blanks respectively to make both the sentences grammatically correct and contextually meaningful.

59. (I) The university offers a _____ range of courses, allowing students to explore diverse academic disciplines. (II) Before writing the essay, she decided to find a relevant _____ to add depth and insight to her argument.

(a) broad, quote
(b) significant, adoption
(c) limited, caption
(d) variant, alacrity
(e) accepted, exception

Answer (a) broad, quote

60. (I) In the face of budget constraints, the team took a _____ approach, focusing on cost-effective solutions. (II) Despite facing numerous challenges, the community proved to be _____, rebuilding and thriving after the natural disaster.

- (a) practical, outsourced
- (b) plausible, moved
- (c) pragmatic, resilient
- (d) probable, entrench
- (e) intolerable, competitive

Answer (c) pragmatic, resilient

61. (I) The task ahead was _____, requiring a combination of skill, determination, and strategic planning. (II) The new medication helped _____ the patient's pain.

- (a) ambivalent, elevate
- (b) destructive, postpone
- (c) surreptitious, convey
- (d) impediment, relocate
- (e) formidable, alleviate

Answer (e) formidable, alleviate

62. (I) The professor delivered a _____ lecture on the impact of technology on society. (II) Solving the intricate puzzle required a _____ series of logical steps and careful analysis. 5

- (a) profound, complex
- (b) crucial, sanguine
- (c) irrelevant, lucid
- (d) remarkable, capitulate
- (e) trivial, ineffable

Answer (a) profound, complex

63. (I) After careful and _____ consideration, the committee reached a consensus on the proposed changes. (II) The scientist studied the _____ structure of the cell, unraveling the complexities that govern life at the microscopic level.

- (a) analysis, sophisticated
- (b) remorseful, complicated
- (c) discussing, complex
- (d) deliberate, intricate
- (e) cautious, troubled

Answer (d) deliberate, intricate

64. In the following question, three sentences are given, each containing a highlighted word. Among the provided alternatives, select the word that serves as the most suitable antonym for the highlighted words.

- (a) Despite facing adversity, he chose to take the noble path, always prioritizing integrity and compassion in his actions
- (b) His generous offer to cover the expenses for the entire team's training workshop was greatly appreciated
- (c) With the highest score in the competition, she secured the top spot and a gold medal
- (d) lowest
- (e) unkind

Answer (b) His generous offer to cover the expenses for the entire team's training workshop was great

65. In the following question, three sentences are given, each containing a highlighted word. Among the provided alternatives, select the word that serves as the most similar meaning for the highlighted word.

- (a) The progress of the construction project stalled during the winter months due to adverse weather conditions
- (b) The negotiations between the parties stalled, leading to a temporary impasse
- (c) He tried to stall the meeting by bringing up unrelated topics
- (d) delay
- (e) abandon

Answer (d) delay

DIRECTIONS (Q. 66-68)

In each of the questions given below, a paragraph has been given which is either situational based or describes a scenario. Mark out the correct response that can be drawn regarding the person/ situation as your answer. 6

66. In her water-scarce village, young Aisha observed the daily struggle for this precious resource. Troubled by the hardships faced by the villagers, especially the children, due to the scarcity of water, Aisha decided to take matters into her own hands. Despite the challenges, she remained focused to find a solution. Through research and relentless effort, Aisha explored ways to bring water to her community. Her commitment and concern for the well-being of her fellow villagers, particularly the children, became the driving force behind her unwavering pursuit of a sustainable water source for the village. Thus, we can say that Aisha is not _____

- (a) resilient
- (b) determined
- (c) empathetic
- (d) cunning
- (e) motivated

Answer (d) cunning

67. Rushing to the office, Mark realized he was late and had forgotten a crucial file for the day's meeting. Distressed, he confided in his friend Sarah and swiftly decided to go back home to retrieve the document. Despite the initial setbacks, the meeting proceeded well. However, by the end of the day, the exhaustion from the morning's chaos lingered, serving as a reminder of the unpredictable challenges workdays can bring. Mark is _____.

- (a) optimist
- (b) frazzled
- (c) cautious
- (d) diligent
- (e) hard working

Answer (b) frazzled

68. Eagerly anticipating her first solo exhibition, Amelia faced an unexpected challenge when a sudden rainstorm threatened her vibrant artworks with a leaky gallery roof. Distressed but determined, she swiftly relocated her paintings with the help of gallery staff. The showcase continued successfully, showcasing her artistic talent. Amelia can be described as _____.

- (a) resilient
- (b) opportunistic
- (c) calculative
- (d) careless
- (e) struggler

Answer (a) resilient

DIRECTIONS (Q. 69-71)

In each of the questions given below four words are given in bold. These four words may or may not be in their correct position. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that replace each other. If the sentence is correct as it is then select option 'No rearrangement required' as your choice.

69. The performance (A) melody of the violinist's mesmerizing (B) had the power to attention (C) the entire audience, holding them in rapt captivate (D) throughout the concert.

- (a) ACBD
- (b) DBAC
- (c) BADC
- (d) BCAD
- (e) No rearrangement required

Answer (c) BADC

70. Sarah's meticulous (A) attention to detail was evident (B) in her beautifully crafted artwork, where every stroke and color choice precise (C) a deliberate and reflected (D) approach to her creative process.

- (a) ABDC
- (b) CBAD
- (c) ACBD
- (d) BCAD
- (e) No rearrangement required

Answer (a) ABDC

71. With unwavering (A) courage, she aimed to conquer (B) the challenges that lay ahead (C) and achieve her ambitious (D) goals.

- (a) CABD
- (b) BACD
- (c) ADCB
- (d) CBAD
- (e) No rearrangement required

Answer (e) No rearrangement required

DIRECTIONS (Q. 72-77)

Read the following passage and answer the given questions. PARAGRAPH 1: The U.S. pharmaceutical industry stands as a cornerstone in the nation's healthcare system, renowned for its innovation and global impact. Home to major pharmaceutical companies, the sector covers a spectrum from drug discovery to distribution. "Big Pharma" giants lead in developing diverse medications, subject to stringent approval processes by the U.S. Food and Drug Administration (FDA). Beyond medical advancements, the industry significantly influences the country's economy, contributing billions and offering extensive employment. Continuous research addresses healthcare challenges, solidifying the U.S. as a global innovation hub. Yet, challenges persist, including debates on drug pricing and accessibility. The industry, balancing innovation and public health, symbolizes a dynamic force in advancing medical science, exemplifying the U.S.'s pivotal role in global pharmaceutical leadership. PARAGRAPH 2: More than 80% of South African pharmaceutical manufacturing and distribution revenue is from the private sector. State purchases of pharmaceuticals are declining, and manufacturers' margins are under pressure d

72. How do major pharmaceutical companies, often referred to as "Big Pharma," contribute to medical advancements?
- (a) By strictly following the rigorous approval procedures established by regulatory bodies like the U.S. Food and Drug Administration (FDA)
 - (b) These companies are at the forefront of undertaking initiatives, investing significantly in discovering new drugs and innovative treatments
 - (c) Big Pharma contributes funds and resources to the U.S. Food and Drug Administration
 - (d) Big Pharma collaborates with the FDA to guarantee the safety of drugs and generates funds to propel advancements in medical science
 - (e) Both

Answer (e) Both

73. Despite its contributions, what challenges does the U.S. pharmaceutical industry face? (I) The pharmaceutical industry faces challenges in building and maintaining public trust. (II) High costs of certain medications raise concerns about affordability. (III) Ensuring equitable access of essential medications (IV) Competition from international pharmaceutical companies, along with the rise of generic drugs.
- (a) Only (I) and (IV)
 - (b) Only (II) and (III)
 - (c) Only (III)
 - (d) Only (II), (III) and (I)
 - (e) All (I), (II), (III) and (IV)

Answer (b) Only (II) and (III)

74. What is the significance of the U.S.'s role in global pharmaceutical leadership, as highlighted in the passage?
- (a) The industry's adeptness in balancing innovation and public health
 - (b) The industry's dedication to advancing medical science, in conjunction with a focus on global public health
 - (c) The industry's expansion contributes significantly to the global economy, creating abundant employment opportunities worldwide
 - (d) Only
 - (e) Both

Answer (e) Both

75. What contributes to the challenge of maintaining profitable margins for pharmaceutical manufacturers?
- (a) Excessive government regulations leading to inflated production costs and reduced profit margins
 - (b) Minimal regulated price increases for scheduled drugs amid high inflation
 - (c) Fluctuating consumer demand and unpredictable market conditions impacting manufacturers' profitability
 - (d) Limited access to raw materials and disruptions in the supply chain affecting the cost-effectiveness of pharmaceutical production
 - (e) Growing competition from new entrants and generic drug manufacturers, placing downward pressure on profit margins

Answer (b) Minimal regulated price increases for scheduled drugs amid high inflation

76. What has driven consolidation in the retail sector, according to the passage? (I) Sales of proprietary brands (II) Adoption of convenient formats (III) Patterns in consumer spending (IV) Expansion into novel services and products
- (a) Only (I) and (IV)
 - (b) Only (II) and (III)
 - (c) Only (III)
 - (d) Only (II), (III) and (I)
 - (e) All (I), (II), (III) and (IV)

Answer (c) Only (III) 9

77. In the context of the passage, which statement(s) is/are FALSE? (I) State is buying fewer medicines, and the companies that make them are not making as much money. (II) Big companies like Clicks and Dis-Chem have advantages because they trade in high volume. (III) South Africa can make and supply special medicines like ARVs. (IV) Along with 70% of drugs, most active pharmaceutical ingredients are produced locally
- (a) Only (IV)
 - (b) Only (II) and (III)
 - (c) Only (I) and (IV)
 - (d) Only (II), (III) and (I)
 - (e) All (I), (II), (III) and (IV)

Answer (a) Only (IV)

DIRECTIONS (Q. 78-82)

Read the following passage and answer the given questions. Living in a warm, dry, and healthy home is declared by the Chief Human Rights Commissioner of New Zealand, Paul Hunt, to be as fundamental a human right as the presumption of innocence or freedom of expression. However, an alarming "accountability deficit" in ensuring the upkeep of such homes poses a threat to New Zealand's democratic ideals. Despite being ranked the second freest nation globally in 2021, issues arise from property being the primary source of wealth for New Zealanders, a widening equality gap, and the challenging living conditions for approximately 600,000 households residing in non-owned properties. The disparity is evident in the poor state of many rental homes, with an estimated 30% to 50% of the rental stock being in suboptimal condition. To address this, the government introduced healthy homes standards in 2019, aiming to make rental properties warmer and drier. Landlords were given deadlines to comply, with significant penalties for non-compliance, reflecting a shift in the system from an unregulated environment to one with minimum standards. However, issues of accountability persist, with the complia

78. The passage discusses a dichotomy between the country's ranking and the challenges it confronts. What is this dichotomy referring to?
- (a) A harmonious relationship between New Zealand's global freedom ranking and the housing challenges it encounters
 - (b) New Zealand's challenges being solely related to its global freedom ranking, with high impact from property wealth or living conditions
 - (c) Despite stringent policies aimed at ensuring healthy homes, rental properties continue to be in suboptimal conditions
 - (d) New Zealand's high global freedom ranking and the challenges it faces with property wealth, inequality, and living conditions
 - (e) None of these

Answer (d) New Zealand's high global freedom ranking and the challenges it faces with property wealth

79. According to the passage, what is the meaning of "accountability deficit"?
- (a) The absence of state responsibility to appoint a housing ombudsman for dispute resolution
 - (b) The joint responsibility of individuals and the state to formulate clear policies for ensuring the well-being of homes
 - (c) Insufficiency in holding individuals or entities accountable for ensuring the well-being of homes and enforcing housing standards
 - (d) Both
 - (e) Uncertainty regarding the statutory body's liability for rules and regulations concerning the provision of healthy homes

Answer (c) Insufficiency in holding individuals or entities accountable for ensuring the well-being o

80. Choose the most appropriate word to fill in the blank.

- (a) protecting
- (b) rejuvenating
- (c) reviving
- (d) capturing
- (e) enlightening

Answer (a) protecting

81. In the context of the passage, which statement(s) is/are TRUE?

- (a) New Zealand was ranked the freest nation globally in 2021
- (b) In response to the suboptimal conditions of rental properties, the government introduced healthy homes standards in 2021
- (c) The compliance and investigations unit has successfully addressed accountability issues in overseeing the rental property landscape
- (d) The Human Rights Commission recommends the establishment of an independent housing ombudsman
- (e) Currently, tenants bear only a little portion of the responsibility for enforcing their rights within the housing sector

Answer (d) The Human Rights Commission recommends the establishment of an independent housing ombudsm

82. Choose the most suitable word that can replace the highlighted word “shouldering” in the passage.

- (a) anticipating
- (b) overtaking
- (c) perplexing
- (d) pushing
- (e) diverting

Answer (d) pushing

DIRECTIONS (Q. 83-87)

Study the following information carefully and answer the questions given below- There are 12 persons who born in 24 different months of 2 years i.e., 1998 and 1999. Only one person was born in a month in each year. The months are January to December. G was born in a month of 30 days after June and in 1999. B was born in November. B was born before G. There is a gap of 5 months between L and M. Both L and M were born in same year. There is a gap of 2 months between the person who born in June 1999 and M and both were born in same year. P was born immediately after L in the same year. J was born in March 1998. As many months are there between the month in which Q and U were born is same as the number of months before J. Q, U and J were born in same year. U was born after Q. S is elder to Z. S and Z were born in same month but in different years. There are three months between U and S. S was not born in a month of 30 days, but not in August. H and B were born in immediate months but in different years. H is not the youngest. K is younger to L but older to Z. The number of months between B and U is same as between L and K. K and S were born in different years.

83. In which month G was born?

- (a) August
- (b) September
- (c) October
- (d) November
- (e) December

Answer (d) November

84. Who was born two months after L in the year 1998?

- (a) M
- (b) P
- (c) Q
- (d) U
- (e) S

Answer (c) Q

85. In which month and year Z was born?

- (a) June 1998
- (b) July 1999
- (c) August 1998
- (d) December 1999
- (e) October 1998

Answer (d) December 1999

86. How many months are there between J and U?

- (a) 2
- (b) 3
- (c) 4
- (d) 5
- (e) 6

Answer (c) 4

87. Who is the youngest among H, L, S and K?

- (a) H
- (b) L
- (c) K
- (d) Cannot be determined
- (e) S

Answer (e) S

DIRECTIONS (Q. 88-92)

Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring houses of M are not vacant. T lives third to the right of S and to the left of K. S does not live at extreme end.

88. What is the position of S with respect to R?

- (a) Third to the left
- (b) Second to the left
- (c) Immediate left
- (d) Sixth to the left
- (e) Second to the right

Answer (b) Second to the left

89. How many persons live between Y and N?

- (a) Five
- (b) Six
- (c) Seven
- (d) Three
- (e) Four

Answer (e) Four

90. Which of the following person does not have any adjacent vacant house?

- (a) S
- (b) P
- (c) R
- (d) K
- (e) N

Answer (c) R

91. Which of the following statement is correct?

- I. K does not live in house number 12
- II. Even number of persons live between J and R
- III. Three houses are in between Y and P

- (a) Only II
- (b) Only I
- (c) Only II and III
- (d) All I, II and III
- (e) Only I and III

Answer (c) Only II and III

92. What is the house number of that vacant house which is adjacent to T's house?

- (a) None of these
- (b) 5
- (c) 4
- (d) 6
- (e) 3 13

Answer (d) 6

DIRECTIONS (Q. 93-95)

Study the following information carefully and answer the questions given below- In alphabetical series A-Z each letter except vowels and consonants (M, N and P) is assigned a different number starting from 1 (for ex- B is coded as 1, C-2, D-3) and again those numbers get repeated (for ex- Q- 1, R -2 and so on). Also, each consonant (M, N and P) is coded with different symbol viz. #, * and \$ respectively. Conditions: I. If the number of letters in the word is even then first vowel from left end will be coded as + If the number of letters in the word is odd then first vowel from left end will be coded as @. II. If the third letter from the left end of the word is vowel, then use A. III. If word ends with the letters M, N and P then the code of first vowel will be the code of that particular consonant (M, N and P). IV. If there are two consonants after any vowel then the code of that vowel will be &. V. If there are more than 3 vowels in a word then the code of all the vowels will be B. VI. If there is no condition apply on vowel then particular vowel will be coded as >. (Condition is applied I – VI in the same order. If more than one condition is applied then condition I is applied first)

93. What is the code of "Palm Tree"?

- (a) \$&3# 12A>
- (b) \$+33 12AA
- (c) 1+33 33A>
- (d) #+3\$ A12>
- (e) None of these

Answer (a) \$&3# 12A>

94. What is the code of "Tourist Star"?

- (a) 1>A2&31 12A3
- (b) 1@>2&31 31A2
- (c) 1@A2&31 31A2
- (d) 1>A3&21 31A2
- (e) None of these

Answer (c) 1@A2&31 31A2

95. What is the code of "Data Breach"?

- (a) 3+2>12\$\$2A
- (b) 3+3>12\$\$&2
- (c) 3+1> 32##23
- (d) 3+1>12A&23
- (e) None of these

Answer (d) 3+1>12A&23

DIRECTIONS (Q. 96-98)

In each question given below, some statements are followed by some conclusions. You have to assume everything in the statements to be true even if they seem to be at variance with commonly known facts. You have to find out, which of the given conclusions logically follow from the statement, disregarding commonly known facts. 14

96. Statements: Only break is ice Only a few break is cake Some cake is milk All milk is water Some water is not bridge Conclusions:

- I. No bridge being ice is a possibility
- II. Some break can never be milk III. All milk being cake is a possibility

- (a) Both II and III follows
- (b) Both I and II follow
- (c) None follows
- (d) Only III follow
- (e) Both I and III follow

Answer (a) Both II and III follows

97. Statements: All lyrics are sound No music is lyrics Only a few instruments are music Only a few instruments are pleasant Conclusions:

- I. All sound being music is not a possibility
- II. Some music is not pleasant III. All pleasant can be lyrics

- (a) Either II or III follows
- (b) Both I and II follow
- (c) None follows
- (d) Only III follow
- (e) Both I and III follow

Answer (e) Both I and III follow

98. Statements: All planets are universe Only a few galaxy is universe All earth is world Only a few earth is galaxy Conclusions:

- I. All world can never galaxy
- II. Some planets being earth is a possibility III. No planets are world

- (a) Either II or III follows
- (b) Only I and II follow
- (c) None follows
- (d) Only III follow
- (e) Only I and III follow

Answer (b) Only I and II follow

DIRECTIONS (Q. 99-103)

Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in different named flats. P lives on an even numbered floor. As many floors are above X as below W. V lives on an adjacent floor of W. Y lives to the south west of V and lives on an even numbered floor. Both Y and W live in the same named flats. S lives above T and below R. U lives on an odd numbered floor. No one lives to the west of T. S lives above Q. W and S live in different named flats.

99. How many floor(s) gaps is/are between S and X?

- (a) Three
- (b) Either two or three
- (c) One
- (d) Either one or two
- (e) Two

Answer (c) One

100. On which of the following floor and flat does Q live?

- (a) 5th floor, flat B
- (b) 4th floor, flat A
- (c) 2nd floor, flat B
- (d) 3rd floor, flat A
- (e) None of these

Answer (c) 2nd floor, flat B

101. Which among the following statement(s) is/are true?

- I. P and R live on the same floor
- II. Q lives just below S's flat
- III. R lives in flat B

- (a) Both I and II
- (b) Both II and III
- (c) Only I
- (d) Both I and III
- (e) Only III

Answer (b) Both II and III

102. Four of the following five are alike in a certain way and form a group. Who among the following person does not belong to the group?

