

SBI PO Prelims 2019

100 questions

Directions: Read the following passage carefully and answer the questions given below. Certain words are given in bold to help you locate them while answering some of the questions. Renewable energy is the future, and the future is finally here. Global investment in renewable energy shot up last year, far outstripping investment in fossil fuels, according to a UN report. As the price of clean energy technology plummets, it has become an increasingly attractive prospect for world governments. China was by far the world's largest investor in renewable energy in 2017, accounting for nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year. Other countries including Australia, Sweden and Mexico more than doubled the amount of money they pumped into clean energy projects. "Yet again, this was a record year for new renewable power capacity being financed," Francoise d'Estais from UN Environment's energy and climate branch told The Independent. "We had a record 157 gigawatts commissioned last year, far outstripping the fossil fuel generating capacity, which we estimated as 70 gigawatts." In just over a decade, concerted investment has increased the proportion of world electricity generated by wind, solar and other renewable sources from around 5 per cent to 12 per cent. "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation." But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains ____ (A) ____ to the energy transition. The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year - the equivalent of removing the entire US transport system. According to the Wind and Solar Atlas, there are opportunities and potential for Wind and Solar plants in the East and West Nile areas that will produce around 31,150 MW from wind and 52,300 MW from solar. Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination. The UK has been performing well in clean energy generation, with recent figures showing wind and solar sources had overtaken nuclear as suppliers of electricity. However, despite these positive trends, 2017 saw a big drop of 65 per cent in British renewables investment. Experts have criticised the withdrawal of UK support for onshore wind, as previous analysis has demonstrated it already has the capacity to outcompete fossil fuels as a power source. As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important.

1. Which of the following statements are correct as per the given passage? (I) The decrease in the cost of renewable energy resulted in its wide use. (II) China massively supported solar power and became the largest investor in renewable energy. (III) Egypt is conducting feasibility studies for building the largest solar power plant.

- (a) Only (I)
- (b) Only (II)
- (c) Only (III)
- (d) Both (II) and (III)
- (e) All (I), (II) and (III)

2. What did the author mean by the line "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation."? (I) The growth of renewable energy in the electricity sector is not that impressive. (II) Electricity sector has performed the best for renewables. (III) Hydropower generation has made a significant contribution to the electricity sector.

- (a) Only (I)
- (b) Only (II)
- (c) None
- (d) Both (II) and (III)
- (e) All (I), (II) and (III)

3. Which of the following is/are the positive effect(s) of renewable energy? (I) Overall increase in the global temperature. (II) Reduction in Carbon dioxide emissions to a considerable amount (III) Nile being converted into a biodiversity hotspot.

- (a) Only (I)
 - (b) Only (II)
 - (c) Only (III)
 - (d) Both (II) and (III)
 - (e) All (I), (II) and (III)
-

4. Why are government subsidies likely to become less important for the renewable energy sector?

- (a) Because China is increasing the investment in this sector.
 - (b) Because the price of clean energy technology continues to plummet.
 - (c) Because fossil fuels is the better alternative
 - (d) Because there are opportunities and potential for Wind and Solar plants in the East and West Nile areas
 - (e) None of the above
-

5. Which of the following words will come in place of (A) as given in the passage?

- (a) Elevate
 - (b) Existence
 - (c) Erratic
 - (d) Diabolic
 - (e) Critical
-

6. Which of the following words is most similar in meaning to "accounting for" as given in the passage?

- (a) contradict
 - (b) contributing
 - (c) devious
 - (d) retrieve
 - (e) categorical
-

Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct. On October 29, 1929, Black Tuesday hit Wall Street as investors

7. Which of the following words is most similar in meaning to "plummets" as given in the passage? A) Intensify B) Escalate C) Callous D) Slump E) Reminiscent

- (a) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____
 - (b) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____
 - (c) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____
 - (d) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____
 - (e) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday.
-

Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct. On October 29, 1929, Black Tuesday hit Wall Street as investors ____ (A) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____ (B) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____ (C) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____ (D) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____ (E) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday.

8. (A)

- (a) Traded
 - (b) Invaded
 - (c) Segregated
 - (d) Daunted
 - (e) Halted
-

9. (B)

- (a) Affording
 - (b) Wiping
 - (c) Wanting
 - (d) Vacating
 - (e) Artificial
-

10. (C)

- (a) Reprimanded
 - (b) Embedded
 - (c) Spiraled
 - (d) Mounted
 - (e) Disregarded
-

11. (D)

- (a) Provided
 - (b) Infiltration
 - (c) Dismantle
 - (d) Downturn
 - (e) Diversification
-

12. (E)

- (a) Commotion
 - (b) Impair
 - (c) Significant
 - (d) Proliferation
 - (e) Renovate
-

13. (F)

- (a) Infirmary
 - (b) Credibility
 - (c) Stabilize
 - (d) Burdened
 - (e) Rationalize
-

14. In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer. The plastic ban introduced by the municipality has been a total failure as there has been no reducing in the usage of polybags.

