

IBPS RRB Prelims 2022

62 questions

Study the following information carefully and answer the questions given below- - Eight persons B, Q, V, C, R, T, Y and U are sitting around a square table in such a way that four persons sit on the corner of the table and other four persons sit on the middle of the side of the table. The one who sits at the corner of table faces opposite to the centre of table and the one who sits at the middle of the side of table faces towards the centre of table. Persons sitting on opposite sides are exactly opposite to each other. C sits 3rd to the right of U who sits at the middle of the side of table. T sits 2nd to the left of C. One person sits between V and T. Y and Q sit immediate left of each other. R sits 2nd to the right of B but not face to Q. - B, Q, V, C, R, T, Y U C, U, , T, C V T Y Q R, B Q

1. What is the position of B with respect to Q? Q B ?

- (a) 3rd to the right
- (b) 5th to the left
- (c) 2nd to the left
- (d) 3rd to the left
- (e) None of these

2. Four of the following five belong to a group in a certain way, who among the following does not belong to that group? , ?

- (a) T
- (b) C
- (c) Q
- (d) V
- (e) Y

3. Who among the following sits diagonally opposite to Q? Q ?

- (a) C
- (b) T
- (c) R
- (d) B
- (e) Y

4. ____ sits 3rd to the left of the one who faces to R. ____ R

- (a) V
- (b) C
- (c) Q
- (d) T
- (e) None of these

5. Which of the following statement is true? ? I. V and Y are not an immediate neighbour/V Y II. B faces outside/B III. U sits immediate left of Q/U, Q

- (a) Both II and III/II III
- (b) Only III/ III
- (c) Only I/ I
- (d) Both I and II/I II
- (e) All I, II and III/ I, II III

Study the following alphanumeric series carefully and answer the questions given below: - - : @ V 1 X AD % G \$ & H J R 6 Y # I L 9 \$ 7 8 %

6. How many numbers in the series are immediately preceded as well as immediately followed by alphabets? , ?
- (a) None
 - (b) One
 - (c) Three
 - (d) Two
 - (e) More than three
-
7. If we eliminated all the vowels in the given series then, which of the following element is 5th to the right of 1? , 1 ?
- (a) Y
 - (b) #
 - (c) G
 - (d) L
 - (e) \$
-
8. How many letters in the series are immediately preceded by symbols? ?
- (a) Three
 - (b) Four
 - (c) None
 - (d) Two
 - (e) More than Four
-
9. Which of the following element is 9th to the left of the element which is 15th from the left end? 15 9 ?
- (a) D
 - (b) L
 - (c) \$
 - (d) 7
 - (e) None of these
-
10. If we eliminated all the alphabets in the given series then, which of the following element is 9th to the left of 8? , 8 9 ?
- (a) 6
 - (b) #
 - (c) \$
 - (d) 1
 - (e) None of these
-

Study the following information carefully and answer the questions given below- - Seven persons go to market on different days of a week starts from Monday. More than three persons go market after U. Four persons go market between U and K. The number of persons goes market between K and H is same as the number of persons goes market after K. Two persons go market between H and R who goes market after S. T goes market just before Y who goes market after Thursday. - U U K K H , K H R , S , T , Y

11. How many persons go market after H? H ?
- (a) More than four
 - (b) Three
 - (c) One

- (d) Two
 - (e) None of these
-

12. Who goes market three days after U? U ?

- (a) Y
 - (b) H
 - (c) R
 - (d) T
 - (e) None of these
-

13. The number of persons goes market between S and U is same as the number of persons goes market before _____. S U , _____

- (a) H
 - (b) R
 - (c) S
 - (d) K
 - (e) None of these
-

14. Which of the following statement is not true? ? I. R goes market before Thursday/R II. H does not go market before T/H, T III. More than three persons go market between Y and S/Y S

- (a) Only III/ III
 - (b) Both II and III/II III
 - (c) Only I/ I
 - (d) Both I and III/I III
 - (e) Only II/ II
-

15. How many persons go market between K and R? K R ?

- (a) More than four
 - (b) Three
 - (c) One
 - (d) Two
 - (e) None
-

In each of the questions below, some statements are given followed by two conclusions numbered I and II. You have to assume all the statements to be true even if they seem to be at variance from the commonly known facts and then decide which of the given two conclusions logically follows from the information given in the statements. , I II

16. Statements: Every shine is cloud. : Only a few cloud are nine. No shine is bright Conclusions: : I. All shine can be nine/ II. All bright can be nine

- (a) If only conclusion I follows/ I
 - (b) If only conclusion II follows/ II
 - (c) If either I or II follows/ I II
 - (d) If neither I or II follows/ I II
 - (e) If both I and II follow/ I II
-

17. Statements: No play is right. / : All music are play. / A few guitar are music./ Conclusions: I. No music is right. II. All guitar can be right. : I. II.

