

IBPS RRB Prelims 2025

80 questions

Read the given information carefully and answer the related questions: Nine persons A, B, C, D, E, F, G, H and I sit in a row facing north but not in the same order as given. Three persons sit between B and G. C sits second to the right of G. H sits third to the left of C. E and H sit adjacent to each other. One person sits between E and A. F sits second to the left of D.

1. What is the position of I with respect to G?

- (a) Immediate right
- (b) Fifth to the left
- (c) Second to the right
- (d) Third to the left
- (e) Third to the right

2. How many persons sit to the left of F?

- (a) One
- (b) Four
- (c) Five
- (d) Two
- (e) Three

3. Number of persons sit between D and H is same as _____.

- (a) Between G and C
- (b) To the left of B
- (c) Between E and B
- (d) Between I and A
- (e) To the right of F

4. Who among the following sits fourth to the left of C?

- (a) E
- (b) A
- (c) I
- (d) B
- (e) F

5. Which of the following statement is correct? I. A sits at one of the extreme ends II. G sits exactly middle of the row III. C and F are not immediate neighbors to each other

- (a) Only I and III
- (b) Only II
- (c) Only I and II
- (d) Only II and III
- (e) Only I

Read the given information carefully and answer the related questions: Six persons A, B, C, D, E and F – of a group, and each have different height. A's height is more than B but less than C. Two persons are in between C and D. Number of persons smaller to A is same as the number of persons taller to E. Less than two persons are junior to F.

6. How many persons are in between A and F?

- (a) None
 - (b) One
 - (c) Two
 - (d) Three
 - (e) Four
-

7. Who among the following person is 3rd tallest?

- (a) A
 - (b) F
 - (c) B
 - (d) C
 - (e) D
-

8. Who among the following is immediate shorter to E?

- (a) A
 - (b) C
 - (c) D
 - (d) B
 - (e) F
-

9. In the number '9391648', how many pairs of the digits have the same number between them (both forward and backward direction) in the number series?

- (a) Four
 - (b) Two
 - (c) One
 - (d) Three
 - (e) More than four
-

In this question, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement and select the appropriate answer.

10. Statements: $W > T > K \geq J$; $S \geq M > K < D$ Conclusions: I. $J < S$ II. $D > W$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

11. Statements: $G > R \geq N < A = O \geq X = C > P \geq U$ Conclusions: I. $A \geq U$ II. $X < G$

- (a) If only conclusion I is true
 - (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

12. Statements: $X \geq Z > L$; $P \leq F = G$; $Y \leq T = L \leq P$ Conclusions: I. $X > T$ II. $Y \leq G$

- (a) If only conclusion I is true

- (b) If only conclusion II is true
 - (c) If either conclusion I or II is true
 - (d) If neither conclusion I nor II is true
 - (e) If both conclusions I and II are true
-

Read the given information carefully and answer the related questions: Nine boxes A, B, C, D, E, F, G, H and I are placed one above another in a stack but not in the same order as given. Box A is placed four boxes above box C. Box G and box A are placed adjacent to each other. Two boxes are placed between box G and box B. Box E is placed immediately above box B but below box D. More than four boxes are placed above box E. Box I is placed two boxes above box F.

13. If box D is related to box G, in the similar way, box A is related to box B, then which box is related to box H?

- (a) Box E
 - (b) Box C
 - (c) Box I
 - (d) Box F
 - (e) Box B
-

14. If all boxes are arranged as per alphabetical order from top to bottom, then how many boxes will remain unchanged at their position?

- (a) None
 - (b) One
 - (c) Three
 - (d) More than three
 - (e) Two
-

15. Which of the following box is placed just below box H?

- (a) Box B
 - (b) Box E
 - (c) Box A
 - (d) Box C
 - (e) Box F
-

16. How many boxes are placed between box I and box A?

- (a) One
 - (b) Five
 - (c) Two
 - (d) Four
 - (e) Three
-

17. What is the position of box D with respect to box G?

- (a) Four boxes below
 - (b) Five boxes above
 - (c) Two boxes above
 - (d) Three boxes below
 - (e) Immediate above
-