- (a) W
- (b) R
- (c) T
- (d) P
- (e) X

Answer (d) P

103. How many persons live to the south west of V?

- (a) One
- (b) Two
- (c) Four
- (d) None
- (e) Three

Answer (e) Three

104. In the word 'DECARBONATE' following conditions are applied:

I. All the letters which come before K in alphabetical order are changed to their immediate next letter and the letters which come after K in alphabetical order are changed to their 2nd previous consonant.

II. All the repeated letters are removed. III. Remaining letters are arranged in alphabetical order from left to right. (condition II is applied after condition I and condition III is applied after condition II)

Now find how many letters (according to alphabetical order) are there between 2nd letter from left end and 5th letter from right end in the new word formed after applying the conditions?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

Answer (a) None

DIRECTIONS (Q. 105)

Italian super - luxury sports car manufacturer Lamborghini has spread its wings in India. And it, has just opened a dealership in Bengaluru, the IT capital of the country. At a price tag of over Rs. 1 Crore, in addition high import duty barriers. Who will buy a Lamborghini car? Rather, what gives the Italian car maker the confidence to not only drive into India but also expand its presence? If super - luxury brand like Lamborghini is sensing an unfolding big opportunity in a New India, other traditional global luxury car makers have turned very ambitious with new launches.

105. What may be the assumption of Lamborghini company to launch and expand their product in India?

(I) The luxury car is a stipulated requirement or thriving people as it has been seen in Delhi, Mumbai and Bengaluru. (II) The ability to afford high import duties by Indians who are living in rich metropolitan areas. (III) The inclination of moneyed people towards sports car will potentially grow.

- (a) Only I and III
- (b) Only II
- (c) Only I and II
- (d) Only III
- (e) Only II and III

Answer (e) Only II and III

DIRECTIONS (Q. 106-108)

Each of the question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and given

106. In a three-generation family of six members, how is U related to M?

I. H is child of U. B is only daughter of U's spouse. L is sister-in-law of B. M is child of L. R is the grandfather of B's niece.

II. U is sibling of H. L is parent of M. R is mother of H. M is brother-in-law of U. B is a married male.

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient

Answer (a) Only statement I is sufficient

- 107.** Seven persons go to a clinic on different days of week starting from Tuesday. Which person goes just after the one who goes on Friday?
- I. Three persons go between G and D. B goes just before G. B does not go on Saturday and Sunday. F goes two days after A but not on Monday. E goes before C but after Wednesday.
- II. More than three persons go before D. Two persons go between D and A. F does not go on Tuesday. Equal number of persons go before C and after F. E goes just before B. G goes after B but not on Sunday.

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient

Answer (a) Only statement I is sufficient

- 108.** Six persons sit around a circular table facing inside. What is the position of M with respect to the one who sits immediate left of D?
- I. One person sits between N and K. D and N do not sit adjacent to each other.
- II. L sits second to the left of P. M does not face the immediate neighbors of P. Equal number of persons do not sit between K and P (from the both side).

- (a) Only statement I is sufficient
- (b) Only statement II is sufficient
- (c) Either statement I or II is sufficient
- (d) Neither statement I nor II is sufficient
- (e) Both statement I and II is sufficient

Answer (e) Both statement I and II is sufficient

-
- 109.** B is 7m to the north of C. G is 4m to the south of E. I is 11m to the west of G. D is 3m to the east of H. F is 12m to the east of B. C is 6m to the west of E. D is 9m to the south of I. F is 10m to the north of A. Find the odd one out?

- (a) FC
- (b) EI
- (c) GH
- (d) AD
- (e) HE

Answer (e) HE

- 110.** Statement: Use for 2 weeks, your face will get pimple free. It is 100% tested and there is no side effect-Advertisement by a face wash company Y. Assumption: (I) Pimple on face is common people issue. (II) People believe on tested products. (III) Stock of face wash by company will be sold in a week.

- (a) Only I and III
- (b) Only II and III
- (c) Only II
- (d) Only I and II
- (e) All of three

Answer (d) Only I and II

DIRECTIONS (Q. 111-114)

Study the following information and answer the questions below: There are three stacks i.e. X, Y and Z from west to east respectively, which contains different number of boxes placed one above another. Each box has same heights. Box U is kept to the just north-west of box E. Box Q is kept to the east of box E. At most two boxes are kept below box E. Three boxes are kept between box Q and the box which is kept to the east of box A in the same stack. At least two boxes are kept between box B and box E in the same stack. Box B is kept to the south-east of box A. Five boxes are kept between box A and box F in the same stack. Box F is kept to the west of box T which is kept just below box G in the same stack. Box H is kept to the south east of box E and to the just east of box G. As many boxes are kept between box A and box F is same as between box D and box T in the same stack. Box P is kept to the west of box R and kept above box S. No box is kept above box N which is kept to the east of box D. Box S is kept to the west of box Q. Box P is kept just below Box A.

111. How many known boxes are kept in the stack Y?

- (a) Three
- (b) Four
- (c) Five
- (d) Two
- (e) Either two or three

Answer (c) Five

112. Which among the following boxes are kept to the south-west of box N?

- (a) Box U
- (b) Box G
- (c) Box H
- (d) Box T
- (e) All except box H

Answer (e) All except box H

113. Four of the following five are alike in a certain way and hence form a group. Who among the following does not belong to that group?

- (a) Box N
- (b) Box R
- (c) The box which is kept to the east of box E
- (d) Box F
- (e) Box H

Answer (d) Box F

114. How many total boxes are Kept between the box B and the box which is kept to the just east of box F in the same stack?

- (a) Four
- (b) Three
- (c) Five
- (d) Six
- (e) Two

Answer (a) Four

DIRECTIONS (Q. 115)

After 8 phases of election in Bengal, on 2nd May the 'khela' becomes over. TMC lead by Chief Minister Mamata Banerjee has got success to clean sweep Bengal election despite of strong opposition heavyweight Bhartiya Janata Party. Top Central Ministers and chief ministers of BJP ruled states also participated in rallies. While seated in a wheelchair Didi with her injured left foot, rallies could not have been easy. But Didi scored! And her supporters and TMC cheered.

- 115.** I. TMC Party workers starts celebration and there is some news of violence between BJP & TMC workers.
 II. Out of 292 seats, TMC has marked a major victory by winning 225 seats and BJP has not touched the triple figure. Give answer
- (a) If Statement I is the cause and Statement II is its effect
 (b) If Statement II is the cause and Statement, I is its effect
 (c) If both the Statements I and II are independent causes
 (d) If both the Statements I and II are effects of independent causes
 (e) If both the Statement I and II are effects of some common causes

Answer (b) If Statement II is the cause and Statement, I is its effect

DIRECTIONS (Q. 116-118)

In the following questions, the symbols %, #, @, \$, and & are used with the following meaning as illustrated below: P&Q means P is equal to Q P%Q means P is either less than or equal to Q P\$Q means P is either greater than or equal to Q P#Q means P is neither less than nor equal to Q P@Q means P is neither greater than nor equal to Q In each question, assuming the given statements to be true, find out which of the given conclusions below, is are definitely true as per the statement.

- 116.** Statements: D @ B % T, E # N @ M, T & R % M Conclusions:

- I. R # D
 II. T @ M III. B % N
- (a) Only II is true
 (b) Only I or III is true
 (c) Only I is true
 (d) Only II and III is true
 (e) None is true

Answer (c) Only I is true

- 117.** Statements: C \$ L # P & O, M \$ S # P, B \$ V % S Conclusions:

- I. P @ B
 II. M # O III. C \$ V
- (a) Only II is true
 (b) Only III is true
 (c) None is true
 (d) Only I and II is true
 (e) Either II or III is true

Answer (a) Only II is true

- 118.** Statements: A \$ H \$ S, T & N # Z @ U, H % T @ E 21

- (a) Only II is true
 (b) All I, II and III are true
 (c) Only I is true
 (d) Only I and II is true
 (e) Only I and III is true

Answer (d) Only I and II is true

DIRECTIONS (Q. 119-122)

There are three rows given and to find out the resultant of a particular row we need to follow the following Conditions: - 1. If an even number is followed by a perfect square number then the resultant will be the positive difference between both the numbers. 2. If an odd number is followed by an even number (not prime) which is not a perfect square number then the resultant will be addition of both the numbers. 3. If an even number is followed by an even number which is not a perfect square then the resultant will be the addition of positive difference between the two numbers with the greater number. 4. If an odd number is followed by an odd prime number then the resultant will be the positive difference between both the numbers. 5. If an odd number is followed by an even prime number then the resultant will be average of the two numbers. 6. If an even number is followed by an odd number which is not a perfect square number then the resultant will be the twice of the positive difference of the two numbers. 7. If an odd number is followed by an odd number (not prime) then the resultant will be positive difference between both the numbers.

119. What is the resultant of row 1, if X is the resultant of row 2 and Y is the resultant of row 3?

- (a) 84
- (b) 86
- (c) 77
- (d) 65
- (e) 62

Answer (b) 86

120. What is the difference of resultant of row 2 and the sum of the resultants of row 1 and row 3?

- (a) 46
- (b) 32
- (c) 26
- (d) 36
- (e) 22 22

Answer (c) 26

121. What is the resultant of new row made by arranging the resultant of all three rows in ascending order from left to right?

- (a) 80
- (b) 75
- (c) 65
- (d) 60
- (e) 55

Answer (d) 60

122. What is the sum of the resultants of all the three rows?

- (a) 28
- (b) 48
- (c) 38
- (d) 58
- (e) 68

Answer (c) 38

DIRECTIONS (Q. 123-126)

A number arrangement machine when given an input line of numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. Input: 532146 304536 541207 537894 263159 847312 Step I: 532136 304536 541249 537816 263181 84734 Step II: 82136 34536 91249 87816 83181 12734 Step III: 28163 34563 19294 78861 38181 12743 Step IV: 6166 1566 8298 1862 5182 1746 Step V: 49 144 36 144 100 289 81 64 36 100 64 100 Step V is the final step of given input. Answer the following questions based on the following input: - Input: 142384 612385 393842 752403 540519 801517

123. What is the difference between the third number from the right end in step III and the fifth number from the left end in step II? 23

- (a) 78287
- (b) 65422
- (c) 56452
- (d) 98532
- (e) 84532

Answer (a) 78287

124. What is the position of '1298' in the penultimate step of the given input?

- (a) 5th from the left
- (b) 2nd from the left
- (c) 3rd from the right
- (d) 4th from the right
- (e) None of these

Answer (c) 3rd from the right

125. What is the sum of the odd numbers in step V?

- (a) 628
- (b) 778
- (c) 548
- (d) 668
- (e) 988

Answer (d) 668

126. What is the product of the numbers which are third from the right end in step V and third from the left end in step II?

- (a) 1346700
- (b) 1238400
- (c) 4312700
- (d) 5431200
- (e) 1298000

Answer (b) 1238400

DIRECTIONS (Q. 127-128)

Find the pattern of the given series and answer the following question given below. Series: ?, 8, 72, 4608, 2880000

127. If the ratio of X to the missing term of the above series is 5:2, respectively, then find the value of 3X.

- (a) 12
- (b) 30
- (c) 21
- (d) 9
- (e) 15

Answer (b) 30

128. If X is 140% more than the missing term of the above series, then find the value of X.

- (a) 7.4
- (b) 2.6
- (c) 4.4
- (d) 9.6
- (e) 6.6 24

Answer (d) 9.6

129. If smallest root of equation $6x^2 + 11x + 4 = 0$ is 'a', then find the value of $64a$.

- (a) $1/16$
- (b) 64
- (c) 16
- (d) $1/64$
- (e) $1/256$

Answer (e) $1/256$

DIRECTIONS (Q. 130)

Find the wrong number in the given series.

130. 2.2, 30, 6.6, 16.5, 49.5, 173.25, 693

- (a) 2.2
- (b) 30
- (c) 16.5
- (d) 49.5
- (e) 693

Answer (b) 30

DIRECTIONS (Q. 131-136)

The pie chart shows percentage distribution of total officers (Government and Private) working in four (P, Q, R and S) different cities. The table shows number of private officers working in these cities. Read the following pie chart and table carefully and answer the questions given below. Note: (i) Average number of private officers working in cities P, R and S is 400. (ii) The ratio of number of private officers working in cities S and P is 3:7 respectively. 25

131. If 25% of total officers from each city P, Q, R, and S are moved to city E, if the total number of officers is presented in the pie chart with degree distribution, then find the central angle representing the officers in city E. (Note: Initially there were no officer in city E)

- (a) 72o
- (b) 90o
- (c) 108o
- (d) 180o
- (e) 36o

Answer (b) 90o

132. 45% of the private officers in S work 12 hours/day and the remaining 10 hours / day. While 50% of the government officers in S work 8 hours/day and the remaining 5 hours/day Find the sum of the total weekly working hours of all the government and private officers in S. (Note: One week = 7 days and no holiday in included)

- (a) 31990
- (b) 39910
- (c) 39190
- (d) 30910
- (e) 33990

Answer (a) 31990

133. If total tax paid by each officer in the city given below, then find which of the following statement/s is/are correct. P = 2 lakh Q = 1.2 lakh R = 1.8 lakh S = 1.5 lakh

- I. Total tax paid by total officers in S is one- fifth of the total tax paid by total officers in Q.
- II. Total tax paid by total officers in R is 75% of the total tax paid by total officers in Q.
- III. Total tax paid by total officers in P and S together is less than the total tax paid by total officers in Q and R together.

- (a) Both I & II
- (b) Only III
- (c) Both I & III
- (d) Both II & III

(e) Only II

Answer (d) Both II & III

134. Find the ratio between total government officers in Q to total private officers in S.

- (a) 4:1
- (b) 3:2
- (c) 5:4
- (d) 2:5
- (e) 1:3

Answer (a) 4:1

135. 80% of the total officers in P work in the banking sector, and 60% of the private officers in P work in the banking sector. Find the government officers working in the non-banking sector.

- (a) 30
- (b) 25
- (c) 20 26
- (d) 10
- (e) 15

Answer (c) 20 26

136. If 75% and 60% of the private and government officers in R are males respectively, then find the sum of private and government female officers in R.

- (a) 390
- (b) 350
- (c) 370
- (d) 330
- (e) 310

Answer (c) 370

DIRECTIONS (Q. 137-141)

Read the following information carefully and answer the questions given below. The information about athletes from three (P, Q, and R) different countries is selected from the Olympics in three (2010, 2014, and 2018) different years. Athletes selected from P in 2014 are $2x+10$, which is 10 more than the athletes selected from R in 2010. Athletes selected from Q in 2018 are half of the athletes selected from R in 2010, and athletes selected from R in 2014 were 20 more than those from R in 2010. The ratio of athletes selected from R in 2010 to 2018 is 9:13. Athletes selected from P in 2010 were 18 more than athletes selected from R in 2010. The athletes selected from Q in 2010 and 2014 are $2a$ and $5a$, respectively. Total athletes selected from P, Q, and R in all three years are 1150, 460, and 1260, respectively.

137. Find the difference between athletes selected from Q in 2014 and athletes selected from R in 2018.

- (a) 290
- (b) 250
- (c) 350
- (d) 240
- (e) 320

Answer (e) 320

138. If the average number of athletes selected from P, Q, R, and S in 2010 was 340, then find the number of athletes selected from S in 2010.

- (a) 575
- (b) 542
- (c) 528
- (d) 503
- (e) 597

Answer (b) 542

139. If the athletes selected from R in 2022 are 25% less than the athletes selected from Q in 2010 and 2014 together, then find the athletes selected from R in 2022.

- (a) 185
- (b) 225
- (c) 210
- (d) 190
- (e) 205

Answer (c) 210

140. Find the difference between athletes selected from P in 2014 and 2018 together and the value of a.

- (a) 732
- (b) 768
- (c) 744
- (d) 722
- (e) 736

Answer (a) 732

141. 40% of the athletes selected from Q in 2018 participated in track and field games, 25% of the remaining participated in archery, and the remaining participated in board games. Find the total athletes who participated in board games and track & field games.

- (a) 158
- (b) 153
- (c) 156
- (d) 151
- (e) 155

Answer (b) 153

DIRECTIONS (Q. 142-146)

The table shows total students who opted two different courses (Traditional and Professional) in two (Amber and Dhara) different institute in three (2019, 2020 and 2021) different years. (Each student opted for only one course). Read the following table carefully and answer the questions given below. Note: Students who opted for professional courses in Dhara institute in 2019, 2020 and 2021 are 60, 85 and 40 respectively.

Years	Total students in Amber and Dhara institute	Total students in Amber institute who opted for the traditional courses	Total students in Amber institute who opted for the professional courses	Total students in Dhara institute who opted for the traditional courses	Total students in Dhara institute who opted for the professional courses	Total students in Dhara institute
2019	180	----	$1.5x$	----	$3x$	120
2020	240	----	$3x$	----	----	150
2021	160	----	$2.5x$	----	----	90

142. Find the difference between the total students in Amber Institute who opted for the traditional courses in 2021 and the total students in Dhara Institute who opted for the professional courses in 2020.

- (a) $3x+5$
- (b) $2.5x+10$
- (c) $4.5x-15$
- (d) $4x+20$
- (e) $6x-20$

Answer (a) $3x+5$

143. Find the average number of students who opted for the professional courses in 2021 from both Institute.

- (a) 50
- (b) 45
- (c) 25
- (d) 40
- (e) 65

Answer (b) 45

144. Find the ratio between students who opted for both the courses together from Amber institute in 2019 to the value of x .

- (a) 3:1
- (b) 1:3
- (c) 2:1
- (d) 1:2
- (e) 4:1

Answer (a) 3:1

145. Students who opted for traditional courses from Amber institute in 2021 is what percentage of total students from both institutes together in 2021?

- (a) 15%
- (b) 16.67%
- (c) 10%
- (d) 8.33%
- (e) 12.5%

Answer (e) 12.5%

146. The difference between students who opted for traditional courses and professional courses from Amber Institute in 2020 is 'p'. The sum of the students who opted for professional courses from Dhara Institute in 2019 and 2021 together is 'q'. Find the 'p + q'.

- (a) 120
- (b) 140
- (c) 125
- (d) 130
- (e) 105

Answer (d) 130

147. P is more efficient than Q and R together. Efficiency of P and Q together is 14.28% less than the efficiency of P, Q and R together. If Q can complete 60% of the work in 9.6 days, then find the time (in days) taken by P and R together to complete 175% of the total work.

- (a) 10.9
- (b) 11.2
- (c) 14.5
- (d) 16.8
- (e) 9.6

Answer (b) 11.2

148. A man invested Rs P for 'T' years at 14% p.a. in simple interest, while he invested Rs 'P+600' for two years at 20% p.a. in compound interest, such that the total interest received is Rs 1464. If he invested Rs P for 'T' years at 8% p.a. in simple interest and received interest of Rs 384, then find the amount (in Rs) received from compound interest. 29

- (a) 2652
- (b) 2858
- (c) 2664

- (d) 2592
- (e) 2904

Answer (d) 2592

149. P and Q started a business with investments of Rs 8000 and Rs 10000 and after four months, Q withdrew half of his investment. After two more months, R joined with an investment of Rs 12000. If at the end of the year the difference between the profit share of P and R is Rs 900, then find the profit share of P and Q together, which is how much more than that of R (in Rs).

