

IBPS RRB Prelims 2025

80 questions

Study the following information carefully and answer the questions given below. "True wishes brings joy" is coded as "os ut yn kf" "Aim true adventurous path" is coded as "kf rn sk ed" "Strong aim brings courage" is coded as "ed ts yn kv" "Path wishes comes true" is coded as "kf sk vb os"

1. What is the code for 'Joy comes adventurous'?

- (a) vb rn sk
- (b) ts kv rn
- (c) vb ed rn
- (d) ut rn vb
- (e) os vb rn

2. Which word is coded as 'os sk'?

- (a) Aim wishes
- (b) True wishes
- (c) Aim true
- (d) Strong Path
- (e) Wishes Path

3. Which statement is/are definitely correct?

- (a) Brings - ut
- (b) Comes - vb
- (c) Courage - kv
- (d) Strong - ts
- (e) None is correct

4. What is the code for 'strong aim'?

- (a) kv ed
- (b) sk kv
- (c) ts ed
- (d) vb kb
- (e) Either "kv ed" or "ts ed"

5. Which among the following statements is/are false? I. Joy is not coded as "ut" II. Adventurous is coded as "rn" III. 'True courage' is definitely coded as "ts kf"

- (a) Only II
- (b) Both II and III
- (c) Both I and III
- (d) Only I
- (e) All I, II and III

Read the given information carefully and answer the related questions: Nine persons A, B, C, D, E, F, G, H and I sit around a circular table facing inside but not in the same order as given. G sits fourth to the right of B. Two persons sit between G and E. H sits fifth to the left of E. One person sits between H and A. D sits immediate right of F who sits third to the right of C.

6. What is the position of F with respect to H?

- (a) Second to the left
 - (b) Third to the left
 - (c) Immediate right
 - (d) Fourth to the right
 - (e) Immediate left
-

7. Four of the following five are similar in a certain way and related to a group. Which of the following is not related to the group?

- (a) B - F
 - (b) D - H
 - (c) I - C
 - (d) G - I
 - (e) A - E
-

8. Who among the following sits second to the left of the one who sits fifth to the right of D?

- (a) G
 - (b) H
 - (c) I
 - (d) A
 - (e) E
-

9. How many persons sit between F and A when counted from the left of F?

- (a) Five
 - (b) Two
 - (c) Four
 - (d) Three
 - (e) One
-

10. Who among the following sits immediate left of E?

- (a) A
 - (b) I
 - (c) F
 - (d) C
 - (e) B
-

In the question below, some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer

11. Statements: Only a few gadget are good Some manual are memory No memory is gadget Conclusions: I. All good being manual is a possibility II. No gadget is manual

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

12. Statements: Only stadium are arena Some match are stadium All match are sport Conclusions: I. No arena being sport is a possibility II. Some arena are not match

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

13. Statements: Only a few city are market All market is trade Some trade is not urban Conclusions: I. Some city are trade II. All urban being trade is a possibility

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

14. Statements: Only a few building are tower. All floors are building No tower is garden Conclusions: I. All floors are garden II. Some floors are not garden

- (a) If only conclusion I follows
 - (b) If only conclusion II follows
 - (c) If either conclusion I or II follows
 - (d) If neither conclusion I nor II follows
 - (e) If both conclusions I and II follow
-

Study the information carefully and answer the questions given below. In a family of eight members. A is the father of B. C is the daughter of F. G is the brother of H. B is the sister-in-law of F. H has two daughters. B is not married. D has two children. E is the male member of the family.

15. How is E related to F?

- (a) Uncle
 - (b) Brother
 - (c) Son
 - (d) Grandfather
 - (e) Son-in-law
-

16. If S is married to G, then how is S related to H?

- (a) Sister
 - (b) Daughter
 - (c) Brother
 - (d) Sister-in-law
 - (e) Can't be determined
-

17. How many female members are there in the family?

- (a) Six
- (b) Four
- (c) Three
- (d) Five
- (e) Can't be determined

18. If in the given word "ERUPTION", all the even positioned letters (from left end) and consonants are changed to immediately succeeding letter, and remaining letters are changed to immediately preceding letter, then find how many letters are repeated in the new arrangement?