- (a) If only conclusion I follows/ I

- (b) If only conclusion II follows/ II
- (c) If either I or II follows/ I II
- (d) If neither I or II follows/ I II
- (e) If both I and II follow/ I II

18. Statements: Some home are door. Some door are room. No window is door. : Conclusions: I. Some home are window II. No window are home : I. II.

- (a) If only conclusion I follows/ I
- (b) If only conclusion II follows/ II
- (c) If either I or II follows/ I II
- (d) If neither I or II follows/ I II
- (e) If both I and II follow/ I II

19. Statements: Only flowers are petals. / : No leaves are stems. Some stems are flowers. Conclusions: I. All flowers can never be leaves II. No leaves can be flowers : I. II.

- (a) If only conclusion I follows/ I
- (b) If only conclusion II follows/ II
- (c) If either I or II follows/ I II
- (d) If neither I or II follows/ I II
- (e) If both I and II follow/ I II

20. Statements: Only a few cameras are light. / : Only a few cameras are photo. No light is play. Conclusions:/ : I. Some photo can be light II. All play can be camera I. II.

- (a) If only conclusion I follows/ I
- (b) If only conclusion II follows/ II
- (c) If either I or II follows/ I II
- (d) If neither I or II follows/ I II
- (e) If both I and II follow/ I II

21. If we form a four-letter meaningful word with 1st, 4th, 6th and 8th letter from the left end of the word "EDITORIAL" (using each letter only once), then what would be the second letter of that meaningful word? If no meaningful word is formed, then mark the answer as X. If more than one meaningful word is formed then, mark the answer as Z./ "EDITORIAL" , , () , ? , X , Z

- (a) E
- (b) Z
- (c) T
- (d) X
- (e) A

Study the following information carefully and answer the questions given below. Point S is 5m to the east of point R which is 4m to the south of point T. Point K is 7m to the south of point S and 10m to the west of point I. Point R is 3m to the east of point P. Point J is to the north of point I and to the east of point T./ S, R, T 4 , 5 K, S 7 I 10 R, P 3 J, I T

22. What is the shortest distance between point S and point T? S T ?

- (a) 42m
- (b) 31m
- (c) 41m
- (d) $\sqrt{41}$ m

(e) sqrt31m

23. What is the total distance from point K to point J? K J ?

- (a) 19m
 - (b) 21m
 - (c) 25m
 - (d) 29m
 - (e) None of these
-

24. In which direction is point I with respect to point P? P I ?

- (a) North
 - (b) North- west
 - (c) South- east
 - (d) South- west
 - (e) South
-

25. Find the pair of digits in the number '463527139' each of which has as many digits between them as they have in Number series (both in forward and backward direction)? '463527139' , () ?

- (a) Four
 - (b) Three
 - (c) One
 - (d) None of these
 - (e) Two
-

Study the following information carefully and answer the questions given below. Six persons were born on 5th and 28th in the months- January, June and September of the same year. Two persons were born between F and E. F was born in the month having minimum number of days. B was born just before D who was born after E. A born was born on an even numbered date in the month having odd number of days. C was born before A. , 5 28 F E F B D, E , A C , A

26. Who among the following was born on 5th January? 5 ?

- (a) A
 - (b) C
 - (c) E
 - (d) D
 - (e) None of these
-

27. How many persons were born before the one who was born just after D? D ?

- (a) None
 - (b) Three
 - (c) Four
 - (d) Five
 - (e) Two
-

28. Four of the following five belong to a group in a certain way, who among the following does not belong to that group? , ?

