

SBI PO Prelims 2020

100 questions

In the following question, match the sentences beginning in Column 1 with their appropriate endings in Column 2.
Column 1 Column 2 D.

1. because of factors like visa-free movement, easier access to information, and low-budget travel options. A. The number of black people at the top of Britain's biggest listed companies has fallen to zero, B. A product's first review E. despite public commitments to increase diversity in leadership. C. Migration, both domestic and international, is on the rise in Asia and the Pacific, F. can have an outsized effect on the item's future.

- (a) A and D
- (b) A and F
- (c) B and E
- (d) C and D
- (e) C and E

In the following question, match the sentences beginning in Column 1 with their appropriate endings in Column 2.
Column 1 Column 2 A.

2. The more carbon dioxide plants and trees absorb during photosynthesis, D. the less CO₂ remains trapped in the atmosphere where it can cause temperatures to rise. B. It is difficult for parents to figure out how to avoid plastic toys containing chemicals E. are likely to hold stronger beliefs that there is a god who creates patterns of events in the universe. C. Individuals who can unconsciously predict complex patterns F. that may cause possible health risks to their children.

- (a) A and D
- (b) A and E
- (c) B and D
- (d) B and E
- (e) C and F

3. When we are uncertain about something, D. is not extended equally to those who suffer the greatest costs. E. which can make them more likely to experience physical or mental health conditions and memory problems. C. Benefits of climate policies and the ability to shape such policy B. About half of all older adults report sleeping difficulties, F. we automatically rely on our prior experiences to optimize behavior.

- (a) A and D
- (b) A and E
- (c) B and E
- (d) C and E
- (e) C and F

4. In the question below, a sentence is given, four words have been highlighted in bold. Find out if the words are appropriate (grammatically and contextually). Only one word will be inappropriate, mark that as your answer. If all are appropriate, mark "All are correct". The wind farm at Watchfield has sparked much contradiction and I have been accused by two letter writers of publishing inaccurate information.

- (a) sparked
- (b) contradiction
- (c) accused
- (d) inaccurate
- (e) All are correct

5. In the question below, a sentence is given, four words have been highlighted in bold. Find out if the words are appropriate (grammatically and contextually). Only one word will be inappropriate, mark that as your answer. If all are appropriate, mark "All are correct". Over the course of the last two decades the organisation of governmental activity has undergone a radical transformation.

- (a) coarse
 - (b) undergone
 - (c) radical
 - (d) transformation
 - (e) All are correct
-

6. In the question below, a sentence is given, four words have been highlighted in bold. Find out if the words are appropriate (grammatically and contextually). Only one word will be inappropriate, mark that as your answer. If all are appropriate, mark "All are correct". It is a historic city that has struggled to boost its ailing economy, and must polish its reputation as a tourist and convention centre.

- (a) boost
 - (b) ailing
 - (c) polish
 - (d) reputation
 - (e) All are correct
-

7. In the question below, a sentence is given, four words have been highlighted in bold. Find out if the words are appropriate (grammatically and contextually). Only one word will be inappropriate, mark that as your answer. If all are appropriate, mark "All are correct". It has been said the butter may reduce the risk of cancer because it contains healthy bacteria which aids digestion and boosts immune response.

- (a) reduce
 - (b) complains
 - (c) aids
 - (d) boosts
 - (e) All are correct
-

Directions: In the following passage, some of the words have been left out and replaced by a blank represented by a letter. First read the passage and try to understand what it is about. Then fill in the blanks as per the questions given. Industrialized fishing has remade the world's oceans, stripping ____

8. In the question below, a sentence is given, four words have been highlighted in bold. Find out if the words are appropriate (grammatically and contextually). Only one word will be inappropriate, mark that as your answer. If all are appropriate, mark "All are correct". This inexpensive software has the ability to invisibly monitor and record all computer activity including keystrokes. A) inexpensive B) ability C) monitor D) record E) All are correct

- (a) ____ predators from the marine environment in huge numbers. Over the last 50 years, humans have wiped out 71 percent of oceanic sharks and rays. The true death toll for these vital ocean-going species may be even higher than the dismal figure researchers ____
 - (b) ____ at. That's because many of the most severely ____
 - (c) ____ parts of the ocean had already been ____
 - (d) ____ by industrialized fishing fleets for 20 years when the dataset behind the new study begins. There are 31 species of oceanic sharks and rays. Of those, 24 are now threatened with extinction and several, like the oceanic whitetip, are now ____
 - (e) ____ as critically endangered--a conservation classification only one step removed from extinction in the wild.
-

Directions: In the following passage, some of the words have been left out and replaced by a blank represented by a letter. First read the passage and try to understand what it is about. Then fill in the blanks as per the questions given. Industrialized fishing has remade the world's oceans, stripping ___(A)___ predators from the marine environment in huge numbers. Over the last 50 years, humans have wiped out 71 percent of oceanic sharks and rays. The true death toll for these vital ocean-going species may be even higher than the dismal figure researchers ___(B)___ at. That's because many of the most severely ___(C)___ parts of the ocean had already been ___(D)___ by industrialized fishing fleets for 20 years when the dataset behind the new study begins. There are 31 species of oceanic sharks and rays. Of those, 24 are now threatened with extinction and several, like the oceanic whitetip, are now ___(E)___ as critically endangered--a conservation classification only one step removed from extinction in the wild.

9. (A)

- (a) cynical
 - (b) crucial
 - (c) humorous
 - (d) hideous
 - (e) polite
-

10. (B)

- (a) arrived
 - (b) hindered
 - (c) induced
 - (d) extracted
 - (e) repeated
-

11. (C)

- (a) distorted
 - (b) deferred
 - (c) fated
 - (d) depleted
 - (e) ousted
-

12. (D)

- (a) reduced
 - (b) revised
 - (c) released
 - (d) rummaged
 - (e) ravaged
-

13. (E)

- (a) assisted
 - (b) insisted
 - (c) listed
 - (d) persisted
 - (e) denied
-

14. Which of the following phrases (1), (2), and (3) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? Choose the best option among the five given alternatives that reflect the correct use of the phrase in the context of the grammatically correct sentence. If the sentence is correct as it is, mark 'No Improvement' as the answer. Though the number of recorded firearm offenses in England and Wales dropped 37 percent between 2005 and 2011, crimes involving guns have increased substantial. 1. Have experienced an uptick 2. Have grown in number 3. Are on the rise

- (a) Only 1 and 2
 - (b) Only 1 and 3
 - (c) Only 2 and 3
 - (d) All 1, 2 and 3
 - (e) No Improvement
-

15. Which of the following phrases (1), (2), and (3) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? Choose the best option among the five given alternatives that reflect the correct use of the phrase in the context of the grammatically correct sentence. If the sentence is correct as it is, mark 'No Improvement' as the answer. Effective policing and enforcement of existing gun laws, as good as ambitious research efforts aimed at pinpointing the drivers of mass violence, are just as essential as stricter regulations. 1. As opposed to 2. Along with 3. In addition to

- (a) Only 1 and 2
 - (b) Only 1 and 3
 - (c) Only 2 and 3
 - (d) All 1, 2 and 3
 - (e) No Improvement
-

16. Which of the following phrases (1), (2), and (3) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? Choose the best option among the five given alternatives that reflect the correct use of the phrase in the context of the grammatically correct sentence. If the sentence is correct as it is, mark 'No Improvement' as the answer. When the Spanish Civil War began, in 1936, fascism was on the march across Europe. 1. Expanding all about 2. Spread across 3. Is sweeping across

- (a) Only 1 and 2
 - (b) Only 1 and 3
 - (c) Only 2 and 3
 - (d) All 1, 2 and 3
 - (e) No Improvement
-

17. Which of the following phrases (1), (2), and (3) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? Choose the best option among the five given alternatives that reflect the correct use of the phrase in the context of the grammatically correct sentence. If the sentence is correct as it is, mark 'No Improvement' as the answer. Spain, which refused to took sides during the war despite secret cooperation with the Axis powers, chose a different path. 1. Which remained neutral 2. Which did not take sides 3. Which asserted its neutrality

- (a) Only 1 and 2
 - (b) Only 1 and 3
 - (c) Only 2 and 3
 - (d) All 1, 2 and 3
 - (e) No Improvement
-

18. Which of the following phrases (1), (2), and (3) given below each sentence should replace the phrase printed in bold letters to make the sentence grammatically correct? Choose the best option among the five given alternatives that reflect the correct use of the phrase in the context of the grammatically correct sentence. If the sentence is correct as it is, mark 'No Improvement' as the answer. Lactic acid is a by-product that's produced in the muscle fibres when they fail to satisfied the energy demands. 1. Are unable to meet 2. Can't keep up with 3. Is unable to fulfil

- (a) Only 1 and 2
 - (b) Only 1 and 3
 - (c) Only 2 and 3
 - (d) All 1, 2 and 3
 - (e) No Improvement
-

In the following question, three sentences are given, revolving around the same theme or idea.

19. Decide which of the sentences are grammatically and meaningfully correct and mark the answer accordingly. 1. Perhaps the closest American parallel to the Dunblane massacre is the Sandy Hook Elementary School shooting, which claimed the lives of 20 first-graders. 2. The 2012 attack led Connecticut and neighbouring New York to pass stricter gun legislation. 3. But federal gun control laws have remained largely unchanged.