- (a) One
- (b) Three
- (c) Two
- (d) None
- (e) Four

Read the given information carefully and answer the related questions: Seven persons A, B, C, D, E, F and G give exam of different subjects in different days of a week starting from Monday. The subjects are Operation, History, Sociology, Urdu, Math, Zoology and Physics. The information of persons and subjects is not necessarily used in the same order as given. F's exam is three days before the one who gives History exam. More than three days gap between F's exam and C's exam. C's exam is just after the one who gives Sociology exam. Urdu exam is given two days after B's exam but B did not give the exam on Friday. Number of days before B's exam is same as the number of days after A's exam. Three days gap between A's exam and the one who gives Math exam. D gives Zoology exam. E's exam is immediate after the one who gives Operation exam.

19. How many days gap between G's exam and F's exam?

- (a) One
- (b) Two
- (c) None
- (d) Three
- (e) Four

20. Who among the following gives exam on Friday?

- (a) A
- (b) D
- (c) F
- (d) G
- (e) C

21. If D is related to Math, in the similar way, E is related to operation, then G is related to which subject?

- (a) Physics
- (b) Sociology
- (c) Urdu
- (d) History
- (e) Zoology

22. Who among the following gives the exam of Physics?

- (a) E
- (b) B
- (c) F
- (d) The one who gives exam on Sunday
- (e) None of these

23. Which of the following pair is correct?

- (a) Saturday - D - Zoology
- (b) Friday - A - Urdu

- (c) Sunday - C - History
 - (d) Monday - E - Math
 - (e) Thursday - G - Operation
-

24. In the number '648319572', if all the digits are arranged in ascending order from left end, then find the product of second digit from the left end and third digit from the right end in the new number formed after rearrangement?

- (a) 15
 - (b) 21
 - (c) 14
 - (d) 18
 - (e) 24
-

25. If "NEAT" is written as "VPGC", and "CORN" is written as "LEMT", then how is "SALT" written, such that the code must also form a meaningful English word?

- (a) UGNZ
 - (b) CUNV
 - (c) CMOZ
 - (d) ZUGN
 - (e) None of these
-

Study the following information carefully and answer the questions given below: Six persons--A, B, C, D, E, and F--are of different weights, but not necessarily in the same order. The weight of second lightest person is 13kg. C is heavier than E. A is heavier than F. B is heavier than C but not immediately heavier. Not more than one person is lighter than A.

26. Who is the third lightest person?

- (a) C
 - (b) A
 - (c) E
 - (d) D
 - (e) None of these
-

27. If D weighs 25kg, then what is the possible weight of C?

- (a) 28 kg
 - (b) 55 kg
 - (c) 36 kg
 - (d) 19 kg
 - (e) 27 kg
-

28. Who is immediately heavier than C?

- (a) D
 - (b) B
 - (c) E
 - (d) F
 - (e) None of these
-

Read the given information carefully and answer the related questions: Eight persons A, B, C, D, E, F, G and H sit in a row but not in the same order as given. Some persons face north and some face south direction. A sits second to the right of F and both face the same direction. B and F sit immediate left to each other. Number of persons sit between A and B is same as the number of persons sit to the right of A. Three persons sit between D and H and both face opposite direction to each other. G sits immediate right of D. Both the immediate neighbors of C face north which is opposite to C. Number of persons face north is more than the number of persons face south.

29. What is the position of B with respect to C?

- (a) Second to the right
 - (b) Immediate left
 - (c) Fourth to the right
 - (d) Third to the left
 - (e) Fifth to the right
-

30. Four of the following five are similar in a certain way and related to a group. Who among the following is not related to the group?