- (a) 2400
- (b) 3200
- (c) 3900
- (d) 2900
- (e) 3400

Answer (c) 3900

150. Rs Y is distributed among four different people A, B, C, and D, such that the share of A is Rs 4000 and the ratio of the share of C to D is 3:1, respectively. The share of B is 125% of the share of C and D together. If the average share of B and D is Rs 4800, then find the value of Y.

- (a) 20800
- (b) 22400
- (c) 18400
- (d) 21500
- (e) 22800

Answer (c) 18400

151. The ratio of the ages of P and Q five years ago was 7:5, respectively, while the ratio of the ages of P and Q after seven years will be 13:11, respectively. If the present ages of P and Q are 'a' years and 'b' years, respectively, and the present age of R is 20% more than that of Q, then find the age of R after 12 years.

- (a) $a+b-8$
- (b) $2b-8$
- (c) $3a-b$
- (d) $3b-a$
- (e) $2a-8$

Answer (e) $2a-8$

152. Boat P can cover some distance downstream in ' $a-5$ ' hours, and the same boat can cover the same distance upstream in ' $a+5$ ' hours. The speed of the boat P in still water is 12 km/hr. If the speed of the boat Q in still water is equal to the speed of the stream, which is equal to 7.5 km/hr, then find the distance (in km) covered by the boat Q downstream in ' $a+4$ ' hours. (Speed of stream for both the boat are same)

- (a) 120
- (b) 180
- (c) 150
- (d) 160
- (e) 140 30

Answer (b) 180

153. In a class, there are ' $a+10$ ' students whose average weight is 30 kg. If 'b' more students with an average weight of 64 kg are added, then the average weight of the class is increased by four kg. If ' $b+3$ ' students with an average weight of 38 kg are added, then the average weight of the class is increased by two kg. Find the value of $5(a+b)$.

- (a) 20
- (b) 50

- (c) 45
- (d) 35
- (e) 25

Answer (d) 35

154. The sum of four consecutive even numbers is ' $X+26$ ' and there are four consecutive odd numbers, of which the 2nd lowest number is three more than the 2nd highest even number. If the sum of the lowest numbers in both series is 37, then find the value of $X/2$.

- (a) 25
- (b) 50
- (c) 75
- (d) 20
- (e) 40

Answer (a) 25

155. In the question, two equation (i) and (ii) are given. You have to solve both the equations and give answer.

- (a) If $a > b$
- (b) If $a \geq b$
- (c) If $a < b$
- (d) If $a \leq b$
- (e) If $a = b$ or no relation can be established between a and b

Answer (b) If $a \geq b$

DIRECTIONS (Q. 156-159)

In the given question, two quantities are given, one as 'Quantity I' and another as 'Quantity II'. You have to determine relationship between two quantities and choose the appropriate option.

156. The ratio of milk to water in mixture A1 is 7:9. 80 liters of the mixture are taken out & the remaining mixture becomes another mixture, A2. When 8 liters of water are added to A2, a new mixture, A3, is formed, in which the ratio of milk to water becomes 5:7. Quantity

- I. 60 liters Quantity
- II. Find the quantity of milk in A2.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (b) Quantity I < Quantity II

157. Quantity

- I. If Area of a circle is more than or equal to the area of a rectangle of sides 16 cm and one cm, then find the area of the circle. Quantity
- II. Find the area of a square whose area is equal to the area of a rectangle. The sum of one side of the square and the breadth of the rectangle is 10 cm more than the length of the rectangle, and the perimeter of the rectangle is 20 cm.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (c) Quantity I $\geq$ Quantity II

158. A man invests Rs. 1800 at rate of 5% and $x\%$ per annum in the ratio 4: 5 respectively. At the end of two years, the man received total simple interest of Rs 160 Quantity I: Value of $(x+12)$. Quantity II: $y^2 = 256$

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (c) Quantity I $\geq$ Quantity II

159. Quantity I: A storekeeper has two types of shirts i.e., 15 yellow and 10 blue. If he sold 3 shirts, what is the probability that all these are of either yellow or blue. Quantity II: 0.20

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I $\geq$ Quantity II
- (d) Quantity I $\leq$ Quantity II
- (e) Quantity I = Quantity II or no relation

Answer (a) Quantity I > Quantity II

160. The area of the equilateral triangle is and the side of the equilateral triangle is half of the radius of the cylinder. If the volume of the cylinder is 12672 cm^3 , then find the height of the cylinder (in cm).

- (a) 17
- (b) 5
- (c) 12
- (d) 10
- (e) 7 34

Answer (e) 7 34

161. The $X+150$ meters long train can cross a pole in 16 seconds and speed of the train is 90 km/hr. If length of the bridge is X meters, then find the time taken by train to cross the bridge (in seconds).

- (a) 26
- (b) 22
- (c) 27
- (d) 25
- (e) 23

Answer (a) 26

162. A 120 liters mixture of milk and water is in the ratio of $X : 11$ respectively. If 40 liters of mixture are taken out and 16 liters of milk are added to the mixture, then ratio of milk to water becomes 13:11, respectively. Then find the value of X .

- (a) 11
- (b) 9
- (c) 10
- (d) 12
- (e) 13

Answer (b) 9

DIRECTIONS (Q. 163-166)

The pie chart shows the percentage distribution of total cost of a firm to make a unit of an article. The total revenue of the firm is Rs 78125 to sell all the articles. Read the following pie chart carefully and answer the questions given below. Note:

Code	1	2	3
Letter	B	C	D
	F	G	H
	I	K	L
	Q	R	S
	T	V	W
	X	Y	Z

M - #, N - *, P - \$

Code	1	2	3

Q	2000	800	1200
R	1000	200	800
S	500	300	200

Cities	Total number of officers	Number of private officers	Number of government officers
P	1500	700	800
Q	2000	800	1200
R	1000	200	800
S	500	300	200

163. Find the difference between total cost of 12 units and total advertisement cost of 18 units (in Rs).
35

- (a) 24200
- (b) 22400
- (c) 27300
- (d) 28400
- (e) 20200

Answer (c) 27300

164. If no tax is deducted, then find the sum of the packaging cost of three-unit articles and net profit earned by selling those articles (in Rs).

- (a) 4250
- (b) 4000
- (c) 4500
- (d) 5500
- (e) 3000

Answer (e) 3000

165. Manufacturing one unit of article required 15 kg of material which consists material X and material Y. If per kg of material X cost Rs 30 and total cost material X is Rs 300, then find the per kg cost of material Y (in Rs).

- (a) 150
- (b) 115
- (c) 105
- (d) 125
- (e) 145

Answer (b) 115

166. If selling price per unit is increased by 20% and gross profit remains same, then find the difference between new advertisement cost of four article and the previous advertisement cost of four articles (in Rs).

- (a) 30
- (b) 25
- (c) 35
- (d) 37.5
- (e) 40

Answer (d) 37.5

DIRECTIONS (Q. 167)

Rearrange the following sentences to form a coherent paragraph and answer the given questions. (A) The book is not as fascinating as Harry Potter. (B) However, it has sold _____ copies than any other books in the past decade. (C) Even though this book does not feature magical elements, it _____ around aspirations and wishes.

167. Choose the most suitable word to fill in the statement (C).

- (a) aspire
- (b) conflicts
- (c) captures
- (d) revolves
- (e) understands

Answer (d) revolves

DIRECTIONS (Q. 168)

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. The letter of that part is the answer. If the sentence is grammatically and contextually correct, then choose option "No error" as your answer choice. (Ignore the errors of punctuation, if any.)

168. Underneath the twinkling stars, (A)/ the weary traveler (B)/ found solace in the (C)/ soothing melodies of nature. (D) 4

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Answer (e) No error

DIRECTIONS (Q. 169)

Given below are two statements in each question. Each statement has one blank which will be filled in with the same word. Select the combination of words that fits in appropriately in the blanks respectively to make both the sentences grammatically correct and contextually meaningful.

169. (I) The professor delivered a _____ lecture on the impact of technology on society. (II) Solving the intricate puzzle required a _____ series of logical steps and careful analysis. 5

- (a) profound, complex
- (b) crucial, sanguine
- (c) irrelevant, lucid
- (d) remarkable, capitulate
- (e) trivial, ineffable

Answer (a) profound, complex

DIRECTIONS (Q. 170)

In each of the questions given below four words are given in bold. These four words may or may not be in their correct position. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination of the words that replace each other. If the sentence is correct as it is then select option 'No rearrangement required' as your choice.

170. The performance (A) melody of the violinist's mesmerizing (B) had the power to attention (C) the entire audience, holding them in rapt captivate (D) throughout the concert.

- (a) ACBD
- (b) DBAC
- (c) BADC
- (d) BCAD
- (e) No rearrangement required

Answer (c) BADC

DIRECTIONS (Q. 171)

Read the following passage and answer the given questions. Living in a warm, dry, and healthy home is declared by the Chief Human Rights Commissioner of New Zealand, Paul Hunt, to be as fundamental a human right as the presumption of innocence or freedom of expression. However, an alarming "accountability deficit" in ensuring the upkeep of such homes poses a threat to New Zealand's democratic ideals. Despite being ranked the second freest nation globally in 2021, issues arise from property being the primary source of wealth for New Zealanders, a widening equality gap, and the challenging living conditions for approximately 600,000 households residing in non-owned properties. The disparity is evident in the poor state of many rental homes, with an estimated 30% to 50% of the rental stock being in suboptimal condition. To address this, the government introduced healthy homes standards in 2019, aiming to make rental properties warmer and drier. Landlords were given deadlines to comply, with significant penalties for non-compliance, reflecting a shift in the system from an unregulated environment to one with minimum standards. However, issues of accountability persist, with the complia

171. Choose the most suitable word that can replace the highlighted word "shouldering" in the passage.

- (a) anticipating
- (b) overtaking
- (c) perplexing
- (d) pushing
- (e) diverting

Answer (d) pushing

DIRECTIONS (Q. 172)

Study the following information carefully and answer the questions given below- There are 12 persons who born in 24 different months of 2 years i.e., 1998 and 1999. Only one person was born in a month in each year. The months are January to December. G was born in a month of 30 days after June and in 1999. B was born in November. B was born before G. There is a gap of 5 months between L and M. Both L and M were born in same year. There is a gap of 2 months between the person who born in June 1999 and M and both were born in same year. P was born immediately after L in the same year. J was born in March 1998. As many months are there between the month in which Q and U were born is same as the number of months before J. Q, U and J were born in same year. U was born after Q. S is elder to Z. S and Z were born in same month but in different years. There are three months between U and S. S was not born in a month of 30 days, but not in August. H and B were born in immediate months but in different years. H is not the youngest. K is younger to L but older to Z. The number of months between B and U is same as between L and K. K and S were born in different years.

172. Who is the youngest among H, L, S and K?

- (a) H
- (b) L
- (c) K
- (d) Cannot be determined
- (e) S

Answer (e) S

DIRECTIONS (Q. 173)

Read the given information carefully and answer the questions based on it: Thirteen houses are situated in a row and they are numbered 1 to 13 from west to east respectively. Nine persons live in nine houses (one in each) and four houses are vacant in the row. Vacant houses are not adjacent to each other. All persons face north. P lives in 7th house. Four houses are there between N and T. Number of houses to the right of R is one less than the number of houses to the left of M. R and Y live in adjacent houses. One person lives between M and J where J does not live at extreme ends. Three houses are in between M and P. N lives just right of J but not in adjacent house. Immediate neighboring houses of M are not vacant. T lives third to the right of S and to the left of K. S does not live at extreme end.

173. What is the house number of that vacant house which is adjacent to T's house?

- (a) None of these
- (b) 5
- (c) 4
- (d) 6
- (e) 3 13

Answer (d) 6

DIRECTIONS (Q. 174)

Study the following information and answer the questions below: Ten persons- P, Q, R, S, T, U, V, W, X and Y are living in the five-floor building such that the ground floor is numbered as 1, the floor just above it is numbered as 2 and so on till the top most floor is numbered as 5 but not necessarily in the same order. Each floor has 2 flats in it i.e., flat A and flat B. Flat A of floor 2 is immediately above flat A of floor 1 and immediately below flat A of Floor 3 and so on. In the same way, Flat B of Floor 2 is immediately above flat B of floor 1 and immediately below flat B of Floor 3 and so on. Flat A is exactly to the west of Flat B. Two floors gap between P and X and both live in different named flats. P lives on an even numbered floor. As many floors are above X as below W. V lives on an adjacent floor of W. Y lives to the south west of V and lives on an even numbered floor. Both Y and W live in the same named flats. S lives above T and below R. U lives on an odd numbered floor. No one lives to the west of T. S lives above Q. W and S live in different named flats.

174. Four of the following five are alike in a certain way and form a group. Who among the following person does not belong to the group?

- (a) W
- (b) R
- (c) T
- (d) P
- (e) X

Answer (d) P

DIRECTIONS (Q. 175)

Study the following information and answer the questions below: There are three stacks i.e. X, Y and Z from west to east respectively, which contains different number of boxes placed one above another. Each box has same heights. Box U is kept to the just north-west of box E. Box Q is kept to the east of box E. At most two boxes are kept below box E. Three boxes are kept between box Q and the box which is kept to the east of box A in the same stack. At least two boxes are kept between box B and box E in the same stack. Box B is kept to the south-east of box A. Five boxes are kept between box A and box F in the same stack. Box F is kept to the west of box T which is kept just below box G in the same stack. Box H is kept to the south east of box E and to the just east of box G. As many boxes are kept between box A and box F is same as between box D and box T in the same stack. Box P is kept to the west of box R and kept above box S. No box is kept above box N which is kept to the east of box D. Box S is kept to the west of box Q. Box P is kept just below Box A.

175. Which among the following boxes are kept to the south-west of box N?

- (a) Box U
- (b) Box G
- (c) Box H
- (d) Box T
- (e) All except box H

Answer (e) All except box H

DIRECTIONS (Q. 176)

In the following questions, the symbols %, #, @, \$, and & are used with the following meaning as illustrated below: P&Q means P is equal to Q P%Q means P is either less than or equal to Q P\$Q means P is either greater than or equal to Q P#Q means P is neither less than nor equal to Q P@Q means P is neither greater than nor equal to Q In each question, assuming the given statements to be true, find out which of the given conclusions below, is are definitely true as per the statement.

176. Statements: A \$ H \$ S, T & N # Z @ U, H % T @ E 21

- (a) Only II is true
- (b) All I, II and III are true
- (c) Only I is true
- (d) Only I and II is true
- (e) Only I and III is true

Answer (d) Only I and II is true

DIRECTIONS (Q. 177)

There are three rows given and to find out the resultant of a particular row we need to follow the following Conditions: - 1. If an even number is followed by a perfect square number then the resultant will be the positive difference between both the numbers. 2. If an odd number is followed by an even number (not prime) which is not a perfect square number then the resultant will be addition of both the numbers. 3. If an even number is followed by an even number which is not a perfect square then the resultant will be the addition of positive difference between the two numbers with the greater number. 4. If an odd number is followed by an odd prime number then the resultant will be the positive difference between both the numbers. 5. If an odd number is followed by an even prime number then the resultant will be average of the two numbers. 6. If an even number is followed by an odd number which is not a perfect square number then the resultant will be the twice of the positive difference of the two numbers. 7. If an odd number is followed by an odd number (not prime) then the resultant will be positive difference between both the numbers.

177. What is the difference of resultant of row 2 and the sum of the resultants of row 1 and row 3?

- (a) 46
- (b) 32
- (c) 26
- (d) 36
- (e) 22 22

Answer (c) 26

DIRECTIONS (Q. 178)

A number arrangement machine when given an input line of numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. Input: 532146 304536 541207 537894 263159 847312 Step I: 532136 304536 541249 537816 263181 84734 Step II: 82136 34536 91249 87816 83181 12734 Step III: 28163 34563 19294 78861 38181 12743 Step IV: 6166 1566 8298 1862 5182 1746 Step V: 49 144 36 144 100 289 81 64 36 100 64 100 Step V is the final step of given input. Answer the following questions based on the following input: - Input: 142384 612385 393842 752403 540519 801517

178. What is the difference between the third number from the right end in step III and the fifth number from the left end in step II? 23

- (a) 78287
- (b) 65422
- (c) 56452
- (d) 98532
- (e) 84532

Answer (a) 78287

DIRECTIONS (Q. 179)

Find the pattern of the given series and answer the following question given below. Series: ?, 8, 72, 4608, 2880000

179. If X is 140% more than the missing term of the above series, then find the value of X.

- (a) 7.4
- (b) 2.6
- (c) 4.4
- (d) 9.6
- (e) 6.6 24

Answer (d) 9.6

DIRECTIONS (Q. 180)

Read the following information carefully and answer the questions given below. The information about athletes from three (P, Q, and R) different countries is selected from the Olympics in three (2010, 2014, and 2018) different years. Athletes selected from P in 2014 are $2x+10$, which is 10 more than the athletes selected from R in 2010. Athletes selected from Q in 2018 are half of the athletes selected from R in 2010, and athletes selected from R in 2014 were 20 more than those from R in 2010. The ratio of athletes selected from R in 2010 to 2018 is 9:13. Athletes selected from P in 2010 were 18 more than athletes selected from R in 2010. The athletes selected from Q in 2010 and 2014 are $2a$ and $5a$, respectively. Total athletes selected from P, Q, and R in all three years are 1150, 460, and 1260, respectively.

180. If the athletes selected from R in 2022 are 25% less than the athletes selected from Q in 2010 and 2014 together, then find the athletes selected from R in 2022.

- (a) 185
- (b) 225
- (c) 210
- (d) 190
- (e) 205 27

Answer (c) 210

181. The area of the equilateral triangle is and the side of the equilateral triangle is half of the radius of the cylinder. If the volume of the cylinder is 12672 cm^3 , then find the height of the cylinder (in cm).

- (a) 17
- (b) 5
- (c) 12
- (d) 10
- (e) 7 34

Answer (e) 7 34

DIRECTIONS (Q. 182)

There are 3 bags and 4 chocolates. All these chocolates are to be distributed into these bags where any bag can contain any number of chocolates. 3

182. In how many ways these chocolates can be distributed if all the chocolates and all the bags are different?

- (a) $4P3$
- (b) 34
- (c) 43
- (d) $3P4$
- (e) None of these

Answer (c) 43

183. An item was bought for Rs. A and sold for Rs. B there by earning a profit of 25%. Had the value of A been 20% less and the value of B be Rs. 91 less, a profit of 40% would have been earned. What in the value of B? $\Rightarrow (17x - 36) \times$ Arun Singh Rawat Sol. 56

- (a) Rs. 825
- (b) Rs. 845
- (c) Rs. 865
- (d) Rs. 835
- (e) Rs. 875 Given (

Answer (e) Rs. 875 Given (

184. Average run scored by Arun in 18 matches is 62.5. If he scored 91 in the next match then find the increase in his average. 18

- (a) 0.5
- (b) 1.2 For
- (c) 2.5
- (d) 1.5
- (e) None of these

Answer (d) 1.5

185. What is two-thirds of the total number of girls who have visited E and C together? (Approximate) E

- (a) 120
- (b) 128
- (c) 115
- (d) 130 For
- (e) 125

Answer (c) 115

186. Number of gel pens sold by C is how much percent more

- (a) 40% simple interest and returns every year. After
- (b) 35% one year, Q gave the entire interest amount and
- (c) 25% 40% of the principal amount. After the 2nd year
- (d) 50% Q again returns the entire interest amount and
- (e) None of these

Answer (c) 25% 40% of the principal amount. After the 2nd year

187. What is the difference between number of gel 3rd year, he gave entire interest amount and pens sold by B and number of ball pens sold by 50% of the remaining amount. Finally, after the C? 4th year, Q returned P's entire balance amount B

- (a) 200
- (b) 210 Q
- (c) 220 Q
- (d) 240
- (e) None of these

Answer (a) 200

188. What is the average number of gel pens sold by A and B?

- (a) 210
- (b) 230
- (c) 250
- (d) 200
- (e) 220 11-15: Answer the following questions from the given passage:

Answer (b) 230

189. What is the average number of people who

- (c) 1350 travel through AC bus in four days?
- (d) 1520
- (e) None of these
- (a) 190
- (b) 180

Answer (b) 180

190. 20 15 10 5 0 Average of total books sold by stores B and C = Store A Store B Store C Sol. c) Total books sold by store A = $3500 \times$ Total plain books sold by store A = 600 Total lined books sold by store A = $700 - 600 = 100$ Total books sold by store B = $5000 \times = 2000$ $100 + 45 \times = 1675$ Lined Book Stores % of sold books A 20% B 40% C 30% The number of plain books sold by store A and store B was 30% and 40% respectively then find number of lined books sold by store A and store B together is what percent of total books available at store A ?