- (a) Only 1
 - (b) Only 1 and 2
 - (c) Only 1 and 3
 - (d) Only 2 and 3
 - (e) All 1, 2 and 3
-

20. Decide which of the sentences are grammatically and meaningfully correct and mark the answer accordingly. 1. For housewives in pre-Industrial Revolution Europe, it wasn't enough to know how to cooked a good meal. 2. They were also expected to know how to make medicines and treat sick members of there household. 3. While this was likely a worldwide phenomenon, Europeans left a massive trove of evidence to scrutinize.

- (a) Only 3
 - (b) Only 1 and 2
 - (c) Only 1 and 3
 - (d) Only 2 and 3
 - (e) All 1, 2 and 3
-

21. Decide which of the sentences are grammatically and meaningfully correct and mark the answer accordingly. 1. In the span of a few years, thousands of bodies were recovered. 2. The awakening was drove in part by advances in forensic anthropology. 3. With new tools like DNA sequencing and skeletal analysis, forensic specialists could identify remains and match them to living relatives.

- (a) Only 3
 - (b) Only 1 and 2
 - (c) Only 1 and 3
 - (d) Only 2 and 3
 - (e) All 1, 2 and 3
-

22. Decide which of the sentences are grammatically and meaningfully correct and mark the answer accordingly. 1. Decades after Franco's death, the Valley is Spain's most potent and controversial symbol of the civil war and the dictatorship that followed. 2. For many Spaniards, the site embodies immense loss and unspeakable suffering. 3. For others, it is a fitting tribute to Spain's most consequential leader, and a monument to a persistent strain of Spanish nationalism.

- (a) Only 2
- (b) Only 1 and 2

- (c) Only 1 and 3
- (d) Only 2 and 3
- (e) All 1, 2 and 3

In the following question, three sentences are given, revolving around the same theme or idea. Decide which of the sentences are grammatically and meaningfully correct and mark the answer accordingly. 1. When I arrived for our meeting, the receptionist told me Cantera was not available. 2. She told me that the monks were at lunch and could not be disturbed. 3. After eating they would went immediately into prayer. A) Only 1 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3 Directions:

23. Read the following passage carefully and answer the questions. Up until the 1500s, brewing was primarily women's work--that is, until a smear campaign accused women brewers of being witches. Much of the iconography we associate with witches today, from the pointy hat to the broom, may have emerged from their connection to female brewers. Humans have been drinking beer for almost 7,000 years, and the original brewers were women. From the Vikings to the Egyptians, women brewed beer both for religious ceremonies and to make a practical, calorie-rich beverage for the home. In fact, the nun Hildegard von Bingen, who lived in modern-day Germany, famously wrote about hops in the 12th century and added the ingredient to her beer recipe. From the Stone Age to the 1700s, ale - and, later, beer - was a household staple for most families in England and other parts of Europe. The drink was an inexpensive way to consume and preserve grains. For the working class, beer provided an important source of nutrients, full of carbohydrates and proteins. Because the beverage was such a common part of the average person's diet, fermenting was, for many women, one of their normal household tasks. Some enterprising women took this household skill to the marketplace and began selling beer. Widows or unmarried women used their fermentation prowess to earn some extra money, while married women partnered with their husbands to run their beer business. So if you traveled back in time to the Middle Ages or the Renaissance and went to a market in England, you'd probably see an oddly familiar sight: women wearing tall, pointy hats. In many instances, they'd be standing in front of big cauldrons. But these women were no witches; they were brewers. They wore the tall, pointy hats so that their customers could see them in the crowded marketplace. They transported their brew in cauldrons. And those who sold their beer out of stores had cats not as demon familiars, but to keep mice away from the grain. Some argue that iconography we associate with witches, from the pointy hat to the cauldron, originated from women working as master brewers. Just as women were establishing their foothold in the beer markets of England, Ireland and the rest of Europe, the Reformation began. The fundamentalist religious movement, which originated in the early 16th century, preached stricter gender norms and condemned witchcraft. Male brewers saw an opportunity. To reduce their competition in the beer trade, these men accused female brewers of being witches and using their cauldrons to brew up magic potions instead of booze. Unfortunately, the rumors took hold. Over time, it became more dangerous for women to practice brewing and sell beer because they could be misidentified as witches. At the time, being accused of witchcraft wasn't just a social faux pas; it could result in prosecution or a death sentence. Women accused of witchcraft were often ostracized in their communities, imprisoned or even killed. Some men didn't really believe that the women brewers were witches. However, many did believe that women shouldn't be spending their time making beer. The process took time and dedication: hours to prepare the ale, sweep the floors clean and lift heavy bundles of rye and grain. If women couldn't brew ale, they would have significantly more time at home to raise their children. In the 1500s some towns, such as Chester, England, actually made it illegal for most women to sell beer, worried that young alewives would grow up into old spinsters. The iconography of witches with their pointy hats and cauldrons has endured, as has men's domination of the beer industry: The top 10 beer companies in the world are headed by male CEOs and have mostly male board members. Major beer companies have tended to portray beer as a drink for men. Some scholars have even gone as far as calling beer ads "manuals on masculinity." This gender bias seems to persist in smaller craft breweries as well. A study at Stanford University found that while 17 percent of craft beer breweries have one female CEO, only 4 percent of these businesses employ a female brewmaster--the expert supervisor who oversees the brewing process. It doesn't have to be this way. For much of history, it wasn't.

(no options)

Directions: Read the following passage carefully and answer the questions. Up until the 1500s, brewing was primarily women's work--that is, until a smear campaign accused women brewers of being witches. Much of the iconography we associate with witches today, from the pointy hat to the broom, may have emerged from their connection to female brewers. It doesn't have to be this way. For much of history, it wasn't.

24. As per the passage, for what purpose did women brew beer in ancient times? 1. For its use in religious ceremonies
2. To make a useful, calorie-rich beverage 3. For feeding livestock

- (a) Only 1
- (b) Only 1 and 2
- (c) Only 1 and 3
- (d) Only 2 and 3
- (e) All 1, 2 and 3

25. Why did female brewers wear tall, pointy hats in the middle ages?

- (a) To create the illusion that they were witches
- (b) So that people could distinguish them from apothecaries
- (c) To attract customers in a crowded marketplace
- (d) To frighten children
- (e) To market their wares

26. Which of the following was/ were responsible for the rumour that female beer brewers were witches?

- (a) Competition from male brewers
 - (b) The Reformation
 - (c) The separation of Church and State
 - (d) Both (a) and (b)
 - (e) All (a), (b) and (c)
-

27. Why was beer a household staple in England during the 1700s?

- (a) It believed to be a cure for many diseases.
 - (b) It was believed to be good for growing children.
 - (c) It was drunk in place of water.
 - (d) It was used in cooking.
 - (e) It was a cheap way to consume and preserve grains.
-

28. Which of the following statements is/ are TRUE as per the passage? 1. The consumption of beer by women was forbidden during the Middle Ages. 2. Some men believed that women should focus their efforts on raising children rather than brewing ale. 3. Women brewers often owned pet cats to scare mice away from the grain.

- (a) Only 3
 - (b) Only 1 and 2
 - (c) Only 1 and 3
 - (d) Only 2 and 3
 - (e) All 1, 2 and 3
-

29. Which of the following questions is/ are answered by the information in the passage? 1. How do we know that men have dominated the present-day beer industry? 2. Why was the brewing of beer outlawed for a brief period during the 16th century? 3. What were the consequences for a woman who was accused of witchcraft during the 16th century?

- (a) Only 2
 - (b) Only 1 and 2
 - (c) Only 1 and 3
 - (d) Only 2 and 3
 - (e) All 1, 2 and 3
-

30. Which of the following is opposite in meaning to the word 'endured' as used in the passage?

- (a) hindered
 - (b) perished
 - (c) exhausted
 - (d) eluded
 - (e) pervaded
-

31. What approximate value will come in place of the question mark (?) in the following question?(Note: You are not expected to calculate the exact value.) $7.97 \times 11.11 - 149.92 + 30.03\% \text{ of } 640.18 = ?$

- (a) 281
 - (b) 130
 - (c) 385
 - (d) 54
 - (e) 542
-

32. A number P is 30.05% more than another number Q. If R is 132.86 more than 2.02 times of Q, then find approximate value of R given that P is 1821.42.

- (a) 2218
 - (b) 2442
 - (c) 2933
 - (d) 2656
 - (e) 3334
-

33. What approximate value will come in place of the question mark (?) in the following question? (Note: You are not expected to calculate the exact value.) $? = (36.12 \times 104.89) / (41.89 \times 15.1) + 75.21\% \text{ of } 4799$

- (a) 3014
 - (b) 3210
 - (c) 3320
 - (d) 3842
 - (e) 3606
-

34. What approximate value will come in place of the question mark (?) in the following question? (Note: You are not expected to calculate the exact value.) $(27.69^{(1.998)} + 14.01^{(2.01)}) / 13.87 + ? = 255.89$

- (a) 186
 - (b) 72
 - (c) 296
 - (d) 412
 - (e) 588
-

35. What approximate value will come in place of the question mark (?) in the following question? (Note: You are not expected to calculate the exact value.) $(19.98\% \text{ of } 599.98) / 29.99 = ? - 11.98\% \text{ of } 299.99$

- (a) 5
 - (b) 15
 - (c) 40
 - (d) 72
 - (e) 96
-

36. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $x^2 - 34x + 285 = 0$ II. $y^2 - 42y + 432 = 0$

- (a) $x > y$
 - (b) $x < y$
 - (c) $x = y$ or the relationship cannot be established
 - (d) $x \geq y$
 - (e) $x \leq y$
-

37. The following numbers form a series. Find the odd one out. 90, 180, 60, 240, 42, 288

- (a) 180
 - (b) 42
 - (c) 240
 - (d) 288
 - (e) 60
-

38. The following numbers form a series. Find the odd one out. 144, 147, 153, 165, 189, 233

- (a) 153
 - (b) 165
 - (c) 189
 - (d) 147
 - (e) 233
-

39. The following numbers form a series. Find the odd one out. 213, 192, 234, 175, 255, 150

- (a) 175
 - (b) 192
 - (c) 234
 - (d) 255
 - (e) None of these
-

40. The following numbers form a series. Find the odd one out. 512, 415, 324, 243, 164, 91

- (a) 415
 - (b) 243
 - (c) 91
 - (d) 324
 - (e) Series is correct
-

41. Simple interest and compound interest (compounded annually) earned on a sum at the end of 2 years at a certain rate of interest p.a. are Rs. 2560 and Rs. 2764.8 respectively. Find the rate of interest.

