

Flagged for repair - Set 1

108 questions held back from set 1

1. I. $7x - 54x + 99 = 0$

II. $4y^2 - 16y + 15 = 0$

- (a) if $x > y$
- (b) if $x < y$
- (c) if $x \geq y$
- (d) if $x \leq y$
- (e) if $x = y$, or no relation can be established between x and y

FLAGGED - an equation lost its exponent and no longer matches the key

2. Which of the following player belongs to Afghanistan?

- (a) Mohammad Nabi
- (b) Azhar Ali
- (c) Kevin O'Brien
- (d) Mushfiquir Rahim
- (e) Ben Stokes

FLAGGED - refers to an arrangement/set that was never extracted

3. The one who belongs to India sits third to the right of _____

- (a) Shaun Marsh
- (b) Ross Taylor
- (c) Lasith Malinga
- (d) Chris Gayle
- (e) Imran Tahir

FLAGGED - refers to an arrangement/set that was never extracted

4. The one who belongs to Jaipur sits third to the left of _____

- (a) The one who belongs to Hyderabad
- (b) The one who belongs to Chennai
- (c) The one who produces Cabbage
- (d) The one who produces Cauliflower
- (e) The one who produces Onion

FLAGGED - refers to an arrangement/set that was never extracted

5. Who sits second to the left of Durga?

- (a) Yazhini
- (b) Suchitra
- (c) Ilakiya
- (d) Priya
- (e) Lakshmi

FLAGGED - refers to an arrangement/set that was never extracted

6. Which of the following person belongs to Lucknow?

- (a) Jyothi
- (b) Shalini
- (c) Durga
- (d) Aarthi
- (e) Lakshmi

FLAGGED - refers to an arrangement/set that was never extracted

7. Which of the following persons sits at the extreme ends of one row?

- (a) Yazhini and Suchitra
- (b) Aarthi and Gayathri
- (c) Haritha and Gayathri
- (d) Priya and Ilakiya
- (e) Ritaj and Haritha

FLAGGED - refers to an arrangement/set that was never extracted

8. Which of the following person working in Allahabad Bank?

- (a) Jairam
- (b) Madhan
- (c) Nitish
- (d) Gandhi
- (e) Roshan

FLAGGED - refers to an arrangement/set that was never extracted

9. Which of the following person sits exactly between who have training in Mumbai and Bhubaneswar?

- (a) The one who have training in Hyderabad
- (b) The one who have training in Kolkata
- (c) The one who have training in New Delhi
- (d) The one who have training in Kochi
- (e) The one who have training in Bangalore

FLAGGED - refers to an arrangement/set that was never extracted

10. Which of the following persons sits exactly between Akshay and the one who likes Basketball?

- (a) Thomas and Vinoth
- (b) Raman and Dharish
- (c) Vinoth and Arun
- (d) Ganesh and Thomas
- (e) Sadiq and Dharish

FLAGGED - refers to an arrangement/set that was never extracted

11. Hockey like by which of the following person?

- (a) Arun
- (b) Ganesh
- (c) Vinoth
- (d) Akshay
- (e) Raman

FLAGGED - refers to an arrangement/set that was never extracted

12. Which of the following person have Redmi mobile?

- (a) Anjana
- (b) Pavithra
- (c) Nithya
- (d) Gayathri
- (e) Reena

FLAGGED - refers to an arrangement/set that was never extracted

13. Which of the following person diagonally opposite to Maalini?

- (a) Janani
- (b) Neelam
- (c) Abinaya
- (d) Haasini
- (e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

14. Nisha sits third to the right of _____

- (a) Haasini
- (b) Bhavana
- (c) Divya
- (d) Saritha
- (e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

15. Who sits third to the left of the one who likes Orange juice?

- (a) Rahaman
- (b) Kavin
- (c) Venkat
- (d) Arvind
- (e) Karan

FLAGGED - refers to an arrangement/set that was never extracted

16. Who sits third to the left of the one who have Sony mobile?

- (a) The one who have Redmi mobile
- (b) The one who have Oppo mobile
- (c) The one who likes Citizen watch
- (d) The one who have Samsung mobile
- (e) The one who likes Casio watch

FLAGGED - refers to an arrangement/set that was never extracted

17. Which of the following persons likes Speed watch?

- (a) Mukesh
- (b) Kumar
- (c) Vinay
- (d) Dinesh
- (e) Ashok

FLAGGED - refers to an arrangement/set that was never extracted

18. Who among the following is selected in

- (a) R
- (b) S
- (c) M
- (d) N
- (e) None of these

FLAGGED - stem ends mid-sentence

19. Subash faces which of the following person?

- (a) The one who have Bolero car
- (b) Basha
- (c) The one who have Tiago car
- (d) Eshwar
- (e) None of these

FLAGGED - refers to an arrangement/set that was never extracted

20. If each digit in the step II is subtracted with 2 then added, then what will be the final sum?

- (a) 25
- (b) 19
- (c) 17
- (d) 20
- (e) 10

FLAGGED - refers to an arrangement/set that was never extracted

21. I. $p^2 + 13p + 42 = 0$

II. $q^2 = 36$ Directions (Q. 16-20): In each question two ego numbered I and II are given. You have to solve both equations and mark the appropriate answer.