- (a) is no reduce
 - (b) has been no reduction
 - (c) have been no reduced
 - (d) is not any reduced
 - (e) No correction required
-

15. In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer. As per the directives, the retail prices of both petrol and diesel is revising on a daily basis.

- (a) have been revising
 - (b) are revising
 - (c) will be revised
 - (d) is revise
 - (e) No correction required
-

16. In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer. We got everything ready for all of them long before they arrived.

- (a) We had got
 - (b) We have got
 - (c) We have been got
 - (d) We are getting
 - (e) No correction required
-

17. In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer. We still have some farm equipment that hasn't been used since my grandfather died.

- (a) Hasn't been using
- (b) was using
- (c) are using
- (d) should not have been use

(e) No correction required

18. In the question given below, there is a sentence in which one part is given in bold. The part given in bold, may or may not be grammatically correct. Choose the best alternative among the four given which can replace the part in bold to make the sentence grammatically correct. If the part given in bold is already correct and does not require any replacement, choose option (e), i.e. "No correction required" as your answer. Every officer and every resident of this village is determined to do their best to get better ranking in sanitation index.

- (a) to do there best
 - (b) to do its best
 - (c) to do his best
 - (d) to do one's best
 - (e) No correction required
-

19. In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct. The administration has taken positive steps to _____ the education system.

- (a) Increase
 - (b) Devised
 - (c) Renovated
 - (d) Revamp
 - (e) Dispel
-

20. In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct. Health and education sectors are two of the most _____ sectors in the global market.

- (a) benefit
 - (b) necessity
 - (c) profit
 - (d) lucrative
 - (e) Importance
-

21. In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct. She is an aware citizen who has always _____ to contribute to the progress of the country.

- (a) wished
 - (b) admiring
 - (c) prepare
 - (d) motivating
 - (e) stimulate
-

22. In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct. In the beginning, I looked _____ and could not find quite the car I dreamed of.

- (a) after
- (b) around

- (c) above
 - (d) out
 - (e) down
-

23. In the question given below, a sentence is given with a blank. The sentence is then followed by five alternatives out of which one will fit the blank. Choose the alternative that will fit in the blank most appropriately and make the sentence grammatically and contextually correct. The RBI has played conservative in _____ a rate cut of just 25 basis points.

- (a) introduce
 - (b) proposed
 - (c) improving
 - (d) decrease
 - (e) announcing
-

In the following question two columns are given containing three sentences/ phrases each. In first column, sentences/phrases are A, B and C and in the second column the sentences/phrases are D, E and F.

24. A sentence/phrase from the first column may or may not connect with another sentence/phrase from the second column to make a grammatically and contextually correct sentence. The question has five options which display the sequence(s) in which the sentences/phrases can be joined to form a grammatically and contextually correct sentence. Choose the pair(s) which make(s) a grammatically meaningful sentence. Column 1 Column 2 A. The rumours of petrol shortage D. highly resistant for outdoor use. B. The body of camera makes it E. turned out to be false. C. There were no surprises F. the key stakeholders in the economy.

- (a) C-F and A-D
 - (b) B-F
 - (c) A-F
 - (d) C-E
 - (e) B-D and A-E
-

25. A sentence/phrase from the first column may or may not connect with another sentence/phrase from the second column to make a grammatically and contextually correct sentence. The question has five options which display the sequence(s) in which the sentences/phrases can be joined to form a grammatically and contextually correct sentence. Choose the pair(s) which make(s) a grammatically meaningful sentence. Column 1 Column 2 D. one of the European countries during the late stages of the tournament. B. For years, Argentina would dominate in World Cup qualifying matches A. As the rain water began to collect in pools on the highway E. recently unearthed letters argue against this belief. F. it began to hamper the flow of traffic.

- (a) C-F
 - (b) B-F
 - (c) A-F
 - (d) C-E
 - (e) None of these
-

In the following question, one part of the sentence may have an error.

26. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'. People have the freedom (A)/ of speech but at the (B)/ same time each of them (C)/ have to remember their fundamental duties. (D)

- (a) D
- (b) C
- (c) A

- (d) B
 - (e) No error
-

27. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'. The number of students (A)/ competing in the event (B)/ has been fallen (C)/ because of the prize money. (D)

- (a) C
 - (b) A
 - (c) B
 - (d) D
 - (e) No error
-

28. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'. While he used to walk (A)/ along the road, (B)/ a wild and ferocious dog (C)/ knocked him down. (D)

- (a) D
 - (b) B
 - (c) C
 - (d) A
 - (e) No error
-

29. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'. Anaya is even willing (A)/ to make Mexico (B)/ one of the first countries to (c)/ introduces a universal basic income. (D)

- (a) D
 - (b) B
 - (c) C
 - (d) A
 - (e) No error
-

30. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from error, select 'No Error'. There were no surprises (A)/ in the second bimonthly monetary policy (B)/ announcement by the (C)/ Reserve Bank of India. (D)

- (a) D
 - (b) C
 - (c) B
 - (d) A
 - (e) No error
-

Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct. On October 29, 1929, Black Tuesday hit Wall Street as investors ____ (A) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____ (B) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____ (C) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____ (D) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____ (E) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday.