- (a) 22 %
- (b) 23 %
- (c) 25 %
- (d) 25%
- (e) None of these = $2000 \times \% = 25 \%$ Average of total books sold by stores B and C together is how much more than total unsold books of stores A

Answer (c) 25 %

191. Unsold books of store A is approximately is what percent more or less than total unsold books of store B and C together.

- (a) 48%
- (b) 54%
- (c) 59% For
- (d) 52%
- (e) 57% Sol. b) Unsold books of store A = $3500 \times = 2800$ Unsold books of store B and C together = 5000

$$\times + 4500 \times$$

Answer (c) 59% For

- 192.** Sol. a) Let male participant in February = $100x$ So male participant in January = $120x$ Female participant in January = $x \cdot 40 = 80x$ Female participant in February = $x \cdot 70 = 70x$ Required % = $\frac{70x}{100x} \times 100 = 70\%$ Required % = $\frac{70}{100} \times 100 = 70\%$ Selling price of each plain books and lined books sold by store B is Rs. 250 and Rs. 175 respectively. Then, find the total amount earned by store B on selling these books if 60% of lined books are sold by the store?

- (a) Rs. 2.5 lac
- (b) Rs. 3.6 lac
- (c) Rs. 3.5 lac
- (d) Rs. 3.8 lac
- (e) Rs. 4.1 lac

Answer (a) Rs. 2.5 lac

- 193.** Ratio of adult and child participant in may is 3 : 4 and male participant n may is

- (a) 300
- (b) 350
- (c) 280
- (d) 250
- (e) 400 Sol. e) Male participant = 280 Total participant = $\frac{3}{4} \times 280 = 210$ For

Answer (c) 280

- 194.** If number of participants in every month is

- (a) 250
- (b) 300
- (c) 190
- (d) 200
- (e) 180 Sol. c) Required average

Answer (b) 300

- 195.** $155 \times 100 = 51.67\%$ 00 Final average population of cities B, C, D and A in year 2017 ?

- (a) 31500
- (b) 26500
- (c) 28570
- (d) 32750
- (e) 32500 Sol. a) Required average =

Answer (c) 28570

- 196.** The population of another city F in 2007 was equal to average population of city B and E in 2017. If in 2017, population of city F increased by 10% as compared to 2007, find city F population in 2017?

- (a) 20000
- (b) 24000
- (c) 22000
- (d) 21000
- (e) 25000 Sol. c) Population of city F in 2007 = $(15 + 25) \times 100 = 20000$ 2 Population of city F in 2017 = $20000 \times 1.1 = 22000$

Answer (c) 22000

197. $= 25200 + 12000 = 37200$ $30 \times 96000 = 28800$ 100 What is ratio of cars in good condition of Ford brand to the cars in bad condition of Honda brand?

- (a) 80:21
- (b) 70:43
- (c) 85:23
- (d) 70:41

(e) 53:13 Required ratio = $\frac{37200}{28800} = \frac{31}{24} = 80 : 21$ % What is the average of cars in bad condition of brand sedan, Ford and Audi together?

Answer (b) 70:43

198. In which race, is the speed of Arun minimum?

- (a) A
- (b) B
- (c) C
- (d) D

(e) E Race The line chart shows the time taken to cover these five races – A, B, C, D & E

Answer (a) A

199. 2013 A 1645 1747 1865 1630 1705 2014 Q 1340 1206 1667 1334 1456 A 1754 1997 1674 1986 2104 2015 Q 1666 1789 1124 1642 2030 A 1784 1650 1854 1906 1766 Q 1600 1378 1310 1686 1598 2016 A 1540 1490 1464 1578 1660 Q 1265 1172 1245 1488 1489 A 1664 1675 1610 1745 1790 2017 Q 1562 1488 1314 1396 1580 Percentage of candidates qualified over appeared from institute D is the lowest during which of the following years?

- (a) 2013
- (b) 2014
- (c) 2015
- (d) 2016

(e) 2017 SOL. Appeared students from institute D in 2013 = 1865 Qualified students from institute D in 2013 = 1667 16

Answer (c) 2015

200. Approximately what is the percentage of candidates qualified over appeared from all the institutes together in 2017?

- (a) 98%
- (b) 75%
- (c) 64%
- (d) 86%
- (e) 69% SOL

Answer (d) 86%

201. Qualified students from all the institutes in 2017 = 7340

- (a) 168
- (b) 190 For
- (c) 180
- (d) 195
- (e) None of these

Answer (a) 168

202. New speed of train Q = 120% of $50 \times \frac{5}{18} = \frac{50}{3}$ m

- (a) 51.82 sec
- (b) 58 sec
- (c) 106 sec
- (d) 59 sec
- (e) 108 sec Sol

Answer (c) 106 sec

203. Time taken by train P to cross a platform of length 300 m = $(300 + 300)/(70 \times 5/18) = 216$

- (a) 109.4%
- (b) 104.5% For
- (c) 101.3%
- (d) 98.6%
- (e) 95.7% By Arun Sir

Answer (b) 104.5% For

204. = 37 By Arun Sir Prakash invested $\frac{2}{3}$ rd of his amount on Compound Interest for two years and rest on SI for 5 years. Find the total interest earned by him.

- (a) Rs.4498
- (b) Rs.6858
- (c) Rs.8424
- (d) Rs.10944
- (e) None of these For

Answer (e) None of these For

205. J 12% K 30% L 16% J 16% M 18% Sol. SI for Dinesh after 8 years = $(P \times r \times t)/100 = (75000 \times 12 \times 8)/100 = \text{Rs.}72000$ SI for Nileshh after 5 years = $(P \times r \times t)/100 = (90000 \times 8 \times 5)/100 = \text{Rs.}36000$ Required ratio = 72000 : 36000 = 2:1 38 By Arun Sir $16 \times 20 \times 600000 - \times 400000 \times 100 \times 100 = 96000 - 80000 = 16000$ What is the ratio of female population of city M to the female population of city J.

- (a) 2 : 15
- (b) 15 : 2
- (c) 7 : 15
- (d) 3 : 16
- (e) 4 : 15 Sol. b) Let total population and male population is 300x and 200x respectively. For

Answer (e) 4 : 15 Sol. b) Let total population and male population is 300x and 200x respectively. For

DIRECTIONS (Q. 206-207)

Given below is the table showing the investment of five persons in a business, time for which investment made, share of profit and percentage of profit. Some values are missing in the table, you have to calculate this value if necessary to answer the questions. For .

206. What is the total investment of C and E if E invested for one month more than C and ratio between? the time taken by both i.e. C and E is 8 : 9.

- (a) 48000
- (b) 47000
- (c) 46000
- (d) 49000
- (e) 50000 Sol. d) Let both take 8x and 9x moth. So, C take 8 month and E take 9 months $\times =$ Where y is C's investment $\times y = 25000$

Answer (c) 46000

207. Profit % of E = $\times$ Sol. a) Sol. c) $\% \rightarrow 10800 \times 44 = \%$ Required% = $\times 100 = 72\%$ What is the difference (in months) between the time for which investment is made by D and E if profit of D is 28% less than profit of C and investment of D is 50% of investment of E.

- (a) 3
- (b) 4
- (c) 5
- (d) 6
- (e) 7 Profit of D = 7200 Investment of D = 12000 For

Answer (d) 6

208. $3/(x+20) = 1/(x-20)$ $3x-60 = x+20$ $2x = 80 \Rightarrow x = 40$ kmph It is known that ratio of the speed of the Boat B to Boat F in the still water is 4:5. If it's given that Boat F travels 126 km distance with the stream, and 81 km against the stream in 7 hr 30 min, what is the speed of stream for Boat F?
- (a) 14
 - (b) 13
 - (c) 15
 - (d) 12
 - (e) 18 By Arun Sir

Answer (d) 12

209. 50 It's known that distance between the two-point M & N is 210 km. Boat E travels from point M to N and Comes back. What is the time taken by Boat E in travelling total distance?
- (a) 12
 - (b) 14
 - (c) 18
 - (d) 17
 - (e) 16 Sol. Sol. sol

Answer (c) 18

210. C D E November What is the monthly income of A in the month of November? Statement I: The difference between monthly savings of A in November and April is 20% of A's monthly income in April Statement II: Monthly savings of B in November is 40% of monthly savings of A in April
- (a) Statement I is sufficient to answer the question
 - (b) Statement II is sufficient to answer the question
 - (c) Either Statement I or statement II is sufficient to answer the question
 - (d) Neither Statement I nor statement II is sufficient to answer the question
 - (e) Both Statements I and II are necessary to answer the question. Sol. d)

Answer (c) Either Statement I or statement II is sufficient to answer the question

211. Statement I: The difference between monthly savings of A in November and April is 20% of A's monthly income in April Monthly income of A in April be Rs. a & Monthly income of A in November be Rs. b Monthly savings of A in April = $a \times 70/100 = 7a/10$ Monthly savings of A in November = $b \times 40/100 = 4b/10$ $(7a/10 - 4b/10) = 20/100 \times a$ Statement II: Monthly savings of B in November is 40% of monthly savings of A in April Monthly income of A in April be Rs. a Monthly income of B in November be Rs. c Monthly savings of A in April = $a \times 70/100 = 7a/10$ Monthly savings of B in November = $40/100 \times 7a/100$ So, from the statement I and II, we cannot find the answer of the given question. Find the difference between the monthly income of C in April and November Statement I: The difference between the monthly savings of C in April and November is 12000. Statement II: The difference between the monthly expenditure of C in April and November is 10000.
- (a) Statement I is sufficient to answer the question
 - (b) Statement II is sufficient to answer the question
 - (c) Either Statement I or statement II is sufficient to answer the question
 - (d) Neither Statement I nor statement II is sufficient to answer the question
 - (e) Both Statements I and II are necessary to answer the question. By Arun Sir 53 Sol. e)

Answer (e) Both Statements I and II are necessary to answer the question. By Arun Sir 53 Sol. e)

212. In which race, is the speed of Arun the maximum?
- (a) A
 - (b) B and E
 - (c) C and A
 - (d) D
 - (e) None of these

Answer (d) D

213. What is the ratio of speeds of Arun in race A and race B?

- (a) 1 : 2
- (b) 1 : 3
- (c) 1 : 4
- (d) 1 : 5
- (e) 2 : 5 Sol. Required ratio

Answer (c) 1 : 4

214. If Arun increased his speed by 10% to finish the race D, then what is the time taken by Arun to finish the race D?

- (a) 12.67 sec (
- (b) 13.67 sec (
- (c) 14.33 sec (
- (d) 18.92 sec (
- (e) None of these

Answer (d) 18.92 sec (

215. What is the average speed of Arun in all the races together?

- (a) 24.44 m
- (b) 34.22 m
- (c) 12.22 m
- (d) 12.67 m
- (e) 10 m

Answer (b) 34.22 m

216. Find the wrong term in the given series.

- (a) 22
- (b) 24
- (c) 40
- (d) 82
- (e) 210

Answer (d) 82

217. 758, 743, 713, 668, 608, 535, 443

- (a) 668
- (b) 535
- (c) 443
- (d) 743
- (e) 758 Sol: 61. 168, 288, 360, 528, 841, 960 (a) 168 (b) 841 (c) 288 (d) 360 (e) 528

Answer (e) 758 Sol: 61. 168, 288, 360, 528, 841, 960 (a) 168 (b) 841 (c) 288 (d) 360 (e) 528

218. 515, 525, 548, 581, 625, 680, 746

- (a) 746
- (b) 680
- (c) 581
- (d) 525
- (e) 515 Sol: 58. 7.2, 72, 9, 54, 13.5, 28 (a) 72 (b) 9 (c) 28 (d) 13.5 (e) 54

Answer (b) 680

219. The Reserve Bank of India (RBI) has approved Tata Capital Limited's (TCL) conversion from a non-banking finance company (NBFC)-core investment company (CIC) to which of the following types of companies? (August 2024)

- (a) NBFC-microfinance company (MFC)
- (b) NBFC-asset finance company (AFC)
- (c) NBFC-investment credit company (ICC)
- (d) NBFC-leasing finance company (LFC)
- (e) NBFC-factoring company (FC)

Answer (c) NBFC-investment credit company (ICC)

220. Which of the following public sector insurance companies continue to be identified as Domestic Systemically Important Insurers (D-SIIs) by IRDAI? 1. Life Insurance Corporation of India (LIC) 2. General Insurance Corporation of India (GIC Re) 3. United India Insurance Company 4. New India Assurance Company

- (a) 1, 2, and 3 only
- (b) 2, 3, and 4 only
- (c) 1, 2, and 4 only
- (d) 1 and 2 only
- (e) 1, 3, and 4 only

Answer (c) 1, 2, and 4 only

221. The National Payments Corporation of India (NPCI) has incorporated NBSL as its wholly owned subsidiary. In this context, what does the letter 'B' stand for in NBSL? (August 2024)

- (a) Bharat
- (b) Banking
- (c) Business
- (d) Blockchain
- (e) BHIM

Answer (e) BHIM

222. Which organization has recently approved a \$1.5-billion loan to help India accelerate its low-carbon energy development, focusing on green hydrogen, electrolyzers, and renewable energy penetration? (June 2024)

- (a) World Bank
- (b) International Monetary Fund
- (c) Asian Development Bank
- (d) United Nations Development Programme
- (e) European Investment Bank

Answer (a) World Bank

223. The Reserve Bank of India (RBI) has increased the threshold for bulk fixed deposits for Scheduled Commercial Banks and Small Finance Banks to Rs.3 crore. What was the previous threshold for bulk deposits before this revision?

- (a) Rs.1 crore
- (b) Rs.1.5 crore
- (c) Rs.2 crore
- (d) Rs.2.25 crore
- (e) Rs.2.5 crore

Answer (c) Rs.2 crore

224. The Government of India signed a \$200 million (about Rs 1,700 crore) loan with _____ to improve solid waste management and sanitation in 100 cities across eight states in the country. (July 2024)

- (a) World Bank
- (b) Asian Infrastructure Investment Bank (AIIB)
- (c) International Monetary Fund (IMF)
- (d) Asian Development Bank (ADB)
- (e) European Investment Bank (EIB)

Answer (d) Asian Development Bank (ADB)

225. The headquarters of the Financial Action Task Force (FATF) is located in which of the following cities?

- (a) Washington D.C., USA
- (b) Geneva, Switzerland
- (c) Paris, France
- (d) London, United Kingdom
- (e) Brussels, Belgium

Answer (c) Paris, France

226. What was the theme for India's first National Space Day, celebrated on August 23, 2024, to mark the successful landing of the Vikram Lander from Chandrayaan-3?

- (a) Exploring the Lunar Surface: A Journey to the Moon and Beyond
- (b) India's Moon Mission: Celebrating New Frontiers in Space Exploration
- (c) Touching Lives while Touching the Moon: India's Space Saga
- (d) Space for National Progress: Advancing Technology and Innovation
- (e) India's Leap in Space Exploration: From Earth to the Moon

Answer (c) Touching Lives while Touching the Moon: India's Space Saga

227. As per the recent announcement by the Reserve Bank of India (RBI), what is the updated per transaction limit for UPI Lite? (October 2024)

- (a) Rs.500
- (b) Rs.1,000
- (c) Rs.2,000
- (d) Rs.5,000
- (e) Rs.10,000

Answer (b) Rs.1,000

228. According to the latest Global Competitiveness Ranking by IMD, which of the following countries is not ranked in the top 5 most competitive economies in the world in 2024?

- (a) Singapore
- (b) Switzerland
- (c) Denmark
- (d) Ireland
- (e) China

Answer (e) China

229. Tata Power Solar Systems Ltd (TPSSL) has signed an agreement with which bank to provide financing for solar units to residential and corporate customers? (August 2024)

- (a) HDFC Bank
- (b) Axis Bank
- (c) ICICI Bank
- (d) State Bank of India
- (e) Kotak Mahindra Bank

Answer (c) ICICI Bank

230. The Ayushman Bharat Health Account (ABHA) is an integral part of the Ayushman Bharat Digital Mission (ABDM) that allows individuals to link and manage their health records digitally. How many digits are present in the unique ABHA number assigned to individuals under this initiative?

- (a) 10
- (b) 12
- (c) 14
- (d) 16
- (e) 18

Answer (c) 14

231. Maramadi, also known as Kalappoottu or Pothottam, is a traditional bull race conducted in which Indian state after the harvest season?

- (a) Tamil Nadu
- (b) Karnataka
- (c) Kerala
- (d) Andhra Pradesh
- (e) Maharashtra

Answer (c) Kerala

232. The Animal Welfare Board of India (AWBI) is headquartered in which state?

- (a) Uttar Pradesh
- (b) Maharashtra
- (c) Tamil Nadu
- (d) Haryana
- (e) Karnataka

Answer (d) Haryana

233. The 'Karthumbi' umbrella, highlighted by Prime Minister Narendra Modi in his 'Mann Ki Baat' program, is made by tribal women from which Indian state?

- (a) Tamil Nadu
- (b) Karnataka
- (c) Kerala
- (d) Andhra Pradesh
- (e) Odisha

Answer (c) Kerala

234. Which Public Sector Undertaking (PSU) has signed a Memorandum of Understanding (MoU) with US-based Petron Scientech to explore a joint venture for setting up a bio-ethylene plant in India? (August 2024)

- (a) ONGC
- (b) Indian Oil Corporation
- (c) GAIL
- (d) NTPC
- (e) Bharat Petroleum Corporation Limited

Answer (c) GAIL

235. Which of the following Indian sportspersons is correctly matched with their respective sport for the Paris Olympic Games?

- (a) Praveen Chitravel – Weightlifting
- (b) Manika Batra – Archery
- (c) Bhavani Devi – Badminton
- (d) Jeswin Aldrin – Boxing
- (e) Aman Sehrawat – Wrestling

Answer (e) Aman Sehrawat – Wrestling

236. What is the name of the dedicated mobile app offered by the Central Pension Accounting Office (CPAO) to simplify access to services for pensioners?

- (a) Pension Sathi
- (b) CPAO Connect
- (c) Dirghayu
- (d) Vriddh Ashray
- (e) Pension Samriddhi

Answer (c) Dirghayu

237. The BioE3 Policy, recently approved by the Union Cabinet, focuses on fostering high- performance biomanufacturing. Which of the following does not align with the core themes of the BioE3 Policy?

- (a) Economy
- (b) Environment
- (c) Employment
- (d) Energy
- (e) None of the above

Answer (d) Energy

238. Under which of the following Acts does the Reserve Bank of India (RBI) derive its authority to regulate the financial market in India?