(a) if $x > y$

(b) if $x \geq y$

(c) if $x < y$

(d) if $x \leq y$

(e) if $x = y$ or no relation can be established between x and y . 16). I. $9x^2 - 41x + 46 = 0$ II. $12y^2 + 43y + 38 = 0$ 17). I. $6x^2 + 13x - 169 = 0$ II. $y^2 + 8y - 65 = 0$ 18). I. $3x + 5y = 4$ II. $6x - 7y = 25$ 19). I. $x^2 - 5x + 4 = 0$ II. $y^2 + 11y - 12 = 0$ 20). I. $8x^2 + 50x + 57 = 0$ II. $6y^2 - y - 57 = 0$ 11). B) I. $6p^2 + 5p + 1 = 0$ $(3p+1)(2p+1) = 0$ $p = -1/3, -1/2$ II. $20q^2 + 9q + 1 = 0$ $(4q+1)(5q+1) = 0$ $q = -1/4, -1/5$ $\therefore p < q$ 12). A) I. $3p^2 + 2p - 1 = 0$ $(3p-1)(p+1) = 0$ $p = 1/3, -1$

FLAGGED - option text still carries the next question

22. $] = [(842 / 5) \times (256 / 37)] + [(616 / 52) \times (2089 / 19)] = (215552 / 185) + (1286824 / 969) = 1165.14 + 1302.45 = 2467.59$ Directions (Q.161-165): What approximate value should come in place of question mark (?) in the following questions? 161). $(10/12) \times [(4/18) \div (8/18)] \div (12/14) = ?$

(a) 1.25

(b) 0.25

(c) 0.5

(d) 1.75

(e) 2 162). 15% of 62.58 + 20% of 9.68 = ? 163). $543.28 \div 55 = ?$ 164). $[(6/1.6) \times (22/0.4)] \div [(56/6) \times (42/10)] = ?$ 27 1000 Most Important Simplification Questions 165). $(2.2)^2 + (6.4)^2 + (6)^2 = ?$ Directions (Q. 166-170): What should come in place of question mark (?) in the following questions? 166). $[(6/4) \times (32/8) \times (6/16)] + [(6/16) \times (24/8) \times (36/4)] = ?$ 167). $(6160 + 12320) \div ? = 660$ 168). $? \times (1047 + 137.5) = 461955$ 169). $[(10 \times 10 \times 10) / (4 + 4 + 4 + 4)] = ?$

FLAGGED - option text still carries the next question

23. $? \times 35 = (13.08\% \text{ of } 7439) \times (4.23\% \text{ of } 323) = [(13 \times 7450) / 100] \times [(4 \times 325) / 100] = 13 \times 74.5 \times 13 = 169 \times 74.5 = 12590.5$ $\therefore ? = (12590.5/35) \approx 360 \approx 362$ Directions (Q. 281-290): What will come in place of the question mark (?) in the following questions? 281). $(12 / 17) \text{ of } 25\% \text{ of } 1020 = 120 + ?$

(a) 60

(b) 40

(c) 80

(d) 120

(e) None of these 282). $4321 - 9241 + 5642 + 3220 = ? + 1203$ 283). $52 \times 26 \div \sqrt{169} - 32 = ? - 42$ 47 1000 Most Important Simplification Questions 284). $\sqrt{(54 \times 5 + 150 + 21)} = (?)^2$ 285). $72 \times 492 = 7? \times 343$ 286). $36\% \text{ of } 420 - 56\% \text{ of } 350 = ? - 94$ 287). $(2/3) \text{ of } 1(2/5) \text{ of } 75\% \text{ of } 540 = ?$ 288). $(\sqrt{9})^3 \times (\sqrt{81})^5 \div (27)^2 = (3)^{(?)}$

FLAGGED - option text still carries the next question

26. Which of the following players sits at the extreme ends of one row?

- (a) Ben Stokes and Azhar Ali
- (b) Mohammad Nabi and Mushfiquur Rahim
- (c) Rohit Sharma and Chris Gayle
- (d) Shaun Marsh and Lasith Malinga
- (e) Ben Stokes and Kevin O'Brien

FLAGGED - refers to an arrangement/set that was never extracted

27. Which of the following person ordered the product on Monday?

- (a) Praveen
- (b) Devan
- (c) Hanif
- (d) Sunil
- (e) Bharat

FLAGGED - refers to an arrangement/set that was never extracted

28. Which of the following person saved 2500 rupees?

- (a) B
- (b) C
- (c) E
- (d) A
- (e) D

FLAGGED - refers to an arrangement/set that was never extracted

29. Who among the following exactly sitting between Krishna and Roshan?

- (a) The one who working in Union Bank of India
- (b) Praveen
- (c) The one who lives in 8th floor
- (d) The one who is from Maharashtra
- (e) All of the above

FLAGGED - refers to an arrangement/set that was never extracted

30. How many persons sit between Vinoth and the one who likes Tennis?

- (a) Five
- (b) Three
- (c) Four
- (d) Two
- (e) Six

FLAGGED - refers to an arrangement/set that was never extracted

31. Which of the following persons likes Grapes juice?

- (a) Arvind
- (b) Venkat
- (c) Kavın
- (d) Niranján
- (e) Karán

FLAGGED - refers to an arrangement/set that was never extracted

32. The only person who is sitting between R and O is working on which of the following state?

- (a) Maharashtra
- (b) Punjab
- (c) Kerala
- (d) Haryana
- (e) Odisha

FLAGGED - refers to an arrangement/set that was never extracted

33. What is the code for 'plays Verb' in the given code language?

- (a) 16&UG, 33&LP
- (b) 08#KD, 15+VY
- (c) 09!ZW, 08!IR
- (d) 20*RA, 04*MW
- (e) 16&UG, 33&LP

FLAGGED - two or more options are identical after cleaning

34. $(12/17) \times (25/100) \times 1020 = 120 + ?$ 286). 36% of 420 – 56% off 350 = ? - 94 $\Rightarrow 180 = 120 + ?$

- (a) 48.2 $\Rightarrow ? = 180 - 120 = 60$
- (b) 49.2 Answer: a)
- (c) 138.8
- (d) 158.8 282. $3942 = ? + 1203$
- (e) None of these $\Rightarrow ? = 3942 - 1203 = 2739$ Answer: e) 287). $(2/3)$ of $1(2/5)$ of 75% of 540 = ? 288). $(\sqrt{9})3 \times (\sqrt{81})5 \div (27)2 = (3)(?)$ 284. $\sqrt{(270 + 150 + 21)} = ?2$

FLAGGED - option text still carries the next question

DIRECTIONS (Q. 35)

With an increased variability of monsoons and rapidly depleting groundwater tables, large parts of India are reeling under water stress and drought like situation. Here, one intervention that has been tried out in various States, and perhaps needs to be taken up on a bigger scale, is the construction of farm ponds, it can be cost-effective structures that transform rural livelihoods. They can help enhance water control, contribute to agriculture intensification and boost farm incomes.