Read the given information carefully and answer the related questions: Seven persons K, L, M, N, O, P and Q work on different designations in a company. The designations are CEO, COO, AM, GM, AGM, Manager and Clerk where CEO is seniormost and Clerk is the junior most designation. The persons also like different items i.e., pencil, fruit, rubber, paper, color, cutlery and brush. The information of persons and items is not necessarily used in the same manner as given. P is four designations junior to the one who likes paper. K is senior to GM but not like paper and cutlery. Two persons are designated between K and Q. The number of persons senior to Q is same as the number of persons junior to the one who likes pencil. M is immediately junior to the one who likes cutlery but M is not clerk. Two persons are designated between N and the one who likes brush. O is immediately senior to the one who likes color. The one who is CEO does not like rubber.

18. What is the designation of L?

- (a) Manager
 - (b) AGM
 - (c) Clerk
 - (d) AM
 - (e) COO
-

19. The one who is designated as CEO likes which item?

- (a) Brush
 - (b) Rubber
 - (c) Cutlery
 - (d) Fruit
 - (e) Pencil
-

20. Which of the following combination is correct?

- (a) AGM - P
 - (b) K - brush
 - (c) AM - fruit
 - (d) COO - Q
 - (e) M - paper
-

21. Who among the following is three persons senior to the one who likes color?

- (a) The one who likes cutlery
 - (b) The one who is COO
 - (c) M
 - (d) Q
 - (e) The one who likes pencil
-

22. How many persons are senior to O?

- (a) Two
 - (b) None
 - (c) Three
 - (d) Four
 - (e) One
-

Study the following information carefully and answer the questions given below: A person starts walking from his office and walks for 12m in the east direction and reached Point P. From point P, he takes a right turn and walks 10m to reach point Q. From point Q, he takes a right turn and walks 7m to reach point R. From point R, he turns left and walks 2m to reach point S. Finally, from point S, he turns right and walks 5m to reach point U.

23. What is the direction of point U with respect to office?

- (a) South-east
 - (b) North-west
 - (c) South-west
 - (d) South
 - (e) West
-

24. If Point G is 31m west of Point R, then what will be the shortest distance between point P and point G?

- (a) $\sqrt{686}$ m
 - (b) $\sqrt{566}$ m
 - (c) 26m
 - (d) 24m
 - (e) None of these
-

25. If office is 10m north of Point M then in which direction is Point S with respect to Point M?

- (a) North-east
 - (b) South-east
 - (c) North-west
 - (d) West
 - (e) South-west
-

In each question below some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer- (a) If only conclusion I follows (b) If only conclusion II follows (c) If either conclusion I or II follows (d) If neither conclusion I nor II follows (e) If both conclusions I and II follow

26. Statements: Only project are completed Some project are difficult All difficult are easy Conclusions: I. Some completed are not difficult II. All easy being project is a possibility

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

27. Statements: Only a few hut is house Some house are bricks No bricks are cement Conclusions: I. No Hut is cement II. Some house are not cement

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

28. Statements: Only a few digital are network. All network is growth. All growth is reward. Conclusions: I. Some digital is growth II. All digital being network is a possibility

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows

- (e) If both conclusions I and II follow

29. Statements: Some glue is not paper Only a few paper is pencil All pencil is sharpener Conclusions: I. No glue is sharpener II. Some glue is sharpener

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Study the information carefully and answer the questions given below. There are eight members in a three-generation family. No single parent is there in the family. S is the sister of W. K is the only daughter of P. U is the grandson of W. J is the sister-in-law of K who is not married. U is the son of R. W is not the mother of J. S doesn't have a brother. J has two children. R is the father of Q.

30. How is J related to P?

- (a) Mother
- (b) Daughter
- (c) Sister
- (d) Son-in-law
- (e) Daughter-in-law

31. If K is married to M, then how is R related to M?

- (a) Sister-in-law
- (b) Brother-in-law
- (c) Sister
- (d) Nephew
- (e) Can't be determined

32. If the number of males and females member of the family are equal then how is Q related to K?

- (a) Brother
- (b) Daughter
- (c) Nephew
- (d) Neice
- (e) Can't be determined

33. Find the odd-one out.

- (a) DFI
- (b) MOR
- (c) SUX
- (d) HJL
- (e) EGJ

34. In the number '478732359', if all the odd places digit are subtracted by 1 and all the even places are added by 1 from left end, then how many digits are not repeated in the new number formed after rearrangement?