- (a) 16%
 - (b) 20%
 - (c) 12%
 - (d) 18%
 - (e) None of these
-

42. Mixture 'A' contains milk and water in the ratio of 3:2 respectively while mixture 'B' contains milk and water in the ratio of 4:5 respectively. Quantity of milk in mixture 'B' is 20 ml more than that in mixture 'A' while total quantity of water in mixture 'A' and 'B' together is 140 ml. Find total quantity of mixture 'B'

- (a) 100 ml
 - (b) 90 ml
 - (c) 270 ml
 - (d) 180 ml
 - (e) None of these
-

43. 'A' and 'B' together can complete a work in 21 days while 'A', 'B' and 'C' together can complete the same work in 16 days. If 'A' is 80% more efficient than 'C', then find the time taken by 'A' to complete 75% of the work.

- (a) 28 days
 - (b) 32 days
 - (c) 24 days
 - (d) 30 days
 - (e) None of these
-

44. A shopkeeper sold two articles at equal prices. On one article he made a profit of 15% while on another he had a loss of 20%. If difference between cost prices of both the articles is Rs. 350, then find the selling price of each article.

- (a) Rs. 920
 - (b) Rs. 800
 - (c) Rs. 1150
 - (d) Rs. 960
 - (e) None of these
-

Directions: Answer the questions based on the information given below. The given bar graph shows the total number of notebooks (plain + ruled) sold and percentage of number of ruled notebooks sold out of total notebooks sold, by five different sellers.

45. A boat can travel a distance of 220 km in upstream and 252 km in downstream in 10 hours. Find the time taken by the boat to cover a distance of 156 in still water if ratio of speed of boat in still water to speed of stream is 6:1 respectively.

- (a) 3 hour 25 minutes
 - (b) 3 hour 15 minutes
 - (c) 3 hour 45 minutes
 - (d) 3 hour 30 minutes
 - (e) None of these
-

46. Find the ratio of number of plain notebooks sold by seller 'A' to the number of ruled notebooks sold by seller 'C'.

- (a) 9:5
 - (b) 25:12
 - (c) 11:8
 - (d) 8:15
 - (e) 15:13
-

47. The number of plain notebooks sold by seller 'D' is how much percent more/less than total number of notebooks sold by seller 'C'?

- (a) 132%
 - (b) 120%
 - (c) 135%
 - (d) 110%
 - (e) 150%
-

48. Find the difference between total number of ruled notebooks sold by sellers 'A' and 'B', together and total number of notebooks sold by seller 'E'.

- (a) 380
 - (b) 385
 - (c) 424
 - (d) 412
 - (e) None of these
-

49. If seller 'E' sold each ruled notebook for Rs. 12 and each plain notebook for Rs. 6. Find total amount earned by him after selling all the notebooks.

- (a) Rs. 14000
- (b) Rs. 13800
- (c) Rs. 12100
- (d) Rs. 13600
- (e) Rs. 12600

Directions: Answer the questions based on the information given below. The given table shows the percentage of people who ordered Palak paneer and percentage of people who ordered Kadhai paneer, out of total people who ordered (Palak paneer + Kadhai paneer + Matar paneer) and number of people who ordered Matar paneer, on four different days. Note: Each people ordered only one dish out of given three types of dishes. Number of people who ordered Matar paneer Monday Tuesday 20%/40% 25%/10% 110/400 Wednesday Thursday 25%/30% 60%/25% 180/180

50. Out of total number of plain notebooks sold by sellers 'B' and 'C', together $\frac{1}{6}$ th were sold to college students. Find number of plain notebooks sold by sellers 'B' and 'C' together to college students.

- (a) 290
- (b) 120
- (c) 190
- (d) 200
- (e) 340

51. The number of people who ordered Palak paneer on Monday and Tuesday, together is how much percent of the number of people who ordered Matar paneer on Tuesday?

- (a) 90%
- (b) 65%
- (c) 95%
- (d) 80%
- (e) 75%

52. Find the average number of people who ordered Kadhai paneer on Monday and Tuesday, together

- (a) 45
- (b) 65
- (c) 55
- (d) 50
- (e) 80

53. On Thursday, each person paid Rs. 50 for Palak paneer and Rs. 25 for Kadhai paneer. Find the sum of the amount paid by all the persons for Palak paneer and Kadhai paneer, together on Thursday.

- (a) Rs. 4000
- (b) Rs. 8800
- (c) Rs. 8000
- (d) Rs. 8500
- (e) Rs. 4500

54. Find the difference between number of people who ordered Palak paneer on Wednesday and number of people who ordered Kadhai paneer on Thursday.

- (a) 95
- (b) 180 Percentage of people who ordered Palak paneer Percentage of people who ordered Kadhai paneer Day
- (c) 105
- (d) 200
- (e) 160

Directions: Answer the questions based on the information given below. There are three tanks 'A', 'B' and 'C' which contain 'x' litres, 'y' litres and 'z' litres of water respectively. A person added $(2x/3)$ litres of water to tank 'A', $(y - 80)$ litres of water to tank 'B' and $(z + 20)$ litres of water to tank 'C' such that quantity of water in tanks 'B' and 'C' become 60% more and 10% less, respectively than that in tank 'A'. When 40 litres more water and 20 litres more water is added to tanks 'B' and 'C', respectively, then the quantity of water in tank 'B' becomes 160 litres more than that in tank 'C'.

55. Out of total number of people who ordered Kadhai paneer on Wednesday, 25% people paid in cash and rest by card. Find number of people who paid by cards for Kadhai Paneer on Wednesday.

- (a) 500
 - (b) 489
 - (c) 540
 - (d) 300
 - (e) 620
-

56. Find the sum of quantity of water in tanks 'B' and 'C', after 1st addition of water in them.

- (a) 500 litres
 - (b) 480 litres
 - (c) 350 litres
 - (d) 420 litres
 - (e) 540 litres
-

57. Find the value of $(5x - 3z)$.

- (a) 280
 - (b) 400
 - (c) 320
 - (d) 420
 - (e) 360
-

58. The quantity of water in tank 'C' after 2nd addition of water is how much percent more/less than the quantity of water present in tank 'A' after 1st addition of water?

- (a) 7.5%
 - (b) 10%
 - (c) 4.5%
 - (d) 12.5%
 - (e) None of these
-

59. If the quantity of water in tank 'D' is $(2.5x + y)$ litres and quantity of water in tank 'E' is $(5z - y)$ litres, then find the average of quantity of water in tanks 'D' and 'E'.

- (a) 420 litres
 - (b) 350 litres
 - (c) 310 litres
 - (d) 290 litres
 - (e) 260 litres
-

60. Find the ratio of quantity of water present in tank 'A' to that in tank 'C', before 1st addition of water.

- (a) 1:1
- (b) 7:5
- (c) 3:2

(d) 2:1

(e) 5:4

61. 'A' and 'B' entered into a business with initial investments of Rs. ' $x + 100$ ' and Rs. ' $x - 100$ ', respectively. After 5 months, 'A' added Rs. 150 more. At the end of 9 months, profit share of 'A' out of total profit of Rs. 3200 was Rs. 2000. Find the value of 'x'.

(a) 600

(b) 800

(c) 300

(d) 200

(e) None of these

62. After 8 years, the ratio of the ages of 'A' and 'B' will be 11:16 respectively. If 'B' is 20 years elder to 'A' then find the present age of 'A'.

(a) 56 years

(b) 32 years

(c) 36 years

(d) 40 years

(e) None of these

63. If " $633x392y$ " is an eight digit number which is divisible by 72, then find the value of ' $x + y$ '. [$x > 0$ and $y > 0$]

(a) 8

(b) 11

(c) 12

(d) 10

(e) None of these

64. In the question, two columns I and II are given. In Column I, some equations are given while in column II solutions (not in the same order) of these equations are given. You have to match the columns to establish the correct relation between the equations and their solutions. Column I Column II (1) $x - 5x + 6 = 0$ (a) 3, 4 (2) $x^{2/2} - 7x + 12 = 0$ (b) 2, 3 (3) $x - 9x + 20 = 0$ (c) 4, 5

(a) (1) - (a), (2) - (b), (3) - (c)

(b) (1) - (b), (2) - (c), (3) - (a)

(c) (1) - (a), (2) - (c), (3) - (b)

(d) (1) - (b), (2) - (a), (3) - (c)

(e) (1) - (c), (2) - (a), (3) - (b)

Directions: Answer the questions based on the information given below: There are seven persons S, T, U, V, W, X and Y, who have different heights. S is taller than only W and V. X is not the tallest person. U is not the 3rd tallest person. T is shorter than Y. T is not the 2nd tallest person. X is taller than U and W. V is not the 2nd shortest person.