35. Which of the following can diminish the importance farm ponds?

- (a) Farm Ponds is cost effective and it transform rural livelihoods
- (b) It will help to enhance water control, agricultural reforms and can boost farmers' incomes
- (c) It can used as intermediate storage which may leads to evaporation loss
- (d) Both
- (e) Both

FLAGGED - two or more options are identical after cleaning

36. Owner of Restaurant A has decided to decrease the price of Full Thali to attract the customers while the Owner of Restaurant B will keep the price unchanged. Both the owner has same motive to increase the customer base and increase their income. Which of the following can be hypothesized from the above statement? (I) All the Customer of Restaurant B will move to Restaurant A to avail the benefit of price slashed. (II) Some of the customer will think quality of Restaurant A is not as good as Restaurant B. (III) Infrastructure and kitchen of Restaurant B is more modern and spacious.

- (a) Only I and II

- (b) Only III
- (c) Only II and III
- (d) Only I and III
- (e) None of them

FLAGGED - refers to an arrangement/set that was never extracted

DIRECTIONS (Q. 37-38)

Study the bar chart given below and answer the following questions. Bar chart shows the total votes (in '000) in 5 different cities (A, B, C, D & E) and percentage of valid votes out of total votes in these 5 cities.

- 37.** In B there are only two parties – BJP & INC. If BJP got 60% of total votes in B and ratio of invalid votes received by BJP and INC is 2 : 1, then find valid votes received by INC in B.

- (a) 24000
- (b) 27000
- (c) 22000
- (d) 20000
- (e) 25000

FLAGGED - asks about a graph/table that has no usable image

- 38.** In C there are four parties – BJP, INC, SP & AAP. If ratio of valid votes received by BJP, INC, SP & AAP in C is 4 : 2 : 3 : 3 and ratio of invalid votes received by BJP, INC, SP & AAP in C is 1 : 3 : 4 : 2, then find difference between total votes received by INC & SP in C.

- (a) 2000
- (b) 3500
- (c) 3400
- (d) 2100
- (e) 2700

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 39-42)

Given bar graph shows the details of number of students in a particular class of 3 different schools in 5 different years.

- 39.** What is the difference between average number of students of school A across all the years and the average number of students of school B across all the years?

- (a) 18
- (b) 10
- (c) 12
- (d) 14
- (e) 16

FLAGGED - asks about a graph/table that has no usable image

- 40.** Find the respective ratio of the total number of students of school A in 2011 and 2012 together to the total number of students of school C in 2013 and 2014 together?

- (a) 31:33
- (b) 47:55
- (c) 55:47
- (d) 33:31
- (e) 31:37

FLAGGED - asks about a graph/table that has no usable image

41. If in 2016, the total number of students in School A, School B and School C increases by 10%, 20% and 15% respectively as compared to 2015, then find the total number of students in 2016 in all the schools together?
- (a) 850
 - (b) 870
 - (c) 780
 - (d) 830
 - (e) 800

FLAGGED - asks about a graph/table that has no usable image

42. Total students of all the school together in 2013 is approximately what percentage more/less than the total students of school B in 2011 and 2015 together?
- (a) 52%
 - (b) 59%
 - (c) 56%
 - (d) 63%
 - (e) 48%

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 43-46)

Given bar graph shows the percentage distribution of total number of students of each school (P, Q, R & S) who took admission in 3 different streams. Total students in P, Q, R & S are 700, 800, 400 & 900 respectively.

43. What is average number of students who have opted for MBBS in all the 4 colleges?
- (a) 256
 - (b) 233
 - (c) 284
 - (d) 224
 - (e) 296
44. What is the ratio of the total number of student who have opted for both engg. and MBBS stream together in college Q to that of in same stream together in college R?
- (a) 38:65
 - (b) 67:35
 - (c) 35:67
 - (d) 65:38
 - (e) 29:37

FLAGGED - asks about a graph/table that has no usable image

45. The number of student who have opted for MBBS in college P is what percent of the number of students who have opted for the engg. in college Q?
- (a) 87.5%
 - (b) 50%
 - (c) 75%
 - (d) 100%
 - (e) 62.5%

FLAGGED - asks about a graph/table that has no usable image

46. Which of the combination represents the colleges with maximum number of students, who have opted for pharmacy and those who have opted for engg. respectively?
- (a) P & R
 - (b) Q & S
 - (c) Q & R
 - (d) R & S
 - (e) P & Q

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 47-50)

following line graph shows the data of 3 different types of cars sold in 5 different cities.