31. The ratio of speed of a boat in still water to the speed of the current is 8:5. If ratio of the time taken by the boat to travel 'D' km downstream to the time taken by the boat to travel (D - 200) km upstream is 1:1, then find the value of D.

- (a) 180
- (b) 320
- (c) 260
- (d) 240
- (e) 300

32. Train 'A' crosses a vertical pole at the speed of 15 m/sec in 20 seconds. Speed of train 'A' is 3 m/sec less than the speed of train 'B', and length of train B is 30 metres less than length of train A. Find the time taken by train 'B' to cross 270 metre long platform.

- (a) 30 seconds
- (b) 24 seconds
- (c) 42 seconds
- (d) 25 seconds
- (e) 20 seconds

33. 25 men can complete a piece of work in 12 days. 16 men started working and after 'x' days, 6 more men joined the work such that the remaining work is completed in 10 days. Find the value of 'x'.

- (a) 8
- (b) 4
- (c) 5
- (d) 6
- (e) 9

34. Cost of cultivating the circular field 'C' at Rs. 10 per meter square is Rs. 3465. Side of the square field 'S' is equals to the diameter of the circular field 'C'. Find the perimeter of square field.

- (a) 120 metres
- (b) 96 metres
- (c) 80 metres
- (d) 64 metres
- (e) 84 metres

35. The cost price of the two chairs is same. On selling one chair, a person got a profit of 12% and on selling another he incurred a loss of 18%. If the difference between their selling prices is Rs. 90, then find the cost price of each chair.

- (a) Rs. 300
 - (b) Rs. 270
 - (c) Rs. 360
 - (d) Rs. 450
 - (e) None of these
-

36. 4 years hence from now, the sum of ages of 'A' and 'B' will be 30 years less than the sum of the present ages of 'B' and 'C'. 4 years ago from now, the sum of ages of A and C was 70 years, then what is the present age of C?

- (a) 54 years
 - (b) 40 years
 - (c) 72 years
 - (d) 58 years
 - (e) 64 years
-

37. 4 years ago from now, the ratio of ages of 'A' and 'B' was 9:11 respectively, and 6 years hence from now, the ratio of ages of A and B will be 7:8, respectively. Find the present age of B.

- (a) 26 years
 - (b) 24 years
 - (c) 30 years
 - (d) 18 years
 - (e) 32 years
-

38. Cost price of article 'A' is twice the cost price of article 'B'. If the selling price of article 'B' is Rs. 3600 and it is sold at the profit of 20%, then find the cost price of article 'A'.

- (a) Rs. 8000
 - (b) Rs. 3000
 - (c) Rs. 6000
 - (d) Rs. 2400
 - (e) Rs. 3600
-

Directions: Answer the questions based on the information given below. The given pie-chart shows the percentage distribution of number of researchers (male + female) in three labs (A, B and C) out of total number of number of researchers (male + female) in the given three labs together i.e. 800. The given table shows the ratio of number of male to female researchers in each of the given labs. Number of (male:female) researchers A 3:4 B 5:3 C 3:2

39. 'A' started business with Rs. 800, while 'B' with Rs. 1200. After 4 months 'B' left, and 'C' joined with capital Rs. 400 more than 'B'. If at the end of year, profit of C was Rs 3200, then find the total profit earned by all three together.

- (a) Rs. 5100
 - (b) Rs. 3400
 - (c) Rs. 6800
 - (d) Rs. 8500
 - (e) None of these
-

40. In lab 'D', the number of male researchers is 25% more than that in lab 'A'. If the ratio of the number of male to female researchers in lab 'D' is 10:9, then find the total number of researchers in lab 'D'.

- (a) 285
- (b) 260
- (c) 245
- (d) 225

(e) 280

41. Find the total number of male researchers in all the three labs together.

- (a) 540
 - (b) 320
 - (c) 420
 - (d) 360
 - (e) 440
-

42. Out of total number of researchers in lab 'C', 45% are foreigners. If there are 35 female researchers in lab 'C' who are not foreigner, then find the number of male researchers who are foreigner in lab 'C'.

- (a) 35
 - (b) 45
 - (c) 55
 - (d) 40
 - (e) 65
-

43. What is the value of central angle (in degrees) corresponding to number of researchers at lab 'B'.

- (a) 144°
 - (b) 156°
 - (c) 132°
 - (d) 125°
 - (e) 172°
-

44. The number of female researchers in lab 'C' is how much percent more/less than the number of male researchers in lab 'B'?