- (a) 8
- (b) 6, 7 and 8
- (c) 7 and 8

- (d) 6
- (e) 6 and 7

Read the given information carefully and answer the related questions: Eight persons A, B, C, D, E, F, G and H sit around a circular table but not in the same order as given. Some of them face inside and some face outside. One person sits between B and C. H sits second to the right of C. Two persons sit between H and A. D sits immediate left of A. Both the immediate neighbors of A face opposite direction of A. Three persons sit between G and E. G and B face same direction but they do not sit adjacent to each other. Less than three persons face outside.

35. What is the position of B with respect to F?

- (a) 2nd to the right
- (b) 3rd to the right
- (c) 2nd to the left
- (d) 4th to the right
- (e) 3rd to the left

36. Four of the following five are similar in a certain manner and related to a group. Who among the following is not related to the group?

- (a) F
- (b) H
- (c) G
- (d) D
- (e) B

37. How many persons sit between E and D when counted from the left of D?

- (a) Four

38. Who among the following sits immediate left of H?

- (a) D
- (b) B
- (c) E
- (d) F
- (e) G

39. Which of the following statement is/are correct?

- (a) H and C face the same direction
- (b) D face inside
- (c) All options are correct
- (d) F sits opposite to B
- (e) E sits immediate right of C

40. If we form a four-letter meaningful word using the 3rd, 4th, 5th, and 7th letters from the left end of the word "HIERACHY" then what would be the second letter from the left end of that meaningful word? If no meaningful word is formed, mark the answer as X. If more than one meaningful word is formed, mark the answer as Z.

- (a) Z
- (b) H
- (c) A
- (d) X

(e) E

Read the following table carefully and answer the questions given below. The table shows the total number of mangoes sold and the percentage of mangoes sold to females by four shops. Shops Total number of mangoes sold Percentage of mangoes sold to females A 480 75% B 560 60% C 320 45% D 750 80%

41. Find the difference between the total number of mangoes sold to males by shops A and C together and the total number of mangoes sold to females by shops B and D together.

- (a) 660
- (b) 640
- (c) 650
- (d) 610
- (e) 630

42. The total number of mangoes sold by shop E is 25% more than that of shop C. If the number of mangoes sold to males by shop E is $\frac{3}{4}$ of the total number of mangoes sold to males by shop B, then find the number of mangoes sold to females by shop E.

- (a) 232
- (b) 239
- (c) 243
- (d) 227
- (e) 210

43. The total number of mangoes sold to males by shop D is what percentage more or less than the total number of mangoes sold to females by shop A?

- (a) 125%
- (b) 175%
- (c) 150%
- (d) 120%
- (e) 140%

44. The number of mangoes sold by shop C to males and females at 25% and 50% profit, respectively. If the cost price of each mango sold by shop C is Rs 20, then find the overall profit earned by shop C (in Rs).

- (a) 3120
- (b) 4450
- (c) 2320
- (d) 3390
- (e) 3450

45. $\frac{5}{8}$ of the number of mangoes sold to females by shop B are rotten, and the total number of rotten mangoes sold by shop B is 315. Find the number of fresh mangoes sold to males by shop B.

- (a) 104
 - (b) 123
 - (c) 119
 - (d) 113
 - (e) 134
-

46. The total number of apples sold by shop D is 20% less than the average number of mangoes sold by shops B and C. The total number of apples sold to males by shop D and the total number of mangoes sold to females by shop B are in the ratio of 9:16, respectively. Find the total number of apples sold to females by shop D.

- (a) 114
 - (b) 153
 - (c) 109
 - (d) 123
 - (e) 163
-

47. A man invested Rs P in simple interest at 10% p.a. for two years and received interest of Rs 525. If he invested Rs 500 more in compound interest at the same rate for the same period, then find the compound interest he received (in Rs).

- (a) 656.25
 - (b) 666.26
 - (c) 655.25
 - (d) 635.25
 - (e) 645.25
-

48. The speed of a boat in still water is 14.4 km/hr and the ratio of downstream to upstream speed of the boat is 3:1 respectively. Find the time taken by the boat to cover 216 km downstream (in hours).