47. Find the respective ratio of Creta car sold in Delhi and Mohali together to the total of Innova car sold in Kolkata and Ahmedabad together?
- (a) 41:35
 - (b) 46:53
 - (c) 26:35
 - (d) 35:41
 - (e) 35:54

FLAGGED - asks about a graph/table that has no usable image

48. Find the total number of cars sold in Kolkata?

- (a) 1140
- (b) 1170
- (c) 1250
- (d) 1300
- (e) 1080

FLAGGED - asks about a graph/table that has no usable image

49. Find the difference between number of Honda city cars sold in delhi and number of creta cars sold in surat?

- (a) 70
- (b) 110
- (c) 80
- (d) 100
- (e) 90

FLAGGED - asks about a graph/table that has no usable image

50. Find the average number of Honda city car sold in all the cities?

- (a) 420
- (b) 426
- (c) 416
- (d) 430
- (e) 435

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 51-55)

Following Line Graph shows the marks scored by Student A and Student B in high school in different Subjects.(Maximum Marks is 100 for each subject). Study the data carefully and answer the following questions.
(e) 4

51. What is difference between average marks scored by Student A and Student B in all subjects?

- (a) 1.75
- (b) 1.45
- (c) 1.50
- (d) 1.25
- (e) 1

FLAGGED - asks about a graph/table that has no usable image

52. What is Ratio of marks obtained by Student A in Maths and Computer together to the marks obtained by Student B in Science and English together?

- (a) 7:5
- (b) 7:8
- (c) 8:7
- (d) 8:5
- (e) 5:7

FLAGGED - asks about a graph/table that has no usable image

53. What is the overall percentage marks scored by Student B?

- (a) 68.75 %
- (b) 67.5 %
- (c) 68%
- (d) 67%
- (e) 69.25%

FLAGGED - asks about a graph/table that has no usable image

54. Marks Scored by Student A in Math is what percent of marks scored by Student B in Science and English together?

- (a) 40%
- (b) 60%
- (c) 50%
- (d) 70%
- (e) 80%

FLAGGED - asks about a graph/table that has no usable image

55. If passing marks for each subject is 40% of 120, then what is the difference between passing marks and marks scored by Student B in Computer?

- (a) 30
- (b) 32
- (c) 36
- (d) 40
- (e) 45

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 56-59)

Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note – Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

56. If company – B sold 80%, 90% and 80% buses manufactured by it in 2016, 2017 & 2018 respectively, then find average number of unsold buses of company – B in 2016, 2017 & 2018.

(a) 400
(b) 900
(c) 500
(d) 200
(e) 100

FLAGGED - asks about a graph/table that has no usable image

57. Buses manufactured by company – A in 2016 & 2018 together are what percent more or less than buses manufactured by company – D in 2017 & 2018 together?

(a) 50%
(b) 90%
(c) 70%
(d) 60%
(e) 80%

FLAGGED - asks about a graph/table that has no usable image

58. Buses manufactured in 2018 by all these 5 companies together are approximately what percent of buses manufactured in 2016 by all these 5 companies together?

(a) 104%
(b) 108%
(c) 102%
(d) 118%
(e) 115%

FLAGGED - asks about a graph/table that has no usable image

59. Average number of buses manufactured by company – B, C & D in 2017 are how much more or less than buses manufactured by company – D & E together in 2016?

(a) 1500
(b) 2500
(c) 2000
(d) 1000
(e) 500

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 60)

Line graph shows the quantity of 5 different products purchased by a person.

60. If cost per kg of sugar, salt & rice is Rs. 10, Rs. 30 & Rs. 20 respectively then find the sum of difference of total cost of sugar and that of salt and difference of total cost of sugar and that of rice?

(a) Rs. 500
(b) Rs. 475
(c) Rs. 400
(d) Rs. 450
(e) Rs. 435

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 61)

Given table shows the data of students of a class related to results of Half-yearly and Annual examination. Study the data carefully and answer the questions.

61. Which sections have equal number of students?

- (a) section A & B
- (b) section A & C
- (c) section B & C
- (d) all have same no.of students
- (e) none

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 62-64)

Following table gives the detail of items sold by two different stores i.e Store A and Store B and among them percentage of numbers of items purchased by females are given.

62. Find the respective ratio between total number of items purchased by males from store A on Tuesday and Wednesday together to the total numbers of items purchased by females from store B on Thursday and Friday together ?

- (a) 45:73
- (b) 41:71
- (c) 73:41
- (d) 71:41
- (e) 37:71

FLAGGED - asks about a graph/table that has no usable image

63. Total Items purchased on Thursday and Friday together of store A is what percentage of total items purchased on Wednesday and Thursday together of store B ?

- (a) 125%
- (b) 100%
- (c) 120%
- (d) 140%
- (e) 80%

FLAGGED - asks about a graph/table that has no usable image

64. If total items purchased from store A and Store B on Saturday are 20% more and 30% more respectively than the total items sold by store A and B on Wednesday, then find the total number of items purchased from Store A and Store B together on saturday?

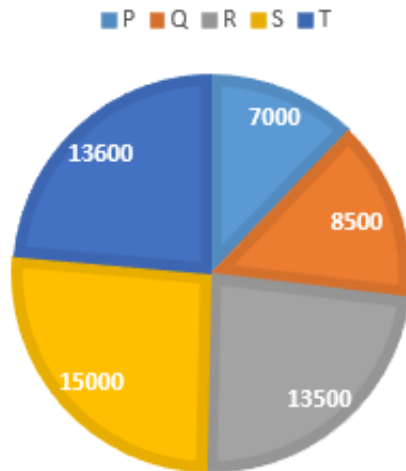

- (a) 828
- (b) 753
- (c) 783
- (d) 807
- (e) 823

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 65)

Pie chart given below shows no. of non-defective article manufactured by five different firms i.e. P, Q, R, S and T.