- (a) Reserve Bank of India Act, 1934
- (b) Banking Regulation Act, 1949
- (c) Payment and Settlement Systems Act, 2007
- (d) Securities Contract (Regulation) Act, 1956
- (e) Companies Act, 2013

Answer (a) Reserve Bank of India Act, 1934

239. Prime Minister Narendra Modi recently presented four BHISHM Cubes to the Government of Ukraine. What is the capacity of each BHISHM Cube in terms of handling cases in emergency situations?

- (a) Around 50 cases
- (b) Around 100 cases
- (c) Around 200 cases
- (d) Around 300 cases
- (e) Around 400 cases

Answer (c) Around 200 cases

240. What is the maximum income limit within a financial year for salaried resident individuals to be eligible to file the ITR 1 form for income tax returns in India?

- (a) Rs 25 lakh
- (b) Rs 50 lakh
- (c) Rs 75 lakh
- (d) Rs 1 crore
- (e) Rs 1.5 crore

Answer (b) Rs 50 lakh

241. According to the revised guidelines by the RBI, deposit-taking housing finance companies (HFCs) are required to maintain liquid assets to the extent of what percentage of public deposits on an ongoing basis by January 1, 2025?

- (a) 10%
- (b) 12%
- (c) 13%
- (d) 14%
- (e) 15%

Answer (d) 14%

242. Among the Indian states, which one has the highest total area covered by wetlands, contributing significantly to biodiversity and ecosystem services?

- (a) West Bengal
- (b) Gujarat
- (c) Assam
- (d) Uttar Pradesh
- (e) Madhya Pradesh

Answer (b) Gujarat

243. Which of the following countries is not among the top 5 zinc-producing countries in the world as of 2023?

- (a) China
- (b) Peru
- (c) Australia
- (d) India
- (e) Russia

Answer (e) Russia

244. What is the new upper transaction limit for tax payments using the Unified Payments Interface (UPI) as per the National Payments Corporation of India's recent update?

- (a) Rs.1 lakh
- (b) Rs.2 lakh
- (c) Rs.3 lakh
- (d) Rs.4 lakh
- (e) Rs.5 lakh

Answer (e) Rs.5 lakh

245. Where was the second-largest diamond ever discovered, a rough 2,492-carat stone, recently unearthed?

- (a) South Africa
- (b) Namibia
- (c) Botswana
- (d) Angola
- (e) Sierra Leone

Answer (c) Botswana

246. According to a study by the Reserve Bank of India (RBI), what is the expected percentage increase in total private sector investment in the current financial year compared to the previous financial year? (August 2024)

- (a) 34%
- (b) 45%
- (c) 54%
- (d) 65%
- (e) 70%

Answer (c) 54%

247. How many core promoter banks initially formed the consortium to establish the National Payments Corporation of India (NPCI)?

- (a) 8
- (b) 10
- (c) 12
- (d) 15
- (e) 20

Answer (b) 10

- 248.** What is the maximum annual turnover limit for Micro Enterprises as per the classification guidelines for manufacturing and service enterprises?
- (a) Rs. 1 crore
 - (b) Rs. 2 crore
 - (c) Rs. 3 crore
 - (d) Rs. 5 crore
 - (e) Rs. 10 crore
- Answer (d) Rs. 5 crore**
- 249.** The National Strategy for Financial Education (NSFE) for the period 2020-2025 has been prepared by the National Centre for Financial Education (NCFE) in consultation with which of the following financial sector regulators?
- (a) Reserve Bank of India (RBI)
 - (b) Securities and Exchange Board of India (SEBI)
 - (c) Insurance Regulatory and Development Authority of India (IRDAI)
 - (d) Pension Fund Regulatory and Development Authority (PFRDA)
 - (e) All of the above
- Answer (e) All of the above**
- 250.** In the 4th edition of the Ranking of States on Support to Startup Ecosystems, which state was recognized as the "Best Performer" in Category B (States and UTs with population < 1 crore)?
- (a) Arunachal Pradesh
 - (b) Himachal Pradesh
 - (c) Meghalaya
 - (d) Nagaland
 - (e) Goa
- Answer (b) Himachal Pradesh**
- 251.** The maximum loan amount eligible for credit guarantee cover has been increased from INR 1.5 lakhs to INR 7.5 lakhs under the revamped Model Skill Loan Scheme. Under the revamped Model Skill Loan Scheme, what percentage of the loan amount is backed by a guarantee against default?
- (a) 50%
 - (b) 60%
 - (c) 75%
 - (d) 85%
 - (e) 90%
- Answer (c) 75%**
- 252.** Which institute's scientists developed a new computational model for detecting cervical dysplasia with an average accuracy of 98.02%? (July 2024)
- (a) Indian Institute of Science (IISc)
 - (b) Tata Institute of Fundamental Research (TIFR)
 - (c) Institute of Advanced Study in Science and Technology (IASST)
 - (d) Indian Council of Medical Research (ICMR)
 - (e) National Institute of Biomedical Imaging and Bioengineering
- Answer (c) Institute of Advanced Study in Science and Technology (IASST)**
- 253.** What is the allocation for the Nirbhaya Fund in the financial year 2024-25 as announced in the Union Budget?
- (a) Rs 100 crore
 - (b) Rs 150 crore
 - (c) Rs 200 crore
 - (d) Rs 250 crore
 - (e) Rs 300 crore
- Answer (c) Rs 200 crore**

- 254.** In the Senior Citizen Savings Scheme (SCSS), what is the age limit for the second applicant in a joint account?
- (a) Above 50 years
 - (b) Above 55 years
 - (c) Above 60 years
 - (d) No age limit
 - (e) Above 65 years
- Answer (d) No age limit**
- 255.** What is the revised NPS (National Pension System) contribution limit for employers in the private sector as a percentage of an employee's basic salary?
- (a) 8%
 - (b) 10%
 - (c) 12%
 - (d) 14%
 - (e) 15%
- Answer (d) 14%**
- 256.** Which organization is responsible for issuing the Certificate of Coverage (COC) to migrant Indian workers for social security schemes in SSA (Social Security Agreement) countries?
- (a) Ministry of Labour and Employment
 - (b) Employees' Provident Fund Organisation (EPFO)
 - (c) National Skill Development Corporation (NSDC)
 - (d) Ministry of External Affairs
 - (e) Labour Welfare Board Top of Form
- Answer (b) Employees' Provident Fund Organisation (EPFO)**
- 257.** Under how many categories were the National Awards for e-Governance (NAeG) 2024 conferred?
- (a) Three
 - (b) Four
 - (c) Five
 - (d) Six
 - (e) Seven
- Answer (c) Five**
- 258.** In August 2024, India successfully named three underwater geographical structures in the Indian Ocean: the Ashoka seamount, the Chandragupt ridge, and the ____.
- (a) Sagar Kanya seamount
 - (b) Raman ridge
 - (c) Panikkar ridge
 - (d) Kalpataru ridge
 - (e) Maurya ridge
- Answer (d) Kalpataru ridge**
- 259.** What are the sources of revenue for the Consolidated Fund of India? 1. Revenue from direct taxes (e.g., income tax and corporate tax) 2. Revenue from indirect taxes (e.g., GST) 3. Dividends and profits from Public Sector Undertakings (PSUs) 4. Earnings from government services 5. Receipts from disinvestment, debt repayments, and loan recoveries
- (a) 1, 2, and 3 only
 - (b) 2, 3, and 4 only
 - (c) 1, 3, 4, and 5 only
 - (d) 1, 2, 3 and 4 only
 - (e) All of the above
- Answer (e) All of the above**

260. Who won the Golden Lotus (Swarna Kamal) award for Best Direction for a Hindi film at the 70th National Film Awards for the year 2022?

- (a) Vivek Agnihotri
- (b) Sooraj R. Barjatya
- (c) R. Madhavan
- (d) Sanjay Leela Bhansali
- (e) Prashanth Neel

Answer (b) Sooraj R. Barjatya

261. SEBI has directed BSE to pay a differential regulatory fee for past dues with interest, due to a change in fee calculation from premium turnover to notional value of annual turnover. At what interest rate must BSE pay on any unpaid, delayed, or short-paid amounts for these past dues?

- (a) 10% per annum
- (b) 12% per annum
- (c) 15% per annum
- (d) 18% per annum
- (e) 20% per annum

Answer (c) 15% per annum

262. Which of the following is not a term related to mutual funds?

- (a) Net Asset Value (NAV)
- (b) Systematic Investment Plan (SIP)
- (c) Expense Ratio
- (d) Moratorium Period
- (e) Asset Under Management (AUM)

Answer (d) Moratorium Period

263. Under the Differential Rate of Interest (DRI) Scheme, banks provide finance up to _____ at a concessional interest rate of 4% per annum for eligible weaker sections.

- (a) Rs.10,000
- (b) Rs.12,000
- (c) Rs.15,000
- (d) Rs.18,000
- (e) Rs.20,000

Answer (c) Rs.15,000

264. Under the Self Employment Scheme for Rehabilitation of Manual Scavengers (SRMS), what is the maximum amount of capital subsidy per beneficiary?

- (a) Rs. 3 lakh
- (b) Rs. 3.25 lakh
- (c) Rs. 4 lakh
- (d) Rs. 5 lakh
- (e) Rs. 5.5 lakh

Answer (d) Rs. 5 lakh

265. Agri-Clinics under the Agri Clinic and Agribusiness Centres (ACABC) Scheme provide support in which of the following areas?

- (a) Soil health and plant protection
- (b) Crop insurance and post-harvest technology
- (c) Clinical services for animals and feed management
- (d) Prices of various crops in the market
- (e) All of the above

Answer (e) All of the above

- 266.** Shikhar Dhawan announced his retirement from all forms of cricket in August 2024. What remarkable record did he achieve on his Test debut?
- (a) Highest score in a debut Test inning
 - (b) Most sixes in a debut match
 - (c) Fastest Test century on debut
 - (d) Most fours in a debut match
 - (e) Highest strike rate on debut

Answer (c) Fastest Test century on debut

- 267.** In May 2024, India agreed with which country to work towards an early conclusion of the Local Currency Settlement System Agreement for enabling trade in domestic currencies?
- (a) South Africa
 - (b) Nigeria
 - (c) Brazil
 - (d) Russia
 - (e) Kenya

Answer (b) Nigeria

DIRECTIONS (Q. 268-272)

Read the following passage and answer the given questions. Nuclear power and hydropower are crucial components of global low-carbon electricity generation, collectively supplying three-quarters of the world's low-carbon energy. Over the last 50 years, nuclear power alone has prevented over 60 gigatonnes of CO₂ emissions, equating to nearly two years' worth of global energy-related emissions. Despite this significant contribution, nuclear power is facing a decline in advanced economies, where plants are closing, and new investments are scarce. This comes at a time when the world urgently needs more low-carbon energy sources to meet international climate goals. The decline of nuclear power could have serious implications for both electricity security and the cost of energy. Projections suggest that nuclear power in advanced economies could drop by as much as two-thirds by 2040 if no significant actions are taken. This would hinder efforts to reduce global CO₂ emissions, as outlined in the Paris Agreement and modeled in scenarios like the Sustainable Development Scenario, which calls for rapid cuts in emissions.

- 268.** Which of the following statements can be inferred from the passage? (I) Nuclear power has played a major role in reducing global CO₂ emissions over the past decades. (II) The decline of nuclear power in advanced economies is primarily due to safety concerns. (III) The cost of transitioning to a fully renewable energy system without nuclear power could rise significantly.
- (a) Only (I)
 - (b) Only (II)
 - (c) Both (I) and (III)
 - (d) Only (III)
 - (e) All (I), (II), and (III)

Answer (c) Both (I) and (III)

- 269.** According to the passage, why is the decline of nuclear power a cause for concern?
- (a) It poses a threat to the stability and security of global energy supplies
 - (b) It could result in a rise in CO₂ emissions, putting international climate goals at risk
 - (c) Nuclear power is the only reliable source of low-carbon energy that can support global energy needs
 - (d) The expenses associated with maintaining existing nuclear power plants are excessively high, contributing to the decline
 - (e) The development and implementation of advanced nuclear technologies are not yet practical

Answer (b) It could result in a rise in CO₂ emissions, putting international climate goals at risk

270. Which of the following actions is NOT suggested by the report to maintain nuclear power as part of the global energy mix?

- (a) Promoting the safe operation and management of existing nuclear power plants
- (b) Allocating resources towards the development of advanced nuclear technologies
- (c) Giving priority to renewable energy sources over nuclear power in energy strategies
- (d) Supporting the construction of new nuclear power facilities
- (e) Making sure that nuclear power continues to play a role in the global low-carbon energy strategy

Answer (c) Giving priority to renewable energy sources over nuclear power in energy strategies

271. Which of the following can be inferred as a consequence of removing nuclear power from the global energy mix?

- (a) Solar and wind power would completely take over as dependable sources of energy, replacing nuclear power
- (b) Advanced economies would cease their investments in renewable energy technologies
- (c) The world would require much larger investments in renewable energy sources and improvements in energy efficiency
- (d) CO2 emissions would significantly rise, leaving no feasible alternatives for reducing emissions
- (e) Achieving the objectives of the Paris Agreement would become easier

Answer (c) The world would require much larger investments in renewable energy sources and improvements

272. Which of the following is an incorrect interpretation of the phrase "which calls for rapid cuts in emissions" as used in the passage?

- (a) The Sustainable Development Scenario demands immediate and significant reductions in CO2 emissions
- (b) Meeting the goals of the Paris Agreement requires accelerated efforts in cutting CO2 emissions
- (c) The scenario emphasizes swift actions for CO2 reduction to achieve climate goals
- (d) The passage implies that nuclear power helps meet the rapid emission reduction requirements
- (e) The phrase indicates that slow progress in emission reductions is acceptable

Answer (e) The phrase indicates that slow progress in emission reductions is acceptable

DIRECTIONS (Q. 273-274)

In the questions below, a sentence is divided into several parts. Select the most appropriate sequence to rearrange the parts into a grammatically correct and contextually coherent sentence.

273. (A) of climate change and preserving

- (b) is essential for mitigating the adverse effects
- (c) and responsible resource management
- (d) including renewable energy usage, waste reduction
- (e) biodiversity for future generations (F) adopting sustainable practices across industries
- (a) FDCBAE

Answer (a) FDCBAE

274. (A) and infrastructure strain, requiring

- (b) livable environments for future populations
- (c) such as housing shortages, pollution
- (d) as urbanization continues to reshape
- (e) innovative planning to ensure sustainable, (F) the global landscape, cities face growing challenges
- (a) DFCAEB

Answer (a) DFCAEB

DIRECTIONS (Q. 275-281)

In the following questions, a sentence is divided into several parts. One of the parts is grammatically correct, while the others contain errors. Identify the incorrect part(s) from the sentence. If all parts are correct, select "no error" as the answer.

275. To understand personal finance, (A)/ including budgeting and investing,/ empower individuals to make (B)/ informed decisions and (C) /achieve long-term financial security. (D)

- (a) A
- (b) A-B
- (c) C-D
- (d) D
- (e) No error

Answer (b) A-B

276. Not only the team achieved (A)/ remarkable success in the project, / but never before they had encountered (B) / such challenges that tested their (C)/ skills and determination to this extent. (D)

- (a) A-D
- (b) A-B
- (c) C-D
- (d) D
- (e) No error

Answer (b) A-B

277. The rapidly growth in urban populations (A) / have led to increased demand (B) / for housing, infrastructure, and (C) / public services in many (D) / developing countries.

- (a) A-B
- (b) B-C
- (c) C-D
- (d) D
- (e) No error

Answer (a) A-B

278. If we would have known (A) / about the new policy changes, (B) / we had prepared (C) / more effectively/ for the upcoming challenges. (D)

- (a) A-B
- (b) B-C
- (c) A-C
- (d) D
- (e) No error

Answer (c) A-C

279. Neither the employees nor (A) / the manager were aware (B) / of the technical issue that (C) / cause the system to (D) / shut down unexpectedly.

- (a) A-B
- (b) B-C
- (c) A-D
- (d) B-D
- (e) No error

Answer (d) B-D

280. Every year, (A) / thousands of students applies (B) / for admission to prestigious (C) / universities around the world, (D) / hoping to secure a place in top programs.
- (a) A-B
 - (b) B-C
 - (c) A-D
 - (d) B
 - (e) No error

Answer (b) B-C

281. Each of the participants / were asked to provide (A) / feedback on the event, (B) / including their suggestions for improvement (C) / and their overall satisfaction with the experience. (D)
- (a) A-B
 - (b) B-C
 - (c) A
 - (d) D-E
 - (e) No error

Answer (c) A

DIRECTIONS (Q. 282-287)

Read the following passage and answer the given questions. Solar power is steadily reshaping the energy landscape, not just through its promise of sustainability, but by overcoming some of the long-standing technical barriers that once held it back. One of the most significant advancements in recent years lies in the rise of perovskite solar cells. Unlike conventional silicon-based panels, these cells are more affordable to produce and remarkably versatile, offering a faster route to mass adoption of solar energy. The reduced production costs promise to democratize clean energy access, potentially making solar a primary power source for both individuals and industries. 15 | Test Prime Efficiency, a crucial measure of solar technology's viability, has also seen dramatic improvements. Photovoltaic (PV) panels, now surpassing 20% efficiency in standard conditions, can convert more sunlight into electricity than ever before. Cutting-edge research into tandem solar cells is even pushing efficiency above 25%, challenging old assumptions about solar's limitations. In addition to these technical leaps, solar power offers unparalleled environmental benefits. Unlike fossil

282. According to the passage, which of the following statements best reflects how perovskite solar cells are different from conventional silicon-based solar panels?
- (a) Perovskite solar cells are more efficient and environmentally friendly compared to silicon-based solar panels
 - (b) Silicon-based solar panels are more reliable but less affordable compared to perovskite solar cells
 - (c) Unlike silicon-based panels, perovskite cells are easier to integrate into national power grids, enhancing energy distribution
 - (d) Perovskite solar cells are more cost-effective and versatile, offering a more accessible route to widespread solar energy adoption
 - (e) The development of perovskite cells marks the first time solar panels have surpassed 25% efficiency

Answer (d) Perovskite solar cells are more cost-effective and versatile, offering a more accessible r

283. Which of the following assumptions about the future of solar energy is most likely to be weakened if the technological advancements discussed in the passage fail to materialize? (I) Solar energy will become the primary energy source for both individuals and industries. (II) Global reliance on fossil fuels will decrease as solar technology becomes more affordable and efficient. (III) Climate change goals will be met if solar power continues to evolve as expected.
- (a) Only (I)
 - (b) Both (I) and (II)
 - (c) Only (III)
 - (d) Both (II) and (III)
 - (e) All (I), (II), and (III)

Answer (e) All (I), (II), and (III) 16

284. What is the tone of the passage?

- (a) Pessimistic
- (b) Critical
- (c) Optimistic
- (d) Neutral
- (e) Skeptical

Answer (c) Optimistic

285. Which of the following best reflects the significance of "grid integration" in the context of solar power as discussed in the passage?

- (a) Grid integration enhances the efficiency of solar cells by improving energy distribution across regions
- (b) It allows solar energy to be more reliably used in tandem with fossil fuel-based energy systems
- (c) Grid integration enables solar power to seamlessly meet both small-scale and large-scale energy needs, making it a more stable power source
- (d) Grid integration reduces the environmental impact of solar power by ensuring optimal energy use and storage
- (e) It ensures that solar energy can be harnessed even in regions with lower sunlight exposure

Answer (c) Grid integration enables solar power to seamlessly meet both small-scale and large-scale
e

286. Identify the incorrect statements based on the passage. (I) The environmental benefits of solar energy include zero emissions during production and installation. (II) Solar power's grid integration has reduced the need for advancements in battery storage systems. (III) Perovskite solar cells have achieved higher efficiency levels than traditional photovoltaic panels.