- (a) 45%
 - (b) 60%
 - (c) 55%
 - (d) 80%
 - (e) None of these
-

45. Find the average number of female researchers in each of the three labs.

- (a) 130
 - (b) 115
 - (c) 100
 - (d) 135
 - (e) 120
-

46. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) 12.45% of $(104.96 + 14.99^2) = ?$

- (a) 22
 - (b) 124
 - (c) 40
 - (d) 80
 - (e) 96
-

47. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) $12.45 \times \sqrt{624.98 + 99.78} = ? \times 19.68$

- (a) 75
 - (b) 5
 - (c) 50
 - (d) 35
 - (e) 20
-

48. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) $5.12 + (? - 9.89) - 4.34^2 = 19.89$

- (a) 80
 - (b) 10
 - (c) 60
 - (d) 25
 - (e) 40
-

49. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) $(4.89)^2 + \sqrt{144.35} - \sqrt{121.25} = ?$

- (a) 40
 - (b) 75
 - (c) 26
 - (d) 14
 - (e) 58
-

50. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) $15.01\% \text{ of } 199.98 + \sqrt{1599.99} = ? \times 5.25$

- (a) 20
 - (b) 14
 - (c) 28
 - (d) 6
 - (e) 36
-

51. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $x^2 = 324$ II. $y^2 - 33y + 270 = 0$

- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-

52. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $2x + 5y = 38$ II. $5x - 2y = 8$

- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-

53. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $(x - 8)^2 = (x - 8)$ II. $(y - 7)^2 = y - 7$
- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-
54. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $x^2 + 3x - 28 = 0$ II. $y^2 + 17y + 72 = 0$
- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-
55. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $x^2 + 11x + 28 = 0$ II. $y^2 - 2y - 15 = 0$
- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-
56. What will come in place of the question mark (?) in the following series? 120, 128, 112, ?, 104, 144
- (a) 148
 - (b) 136
 - (c) 124
 - (d) 132
 - (e) 156
-
57. What will come in place of the question mark (?) in the following series? 16, 8, 8, 12, 24, ?
- (a) 64
 - (b) 80
 - (c) 72
 - (d) 54
 - (e) 60
-
58. What will come in place of the question mark (?) in the following series? 120, ?, 336, 372, 390, 399
- (a) 264
 - (b) 252
 - (c) 260
 - (d) 276
 - (e) 284
-
59. What will come in place of the question mark (?) in the following series? 1, 8, 56, 336, 1680, ?
- (a) 5640

- (b) 6720
 - (c) 6840
 - (d) 6600
 - (e) None of these
-

Directions: Answer the questions based on the information given below. The given bar graph shows the total number of employees (officers + clerks) in four different offices. The given table shows the number of officers in given four offices. Number of officers A B 120/60 C D 150/60

60. What will come in place of the question mark (?) in the following series? 24, 28, 36, 50, 72, ?

- (a) 90
 - (b) 108
 - (c) 104
 - (d) 110
 - (e) 112
-

61. Find the average of the number of clerks in office 'A', 'B' and 'D' together.

- (a) 90
 - (b) 105
 - (c) 100
 - (d) 95
 - (e) 110
-

62. Find the ratio of number of officers in office 'A' to the number of clerks in office 'C'.

- (a) 5:2
 - (b) 6:5
 - (c) 2:1
 - (d) 4:3
 - (e) None of these
-

63. If 50% of officers in office 'A' are males, and 75% of clerks in office 'D' are females, then find the difference between the number of male officers in office 'A' and male clerks in office 'D'.

- (a) 25
 - (b) 35
 - (c) 45
 - (d) 60
 - (e) 50
-

64. Number of officers in office 'B' is how much percent more/less than the number of clerks in office 'A'?

- (a) 15%
 - (b) 40%
 - (c) 35%
 - (d) 20%
 - (e) 25%
-

Direction: Answer the questions based on the information given below. Six boxes P, Q, R, S, T and U of different colors i.e. Orange, Red, Black, Yellow, Pink and White are placed one above another but not necessarily in same order. Box R is placed just above the orange colored box. One box is placed between P and orange colored box. Three boxes are placed between P and pink colored box. Two boxes are placed between S and T. Red colored box is placed just below P. There are as many boxes placed above red colored box as below T. T is not Orange colored box. Black colored box is placed just above yellow colored box. U is placed above Q.

65. In office 'E', total number of employees (officers + clerks) is 25% more than that in office 'C'. If the number of clerks in office 'E' is 120, then find the number of officers in office 'E'.

- (a) 200
 - (b) 160
 - (c) 180
 - (d) 120
 - (e) 150
-

66. Which box is placed at the top?

- (a) The white colored box
 - (b) Box Q
 - (c) The Pink colored box
 - (d) Box R
 - (e) None of the above
-

67. Which box is placed just above the Orange colored box?

- (a) The Red colored box
 - (b) The Yellow colored box
 - (c) The Black colored box
 - (d) The White colored box
 - (e) None of the above
-

68. _____ box is of Red color.