NO. OF NON-DEFECTIVE ARTICLE

65. If no. of defective article manufactured by firm P 10 and R are 30% and 30 13 % respectively of total no. of article manufactured by each of these firm, then find defective article manufactured by firm P is what percent more/ less than that of firm R?
- (a) 20%
 - (b) 15%
 - (c) 50%
 - (d) 25%
 - (e) 75%

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 66)

Given bar graph shows the details of number of students in a particular class of 3 different schools in 5 different years.

66. Find the difference between the number of total students from all the schools in 2011 and 2013 together and the total number of students from all the schools in 2014 and 2015 together?
- (a) 140
 - (b) 60
 - (c) 120
 - (d) 80
 - (e) 100 3

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 67)

Given bar graph shows the percentage distribution of total number of students of each school (P, Q, R & S) who took admission in 3 different streams. Total students in P, Q, R & S are 700, 800, 400 & 900 respectively.

67. What is the ratio of the no. of students who have opted for engg. in college R to that of those who have opted for same stream in college P?
- (a) 14:11
 - (b) 17:13
 - (c) 11:14
 - (d) 13:17
 - (e) None of these

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 68)

Study the radar chart given below and answer the following questions. Radar chart shows the number of buses manufactured by 5 different companies (A, B, C, D & E) in 2016, 2017 & 2018. 5 Note – Buses manufactured by a company in any year = (Sold + unsold) buses of that company in that year.

68. If buses sold by company – B and company – E in 2016 are 75% and 80% respectively, then find ratio of buses sold by company – B & E together in 2016 to unsold buses of company – B & E together in 2016.
- (a) 11 : 5
 - (b) 5 : 1
 - (c) 8 : 5
 - (d) 7 : 2
 - (e) None of the above

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 69-70)

Line graph shows the quantity of 5 different products purchased by a person.

69. If total cost of Tea is Rs. 5000 and that of wheat is Rs.
- (a) 72%
 - (b) 86%
 - (c) 82%
 - (d) 78%
 - (e) 92%

FLAGGED - asks about a graph/table that has no usable image

70. One kg of rice and one kg of sugar is purchased in Rs
- (a) Rs. 300
 - (b) Rs. 350
 - (c) Rs. 200
 - (d) Rs. 250
 - (e) Rs. 450

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 71)

Following table gives the detail of items sold by two different stores i.e Store A and Store B and among them percentage of numbers of items purchased by females are given.

71. Find the total number of items purchased by males from store B on all the given days together?
- (a) 936
 - (b) 832
 - (c) 912
 - (d) 852
 - (e) 882

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 72)

Following table DI gives the detail of magazines printed by five different companies and distributed among different distributors and answer the following question accordingly.

72. Find the difference between total no. of distributors of magazines sold by companies P and Q together to the total no. of distributors of magazines sold by companies R and T together?
- (a) 38
(b) 34
(c) 36
(d) 42
(e) 40
- Note:- magazines were equally distributed among the distributors of respective printing companies
- FLAGGED - asks about a graph/table that has no usable image**

DIRECTIONS (Q. 73-74)

Pie chart given below shows no. of non-defective article manufactured by five different firms i.e. P, Q, R, S and T. Read the data carefully and answer the following questions. (total article manufactured by any firm = defective + non-defective article)

73. If no. of defective article manufactured by firm P and R are 30% and 30 10 13 % respectively of total no. of article manufactured by each of these firm, then find defective article manufactured by firm P is what percent more/ less than that of firm R?
- (a) 20%
(b) 15%
(c) 50%
(d) 25%
(e) 75%
- FLAGGED - a stacked fraction collapsed into loose digits; asks about a graph/table that has no usable image**
74. What is the ratio of non-defective article manufactured by firm Q and R together to that of P and S together?
- (a) 2:1
(b) 1:1
(c) 1:2
(d) 1:3
(e) 3:1 16
- FLAGGED - asks about a graph/table that has no usable image**

DIRECTIONS (Q. 75)

Given line graph shows the sum invested, rate of interest and time period of investment by 4 people. Study the data carefully and answer the questions. (NOTE: all invested their sum at simple interest)

75. If Karan had invested same sum at compound interest at same rate of interest for same period. How much more would he earn?
- (a) Rs 80
(b) Rs 90
(c) Rs 70
(d) Rs 60
(e) None of these
- FLAGGED - asks about a graph/table that has no usable image**

DIRECTIONS (Q. 76)

Following Table chart gives the details of 5 students of a particular school in five different subjects in the annual exam.

76. Total marks scored by Aakash, Siddharth and Lokesh in English is what percentage of the total marks scored by Amit, Aakash and lokesh in maths?
- (a) 75%
 - (b) 70%
 - (c) 65%
 - (d) 68%
 - (e) 80% Note:-the data provided in the table is percentage of marks out of total marks in that particular subject

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 77)

Given pie graph shows percentage distribution of watches manufactured by a company in 2018. Study the graph carefully & answer the questions.

77. What is ratio of watches manufactured by Timex & Sonata together to that by Fossil & Casio together?
- (a) 5:4
 - (b) 8:7
 - (c) 7:8
 - (d) 7:4
 - (e) 5:8

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 78-79)

Study the charts given below carefully and answer the following questions. Pie chart shows the distribution of total students of a university in different departments as shown below.

78. Total students from engineering and pharmacy department together is approximately what percentage of the total students from MBBS and Fine arts dept?
- (a) 122%
 - (b) 148%
 - (c) 126%
 - (d) 143%
 - (e) 134%
79. Find the ratio of total number of student from engineering and architecture department together to total students from the pharmacy and BSc department together?
- (a) 27:43
 - (b) 27:47
 - (c) 43:27
 - (d) 47:27
 - (e) 37:42 19

FLAGGED - asks about a graph/table that has no usable image

DIRECTIONS (Q. 80)

What will come in place of the question mark (?) in the following questions ?

