Read the following passage and answer the given questions. Solo travel is often romanticized in movies and travel blogs, yet the reality of venturing out alone requires not just enthusiasm, but a great deal of strength and conviction. For many, the idea of traveling solo is both exciting and intimidating. The freedom of making your own plans, waking up without a set schedule, and discovering new cultures at your own pace can be liberating. But it also comes with its own set of challenges that many people are hesitant to face. One of the first hurdles is the initial hesitation. People often fear loneliness, safety concerns, or simply the discomfort of doing things alone. A surprisingly common fear is eating alone in a public space. The thought of sitting in a restaurant without company, with others watching, makes many people self-conscious. They worry about what others might think, and this anxiety is sometimes enough to discourage them from solo travel altogether. However, those who do take the plunge often discover that the benefits far outweigh the fears. Solo travel builds resilience. It teaches you how to _____ for yourself, how to plan with precision, and how to handle unexpected situations with calm. With every solo trip, travelers gain more confidence in their decisions, and a stronger sense of independence. Staying safe while traveling alone is, understandably, a top concern. This is where preparation becomes key. Carrying travel insurance, knowing emergency contacts, researching local customs, and keeping a close watch on surroundings are all essential parts of traveling alone responsibly. It's not about being paranoid, but about being prepared and aware. A solo traveler must learn to make smart choices that keep them safe while still allowing for exploration and adventure. Moreover, solo travel allows deep personal reflection. Without distractions, many travelers find a sense of peace and clarity. They meet new people not because they have to, but because they genuinely want to. They engage in conversations, take risks, and often come back home changed in subtle but meaningful ways. In the end, solo travel isn't for everyone, and that's okay. But for those who are willing to move past hesitation and face the journey alone, it becomes a transformative experience. It is not just about seeing new places—it is about seeing oneself with new eyes, built on the foundation of courage, planning, and conviction.