- (a) Only (I)
- (b) Both (I) and (III)
- (c) Only (II)
- (d) Only (III)
- (e) All (I) (II) (III)

Answer (e) All (I) (II) (III)

287. Which of the following is an implied benefit of tandem solar cells in the passage?

- (a) Tandem solar cells are easier to manufacture than conventional photovoltaic panels
- (b) Tandem solar cells increase solar energy's reliability by storing excess energy during peak hours
- (c) Tandem solar cells help overcome the physical limitations previously associated with traditional solar technology
- (d) Tandem solar cells reduce solar power's environmental footprint, making them more sustainable
- (e) Tandem solar cells are less expensive than silicon-based and perovskite solar cells

Answer (c) Tandem solar cells help overcome the physical limitations previously associated with tradi

288. Read the information and answer the given question. John has consistently demonstrated a lack of punctuality, often arriving late to meetings and missing important deadlines, which has caused disruptions in the workflow of the team. Despite numerous reminders and opportunities to improve his time management skills, he continues to struggle with completing tasks on schedule, putting added pressure on his colleagues. Additionally, John has developed a reputation for being arrogant, dismissing constructive feedback from both peers and supervisors, and often undermining the efforts of others with an overconfident attitude. His reluctance to acknowledge these issues has created tension in the workplace, making it difficult for the team to collaborate effectively. 17 | Test Prime Based on the paragraph, what can be inferred about John's work behavior?

- (a) John frequently meets deadlines but struggles with maintaining a positive relationship with his team
- (b) John's arrogance stems from the heavy workload he faces and the constant criticism he receives regarding his personal qualities
- (c) John acknowledges that he lacks necessary skills for the project and thus withdraws from it

- (d) John is not dependable for urgent projects due to his tardiness and arrogance
- (e) John is known for always providing constructive feedback to his peers

Answer (d) John is not dependable for urgent projects due to his tardiness and arrogance

289. Read the following passage and answer the given question. Lily is a high school student who excels academically, consistently earning top grades in all her subjects. However, she often feels anxious about exams, believing that anything less than perfect marks is a failure. As a result, Lily spends long hours studying, often skipping social events and recreational activities. While her friends enjoy their weekends, Lily can usually be found at home reviewing her notes. Despite her academic success, she feels isolated and overwhelmed by the pressure to maintain her perfect record. Based on the paragraph, what can be inferred about Lily's academic habits and social life?

- (a) Lily believes that only perfect grades will help her make friends and maintain a good social life
- (b) Lily prefers studying over socializing, often choosing to stay home and review her notes while her friends go out
- (c) Lily's friends often avoid inviting her to social events because she is always too busy with her studies
- (d) Lily does not feel pressured by her academic performance and manages to enjoy her weekends with friends
- (e) Lily balances her academic success with a busy and enjoyable social life

Answer (b) Lily prefers studying over socializing, often choosing to stay home and review her notes w

DIRECTIONS (Q. 290-295)

Read the following passage and answer the given questions. Recent advancements in medical research have significantly improved the development of new treatments for various diseases. A primary focus has been the evolution of personalized medicine, an approach that tailors medical treatment to the individual characteristics of each patient. Researchers have been exploring how genetic, environmental, and lifestyle factors influence the effectiveness of drugs. One prominent example is the use of targeted therapies in cancer treatment. Instead of using a one-size-fits-all approach, targeted therapies focus on specific molecular targets associated with cancer growth. Drugs like imatinib, used to treat chronic myeloid leukemia (CML), block certain proteins that promote the growth of cancer cells without harming normal cells. This precise targeting leads to fewer side effects and improved treatment outcomes. Another area of research revolves around mRNA vaccines, a groundbreaking innovation in the field of immunology. Though mRNA vaccine technology has been studied for decades, it gained widespread attention during the COVID-19 pandemic. Researchers successfully developed vaccines like Pf

290. Based on the passage, which of the following assumptions can be made about mRNA vaccines? (I) mRNA vaccine technology has applications beyond COVID-19 treatment. (II) mRNA vaccines can be developed more quickly than traditional vaccines. (III) mRNA vaccines have proven to be more effective than all other vaccine types.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (I) and (III)
- (e) All (I), (II), and (III)

Answer (b) Both (I) and (II)

291. Identify the correct statement based on the passage.

- (a) Imatinib is used to treat various forms of cancer by targeting cancer cells indiscriminately
- (b) Traditional vaccines are faster to develop than mRNA vaccines, which require growing live viruses
- (c) Personalized medicine primarily focuses on environmental factors while ignoring genetic influences
- (d) mRNA vaccines instruct cells to produce proteins that trigger an immune response
- (e) Targeted therapies cause significant harm to normal cells during cancer treatment

Answer (d) mRNA vaccines instruct cells to produce proteins that trigger an immune response

292. What is the tone of the passage?

- (a) Doubtful
- (b) Hopeful
- (c) Analytical
- (d) Alarmist
- (e) Pessimistic

Answer (b) Hopeful

293. Based on the passage, what is the most likely reason for the growing interest in mRNA vaccine technology beyond COVID-19?

- (a) mRNA vaccines have proven to be more cost-effective than all other types of vaccines
- (b) mRNA technology offers a platform that can be adapted to develop treatments for various diseases quickly
- (c) The use of mRNA vaccines has eradicated the need for traditional vaccine development
- (d) mRNA vaccines offer permanent immunity to diseases, unlike other vaccines
- (e) Research into mRNA vaccines focuses solely on treating infectious diseases like influenza and HIV

Answer (b) mRNA technology offers a platform that can be adapted to develop treatments for various diseases

294. Which of the following can be inferred about the potential future challenges of personalized medicine based on the passage?

- (a) Personalized medicine may become too expensive for widespread adoption due to its individualized approach
- (b) Personalized medicine is likely to cause more side effects because of its focus on targeting specific molecular profiles
- (c) The success of personalized medicine will depend heavily on integrating genetic research into medical treatments
- (d) Personalized medicine will soon replace all forms of traditional medicine, making standardized treatments obsolete
- (e) Personalized medicine is effective only in treating cancer and has limited applications in other fields of healthcare

Answer (c) The success of personalized medicine will depend heavily on integrating genetic research into medical treatments

295. Which of the following statements can be inferred from the passage regarding advancements in medical research? (I) Targeted therapies have reduced the harmful side effects associated with traditional cancer treatments. (II) mRNA vaccine technology is gaining interest for its potential to treat diseases beyond infectious ones. (III) Personalized medicine focuses exclusively on genetic factors when developing individualized treatments.

- (a) Only (I)
- (b) Both (I) and (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

Answer (b) Both (I) and (II)

DIRECTIONS (Q. 296-301)

In the following questions, a paragraph is provided with a few highlighted words. Select the most appropriate option that can replace the highlighted word to ensure the paragraph is both grammatically and contextually accurate. A recent psychological study on decision-making under uncertainty has endured (A) on the cognitive biases that influence human choices. The researchers focused on the prospect theory, which suggests that individuals are more likely to avoid losses than to pursue equivalent (B) gains, even when the risks are identical. Participants were asked to make decisions involving hypothetical financial backdrop(C), and the results confirmed a pronounced loss tactic (D) across various demographics. The study also revealed that framing effects, or how a problem is presented, significantly endorsed (E) participants' risk tolerance. This research has broad implications for fields like fictitious (F) economics, marketing, and public policy, as understanding these biases can improve strategies for influencing consumer behavior and decision-making processes.

296. Which of the following is most suitable to replace (A)?

- (a) emphasis
- (b) proposed
- (c) shed light
- (d) underscored
- (e) No replacement required

Answer (c) shed light

297. Which of the following is most suitable to replace (B)?

- (a) fabricated
- (b) economic
- (c) sustenance
- (d) No replacement required
- (e) commercial

Answer (d) No replacement required

298. Which of the following is most suitable to replace (C)?

- (a) No replacement required
- (b) scenarios
- (c) situation
- (d) predicament
- (e) context

Answer (b) scenarios

299. Which of the following is most suitable to replace (D)?

- (a) embrace
- (b) No replacement required
- (c) seizure
- (d) aversion
- (e) espousal

Answer (d) aversion

300. Which of the following is most suitable to replace (E)?

- (a) No replacement required
- (b) process
- (c) coagulated
- (d) replaced
- (e) altered

Answer (e) altered

301. Which of the following is most suitable to replace (F)?

- (a) organizational
- (b) behavioral
- (c) No replacement required
- (d) cohort
- (e) realistic

Answer (b) behavioral

DIRECTIONS (Q. 302-303)

In the following question, a sentence is presented with a blank. Select the most appropriate word to fill in the blank, ensuring that the sentence is both grammatically correct and contextually appropriate.

302. The workers showed great _____ during the strike to demand better conditions.

- (a) solitude
- (b) apathy
- (c) hostility
- (d) solidarity
- (e) detachment

Answer (d) solidarity

303. The artist found inspiration for his new sculpture in his nightly _____.

- (a) routine
- (b) muse
- (c) monotony
- (d) impulse
- (e) hesitation

Answer (b) muse

304. As the project deadline approached, the team needed to pull together (i) their resources to ensure success. They began to carry on (ii) the final details, making sure nothing was overlooked. Everyone felt the pressure, but they were determined to go over (iii) despite the challenges. By the end of the day, they managed to wrap up (iv) their tasks, feeling accomplished and ready for the presentation.

- (a) i-ii
- (b) i-iv
- (c) ii-iv
- (d) ii-iii
- (e) No interchange required

Answer (d) ii-iii

DIRECTIONS (Q. 305-309)

Read the given information carefully and answer the questions based on it: Nine persons of a three-generation family are of different age (years). The persons are A, D, N, M, H, S, T, W and K but not related in the same order as given. W is son-in-law of S who is parent of K's spouse. K's mother-in-law has only one daughter. A is spouse of S and paternal grandparent of N. K's child is niece of T who has two children but D is not child of W. Number of males is one more than number of females. D and A are not of same gender. To find the age of all persons, follow the instructions below: Age of the youngest member is equal to the total number of persons in the family. Age of D's spouse is three times the age of youngest member. T's father age is twice of K's age. Ratio between the age of T's niece and D's father is 2:9 respectively. Difference between the age of both the cousin of N is 6 years. W's age is equal to the total age of A's grandchildren. Difference between the age of A's son-in-law and M's mother is 1. Ratio between the age of K's mother-in-law and S's daughter is 9:5 respectively. D's age is one more than the twice of M's age but D is not youngest in his generation.

305. What is the total age of all the persons of 2nd generations?

- (a) 102 years
- (b) 119 years
- (c) 117 years
- (d) 129 years
- (e) None of the above

Answer (d) 129 years

306. Which of the following statement is/are correct?

- I. oldest person's age is an odd number
- II. M is nephew of D
- III. T is older to K

- (a) Only III
- (b) Only I
- (c) Both II and III
- (d) Both I and II
- (e) All I, II and III

Answer (e) All I, II and III

307. Four of the following five are similar based on their age, who among the following is dissimilar to others?

- (a) S's son
- (b) W's father-in-law
- (c) H's grandmother
- (d) T's husband
- (e) M's sibling

Answer (a) S's son

308. Who among the following is 5th oldest in the family?

- (a) K's sister-in-law
- (b) D's wife
- (c) W's brother-in-law
- (d) H's mother
- (e) T's niece

Answer (c) W's brother-in-law

309. What is the relation of the one who is 31 years old to the one who is 12 years old?

- (a) Sister
- (b) Father
- (c) Nephew
- (d) Niece
- (e) None of the above

Answer (b) Father

DIRECTIONS (Q. 310-314)

Study the following information carefully and answer the questions given below. Fourteen persons B, C, D, E, F, G, H, I, J, K, L, M, N and O sit around two tables—one circular (referred to as a rope-shaped table) inscribed within a square-shaped table. Four persons sit at the corners of the square table, while four sit in the middle of the sides. The persons who sit at corners face inside and the persons who sit on the middle of the sides of table face outside. Six persons sit at the circular rope-shaped table at a distance of multiples of 3 between them consecutively such as 3m, 6m, 9m and so on. The persons who sit on the circular rope shaped table face inside. F sits 9m to the left of J in a circular shaped table. There is distance of 27m between J and G when counting from one of the sides from J. O sits third to the right of I. Two persons sit between O and N. L sits immediately to the right of C. N doesn't sit on the middle of the sides of the table. G is an immediate neighbour M. There is a distance of 42m between G and B. There is a distance of more than 12m between B and R when counting from both sides of B. There is a distance of more than 15m between R and G when counting

310. What is the position of D with respect of C?

- (a) Fifth to the left
- (b) Fifth to the right
- (c) Sixth to the right
- (d) Sixth to the left
- (e) Second to the right

Answer (c) Sixth to the right

311. If E and R interchanged their places then who sits 45m away from E when counting from one of the sides from E?

- (a) B
- (b) F
- (c) H
- (d) R
- (e) M

Answer (b) F

312. Which of the following pairs of persons are immediate neighbors?

- (a) E and O
- (b) R and G
- (c) F and J
- (d) B and M
- (e) J and B

Answer (e) J and B

313. Four of the following five form a group based on their seating arrangement. Which one does not belong to this group?

- (a) B
- (b) O
- (c) I
- (d) N
- (e) C

Answer (a) B

314. Which of the following statements is true?

- I. F sits at a distance of 9m from M when counting right of M.
- II. L sits at one of the corners of the square-shaped table.
- III. Four persons sit between H and C when counting from left of C.

- (a) Only I
- (b) Both I and II
- (c) Both II and III
- (d) Only III
- (e) Only II

DIRECTIONS (Q. 315-319)

In each question, rows containing different elements are provided. To find out the resultant of a particular row, follow the given conditions: Condition 1: If an even number is followed by an odd number, then the resultant must be the difference between the number. Condition 2: If an odd number is followed by another odd prime number, then the sum of the resultants is added by 4. Condition 3: If an odd number is followed by an even number, then the resultant must be the sum of both numbers. 24 | Test Prime Condition 4: If an even number is followed by an even number, then the resultant must be the difference between the number added by 2. Condition 5: If an odd number is followed by another odd number (not prime), then the resultant must be product of both the number subtracted by 6. Now, answer the following questions based on the above conditions:

315. What is the sum of the resultants of both rows? 25 17 36 54 22 77

- (a) 70
- (b) 55
- (c) 67
- (d) 53
- (e) None of these

Answer (b) 55

316. What is the square of the difference between the resultants of both rows? 45 34 92 13 9 78

- (a) 324
- (b) 441
- (c) 579
- (d) 676
- (e) None of these

Answer (a) 324

317. What will be the value of Y if the sum of resultant of both the rows is equal to 105? 31 46 13 63 17
Y

- (a) 89
- (b) 76
- (c) 32
- (d) 88
- (e) 95

Answer (e) 95

318. What will be the value of X and Z respectively if the difference between the resultants of both the rows is equal to 10? 12 37 X Z 9 6

- (a) 15, 18
- (b) 14, 7
- (c) 12, 3
- (d) 22, 9
- (e) None of these

Answer (c) 12, 3

319. What is the product of the resultants of both rows? 11 9 3 5 19 4

- (a) 2800
- (b) 2600
- (c) 1072
- (d) 2684
- (e) None of these

Answer (b) 2600

320. Statement: In an effort to combat rising air pollution levels, several city governments are implementing policies that encourage the use of electric vehicles (EVs). These measures include offering tax incentives, developing more EV charging infrastructure, and restricting the use of traditional fuel-powered vehicles in certain areas. The goal is to promote cleaner transportation options and reduce the environmental impact caused by emissions from conventional vehicles. Which of the following assumption is in line with the context of the statement?

- (a) Electric vehicles are considered a cleaner alternative to traditional fuel-powered vehicles
- (b) Public awareness about the environmental benefits of electric vehicles is growing
- (c) The high cost of electric vehicles will discourage widespread adoption, even with tax incentives
- (d) The current EV charging infrastructure is insufficient to support a large-scale shift to electric vehicles
- (e) The electricity required to charge electric vehicles will come from renewable energy sources rather than fossil fuels

Answer (a) Electric vehicles are considered a cleaner alternative to traditional fuel-powered vehicle

321. Statement: Empowering women with vocational skills has become a key focus for several organizations, aiming to improve their livelihoods and economic independence. These initiatives are designed to provide women with the tools to start small businesses, increase their employment opportunities, and contribute more actively to their communities' economic growth. Which of the following statement is based on the statement?

- I. Many organizations believe that traditional roles limit women's economic participation.
- II. Women who acquire new skills are likely to have better access to economic opportunities.
- III. Women can enhance their financial prospects through targeted skill development programs.
- IV. Vocational training is the most effective way to boost a country's overall economy.

- (a) Both I and III
- (b) Both I and IV
- (c) Only II
- (d) Both II and III
- (e) Both II and IV

Answer (d) Both II and III

DIRECTIONS (Q. 322-326)

Study the following information carefully and answer the given questions below: There are eight employees A, B, C, D, E, F, G and H working in a company at different designations: CEO, Vice President (VP), Senior Manager (SM), Manager, Assistant Manager (AM), Junior Officer (JO), Clerk and Trainee. Each employee plays a different sport: Football, Cricket, Basketball, Hockey, Tennis, Badminton, Chess and Volleyball. The designations are ranked in order with CEO being the senior-most and Trainee being the junior-most. All the information is not necessarily in the same order. 27 | Test Prime The one who plays Badminton is designated just junior to D. A and G don't play Tennis and Hockey. Three designations are between C and the one who plays Basketball. E is two designations junior to the person who plays basketball. C and E are not designated as the junior-most person and senior person. The number of persons senior to E is two less than the number of persons junior to the person who plays Badminton. More than four persons are designated between D and H who plays Cricket. As many persons senior to the person who plays Cricket as junior to the person who plays Hocke

322. Which among the following games B plays and how many persons are junior to B respectively?

- (a) Seven, Hockey
- (b) Five, Hockey
- (c) Seven, Basketball
- (d) Five, Basketball
- (e) None of these

Answer (d) Five, Basketball

323. Which of the following pairs is correct?

- (a) A – Senior Manager
- (b) G - Clerk
- (c) C - Clerk
- (d) C – Junior Officer
- (e) E – Manager

Answer (c) C - Clerk

324. Which of the following statement is incorrect as per the given information?

- (a) D is the designated as the CEO and plays Basketball
- (b) F is designated junior to E
- (c) The person designated as Manager plays Chess
- (d) Four designations are there between F and G
- (e) All are incorrect

Answer (c) The person designated as Manager plays Chess

325. Which among the following is the designation of the person who plays Volleyball?

- (a) Clerk
- (b) Junior Officer
- (c) Senior Manager
- (d) Vice President
- (e) Assistant Manager

Answer (b) Junior Officer

326. How many designations are there between A and the one who plays Football?

- (a) As many persons designated junior to the person who plays Tennis
- (b) As many persons designated senior to the person who plays Hockey
- (c) As many persons designated between F and C
- (d) Four
- (e) As many persons designated between E and H

Answer (e) As many persons designated between E and H

327. Seven boxes – P, Q, R, S, T, U and V are arranged one above the another, but not necessarily in the same order. There are four boxes between Box Q and Box V. Box V is placed immediately above Box P. There are two boxes placed between Box P and Box U. Box T is placed below Box U. Box R is placed above Box S which is not placed at fourth position from the bottom. Which box is placed four boxes below Box S?