80. $3\frac{27}{100}$ % of 675 + $25\frac{4}{100}$ % of 184 = x

- (a) 70.64
- (b) 71.64
- (c) 71.46
- (d) 70.46
- (e) None of these

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 81)

What should come in place of the question mark (?) in the following series ? 1.

81. In vessel A 80% is milk and rest is water. Vessel B also contain same 1 mixture in which milk is $62\frac{2}{100}$ % of total volume. 25l of mixture taken out from vessel A and poured in vessel B so that milk becomes 100% more than water in vessel B. If new quantity of mixture in vessel B is 16% less than initial quantity of mixture in vessel A then find initial quantity of milk in vessel A?

- (a) 100l
- (b) 125l
- (c) 115l
- (d) 105l
- (e) 112l

FLAGGED - a stacked fraction collapsed into loose digits

82. Wheat of x Rs./kg is mixed with wheat of y Rs./kg in the ratio 2 : 3. On 2 selling the mixture at 49 Rs./kg there is a gain of $16\frac{3}{100}$ %. If the quantity in which they were mixed is reversed and selling price remains same, 550 then gain percent becomes 19 %. What is the volume of 'x'.

- (a) 25 Rs./kg
- (b) 30 Rs./kg
- (c) 28 Rs./kg
- (d) 32 Rs./kg
- (e) 20 Rs./kg

FLAGGED - a stacked fraction collapsed into loose digits

83. Vessel A contains (X + 24) l of mixture of milk and water in the ratio of 7 : 8, while vessel B contains (X + 54) l of same mixture of milk and 1 water in the ratio of 3 : 2. If $37\frac{2}{100}$ % of mixture from vessel A and 40% of mixture from vessel B taken out and mixed in vessel C, then the remaining mixture in vessel B is 15l more than that of in vessel A. find quantity of milk in vessel C?

- (a) 49 litre
- (b) 57 litre
- (c) 55 litre
- (d) 53 litre
- (e) 51 litre

FLAGGED - a stacked fraction collapsed into loose digits

84. A shopkeeper has two types Wheat i.e Type A & Type B and cost price per kg of Type A wheat is 10 times of cost price per kg of type B wheat. Shopkeeper cheated a costumer by saying that he will give him 200 kg of Type A wheat but shopkeeper gives 200 kg of mixture of Type A & Type B wheat on 10% above the cost price per kg of Type A 7 wheat. If shopkeeper made a total profit of $71\frac{8}{100}$ % in this transaction, then find ratio between quantity of Type B wheat to Type A wheat in sold mixture?

- (a) 2 : 5
- (b) 2 : 3

- (c) 1 : 3
- (d) 2 : 7
- (e) 1 : 5

FLAGGED - a stacked fraction collapsed into loose digits

85. Two farmers A & B have mixture of urea & Potassium in the quantity 1 of 120 kg and 80 kg respectively. The mixture of farmer A has 37 2 % potassium and the mixture of farmer B has 40% potassium. If farmer A used 60% of his mixture & B used 50% of his mixture and both gives their remaining mixture to farmer C, who have already an equal quantity of urea & Potassium. If ratio of urea & Potassium in resulting mixture of farmer C is 7 : 5, find total initial quantity of mixture farmer C had?
- (a) 24 kg
 - (b) 36 kg
 - (c) 32 kg
 - (d) 42 kg
 - (e) 48 kg

FLAGGED - a stacked fraction collapsed into loose digits

86. Vessel A, B and C contains mixture of milk and water. Ratio of the quantity of A, B and C is 25 : 20 : 18 respectively. In vessel A milk to water ratio is 2 : 3 and in vessel B water to milk ratio is 2 : 3. If vessel C contain milk to water ratio is 4 : 5 and all the mixture of 3 vessel poured to another vessel D then in vessel D quantity of water exceeds by 6 litres than the quantity of milk in that vessel. Find out the quantity of mixture contained in vessel A, B and C.
- (a) 50 Ltr., 40 Ltr., 36 Ltr
 - (c) 75 Ltr., 60 Ltr., 54 Ltr
 - (e) None of these
 - (b) 44 4
 - (d) 40 9 %

FLAGGED - a stacked fraction collapsed into loose digits

87. There are three fruit sellers Ramesh, Suresh and Vikash, all of them have a mixture of two types of apple. Ramesh has $(x+18)$ kg of apple, Suresh has 12 kg of apple more than that of Ramesh while Vikash has 3 kg of apple more than that of Suresh. The two types of Apple are mixed in the ratio of 5 : 3, 2 : 3 and 4 : 3 for them respectively. If Ramesh sold 16 kg of mixed apple and added 12 kg of second type of apple then the new ratio becomes 5 : 6 for him. Vikash added y kg of second type of apple to his mixture and thus the new ratio of both types for him is 1 : 1. Then find the value of y.
- (a) 8 kg
 - (b) 9 kg
 - (d) 6 kg
 - (e) 7 kg
 - (c) 48 9 % 4 9 % Publications@

FLAGGED - a stacked fraction collapsed into loose digits

88. Satish, Veer and Neeraj entered into a business by investing in the ratio of 4 : 6 : 3. After two years, Satish and Veer withdrew 25% and 1 33 3 % of their respective initial investment, while Neeraj added 50% of his initial investment more. If at the end of three years they received total profit of Rs. 93750, out of which 22.5% are used for maintaining business and the remaining profit was divided among them according to their investment ratio. Find difference between profit share of Satish and Neeraj?
- (a) 978.75 Rs
 - (b) 976.75 Rs
 - (c) 974.25 Rs
 - (d) 968.75 Rs
 - (e) 966.75 Rs