65. In the question, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option. I. $x^2 - 9\sqrt{3}x + 60 = 0$ II. $y^2 = 5\sqrt{3}y$

(a) $x > y$

(b) $x < y$

(c) $x = y$ or the relationship cannot be established

(d) $x \geq y$

(e) $x \leq y$

66. If the height of T is 345cm. Height of 3rd shortest person is 235cm, then what is the probable height of U?
- (a) 350cm
 - (b) 230cm
 - (c) 300cm
 - (d) 360cm
 - (e) Can't be determined
-

Directions: Answer the questions based on the information given below: Seven points are drawn on sheet of paper. D is 4cm north of G. E is 8cm south of F. B is 4cm north of C. A is 6cm west of F. G is 3cm east of A. B is 7cm east of D.

67. How many persons are shorter than Y?
- (a) Four
 - (b) Five
 - (c) Three
 - (d) Six
 - (e) None of the above
-

68. Shortest distance between ___ and ___ is the least.
- (a) A, D
 - (b) G, C
 - (c) C, F
 - (d) F, B
 - (e) A, E
-

Directions: Answer the questions based on the information given below. Ten persons P, Q, R, S, T, U, V, W, X and Y sit around a circular table such that four of them face away from the centre and rest are facing towards the centre. No two persons with names starting with consecutive alphabets as per English Alphabetical series are immediate neighbors of each other. T sits fourth to the left of Q, who faces away from the centre. U sits immediate left of R, who faces towards the centre. U and Y face the same direction as X. Two persons sit between X and P, who does not sit second to the left of T. S and V sit immediate left of each other. X sits third to the left of R. S and T face the same direction. Y does not sit adjacent to R. V and W face same direction as P. X does not face away from the centre.

69. What is the direction of B with respect to G?
- (a) East
 - (b) North west
 - (c) South west
 - (d) North east
 - (e) None of the above
-

70. Who sits second to the left of S?
- (a) W
 - (b) U
 - (c) P
 - (d) Q
 - (e) None of the above
-

71. Who sits opposite to V?
- (a) U

- (b) W
 - (c) P
 - (d) Cannot be determined
 - (e) R
-

72. What is the position of T with respect to W?

- (a) 3rd to the right
 - (b) Immediate left
 - (c) 4th to the left
 - (d) 5th to the left
 - (e) Can't be determined
-

73. Who sits 4th to the left of Y?

- (a) T
 - (b) P
 - (c) U
 - (d) X
 - (e) None of the above
-

Directions: Answer the questions based on the information given below: There are seven members P, Q, R, S, T, U and V in a family, which consists of two married couples and three generations. V is the grand child of U. Q has 3 children and only one among them is married. P is the maternal uncle of V. S is the son of Q and brother of P. T is not the mother of V, who is a female member. No single person in the family is a parent.

74. Find the odd one out.

- (a) Y
 - (b) Q
 - (c) W
 - (d) V
 - (e) P
-

75. How is U related to R, if Q is a male member?

- (a) Mother-in-law
 - (b) Sister
 - (c) Mother
 - (d) Aunt
 - (e) None of the above
-

76. How is T related to the niece of P?

- (a) Uncle
 - (b) Father
 - (c) Brother
 - (d) Grand father
 - (e) Can't be determined
-

Directions: Answer the questions based on the information given below. Certain number of persons are sitting in a row and facing towards the south direction. More than twenty persons are sitting in the row. Five persons sit between F and V, who sits at the extreme end of the row. A sits fifth to the right of B. Two persons between B and C. Number of persons sitting between B and D is two more than the number of persons sitting C and A. Four persons sit between E and B. D sits at the extreme right end of the row. Three persons sit between E and F.

77. How many pairs of letters are there in the word 'RECONSTRUCT' which has as many letters between them as we have in the English alphabetical series from both backward and forward direction?

- (a) Five
 - (b) Two
 - (c) Three
 - (d) One
 - (e) Six
-

78. Who sits 2nd to left of C?

- (a) No one
 - (b) A
 - (c) E
 - (d) V
 - (e) None of the above
-

79. How many persons are sitting in the given row?

- (a) 21
 - (b) 26
 - (c) 29
 - (d) 23
 - (e) Can't be determined
-

80. What is the position of A with respect to D?

- (a) 6th to the right
 - (b) 5th to the right
 - (c) 7th to the left
 - (d) 5th to the left
 - (e) 7th to the right
-

81. How many persons are sitting between A and F?

- (a) Thirteen
 - (b) Twelve
 - (c) Ten
 - (d) Fourteen
 - (e) None of the above
-

Directions: Answer the questions based on the information given below. There are seven persons Parag, Qureshi, Piyush, Sanjay, Vishal, Umer and Vikas and they were born in different years viz. 1978, 1958, 1993, 2000, 1957, 1977 and 1986 but not in the same order. All the calculations are done with respect to 31st December 2021. Consider all were born on same day and in same month. The difference between the ages of Piyush and Qureshi is less than the age of Parag. The difference between the ages of Vikas and Vishal is perfect square. The sum of ages of Qureshi and Umer is equal to the age of Sanjay. The age of Parag and Vishal is an even number but none of them is the oldest.

82. If G sits exactly between E and V then what is the position of G with respect to B?

- (a) 8th to the right
 - (b) 10th to the left
 - (c) 9th to the right
 - (d) 6th to the left
 - (e) None of the above
-

83. Who among the following is the youngest person?

- (a) Parag
 - (b) Vishal
 - (c) Umer
 - (d) Qureshi
 - (e) None of the above
-

84. What is the difference between the ages of Umer and Parag?

- (a) 20 years
 - (b) 9 years
 - (c) 24 years
 - (d) 7 years
 - (e) None of the above
-

85. Who among the following was born in year 1977?

- (a) Vishal
 - (b) Umer
 - (c) Vikas
 - (d) Qureshi
 - (e) None of the above
-

86. What is the sum of ages of Vishal and Umer?

- (a) 47 years
 - (b) 65 years
 - (c) 24 years
 - (d) 78 years
 - (e) 75 years
-

Directions: Answer the questions based on the information given below. In a certain code of language, I. 'digital technology good invention' is coded as 'gsd, xca, vxz, trq' II. 'technology supports people good' is coded as 'xca, ptu, btr, gsd' III. 'people digital ground value' is coded as 'vxz, ewq, btr, rti' IV. 'some good value trades' is coded as 'gsd, rti, dfg, hsw'

87. How many persons are older than Piyush?

- (a) Four
 - (b) Three
 - (c) Two
 - (d) One
 - (e) None
-

88. What is the code of the word 'Supports'?

- (a) btr
 - (b) vxz
 - (c) ptu
 - (d) rti
 - (e) None of the above
-

89. What is the code of the 'ground value'?

- (a) ewq trq
 - (b) dfg vxz
 - (c) ptu btr
 - (d) ewq rti
 - (e) None of the above
-

90. The code 'gsd' is coded for which among the following word?

- (a) Digital
 - (b) Good
 - (c) People
 - (d) Technology
 - (e) None of the above
-

91. What is the code of 'Trades'?

- (a) hsw
 - (b) vxz
 - (c) btr
 - (d) dfg
 - (e) Either "hsw" or "dfg"
-

92. If the code of 'trades digital' is 'hsw vxz' then what is the code of 'some'?

- (a) dfg
 - (b) xca
 - (c) rti
 - (d) ewq
 - (e) None of these
-

93. In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts. Statements: Only sport is cricket Mostly sport is player Some player is trophy Conclusions: I. No cricket is trophy II. Some player is cricket is a possibility

- (a) Only conclusion I follows
 - (b) Both the conclusions I and II follow
 - (c) Neither conclusion I nor conclusion II follows
 - (d) Only conclusion II follows
 - (e) Either conclusion I or conclusion II follows
-

94. In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts. Statements: At least some trade is export No export is onion All onion is tomato Conclusions: I. Some tomato is not export II. All trade being onion is a possibility

- (a) Only conclusion I follows
- (b) Both the conclusions I and II follow
- (c) Neither conclusion I nor conclusion II follows
- (d) Only conclusion II follows
- (e) Either conclusion I or conclusion II follows

Directions: Answer the questions based on the information given below: Seven persons A, B, C, D, E, F and G work in a software company. Each of them has different designation (order is given from Senior to Junior) (CEO, Director, Senior Project Manager (SPM), Project Manager (PM), Assistant Project Manager (APM), Team Leader (TL) and Trainee). Each of them lives in a 7 storey building. The bottommost floor is numbered 1 and the topmost floor is numbered 7. A lives two floors above the person, who is junior to two persons. D lives at least two floors above A. E lives two floors above the APM. F is senior to the APM. The trainee lives below the SPM. F lives immediately below the trainee. The CEO lives immediately above B. C lives below the Director. E is not the Director. C is senior to G.

95. In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts. Statements: Few children is male Mostly male is boy All girl is male Conclusions: I. Some girl is boy II. All male being children is a possibility

- (a) Only conclusion I follows
- (b) Both the conclusions I and II follow
- (c) Neither conclusion I nor conclusion II follows
- (d) Only conclusion II follows
- (e) Either conclusion I or conclusion II follows

96. How many persons live above the Project Manager?

- (a) Four
- (b) Two
- (c) One
- (d) Six
- (e) None of the above

97. ____ lives immediately below the Team Leader.