- (a) A
 - (b) H
 - (c) E
 - (d) G
 - (e) D
-

31. How many persons sit to the left of E?

- (a) None
 - (b) One
 - (c) Two
 - (d) More than three
 - (e) Three
-

32. Which of the following statement is correct? I. G faces south II. C is not the immediate neighbor of A and E III. F and H sit immediate right to each other

- (a) Only I
 - (b) Only II
 - (c) Only III
 - (d) Only I and II
 - (e) Only II and III
-

33. Who among the following sits immediate left of E?

- (a) D
 - (b) B
 - (c) H
 - (d) A
 - (e) C
-

34. In the word 'MAGNITUDE', how many pairs of the letters have the same number of letters between them (both forward and backward direction) as in the English alphabet?

- (a) One
- (b) None
- (c) More than four

- (d) Three
 - (e) Two
-

35. Find the odd-one out.

- (a) MPS
 - (b) BDF
 - (c) TWZ
 - (d) RUX
 - (e) GJM
-

Read the information carefully and answer the questions given below: Eight persons -- P, Q, R, S, T, U, V and W -- were born in eight different years: 1957, 1963, 1970, 1976, 1985, 1991, 2000 and 2010, on the same month and same date. (Base year is considered as: 2025) V is 9 years elder than P. The number of persons elder than P is two more than the number of persons younger than Q. Q is immediately elder than S. Three persons were born between S and W. R is elder than T but younger than U. U is not the eldest person

36. Who among the following was born in 1985?

- (a) Q
 - (b) S
 - (c) P
 - (d) U
 - (e) V
-

37. How many persons were born between W and R?

- (a) One
 - (b) Two
 - (c) Three
 - (d) Four
 - (e) Five
-

38. What is the difference between the age of Q and T?

- (a) 23 years
 - (b) 32 years
 - (c) 11 years
 - (d) 34 years
 - (e) 9 years
-

39. Who among the following is the oldest person?

- (a) V
 - (b) Q
 - (c) P
 - (d) S
 - (e) W
-

40. What is the age of T?

- (a) 25 years
- (b) 15 years
- (c) 62 years

- (d) 34 years
- (e) 55 years

Read the information and answer the following question. The table shows the total number of females and ratio of male to females in five different companies. Companies Males: Females Females A 7:5 25 B 3:4 64 C 6:11 88 D 3:7 70 E 9:13 65

41. In company F, total number of females are 20% more than females in A and males are 20% less than that of females. Find the difference between total employees in F and E.

- (a) 56
- (b) 48
- (c) 29
- (d) 40
- (e) 57

42. Find the average number of males in D and B.

- (a) 39
- (b) 38
- (c) 35
- (d) 40
- (e) 37

43. The ratio of promoted to non-promoted from total employees in D is 2:3. Total females who got promoted in D is 25. Find the females who got promoted in D is what percentage of non promoted females in D.

- (a) 11.11
- (b) 22.22
- (c) 33.33
- (d) 44.44
- (e) 55.55

44. Find the ratio of total employees in A to males in B & D together.

- (a) 5:6
- (b) 4:9
- (c) 10:13
- (d) 14:13
- (e) 5:7

45. Find the difference between total males and females in all the companies.

- (a) 102
- (b) 108
- (c) 109
- (d) 106
- (e) 100

46. The ratio of intern to permanent employees in C is 1:1 and out of that 25 are female intern. Find the permanent male employees in C.

- (a) 1
- (b) 2

- (c) 3
- (d) 4
- (e) 5

The line graph shows the number of cupboard and dashboard in four shops. 0 25 50 75 100 125 150 175 200 225 250
A B C D Cupboard Dashboard

47. Find the average of cupboard in A, dashboard in B and (cupboard + dashboard) in C.

- (a) 200
- (b) 100
- (c) 135
- (d) 140
- (e) 150

48. Find the ratio of (cupboard and dashboard) in A to dashboard in B and C together.

- (a) 6:5
- (b) 13:15
- (c) 3:5
- (d) 14:15
- (e) 15:16

49. Cupboard in all the shops is how many more than dashboard in A and B together.

- (a) 60
- (b) 30
- (c) 25
- (d) 40
- (e) 50

50. If 20% of the cupboard sold from total cupboard in A and 45 dashboard sold out of total dashboard in B. find the sum of unsold dashboard in B and unsold cupboard in A.