FLAGGED - a stacked fraction collapsed into loose digits

89. A, B and C enter into a partnership and invested some amount. After 1 one year A double its investment, B increase its investment by 33 3 % and C increase its investment by 20%. In the third year A and B withdraw their investments and D joins the partnership with C. After three year they got profit in the ratio of 12 : 14 : 17 : 8 (A : B : C : D). If difference between initial investment of B and C is 1150. Then Find out the total initial investment made by A and D together?
- (a) 12100
(b) 14400
(c) 13800
(d) 15000
(e) None of these 5 4 6

FLAGGED - a stacked fraction collapsed into loose digits

90. A, B and C entered into a partnership business, A invested Rs. x, B invested 25% more than A and C invested 20% more than B for first 6 months. After that A left the business and B withdraw 50% of his investment. B left the business after 3 more months whereas C 2 increased his investment by 16 3 % . If at the end of year difference between profit share of C and (A + B) together is Rs. 12375, then find profit share of C ?
- (a) 58500 Rs
(b) 56500 Rs
(c) 55680 Rs
(d) 55580 Rs
(e) 52680 Rs

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 91)

A article is mark up above cost price such that markup percent is double of the profit percent. If discount is 12.5%, then profit 1 percent increased by 33 3 %. 8. On selling 20 such article at 12.5% discount, profit is Rs.300. Find the M.P.

91. Initially shopkeeper have 20 articles. Out of 20, 7 articles damaged and remains unsold. Marked Price should he labeled by how much percent more than cost price so that his overall profit does not change neither his discount percentage.
- (a) 156%
(b) 146%
(c) 136%
(d) 120%
(e) 125%

FLAGGED - a stacked fraction collapsed into loose digits

92. A shopkeeper raised the marked price of an article by 60% and allow 1 2 three successive discounts of 12 2 %, 14 7 % and 20% on new MP and make a profit of 20%. If shopkeeper would allow only two discounts 1 of 12 2 % and 20% on new MP, he made a profit of Rs 800. Find the cost price of article?
- (a) 1800 Rs
(b) 2000 Rs
(c) 1600 Rs
(d) 2400 Rs
(e) 2800 Rs

FLAGGED - a stacked fraction collapsed into loose digits

93. There are three societies A, B and C. Ratio of total population of A, B and C is 2 : 3 : 5. In society A, 35% of total population is female. In 2 society B, number of females is 66 3 % less than number of males of society B. In society C, ratio of male to female is 27 : 23. Find total number of females is what percent less than total number of males in all societies together ? 1

(a) 33 3%
(b) 40%
(c) 60%
(d) 66 3 %
(e) 75%

FLAGGED - a stacked fraction collapsed into loose digits

94. A shopkeeper gives a discount of 19% on marked price of article A 1 and selling price of article B is 11 9 % more than selling price at article A. If shopkeeper made 20% profit on article B and selling price of article A was Rs. 840 more than cost price of article B, then find the cost price of article A. Shopkeeper sold article A at profit of 25%?

(a) 9070 Rs
(b) 9060 Rs
(c) 9040 Rs
(d) 9020 Rs
(e) 9072 Rs

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 95)

A sale conducted on Samsung mobiles store where Cost price of three types Samsung mobiles A, B and C in the ratio of 5 : 7 : 9. Store owner made mark price of mobile A and C, 30% above cost price and mobile B, 40% above cost price. Discounts allowed by store on mobiles A, B 5 3 1 and C are 15 13 %, 21 7 % and 11 9 % respectively.

95. A man purchased fourteen type A mobile, twenty type B mobile and fifteen type C mobile in sale. If store owner made a total profit of Rs. 17500 on all type A mobile, purchased by man than find total profit made by store owner on type B and type C mobiles, which was purchased by man?

(a) 82500 Rs
(b) 84500 Rs
(c) 78500 Rs
(d) 87500 Rs
(e) 88500 Rs

FLAGGED - a stacked fraction collapsed into loose digits

96. In a village 60% are males in which 6 3 % males are above 60 years, in 2 remaining 14 7 % males are below 18 years, out of remaining 1 62 2 % are above 18 years but below 50 years and remaining males are above 50 years but below 60 years. If difference between males above 60 years and males above 18 years but below 50 years are 7800, then find total female population of village?

(a) 16000
(b) 18000
(c) 20000
(d) 12000
(e) 24000 12

FLAGGED - a stacked fraction collapsed into loose digits

97. In a store marked price of a shirt is 33 jeans. There are two discounts schemes A & B. In Scheme A, if someone buy one jean and one shirt together, then store gives overall discount of 35%, while in scheme B if someone buy one shirt and one jeans separately, store give 20% discount on shirt and 25% on jeans. If difference between selling price of one jeans and one shirt in scheme A and B is Rs. 384 then find cost price of one jeans & one shirt, given that store made of 33 sold one jeans and one shirt in scheme B ?

- (a) 720 Rs, 1150 Rs
- (c) 786 Rs. 1168 Rs
- (e) 790 Rs. 1108 Rs
- (b) 21 17

FLAGGED - a stacked fraction collapsed into loose digits

98. Veer Invested X Rs. in SBI at the rate of 18% for 2 year and obtained a total simple interest of 6750 Rs. If he invested 2250 Rs. more for same 2 2 period time at the rate of 14 7 % for first year and at 16 3 % for 2nd year on compound annually. Then find the total compound interest obtained by Veer after 2 year ?

- (a) 6000 Rs
- (b) 5000 Rs
- (c) 3000 Rs
- (d) 7000 Rs
- (e) 5500 Rs

FLAGGED - a stacked fraction collapsed into loose digits

99. Satish borrowed Rs. 24000 from a SBI at the rate of 12 2 % compounded annually. If at the end of 1st, 2nd and 3rd year, he paid Rs. 7000, Rs. 6500 and Rs. 8000 respectively. If Satish wanted to clear his loan at the end of 4th year, what would he pay at the end of the fourth year to clear his loan ?