- (a) A
- (b) B
- (c) G
- (d) E
- (e) None of the above

98. Who is the Senior Project Manager?

- (a) G
- (b) C
- (c) B
- (d) E
- (e) None of the above

99. How many persons live between the junior most and the senior most persons?

- (a) Two
 - (b) Three
 - (c) One
 - (d) Four
 - (e) None of the above
-

Directions: In the following passage, some of the words have been left out and replaced by a blank represented by a letter. First read the passage and try to understand what it is about. Then fill in the blanks as per the questions given. Industrialized fishing has remade the world's oceans, stripping ____ (A) ____ predators from the marine environment in huge numbers. Over the last 50 years, humans have wiped out 71 percent of oceanic sharks and rays. The true death toll for these vital ocean-going species may be even higher than the dismal figure researchers ____ (B) ____ at. That's because many of the most severely ____ (C) ____ parts of the ocean had already been ____ (D) ____ by industrialized fishing fleets for 20 years when the dataset behind the new study begins. There are 31 species of oceanic sharks and rays. Of those, 24 are now threatened with extinction and several, like the oceanic whitetip, are now ____ (E) ____ as critically endangered--a conservation classification only one step removed from extinction in the wild. 9: None A) cynical B) crucial C) humorous D) hideous E) polite 10: None A) arrived B) hindered C) induced D) extracted E) repeated 11: None A) distorted B) deferred C) fated D) depleted E) ousted 12: None A) reduced B) revised C) released D) rummaged E) ravaged 13: None A) assisted B) insisted C) listed D) persisted E) denied 14: None A) Only 1 and 2 B) Only 1 and 3 C) Only 2 and 3 D) All 1, 2 and 3 E) No Improvement 15: None A) Only 1 and 2 B) Only 1 and 3 C) Only 2 and 3 D) All 1, 2 and 3 E) No Improvement 16: None A) Only 1 and 2 B) Only 1 and 3 C) Only 2 and 3 D) All 1, 2 and 3 E) No Improvement 17: None A) Only 1 and 2 B) Only 1 and 3 C) Only 2 and 3 D) All 1, 2 and 3 E) No Improvement 18: None A) Only 1 and 2 B) Only 1 and 3 C) Only 2 and 3 D) All 1, 2 and 3 E) No Improvement 19: None A) Only 1 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3 20: None A) Only 3 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3 21: None A) Only 3 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3 22: None A) Only 2 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3 23: None A) Only 1 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3

Directions: Read the following passage carefully and answer the questions. Up until the 1500s, brewing was primarily women's work--that is, until a smear campaign accused women brewers of being witches. Much of the iconography we associate with witches today, from the pointy hat to the broom, may have emerged from their connection to female brewers. Humans have been drinking beer for almost 7,000 years, and the original brewers were women. From the Vikings to the Egyptians, women brewed beer both for religious ceremonies and to make a practical, calorie-rich beverage for the home. In fact, the nun Hildegard von Bingen, who lived in modern-day Germany, famously wrote about hops in the 12th century and added the ingredient to her beer recipe. From the Stone Age to the 1700s, ale - and, later, beer - was a household staple for most families in England and other parts of Europe. The drink was an inexpensive way to consume and preserve grains. For the working class, beer provided an important source of nutrients, full of carbohydrates and proteins. Because the beverage was such a common part of the average person's diet, fermenting was, for many women, one of their normal household tasks. Some enterprising women took this household skill to the marketplace and began selling beer. Widows or unmarried women used their fermentation prowess to earn some extra money, while married women partnered with their husbands to run their beer business. So if you traveled back in time to the Middle Ages or the Renaissance and went to a market in England, you'd probably see an oddly familiar sight: women wearing tall, pointy hats. In many instances, they'd be standing in front of big cauldrons. But these women were no witches; they were brewers. They wore the tall, pointy hats so that their customers could see them in the crowded marketplace. They transported their brew in cauldrons. And those who sold their beer out of stores had cats not as demon familiars, but to keep mice away from the grain. Some argue that iconography we associate with witches, from the pointy hat to the cauldron, originated from women working as master brewers. Just as women were establishing their foothold in the beer markets of England, Ireland and the rest of Europe, the Reformation began. The fundamentalist religious movement, which originated in the early 16th century, preached stricter gender norms and condemned witchcraft. Male brewers saw an opportunity. To reduce their competition in the beer trade, these men accused female brewers of being witches and using their cauldrons to brew up magic potions instead of booze. Unfortunately, the rumors took hold. Over time, it became more dangerous for women to practice brewing and sell beer because they could be misidentified as witches. At the time, being accused of witchcraft wasn't just a social faux pas; it could result in prosecution or a death sentence. Women accused of witchcraft were often ostracized in their communities, imprisoned or even killed. Some men didn't really believe that the women brewers were witches. However, many did believe that women shouldn't be spending their time making beer. The process took time and dedication: hours to prepare the ale, sweep the floors clean and lift heavy bundles of rye and grain. If women couldn't brew ale, they would have significantly more time at home to raise their children. In the 1500s some towns, such as Chester, England, actually made it illegal for most women to sell beer, worried that young alewives would grow up into old spinsters. The iconography of witches with their pointy hats and cauldrons has endured, as has men's domination of the beer industry: The

top 10 beer companies in the world are headed by male CEOs and have mostly male board members. Major beer companies have tended to portray beer as a drink for men. Some scholars have even gone as far as calling beer ads "manuals on masculinity." This gender bias seems to persist in smaller craft breweries as well. A study at Stanford University found that while 17 percent of craft beer breweries have one female CEO, only 4 percent of these businesses employ a female brewmaster--the expert supervisor who oversees the brewing process. It doesn't have to be this way. For much of history, it wasn't.

24: None A) Only 1 B) Only 1 and 2 C) Only 1 and 3 D) Only 2 and 3 E) All 1, 2 and 3

25: None A) To create the illusion that they were witches B) So that people could distinguish them from apothecaries C) To attract customers in a crowded marketplace D) To frighten children E) To market their wares

26: None A) Competition from male brewers B) The Reformation C) The separation of Church and State D) Both (a) and (b) E) All (a), (b) and (c)

27: None A) It believed to be a cure for many diseases. B) It was believed to be good for growing children. C) It was drunk in place of water. D) It was used in cooking. E) It was a cheap way to consume and preserve grains.

36) - C) 37) - B) 38) - E) 39) - A) 40) - D) 41) - A) 42) - D) 43) - A) 44) - A) 45) - B) 46) - B) 47) - D) 48) - E) 49) - E) 50) - A) 51) - A) 52) - B) 53) - D) 54) - D) 55) - C) 56) - A) 57) - E) 58) - E) 59) - B) 60) - C) 61) - E) 62) - C) 63) - D) 64) - D) 65) - C) 66) - C) 67) - D) 68) - C) 69) - D) 70) - C) 71) - E) 72) - B) 73) - C) 74) - A) 75) - C) 76) - B) 77) - A) 78) - C) 79) - B) 80) - D) 81) - A) 82) - B) 83) - C) 84) - D) 85) - A) 86) - B) 87) - D) 88) - C) 89) - D) 90) - B) 91) - E) 92) - A) 93) - A) 94) - A) 95) - D) 96) - D) 97) - A) 98) - B) 99) - A) 100) - D)

Solution 1: D) (d) is the right answer. The correct pairs are AE, BF and CD. AE - A tells us that the number of black people at the top of Britain's biggest listed companies has fallen to zero. E says that it has happened despite public commitments to increase diversity in leadership. BF - B talks about a product's first review. F tells us that it can have a large effect on the item's future. CD - C gives us the effect - migration is on the rise in Asia and the Pacific. D gives us the cause - visa-free movement, easier access to information, and low-budget travel options

Solution 2: A) (a) is the right answer. The correct pairs are AD, BF and CE. AD - A starts the sentence by talking about what might happen if plants and trees absorb more carbon dioxide during photosynthesis. D tells us that there will be less CO₂ trapped in the atmosphere. BF - B tells us that it is difficult for parents to figure out how to avoid plastic toys containing chemicals. F adds that the sentence talks about chemicals that may cause possible health risks to their children. CE - C talks about people who can unconsciously predict complex patterns. E tells us that they are likely to hold stronger beliefs that there is a god who creates patterns of events in the universe.

Solution 3: C) (c) is the right answer. The correct pairs are AF, BE and CD. AF - A talks about situations where we are uncertain about something. F tells us that in such situations, we automatically rely on our prior experiences to optimize behavior. BE - B states that almost half of all older adults report sleeping difficulties. E adds that such difficulties can make them more likely to experience physical or mental health conditions and memory problems. CD - C talks about the benefits of climate policies and the ability to shape such policy. D says that they are not extended equally to those who suffer the greatest costs.

Solution 4: B) The sentence tells us how the wind farm has sparked (stirred) a lot of debate and the author has been accused (blamed for) of publishing inaccurate (false) information. **CONTRADICTION** means a combination of statements, ideas, or features which are opposed to one another, which will not render contextual sense. It should be replaced with **CONTROVERSY** (debate). Thus, (b) is the right answer.

Solution 5: A) The sentence tells us how over the span of the last two decades, the organisation of governmental activity has undergone (witnessed) a radical (drastic) transformation (change). **COARSE** means rough and will not be apt in this context. It should be replaced with **COURSE** (span). Thus, (a) is the right answer.

Solution 6: E) The sentence tells us how the city has struggled to boost (spur) its ailing (crippled) economy and must polish (enhance) its reputation (image) as a tourist and convention centre. All the words are contextually apt and correctly spelled. Thus, (e) is the right answer.

Solution 7: B) The sentence tells us how butter may reduce (decrease) the risk of cancer because it has healthy bacteria which aids (benefits) digestion and boosts (enhance) immune response. **COMPLAINS** means to express dissatisfaction about something, which will not fit here. **CONTAINS** will fit here, which will make sense here. Thus, (b) is the right answer.