- (a) 260
- (b) 230
- (c) 245
- (d) 240
- (e) 235

51. The ratio of defective to non defective cupboard in C is 3:2, find the non-defective cupboard in C is what percentage more/less than total dashboard in B.

- (a) 60
- (b) 50
- (c) 55
- (d) 75
- (e) 100

52. Find the cupboard in B is what percentage of dashboard in D.

- (a) 60
- (b) 30
- (c) 35

- (d) 40
 - (e) 50
-

53. A 40 liters mixture contains X liters of milk and rest is water. A person removed 10 liters of mixture and added 18 liters of water in the remaining mixture. If the ratio of milk to water in the final mixture is 7: 9, then find the quantity of water (in liters) in initial solution.

- (a) 18
 - (b) 12
 - (c) 20
 - (d) 14
 - (e) 15
-

54. A spends 33 $\frac{1}{3}$ % of his income on food and 14 $\frac{2}{7}$ % of remaining in transport. If the sum of amounts spend on food and transport is Rs.9000, then find the income (In Rs.) of A.

- (a) 21000
 - (b) 72000
 - (c) 18000
 - (d) 81000
 - (e) 66000
-

55. The average weight of 12 students in a class is 'y' kg. Two new students joined them with total weight of 72 kg and the average weight of the class is decreased by y 16 kg. If the weight of heavier student out of two students who joined is y - 24 kg, then find the difference between weight of two students who joined.

- (a) 10 kg
 - (b) 4 kg
 - (c) 12 kg
 - (d) 8 kg
 - (e) 6 kg
-

56. Shivam marked up an article 80% above its cost price and allowed 30% discount on it. Had he allowed only 20% discount on the article, then he would have earned Rs.108 more. Find cost price of the article.

- (a) Rs.900
 - (b) Rs.700
 - (c) Rs.800
 - (d) Rs.500
 - (e) Rs.600
-

57. The ratio of present age of A to B is 9:7 and present age of C is $\frac{100}{9}$ % of the present age of A. If the average of present age of A, B and C is 22 years & 8 months, then find the present age of C.

- (a) 8 years
 - (b) 1 year
 - (c) 7 years
 - (d) 4 years
 - (e) 5 years
-

58. A man invests Rs. X in a scheme, which offers simple interest at the rate of 24% p.a. for three years. Man received Rs.3600 as total interest from the scheme. If man invests Rs. X in a bank which offers compound interest at rate of 10% p.a. for two years, then find the total amount received by man from the bank after two years.

- (a) Rs. 7200
 - (b) Rs. 7400
 - (c) Rs. 7700
 - (d) Rs. 6050
 - (e) Rs. 7550
-

59. There are two empty vessel P and Q. If equal quantity of juice is poured into both the vessel, then this process makes vessel P $\frac{3}{8}$ th full and vessel Q $\frac{2}{5}$ th full, then find the capacity of vessel Q is what percent of vessel P's capacity?

- (a) 90.25%
 - (b) 94.50%
 - (c) 92.75%
 - (d) 98.50%
 - (e) 93.75%
-

60. The efficiency of A is 25% more than that of B, and the efficiency of C is 20% more than that of A. If A, B, and C together can complete a piece of work in 12 days, then in how many days can B alone complete the same work?

- (a) 40
 - (b) 45
 - (c) 35
 - (d) 30
 - (e) 50
-

61. A, B and C are three positive integers. The ratio of A to B is 4:5 respectively. C is 5 more than that of B. If the sum of A, B and C is 89, then find the value of C.