- (a) 8
 - (b) 10
 - (c) 7
 - (d) 5.5
 - (e) 12
-

49. A vessel contains milk and water in the ratio of 4:1, respectively. If 20 liters of mixture are taken out and 5 liters of milk are added to the mixture, then the ratio of milk to water becomes 13:2, respectively. Find the initial quantity of water (in liters).

- (a) 12
 - (b) 9
 - (c) 5
 - (d) 6
 - (e) 7
-

50. A and B together can complete a work in 18 days, and B alone can complete the same work in 45 days. If 50% of the work is completed by A in $(X + 10)$ days, then find X.

- (a) 10
 - (b) 8
 - (c) 6
 - (d) 4
 - (e) 5
-

51. The ratio of the cost price to the selling price of an article is 20:27. The marked price of the article is Rs 4500, and it is sold after allowing a discount of 25%. Find the profit (in Rs).

- (a) 925
- (b) 900
- (c) 875

- (d) 775
 - (e) 1090
-

52. A square is cut into four equal smaller squares. The total perimeter of the original square is 168 cm. A circle is drawn whose radius is equal to the side of one smaller square. Find the area of the circle (in cm^2).

- (a) 1386
 - (b) 1674
 - (c) 1342
 - (d) 1459
 - (e) 1214
-

53. A started a business with an investment of Rs 4500. After a few months, B joined the partnership with an investment of Rs 6000. At the end of the year, the total profit was Rs 2600, out of which B's share was Rs 800. Find the time period (in months) for which B invested his money in the business.

- (a) 6
 - (b) 4
 - (c) 3
 - (d) 5
 - (e) 9
-

54. In a college, total non-technical girls' students are 20% less than total technical girls' students and 36% of students in college are girls. If technical girls' students are 50% of technical boys' students, then find non-technical boys' students are what percent less than technical boys' students?

- (a) 35%
 - (b) 40%
 - (c) 50%
 - (d) 30%
 - (e) 25%
-

55. Length of train A is 25% more than length of train B and speed of train A is 90 km/hr. If train A crosses a pole in 12 seconds and train B crosses train A in 36 seconds while running in same direction, then find time taken by train B to cross a 400 meters long platform.

- (a) 10 seconds
 - (b) 12 seconds
 - (c) 15 seconds
 - (d) 16 seconds
 - (e) 18 seconds
-

56. Age of Akash one year hence will be half of the present age of Ayush and present age of Akash is 25% less than the present age of Adarsh. If Adarsh is eighteen years younger than Ayush, then find age of Akash six years ago?

- (a) 15 years
 - (b) 25 years
 - (c) 20 years
 - (d) 18 years
 - (e) 12 years
-

Find the approximate value of question mark (?) in the following questions.

57. $2079.001 - 35.01 \times 11.99 + 639.99 ? = \sqrt[3]{1331.01}$

- (a) 9
- (b) 13
- (c) 7
- (d) 15
- (e) 12

58. $? + 247.01 - 156.09 = (17.01)^2 + 15.01\% \text{ of } 79.99$

- (a) 200
- (b) 275
- (c) 250
- (d) 210
- (e) 260

59. $\sqrt{1443.98} + (16.02) = 6 \times (?)^2$

- (a) 12
- (b) 8
- (c) 7
- (d) 11
- (e) 14

60. $32.04\% \text{ of } 1499.98 - 70.01\% \text{ of } 600.01 + 2.99 \times 7.01 = (?)^2$

- (a) 5
- (b) 14
- (c) 7
- (d) 11
- (e) 9

61. $3 + 171.01 + 156.99 = 321.09 + 249.01 - 97.99$

- (a) 468
- (b) 432
- (c) 420
- (d) 480
- (e) 456

62. $59.99\% \text{ of } 800 - 12.01\% \text{ of } 900.1 = ? + 4/7 \text{ of } 91.01$

- (a) 461
- (b) 320
- (c) 142
- (d) 280
- (e) 456

Read the data carefully and answer the following questions. There are two buses A and B. Total number of seats in A is 40 and out of that 6 seats are vacant. The number of males occupied the seat in A is 6 more than that of females occupied the seats. The vacant seats in B is 50% less than that of A. The ratio of male occupied to females occupied the seats in bus B is 10:7. Total occupied seats in B is 50% more than A.