- (a) E
- (b) B

- (c) A
 - (d) F
 - (e) D
-

29. Who among the following was born on 28th of September? 28 ?

- (a) F
 - (b) D
 - (c) B
 - (d) E
 - (e) A
-

30. Which among the following statement(s) is/are not true? / / ?

- (a) B was born after C/B , C
 - (b) D was born on an odd numbered date/D
 - (c) At least two persons were born after A/A
 - (d) D and F were born in the same month/D F
 - (e) A and B were born on different numbered date/A B
-

Study the following three-digit five number series carefully and answer the questions given below. - 476 983 458 923 628

31. If the first and third digit of each numbers is interchanged then how many odd numbers are formed? , ?

- (a) One
 - (b) Two
 - (c) Three
 - (d) None
 - (e) More than three
-

32. If the digits within the number are arranged in descending order from left to right then what will be the sum of the highest number and second lowest number thus formed? , ?

- (a) 1877
 - (b) 1847
 - (c) 1837
 - (d) 1820
 - (e) None of these
-

33. If 1 is added to all the even numbers and 2 is subtracted from all the odd numbers then which among the following becomes the third highest number? 1 2 , ?

- (a) 923
 - (b) 983
 - (c) 628
 - (d) 476
 - (e) 458
-

34. If all the numbers are arranged in ascending order from right to left then which among the following is the 4th number from the left end? , ?

- (a) 983
- (b) 628

- (c) 923
 - (d) 476
 - (e) None of these
-

35. How many numbers are divisible by 4? 4 ?

- (a) None
 - (b) One
 - (c) Three
 - (d) More than three
 - (e) Two
-

40. In the given word "POPULISM" all the vowels are changed to their just preceding letter and all the consonants are changed to the just succeeding letter then how many letters appears twice? "POPULISM" , , ?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) None
-

Table give below shows total numbers of fours and sixes hit by three different players. Read the data carefully and answer the questions.

41. Find the difference between total run scored by C from fours and total run scored by A from sixes? C A

- (a) 72
 - (b) 64
 - (c) 74
 - (d) 84
 - (e) 80
-

42. Find the ratio of total run scored by B from sixes to total run scored by C from sixes?/B C

- (a) 2 : 3
 - (b) 4 : 7
 - (c) 3 : 5
 - (d) 5 : 4
 - (e) 4 : 5
-

43. If total fours hit by X is $9\frac{1}{11}\%$ more than that of by C and total sixes hit by X is 25% more than total sixes hit by A, then find total run scored by X from fours & sixes?/ X , C $9\frac{1}{11}\%$ X , A 25% , X

- (a) 472
 - (b) 502
 - (c) 462
 - (d) 482
 - (e) 492
-

44. Find the average of run scored by A and C from fours?/A C

- (a) 218
- (b) 216
- (c) 224

(d) 212

(e) 202

45. Total runs scored by A from fours is what percent (approx..) more than total run scored by B from sixes? A , B () ?

(a) 45%

(b) 75%

(c) 65%

(d) 70%

(e) 55%

Find out the missing number in the given number series.

46. 1, 2, 5, 10, 17, ?

(a) 24

(b) 25

(c) 26

(d) 27

(e) 28

47. 8, 12, 20, 36, 68, ?

(a) 132

(b) 120

(c) 124

(d) 136

(e) 128

48. 2, ?, 30, 74, 154, 282

(a) 16

(b) 18

(c) 12

(d) 10

(e) 15

49. 5, 6, 10, 19, 35, ?

(a) 75

(b) 60

(c) 66

(d) 54

(e) 64

50. 1, 6, 16, 31, 51, ?

(a) 79

(b) 72

(c) 74

(d) 76

(e) 77

51. A man invested Rs. P at the rate of 10% p.a. on simple interest for four years and gets a total interest of Rs. 1000. If he invested Rs. (P + 500) at 20% p.a. on simple interest for two years, then find the interest received by man?/ 10% P 1000. . 20% (P + 500)

- (a) Rs. 800/800 .
 - (b) Rs. 750/750 .
 - (c) Rs. 600/600 .
 - (d) Rs. 400/400 .
 - (e) Rs. 1200/1200 .
-

52. Average age of nine member of a family is 31 years and four months. If the age of youngest members of the family is 18 years, then find the average age (in years) of remaining eight members of the family six years ago? 31 18 , ()