- (a) Box T
 - (b) Box Q
 - (c) Box R
 - (d) Box P
 - (e) None of the above
-

69. How many boxes are there in between the box T and the Black colored box?

- (a) Two
 - (b) One
 - (c) Three
 - (d) None
 - (e) Four
-

Direction: Answer the questions based on the information given below. Point A is 5m west of point B. Point D is 16m north of point B. Point A is 25m south of point C. Point C is 10m west of point E. Point E is 9m north of Point F.

70. Which box is placed two places above the box P?

- (a) Box R
- (b) Box Q

- (c) Box T
 - (d) Box U
 - (e) None of the above
-

71. Point F is at how much distance and in which direction with respect to point D?

- (a) 10m, East
 - (b) 5m, North
 - (c) 12m, South east
 - (d) 5m, East
 - (e) None of the above
-

72. If point H is in west of point F and in north of point A, then what is the distance between points C and H?

- (a) 9m
 - (b) 10m
 - (c) 20m
 - (d) 5m
 - (e) None of the above
-

Direction: Answer the questions based on the information given below. Nine persons namely, A, B, C, D, E, F, G, H and I are sitting in a row. Some of them are facing north and some are facing south. A sits second from one of the extreme ends. Two persons sit between A and C. D sits third to the left of C. F sits second to the right of D. Immediate neighbors of D face the opposite direction to D. E sits second to the right of F. H is an immediate neighbor of E. Persons sitting at extreme ends are facing opposite direction to each other. A sits second to the right of E. H and A do not face north. B sits second to the left of G. I doesn't face south.

73. What is the direction of Point E with respect to Point A?

- (a) North West
 - (b) South West
 - (c) South East
 - (d) North
 - (e) North East
-

74. Who sits 2nd to the right of H?

- (a) I
 - (b) A
 - (c) G
 - (d) C
 - (e) None of the above
-

75. Who sits to the immediate right of B?

- (a) D
 - (b) F
 - (c) I
 - (d) C
 - (e) None of the above
-

76. How many persons are sitting between I and E?

- (a) None

- (b) One
 - (c) Two
 - (d) Three
 - (e) Four
-

77. Who sits 3rd to the right of I?

- (a) E
 - (b) No one
 - (c) F
 - (d) C
 - (e) G
-

Direction: Answer the questions based on the information given below. There are six poles i.e. P, Q, R, S, T and U of different heights. Q is taller than P. T is taller than Q. T is shorter than only R. U is taller than Q. P is not the shortest pole. The length of 2nd tallest pole is 54m and 3rd shortest pole is 30m.

78. Find the odd one out.

- (a) G
 - (b) I
 - (c) B
 - (d) H
 - (e) A
-

79. Which among the following pole is the 3rd highest pole?

- (a) Q
 - (b) P
 - (c) U
 - (d) R
 - (e) None of the above
-

80. What may be the possible height of pole U?

- (a) 20m
 - (b) 55m
 - (c) 25m
 - (d) 40m
 - (e) 61m
-

Direction: Answer the questions based on the information given below. Z is married to C. B and D are the children of C. D is married to daughter of K, who is married to M. K is mother of R, who is husband of N. H is the grandson of C and K. L is son of N. V is only sibling of H. D has only one daughter. Both C and V are of same gender.

81. If the sum of the heights of T and S is 80m and the sum of heights of poles R and Q is 120m then what is the difference between the heights of poles R and S?

- (a) 54m
 - (b) 64m
 - (c) 70m
 - (d) 90m
 - (e) None of the above
-

82. If O is the wife of D then how O is related to L?

- (a) Mother
 - (b) Sister
 - (c) Aunt
 - (d) Grandmother
 - (e) Can't be determined
-

83. How is Z related to V?

- (a) Father
 - (b) Grandfather
 - (c) Sister
 - (d) Aunt
 - (e) None of the above
-

Direction: Answer the questions based on the information given below. Seven persons P, Q, R, S, T, U and V, who live on seven different floors in a building. They work in seven different companies i.e. Google, IBM, Xiaomi, TCS, Infosys, Wipro and Samsung but not in the same order. The one, who works in IBM, lives just above U, who works in TCS. S lives just below the floor on which R lives. Person who works in Samsung company and T do not live on an even numbered floor. The one who works in Infosys lives on even number floor below the fourth floor. There is only one floor between the floors on which S and the one who works in Wipro live. P lives on either topmost or lowermost floor. There are two floors between the one who works in TCS and the one who works Wipro. The one who lives on topmost floor works IBM company. Only two persons live below Q. The one who works Google lives on fifth floor.

84. If Z has only two children, one daughter and one son then how is B related to the wife of D?

- (a) Sister-in-law
 - (b) Sister
 - (c) Brother-in-law
 - (d) Daughter
 - (e) None of the above
-

85. Who lives on 4th floor?

- (a) R
 - (b) S
 - (c) V
 - (d) T
 - (e) None of the above
-

86. Who works in Samsung company?

- (a) R
 - (b) S
 - (c) T
 - (d) P
 - (e) None of the above
-

87. _____ lives just below the one who works in TCS?