- (a) 30
 - (b) 24
 - (c) 35
 - (d) 36
 - (e) 40
-

62. The time taken by a boat to cover 40 km upstream is equal to the time taken by the boat to cover 60 km downstream. If the speed of the stream is 2 km/h, find the downstream speed of the boat (in km/h).

- (a) 8
 - (b) 10
 - (c) 12
 - (d) 14
 - (e) 18
-

63. A and B started a business with investments of Rs 5200 and Rs 8000. After four months, A added Rs 800 more, and B withdrew 33.33% of his initial investment. Find the profit-sharing ratio of A to B after one year.

- (a) 132:137
 - (b) 135:139
 - (c) 133:140
 - (d) 131:140
 - (e) 129:140
-

64. Train A can cross a pole in 15 seconds and cross train B while running in the same direction in 72 seconds. The length of train A is 570 meters, and the speed of train B is 26 m/sec. Find the length of the train B (in meters).

- (a) 294
 - (b) 280
 - (c) 288
 - (d) 274
 - (e) 262
-

65. The perimeter of a rectangle is 58 cm, and the length of the rectangle is 3 cm more than that of the breadth. Find the area of the rectangle (in cm^2).

- (a) 210
 - (b) 208
 - (c) 224
 - (d) 215
 - (e) 228
-

Find out the wrong number.

66. 8 , 17.5, 35, 105, 420, 2100, 12600

- (a) 17.5
 - (b) 8
 - (c) 105
 - (d) 420
 - (e) 2100
-

67. 201, 205, 214, 230, 255, 290, 340

- (a) 201
 - (b) 290
 - (c) 214
 - (d) 230
 - (e) 255
-

68. 24, 13, 14, 22, 45, 113, 341.5

- (a) 45
 - (b) 14
 - (c) 13
 - (d) 24
 - (e) 113
-

69. 117, 136, 159, 188, 219, 256, 296

- (a) 256
 - (b) 219
 - (c) 296
 - (d) 117
 - (e) 136
-

70. 28.5, 30, 63, 191, 766, 3832, 22994

- (a) 30

- (b) 28.5
- (c) 63
- (d) 191
- (e) 766

Solve the given quadratic equations and mark the correct option based on your answer. (a) if $x > y$ (b) if $x \geq y$ (c) if $x < y$ (d) if $x \leq y$ (e) if $x = y$ or no relation can be established between x and y .

71. I. $3x^2 - x - 4 = 0$ II. $3y^2 + 16y + 13 = 0$

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

72. I. $2x^2 - x - 45 = 0$ II. $3y^2 + 16y + 21 = 0$

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

73. I. $2x^2 + 20x + 32 = 0$ II. $3y^2 + 7y + 4 = 0$

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

74. I. $2x^2 - 28x + 90 = 0$ II. $3y^2 + 8y + 4 = 0$

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

75. I. $x^2 + 31x + 108 = 0$ II. $y^2 - 21y + 98 = 0$

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

What approximate value will come in place of question mark (?) in the following questions (You are not expected to calculate the exact value).

76. $129\% \text{ of } 399 + \frac{9}{17} \text{ of } \sqrt{1150} = ?$

- (a) 538
- (b) 545

- (c) 529
 - (d) 516
 - (e) 588
-

77. $(501 + 98) / 8 = ? \times \text{cbrt}122$

- (a) 30
 - (b) 25
 - (c) 20
 - (d) 15
 - (e) 5
-

78. $(309 \times 89) / 31 + 59 = ?^2$

- (a) 19
 - (b) 33
 - (c) 25
 - (d) 23
 - (e) 31
-

79. $12^2 + 8 + 59\% \text{ of } 90 = ? \% \text{ of } 40 + 5$

- (a) 500
 - (b) 450
 - (c) 598
 - (d) 657
 - (e) 980
-

80. $\text{sqrt}670 - 5/7 \text{ of } 20 + (24 - 5) = \text{sqrt}?$

- (a) 961
 - (b) 900
 - (c) 676
 - (d) 625
 - (e) 729
-