- (a) T
- (b) Q
- (c) P
- (d) V
- (e) None of these

Answer (c) P

328. If in the given word “LONGITUDE” letters that comes after M in English Alphabetical are changed with just preceding and if the letters that comes before M in English Alphabetical Series are changed with its just succeeding letter, then all the alphabets are arranged in reverse alphabetical order from left, then find the sum of place value of the letter which is third from the right end and left end in the new arrangement?

- (a) 27
- (b) 22
- (c) 29
- (d) 23
- (e) 32

Answer (b) 22

- 329.** 6G connectivity is in development, with technologies like Reconfigurable Intelligent Surfaces (RIS) expected to optimize wireless communications and support emerging tech like autonomous vehicles. Which of the following courses of action should be taken to support this advancement?
- I. Encourage investment in RIS infrastructure to improve wireless communication efficiency and enable widespread adoption of 6G technology.
 - II. Increase funding for traditional 5G networks to strengthen the current communications infrastructure instead of focusing on 6G.
 - III. Implement policies to limit the use of autonomous vehicles until current 5G networks are more stable.
- 29 | Test Prime

- (a) Only II
- (b) Only III
- (c) Only I
- (d) Both II and III
- (e) Both I and II

Answer (c) Only I

DIRECTIONS (Q. 330-334)

A word and number arrangement machine, when given an input line of words and numbers, rearranges them following a particular rule in each step. Below is an example of input and its rearrangement: Input: 97 wisdom 64 amplify 38 justice 71 clarity 25 mystery Step I: 52 97 64 amplify 38 justice 71 clarity mystery modsiw Step II: 83 52 97 64 amplify justice 71 clarity modsiw yreysym Step III: 17 83 52 97 64 amplify clarity modsiw yreysym ecitsuj Step IV: 46 17 83 52 97 amplify modsiw yreysym ecitsuj ytiralc Step V: 79 46 17 83 52 64 modsiw yreysym ecitsuj ytiralc yfilpma Based on the above example where Step V is the last step, find the arrangement for the below input and answer the related questions: Input: 45 courage 86 understand 31 venture 32 meticulous 42 explore

- 330.** Find the sum of the numbers which are second from the right end and third from left end in Step IV?
- (a) 63
 - (b) 36
 - (c) 131
 - (d) 77
 - (e) None of these

Answer (b) 36

- 331.** Which element is eighth from the left end in Step III?

- (a) 86
- (b) erutnev
- (c) suolucitem
- (d) courage
- (e) None of these

Answer (b) erutnev

- 332.** In which among the following step “86 42 explore erutnev” is present in same manner?

- (a) Step I
- (b) Step II
- (c) Step IV
- (d) Step III
- (e) Step V

Answer (d) Step III

333. Which of the following element is second to the left of fourth element from right end in the last step?
- (a) 54
 - (b) 23
 - (c) suolucitem
 - (d) erutnev
 - (e) 13

Answer (e) 13

334. What is the difference between the place values of second letter of both second and fifth word from left end in step V?
- (a) 12
 - (b) 11
 - (c) 10
 - (d) 14
 - (e) None of these

Answer (e) None of these

DIRECTIONS (Q. 335-337)

Study the following information carefully and answer the given questions. In certain coding language, the directions are coded as per below conditions. X@Y means – X is North of Y X%Y means – X is South of Y X#Y means – X is East of Y X\$Y means – X is West of Y @ and \$ means the distance between the two points is either 4m or 8m. % and # means the distance between the two points is either 3m or 7m. XY > WZ Means the distance between point X and point Y is greater than that of point W and point Z. Example: A @ B and A \$ B means A is north of B and A is west of B respectively and the distance between A and B is either 4m or 8m and so on. Condition: D#E, F%E, G@I, H#I, G\$F, H@K, L#K, DE > KL, GI < GF, IH = KL

335. What is the direction of point E with respect to Point I?
- (a) North-west
 - (b) South
 - (c) South-west
 - (d) North-east
 - (e) None of these

Answer (d) North-east

336. What is the shortest distance between Point I and Point K?
- (a) 13m
 - (b) 8m
 - (c) 73m
 - (d) 113m
 - (e) Can't be determined

Answer (e) Can't be determined

337. How far (total distance) and in which direction is Point I with respect to Point F?
- (a) 12m, North-east
 - (b) 10m, South-east
 - (c) 12m, South-west
 - (d) 8m, South
 - (e) None of these

Answer (c) 12m, South-west

338. Neural technology in headphones is advancing rapidly, enabling non-invasive brain control for tasks like web browsing and gaming. This innovation could transform how users interact with devices, offering hands-free control through brainwave sensors, enhancing convenience and accessibility. Which of the following arguments is the strongest in support of the claim that neural technology in headphones will revolutionize user interaction with devices?

I. Neural technology in headphones is interesting, but many new technologies don't achieve mass adoption.

II. Neural headphones allow hands-free control, improving convenience and accessibility for all users, especially those with mobility issues. 32 | Test Prime III. While neural headphones are innovative, they might be expensive, limiting their use to a small group.

- (a) Only I
- (b) Only II
- (c) Only III
- (d) Both I and II
- (e) Both II and III

Answer (b) Only II

339. Several global tech companies are investing heavily in the development of biodegradable electronics, aiming to address the growing issue of electronic waste, which poses significant environmental risks. What could be a possible reason for the increased focus on biodegradable electronics?

- (a) There is a lack of demand for conventional technology
- (b) Consumers prefer products that break down quickly
- (c) Traditional electronics no longer meet industry standards
- (d) Companies want to produce cheaper products for a larger profit margin
- (e) Governments are enacting stricter rules on waste disposal, encouraging eco-friendly solutions

Answer (e) Governments are enacting stricter rules on waste disposal, encouraging eco-friendly solutions

340. If we use the following alphabets from the words given in the options below: The first vowel from the left end in the first word, The third consonant from the right end in the second word, The letter immediately after the vowel from the left end in the third word, The first consonant from the left end in the fourth word, The letter immediately before vowel from the right end in the fifth word, then which of the following options can form at least two meaningful words?

- (a) Plate, Sword, Crate, Fresh, Mend
- (b) Brain, Scope, Misty, Drift, Hope
- (c) Stain, Bread, Flash, Crack, Line
- (d) Frost, Blind, Smoke, Patch, Leaf
- (e) None of these

Answer (e) None of these

DIRECTIONS (Q. 341-344)

Study the following information carefully and answer the questions given below: Series 1: 1 & I @ 4 % D 9 ~ G 2 # K * 5 T \$ 7 Q 3 P 6 J H 8 M S ^ Series 2: % T 5 K 7 B # 9 F Ψ G 3 P ! L 1 H * Q 8 S 4 V ^ R & J 6 Series 3: 7 F O # Q 9 B 3 L @ R 1 K \$ A 8 Y Ψ H 4 G M @ N 2 % S STEP I: The alphabets which are immediately succeeded by a symbol will change to its second succeeding letter STEP II: The digits which are immediately preceded and immediately followed by a letter are changed with the letter of its place value according to English Alphabetical order. STEP III: The alphabets which are immediately followed by a number and immediately preceded by a symbol are changed to its opposite letter according to English Alphabetic Series. (Note: STEP II is applied after STEP I, STEP III is applied after STEP II) 33 | Test Prime

341. What is the product of all the even digits which are immediately preceded by letters in step I of Series 3?

- (a) 92
- (b) 64
- (c) 24
- (d) 36
- (e) None of these

Answer (b) 64

342. How many letters are present in Step III of Series 3 which are immediately preceded by a symbol and immediately followed by a letter?

- (a) Five
- (b) Six
- (c) Four
- (d) Three
- (e) Two

Answer (c) Four

343. How many letters are immediately followed and immediately preceded by a symbol in Step II of Series I?

- (a) One
- (b) Two
- (c) Three
- (d) None
- (e) Four

Answer (b) Two

344. What is the sum of second number from the right end in Step III of all the series?

- (a) 15
- (b) 17
- (c) 20
- (d) 16
- (e) 21

Answer (e) 21

345. In the word 'BIODEGRADABLE', if all the consonants are replaced with their 4th succeeding letter and all the vowels are replaced with their next letter according to the alphabetical series, then remove the repeated letters. Now, find the multiplication of the numerical value of the remaining letters?

- (a) 1452
- (b) 1936
- (c) 2420
- (d) 1760
- (e) None of these

Answer (c) 2420

346. To increase productivity, a company plans to implement flexible work hours for its employees, allowing them to choose their start and end times within a set range. Which of the following assumptions is implicit in the given statement?

- I. Flexible work hours will help employees manage their work-life balance better, potentially increasing productivity.
- II. The company assumes that employees will use flexible hours responsibly without compromising work quality.
- III. Flexible work hours are always more effective than traditional fixed schedules in boosting employee productivity.

- (a) Only III
- (b) Only I
- (c) Both II and III
- (d) Both I and II
- (e) All I, II and III

Answer (b) Only I

347. With the rise in cyber threats, a large financial institution plans to increase investment in advanced cybersecurity measures to protect customer data and maintain trust. Which of the following assumptions is implicit in the given statement?

- I. Cyber threats are more concerning for financial institutions than for other industries.
- II. Customers will avoid doing business with the financial institution if they perceive their data as vulnerable.
- III. Advanced cybersecurity measures are essential for protecting sensitive financial data.

- (a) Only I
- (b) Only II
- (c) Both I and III
- (d) Only III
- (e) All I, II and III

Answer (d) Only III

DIRECTIONS (Q. 348-349)

Find the pattern of the series and answer the question given below. Series: X, 168, 172, 145, Y, Z

348. Which of the following statement/s is are correct. (i) X is greater than Y (ii) Z is square of even number (iii) X is less than Z

- (a) All (i), (ii) & (iii)
- (b) Both (ii) & (iii)
- (c) Both (i) & (iii)
- (d) Both (i) & (ii)
- (e) None of the above

Answer (d) Both (i) & (ii)

349. Find the Sum of the Y and Z.

- (a) 182
- (b) 167
- (c) 197
- (d) 198
- (e) 209

Answer (c) 197

350. A man invested Rs 5000 in a scheme which offers simple interest at 12% p.a. for 't' years, and he invested an amount which is equals to the double of the interest received from the first scheme at 15% p.a. for 5 years in another scheme. If the amount received from the second scheme is Rs 6300, then find 't'

- (a) 6
- (b) 1
- (c) 2
- (d) 4
- (e) 3

Answer (e) 3

351. 200-meter-long train A can cross a pole in 8 seconds, and train B can cross a 150-meter-long platform in 25 seconds. The difference between the lengths of trains A and B is 150 meters (length of train B > length of train A). Find the time taken by the train to cross each other while running in the in the opposite direction.

- (a) 135/11 seconds
- (b) 119/12 seconds
- (c) 111/16 seconds
- (d) 120/7 seconds
- (e) 110/9 seconds

Answer (e) 110/9 seconds

DIRECTIONS (Q. 352-353)

Find the pattern of the series and answer the question given below. Series I: 8, 9, 17, 52, $25A+7$, 1036, B

352. Find which of the statement/s is/are correct. (i) $B/113 + A > 67$ (ii) $\sqrt{B} + 26 = 79$ (iii) A is completely divisible by first term of the series I.

- (a) All (i), (ii) & (iii)
- (b) Both (i) & (iii)
- (c) Only (iii)
- (d) Both (i) & (ii)
- (e) None of the above

Answer (a) All (i), (ii) & (iii)

353. $A+5$ is the first term of the series II, which follows the same pattern as series I, then find the fourth term of the series II.

- (a) 27
- (b) 82
- (c) 327
- (d) 1636
- (e) 89

Answer (b) 82

354. P can complete 50% of work in 4 days, and P & R started the work together. After two days, they left, and Q joined the work, and Q completed the remaining work in three days. If the time taken by Q to complete the whole work is four days more than that of P, then in how many days R alone can complete the whole work?

- (a) 4
- (b) 6
- (c) 2
- (d) 7
- (e) 10

Answer (a) 4

355. Profit earned while selling two diamonds is the same as the cost price of four diamonds. If the ratio between the marked price and the selling price of the diamond are 6:5, respectively, then find the ratio of the marked price and the cost price of the diamond. (Note: The cost price, selling price, and marked price of each diamond are uniform.)

- (a) 12:5
- (b) 5:18
- (c) 18:5
- (d) 10:7
- (e) 24:5

Answer (c) 18:5

356. The time taken by a boat to cover D km downstream is 4 hours more than the time taken by the boat to cover D-116 km upstream. The ratio of the speed of the boat in still water to the speed of the current is 9:2, respectively. If the time taken by the boat to cover 176 km downstream in 8 hours, then find the time taken by the boat to cover D-60 km upstream.

- (a) 6.5 hours
- (b) 8 hours
- (c) 7.5 hours
- (d) 8.4 hours
- (e) 9 hours

Answer (c) 7.5 hours

357. Rs X is distributed amongst P, Q, R, S, and T. The total amount received by P and Q together is Rs 500 more than that of R, and the total amount received by R and S together is Rs 1600 more than that of T. If the total amount received by S is Rs 600 more than that of T and the ratio of the total amount received by R and T is 5:3, respectively, then find the value of X.

- (a) 4600
- (b) 4700
- (c) 4500
- (d) 3900
- (e) 4300

Answer (e) 4300

358. A and B started a business with investments of Rs 520 and Rs (640+x) respectively. After six months, B withdrew Rs (2x - 40), and at the end of the year, the profit-sharing ratio of A to B is 26:3, respectively. Find x.

- (a) 20
- (b) Can't be determined
- (c) 45
- (d) None of these
- (e) 60

Answer (b) Can't be determined

359. In X liters mixture of milk and water, quantity of water is 40%. If 20 liters mixture are taken out and $X/2$ liters of milk are added in the mixture, then the ratio of milk to water in the resultant mixture becomes 43:12 respectively. Find X.

- (a) 40
- (b) 20
- (c) 25
- (d) 50
- (e) 60

Answer (d) 50

DIRECTIONS (Q. 360-363)

What approximate value will come in place of question mark (?) in the following questions? (You are not expected to calculate the exact value)

360. $18.02 \times 6.022 - 112.03 = ? \times 3.98$

- (a) 127
- (b) 142
- (c) 134
- (d) 119
- (e) 153 42

Answer (c) 134

361. $2.99 \times 4.99 + 7.02 \times 8.02 - 626.4$

- (a) 109
- (b) 29
- (c) 43
- (d) 66
- (e) 88

Answer (d) 66

362. $78.22 + 15.99 \times 1.982 - 106.03 = ?$

- (a) 2
- (b) 1
- (c) 12
- (d) 8
- (e) 6

Answer (e) 6

363. $81.03 \div 9.02 + 4.782 - 27.011 = \sqrt{?}$

- (a) 25
- (b) 36
- (c) 16
- (d) 81
- (e) 49 43

Answer (e) 49 43

DIRECTIONS (Q. 364-365)

Read the following information carefully and answer the questions given below. The average of total items manufactured in 2021 and 2022 by A, B, and C is 1500 and 1650, respectively. 20% and $\frac{1}{5}$ th of the total items manufactured in 2021 and 2022, respectively, by B. Total items manufactured by C in 2021 are 33.33% more than that of B, and the total items manufactured by A in both years are 4000.

364. Find the difference between the total items manufactured by C in both years and the total items manufactured by A in 2022.

- (a) 1960
- (b) 2340
- (c) 1450
- (d) 1880
- (e) 1920

Answer (a) 1960

365. Total items manufactured by B in 2022 is what percentage of the total items manufactured by C in 2021?

- (a) 77.5%
- (b) 82.5%
- (c) 87.5%
- (d) 66.67%
- (e) 62.5%

Answer (b) 82.5%

DIRECTIONS (Q. 366-370)

Read the following information carefully and answer the questions given below. The information about a company conducted interviews over three consecutive days i.e. Monday, Tuesday, and Wednesday for various role. Total candidates (males and females) interviewed on these three days are 420. The ratio of male candidates interviewed on Monday to the female candidates interviewed on Tuesday is 4:3, and the female candidates interviewed on Monday are 10 less than that on Tuesday. Total candidates (males and females) interviewed on Tuesday are 190, and male candidates interviewed on Wednesday are 20% more than the female candidates interviewed on Monday. The average number of male candidates interviewed on Monday is 90.

366. Find the ratio of the total female candidates interviewed on Wednesday to the total male candidates interviewed on Monday.

- (a) 4:1
- (b) 3:4
- (c) 1:3
- (d) 2:1
- (e) 1:2 46

Answer (e) 1:2 46

367. Total female candidates interviewed on Tuesday is what percentage more or less than the total candidates (males and females) interviewed on Wednesday?

- (a) 25%
- (b) 32.5%
- (c) 40%
- (d) 66.67%
- (e) 33.33%

Answer (c) 40%

368. Find the difference between the male candidates interviewed on Wednesday and the female candidates interviewed on Monday.

- (a) 8
- (b) 5
- (c) 14
- (d) 10
- (e) 25

Answer (d) 10

369. 20% of the total male candidates interviewed on Tuesday are rejected and 35% of the female candidates interviewed on Tuesday are selected, then find the total candidates (males and females) who are selected on Tuesday.

- (a) 145
- (b) 110
- (c) 125
- (d) 130
- (e) 100

Answer (c) 125

370. Total candidates (males and females) interviewed on Monday is how many more or less than the total female candidate interviewed on all three days.

- (a) 15
- (b) 10
- (c) 20
- (d) 30
- (e) 40

Answer (c) 20

DIRECTIONS (Q. 371-373)

The following questions are accompanied by three statements (I), (II), and (III). You have to determine which statement(s) is/are sufficient /necessary to answer the questions.

371. What is speed of boat in still water?

- I. Speed of stream is two-third of speed of boat in still water
II. The boat covers 20 km in 2 hours in downstream III. The boat covers 10 km in 5 hours in upstream.

- (a) only statement II is sufficient
(b) Any two are sufficient
(c) I and II or III are sufficient
(d) Only statement III is sufficient
(e) None of these

Answer (b) Any two are sufficient

372. What was the amount of profit earned?

- I. If no discount is given, profit would be 40%
II. 30% discount is offered on marked price. III. Selling price is more than cost price by 40%.

- (a) Only III
(b) All I, II and III
(c) Only II and III
(d) Cannot be answered even including all statement
(e) Only I and III

Answer (d) Cannot be answered even including all statement

373. What is speed of train?

- I. The train crosses 300 m long platform in 45 seconds.
II. The train crosses another stationary train of same length in 60 seconds. III. The train crosses a single pole in 30 seconds.

- (a) I and II or III
(b) Only I
(c) II and III both
(d) Only III
(e) I and II both

Answer (a) I and II or III

374. Which of the following public sector insurance companies continue to be identified as Domestic Systemically Important Insurers (D-SIIs) by IRDAI?

- (a) 1, 2, and 3 only
(b) 2, 3, and 4 only
(c) 1, 2, and 4 only
(d) 1 and 2 only
(e) 1, 3, and 4 only

Answer (c) 1, 2, and 4 only

375. As per the recent announcement by the Reserve Bank of India (RBI), what is the updated per transaction limit for UPI Lite? (October 2024)

- (a) Rs.500
(b) Rs.1,000
(c) Rs.2,000
(d) Rs.5,000
(e) Rs.10,000

Answer (b) Rs.1,000

376. The Animal Welfare Board of India (AWBI) is headquartered in which state?

- (a) Uttar Pradesh
- (b) Maharashtra
- (c) Tamil Nadu
- (d) Haryana
- (e) Karnataka

Answer (d) Haryana

377. Among the Indian states, which one has the highest total area covered by wetlands, contributing significantly to biodiversity and ecosystem services?