- (a) The one who works in Wipro
 - (b) The one who works in Infosys
 - (c) The one who works in Xiaomi
-

- (d) The one who works in Google
 - (e) The one who works in Samsung
-

88. Who lives on 2nd floor?

- (a) Q
 - (b) P
 - (c) R
 - (d) U
 - (e) None of these
-

Direction: Answer the questions based on the information given below. Six persons A, B, C, D, E and F are sitting around a triangular table such that three of them are sitting at the corner of the table while other three are sitting at the middle of the table. Persons who are sitting at corner are facing towards the table and the persons who are sitting at middle of the table are facing outside the table. A sits at one of the corners of the table. D is an immediate neighbor of A. Two persons sit between D and B. C sits immediate right of B but not at any corner. E is to the immediate right of F. F does not sit at any of the corner of the table.

89. Who lives two floors above V?

- (a) The one who works in TCS
 - (b) The one who works in Xiaomi
 - (c) The one who works in IBM
 - (d) The one who works in Samsung
 - (e) None of the above
-

90. Who sits 2nd to the right of B?

- (a) D
 - (b) E
 - (c) A
 - (d) F
 - (e) None of the above
-

91. Who is sitting between A and E when counted from the right of A?

- (a) D
 - (b) F
 - (c) C
 - (d) B
 - (e) None of the above
-

92. Who sits 2nd to the right of E?

- (a) F
 - (b) C
 - (c) A
 - (d) B
 - (e) None of the above
-

93. Who are sitting at the corners of the table?

- (a) A, B and C
- (b) B, A, and F

- (c) C, D and E
 - (d) E, D and A
 - (e) A, B and E
-

94. In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Statements: Only a few laptop is tablet All tablet is mobile Some mobile is headphone Conclusions: I. All headphone being laptop is a possibility II. All tablet is laptop

- (a) Only conclusion I follows
 - (b) Neither conclusion I nor II follows
 - (c) Only conclusion II follows
 - (d) Both conclusion I and II follows
 - (e) Either conclusion I or II follows
-

95. In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Statements: All bottle is cup Only a few cup is plate Mostly plate is jug Conclusions: I. Some jug is not cup II. All plate is bottle

- (a) Only conclusion I follows
 - (b) Neither conclusion I nor II follows
 - (c) Only conclusion II follows
 - (d) Both conclusions I and II follow
 - (e) Either conclusion I or II follows
-

96. In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Statements: Only a few TV is cinema No cinema is movie All movie is hit Conclusions: I. All TV being cinema is a possibility II. Some hit are not cinema

- (a) Only conclusion I follows
 - (b) Neither conclusion I nor II follows
 - (c) Only conclusion II follows
 - (d) Both conclusions I and II follow
 - (e) Either conclusion I or II follows
-

97. In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Statements: Few trucks is tyres Only a few alloys is wheels No tyre is alloy Conclusions: I. Some wheels can be tyre II. Some trucks is not alloy

- (a) Both conclusion I and conclusion II follow
 - (b) Only conclusion II follows
 - (c) Only conclusion I follows
 - (d) Neither conclusion I nor conclusion II follows
 - (e) None of these
-

In the following question, assuming the given statements to be true, find which of the conclusion (s) among given three conclusions is /are definitely true and then give your answer accordingly. Statements:

98. $P < S = T < O$; $X > W \geq O < G$; $K < Y < W$ Conclusions: I. $P < X$ II. $K < T$ III. $G > Y$

- (a) Only conclusion I is true
 - (b) Only conclusion II is true
 - (c) Both conclusions II and III are true
 - (d) Both conclusions I and II are true
 - (e) All conclusions I, II and III are true.
-

Direction: Answer the questions based on the information given below. Six persons A, B, C, D, E and F are sitting around a triangular table such that three of them are sitting at the corner of the table while other three are sitting at the middle of the table. Persons who are sitting at corner are facing towards the table and the persons who are sitting at middle of the table are facing outside the table. A sits at one of the corners of the table. D is an immediate neighbor of A. Two persons sit between D and B. C sits immediate right of B but not at any corner. E is to the immediate right of F. F does not sit at any of the corner of the table.

99. How many such pairs of letters are there in the word 'HORTICULUTRAL' each of which has as many letters between them in the word as in the English alphabetical order?