- (a) 11500 Rs
- (b) 11250 Rs
- (c) 10500 Rs
- (d) 9500 Rs
- (e) 14500 Rs

FLAGGED - a stacked fraction collapsed into loose digits

100. Aman invest Rs. $(x - 2000)$ in scheme 'P' which offers 20% CI pa while Rs. $(x + 2000)$ in scheme 'Q' which offers 8% SI pa. After 2 year difference between interest earn from scheme P and Q is 1600, then amount invested by Aman in scheme 'Q' is what percent more/less than amount invested by him in scheme 'P' ? 1

- (a) 75%
- (b) 133 3 %
- (c) 150%
- (d) 50%
- (e) 33 3 %

FLAGGED - a stacked fraction collapsed into loose digits

DIRECTIONS (Q. 101)

A sale conducted on Samsung mobiles store where Cost price of three types Samsung mobiles A, B and C in the ratio of 5 : 7 : 9. Store owner made mark price of mobile A and C, 30% above cost price and mobile B, 40% above cost price. Discounts allowed by store on mobiles A, B 5 3 1 and C are 15 13 %, 21 7 % and 11 9 % respectively.

101. Raghu invested Rs. 8400 and Rs. 9600 at the rate of $R\%$ and $(R + 5)\%$ respectively on simple interest for two years and gets total interest of Rs. 6360. If Raghu invested Rs.(8400 + P) and Rs.(9600 + P) at the rate of $R\%$ and $(R + 5)\%$ respectively on compound interest for two year, then he would get total interest of Rs. 8153. Find value of P?
- (a) 1800 Rs
(b) 1600 Rs
(c) 2200 Rs
(d) 2400 Rs
(e) 2600 Rs

FLAGGED - a stacked fraction collapsed into loose digits

102. Shikha and Sameer have equal amount. Shikha invested on C.I. for two 2 years at the rate of 10% p.a. and Sameer invested 66 3 % of amount at the rate of $R\%$ p.a. on simple interest and remaining amount at the rate of 6.5% p.a. on simple interest. If interest received by both at the end of two years are equal, then find the value of 'R'?
- (a) 10%
(b) 12.5%
(c) 15%
(d) 12%
(e) 8%

FLAGGED - a stacked fraction collapsed into loose digits

103. Speed of a car is 9 m/s and speed of bus is 14 7 % less to speed of car, bus and car covered different distance in different interval of time and the sum of the time taken by them to cover their respective distances is 10 hours but distance covered by bus is 80 km more than distance covered by car. If a train covered total distance which covered by car 2 and bus together in 6 3 hours, then find speed of train?
- (a) 96km/hr
(b) 84km/hr
(c) 78km/hr
(d) 72km/hr
(e) 64km/hr

FLAGGED - a stacked fraction collapsed into loose digits

104. Two trains running in opposite directions cross each other in 3 sec. Longer train cross shorter train in 60 sec when both train running in same direction. If length of shorter train increased by 50% then longer train cross shorter train in 72 sec, when both running in same direction. If difference between length of both trains is 60 meters, then find the time in which longer train will cross a platform whose length is 77 9 % more than length of longer train?
- (a) 20 sec
(b) 10 sec
(c) 15 sec
(d) 14 sec
(e) 18 sec

105. Two athletes 'A' and 'B' practice running on 800 meters' track. If they start running at their usual speeds, in same direction, at same time, from same point, first time they meet is in 100 seconds. During warm- 2 up, 'A' runs at $18\frac{11}{100}$ % of his usual speed and completes 400 meters in 50 second. Find the time taken by athlete 'B' to complete 9 rounds of 5 400-meter track, if he runs at $\frac{4}{5}$ of his usual speed. Assume athlete 'A' is faster than 'B'.

- (a) 100 second
- (b) 450 second
- (c) 90 second
- (d) 80 second
- (e) 85 second

106. Speeds of three motor boats A, B and C are equal and all cover 8 km of distance upstream in 48 minutes. Ratio between speed of motor boats and speed of stream is 6 : 1. On first day A starts in downstream from point P to Q, which shifts 9 km away from point P each day. On second day B starts from point P in downstream and reach at point Q in 4.5 hours, then find time take by C on third day to reach at point Q, (consider speed of stream same on all three days)?

- (a) $4\frac{7}{8}$ hours
- (b) $5\frac{1}{2}$
- (d) $2\frac{7}{8}$ hours
- (e) $9\frac{6}{8}$
- (c) 24 km/hr $\frac{3}{4}$ th of the $\frac{4}{3}$ of the time in upstream than in $1\frac{3}{4}$ % and cover a distance $3\frac{5}{4}$ hour 4 hour $1\frac{1}{7}$ hours 7 hours $1\frac{7}{8}$ hours Publications@

107. Sum of circumference of a circle and perimeter of a rectangle is 220 1 cm while area of circle is 1386 sq. cm. If length of rectangle is $33\frac{3}{4}$ % more than radius of the given circle then find the area of rectangle?

- (a) 408 cm²
- (b) 418 cm²
- (c) 428 cm²
- (d) 448 cm²
- (e) 438 cm²

DIRECTIONS (Q. 108)

; There are three toys which are in cylindrical, conical and spherical shape. Height of all the toys is same. Ratio between the height of cylinder to radius of cylinder is 4 : 3.

108. Volume of cone is what percent of the volume of sphere if radius of cone is equal to that of cylinder

- (a) 112.5%
- (b) 100%
- (c) 125%
- (d) 75%
- (e) $88\frac{9}{10}$ %