- (a) West Bengal
- (b) Gujarat
- (c) Assam
- (d) Uttar Pradesh
- (e) Madhya Pradesh

Answer (b) Gujarat

378. How many core promoter banks initially formed the consortium to establish the National Payments Corporation of India (NPCI)?

- (a) 8
- (b) 10
- (c) 12
- (d) 15
- (e) 20

Answer (b) 10

379. Under how many categories were the National Awards for e-Governance (NAeG) 2024 conferred?

- (a) Three
- (b) Four
- (c) Five
- (d) Six
- (e) Seven

Answer (c) Five

380. What are the sources of revenue for the Consolidated Fund of India?

- (a) 1, 2, and 3 only
- (b) 2, 3, and 4 only
- (c) 1, 3, 4, and 5 only
- (d) 1, 2, 3 and 4 only
- (e) All of the above

Answer (e) All of the above

DIRECTIONS (Q. 381)

In the following questions, a sentence is divided into several parts. One of the parts is grammatically correct, while the others contain errors. Identify the incorrect part(s) from the sentence. If all parts are correct, select "no error" as the answer.

381. The rapidly growth in urban populations (A) / have led to increased demand (B) / for housing, infrastructure, and (C) / public services in many (D) / developing countries.

- (a) A-B
- (b) B-C
- (c) C-D
- (d) D
- (e) No error

Answer (a) A-B

DIRECTIONS (Q. 382)

In the following questions, a paragraph is provided with a few highlighted words. Select the most appropriate option that can replace the highlighted word to ensure the paragraph is both grammatically and contextually accurate. A recent psychological study on decision-making under uncertainty has endured (A) on the cognitive biases that influence human choices. The researchers focused on the prospect theory, which suggests that individuals are more likely to avoid losses than to pursue equivalent (B) gains, even when the risks are identical. Participants were asked to make decisions involving hypothetical financial backdrop(C), and the results confirmed a pronounced loss tactic (D) across various demographics. The study also revealed that framing effects, or how a problem is presented, significantly endorsed (E) participants' risk tolerance. This research has broad implications for fields like fictitious (F) economics, marketing, and public policy, as understanding these biases can improve strategies for influencing consumer behavior and decision-making processes.

382. Which of the following is most suitable to replace (B)?

- (a) fabricated
- (b) economic
- (c) sustenance
- (d) No replacement required
- (e) commercial

Answer (d) No replacement required

DIRECTIONS (Q. 383)

In the following question, a sentence is presented with a blank. Select the most appropriate word to fill in the blank, ensuring that the sentence is both grammatically correct and contextually appropriate.

383. The artist found inspiration for his new sculpture in his nightly _____.

- (a) routine
- (b) muse
- (c) monotony
- (d) impulse
- (e) hesitation

Answer (b) muse

DIRECTIONS (Q. 384)

Read the given information carefully and answer the questions based on it: Nine persons of a three-generation family are of different age (years). The persons are A, D, N, M, H, S, T, W and K but not related in the same order as given. W is son-in-law of S who is parent of K's spouse. K's mother-in-law has only one daughter. A is spouse of S and paternal grandparent of N. K's child is niece of T who has two children but D is not child of W. Number of males is one more than number of females. D and A are not of same gender. To find the age of all persons, follow the instructions below: Age of the youngest member is equal to the total number of persons in the family. Age of D's spouse is three times the age of youngest member. T's father age is twice of K's age. Ratio between the age of T's niece and D's father is 2:9 respectively. Difference between the age of both the cousin of N is 6 years. W's age is equal to the total age of A's grandchildren. Difference between the age of A's son-in-law and M's mother is 1. Ratio between the age of K's mother-in-law and S's daughter is 9:5 respectively. D's age is one more than the twice of M's age but D is not youngest in his generation.

384. Which of the following statement is/are correct?

- I. oldest person's age is an odd number
 - II. M is nephew of D
 - III. T is older to K
- (a) Only III
 - (b) Only I
 - (c) Both II and III
 - (d) Both I and II
 - (e) All I, II and III

Answer (e) All I, II and III

DIRECTIONS (Q. 385)

Study the following information carefully and answer the questions given below. Fourteen persons B, C, D, E, F, G, H, I, J, K, L, M, N and O sit around two tables—one circular (referred to as a rope-shaped table) inscribed within a square-shaped table. Four persons sit at the corners of the square table, while four sit in the middle of the sides. The persons who sit at corners face inside and the persons who sit on the middle of the sides of table face outside. Six persons sit at the circular rope-shaped table at a distance of multiples of 3 between them consecutively such as 3m, 6m, 9m and so on. The persons who sit on the circular rope shaped table face inside. F sits 9m to the left of J in a circular shaped table. There is distance of 27m between J and G when counting from one of the sides from J. O sits third to the right of I. Two persons sit between O and N. L sits immediately to the right of C. N doesn't sit on the middle of the sides of the table. G is an immediate neighbour M. There is a distance of 42m between G and B. There is a distance of more than 12m between B and R when counting from both sides of B. There is a distance of more than 15m between R and G when counting

385. What is the position of D with respect of C?

- (a) Fifth to the left
- (b) Fifth to the right
- (c) Sixth to the right
- (d) Sixth to the left
- (e) Second to the right

Answer (c) Sixth to the right

DIRECTIONS (Q. 386)

In each question, rows containing different elements are provided. To find out the resultant of a particular row, follow the given conditions: Condition 1: If an even number is followed by an odd number, then the resultant must be the difference between the number. Condition 2: If an odd number is followed by another odd prime number, then the sum of the resultants is added by 4. Condition 3: If an odd number is followed by an even number, then the resultant must be the sum of both numbers. 24 | Test Prime Condition 4: If an even number is followed by an even number, then the resultant must be the difference between the number added by 2. Condition 5: If an odd number is followed by another odd number (not prime), then the resultant must be product of both the number subtracted by 6. Now, answer the following questions based on the above conditions:

386. What will be the value of X and Z respectively if the difference between the resultants of both the rows is equal to 10? 12 37 X Z96

- (a) 15, 18
- (b) 14, 7
- (c) 12, 3
- (d) 22, 9
- (e) None of these

Answer (c) 12, 3

DIRECTIONS (Q. 387)

A word and number arrangement machine, when given an input line of words and numbers, rearranges them following a particular rule in each step. Below is an example of input and its rearrangement: Input: 97 wisdom 64 amplify 38 justice 71 clarity 25 mystery Step I: 52 97 64 amplify 38 justice 71 clarity mystery modsiw Step II: 83 52 97 64 amplify justice 71 clarity modsiw yreysym Step III: 17 83 52 97 64 amplify clarity modsiw yreysym ecitsuj Step IV: 46 17 83 52 97 amplify modsiw yreysym ecitsuj ytiralc Step V: 79 46 17 83 52 64 modsiw yreysym ecitsuj ytiralc yfilpma Based on the above example where Step V is the last step, find the arrangement for the below input and answer the related questions: Input: 45 courage 86 understand 31 venture 32 meticulous 42 explore

387. Find the sum of the numbers which are second from the right end and third from left end in Step IV?

- (a) 63
- (b) 36
- (c) 131
- (d) 77
- (e) None of these

Answer (b) 36

DIRECTIONS (Q. 388)

Find the pattern of the series and answer the question given below. Series: X, 168, 172, 145, Y, Z

388. Which of the following statement/s is are correct. (i) X is greater than Y (ii) Z is square of even number (iii) X is less than Z

- (a) All (i), (ii) & (iii)
- (b) Both (ii) & (iii)
- (c) Both (i) & (iii)
- (d) Both (i) & (ii)
- (e) None of the above

Answer (d) Both (i) & (ii)

DIRECTIONS (Q. 389)

Read the following information carefully and answer the questions given below. The information about a company conducted interviews over three consecutive days i.e. Monday, Tuesday, and Wednesday for various role. Total candidates (males and females) interviewed on these three days are 420. The ratio of male candidates interviewed on Monday to the female candidates interviewed on Tuesday is 4:3, and the female candidates interviewed on Monday are 10 less than that on Tuesday. Total candidates (males and females) interviewed on Tuesday are 190, and male candidates interviewed on Wednesday are 20% more than the female candidates interviewed on Monday. The average number of male candidates interviewed on Monday is 90.

389. Find the ratio of the total female candidates interviewed on Wednesday to the total male candidates interviewed on Monday.

- (a) 4:1
- (b) 3:4
- (c) 1:3
- (d) 2:1
- (e) 1:2 46

Answer (e) 1:2 46

DIRECTIONS (Q. 390-393)

Answer the questions based on the

390. How many boxes are above the box T? information given below.

- (a) Three Eight boxes P, Q, R, S, T, U, V and W are kept one
- (b) Four above another such that bottommost box is numbered as
- (c) Five 1 while the topmost box is numbered as
- (d) One contains different number of bottles among 10, 25, 28
- (e) None of these 36, 47, 50, 81 and

Answer (b) Four above another such that bottommost box is numbered as

391. Which box is just above box R? Box P is three boxes above the box, which contains 28

- (a) Box W bottles. Box Q is two boxes above the box P. There is
- (b) Box U one box between the box containing 28 bottles and box
- (c) Box P V. The average of number of bottles in box R and box Q
- (d) Box Q is equal to number of bottles of box P. The box
- (e) None of these containing 47 bottles is just above the one containing

Answer (d) Box Q is equal to number of bottles of box P. The box

392. How many bottles does box V contain? bottles. Box R is an odd number box. There is one box

- (a) 10 between the box containing 28 bottles and box
- (b) 36 containing 10 bottles. The bottommost box contains
- (c) 47 bottles. Box S is just above box W, which contains
- (d) 25 bottles. Box S is not adjacent to box P. Box U does not
- (e) None of these contain 10 or 81 bottles

Answer (a) 10 between the box containing 28 bottles and box

393. Which of the following box contains maximum

- (a) Three number of bottles?
- (b) One
- (c) Two
- (d) Four
- (e) Five

Answer (c) Two

DIRECTIONS (Q. 394-395)

Read the following information e. None of these carefully and answers the question given below.

394. Which of the following box contains Strawberries? is placed 2nd to the above of Mango. Number of boxes

- (a) M between the boxes, which contain Orange and Kiwi is
- (b) K equal to the number of boxes below K. Number of boxes
- (c) R above D is equal to the number of boxes below the box
- (d) D contains strawberry. R is placed above D. Box M is
- (e) None of these placed at the bottom. Box which contains Mango is

Answer (e) None of these placed at the bottom. Box which contains Mango is

395. How many boxes are placed below the box which belong to that group. contains apple?

- (a) R
- (b) M
- (c) Apple
- (d) K
- (e) H

Answer (a) R

DIRECTIONS (Q. 396-397)

Read the following information d. E, B carefully and answer the question given below. e. None of these. There are eight boxes A, B, C, D, E, F, G and H kept one 13) How many boxes are above the box which above the other like a stack. Six of these boxes contain contains Caps? different items Caps, Shirts, Trousers, T-shirts, Watches a. Five and Shoes while others are vacant. The bottommost box b. Four is numbered 1 and the topmost box is numbered 8. c. Six There are at least two boxes between the vacant boxes. d. Three There are at least two boxes below G. There are at least e. None of these. two boxes above A, which doesn't contain Watches. 14) Which among the following boxes are between the None of the boxes below G is vacant. The topmost box vacant boxes? contains Trousers. E is box 7. Box, which contains shirts, I. C is three boxes above G. Box, which contains shoes, are II. H two boxes above F, which contains T-shirts. B is III. D immediately above the box, which contains shoes. H is IV. E immediately above C. a. Both I and III

396. Which among the following statement(s) is/are

- (b) Both II and IV true?
- (c) Both III and IV
- (a) There are three boxes above the box, which contains
- (d) Both I and II shoes
- (e) None of these

Answer (c) Both III and IV

397. Which of the following box contains shoes?

- (c) None is true
- (a) G
- (d) Box 1 contains Watches
- (b) B
- (e) There are two boxes between E and C

Answer (a) G

398. Box H is of which Types box? Type box. Box E is kept immediately below box B. Only

- (a) Aluminium one box kept between box E and box F. Box G is kept
- (b) Rubber immediately below Glass Type box. Paper Type box is
- (c) Cotton below box D and H. Metal Type box is placed immediate
- (d) Metal below Wooden Type box but not placed at the bottom
- (e) None of these most position. Aluminium Type box is above Fibre Type

Answer (d) Metal below Wooden Type box but not placed at the bottom

399. Which of the following box is of Fibre Type?

- (b) One
- (a) Box D
- (c) Two
- (d) Three
- (e) None of these

Answer (e) None of these

DIRECTIONS (Q. 400)

Study the below details and answer 17) Which of the following box is placed at the top? the following questions. a. Box E

400. Box D contains which of the following item? Laptop. Third heaviest box is placed immediately below

- (a) Laptop the box which contains Toy. Only one box is placed
- (b) Diary between heaviest and second heaviest box. The box
- (c) Bottles contain Headphones is lighter than the box which contain
- (d) Jersey Bottles. Box P does not contain Bottles and headphones
- (e) Ring

Answer (c) Bottles contain Headphones is lighter than the box which contain

401. Which subject has the least number of books?

- (b) F
- (a) Mathematics
- (c) H
- (d) C
- (e) None of these

Answer (b) F

DIRECTIONS (Q. 402)

Answer the questions based on the e. Chemistry information given below.

402. Which box contains Hindi books? books has 23 books in total. Box F has 18 more books

- (a) Box G than box D and 8 more books than box B. The box that
- (b) Box C contains Hindi books has the highest number of books
- (c) Box B and the box with English books has the second highest
- (d) Box F
- (e) Can't be determined Capsicum. Kunal's box is 5 kg heavier than Naresh, who

Answer (b) Box C contains Hindi books has the highest number of books

403. What is the position of Box of Minecraft player Cucumber? with respect to the H's Box.

- (a) 24 kg
- (b) 27 kg
- (c) 33 kg
- (d) 38 kg
- (e) 42 kg

Answer (b) 27 kg

DIRECTIONS (Q. 404)

Directions: Answer the questions

404. Who plays PUBG among the players? contains Mango. Only one Box placed between the one

- (a) D who contains Kiwi and the one who contains Banana
- (b) E The box which contains Guava placed on the topmost
- (c) C box. Box H does not contain Guava. Box G is between
- (d) F box A and box F. Box B placed above Box E and Box A
- (e) Can't be determined

Answer (d) F box A and box F. Box B placed above Box E and Box A

DIRECTIONS (Q. 405)

Study the below details and answer a. 2nd Box – Kiwi – C the following questions. b. 4th Box – Mango – F Eight boxes A, B, C, D, E, F, G and H are placed on a c. 3rd Box – Grape – H shelf. Each of them contains different fruits viz. Mango, d. None is true. Banana, Guava, Grape, Kiwi, Litchi, Strawberry and e. 6th Box – Raspberry – A Raspberry, but not necessarily in the same order. The 48) Who among the following placed on the topmost Lowermost Box is numbered 1 and the topmost Box is stack? numbered 8. a. D There is only one Box between the one who contains b. F Guava and the one who contains Raspberry. There are c. H two Boxes between the one who contains Banana and d. A Box C. Box F number is even and contains Strawberry. e. None of the above. Neither Box A nor Box B contains Banana or Kiwi.

405. How many Boxes are there between F and C? box which contains Grapes placed on bottom. There are

- (a) None three Boxes between Box B and Box E. Box F placed
- (b) One above Box C, who does not placed on bottom but
- (c) Two
- (d) Three
- (e) None of these

Answer (b) One above Box C, who does not placed on bottom but

406. $124\% \text{ of } 3250 + (3/8) \text{ of } 5712 = (?)^2 + 243$

- (a) 83
- (b) 73
- (c) 77
- (d) 87
- (e) None of these

Answer (c) 77

407. $? \% \text{ of } 600 = 3285 - (442 - 192) \times 19 \div 399$

- (a) 535
- (b) 610
- (c) 475
- (d) 650
- (e) None of these

Answer (a) 535

408. $\text{cbrt}13824 + \text{cbrt}74088 \% \text{ of } 250 - \text{cbrt}3375 \% \text{ of } 600 = ?$

- (a) 15
- (b) 9
- (c) 21
- (d) 18
- (e) None of these

Answer (b) 9

409. $\sqrt{[(1573 \div 13) \times (275 \div 55) + 53 - 1]} = 1672 \div 11 - ?3$

- (a) 8
- (b) 6
- (c) 5
- (d) 7
- (e) None of these

Answer (c) 5

410. $(422 - 182) \times 24 \div 128 + ? \% \text{ of } 1800 = 1080$

- (a) 60
- (b) 75
- (c) 45
- (d) 50
- (e) None of these

Answer (c) 45

411. $114 \% \text{ of } 1250 + (4/7) \text{ of } 5712 = (?)^2 + 65$

- (a) 84
- (b) 96
- (c) 72
- (d) 68
- (e) None of these

Answer (d) 68

412. $0.3 + 3.3 + 33.33 + 333.333 + 3.73 + 33.007 = ?$

- (a) 408
- (b) 409
- (c) 407
- (d) 405
- (e) None of these

Answer (c) 407

413. $\sqrt{625} \times \sqrt{6241} - 768 \times 3 + \sqrt{15129} + 106 \times 2 = ?$

- (a) 10
- (b) 16
- (c) 9
- (d) 6
- (e) None of these

Answer (d) 6

414. $37.5 \% \text{ of } 80 \% \text{ of } 730 + 160 \% \text{ of } 250 - ? = 120 \% \text{ of } 400$

- (a) 129
- (b) 139
- (c) 149
- (d) 159
- (e) None of these

Answer (b) 139

415. $\sqrt{841} \times 3 + 120 \% \text{ of } 450 - 180 \% \text{ of } 780 + 60 \% \text{ of } 1800 = ?$

- (a) 303
- (b) 310
- (c) 308
- (d) 290
- (e) None of these

Answer (a) 303

416. $(7/9) \text{ of } 4068 + 77 \% \text{ of } 1200 = (?)^2 - (128 \div 16)$

- (a) 64
- (b) 62
- (c) 58
- (d) 56
- (e) None of these

Answer (a) 64

417. $34\% \text{ of } 4200 - 510 \div ? + 72\% \text{ of } 400 = 1713$

- (a) 280
- (b) 320
- (c) 170
- (d) 120
- (e) None of these

Answer (c) 170

418. $(5/8) \text{ of } (16/9) \text{ of } (18/5) \text{ of } 65\% \text{ of } 800 = ?$

- (a) 2080
- (b) 2260
- (c) 1820
- (d) 1640
- (e) None of these

Answer (a) 2080

419. $(11340 \div 9) + 85\% \text{ of } 1600 - (5/7) \text{ of } 2100 = ? - 112$

- (a) 1364
- (b) 1057
- (c) 1125
- (d) 1241
- (e) None of these

Answer (d) 1241

420. $30\% \text{ of } 5400 + 68\% \text{ of } 4100 = ? - 2168$

- (a) 6576
- (b) 7154
- (c) 6243
- (d) 5812
- (e) None of these

Answer (a) 6576

421. $2370 \div 15 \times 10 + 33\% \text{ of } 1800 - (4/7) \text{ of } 2170 = ? + 44$

- (a) 560
- (b) 670
- (c) 890
- (d) 720
- (e) None of these

Answer (c) 890