- (a) One
 - (b) Two
 - (c) Four
 - (d) Five
 - (e) Six
-

Directions: Read the following passage carefully and answer the questions given below. Certain words are given in bold to help you locate them while answering some of the questions. Renewable energy is the future, and the future is finally here. Global investment in renewable energy shot up last year, far outstripping investment in fossil fuels, according to a UN report. As the price of clean energy technology plummets, it has become an increasingly attractive prospect for world governments. China was by far the world's largest investor in renewable energy in 2017, accounting for nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year. Other countries including Australia, Sweden and Mexico more than doubled the amount of money they pumped into clean energy projects. "Yet again, this was a record year for new renewable power capacity being financed," Françoise d'Estais from UN Environment's energy and climate branch told The Independent. "We had a record 157 gigawatts commissioned last year, far outstripping the fossil fuel generating capacity, which we estimated as 70 gigawatts." In just over a decade, concerted investment has increased the proportion of world electricity generated by wind, solar and other renewable sources from around 5 per cent to 12 per cent. "The electricity sector remains the brightest spot for renewables with the exponential growth of solar photovoltaics and wind in recent years, and building on the significant contribution of hydropower generation." But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains ____ (A) ____ to the energy transition. The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year - the equivalent of removing the entire US transport system. According to the Wind and Solar Atlas, there are opportunities and potential for Wind and Solar plants in the East and West Nile areas that will produce around 31,150 MW from wind and 52,300 MW from solar. Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination. The UK has been performing well in clean energy generation, with recent figures showing wind and solar sources had overtaken nuclear as suppliers of electricity. However, despite these positive trends, 2017 saw a big drop of 65 per cent in British renewables investment. Experts have criticised the withdrawal of UK support for onshore wind, as previous analysis has demonstrated it already has the capacity to outcompete fossil fuels as a power source. As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important. 1: None A) Only (I) B) Only (II) C) Only (III) D) Both (II) and (III) E) All (I), (II) and (III) 2: None A) Only (I) B) Only (II) C) None D) Both (II) and (III) E) All (I), (II) and (III) 3: None A) Only (I) B) Only (II) C) Only (III) D) Both (II) and (III) E) All (I), (II) and (III) 4: None A) Because China is increasing the investment in this sector. B) Because the price of clean energy technology continues to plummet. C) Because fossil fuels is the better alternative D) Because there are opportunities and potential for Wind and Solar plants in the East and West Nile areas E) None of the above 5: None A) Elevate B) Existence C) Erratic D) Diabolic E) Critical 6: None A) contradict B) contributing C) devious D) retrieve E) categorical 7: None A) Intensify B) Escalate C) Callous D) Slump E) Reminiscent Direction: Given below is a paragraph consisting of blanks against each letter. Identify the correct option among the five alternative pairs that perfectly fits into the given blank against the respective letter to make the paragraph contextually meaningful and grammatically correct. On October 29, 1929, Black Tuesday hit Wall Street as investors ____ (A) ____ some 16 million shares on the New York Stock Exchange in a single day. Billions of dollars were lost, ____ (B) ____ out thousands of investors. In the aftermath of Black Tuesday, America and the rest of the industrialized world ____ (C) ____ downward into the Great Depression (1929-39), the deepest and longest-lasting economic ____ (D) ____ in the history of the Western industrialized world up to that time. During the 1920s, the U.S. stock market underwent rapid expansion, reaching its peak in August 1929, after a period of wild speculation. By then, production had already declined and unemployment had risen, leaving stocks in great excess of their real value. Among the other causes of the eventual market collapse were low wages, the ____ (E) ____ of debt, a struggling agricultural sector and an excess of large bank loans that could not be liquidated. Stock prices began to decline in September and early October 1929, and on October 18 the fall began. Panic set in, and on October 24, Black Thursday, a record 12,894,650 shares were traded. Investment companies and leading bankers attempted to ____ (F) ____ the market by buying up great blocks of stock, producing a moderate rally on Friday. 8: None A) Traded B) Invaded C) Segregated D) Daunted E) Halted 9: None A) Affording B) Wiping C) Wanting D) Vacating E) Artificial 10: None A) Reprimanded B) Embedded C) Spiraled D) Mounted E) Disregarded 11: None A) Provided B) Infiltration C) Dismantle D) Downturn E) Diversification 12: None A) Commotion B) Impair C) Significant D) Proliferation E) Renovate 13: None A) Infirmary B) Credibility C) Stabilize D) Burdened E) Rationalize 14: None A) is no reduce B) has been no reduction C) have been no reduced D) is not any reduced E) No correction required 15: None A) have been revising B) are revising C) will be revised D) is revise E) No correction required 16:

All the three statements are true. (I) is correct. Refer to the lines: As the price of clean energy technology plummets, it has become an increasingly attractive prospect for world governments. (II) is correct. Refer to the lines: China was by far the world's largest investor in renewable energy in 2017, accounting for nearly half of the new infrastructure commissioned. This was mainly a result of its massive support for solar power, which globally attracted nearly a fifth more investment than in the previous year (III) is correct. Refer to the lines: Egypt is also considering financing options to conduct feasibility studies for building the world largest solar power plant for both electricity generation and water desalination. Solution 2: D) (d) is the right answer. The author seeks to convey that the contribution of renewables in the electricity sector has been significant. Solar and wind energy have grown considerably because of their contributions. It also tells us that they have "built on" the contributions of hydropower. TO BUILD ON means to use a success or achievement as a base from which to achieve more success. Thus, the contribution of hydropower to electricity generation was already significant. Solution 3: B) (b) is the right answer. Refer to the lines: The global replacement of traditional fuels with renewables led to around 1.8 gigatonnes of carbon dioxide emissions being avoided last year - the equivalent of removing the entire US transport system. The passage talks about reduction in carbon dioxide emissions as a possible effect on using renewable energy. (I) is not a positive effect. (III) has not been mentioned in the passage. Solution 4: B) (b) is the right answer. Refer to the lines: As renewable energy prices continue to fall because of consistent advancement in technology, subsidies are likely to become less and less important. The passage explicitly states that the price of renewable energy is falling because of advancement in clean energy technology. The other options are incorrect because they do not provide the actual reason. Solution 5: E) (e) is the right answer. Sentence: But, electricity accounts for only a fifth of global energy consumption, and the role of renewables in the transportation and heating sectors remains ____ (A) ____ to the energy transition. We need an adjective to modify the noun ROLE. The sentence seeks to convey that electricity constitutes for only one-fifth of the global energy consumption and renewable energy needs to play a significant part in the process of shifting away from fossil fuel consumption in the transportation and heating sectors. CRITICAL fits contextually in the blank. A CRITICAL factor is used to describe something that is extremely important. ELEVATE- to raise or lift (something) to a higher position. EXISTENCE- the fact or state of living or having objective reality. ERRATIC- unpredictable DIABOLIC-extremely cruel or unpleasant. Solution 6: B) (b) is the right answer. If a particular thing ACCOUNTS FOR a part or proportion of something, that part or proportion consists of that thing, or is used or produced by it. CONTRIBUTING is the one with the most similar meaning. Contradict- to oppose or provide and opposite point of view Devious- dishonest Retrieve- to get or bring (something) back from somewhere. Solution 7: D) (d) is the right answer. If an amount, rate, or price plummets, it decreases quickly by a large amount. SLUMP is the most similar in meaning. Intensify- become or make more intense/stronger Escalate- increase rapidly. Callous- showing or having an insensitive and cruel disregard for others. Reminiscent- suggesting something by resemblance. Solution 8: A) We need a verb here to link the subject INVESTORS with the object SHARES. TRADED (dealt; bought and sold) will fit here as the sentence tells us how the investors bought and sold some 16 million shares in a single day. Thus

100. In the question, relationship between some elements is shown in the statements (s). These statements are followed by two conclusions. Read the statements and give answer. Statements: A >= K > L >= M; B > K > O = P Conclusions: I. P < M II. A >= P A) Only conclusion I is true B) Only conclusion II is true C) Either conclusion I or II is true D) Neither conclusion I nor II is true E) Both conclusions I and II are true

(a) is the right answer. Invaded - entered without permission. Segregated - separated. Daunted - frightened; intimidated. Halted - stopped. Solution 9: B) We need a present participle form verb here to link the two clauses of the sentences. WIPING OUT (destroying) will fit here as the sentence tells us how investors were destroyed as billions of dollars were lost. Thus

(b) can replace it and convey the requisite meaning, which makes it the right answer. A is incorrect because the verb IS should be followed by a noun that will serve as its object; REDUCE is a verb. C is incorrect likewise, because REDUCED is a verb; moreover, the plural verb HAVE is incorrect. D is incorrect we need a phrase ending with a noun so that the preposition IN can follow. Solution 15: C) The sentence conveys that the retail prices of petrol and diesel is to be revised on a daily basis. We need a passive voice verb phrase here as the sentence already specified what is to be revised - the retail prices of fuel. The highlighted phrase is incorrect as IS REVISING is an active voice verb phrase, and will convey the meaning that it is the retail prices that are doing the revising rather than being the object of the revision, which is absurd.

(c) can replace it and convey the requisite meaning. A and B are incorrect likewise, because they are in active voice. D is incorrect as it uses the base form verb REVISE instead of the past participle REVISED for a passive voice construction, which is incorrect. Solution 16: A) The sentence conveys that the author had arranged everything prior to their arrival. Here, the sentence talks of two events, both of which took place in the past - (1) the act of getting everything ready, and (2) their arrival. When a sentence talks about two past events, the past perfect tense is used for the event which took place earlier than the other. The highlighted phrase is incorrect as it uses the simple past tense WE GOT, and should be replaced with the past perfect WE HAD GOT, as the first event (the act of getting things ready) took place BEFORE the second event (their arrival). Thus

(d) is the right answer. Commotion - disorder. Impair (verb) - break or make something stop functioning. Significant (adjective) - important. Renovate (verb) - change the appearance of something. Solution 13: C) We need a base form verb here to fit in the infinitive construction TO + VERB. STABILIZE (make steady) will fit here as the sentence tells us how investment companies and bankers tried to make the market steady by buying up more stock. Thus