Solution 8: C) The sentence tells us how the inexpensive (cheap) software has the ability (capacity) to invisibly study and record (chronicle) all computer activity including keystrokes. C is incorrectly spelled. The correct spelling of the word is **MONITOR**. Thus, (c) is the right answer.

Solution 9: B) We need an adjective to describe the noun **PREDATORS**. **CRUCIAL** (major) will fit here as the sentence tells us how industrialized fishing has stripped important predators from the marine environment. Thus, (b) is the right answer. Cynical - negative. Humorous - comical. Hideous - ugly. Polite - well-mannered.

Solution 10: A) We need a verb here to agree with the subject **RESEARCHERS**. **ARRIVED** (reached) will fit here as the sentence tells us how researchers reached a rough calculation regarding the death toll. Thus, (a) is the right answer. Hindered - impeded. Induced - urged. Extracted - withdrew. Repeated - carried out an act again.

Solution 11: D) We need an adjective here to modify the noun **PARTS**. **DEPLETED** (destroyed) will fit here as the sentence tells us about the parts of the ocean that have been affected the most. Thus, (d) is the right answer. Distorted - spoiled the shape of something. Deferred - postponed. Fated - destined. Ousted - removed from power.

Solution 12: E) We need a past participle form verb to fit in the past perfect tense construction **HAD + BEEN + VERB**. **RAVAGED** (destroyed) will fit here as the sentence tells us about the parts of the ocean that have been destroyed by industrialised fishing fleets. Thus, (e) is the right answer. Reduced - decreased. Revised - edited. Released - freed; liberated. Rummaged - searched quickly and untidily.

Solution 13: C) We need a past participle form verb to fit in the passive voice construction **ARE + VERB**. **LISTED** (classified) will fit here as the sentence tells us how some of the shark and ray species are now critically endangered. Thus, (c) is the right answer. Assisted - helped. Insisted - demanded

forcefully. Persisted - endured. Denied - rejected. Solution 14: D) The sentence tells us how crimes involving guns have risen significantly. All 1, 2 and 3 can replace the highlighted phrase to convey the requisite meaning. Thus, (d) is the right answer. The highlighted phrase is incorrect because the adjective SUBSTANTIAL should be replaced with the adverb SUBSTANTIALLY as it is being used to modify the verb INCREASED. Solution 15: C) The sentence tells us how effective policing and enforcement of existing gun laws besides research efforts are important. Both 2 and 3 can replace the highlighted phrase to convey the requisite meaning. Thus, (c) is the right answer. 1 is incorrect as the phrase AS OPPOSED TO is used to show contrast, while the sentence shows additionality. The highlighted phrase is incorrect because the phrase AS WELL AS should have been used in place of the phrase AS GOOD AS, as the former is used to show additionality, while the latter is used for comparison. Solution 16: E) The sentence tells us how fascism was spreading all over Europe in 1936. The highlighted phrase is correct and will render the requisite meaning. Thus, (e) is the right answer. 1 is incorrect as the preposition ACROSS should be used in place of ABOUT. 2 is incorrect as the continuous form verb SPREADING should have been used in place of the base form verb SPREAD. 3 is incorrect as the use of the helping verb IS is redundant as the helping verb WAS is already present in the sentence. Solution 17: D) The sentence tells us how Spain did not take any sides during the war. All 1, 2 and 3 can replace the highlighted phrase to convey the requisite meaning. Thus, (d) is the right answer. The highlighted phrase is incorrect as the base form verb TAKE should be used in the infinitive construction TO + VERB. Solution 18: A) The sentence tells us how lactic acid is produced in the muscles when they are not able to meet the energy demands. Both 1 and 2 can replace the highlighted phrase to convey the requisite meaning. Thus, (a) is the right answer. 3 is incorrect as singular verb IS will not agree with the plural pronoun THEY. The highlighted phrase is incorrect as the base form verb SATISFY should be used in the TO + VERB infinitive construction. Solution 19: E) All 1, 2 and 3 are grammatically correct and free of error. Thus, (e) is the right answer. Solution 20: A) Only 3 is grammatically correct and free of error. Thus, (a) is the right answer. In 1, replace the second form verb COOKED with COOK as the infinitive construction TO + VERB will take the base form of the verb. In 2, replace the adverb THERE with the possessive pronoun THEIR as the sentence talks about the household of the women. Solution 21: C) Only 1 and 3 are grammatically correct and free of error. Thus, (c) is the right answer. In 2, replace the second form verb DROVE with DRIVEN as the passive voice construction WAS + VERB will take the past participle form of the verb. Solution 22: E) All 1, 2 and 3 are grammatically correct and free of error. Thus, (e) is the right answer. Solution 23: B) Only 1 and 2 are grammatically correct and free of error. Thus, (b) is the right answer. In 3, replace the second form verb WENT with GO as the modal verb WOULD will take the base form of the main verb that follows it. Solution 24: B) Both 1 and 2 are true as per the passage. Refer to the lines: "Humans have been drinking beer for almost 7,000 years, and the original brewers were women. From the Vikings to the Egyptians, women brewed beer both for religious ceremonies and to make a practical, calorie-rich beverage for the home." Thus, (b) is the right answer. 3 is not mentioned or implied in the passage. Solution 25: C) Refer to the lines: "So if you traveled back in time to the Middle Ages or the Renaissance and went to a market in England, you'd probably see an oddly familiar sight: women wearing tall, pointy hats. In many instances, they'd be standing in front of big cauldrons. But these women were no witches; they were brewers. They wore the tall, pointy hats so that their customers could see them in the crowded marketplace." Thus, (c) is the right answer. The other options are not mentioned in the passage. Solution 26: D) Both A and B are mentioned in the passage as factors responsible for the rumour. Refer to the lines: "Just as women were establishing their foothold in the beer markets of England, Ireland and the rest of Europe, the Reformation began. The fundamentalist religious movement, which originated in the early 16th century, preached stricter gender norms and condemned witchcraft. Male brewers saw an opportunity. To reduce their competition in the beer trade, these men accused female brewers of being witches and using their cauldrons to brew up magic potions instead of booze." Thus, (d) is the right answer. C is not mentioned in the passage. Solution 27: E) Refer to the lines: "From the Stone Age to the 1700s, ale - and, later, beer - was a household staple for most families in England and other parts of Europe. The drink was an inexpensive way to consume and preserve grains. For the working class, beer provided an important source of nutrients, full of carbohydrates and proteins." Thus, (e) is the right answer. The other options are not mentioned in the passage. Solution 28: D) Both 2 and 3 are true as per the passage. Refer to the lines: "Some men didn't really believe that the women brewers were witches. However, many did believe that women shouldn't be spending their time making beer. The process took time and dedication: hours to prepare the ale, sweep the floors clean and lift heavy bundles of rye and grain. If women couldn't brew ale, they would have significantly more time at home to raise their children." These lines confirm 2 as true. Refer to the lines: "And those who sold their beer out of stores had cats not as demon familiars, but to keep mice away from the grain. Some argue that iconography we associate with witches, from the pointy hat to the cauldron, originated from women working as master brewers." These lines confirm 3 as true. Thus, (d) is the right answer. 1 is not mentioned