- (a) 30
 - (b) 28
 - (c) 23
 - (d) 27
 - (e) 29
-

53. The population a city after three years will be 21,600. If rate of increase of population per year be 20% then find the present population of the city? 21,600 20%

- (a) 12,500
 - (b) 16,500
 - (c) 14,500
 - (d) 10,500
 - (e) 11,600
-

54. A shopkeeper marks up the price of an article by 40% above cost price. He allows 25% discount on mark price and earns Rs 420 as profit. If he allows discount of 20% at the place of 25%, then find his profit? 40% 25% 420 25% 20%

- (a) Rs 1204/1204
 - (b) Rs 1240/1240
 - (c) Rs 1180/1180
 - (d) Rs 1008/1008
 - (e) Rs 1080/1080
-

55. The circumference of two circles is 132 m and 176 m respectively. Find the difference between the area of larger circle and smaller circle? 132 176

- (a) 1052
 - (b) 1128
 - (c) 1258
 - (d) 1078
 - (e) 1528
-

56. A takes three times as long as B & C together take to do a work. If all the three working together can complete the work in 24 days, then find in how many days A will complete the work alone? B C , A 24 , A ?

- (a) 100
- (b) 96
- (c) 84
- (d) 90
- (e) 104

58. A invested Rs.9000 in a business. After four months, B joined the business with Rs. 'X'. If at the end of the year, the profit share of B is Rs.800 out of the total profit of Rs.1700, then find X? A 9000 B, 'X' 1700 B 800 , 'X'

- (a) 12000
- (b) 14000
- (c) 15000
- (d) 20000
- (e) 18000

59. A container contains mixture of milk and water in which milk is 50% more than that of water. If four liter of milk is added in the vessel, then now milk becomes 100% more than water. Find the initial quantity of mixture? 50% , 100%

- (a) 20 liters
- (b) 24 liters
- (c) 15 liters
- (d) 40 liters
- (e) 36 liters

60. A train having length of 110 meter is running at a speed of 72 kmph. If length of a platform is 4.5 times to the length of the train, then find how much time train will take to cross the platform? 110 72 4.5 , ?

- (a) 25.50 Second
- (b) 20.25 Second
- (c) 35.50 Second
- (d) 30.25 Second
- (e) 40.50 Second

Line graph given below shows total number of three different colour of trousers sold by two (A & B) different shops. Read the data carefully and answer the questions. (A B)

61. Find average number of green & pink trousers sold by both the shops?

- (a) 354
- (b) 344
- (c) 352
- (d) 342
- (e) 337

62. Find the ratio of total number of blue & green trousers sold by A to total number of blue & green trousers sold by B? A B

- (a) 1: 1
- (b) 2 : 3
- (c) 8 : 9
- (d) 5 : 6
- (e) 5 : 4

64. Total number of Black, Blue & Pink trousers sold by A is how much more or less total number of Black, Blue & Pink trousers sold by B? A , , B , ?

- (a) 24
- (b) 30
- (c) 18
- (d) 36

(e) 12

65. Find the total number of all four colour of trousers sold by B? B

- (a) 672
 - (b) 674
 - (c) 682
 - (d) 688
 - (e) 692
-

Two companies A & B manufacturing three different items Balloons, Balls and Toys. Total balloons manufactured by B is 25% more than that of by A and the ratio of total balloons to total balls manufactured by A is 2: 3. The difference between total balloons manufactured by B and total balls manufactured by A is 5 and total balls manufactured by B is six more than that of by A. The ratio of total toys manufactured by A to that of by B is 5: 6 and the difference between total toys manufactured by A and B is 8. A B

78. Find the difference between total balls manufactured by A & B together and total toys manufactured by A & B together? A B A B

- (a) 26
 - (b) 16
 - (c) 18
 - (d) 24
 - (e) 22
-

79. Total balloons manufactured by A is what percent less than total balloons manufactured by B? A , B ?

- (a) 70%
 - (b) 60%
 - (c) 30%
 - (d) 40%
 - (e) 20%
-

80. Find average number of all three items manufactured by A? A

- (a) 40
 - (b) 30
 - (c) 20
 - (d) 36
 - (e) 48
-