63. Find the difference between total seats in A and B.

- (a) 94
- (b) 92

- (c) 96
 - (d) 100
 - (e) 95
-

64. Find the total seats occupied by females in both the buses is what percentage of total seats in A.

- (a) 84.25%
 - (b) 82%
 - (c) 81.25%
 - (d) 87.5%
 - (e) 81.2%
-

65. Find the ratio of occupied seats in B to vacant seats in both the buses.

- (a) 4:5
 - (b) 2:5
 - (c) 5:6
 - (d) 7:10
 - (e) 17:3
-

Read the information carefully and answer the following questions. The pie chart shows the percentage of total students (male and females) in four colleges and another pie chart shows the number of females in these colleges. Percentage of total male and Females = 800 females = 2000 130 150 A A B 30.5% 32% B C 220 X C D D 25% 12.5%

66. Find the average number of males in B, C & D.

- (a) 240
 - (b) 120
 - (c) 360
 - (d) 100
 - (e) 150
-

67. Find the ratio of males in college C and D together to females in A and C together.

- (a) 24:25
 - (b) 52:35
 - (c) 35:36
 - (d) 9:10
 - (e) 15:14
-

68. Find the total females in C and B together is what percentage of total students in D.

- (a) 84.25%
 - (b) 82%
 - (c) 81.25%
 - (d) 100%
 - (e) 81.2%
-

69. In college D, total number of students is 3X, out of that 35% are females. Find the males in D is what percentage more/less than total students in B.

- (a) 15%
- (b) 12%
- (c) 16%

- (d) 10%
 - (e) 17%
-

70. Find the difference between total students in A & B together and twice the males in B.

- (a) 740
 - (b) 720
 - (c) 760
 - (d) 710
 - (e) 750
-

What will come in the question (?) mark in the following number series.

71. 1.8, 9, 36, 108, ?, 216

- (a) 180
 - (b) 280
 - (c) 192
 - (d) 216
 - (e) 264
-

72. 157, ?, 171, 150, 185, 164

- (a) 126
 - (b) 136
 - (c) 148
 - (d) 154
 - (e) 140
-

73. 224, 207, 188, 165, 136, ?

- (a) 115
 - (b) 102
 - (c) 104
 - (d) 103
 - (e) 105
-

74. 4, ?, 39, 103, 228, 444

- (a) 9
 - (b) 10
 - (c) 16
 - (d) 8
 - (e) 12
-

75. 6, 7, 16, 51, 208, ?

- (a) 970
 - (b) 845
 - (c) 1085
 - (d) 985
 - (e) 1045
-

In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answers.

76. I. $x^2 + 12x + 35 = 0$ II. $y^2 + 7y + 10 = 0$

- (a) $x \geq y$
 - (b) $x \leq y$
 - (c) $x > y$
 - (d) $x < y$
 - (e) $x = y$ or no relation.
-

77. I. $x^2 - 7x - 60 = 0$ II. $y^2 + 13y + 40 = 0$

- (a) $x \geq y$
 - (b) $x \leq y$
 - (c) $x > y$
 - (d) $x < y$
 - (e) $x = y$ or no relation.
-

78. I. $x^2 + x - 12 = 0$ II. $y^2 + 2y - 15 = 0$

- (a) $x > y$
 - (b) $x \geq y$
 - (c) $x < y$
 - (d) $x \leq y$
 - (e) $x = y$ or no relation can be established between x and y .
-

79. I. $x^2 + 11x + 24 = 0$ II. $4y^2 + 13y + 10 = 0$

- (a) $x > y$
 - (b) $x \geq y$
 - (c) $x < y$
 - (d) $x \leq y$
 - (e) $x = y$ or no relation can be established between x and y .
-

80. I. $2x^2 + 13x + 21 = 0$ II. $y^2 + 6y + 9 = 0$

- (a) $x > y$
 - (b) $x \geq y$
 - (c) $x < y$
 - (d) $x \leq y$
 - (e) $x = y$ or no relation can be established between x and y .