in the passage. Solution 29: C) Both 1 and 3 are answered by the information in the passage. Refer to the lines: "The iconography of witches with their pointy hats and cauldrons has endured, as has men's domination of the beer industry: The top 10 beer companies in the world are headed by male CEOs and have mostly male board members...A study at Stanford University found that while 17 percent of craft beer breweries have one female CEO, only 4 percent of these businesses employ a female brewmaster--the expert supervisor who oversees the brewing process." These lines answer 1. Refer to the lines: "Over time, it became more dangerous for women to practice brewing and sell beer because they could be misidentified as witches. At the time, being accused of witchcraft wasn't just a social faux pas; it could result in prosecution or a death sentence. Women accused of witchcraft were often ostracized in their communities, imprisoned or even killed." These lines answer 3. Thus, (c) is the right answer. 2 is not answered by the information given in the passage. Solution 30: B) ENDURED means lasted and survived obstacles. PERISHED means died or declined, and is its antonym. Thus, (b) is the right answer. Hindered - impeded. Exhausted - tired. Eluded - avoided. Pervaded - spread through an area. Solution 31: B) $7.97 \times 11.11 - 149.92 + 30.03\% \text{ of } 640.18 = ?$ $8 \times 11 - 150 + 30\% \text{ of } 640 \sim ?$ $88 - 150 + 192 \sim ?$ $130 \sim ?$ Hence, option b. Solution 32: C) $Q \sim 1820/1.3 \sim 1400$ $R = 2.02 \times 1400 + 132.86 \sim 2933$ Hence, option c. Solution 33: E) $? = (36.12 \times 104.89) / (41.89 \times 15.1) + 75.21\% \text{ of } 4799$ $? \sim (36 \times 105) / (42 \times 15) + 75\% \text{ of } 4800$ $? \sim (6 \times 6 \times 7 \times 5 \times 3) / (7 \times 6 \times 5 \times 3) + 3600$ $? \sim 6 + 3600$ $? \sim 3606$ Hence, option e. Solution 34: A) $(27.69^{(1.998)} + 14.01^{(2.01)}) / 13.87 + ? = 255.89$ $(28^2 + 14^2) / 14 + ? \sim 256$ $(784 + 196) / 14 + ? \sim 256$ $980 / 14 + ? \sim 256$ $70 + ? \sim 256$ $? \sim 186$ Hence, option a. Solution 35: C) $(19.98\% \text{ of } 599.98) / 29.99 = ?$ $- 11.98\% \text{ of } 299.99$ $(20\% \text{ of } 600) / 30 \sim ?$ $- 12\% \text{ of } 300$ $(0.20 \times 600) / 30 \sim ?$ $- 0.12 \times 300$ $120 / 30 \sim ?$ $- 36$ $? \sim 4 + 36$ $? \sim 40$ Hence, option c. Solution 36: C) From I: $x^2 - 34x + 285 = 0$ $x^2 - 15x - 19x + 285 = 0$ $x(x - 15) - 19(x - 15) = 0$ $(x - 15)(x - 19) = 0$ $x = 19, 15$ From II: $y^2 - 42y + 432 = 0$ $y^2 - 24y - 18y + 432 = 0$ $y(y - 24) - 18(y - 24) = 0$ $(y - 24)(y - 18) = 0$ $y = 24, 18$ X Relation $Y < 19/19 > 24/18 < 15/15 < 24/18$ So, no relation can be established between X and Y. Hence, option c. Solution 37: B) $90 \times 2 = 180$ $180 / 3 = 60$ $60 \times 4 = 240$ $240 / 5 = 48$ $48 \times 6 = 288$ Therefore, 48 should come in place of 42. Hence, option b. Solution 38: E) $144 + 3 = 147$ $147 + 6 = 153$ $153 + 12 = 165$ $165 + 24 = 189$ $189 + 48 = 237$ Therefore, 237 should come in place of 233. Hence, option e. Solution 39: A) $213 - 21 = 192$ $192 + 42 = 234$ $234 - 63 = 171$ $171 + 84 = 255$ $255 - 105 = 150$ Therefore, 171 should come in place of 175. Hence, option a. Solution 40: D) We are subtracting consecutive prime number in decreasing order starting from 97. $512 - 97 = 415$ $415 - 89 = 326$ $326 - 83 = 243$ $243 - 79 = 164$ $164 - 73 = 91$ Therefore, 326 should come in place of 324. Hence, option d. Solution 41: A) Simple interest for 1 year = $2560/2 = \text{Rs. } 1280$ Difference between compound Interest and Simple Interest for 2 years = $2764.8 - 2560 = \text{Rs. } 204.8$ Desired rate = $204.8/1280 \times 100 = 16\%$ Hence, option a. Solution 42: D) Let quantity of milk and water in mixture 'A' be '3x' ml and '2x' ml respectively. And, quantity of milk and water in mixture 'B' be '4y' and '5y' respectively. According to question; $4y - 3x = 20$(1) And, $2x + 5y = 140$(2) Solving equation (1) and (2), we get $x = 20$ and $y = 20$ Quantity of mixture 'B' = $4y + 5y = 9y = 9 \times 20 = 180$ ml Hence, option d. Solution 43: A) Let total amount of work is 336 units {LCM of 21 and 16} Amount of work done by 'A' and 'B' together in one day = $336/21 = 16$ units Amount of work done by 'A', 'B' and 'C' together in one day = $336/16 = 21$ units Amount of work done by 'C' in one day = $21 - 16 = 5$ units Amount of work done by 'A' in one day = $1.80 \times 5 = 9$ units Desired time = $(0.75 \times 336)/9 = 28$ days Hence, option a. Solution 44: A) Let selling price of both the articles is Rs. 92x So, cost price one article = $92x/1.15 = \text{Rs. } 80x$ Cost price of second article = $92x/0.80 = \text{Rs. } 115x$ So, $115x - 80x = 350$ Or, $35x = 350$ Or, $x = 10$ Selling price of each article = $92 \times 10 = \text{Rs. } 920$ Hence, option a. Solution 45: B) Let speed of boat in still water and speed of stream is '6x' km/h and 'x' km/h respectively. So, speed in upstream = $6x - x = 5x$ km/h Speed in downstream = $6x + x = 7x$ km/h According to question; $(220/5x) + (252/7x) = 10$ Or, $(44/x) + (36/x) = 10$ Or, $x = (44 + 36)/10 = 80/10 = 8$ So, speed of boat in still water = $8 \times 6 = 48$ km/h Desired time = $156/48 = 3.25$ hours = 3 hour 15 minutes Hence, option b. Solution 46: B) For seller A: Total notebooks sold = 1250 Number of ruled notebooks

sold = $0.4 \times 1250 = 500$ Number of plain notebooks sold = $1250 - 500 = 750$ Similarly, the same process is repeated for rest of the sellers. Seller Total notebooks sold Number of plain notebooks sold A 1250 $0.4 \times 1250 = 500$ $1250 - 500 = 750$ Number of ruled notebooks sold B 2000 $0.35 \times 2000 = 700$ $2000 - 700 = 1300$ C 800 $700/0.45 \times 800 = 360$ $800 - 360 = 440$ D 2400 $0.3 \times 2400 = 720$ $2400 - 720 = 1680$ E $0.75 \times 1200 = 900$ $1200 - 900 = 300$ 1200/Required ratio = $750:360 = 25:12$ Hence, option b. Solution 47: D) Required percentage = $\{(1680 - 800)/800\} \times 100 = 110\%$ Hence, option d. Solution 48: E) Required difference = $(500 + 700) - 1200 = 0$ Hence, option e. Solution 49: E) Amount earned by seller 'E' on selling all the ruled notebooks = $900 \times 12 = \text{Rs. } 10800$ Amount earned by seller 'E' on selling all the plain notebooks = $300 \times 6 = \text{Rs. } 1800$ Required amount earned = $10800 + 1800 = \text{Rs. } 12600$ Hence, option e. Solution 50: A) Required number of plain notebooks = $(1/6) \times (1300 + 440) = 290$ Hence, option a. Solution 51: A) On Monday, Let the sum of the number of people who ordered one of given dishes be 'x' Therefore, percentage of people who ordered Matar paneer = $100 - (20 + 25) = 55\%$ Therefore, number of people who ordered Matar paneer = $0.55x$ According to the question, $0.55x = 110$ Or, $x = 200$ Therefore, number of people who ordered Palak paneer = $0.2x = 40$ Number of people who ordered Kadhai Paneer = $0.25x = 50$ Similarly, Sum of number of people who ordered any of the three dishes Monday Tuesday 40/320 50/80 110/400 200/800 Number of people who ordered Kadhai paneer Number of people who ordered Palak paneer Number of people who ordered Matar paneer Day Wednesday Thursday 300/120 720/100 180/180 1200/400 Number of people who ordered Palak paneer on Monday and Tuesday, together = $40 + 320 = 360$ Required percentage = $(360/400) \times 100 = 90\%$ Hence, option a. Solution 52: B) Required average = $\{(50 + 80)/2\} = 130/2 = 65$ Hence, option b. Solution 53: D) Amount paid by all the persons for Palak paneer = $(120 \times 50) = \text{Rs. } 6000$ Amount paid by all the persons for Kadhai paneer = $(100 \times 25) = \text{Rs. } 2500$ Required sum = $6000 + 2500 = \text{Rs. } 8500$ Hence, option d. Solution 54: D) Required difference = $300 - 100 = 200$ Hence, option d. Solution 55: C) Required number of people = $0.75 \times 720 = 540$ Hence, option c. Solution 56: A) Given, Initial quantity of water in tanks 'A', 'B' and 'C' is 'x' litres, 'y' litres and 'z' litres respectively After 1st addition of water in each tank: Quantity of water in tank 'A' = $x(2x/3) = (5x/3)$ litres Quantity of water in tank 'B' = $y - 80 = (2y - 80)$ litres Quantity of water in tank 'C' = $z - 20 = (2z - 20)$ litres According to the question, $2y - 80 = 1.6 \times (5x/3) = (8x/3)$ litres And, $2z - 20 = 0.9 \times (5x/3) = 1.5x$ litres After 2nd addition of water: Quantity of water in tank 'B' = $\{(8x/3) - 40\}$ litres Quantity of water in tank 'C' = $(1.5x - 20)$ litres According to the question, $1.5x - 20 = \{(8x/3) - 40\}$ Or, $1.5x - 180 = (8x - 120)/3$ Or, $4.5x - 540 = 8x - 400$ Or, $3.5x = 140$ Or, $x = 40$ Therefore, $2y - 80 = (8x/3) = 320$ Or, $2y = 400$ Or, $y = 200$ And, $2z - 20 = 1.5x$ Or, $2z = 180 - 20$ Or, $z = 80$ Therefore, before 1st addition of water: Quantity of water in tank 'A' = $x = 120$ litres Quantity of water in tank 'B' = $y = 200$ litres Quantity of water in tank 'C' = $z = 80$ litres After 1st addition of water: Quantity of water in tank 'A' = $(5x/3) = 200$ litres Quantity of water in tank 'B' = $(8x/3) = 320$ litres Quantity of water in tank 'C' = $1.5x = 180$ litres Required sum = $320 + 180 = 500$ litres Hence, option a. Solution 57: E) Required value = $(5x - 3z) = 5 \times 120 - 3 \times 80 = 600 - 240 = 360$ Hence, option e. Solution 58: E) Quantity of water in tank 'C' after 2nd addition of water = $1.5x + 20 = 200$ litres Required percentage = $\{(200 - 200)/200\} \times 100 = 0\%$ Hence, option e. Solution 59: B) According to the question, Quantity of water in tank 'D' = $2.5x + y = 2.5 \times 120 + 200 = 500$ litres Quantity of water in tank 'E' = $5z - y = 5 \times 80 - 200 = 200$ litres Required average = $(500 + 200)/2 = 350$ litres Hence, option b. Solution 60: C) Required ratio = $120:80 = 3:2$ Hence, option c. Solution 61: E) Ratio of profit share of 'A' to 'B' = $[(x + 100) \times 9 + 150 \times 4] : [(x - 100) \times 9]$ So, $(9x + 1500)/(9x - 900) = 2000/(3200 - 2000) = 2000/1200 = 5/3$ Or, $27x + 4500 = 45x - 4500$ Or, $18x = 9000$ Or, $x = 500$ Hence, option e. Solution 62: C) Let present age of 'A' is 'x' years So, present age of 'B' = 'x + 20' years According to question; $(x + 8)/(x + 20 + 8) = 11/16$ Or, $16x + 128 = 11x + 308$ Or, $5x = 180$ Or, $x = 36$ years Hence, option c. Solution 63: D) Since, "633x392y" is divisible by 72. So, it must be divisible by '8' and '9'. So, '92y' must be divisible by 8. So, $y = 8$ And, $(6 + 3 + 3 + x + 3 + 9 + 2 + 8)$ should be divisible by 9. Or, $(x + 34)$ must be divisible by 9. So, $x = 2$ So, $x + y = 8 + 2 = 10$ Hence, option d. Solution 64: D) Solving equation (1), we get $x^2 - 5x + 6 = 0$ Or, $x^2 - 3x - 2x + 6 = 0$ Or, $x(x - 3) - 2(x - 3) = 0$ Or, $(x - 2)(x - 3) = 0$ Or,

$x = 2$ or $x = 3$ Solving equation (2), we get $x^2 - 7x + 12 = 0$ Or, $x^2 - 4x - 3x + 12 = 0$ Or, $x(x - 4) - 3(x - 4) = 0$ Or, $(x - 4)(x - 3) = 0$ Or, $x = 4$ or $x = 3$ Solving equation (3), we get $x^2 - 9x + 20 = 0$ Or, $x^2 - 5x - 4x + 20 = 0$ Or, $x(x - 5) - 4(x - 5) = 0$ Or, $(x - 4)(x - 5) = 0$ Or, $x = 4$ or $x = 5$ So, 1 - (b), 2 - (a), 3 - (c) Hence, option d. Solution 65: C) From I: $x^2 - 9\sqrt{3}x + 60 = 0$ Or, $x^2 - 5\sqrt{3}x - 4\sqrt{3}x + 60 = 0$ Or, $x(x - 5\sqrt{3}) - 4\sqrt{3}(x - 5\sqrt{3}) = 0$ Or, $(x - 5\sqrt{3})(x - 4\sqrt{3}) = 0$ Or, $x = 5\sqrt{3}$ or $x = 4\sqrt{3}$ From II: $y^2 = 5\sqrt{3}y$ Or, $y^2 - 5\sqrt{3}y = 0$ Or, $y(y - 5\sqrt{3}) = 0$ Or, $y = 0$ or $y = 5\sqrt{3}$ X Relation Y $5\sqrt{3} > 0$ $5\sqrt{3} = 5\sqrt{3}$ $4\sqrt{3} > 0$ $4\sqrt{3} < 5\sqrt{3}$ So, no relation can be established between 'x' and 'y'. Hence, option c. Solution 66: C) Clues: X is taller than U and W. S is taller than only W and V. X is not the tallest person. T is shorter than Y. T is not the 2nd tallest person. U is not the 3rd tallest person. V is not the 2nd shortest person. Inference: Y is tallest person. V is the shortest person. $Y > X > T > U > S > W > V$ If the height of T is 345cm. Height of 3rd shortest person is 235cm, so $Y > X > T(345\text{cm}) > U > S(235\text{cm}) > W > V$ Clearly, the height of U is less than 345cm and more than 235cm. Hence, option c. Solution 67: D) Six persons are shorter than Y. Hence, option d. Solution 68: C) Shortest distance between A and D is 5cm Shortest distance between G and C is 7cm Shortest distance between F and C is 4cm Shortest distance between F and B is $4\sqrt{2}$ cm Shortest distance between A and E is 10cm Hence, option c. Solution 69: D) B is to the north east of G. Hence, option d. Solution 70: C) Starting Point: Start with the direct information we have, i.e., R faces towards the centre and U sits immediate right of R. Clues: X sits third to the left of R. Two persons sit between X and P, who does not sit second to the left of T. X does not face away from the centre. U and Y face the same direction as X. Inference: Now, U and Y must be facing towards the centre as X does not face away from the centre. Clues: T sits fourth to the left of Q, who faces away from the centre. S and V sit immediate left of each other. S and T face the same direction. Y does not sit adjacent to R. V and W face same direction as P. Inference: Now, Q can't sit with either R or T so, Q must be sitting adjacent to U. S and V are immediate left of each other which means either S or V faces towards the centre. Now, S and T are facing the same direction also, 6 persons are facing towards the centre which means both S and T are facing towards the centre as T can't sit 2nd to the left of P which means P faces away from the centre. Now, Y can't sit with R which means W sits with R. The final arrangement is as follows: P sits 2nd to the left of S. Hence, option c. Solution 71: E) R sits opposite to V. Hence, option e. Solution 72: B) T sits immediate left of W. Hence, option b. Solution 73: C) U sits 4th to the left of Y. Hence, option c. Solution 74: A) All are facing away from the centre except Y. Hence, option a. Solution 75: C) Clues: V is the grand child of U. Q has 3 children and only one among them is married. P is the maternal uncle of V. S is the son of Q and brother of P. T is not the mother of V. Inference: P is the son of Q. V is the daughter of T. The family tree: If Q is a male member, U must be a female member. U is the mother of R. Hence, option c. Solution 76: B) V is the niece of P. T is the father of V. Hence, option b. Solution 77: A) Given word, RECONSTRUCT, so, there are 5 such pairs i.e., OR, NO, NR, NT and ST. Hence, option a. Solution 78: C) Starting Point: Start with fixing A and B as A sits fifth to the right of B, to avoid maximum number of cases. Clues: Two persons between B and C. Number of persons sitting between B and D is two more than the number of persons sitting C and A. Inference: Now, C either sits to the right or left of B. Case I: When C sits to the right of B: A D/ C B D/ Case II: When C sits to the left of B: D/ A B C D/ Clues: D sits at the extreme right end of the row. Four persons sit between E and B. Inference: Now, D sits extreme right end which is not possible in case I, so, case I, is rejected. D A B C E Clues: Three persons sit between E and F. Five persons sit between F and V, who sits at the extreme end of the row. More than twenty persons sit in the row. Inference: Now, F either sit to the right or left of E as five persons sit between F and V, who sits at the extreme end and more than twenty persons are sitting in the row which means F must be sitting to the left of E. The final arrangement is as follows: D A B C E F V E sits 2nd to the left of C. Hence, option c. Solution 79: B) Twenty-six persons are sitting in the row. Hence, option b. Solution 80: D) A sits 5th to the left of D. Hence, option d. Solution 81:

100. Who among the following lives between E and G? I. A II. F III. B A) Only I and II B) Only II and III C) Only III D) Only I and III E) Only II 1: None A) A and D B) A and F C) B and E D) C and D E) C and E 2: None A) A and D B) A and E C) B and D D) B and E E) C and F 3: None A) A and D B) A and E C) B and E D) C and E E) C and F 4: None A) sparked B) contradiction C) accused D) inaccurate E) All are correct 5: None A) coarse B) undergone C) radical D) transformation E) All are correct 6: None A) boost B) ailing C) polish D) reputation E) All are correct 7: None A) reduce B) complains C) aids D) boosts E) All are correct 8: None A) inexpensive B) ability C) monitor D) record E) All are correct

(a) Thirteen persons are sitting between A and F. Hence, option a. Solution 82:

(b) So, if G sits exactly between E and V then G must be sitting 10th to the left of B. D A B C E F G V Hence, option b. Solution 83:

(c) Starting Point: As there is no direct information is given so, start with calculating the ages of Parag and Vishal as none of them is oldest but their age is an even number so, the possible ages of them could be 28 years or 44 years. Clues: The sum of ages of Qureshi and Umer is equal to the age of Sanjay. Inference: So, Parag and Vishal either born in 1993 or 1977 which means we have left with only possibility i.e., Qureshi and Umer either born in 2000 or 1978 and Sanjay was born in 1957. Years Ages Persons Umer/Qureshi 1978/1958 43/63 Vishal/Parag 1993/2000 28/21 Qureshi/Umer Sanjay 1957/1977 64/44 Parag/Vishal 1986/Clues:35/The difference between the ages of Vikas and Vishal is perfect square. Inference: So, it is clear that Vikas was born in 1986 and Vishal was born in 1977 and Parag was born in 1993. Years Ages Persons Umer/Qureshi 1978/1958 43/63 Parag 1993/2000 28/21 Qureshi/Umer Sanjay 1957/1977 64/44 Vishal Vikas 1986/Clues:35/The difference between the ages of Piyush and Qureshi is less than the age of Parag. Inference: So, it is clear that Piyush was born in 1958 and Umer was born in 2000. So, the final arrangement is as follows. Years Ages Persons Sanjay 1957/1958 64/63 Piyush Vishal 1977/1978 44/43 Qureshi Vikas 1986/1993 35/28 Parag 21 Umer 2000/Umer is the youngest among all. Hence, option c. Solution 84:

(d) Ages of Umer and Parag are 21 years and 28 years respectively so, the difference is 7 years. Hence, option d. Solution 85:
